UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549-1004

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
----- EXCHANGE ACT OF 1934 (NO FEE REQUIRED)

For the fiscal year ended December 31, 2001, Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
----- EXCHANGE ACT OF 1934 (NO FEE REQUIRED)

For the transition period from _____ to _____

Commission File Number 33-64325

REUNION INDUSTRIES, INC.

(Exact name of Registrant as specified in its charter)

DELAWARE

06-1439715

(State of Incorporation)

(I.R.S. Employer Identification No.)

11 STANWIX STREET, SUITE 1400, PITTSBURGH, PENNSYLVANIA 15236

(Address of principal executive offices, including zip code)

(412) 281-2111

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class: COMMON STOCK, \$.01 par value

Name of Each Exchange on Which Registered: AMERICAN STOCK EXCHANGE

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

At March 27, 2002, 15,590,619 shares of common stock were issued and outstanding. As of March 27, 2002, the aggregate market value of the voting stock held by non-affiliates of the registrant (computed by reference to the average of the high and low sales prices on the American Stock Exchange) was \$2,731,337.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

DOCUMENTS INCORPORATED BY REFERENCE: Part III, Items 10 through 13 are incorporated from the Registrant's definitive proxy statements to be filed within 120 days after the close of Reunion Industries's fiscal year.

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of regulation S-K is not contained herein, and will not be contained, to the best of the Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

FORWARD LOOKING STATEMENTS

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act which are intended to be covered by the safe harbors created thereby. The forward-looking statements contained in this report are enclosed in brackets [] for ease of identification. Note that all forward-looking statements involve risks and uncertainties. Factors which could cause the future results

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

and shareholder values to differ materially from those expressed in the forward-looking statements include, but are not limited to, the strengths of the markets which the Company serves, the Company's ability to execute its restructuring plan and sell assets at acceptable prices and the Company's ability to refinance certain of its debts. Although the Company believes that the assumptions underlying the forward-looking statements contained in this report are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurances that the forward-looking statements included or incorporated by reference in this report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included or incorporated by reference herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the Company's objectives and plans will be achieved. In addition, the Company does not intend to, and is not obligated to, update these forward-looking statements after filing and distribution of this report, even if new information, future events or other circumstances have made them incorrect or misleading as of any future date.

PART I

ITEM 1. BUSINESS

RECENT DEVELOPMENTS

The following is a list of recent developments related to Reunion Industries, Inc. that occurred during 2001. For a discussion of these developments, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

- * Restructuring and Other Actions
- * 2001 Covenant Compliance
- * Repayment of \$120,000 of 13% Senior Notes
- * Solicitation of Consent of Senior Noteholders
- * Acquisition of NPS Acquisition Corp.
- * Additional Shares of Reunion Common Stock
- * Payment of \$680,000 Industrial Revenue Development Bonds

GENERAL

Reunion Industries, Inc., a Delaware corporation ("Reunion Industries" or "Reunion"), is the successor by merger, effective March 16, 2000, of Chatwins Group, Inc. ("Chatwins Group") with and into Reunion Industries, Inc. The term "Company" is used throughout this report and refers to Reunion after the merger and Chatwins Group prior to the merger, as the acquirer for purposes of applying purchase accounting. Reunion Industries' executive offices are located at 11 Stanwix Street, Suite 1400, Pittsburgh, Pennsylvania 15222 and its telephone number is (412) 281-2111.

The Company owns and operates a diverse group of industrial manufacturing operations that design and manufacture engineered, high-quality products for specific customer requirements, such as large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders, leaf springs and precision plastic components. Until December 2001, the Company's products also included heavy-

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

duty cranes, bridge structures and materials handling systems. In December 2001, the Company classified its heavy-duty cranes, bridge structures and materials handling systems businesses as discontinued operations.

The Company's customers include original equipment manufacturers and end-users in a variety of industries, such as transportation, power generation, chemicals, metals, home electronics, office equipment and consumer goods. The Company's business units are organized into two major product categories:

* Metals manufactures and markets a broad range of fabricated and machined industrial metal parts and products including large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders and leaf springs. Metals serves original equipment manufacturers and end-users and has nearly 1,000 customers.

* Plastics manufactures precision molded plastic parts and provides engineered plastics services to more than 500 original equipment manufacturers.

- 4 -

Prior to the third quarter of 2001, the Company considered these product categories to be its reportable segments for financial reporting purposes. Due to the third quarter 2001 downturns in the markets for several of the Company's Metals product lines and the resulting significant variation in product line gross margins, the Company realigned Metals' reportable segments into its five separate Metals' product segments. The Company then classified two Metals' segments as discontinued operations in the fourth quarter of 2001 and combined two similar product segments, resulting in two reportable segments: pressure vessels and springs; cylinders. Plastics continues to be reported as a single segment.

General information about each of Reunion Industries' principal businesses is set forth below under the captions "Metals" and "Plastics."

Reunion Industries' Certificate of Incorporation includes certain capital stock transfer restrictions which are designed to prevent any person or group of persons from becoming a 5% shareholder of Reunion Industries and to prevent an increase in the percentage stock ownership of any existing person or group of persons that constitutes a 5% shareholder by prohibiting and voiding any transfer or agreement to transfer stock to the extent that it would cause the transferee to hold such a prohibited ownership percentage. [The transfer restrictions are intended to help assure that Reunion Industries' net operating loss carryforwards will continue to be available to offset future taxable income by decreasing the likelihood of an "ownership change" (measured over a three year testing period) for federal income tax purposes.] The transfer restrictions do not apply to transfers approved by Reunion Industries' Board of Directors if such approval is based on a determination that the proposed transfer will not jeopardize the full utilization of Reunion Industries' net operating loss carryforwards.

METALS

Metals designs, manufactures and markets a broad range of fabricated and machined industrial metal parts and products to original equipment manufacturers and end-users through its manufacturing divisions. Metals includes:

CPI - CPI, founded in 1897 and located in McKeesport, Pennsylvania, specializes in manufacturing large, seamless pressure vessels for the above ground storage and transportation of highly pressurized gases such as natural gas, hydrogen, nitrogen, oxygen and helium. These pressure vessels are

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

provided to customers such as industrial gas producers and suppliers, the alternative fueled vehicle compressed natural gas fuel industry, chemical and petrochemical processing facilities, shipbuilders, NASA, public utilities and gas transportation companies.

Hanna - Hanna, founded in 1901 with locations in Chicago, Illinois and Milwaukee, Wisconsin, designs and manufactures a broad line of hydraulic and pneumatic cylinders, actuators, accumulators and manifolds. These products are used in a wide variety of industrial and mobile machinery and equipment requiring the application of force in a controlled and repetitive process.

Hanna's specialty is custom cylinders in both small quantities packaged by its distributors with valves, pumps and controls as complete fluid power systems and large quantities sold directly to equipment manufacturers. As part of the Company's plan to restructure its continuing operations, Hanna's Chicago and Milwaukee operations are being combined in a leased facility in Libertyville, Illinois.

- 5 -

Steelcraft - Steelcraft, founded in 1972 and located in Miami, Oklahoma, manufactures and sells cold-rolled steel leaf springs. Its principal customers are manufacturers of trailers for boats, small utility vehicles and golf carts and makers of recreational vehicles and agricultural trailers. In anticipation of entering the pressure vessel trailer market, in the fourth quarter of 2001 the Company realigned its management and financial reporting to include leaf springs with pressure vessels.

Alliance - Alliance, founded in 1901 and located in Alliance, Ohio, designs, engineers and manufactures a variety of equipment including heavy-duty cranes used in a wide range of steel and aluminum mill applications, large special purpose cranes used in marine and aerospace applications and heavy industrial plants and lighter duty cranes for various industrial applications, coke oven machinery and other large steel-related fabrications. Early in 2000, Alliance also entered the steel bridge fabrication market. Alliance also offers maintenance and repair services for all of the equipment it manufactures. Alliance is classified as a discontinued operation in the report.

Kingway - Kingway, which represents Chatwins Group's former Auto-Lok division founded in 1946 and combined with Kingway at the time of the acquisition, is located in Acworth, Georgia. Kingway manufactures roll formed and structural steel fabricated storage racks for industrial and commercial materials handling systems and general storage applications. Kingway also manufactures gravity flow racking and computer assisted picking systems for the order selection segment of the materials handling systems industry. In addition, Kingway participates on larger contracts in the sale of total materials handling systems through purchasing and reselling related components such as decking and carton flow devices, and subcontracting of rack erection. Kingway is classified as a discontinued operation in this report.

Markets and Customers. Metals operates in mature markets. Most of Metals' products are sold in highly competitive markets both in the U.S. and internationally and compete with a significant number of companies of varying sizes, including divisions or subsidiaries of larger companies, on the basis of price, service, quality and the ability to supply customers in a timely manner. Many of Metals' competitors have financial and other resources that are substantially greater than those of the Company. [Competitive pressures or other factors could cause us to lose market share or erode prices which could negatively impact the Company's results of operations.]

Although individual customers have accounted for more than 10% of Metals'

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

sales in prior years, during 2001, no customer accounted for more than 7%.

Sales and Marketing. Metals markets and distributes its products in a variety of ways including in-house marketing and sales personnel at all of its divisions, domestic independent and manufacturer representatives, domestic and international agents and North American networks of independent distributors that specialize in metal products and the specific products of each division.

Raw Materials. The major raw materials used by Metals include steel hot- and cold-rolled bands, structural bars, stainless steel coils, welded and seamless steel tubing and pipe, steel alloy bars, steel plates, brass tubing and bars and aluminum extrusions, all of which are supplied by various domestic sources. Prices for most of these raw materials used by the Company declined slightly during 2001 due to an over-supply of domestic steel and foreign steel imports into U.S. markets. [There can be no assurance that prices for these and other raw materials used by the Company will not increase in the future.]

- 6 -

Research and Development. The majority of Metals' research and development work is related to improving the quality and performance of its existing products, meeting design requirements and specifications of its customers that require customized products and developing greater production efficiencies. To meet these objectives, there are engineering departments at all major metals manufacturing divisions. Metals' business is not materially dependent on any patents, licenses or trademarks.

PLASTICS

ORCplastics manufactures plastic products and provides engineered plastics services through its two divisions: thermoplastics and thermoset plastics.

Founded in 1964 as Oneida Molded Plastics, the thermoplastics division designs and produces injection molded parts and provides secondary services, such as hot stamping, welding, printing, painting and assembly of such products, and designs and builds custom molds at its tool shop in order to produce component parts for specific customers. The thermoplastics division's principal products consist of specially designed and manufactured components for office equipment; business machines; computers and peripherals; telecommunications, packaging and industrial equipment; and recreational and consumer products.

Founded in 1927 as Rostone, the thermoset plastics division compounds and molds thermoset polyester resins. The thermoset plastics division's principal products consist of specially designed and manufactured components for original equipment manufacturers in the electrical, transportation, appliance and office equipment industries. The thermoset plastics division is also a compounder of proprietary fiberglass reinforced materials used in a number of customer applications.

Thermoplastics Division

Markets and Customers. The markets in which the thermoplastics division competes have sales in excess of \$25 billion per year. These markets are highly competitive. The principal competitors are international companies with multi-plant operations based in the United States, Germany, France and Japan, as well as approximately 3,800 independent companies located in the United States engaged in the custom molding business. Most of these companies are privately owned and have sales volumes ranging from \$3 million to \$7

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

million per year. In addition, approximately one-half of the total injection molding market is supplied by in-house molding shops. The thermoplastics division competes on the basis of customer service, product quality and price.

During 2001, one customer accounted for approximately 12% of the thermoplastics division's sales (7% of Plastics sales). [The loss of this customer could have a material adverse effect on the results of operations of the thermoplastics division]. The thermoplastics division continues to diversify its customer base and has approximately 500 customers in the various industries described above. ORCplastics continues to seek additional customers in the business machines, consumer products and medical products industries. [We believe that these new customers provide future growth opportunities for the division.]

Sales and Marketing. Sales of products are made through an internal sales staff and a network of independent manufacturers' representatives working from nine separate regional offices throughout the eastern United States. The division generally pays commissions of between 2% and 5% percent of sales based upon volume.

- 7 -

Raw Materials. The principal raw materials used by the thermoplastics division are thermoplastic polymers. These materials are available from a number of suppliers. [Prices for these materials are affected by changes in market demand, and there can be no assurances that prices for these and other raw materials will not increase in the future. The division's contracts with its customers generally provide that such price increases can be passed through to the customers.]

Research and Development. The majority of the thermoplastics division's research and development work is related to meeting design requirements and specifications of its customers that require customized products and developing greater production efficiencies. To meet these objectives, the division has engineering personnel at each of its manufacturing locations. The division's business is not materially dependent on any patents, licenses or trademarks.

Thermoset Plastics Division

Markets and Customers. The thermoset plastics division competes in a market with a limited number of privately owned competitors and in-house molders on the basis of product specifications, customer service and price. During 2001, one customer accounted for approximately 22% of the thermoset plastics division's sales (9% of Plastics sales). [The loss of this customer could have a material adverse effect on the thermoset plastics division's results of operations. The thermoset plastics division continues to seek new customers in the industries described previously and in other industries.]

Sales and Marketing. Sales of thermoset plastics products are made through an internal sales staff and a network of independent representatives working from ten separate offices throughout the central United States. The thermoset plastics division generally pays commissions of between 3% and 5% of sales based on volume.

Raw Materials. The principal raw materials used by the thermoset plastics division are styrene, polyester resins, fiberglass and commercial phenolics. These materials are available from a number of suppliers. [Prices and availability of these materials are affected by changes in market demand, and there can be no assurances that prices for these and other raw materials used by the thermoset plastics division will not increase in the future.]

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

When possible, if shortages occur, the thermoset plastics division engineers new products to provide its customers a cost-effective alternative to the material in short supply.

Research and Development. Research and development at the thermoset plastics division is focused on the development of proprietary thermoset materials under the trade name Rosite. The thermoset plastics division compounds a wide range of Rosite materials to satisfy its customers' various needs. The thermoset plastics division also provides services in meeting customers' design requirements and specifications of their customized products. Other than Rosite, the thermoset plastics division's business is not materially dependent on any patents, licenses or trademarks.

		=====		

- (1) EBITDA is presented as it is the primary measurement used by management in assessing segment performance and not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt.
- (2) Headquarters total assets at December 31, 2001 is primarily comprised of goodwill. Headquarters total assets at December 31, 2000 is primarily comprised of goodwill and deferred tax assets. At December 31, 2001, the goodwill relates to the Company's pressure vessel and springs segment and the cylinders segment. Because of the historically positive operating results and cash generation of the pressure vessel and springs segment, management does not consider its related goodwill to be impaired as of December 31, 2001. Also, management does not consider the cylinders segment goodwill to be impaired as the Company believes this segment is in a temporary cyclical downturn.
- (3) Includes the gain of \$2.4 million on sale of the land and building of the Company's Chicago, IL hydraulic cylinder location.
- (4) Includes the gain of \$4.9 million on sale of the Company's Irish plastics operation.
- (5) Excludes amortization of debt issuance expenses of \$1,011,000, \$897,000 and \$1,308,000 for the years ended December 31, 2001, 2000 and 1999, respectively, which is included in interest expense.

- 10 -

ENVIRONMENTAL REGULATION

Various U.S. federal, state and local laws and regulations including, without limitation, laws and regulations concerning the containment and

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

disposal of hazardous waste, oil field waste and other waste materials, the use of storage tanks, the use of insecticides and fungicides and the use of underground injection wells directly or indirectly affect the Company's operations. In addition, environmental laws and regulations typically impose "strict liability" upon the Company for certain environmental damages. Accordingly, in some situations, the Company could be liable for clean up costs even if the situation resulted from previous conduct of the Company that was lawful at the time or from improper conduct of, or conditions caused by, previous property owners, lessees or other persons not associated with the Company or events outside the control of the Company. [Such clean up costs or costs associated with changes in environmental laws and regulations could be substantial and could have a materially adverse effect on the Company's consolidated financial position, results of operations or cash flows.]

Except as described in the following paragraphs, the Company believes it is currently in material compliance with existing environmental protection laws and regulations and is not involved in any significant remediation activities or administrative or judicial proceedings arising under federal, state or local environmental protection laws and regulations. In addition to management personnel who are responsible for monitoring environmental compliance and arranging for remedial actions that may be required, the Company has also employed outside consultants from time to time to advise and assist the Company's environmental compliance efforts. Except as described in the following paragraphs, the Company has not recorded any accruals for environmental costs.

In February 1996, Reunion was informed by a contracted environmental services consulting firm that soil and ground water contamination exists at its Lafayette, Indiana site. Since then, the Company has expended \$376,000 of remediation costs and accrued an additional \$20,000.

In connection with the sale of its former oil and gas operations, pre-merger Reunion retained certain oil and gas properties in Louisiana because of litigation concerning environmental matters. The Company is in the process of environmental remediation under a plan approved by the Louisiana Department of Natural Resources Office of Conservation (LDNROC). The Company has recorded an accrual for its proportionate share of the remaining estimated costs to remediate the site based on plans and estimates developed by the environmental consultants hired by the Company. During 1999, the Company conducted remediation work on the property. The Company paid \$172,000 of the total cost of \$300,000. Regulatory hearings were held in January 2000 and 2001 to consider the adequacy of the remediation conducted to date. In August 2001, LDNROC issued its order for the Company to complete the soil remediation under the plan approved in 1999 and to perform additional testing to determine to what extent groundwater contamination might exist. The Company's environmental consultant is in the process of updating the estimate of the costs to comply with this order, [but the Company does not believe that the cost of future remediation will exceed the amount accrued]. No remediation was performed in 2000 or 2001 pending the decision. However, the Company has paid \$232,000 for its share of consulting services in connection with the hearings. At December 31, 2001, the balance accrued for these remediation costs is approximately \$1,076,000. Owners of a portion of the property have objected to the Company's cleanup methodology and have filed suit to require additional procedures. The Company is contesting this litigation, and believes its proposed methodology is well within accepted industry practice for remediation efforts of a similar nature. No accrual has been made for costs of any alternative cleanup methodology which might be imposed as a result of the litigation.

- 11 -

On March 15, 2002, the Company received a Request for Information from

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

the United States Environmental Protection Agency (USEPA) regarding the Gambonini Mine Site in Marin County, California. The Company is currently gathering the information requested by the USEPA and is cooperating fully with this request. At this time, the Company has not been formally named as a potentially responsible party. As such and because the extent of the Company's involvement with the Gambonini Mine Site is not known, the Company has not made any assessment of potential liability, if any.

Employees

At December 31, 2001, Reunion Industries employed 1,045 full time employees, of whom 683 were employed in Metals and 345 were employed in Plastics. There were 17 corporate employees. The Company believes its relations with its employees are good.

A breakdown of the Company's workforce by location and function at December 31, 2001 is as follows.

Group	Location	Manufacturing		General and Administrative		Total
		Union	Non-Union	Union	Non-Union	
Metals:						
	Alliance, OH	108(1)			36	144
	Acworth, GA		188		48	236

Corporate:						
	Pittsburgh, PA				14	14
	Stamford, CT				3	3
	Totals	348	458	8	231	1,045

- (1) United Steelworkers of America - Contract expires June 14, 2002.
- (2) United Steelworkers of America - Contract expires May 31, 2006.
- (3) United Steelworkers of America - Contract expires May 31, 2006.
- (4) International Brotherhood of Electrical Workers - Contract expires February 27, 2003.

The employees in Beijing, China are Chinese nationals and relate to seamless pressure vessel sales efforts in that region. These employees are not covered by a union nor are they covered by any benefit or insurance plans sponsored by the Company.

As of December 31, 2001, approximately 34% of the Company's workforce was covered by collective bargaining agreements including approximately 10% covered by an agreement that expires within one year of December 31, 2001. This agreement relates to the workforce of the Company's discontinued bridges

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

and cranes operations in Alliance, Ohio and will not be renewed or renegotiated.

- 12 -

ITEM 2. PROPERTIES

The Company has a total of 102.3 acres and approximately 1.9 million square feet under roof being used for ongoing operations. Except for CPI's sales office in Beijing, China, Plastics' administrative headquarters in Charlotte, NC and the Company's corporate sites in Pittsburgh, PA and Stamford, CT, which are administrative, all locations are both manufacturing and administrative facilities:

Group	Location	Approx. Square Feet	Land Acres	Title	Expiration Date
Metals:	McKeesport, PA	603,000	37.0	Owned	-
	Beijing, China	1,000	-	Leased	10/31/02

As part of its corporate-wide restructuring plan, [the Company intends to shut-down and/or dispose of its facilities in Alliance, OH, Milwaukee, WI, Acworth, GA, Exeter, NH, Charlotte, NC and Siler City, NC.] The operations of the Company's Milwaukee, WI facility have been relocated to its leased facility in Libertyville, IL. [The Company intends to relocate the operations of its Chicago, IL facility to Libertyville, IL by June 2002.] The Company also owns 92.7 acres of idle farm land adjacent to its former Ipsen facility in Boone County, IL, which were retained by the Company after the Ipsen sale. The Company is currently pursuing the disposition of this land.

In connection with the sale of its oil and gas business in Louisiana, Reunion Industries retained certain oil and gas properties in Louisiana because of litigation concerning environmental matters. [Reunion Industries intends to sell these properties when the litigation is resolved.]

Reunion Industries holds title to or recordable interests in federal and state leases totaling approximately 55,000 acres near Moab, Utah, known as Ten Mile Potash. Sylvanite, a potash mineral, is the principal mineral of interest and occurrence in the Ten Mile Potash property. To date, Ten Mile Potash has not yielded any significant revenues from mining operations or any other significant revenues, and Reunion Industries is pursuing the sale or farmout of these interests.

Reunion Industries subleases, from Stanwich Partners, Inc., a related

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

party, approximately 1,500 square feet of office space in Stamford, Connecticut for its corporate office there. Management believes the terms of this sublease are comparable to those available from third parties.

The Company believes that all of its facilities have been in operation for a sufficient period of time to demonstrate their suitability for their individual purposes. [The production capacities of the Company's facilities are believed by the Company to be sufficient for the Company's anticipated future needs after restructuring activities.]

- 13 -

ITEM 3. LEGAL PROCEEDINGS

Certain litigation in which Reunion Industries is involved is described below.

In June 1993, the U.S. Customs Service (Customs) made a demand on Chatwins Group's former industrial rubber distribution division for \$612,948 in marking duties pursuant to 19 U.S.C. Sec. 1592. The duties are claimed on importations of "unmarked" hose products from 1982 to 1986. Following Chatwins Group's initial response raising various arguments in defense, including expired statute of limitations, Customs responded in January 1997 by reducing its demand to \$370,968 and reiterating that demand in October 1997. Chatwins Group restated its position and continues to decline payment of the claim. Should the claim not be resolved, Customs threatens suit in the International Courts of Claims. The Company continues to believe, based on consultation with counsel, that there are facts which raise a number of procedural and substantive defenses to this claim, which will be vigorously defended. There is no applicable insurance coverage.

In December 1999, a stockholder of Reunion filed a purported class-action lawsuit in Delaware Chancery Court alleging, among other things, that Reunion's public stockholders would be unfairly diluted in the merger with Chatwins Group. The lawsuit sought to prevent completion of the merger and, the merger having been completed, seeks rescission of the merger or awarding of damages. The lawsuit remains in the initial stages of discovery. Reunion intends to vigorously contest the suit.

The Company has been named as a defendant in fifteen consolidated lawsuits filed in December 2000 or early 2001 in the Superior Court for Los Angeles County, California, three of which are purported class actions asserted on behalf of approximately 200 payees. The plaintiffs in these suits except one are structured settlement payees to whom Stanwich Financial Services Corp. (SFSC) is indebted. The Company and SFSC are related parties.

In addition to the Company, there are numerous defendants in these suits, including SFSC, Mr. Bradley, the sole shareholder of SFSC's parent, several major financial institutions and certain others. All of these suits arise out of the inability of SFSC to make structured settlement payments when due. Pursuant to the court's order, plaintiffs in the purported class actions and plaintiffs in the individual cases actions filed a model complaint. Except for the class allegations, the two model complaints are identical. The plaintiffs seek compensatory and punitive damages, restoration of certain alleged trust assets, restitution and attorneys' fees and costs.

The plaintiffs in one of the suits are former owners of a predecessor of SFSC and current operators of a competing structured settlement business. These plaintiffs claim that their business and reputations have been damaged by SFSC's structured settlement defaults, seek damages for unfair competition and purport to sue on behalf of the payees.

The plaintiffs allege that the Company borrowed funds from SFSC and has

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

not repaid these loans. The plaintiffs' theories of liability against the Company are that it is the alter ego of SFSC and Mr. Bradley and that the Company received fraudulent transfers of SFSC's assets. The plaintiffs also assert direct claims against the Company for inducing breach of contract and aiding and abetting an alleged breach of fiduciary duty by SFSC.

- 14 -

On June 25, 2001, SFSC filed a Chapter 11 Bankruptcy Petition in the U.S. Bankruptcy Court for the District of Connecticut. SFSC filed an adversary proceeding in the bankruptcy case against the plaintiffs seeking a declaration that the structured settlement trust assets are the property of the bankruptcy estate. On July 16, 2001, the bankruptcy court granted a temporary restraining order enjoining the plaintiffs from prosecuting their claims against the Company, SFSC, Mr. Bradley and others. As a result of this restraining order of the bankruptcy court, the Company entered a standstill agreement with the plaintiffs on August 22, 2001. Pursuant to the standstill agreement, and the stipulation of the parties to the SFSC bankruptcy case, the plaintiffs agreed to take no further action to prosecute any claim in the litigation against the Company, Mr. Bradley and others to recover any structured settlement trust assets or any derivative claims or claims based on allegations of alter ego, fraudulent transfer or conversion. The plaintiffs did not agree to waive or release their direct personal claims against the Company for damages, but the plaintiffs agreed to cease and desist the prosecution of those claims until no earlier than sixty days following service of written notice to the Company stating that they have elected to unilaterally terminate the standstill agreement.

Plaintiffs filed second amended model complaints in the class actions and individual cases on August 24, 2001. Both model complaints allege causes of action against the Company for interference with contract and aiding and abetting breach of fiduciary duty. However, pursuant to the standstill agreement, the plaintiffs are taking no action to prosecute these claims against the Company at this time.

Certain of the financial institution defendants have asserted cross-complaints against the Company for implied and express indemnity and contribution and negligence. The Company denies the allegations of the plaintiffs and the cross-complainant financial institutions and intends to vigorously defend against these actions and cross-actions.

The Company has been named in approximately 250 separate asbestos suits filed since January 1, 2001 by three plaintiffs' law firms in Wayne County, Michigan. The claims allege that cranes from the Company's crane manufacturing location in Alliance, OH were present in various parts of McLouth and Great Lakes Steel Mills in Wayne County, Michigan and that those cranes contained asbestos to which plaintiffs were exposed over a 40 year span. Counsel for the Company has filed an answer to each complaint denying liability by the Company and asserting all alternative defenses permitted under the Court's Case Management Order. Counsel for the Company has negotiated dismissal of 95 cases without any cost to the Company. The Company denies that it manufactured any products containing asbestos or otherwise knew or should have known that any component part manufacturers provided products containing asbestos. The Company intends to vigorously defend against these lawsuits.

On July 10, 2001, a lawsuit that alleges personal injury from asbestos exposure was filed in the Superior Court for San Francisco County in California against greater than fifty defendants, including Oneida Rostone Corporation (ORC), pre-merger Reunion's Plastics subsidiary and the Company's Plastics Group. In October 2001, Allen-Bradley Company, a former owner of the Rostone business of ORC, agreed to defend and indemnify Reunion in this

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

lawsuit pursuant to a contractual obligation to do so. As of March 15, 2002, 43 separate actions in various states have been brought against the Company and all actions are being defended by the prior owners.

- 15 -

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None in the fourth quarter of 2001.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Reunion Industries' common stock is traded on the American Stock Exchange (RUN) since March 23, 2000. Previously, Reunion Industries' common stock was traded in the over-the-counter market and was listed on the NASDAQ Small-Cap Market (RUNI). The stock was also listed on the Pacific Exchange (RUN) until July 5, 2000.

As of March 15, 2002, there were 1,261 holders of record of Reunion Industries' common stock with an aggregate of 15,590,619 shares outstanding.

The table below reflects the high and low sales prices on the NASDAQ Small-Cap Market for the pre-merger quarterly period and on the American Stock Exchange for the post-merger quarterly periods in the two years ended December 31, 2001. The NASDAQ Small-Cap quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

QUARTER ENDED	High	Low
-----	-----	-----
2001		
March 31.....	\$1.850	\$1.100
June 30.....	\$1.600	\$0.870
September 30.....	\$1.490	\$0.700
December 31.....	\$0.740	\$0.210
2000		
March 31.....	\$3.625	\$1.875
June 30.....	\$2.500	\$0.938
September 30.....	\$2.125	\$1.625
December 31.....	\$2.000	\$0.875

No cash dividends have been declared or paid during the past three years with respect to the common stock. The Board of Directors currently follows a policy of retaining any earnings for operations and for the expansion of the business of the company. Cash dividends are also limited by the availability of funds, including limitations contained in Reunion Industries' lending agreements. [Therefore, Reunion Industries anticipates that it will not pay any cash dividends on its common stock in the foreseeable future.]

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected historical consolidated financial data of the Company. All data are reported in thousands, except for per-share data. The selected financial data are derived from the consolidated financial statements presented in Item 14 and should be read in conjunction with such consolidated financial statements and related notes. Historical data have been restated for the classifications of the Company's bridges and cranes and materials handling systems operations as discontinued operations.

Year Ended December 31,	2001	2000	1999(1)	1998(1)	1997(1)
	-----	-----	-----	-----	-----

	=====	=====	=====	=====	=====
Stockholders' equity (deficit)(10)	(17,169)	21,559	(7,870)	(8,594)	(6,863)
	=====	=====	=====	=====	=====
EBITDA(11):	\$ (880)	\$ 17,738	\$ 6,817	\$ 10,354	\$ 9,094
	=====	=====	=====	=====	=====

(1) Represents historical financial data of Chatwins Group as Chatwins Group was considered the acquirer in the merger. The Company has restated such financial data for the classifications of its bridges and cranes and materials handling systems segments as discontinued operations.

(2) Includes amortization of debt issuance expenses of the following amounts for the following years: 2001: \$1,011; 2000: \$897; 1999: \$1,308; 1998: \$671 and 1997: \$550.

(3) See note 12 to the consolidated financial statements. Due primarily to the use of net operating loss carryforwards, Chatwins Group's actual cash payments, net of refunds, relating to state and federal income taxes for the year December 31, 1997 was \$205. In 1998, Chatwins Group had a net refund of \$139. In 1999, Chatwins Group paid \$279. In 2000, Reunion paid \$322. In

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

2001, Reunion had a net refund of \$119.

(4) In determining income (loss) from continuing operations applicable to common stock, income from continuing operations is reduced by accretions of dividends on preferred stock of \$95 in 2000 and \$456 in each of the years 1999 through 1997.

- 19 -

(5) Weighted average shares outstanding for the year ended December 31, 1999 through 1997 have been restated to give retroactive effect to the recapitalization of Chatwins Group in connection with the merger.

(6) Accounting rules do not require restatement of the statement of cash flows upon the classification of a segment as a discontinued operation.

(7) Excludes amortization of debt issuance expenses and depreciation and amortization related to discontinued operations. See note (2) above.

(8) Excludes capital expenditures of discontinued operations.

(9) Excludes borrowings under revolving credit facilities and includes current maturities of 13% senior notes for 1997 through 2000.

(10) Stockholders' equity has been reduced by accretions for redemption value of and dividends on redeemable preferred stock of \$15.0 million through December 31, 2000.

(11) EBITDA is calculated as follows:

	2001	2000	1999(1)	1998(1)	1997(1)
	-----	-----	-----	-----	-----
Income (loss) from continuing operations before taxes	\$(16,275)	\$ 5,831	\$ (658)	\$ (395)	\$ 2,060
Interest expense, net (2)	7,057	6,972	5,261	5,140	5,227
Depreciation and amortization(7)	5,392	4,639	1,648	1,553	1,434
Write-off of impaired goodwill	2,946	-	-	-	-
Equity loss from continuing operations of affiliate	-	296	566	4,056	373
	-----	-----	-----	-----	-----
EBITDA	\$ (880)	\$ 17,738	\$ 6,817	\$ 10,354	\$ 9,094
	=====	=====	=====	=====	=====

EBITDA is presented in the Selected Historical Financial Data, not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt and due to the close relationship it bears to Reunion's financial covenants in its borrowing agreements.

- 20 -

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis is provided to assist readers in understanding the Company's financial performance during the periods presented and significant trends which may impact the future performance of the Company. It should be read in conjunction with the consolidated financial statements and accompanying notes included elsewhere in this Form 10-K.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

The Company has announced a plan to restructure its continuing operations and dispose of or shut-down other businesses. Such businesses are being reported as discontinued operations. Therefore, prior year information has been restated for comparative purposes and the following discussion of results of operations is separated into continuing and discontinued operations.

GENERAL

The Company owns and operates a diverse group of industrial manufacturing operations that design and manufacture engineered, high-quality products for specific customer requirements, such as large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders, leaf springs and precision plastic components. Until December 2001, the Company's products also included heavy-duty cranes, bridge structures and materials handling systems. The Company classified its heavy-duty cranes, bridge structures and materials handling systems businesses as discontinued operations.

The Company's customers include original equipment manufacturers and end-users in a variety of industries, such as transportation, power generation, chemicals, metals, home electronics, office equipment and consumer goods. The Company's business units are organized into two major product categories:

Metals manufactures and markets a broad range of fabricated and machined industrial metal parts and products including large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders and leaf springs. Metals serves original equipment manufacturers and end-users and has nearly 1,000 customers.

Plastics manufactures precision molded plastic parts and provides engineered plastics services to more than 500 original equipment manufacturers.

Prior to the third quarter of 2001, the Company considered these product categories to be its reportable segments for financial reporting purposes. Due to the third quarter 2001 downturns in the markets for several of the Company's Metals product lines and the resulting significant variation in product line gross margins, the Company realigned Metals' reportable segments into its separate Metals' product segments. The Company then classified two Metals' segments as discontinued operations in the fourth quarter of 2001 and combined two similar product segments, resulting in two reportable segments: pressure vessels and springs; cylinders. Plastics continues to be reported as a single segment.

RECENT DEVELOPMENTS

Restructuring and Other Actions

As the result of downturns in several of the markets served by the Company during the third and fourth quarters of 2001 and the resulting decreases in the Company's ability to absorb costs and the quality of its borrowing base, management of the Company has developed a plan to restructure its continuing businesses and dispose of or shut-down other businesses. These actions are designed to improve productivity and operating performance, reduce debt and provide liquidity. [The benefits of these actions are anticipated to begin to be realized in 2002 and continue over the next several years.]

- 21 -

Key elements of the plan include:

RESTRUCTURING

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

- * Consolidate the pressure vessel operations of CPI and NPSAC.
- * Consolidate the cylinder operations of Hanna and TJ Brooks.
- * Shut-down Plastics' thermoplastics operations at Siler City, NC.
- * Close Plastics' corporate headquarters in Charlotte, NC.
- * Address machinery and equipment impairments.

DISCONTINUED OPERATIONS

- * Shut-down and liquidate the assets and business of Alliance Machine.
- * Dispose of the Kingway Material Handling division.

In April 2001, the Company entered into a non-binding letter of intent for the sale of substantially all of the assets of Alliance for \$3.3 million in cash plus the assumption by the buyer of certain liabilities. Consummation of this sale is subject to certain conditions, including the execution of a definitive asset purchase agreement, and there can be no assurance that the transaction will close on the terms set forth in the letter of intent or at all.

The plan was approved by the Company's board of directors in December 2001. The Company has recorded a fourth quarter 2001 charge for restructuring costs, including facility shut-down costs, lease termination costs and asset writedowns, including impaired goodwill related to Plastics, and a charge for estimated loss on disposal of discontinued operations (related solely to Alliance Machine) including phase-out period operating losses, lease termination costs and asset writedowns.

Components of the fourth quarter 2001 charges are as follows:

	Classifications of Charges	
	Provision for Restructuring	Discontinued Operations
Metals:		
Asset impairments	\$ 613	\$ 3,771
Lease termination costs	927	995
Reserve for operating losses during phase-out	-	1,633
Employee separations	20	-
	1,560	6,399
Plastics:		
Asset impairments	2,060	-
Goodwill impairment	2,946	-
Lease termination costs	245	-
	5,251	-
Total charges	\$ 6,811	\$ 6,399
	=====	=====

The \$1.6 million charge for discontinued operations phase-out includes \$1.4 million for operating losses and \$0.2 million for employee separations costs.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

[The cash outlay related to the charges is anticipated to occur during 2002. Management also anticipates incurring other charges and cash outlays in 2002 in order to fully execute the plan. Components of the estimated cash impacts of the plan anticipated to occur in 2002 are as follows:

	Classification of Cash Impacts	
	Restructuring	Discontinued Operations
Total charges	\$ 6,811	\$ 6,399
Less: Non-cash components	(5,619)	(3,771)
Estimated cash impacts of charges	1,192	2,628
Other anticipated cash outlays:		
Relocation costs	750	-
Phase-out period operating losses	730	-
Total estimated cash impacts	\$ 2,672	\$ 2,628

Execution of the plan began in January 2002 and [is expected to be completed by June 2002 but by no later than the end of 2002]. Benefits of the plan include cost reductions from streamlining operations, reducing operating losses at historically unprofitable businesses and interest savings from reduced debt. [Management estimates indicate that the present value of these benefits significantly exceeds the near-term estimated costs to execute the plan.]

2001 Covenant Compliance

See "LIQUIDITY AND CAPITAL RESOURCES" for a discussion of 2001 covenant compliance.

Semi-Annual Interest on 13% Senior Notes due November 1, 2001

The Company was unable to fund its November 1, 2001 \$1.616 million semi-annual interest payment on its 13% senior notes as it had insufficient funds available under its revolving credit facility with BOA. Failure to make the November 1 interest payment is a default under the indenture which governs the 13% senior notes. Under the terms of the indenture, the Company had thirty days to cure the default. The Company was unable to cure the default during the 30-day cure period.

Management of the Company has been in contact with certain of the note holders and holders representing approximately ninety percent of the principal amount of senior notes outstanding. As part of its corporate-wide restructuring plan, management of the Company has determined to dispose of assets in order to meet its interest payment obligations under the 13% senior notes.

Repayment of \$120,000 of 13% Senior Notes

Chatwins Group was required to make sinking fund payments to redeem \$12.5 million principal amount of the senior notes on May 1 in each of 2000 through 2003 at face value plus accrued interest and to offer to purchase \$25 million of the senior notes on June 1, 2000 at face value plus accrued interest. In February 2000, Chatwins Group solicited the holders of the \$49,975,000 of 13%

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

senior notes outstanding asking them to waive their right to participate in the June 1, 2000 \$25.0 million purchase offer, of which \$47,450,000 agreed to waive such right resulting in a maximum purchase offer obligation on June 1, 2000 of \$2,525,000.

- 23 -

On June 1, 2000 Reunion made the required offer to purchase \$2,525,000 of senior notes, of which holders of only \$120,000 of senior notes tendered. However, the \$25.0 million of 13% senior notes repaid from the merger proceeds was applied against Reunion's obligations for sinking fund payments and the purchase offer as follows (in thousands):

	May 1, 2000	June 1, 2000	May 1, 2001	Total
	-----	-----	-----	-----
Sinking fund payment or purchase offer obligation	\$ 12,500	\$ 120	\$ 12,500	\$ 25,120
\$25.0 million applied to obligations	(12,500)	(120)	(12,380)	(25,000)
	-----	-----	-----	-----
Maximum required payment	\$ -	\$ -	\$ 120	\$ 120
	=====	=====	=====	=====

The \$120,000 principal amount of 13% senior notes was repaid by the Company on May 1, 2001 from funds available under its revolving credit facility.

Of the remaining \$24.855 million of senior notes, \$12.5 million is scheduled to be repaid in May 2002 and \$12.355 million is scheduled to be repaid in May 2003. [Management does not expect to have the internally generated liquidity necessary to fund the May 1, 2002 sinking fund payment and is in the process of investigating various refinancing and repayment scenarios. Such scenarios involve not only mezzanine or additional term debt, which could potentially include warrants, but also involve other considerations such as a sale of assets.] The Company currently is in default under the indenture for the senior notes due to its inability to make the November 1, 2001 semi-annual interest payment of \$1.616 million.

Solicitation of Consent of Senior Noteholders

The Company is required to make sinking fund payments on its \$24.855 million of senior notes of \$12.5 million on May 1, 2002 and \$12.355 million on May 1, 2003. On September 4, 2001, the Company solicited the consent of its senior noteholders to extend the sinking fund payment dates by two years. The solicitation expired on November 2, 2001. As part of the solicitation, the Company reserved the right to terminate it if holders of less than \$22.0 million principal amount of senior notes consented. The Company has exercised its right to terminate the solicitation.

Acquisition of NPS Acquisition Corp.

On January 17, 2001, the Company acquired NPS Acquisition Corp. (NPSAC) (f/k/a Naptech Pressure Systems) from Charles E. Bradley, Sr. (Mr. Bradley), the Company's chairman of the board and chief executive officer. Until the first quarter of 2002, NPSAC was based in Clearfield, Utah and manufactured seamless steel pressure vessels, an existing Metals product line. As part of the Company's plan to restructure its continuing operations, in the first quarter of 2002 this facility was shut-down and its operations were relocated and combined with the Company's pressure vessel manufacturing operations in McKeesport, Pennsylvania. The transaction was accounted for as a purchase under APB Opinion No. 16 "Business Combinations". The purchase price in

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

excess of net assets acquired of \$8.6 million was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years.

- 24 -

The purchase price included the assumption of a 15% per annum \$6.9 million note payable to Shaw Group, the former owner of Naptech Pressure Systems. Simultaneously with the acquisition, Reunion paid Shaw Group \$2.0 million of the note payable in cash from funds available under its revolving credit facility with Bank of America (BOA). The remainder of the note payable of \$4.9 million was then restructured to include quarterly principal payments of \$0.6 million for eight quarters which began on February 28, 2001. Reunion made the first two payments from funds available under its revolving credit facility. The Company has been unable to fund the remaining payments under this note due to lack of liquidity and insufficient funds available under its revolving credit facility. The note is unsecured and subordinated to the BOA term loan and revolving credit facilities.

The estimated fair value of assets acquired included approximately \$1.4 million of cash, receivables, inventories and other current assets, approximately \$0.3 million of fixed assets and \$1.3 million of deferred tax assets which are fully reserved by a valuation allowance. The purchase price in excess of net assets acquired of \$8.6 million was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years. NPSAC's fully-reserved deferred tax assets are comprised primarily of net operating losses.

Additional Shares of Reunion Common Stock

In the merger, Reunion issued 9,500,000 shares of common stock to holders of Chatwins Group's common stock. The merger agreement also provided that up to an additional 500,000 shares of Reunion common stock would be issued to former Chatwins Group common stockholders if the former Chatwins Group businesses and the acquired Kingway business achieve specified performance levels in 2000. A determination of the number of shares to be issued was made by the board of directors at its meeting held on May 15, 2001. Such additional shares totaled 348,995 and were issued on May 29, 2001. The closing price of Reunion's common stock on that date was \$1.30 per share. The issuance of the additional shares was recorded as a merger purchase price adjustment to goodwill.

Payment of \$680,000 Industrial Revenue Development Bonds

Upon the sale of its domestic grating operations in September 1999, the Company retained an obligation for a \$680,000 note payable due May 1, 2001 related to an industrial development revenue bond issue by Orem City, Utah. This note payable was repaid in May 2001 from funds available under the Company's revolving credit facility.

- 25 -

RESULTS OF OPERATIONS

Year Ended December 31, 2001 Compared to
Year Ended December 31, 2000

Continuing Operations

Metals

Metals net sales, gross margins and EBITDA percentages for 2001 and 2000 are as follows. Pressure vessels and spring sales and margins for 2000 are pro forma as though the acquisition of NPSAC occurred at the beginning of

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

2000. Cylinders EBITDA percentage for 2000 excludes a \$2.4 million gain on sale of its Chicago, IL property.

	Net Sales		Gross Margin		EBITDA	
	2001	2000	2001	2000	2001	2000
Pressure vessels						
and springs	\$ 41,594	\$ 35,806	23.3%	29.3%	14.6%	22.1%
Cylinders	19,369	30,463	5.0%	24.4%	(11.3%)	15.4%
Metals totals	\$ 60,963	\$ 66,269	17.5%	27.1%	6.4%	17.9%

The increase in pressure vessel sales in 2001 compared to 2000 was due to a strong order levels in that product line towards the end of 2000, the backlog for which at the end of 2000 was \$8.6 million higher than at the end of 1999, and the recognition of \$2.8 million of revenues on a large NASA contract shipped in the first quarter of 2001. Gross margin has been affected by a change in product mix towards lower margin domestic products, an increase in unfavorable variances in the fourth quarter of 2001 due to decrease in production activity as the result of a lower order levels towards the end of 2001 and provisions for obsolete and slow-moving inventories of \$1.3 million in the fourth quarter of 2001. Also, sales of leaf springs in 2001 continued to be impacted by the economic downturn as consumers decreased spending on recreational items, particularly in the marine market. [Management anticipates that these trends will continue into 2002]. Sales of cylinders continues to be affected by a downturn in this market, [a trend which the Company believes will continue into 2002.] Gross margin has been affected accordingly as the decreased volume has significantly impact this segment's ability to absorb costs. Gross margin has also been impacted by provisions for obsolete and slow-moving inventories of \$0.9 million in the fourth quarter of 2001.

Management evaluates the Company's segments based on EBITDA, a measure of cash generation, and is presented, not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt and due to the close relationship it bears to Reunion's financial covenants in its borrowing agreements. EBITDA and EBITDA as a percentage of sales decreased significantly during 2001 compared to the pro forma 2000 primarily due to the same factors affecting gross profit margin discussed above.

- 26 -

Plastics

Plastics sales for 2001 totaled \$38.5 million, compared to \$42.0 million in 2000. Year-to-date 2000 Plastics sales included \$5.0 million from its former Irish plastics subsidiary which the Company sold in the 2000 third quarter but excluded \$11.3 million of sales from the pre-March 16, 2000 merger period. On a proforma basis assuming these events occurred at the beginning of 2000, Plastics 2000 sales would have been \$48.3 million, indicating a \$9.8 million decrease year-to-year. This decrease in revenues is the continuation during 2001 of a downward trend which began in 1999 and resulted from several factors, including certain customers relocating manufacturing operations to Mexico and Asia, reduced customer orders for continuing programs, end of product cycles and delays in new program starts, which affected all Plastics facilities. [Management is seeking to expand Plastics' product offerings in the business machines, consumer products and medical products industries to mitigate this trend. However, if not successful, this trend in Plastics

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

revenue could continue into 2002.]

Plastics gross profit for 2001 was \$4.4 million, or 11.4%, compared to \$6.3 million, or 15.0%, for 2000. On a proforma basis for the events described above Plastics 2000 gross profit and margin would be \$7.4 million, or 15.3%. The decrease in gross profit and margin is directly related to the decreasing trend in sales, resulting in inefficiencies and the inability to absorb fixed overheads. [Depending on future sales volumes, the declining trend in gross margin could continue.] Plastics EBITDA for 2001 was a negative \$1.1 million, or negative 2.9%, compared to \$2.6 million, or 6.1%, for 2000. On a proforma basis for the events described above, Plastics EBITDA and percentage would be \$2.7 million, or 5.6%. EBITDA was impacted by the same factors as gross profit and margin.

Management evaluates the Company's segments based on EBITDA, a measure of cash generation, and is presented, not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt and due to the close relationship it bears to Reunion's financial covenants in its borrowing agreements. EBITDA and EBITDA as a percentage of sales decreased significantly in 2001 compared to 2000 primarily due to the same factors affecting gross profit and margin discussed above.

Selling, General and Administrative

Selling, general and administrative (SGA) expenses for 2001 were \$15.7 million, compared to \$16.4 million for 2000. Had the merger, the acquisition of NPSAC and the sale of the Company's Irish plastics business occurred at the beginning of 2000, SGA for 2000 would have been \$17.7 million, indicating a pro forma decrease of \$2.0 million. This decrease in SGA is directly related to the decreasing trend in sales, resulting in lower commissions expense, and cost cutting measures taken during June 2001, which included personnel reductions in sales and administration. The cost of these reductions was inconsequential as the Company paid no severance packages and retained no post-severance obligations related to these reductions. [Management estimates the savings from these reductions to be approximately \$1.0 million annually.] However, the benefits of these cost cutting measures are being offset by the continuation of the negative trend in sales and the resulting effect on the Company's ability to absorb costs. SGA expenses as a percentage of sales increased to 15.8% for 2001 compared to 15.4% on a proforma basis in 2000. SGA as a percentage of sales was higher in 2001 compared to 2000 due to the faster rate at which volume has decreased compared to decreases in relatively fixed administrative costs.

- 27 -

Provision for Restructuring

The Company has recorded a fourth quarter 2001 charge for restructuring costs, including facility shut-down costs, lease termination costs and asset writedowns, including impaired goodwill related to Plastics. Components of the fourth quarter 2001 charge for restructuring are as follows:

	Metals	Plastics	Totals
	-----	-----	-----
Asset impairments	\$ 613	\$ 2,060	\$ 2,673
Goodwill impairment	-	2,946	2,946
Lease termination costs	927	245	1,172
Employee separations	20	-	20
	-----	-----	-----
Total charges	\$ 1,560	\$ 5,251	\$ 6,811

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

=====

Other (Income) Expense

Other expense for 2001 was \$1.7 million, compared to other income of \$6.3 million for 2000. The components are as follows:

	2001	2000	Change
	-----	-----	-----
Goodwill and other intangibles amortization	\$ 2,008	\$ 1,253	\$ 755
Gain on sale of equipment with zero book value	(375)	-	(375)
Gain on sale of Irish plastics business	-	(4,933)	4,933
Gain on sale of Chicago, IL property	-	(2,441)	2,441
Other (income) expense, net	94	(130)	224
	-----	-----	-----
Total other (income) expense, net	\$ 1,727	\$ (6,251)	\$ 7,978
	=====	=====	=====

The increase in goodwill and other intangibles amortization is primarily due to the fact that 2001 includes a full year of goodwill amortization related to the merger, Kingway acquisition and NPSAC acquisition compared to the approximate nine-and-one-half month post-merger and Kingway acquisition period in 2000 and no goodwill amortization related to the NPSAC goodwill. Except for goodwill amortization and the gains as described above, there were no individually significant or offsetting items in either 2001 or 2000.

Interest Expense

Interest expense, net, for 2001 and 2000 was \$7.1 million. Although level from year-to-year, interest expense decreased due to the lower level of debt of the Company as the result of a decrease in overadvance fees in 2001 compared to overadvance fees paid in the first half of 2000 before the Company significantly reduced debt levels in the second half of 2000 through asset sales, the \$29.5 million of cash proceeds generated through asset sales and used to reduce debt during the second half of 2000 and the lower interest rates on the Company's Bank of America facilities due to the many rate reductions by the Federal Reserve after June 2000. The decreases were offset by an increase due to the debt assumed in the NPSAC acquisition, an increase in amortization of deferred financing fees and an increase in interest rates in November 2001 on the Company's Bank of America facilities to a default rate as specified in the BOA Financing and Security Agreement. [Interest expense for 2002 may decrease compared to 2001 depending on the amount of proceeds and timing of asset dispositions in 2002 as part of the Company's corporate-wide restructuring plan.]

For 2001 and 2000, a total of \$3.1 million and \$4.4 million, respectively, of interest expense has been allocated to or actually incurred in discontinued operations. Interest expense is allocated to discontinued operations on the basis of the percentage of total average assets of discontinued operations to gross total assets.

- 28 -

Equity Results

Equity in loss of continuing operations of affiliate in 2000 represents Chatwins Group's pre-merger share of Reunion's loss from continuing operations in that period.

Income Taxes

There was a tax provision from continuing operations of \$12.7 million for

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

2001 compared to a tax benefit of \$0.6 million for 2000. The Company has net operating loss carryforwards for Federal tax return reporting purposes totaling \$124.1 million at December 31, 2001, \$79.2 million of which expire by 2004. [The Company may be able to utilize its loss carryforwards against possible increased profitability as the result of the Company's corporate-wide restructuring plan. However, until the amount of proceeds from and timing of asset dispositions as part of such plan are known], management has determined to fully reserve for the total amount of net deferred tax assets as of December 31, 2001. The tax benefit from continuing operations in 2000 was the result of a decrease in the valuation allowance against the deferred tax assets related to the Company's net operating loss carryforwards established at the merger date due a change in the then current estimates of future taxable income.

Discontinued Operations

There was a loss from discontinued operations for 2001 of \$9.2 million. The Company recorded a fourth quarter 2001 charge for estimated loss on disposal of discontinued operations (\$6.4 million) related to estimated phase-out period operating losses, lease termination costs and asset writedowns of the discontinued bridges and cranes business [as management expects that the materials handling systems business will be sold at a price exceeding its carrying value.]

There was a loss from discontinued bridges and cranes operations during 2001 (\$5.3 million) and income from discontinued materials handling systems operations (\$3.0 million). Management adjusted the reserve for estimated expenses related to Chatwins Group's former grating business (\$0.3 million) due to an increase in estimated future operating lease commitments. There was a loss from discontinued agricultural operations (\$135,000) during 2001.

There was income from discontinued operations during 2000 of \$0.55 million. The income from discontinued operations was comprised of a loss from discontinued bridges and cranes operations (\$7.2 million), income from discontinued materials handling systems operations (\$6.4 million), a loss from discontinued wine grape agricultural operations (\$0.6 million), the gain from the sale of such operations (\$2.3 million with \$-0- tax effect as the valuation allowance against the deferred tax assets related to the Company's net operating loss carryforwards was reduced for the tax effect of such gain), a reduction in the gain on disposal of the discontinued grating business of the former Chatwins Group (\$0.8 million) and a reduction in the provision for estimated expenses of the discontinued grating business (\$0.5 million).

The reduction in the gain on disposal is the result of the final outcome of the arbitration with Alabama Metal Industries Corporation (AMICO), the purchaser of the Company's discontinued grating business, regarding the final purchase price adjustment resulting from a disagreement between the Company and AMICO in the preparation of the closing date balance sheet. In calculating the gain on disposal in September 1999, the Company provided \$0.5 million for future estimated purchase price adjustments. In November 2000, the arbiter for the dispute returned a final purchase price adjustment, including interest, of \$1.3 million, a difference of \$0.8 million. The

- 29 -

Company paid AMICO \$1.3 million in November 2000 from proceeds available under its revolving credit facility.

For 2001 and 2000, discontinued operations includes a total of \$3.1 million and \$4.4 million, respectively, of interest expense.

Extraordinary Items

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

The losses from extraordinary items in 2000 of \$1.9 million, net of \$-0-taxes, represent the pre-merger write-offs of deferred financing costs at both Chatwins Group and pre-merger Reunion and fees related to the early repayment of the Company's term loan B with BOA in August 2000 with the proceeds from the sale of the Company's Irish plastics business.

Year Ended December 31, 2000 Compared to
Year Ended December 31, 1999

Continuing Operations

Metals

Metals net sales, gross margins and EBITDA percentages for 2000 and 1999 are as follows. Since the acquisition of NPSAC did not occur until January 2001, no pro forma adjustments have been made to pressure vessels and spring sales and margins for 2000 and 1999 below. Cylinders EBITDA percentage for 2000 excludes a \$2.4 million gain on sale of its Chicago, IL property.

	Net Sales		Gross Margin		EBITDA	
	2000	1999	2000	1999	2000	1999
Pressure vessels and springs	\$ 32,250	\$ 27,400	29.5%	25.1%	22.2%	16.7%
Cylinders	30,463	32,291	24.4%	20.0%	15.4%	12.2%
Metals totals	\$ 62,713	\$ 59,691	27.0%	22.3%	18.9%	14.3%

The increase in pressure vessel sales in 2000 was due to strong first and second quarter 2000 order levels which began to ship in the 2000 second half and an overall increase in foreign sales in several pressure vessel product lines. Sales of leaf springs were up slightly compared to 1999. Pressure vessel and springs margin increased on the higher level of sales and a product mix which included more higher-margin foreign sales. Sales of cylinders was down due to softness in the hydraulic cylinder market. However, 2000 sales included an increase in higher-margin core business cylinder sales away from lower margin marine and other cylinders.

Management evaluates the Company's segments based on EBITDA, a measure of cash generation, and is presented, not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt and due to the close relationship it bears to Reunion's financial covenants in its borrowing agreements. EBITDA and EBITDA as a percentage of sales increased during 2000 compared to the 1999 primarily due to the same factors affecting gross profit margin discussed above. Note that for financial reporting

- 30 -

purposes, the Company classified the \$2.4 million gain on sale of the cylinder business' Chicago, IL property within cylinder EBITDA. Excluding this gain, cylinder EBITDA and EBITDA as a percentage of cylinder sales increased in 2000 compared to 1999.

Plastics

Plastics sales for 2000 since the March 16, 2000 merger totaled \$42.0 million. Such sales resulted in Plastics gross profit of \$6.3 million, or

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

15.0% of sales.

On a pro forma basis as if Plastics was acquired on January 1, 1999, Plastics sales in 2000 totaled \$56.0 million, compared to \$71.6 million for 1999. Excluding the Irish plastics business for reasons of comparability, such sales would be \$48.3 million for 2000 and \$57.7 million for 1999, a decrease of \$9.4 million or 16%. The decrease in revenues is the continuation of a trend which began in 1999 and resulted from several factors, including certain customers relocating manufacturing operations to Mexico and Asia, reduced customer orders for continuing programs, end of product cycles and delays in new program starts, which affected all Plastics facilities.

Plastics gross profit for 2000 was \$6.3 million, or 15.0% of sales. On a pro forma basis, Plastics gross profit for 2000 was \$8.2 million, or 14.6% of sales, compared to \$10.8 million, or 14.9% of sales, for 1999. Excluding the Irish plastics business for reasons of comparability, gross profit would be \$7.1 million, or 14.7% of sales, for 2000 and \$8.6 million, or 15.0% of sales, for 1999, a decrease of \$1.5 million or 18%. The decline in gross profit is directly related to the reduction in sales volume and resulting cost absorption inefficiencies.

Selling, General and Administrative

Selling, general and administrative (SGA) expenses for 2000 were \$16.4 million, compared to \$7.9 million for 1999, an increase of \$8.5 million. SGA expenses in 2000 include approximately \$6.5 million of SGA from Plastics and corporate administrative expenses of pre-merger Reunion which were not present in 1999. The remaining increase was due primarily to an increase in pre-merger related professional fees at Chatwins Group and a charge related to special healthcare benefits offered in the 2000 fourth quarter. SGA expenses as a percentage of sales increased to 15.6% for 2000 compared to 13.2% in 1999. SGA as a percentage of sales was higher in 2000 compared to 1999 due to the addition of Plastics, whose combined SGA as a percentage of related sales was 14.1%, and increases in pre-merger related professional fees at Chatwins Group and fourth quarter healthcare costs.

Other (Income) Expense

Other income for 2000 was \$6.3 million, compared to other expense of \$0.3 million for 1999. The larger components of each are as follows:

	2000	1999	Change
	-----	-----	-----
Goodwill and other intangibles amortization	\$ 1,253	\$ 364	\$ 889
Gain on sale of Irish plastics business	(4,933)	-	(4,933)
Gain on sale of Chicago, IL property	(2,441)	-	(2,441)
Other (income) expense, net	(130)	(59)	(71)
	-----	-----	-----
Total other (income) expense, net	\$ (6,251)	\$ 305	\$ (6,556)
	=====	=====	=====

- 31 -

The increase in goodwill and other intangibles amortization is primarily due to the fact that 2000 includes a goodwill amortization related to the merger and Kingway acquisition and 1999 included no goodwill amortization related to these events. Except for goodwill amortization and the gains as described above, there were no individually significant or offsetting items in either 2000 or 1999.

Interest Expense

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Interest expense, net, for 2000 was \$7.0 million compared to \$5.3 million for 1999, indicating an increase of \$1.7 million. The increase in interest expense reflects the higher level of debt of the post-merger company when compared to the 1999 debt levels of pre-merger Chatwins Group and the payment of \$0.7 million in overadvance fees.

For 2000 and 1999, a total of \$4.4 million and \$4.7 million, respectively, of interest expense has been allocated to or actually incurred in discontinued operations.

Equity Results

Equity in loss of continuing operations of affiliate in 2000 and 1999 represents Chatwins Group's pre-merger share of Reunion's loss from continuing operations in each period.

Income Taxes

There was a non-cash tax benefit from continuing operations of \$0.6 million for 2000 compared to a non-cash tax benefit of \$0.9 million for 1999. The tax benefit from continuing operations in 2000 was the result of a decrease in the valuation allowance against the deferred tax assets related to the Company's net operating loss carryforwards established at the merger date due to a change in the then current estimates of future taxable income. The tax benefit for 1999 is primarily the result of the pre-tax loss from continuing operations in 1999 and the reversal of the valuation allowance of \$640,000 for deferred tax assets.

Discontinued Operations

There was income from discontinued operations during 2000 of \$0.55 million. The income from discontinued operations was comprised of a loss from discontinued bridges and cranes operations (\$7.2 million), income from discontinued materials handling systems operations (\$6.4 million), a loss from discontinued wine grape agricultural operations (\$0.6 million), the gain from the sale of such operations (\$2.3 million with \$-0- tax effect as the valuation allowance against the deferred tax assets related to the Company's net operating loss carryforwards was reduced for the tax effect of such gain), a reduction in the gain on disposal of the discontinued grating business of the former Chatwins Group (\$0.8 million) and a reduction in the provision for estimated expenses of the discontinued grating business (\$0.5 million).

The reduction in the gain on disposal is the result of the final outcome of the arbitration with Alabama Metal Industries Corporation (AMICO), the purchaser of the Company's discontinued grating business, regarding the final purchase price adjustment resulting from a disagreement between the Company and AMICO in the preparation of the closing date balance sheet. In calculating the gain on disposal in September 1999, the Company provided \$0.5 million for future estimated purchase price adjustments. In November 2000, the arbiter for the dispute returned a final purchase price adjustment, including interest, of \$1.3 million, a difference of \$0.8 million. The Company paid AMICO \$1.3 million in November 2000 from proceeds available under its revolving credit facility.

- 32 -

There was income from discontinued operations during 1999 of \$1.1 million, net of taxes of \$0.2 million. Income from discontinued operations was comprised of a loss from discontinued bridges and cranes operations (\$1.7 million), income from discontinued materials handling systems operations (\$0.7 million), the gain on disposal of the discontinued grating business of the former Chatwins Group (\$8.4 million) and income from discontinued operations

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

of the grating business (\$0.1 million, which included the \$1.7 million pre-tax gain on sale of the Chicago property that comprised the Chicago manufacturing operations of Chatwins Group's Klemp division), partially offset by provisions for estimated expenses (\$1.9 million) and disposals of the international grating subsidiaries (\$4.1 million) and the oil and gas operations (\$0.7 million). There was also equity in income from discontinued operations of pre-merger Reunion (less than \$0.1 million).

For 2000 and 1999, discontinued operations includes a total of \$4.4 million and \$4.7 million, respectively, of interest expense.

Extraordinary Items

The losses from extraordinary items in 2000 of \$1.9 million represents the pre-merger write-offs of deferred financing costs at both Chatwins Group and pre-merger Reunion and the write-off of term loan B deferred financing costs due to the early retirement of this debt.

On August 31, 2000, the Company sold its Irish plastics subsidiary for net proceeds of \$10.0 million. A portion of the proceeds was used to repay in its entirety the term B loan. Related to the term B loan was \$133,000 of unamortized debt issuance fees which the Company has recorded as an extraordinary item of \$80,000.

Change in Accounting Principle

Effective January 1, 1999, Chatwins Group adopted the AICPA's Statement of Position 98-5, "Reporting on the Costs of Start-up Activities," which requires that the costs of start-up activities be expensed as incurred. Such adoption is reported as the cumulative effect of a change in accounting principle and resulted in the write-off of \$176,000 of start-up costs, net of taxes of \$91,000. These start-up costs primarily related to Chatwins Group's international subsidiaries.

LIQUIDITY AND CAPITAL RESOURCES

General

The Company manages its liquidity as a consolidated enterprise. The operating groups of the Company carry minimal cash balances. Cash generated from group operating activities generally is used to repay borrowings under revolving credit arrangements, as well as other uses (e.g. corporate headquarters expenses, debt service, capital expenditures, etc.). Conversely, cash required for group operating activities generally is provided from funds available under the same revolving credit arrangements.

Recent Developments

The following discussion describes developments that have affected the Company during 2001 and during the period in 2000 since the March 16, 2000 merger.

- 33 -

Restructuring and Other Actions

As the result of downturns in several of the markets served by the Company during the third and fourth quarters of 2001 and the resulting decreases in the Company's ability to absorb costs and the quality of its borrowing base, management of the Company has developed a plan to restructure its continuing businesses and dispose of or shut-down certain other

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

businesses. These actions are designed to improve productivity and operating performance, reduce debt and provide liquidity. [The benefits of these actions are anticipated to begin to be realized in 2002 and continue over the next several years.] Key elements of the plan include:

RESTRUCTURING

- * Consolidate the pressure vessel operations of CPI and NPSAC.
- * Consolidate the cylinder operations of Hanna and TJ Brooks.
- * Shut-down Plastics' thermoplastics operations at Siler City, NC.
- * Close Plastics' corporate headquarters in Charlotte, NC.
- * Address machinery and equipment impairments.

DISCONTINUED OPERATIONS

- * Shut-down and liquidate the assets and business of Alliance Machine.
- * Dispose of the Kingway Material Handling division.

In April 2001, the Company entered into a non-binding letter of intent for the sale of substantially all of the assets of Alliance for \$3.3 million in cash plus the assumption by the buyer of certain liabilities. Consummation of this sale is subject to certain conditions, including the execution of a definitive asset purchase agreement, and there can be no assurance that the transaction will close on the terms set forth in the letter of intent or at all.

The plan was approved by the Company's board of directors in December 2001. The Company has recorded a fourth quarter 2001 charge for restructuring costs, including facility shut-down costs, lease termination costs and asset writedowns, including impaired goodwill related to Plastics, and a charge for estimated loss on disposal of discontinued operations (related solely to Alliance Machine) including phase-out period operating losses, lease termination costs and asset writedowns.

- 34 -

Components of the fourth quarter 2001 charges are as follows:

	Classifications of Charges	
	Provision for Restructuring	Discontinued Operations
Metals:		
Asset impairments	\$ 613	\$ 3,771
Lease termination costs	927	995
Reserve for operating losses during phase-out	-	1,633
Employee separations	20	-
	1,560	6,399
Plastics:		
Asset impairments	2,060	-
Goodwill impairment	2,946	-
Lease termination costs	245	-
	5,251	-

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

	-----	-----
Total charges	\$ 6,811	\$ 6,399
	=====	=====

The \$1.6 million charge for discontinued operations phase-out includes \$1.4 million for operating losses and \$0.2 million for employee separations costs. [The cash outlay related to the charges is anticipated to occur during 2002. Management also anticipates incurring other charges and cash outlays in 2002 in order to fully execute the plan.]

Components of the estimated cash impacts of the plan anticipated to occur in 2002 are as follows:

	Classification of Cash Impacts	
	Restructuring	Discontinued Operations
Total charges	\$ 6,811	\$ 6,399
Less: Non-cash components	(5,619)	(3,771)
Estimated cash impacts of charges	1,192	2,628
Other anticipated cash outlays:		
Relocation costs	750	-
Phase-out period operating losses	730	-
Total estimated cash impacts	\$ 2,672	\$ 2,628
	=====	=====]

Execution of the plan began in January 2002 and [is expected to be completed by June 2002 but by no later than the end of 2002]. Benefits of the plan include cost reductions from streamlining operations, reducing operating losses at historically unprofitable businesses and interest savings from reduced debt. [Management estimates indicate that the present value of these benefits significantly exceeds the near-term estimated costs to execute the plan.]

- 35 -

2001 Covenant Compliance

For the quarter ended March 31, 2001 and for each fiscal quarter thereafter in 2001, the Bank of America (BOA) Financing and Security Agreement required the Company to maintain a minimum fixed charge coverage ratio of 1.25:1 and maximum funded debt to EBITDA ratios of 3.75:1, 3.50:1, 3.25:1 and 3.00:1.

In April 2001, the Company entered into a letter agreement with Bank of America whereby, as long as the Company maintained both a fixed charge coverage ratio of at least 1.00:1 and had a funded debt to EBITDA ratio of no more than 4.50:1 as of the September 30, 2001 and December 31, 2001 calculation dates, and as long as the Company was in compliance on all other covenants, the Bank of America would not accelerate any of its loans.

Due to the rate and level of the downturns in several of the markets served by the Company and the resulting decrease in the Company's ability to absorb costs, cost cutting and capital expenditure restriction measures taken by management during the third and fourth quarters of 2001 were not enough to achieve ratio compliance. For the quarter ended September 30, 2001, the

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Company's fixed charge coverage ratio was 0.79:1 and the funded debt to EBITDA ratio was 5.61:1. As a result, the Company is in default under its BOA Financing and Security Agreement.

The Company and Bank of America entered into various amendments to the BOA Financing and Security Agreement during 2000. The December 12, 2000 amendment required the Company to maintain a minimum availability under the revolving credit facility of \$1.5 million. Through the second quarter of 2001, the Company had complied with this requirement. However, due to the downturn in several of the markets served by the Company during the third quarter of 2001 and the resulting decrease in the quality of the Company's borrowing base, ineligible receivables and inventory increased. Based on the borrowing base formulas as set forth in the BOA Financing and Security Agreement, this increase in ineligibles resulted in a decrease in borrowing availability under the revolving credit facility and the Company's inability to maintain a minimum availability of \$1.5 million. As a result, the Company is in default under its BOA Financing and Security Agreement.

In November 2001, the Company was informed by BOA that a borrowing base deficiency existed, as defined in the BOA financing and security agreement. Since that time, the Company and BOA have entered into six side letter agreements wherein BOA and the other lenders that participated in the BOA refinancing of the Company in the merger agreed to provide monthly advances in excess of the borrowing base of the Company for working capital needs while the Company addresses its lack of liquidity issue pursuant to its plan to sell assets and reduce debt. The sixth side letter agreement, dated April 1, 2002, provides overadvance approval on a day-to-day basis whereby the overadvance may not exceed \$3.5 million. As of April 16, 2002, the Company has not exceeded the \$3.5 million overadvance availability provided for in the side letter agreement. However, nothing in these six side letter agreements waives or otherwise alters BOA's already existing remedies under the BOA financing and security agreement including acceleration of all amounts outstanding under the BOA financing and security agreement.

In consideration of providing its approval of overadvance availability, as provided in the side letter agreements, the Company has been and continues to pay a weekly fee of \$25,000 or \$50,000, depending on the amount of the overadvance. Since entering into the side letter agreements beginning in November 2001, the Company has paid BOA a total of \$750,000 in such fees.

During 2001, the Company spent \$2.9 million on capital expenditures. The Company's covenant limitation on capital expenditures is \$4.5 million for the year 2001 and thereafter.

- 36 -

Semi-Annual Interest on 13% Senior Notes due November 1, 2001

The Company was unable to fund its November 1, 2001 \$1.616 million semi-annual interest payment on its 13% senior notes as it had insufficient funds available under its revolving credit facility with BOA. Failure to make the November 1 interest payment is a default under the indenture which governs the 13% senior notes. Under the terms of the indenture, the Company had thirty days to cure the default. The Company was unable to cure the default during the 30-day cure period.

Management of the Company has been in contact with certain of the Note Holders and holders representing approximately ninety percent of the principal amount of senior notes outstanding. As part of its corporate-wide restructuring plan, management of the Company has determined to dispose of assets in order to meet its interest payment obligations under the 13% senior notes. [Management of the Company currently believes that it will be able to

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

obtain the necessary funds. However, there can be no assurance that management will be successful in its efforts.]

Repayment of \$120,000 of 13% Senior Notes

Chatwins Group was required to make sinking fund payments to redeem \$12.5 million principal amount of the senior notes on May 1 in each of 2000 through 2003 at face value plus accrued interest and to offer to purchase \$25 million of the senior notes on June 1, 2000 at face value plus accrued interest. In February 2000, Chatwins Group solicited the holders of the \$49,975,000 of 13% senior notes outstanding asking them to waive their right to participate in the June 1, 2000 \$25.0 million purchase offer, of which \$47,450,000 agreed to waive such right resulting in a maximum purchase offer obligation on June 1, 2000 of \$2,525,000.

On June 1, 2000 Reunion made the required offer to purchase \$2,525,000 of senior notes, of which holders of only \$120,000 of senior notes tendered. However, the \$25.0 million of 13% senior notes repaid from the merger proceeds was applied against Reunion's obligations for sinking fund payments and the purchase offer as follows (in thousands):

	May 1, 2000	June 1, 2000	May 1, 2001	Total
	-----	-----	-----	-----
Sinking fund payment or purchase offer obligation	\$ 12,500	\$ 120	\$ 12,500	\$ 25,120
\$25.0 million applied to obligations	(12,500)	(120)	(12,380)	(25,000)
	-----	-----	-----	-----
Maximum required payment	\$ -	\$ -	\$ 120	\$ 120
	=====	=====	=====	=====

The \$120,000 principal amount of 13% senior notes was repaid by the Company on May 1, 2001 from funds available under its revolving credit facility.

Of the remaining \$24.855 million of senior notes, \$12.5 million is scheduled to be repaid in May 2002 and \$12.355 million is scheduled to be repaid in May 2003. [Management does not expect to have the internally generated liquidity necessary to fund the May 1, 2002 sinking fund payment and is in the process of investigating various refinancing and repayment scenarios. Such scenarios involve not only mezzanine or additional term debt, which could potentially include warrants, but also involve other considerations such as a sale of assets.] The Company currently is in default under the indenture for the senior notes due to its inability to make the November 1, 2001 semi-annual interest payment of \$1.616 million.

- 37 -

Solicitation of Consent of Senior Noteholders

The Company is required to make sinking fund payments on its \$24.855 million of senior notes of \$12.5 million on May 1, 2002 and \$12.355 million on May 1, 2003. On September 4, 2001, the Company solicited the consent of its senior noteholders to extend the sinking fund payment dates by two years. The solicitation expired on November 2, 2001. As part of the solicitation, the Company reserved the right to terminate it if holders of less than \$22.0 million principal amount of senior notes consented. The Company has exercised its right to terminate the solicitation.

Acquisition of NPS Acquisition Corp.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

On January 17, 2001, the Company acquired NPS Acquisition Corp. (NPSAC) (f/k/a Naptech Pressure Systems) from Charles E. Bradley, Sr. (Mr. Bradley), the Company's chairman of the board and chief executive officer. Until the first quarter of 2002, NPSAC was based in Clearfield, Utah and manufactured seamless steel pressure vessels, an existing Metals product line. As part of the Company's plan to restructure its continuing operations, in the first quarter of 2002 this facility was shut-down and its operations were relocated and combined with the Company's pressure vessel manufacturing operations in McKeesport, Pennsylvania. The transaction was accounted for as a purchase under APB Opinion No. 16 "Business Combinations". The purchase price in excess of net assets acquired of \$8.6 million was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years.

The purchase price included the assumption of a 15% per annum \$6.9 million note payable to Shaw Group, the former owner of Naptech Pressure Systems. Simultaneously with the acquisition, Reunion paid Shaw Group \$2.0 million of the note payable in cash from funds available under its revolving credit facility with Bank of America (BOA). The remainder of the note payable of \$4.9 million was then restructured to include quarterly principal payments of \$0.6 million for eight quarters which began on February 28, 2001. Reunion made the first two payments from funds available under its revolving credit facility. The Company has been unable to fund the remaining payments under this note due to lack of liquidity and insufficient funds available under its revolving credit facility. The note is unsecured and subordinated to the BOA term loan and revolving credit facilities.

The estimated fair value of assets acquired included approximately \$1.4 million of cash, receivables, inventories and other current assets, approximately \$0.3 million of fixed assets and \$1.3 million of deferred tax assets which are fully reserved by a valuation allowance. The purchase price in excess of net assets acquired of \$8.6 million was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years. NPSAC's fully-reserved deferred tax assets are comprised primarily of net operating losses.

Additional Shares of Reunion Common Stock

In the merger, Reunion issued 9,500,000 shares of common stock to holders of Chatwins Group's common stock. The merger agreement also provided that up to an additional 500,000 shares of Reunion common stock would be issued to former Chatwins Group common stockholders if the former Chatwins Group businesses and the acquired Kingway business achieve specified performance levels in 2000. A determination of the number of shares to be issued was made by the board of directors at its meeting held on May 15, 2001. Such additional shares totaled 348,995 and were issued on May 29, 2001. The closing price of Reunion's common stock on that date was \$1.30 per share. The issuance of the additional shares was recorded as a merger purchase price adjustment to goodwill.

- 38 -

Payment of \$680,000 Industrial Revenue Development Bonds

Upon the sale of its domestic grating operations in September 1999, the Company retained an obligation for a \$680,000 note payable due May 1, 2001 related to an industrial development revenue bond issue by Orem City, Utah. This note payable was repaid in May 2001 from funds available under the Company's revolving credit facility.

Dispositions and Discontinued Operations

In December 2001, pursuant to the plan developed by management to restructure the Company's continuing businesses and dispose of or shut-down

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

certain other businesses, the Company classified and began accounting for its bridges and cranes and materials handling systems businesses as discontinued operations in accordance with Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions" (APB 30). Prior period information contained in the consolidated financial statements and notes have been restated to reflect accounting for these businesses as discontinued operations.

On August 31, 2000, the Company sold its Irish plastics subsidiary, Data Packaging, Ltd. The net proceeds of \$10.0 million from the sale were used to repay debt including a portion of the Company's senior secured and revolving credit borrowings with Bank of America.

On October 27, 2000, the Company sold substantially all of its wine grape agricultural operations and real estate holdings in Napa County, California. The \$16.5 million net proceeds from the sale after transaction-related costs were used to reduce debt. During the third quarter of 2000, the Company classified and began accounting for the agricultural operations as discontinued operations.

On December 28, 2000, the Company sold and leased-back the land and building of its Chicago, IL hydraulic cylinder manufacturing location. The net proceeds of \$3.0 million from the sale were used to repay debt including a portion of the Company's senior secured and revolving credit borrowings with Bank of America.

The Merger

On March 16, 2000, Chatwins Group and Reunion merged, with Reunion as the surviving entity. Prior to the merger, Chatwins Group owned approximately 37% of Reunion's issued and outstanding common stock.

The merger was accounted for as a purchase under APB Opinion No. 16 "Business Combinations" with Chatwins Group as the acquirer for purposes of applying purchase accounting. Accordingly, Chatwins Group's assets and liabilities are accounted for at historical book values and the unowned portion of the assets and liabilities of Reunion have been revalued at their estimated fair value.

The purchase price in the merger was \$8.1 million, consisting of 2,490,000 shares of Reunion common stock not owned by Chatwins Group at March 16, 2000 valued at \$3.25 per share, based on the market price of Reunion common stock between July 28 and August 2, 1999, immediately prior to the announcement of the July 28, 1999 approval by Reunion's board of directors of the amended and restated merger agreement. Assets acquired included approximately \$13.3 million of current assets and approximately \$23.5 million of fixed and other assets. Liabilities and minority interests assumed included approximately \$9.9 million of current liabilities, \$21.6 million of noncurrent liabilities and \$2.1 million of minority interests.

- 39 -

Holder of Chatwins Group Class D, Series A, B and C preferred stock received 9,033 shares of Reunion Series A preferred stock in the merger. The Reunion Series A preferred stock had an initial redemption price of \$9,033,000. See "Preferred Stock Exchange" below for a discussion of the exchange of the Company's preferred stock for common stock.

The Refinancing

Simultaneously with the merger, Reunion entered into \$72.5 million of

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

senior secured credit facilities with Bank of America. These credit facilities consisted of a \$39.0 million revolving credit facility, a \$25.8 million term loan A facility, a \$5.0 million term loan B facility and a \$2.7 million capital expenditures facility.

Proceeds from initial borrowings under the Bank of America credit facilities were used for various purposes, including repayment of Chatwins Group's existing credit facilities with Bank of America, repayment of Reunion's existing credit facilities with the CIT Group/Business Credit, Inc. and retirement of \$25.0 million of Chatwins Group's 13% senior notes plus accrued and unpaid interest. Reunion assumed the obligations of Chatwins Group under the indenture governing the remaining \$24.975 million 13% senior notes.

The Company is currently in default under its BOA credit facilities and 13% senior notes. Therefore, BOA and the Company's senior noteholders have available to them all remedies as provided under the contractual terms of the BOA Financing and Security Agreement and the indenture governing the 13% senior notes including, but not limited to, acceleration of all amounts outstanding under each.

Acquisition of Kingway

Simultaneously with the merger, Reunion acquired Stanwich Acquisition Corp. (SAC), an affiliated company, doing business as Kingway Material Handling (Kingway). Similar to Chatwins Group's material handling product line, Kingway produces industrial and commercial storage racks and materials handling systems. Subsequent to the merger and acquisition, Reunion integrated Kingway into the existing material handling product line and operates from a single location. The transaction was accounted for as a purchase under APB 16.

The purchase price included \$100,000 in cash paid to the then existing common stockholders of Kingway, the assumption of approximately \$10.3 million of Kingway's debt and the issuance of \$6.8 million of preferred stock in exchange for Kingway's existing preferred stock as described below. Assets acquired included approximately \$3.0 million of current assets and approximately \$2.1 million of fixed and other assets. Liabilities assumed, including the assumed debt, included approximately \$11.7 million of current liabilities and \$6.8 million of preferred stock. The purchase price in excess of net assets acquired, less \$0.3 million, the value assigned to SAC's net operating losses at the time of the acquisition, amounting to approximately \$13.2 million, was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years.

In the acquisition, the holder of SAC's preferred stock received in exchange for its shares 5,000 shares of Reunion Series B preferred stock. The Reunion Series B preferred stock has a redemption price of \$5,000,000 plus cumulative dividends as of the date of the acquisition of \$1,781,000. See "Preferred Stock Exchange" below for a discussion of the exchange of the Company's preferred stock for common stock.

- 40 -

In December 2001, pursuant to a plan developed by management to restructure the Company's continuing businesses and dispose of or shut-down certain other businesses (see note 2), the Company classified and began accounting for the materials handling systems business as a discontinued operation.

Preferred Stock Exchange

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

On June 14, 2000, the Company's Board of Directors approved the exchange of its Series A and Series B preferred stocks for 3,245,515 shares of the Company's common stock at an exchange price of \$5.00 per share. The Series A and Series B preferred stock were issued in connection with the March 16, 2000 merger with Chatwins Group and acquisition of Kingway, and had an aggregate liquidation value of \$16.2 million. The closing market price of the common stock was \$1.00 on that date. Except for the par value of the issued common stock and the expense connected with the exchange, the aggregate carrying value of the Series A and B preferred stocks was recorded as additional paid-in capital upon their exchange for common stock.

Summary of 2001 Activities

Cash and cash equivalents totaled \$1.2 million (including \$0.5 million classified within discontinued operations) at December 31, 2001, compared to \$2.5 million (including \$0.7 million classified within discontinued operations) at December 31, 2000, a decrease of \$1.3 million. This decrease resulted from \$5.1 million of cash provided by operations more than offset by \$2.5 million of cash being used in investing activities and \$3.9 million used in financing activities.

Operating Activities

Cash provided by operating activities of \$5.1 million in 2001 was the result of a decrease in net working capital as lower volume levels led to a reduction in receivables and inventories and as tighter liquidity resulted in a slowdown in payments to vendors.

Investing Activities

The Company disposed of machinery and equipment with no book value during 2001, generating \$0.4 million in cash proceeds. Capital expenditures were \$2.9 million. The Company also acquired the common stock of NPSAC for \$10,000.

Financing Activities

Proceeds from new borrowings totaled \$0.5 million, all under the capital expenditures facility. The Company made scheduled repayments of debt totaling \$5.3 million, which included \$3.7 million on its term loan A, \$0.2 million on its capital expenditures facility, \$1.2 million on the note payable assumed in the NPSAC acquisition, \$120,000 of 13% senior notes and an additional \$48,000 on a Metals related note payable. Other debt repayments totaling \$58,000 represent payments on capital lease obligations and other debt. Revolving credit facility borrowings increased \$3.8 million during the year, including the \$2.0 million paid in the NPSAC acquisition.

- 41 -

CONTRACTUAL OBLIGATIONS

The following represents a tabular summarization of the Company's contractual obligations at December 31, 2001 (in thousands):

Description	Total	Less Than			
		1 Year	1 to 3 Years	4 to 5 Years	After 5 Years
Debt in default	\$ 41,914	\$ 16,434	\$ 20,217	\$ 5,263	\$ -
Other debt - related parties	4,615	4,615	-	-	-
Other long-term debt	4,661	4,661	-	-	-
Capital lease obligations and SBA loans	236	87	149	-	-

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Noncancellable operating lease commitments	22,756	4,724	6,465	4,167	7,400
	-----	-----	-----	-----	-----
Total contractual obligations	\$ 74,182	\$ 30,521	\$ 26,831	\$ 9,430	\$ 7,400
	=====	=====	=====	=====	=====

The above table shows the contractual aggregate maturities of debt in default excluding the Company's revolving credit facility. Due to its default status, all such debt and the revolving credit facility is classified as current in the accompanying consolidated balance sheet at December 31, 2001. Other debt - related parties and other long-term debt, although contractually due, are classified as long-term in the accompanying consolidated balance sheet at December 31, 2001 as such amounts may not be paid due to restrictions imposed by the BOA financing and security agreement.

FACTORS AFFECTING CURRENT AND FUTURE LIQUIDITY

During the third and fourth quarters of 2001, the Company experienced downturns in several of the markets it serves resulting in a decrease in the Company's ability to absorb costs and a decrease in the quality of its borrowing base due to an increase in ineligible receivables and inventory. Based on the borrowing base formulas as set forth in the BOA Financing and Security Agreement, this increase in ineligibles resulted in a decrease in borrowing availability under the revolving credit facility. These events have had a significant adverse effect on the Company's ability to meet its obligations, including the Company extending its vendors and its inability to make the November 1, 2001 \$1.616 million semi-annual interest payment on the \$24.855 million of outstanding senior notes.

Management of the Company has developed a restructuring plan which includes the disposition of other businesses and which is designed to improve productivity and operating performance. [The improvements in productivity and operating performance as the result of its implementation, although expected to begin in 2002, may not materialize for several quarters] and the Company has not executed a significant sale of assets. At the same time, the Company has past due, immediate and near-term obligations.

[Management of the Company is currently pursuing certain asset dispositions included in the Company's restructuring plan and believes that by the end of June 2002, based on recent discussions with several qualified buyers, the Company will generate adequate proceeds from asset sales to alleviate the current and future strain on liquidity and meet its past due, immediate and near-term obligations. However, no assurances can be given that such pursuits will be successful.]

- 42 -

GOING CONCERN

As of December 31, 2001, the Company was unable to extend its May 2002 sinking fund payment date and was unable to fund its November 1, 2001 \$1.616 million semi-annual interest payment on its 13% senior notes as it had insufficient funds under its revolving credit facility. Additionally, the Company's Bank of America (BOA or Bank of America) Financing and Security Agreement and the indenture governing the 13% senior notes contain various covenants which, among other things, require the Company to maintain minimum availability and specify that the Company meet certain financial requirements, including minimum EBITDA, a minimum fixed charge coverage ratio and a maximum funded debt to EBITDA ratio. As of December 31, 2001, the Company was not in compliance with the minimum EBITDA requirement, fixed charge coverage ratio

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

and maximum funded debt to EBITDA ratio. The Company has not been in compliance with certain of these financial covenants since the third quarter of fiscal 2001. As a result, \$64.4 million of the Company's long-term debt was classified as current on the consolidated balance sheet as of December 31, 2001 and is currently subject to various remedies including, but not limited to, acceleration of all amounts outstanding under the BOA Financing and Security Agreement and the 13% senior notes. [The Company is projecting that it will not be in compliance with the covenants of its BOA Financing and Security Agreement or its 13% senior notes over the next twelve months.]

The Company has generated a net loss of \$38,128,000 during the year ended December 31, 2001.

The financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The negative working capital position of \$60,179,000, the defaults of the BOA Financing and Security Agreement and the 13% senior notes, and the lack of borrowing capacity under its revolving credit facility indicate that [the Company may not be able to continue as a going concern for a reasonable period of time.] The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Since September 2001, the Company has been negotiating with its lenders to defer principal payments and modify the financial covenants under its existing debt facilities. Additionally, the Company has engaged a firm to serve as its investment banker with respect to the sale of its materials handling systems business and has had discussions with several prospective buyers. The Company plans to continue to pursue this sale to provide the liquidity necessary to maintain its ongoing operations. [Although management expects to be able to accomplish its plans, there is no assurance that it will be able to do so. Failure to accomplish these plans could have an adverse impact on the Company's liquidity, financial position and future operations.]

CRITICAL ACCOUNTING POLICIES

Use of Estimates

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States. When more than one accounting principle, or method of its application, is generally accepted, management selects the principle or method that is appropriate in the Company's specific circumstances. Application of the accounting principles requires the Company's management to make estimates about the future resolution of existing uncertainties and that affect the reported amounts of assets, liabilities, revenues, expenses which in the normal course of business are subsequently adjusted to actual results. Actual results could differ from such estimates. In preparing these financial statements, management has made its best estimates and judgments of the amounts and disclosures included in the consolidated financial statements giving due regard to materiality.

- 43 -

Revenue Recognition, Accounts Receivable and Allowance for Doubtful Accounts

Sales are recorded when title and risks of ownership transfer to the buyer. Shipping and handling fees charged to customers are recorded as revenues and the related costs are recorded as cost of sales.

The Company markets its products to a diverse customer base in the United

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

States and in other countries. Credit is extended after a credit review by management which is based on a customer's ability to perform its obligations. Such reviews are regularly updated. The allowance for doubtful accounts is based upon agings of customer balances and specific account reviews by management. Reunion Industries has no concentration of credit risks and generally does not require collateral or other security from its customers.

Accounts receivable are presented net of a reserve for doubtful accounts of \$212,000 at December 31, 2001 and \$328,000 at December 31, 2000, which represented 1.7% and 2.6%, respectively, of gross trade receivables (excluding other non-trade receivables).

Inventories and Inventory Reserves

Inventories are stated at the lower of cost or market, at costs which approximate the last-in, first-out method of inventory valuation. The remainder are at costs which approximate the first-in, first-out method. Work-in-process and finished goods include material costs, labor costs and manufacturing overhead. Reserves for excess, slow-moving and obsolete inventories are based on reviews of inventory usage reports for items more than one year old. The Company evaluates its inventories on a quarterly basis to identify excess, slow-moving and obsolete inventories and assess reserve adequacy. When this evaluation indicates such inventories exist, the reserve is increased by a charge to operations or such inventories are written off.

With downturns in certain of the markets served by the Company during the second half of 2001, the Company experienced an increase in inventories classified as slow-moving according to its policy. Based on a review by management, the Company wrote-off \$2.5 million of inventories in the fourth quarter of 2001.

Goodwill and Impairment

The excess of the purchase consideration over the fair value of the net assets of acquired businesses is considered to be goodwill and, until December 31, 2001, was being amortized over 15 years using the straight-line method.

The Company periodically evaluates whether events and circumstances have occurred that indicate the remaining estimated useful life of goodwill may warrant revision or the carrying value of goodwill may not be recoverable. In evaluating goodwill for possible impairment, an estimate of undiscounted future cash flows over the goodwill's remaining estimated useful life is used. If this analysis indicates that goodwill is impaired, a loss is recognized to reduce its carrying value to fair market value.

At December 31, 2001, the Company had \$11.4 million of goodwill on its consolidated balance sheet and another \$11.6 million was classified within net assets of discontinued operations. Of the \$11.4 million of goodwill, \$9.5 million relates to the Company's pressure vessel and springs segment, \$1.5 million relates to the cylinders segment and the remainder relates to additional shares of the Company's common stock issued pursuant to the merger agreement. See "Additional Shares of Reunion Common Stock." Because of the historically positive operating results and cash generation of the pressure vessel and springs segment, management does not consider its related goodwill to be impaired as of December 31, 2001. Also, management does not consider the cylinders segment goodwill to be impaired as the Company believes this segment is in a temporary cyclical downturn.

- 44 -

During the fourth quarter of 2001, as part of the provision for restructuring, the Company wrote-off all goodwill related to Plastics of \$2.9

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

million due to the equipment write-offs and the historical operating results of that segment.

Management does not consider the \$11.6 million of goodwill classified within net assets of discontinued operations to be impaired as it relates to the discontinued materials handling systems operations, which has historically produced positive operating results and cash generation and which management expects to dispose of at an amount which exceeds its carrying value.

See "Recent Accounting Pronouncements."

Property, Plant and Equipment

The Company evaluates its property, plant and equipment for impairment whenever indicators of impairment exist. With downturns in certain of the markets served by the Company during the second half of 2001, indications were that impairment existed in its Plastics segment and that the carrying value of a portion of its property, plant and equipment was no longer recoverable. As a result, as part of the provision for restructuring, the Company recorded \$2.1 million related to impaired property, plant and equipment at Plastics. Such equipment has a carrying value at December 31, 2001 of approximately \$0.4 million representing the appraised estimated liquidation value of such equipment.

Pensions

The Company accounts for its defined benefit pension plans in accordance with SFAS No. 87, "Employers' Accounting for Pensions" which requires that amounts recognized in the consolidated financial statements be determined on an actuarial basis. The Company makes contributions to the defined benefit plans based on the minimum funding requirements of the Employee Retirement Income Security Act of 1974.

The Company uses the fair value of plan assets to determine the expected and actual returns on plan assets. The difference between the expected return and actual return is deferred. During the second half of 2001, the fair value of assets in both of the Company's defined benefit pension plans decreased for various reasons, including a downturn in the overall economy and unusual world events. This decrease in asset values resulted in the Company recording additional minimum pension liabilities in excess of amounts previously accrued totalling \$1.1 million which is classified as accumulated comprehensive loss within stockholders' equity at December 31, 2001. Although management believes the long-term rates of return used to calculate the expected returns on plan assets are reasonable, should a trend of actual returns being less than expected returns develop, future pension costs would likely increase.

In determining the discount rates to be used at the end of each year to determine plan liabilities, the Company looks at rates of return on high-quality, fixed-income investments that receive one of the two highest ratings given by a recognized ratings agency. Changes in discount rates over the last three years have not materially affected pension costs and the net effect of changes in the discount rate, as well as the net effect of other changes in actuarial assumptions and experience, have been deferred as allowed by SFAS 87.

[The Company currently expects that consolidated pension costs for 2002 will not be significantly different from 2001.]

- 45 -

Other Postretirement Benefits

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

The Company provides health benefits for certain retired employees at the Company's pressure vessel operations and Plastics and of its Corporate Executive Payroll. These plans are not funded. Other postretirement benefit costs and the benefit obligation are actuarially determined based on discount rates and expected trends in healthcare costs.

Environmental Contingencies

When it is probable that a liability has been incurred or an asset has been impaired, a loss is recognized assuming the amount of the loss can be reasonably estimated. Except as described in the following paragraphs, the Company believes it is currently in material compliance with existing environmental protection laws and regulations and is not involved in any significant remediation activities or administrative or judicial proceedings arising under federal, state or local environmental protection laws and regulations. In addition to management personnel who are responsible for monitoring environmental compliance and arranging for remedial actions that may be required, the Company has also employed outside consultants from time to time to advise and assist the Company's environmental compliance efforts. Except as described in the following paragraphs, the Company has not recorded any accruals for environmental costs.

In February 1996, Reunion was informed by a contracted environmental services consulting firm that soil and ground water contamination exists at its Lafayette, Indiana site. Since then, the Company has expended \$376,000 of remediation costs and accrued an additional \$20,000.

In connection with the sale of its former oil and gas operations, pre-merger Reunion retained certain oil and gas properties in Louisiana because of litigation concerning environmental matters. The Company is in the process of environmental remediation under a plan approved by the Louisiana Department of Natural Resources Office of Conservation (LDNROC). The Company has recorded an accrual for its proportionate share of the remaining estimated costs to remediate the site based on plans and estimates developed by the environmental consultants hired by the Company. During 1999, the Company conducted remediation work on the property. The Company paid \$172,000 of the total cost of \$300,000. Regulatory hearings were held in January 2000 and 2001 to consider the adequacy of the remediation conducted to date. In August 2001, LDNROC issued its order for the Company to complete the soil remediation under the plan approved in 1999 and to perform additional testing to determine to what extent groundwater contamination might exist. The Company's environmental consultant is in the process of updating the estimate of the costs to comply with this order, [but the Company does not believe that the cost of future remediation will exceed the amount accrued]. No remediation was performed in 2000 or 2001 pending the decision. However, the Company has paid \$232,000 for its share of consulting services in connection with the hearings. At December 31, 2001, the balance accrued for these remediation costs is approximately \$1,076,000. Owners of a portion of the property have objected to the Company's cleanup methodology and have filed suit to require additional procedures. The Company is contesting this litigation, and believes its proposed methodology is well within accepted industry practice for remediation efforts of a similar nature. No accrual has been made for costs of any alternative cleanup methodology which might be imposed as a result of the litigation.

- 46 -

On March 15, 2002, the Company received a Request for Information from the United States Environmental Protection Agency (USEPA) regarding the Gambonini Mine Site in Marin County, California. The Company is currently gathering the information requested by the USEPA and is cooperating fully with this request. At this time, the Company has not been formally named as a

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

potentially responsible party. As such and because the extent of the Company's involvement with the Gambonini Mine Site is not known, the Company has not made any assessment of potential liability, if any.

RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations." This statement eliminates the pooling-of-interest method for business combinations and changes the criteria for recognizing intangible assets apart from goodwill. This statement is effective for purchases completed after June 30, 2001. The Company has not engaged in any acquisitions since June 30, 2001. Acquisitions prior to June 30, 2001 were recorded as purchases in accordance with Accounting Principles Board Opinion No. 16.

The Financial Accounting Standards Board issued SFAS No. 142, "Goodwill and Other Intangible Assets." This statement eliminates the amortization of goodwill and indefinite lived intangible assets and requires such assets be reviewed for impairment at least annually. This statement is effective for goodwill and intangible assets acquired prior to July 1, 2001 upon adoption, which is required for fiscal years beginning after December 15, 2001.

The Financial Accounting Standards Board issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This statement supersedes SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" but retains many of its fundamental provisions. SFAS 144 also supersedes certain provisions of Accounting Principles Board Opinion No. 30, "Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions" but retains its provision to separately report discontinued operations and extends that reporting to a component of an entity, as defined therein, that either has been disposed of or is classified as held for sale, thus broadening the presentation of discontinued operations to include more disposal transactions. Effective January 1, 2002, the Company adopted this statement.

The Company is evaluating the adoption and effects of these statements on the Company.

- 47 -

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the operation of its business, Reunion Industries has market risk exposure to foreign currency exchange rates, raw material prices and interest rates. Each of these risks and Reunion Industries' strategies to manage the exposure is discussed below.

Reunion Industries manufactures its products in the United States and sells its products in the United States and in foreign countries. The countries to which the Company exports its products vary from year to year. International sales in 2001 were in four major areas of the globe: the Far East; Mexico; Western Europe; and Canada. International sales in 2000 were in four major areas of the globe: the Far East; Canada; Western Europe; and Central and South Americas. The majority of international sales in 2001 and 2000 relate to pressure vessel sales to customers in Taiwan and the People's Republic of China. Of Reunion's \$99.5 million of consolidated net sales for 2001, \$16.7 million were export sales, of which \$12.6 million related to pressure vessel sales and \$3.7 million related to Plastics. The remainder related to cylinder sales in Canada. Of the \$12.6 million of foreign pressure vessel sales, approximately \$9.0 million was in the Far East (principally

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

China and Taiwan) and \$2.6 million was in Western Europe. The remainder were in the Middle East and Canada. Plastics export sales included \$2.6 million in Mexico with the remainder in Europe and Canada.

Export sales to foreign countries are denominated in U.S. dollars, the Company's reporting currency. Accordingly, transaction loss exposures due to fluctuations in the currencies of the countries to which the Company's domestic locations export are minimal.

The major raw materials used by Metals include steel hot- and cold-rolled bands, structural bars, stainless steel coils, welded and seamless steel tubing and pipe, steel alloy bars, steel plates, brass tubing and bars and aluminum extrusions. The major raw material used by Plastics is thermoplastic polymers. These materials are available from a number of suppliers. [Prices for these materials are affected by changes in market demand, and there can be no assurances that prices for these and other raw materials will not increase in the future.] [Reunion Industries' contracts with its Plastics customers generally provide that such price increases can be passed through to its customers.] A 1.00% change in raw material prices would affect results of operations by approximately \$500,000.

Reunion Industries' operating results are subject to risk from interest rate fluctuations on debt that carries variable interest rates. The variable rate debt was approximately \$39.5 million at December 31, 2001, which is representative of balances outstanding during the year. A 1.00% change in interest rates would affect results of operations by approximately \$400,000.

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FROM 8-K

(a) Documents included in this report:

The following consolidated financial statements and financial statement schedules of Reunion Industries, Inc. and its subsidiaries are included in Part II, Item 8:

1. Financial Statements (Pages F-1 through F-51)

Report of Independent Public Accountants - Ernst & Young LLP
Report of Independent Public Accountants - PricewaterhouseCoopers LLP
Consolidated Balance Sheets - December 31, 2001 and 2000
Consolidated Statements of Income (Loss) and Comprehensive
Income (Loss) - Years Ended December 31, 2001, 2000 and 1999
Consolidated Statements of Cash Flows - Years Ended December 31, 2001,
2000 and 1999
Notes to Consolidated Financial Statements

2. Financial Statement Schedules (Page S-1)

Schedule II - Valuation and Qualifying Accounts and Reserves

Other schedules have been omitted because they are either not required, not applicable, or the information required to be presented is included in Reunion Industries' financial statements and related notes.

3. Exhibits

See pages E-1 to E-5 for a listing of exhibits filed with this report or incorporated by reference herein.

(b) Current Reports on Form 8-K

On December 12, 2001, the Company filed a Current Report on Form 8-K dated December 1, 2001 to file as an exhibit a public announcement via press release indicating that it would be further delayed in making its November 1, 2001 semi-annual interest payment of \$1.616 million on its 13% Senior Notes

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

due 2003, to attribute such further delay to the inability to obtain the necessary financing and to announced that failure to make the November 1 interest payment within the thirty-day cure period resulted in an Event of Default as defined in the Indenture which governs the 13% Senior Notes.

On February 14, 2002, the Company filed a Current Report on Form 8-K dated February 12, 2002 to publicly announce the date, time and place of its annual meeting of stockholders and the date of record for stockholders that will be permitted to vote at the annual meeting.

Report of Independent Auditors

Board of Directors and Stockholders
Reunion Industries, Inc.

We have audited the accompanying consolidated balance sheet of Reunion Industries, Inc. as of December 31, 2001, and the related consolidated statements of income (loss) and comprehensive income (loss) and cash flows for the year then ended. Our audit also included the financial statement schedule listed in the Index at Item 14(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Reunion Industries, Inc. at December 31, 2001, and the consolidated results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

The accompanying financial statements have been prepared assuming that Reunion Industries, Inc. will continue as a going concern. As more fully described in Note 1, at December 31, 2001, the Company is in default on \$64.4 million of debt, has a deficiency in working capital of \$60.2 million, a loss from continuing operations of \$29.0 million and has a deficiency in assets of \$17.2 million. These conditions raise substantial doubt about the Company's

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

ERNST & YOUNG LLP

Pittsburgh Pennsylvania
March 15, 2002

- F-2 -

Report of Independent Accountants

To the Board of Directors
and Stockholders of
Reunion Industries, Inc.

In our opinion, the consolidated balance sheet as of December 31, 2000 and the related consolidated statements of income (loss) and comprehensive income (loss) and of cash flows for each of the two years in the period ended December 31, 2000 present fairly, in all material respects, the financial position, results of operations and cash flows of Reunion Industries, Inc. and its subsidiaries at December 31, 2000 and for each of the two years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion. We have not audited the consolidated financial statements of Reunion Industries, Inc. for any period subsequent to December 31, 2000.

As discussed in Note 3 to the accompanying consolidated financial statements, Reunion merged with Chatwins Group, Inc. (Chatwins), an affiliate company on March 16, 2000. Chatwins was considered the acquiring company for financial reporting purpose. Effective with the merger, the combined company retained the name Reunion Industries, Inc.

REUNION INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: ACCOUNTING POLICIES

Nature of Business

Reunion Industries Inc. ("Reunion Industries", "Reunion" or "the Company") operations are composed of two major product categories: metals and plastics. Metals designs, manufactures and markets a broad range of metal fabricated and machined industrial parts and products, including seamless steel pressure vessels, fluid power cylinders and leaf springs. Until being classified as discontinued operations in the fourth quarter of 2001, products of Metals included bridge structures and cranes and materials handling systems and storage racks. Plastics manufactures high volume, precision plastics products and thermoset compounds and provides engineered plastics services.

Going Concern

As of December 31, 2001, the Company was unable to extend its May 2002

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

sinking fund payment date and was unable to fund its November 1, 2001 \$1.616 million semi-annual interest payment on its 13% senior notes as it had insufficient funds under its revolving credit facility. Additionally, the Company's Bank of America (BOA or Bank of America) Financing and Security Agreement and the indenture governing the 13% senior notes contain various covenants which, among other things, require the Company to maintain minimum availability and specify that the Company meet certain financial requirements, including minimum EBITDA, a minimum fixed charge coverage ratio and a maximum funded debt to EBITDA ratio. As of December 31, 2001, the Company was not in compliance with the minimum EBITDA requirement, fixed charge coverage ratio and maximum funded debt to EBITDA ratio. The Company has not been in compliance with certain of these financial covenants since the third quarter of fiscal 2001. As a result, \$64.4 million of the Company's long-term debt was classified as current on the consolidated balance sheet as of December 31, 2001 and is currently subject to various remedies including, but not limited to, acceleration of all amounts outstanding under the BOA Financing and Security Agreement and the 13% senior notes. The Company is projecting that it will not be in compliance with the covenants of its BOA Financing and Security Agreement or its 13% senior notes over the next twelve months.

The Company has generated a net loss of \$38,128,000 during the year ended December 31, 2001.

The financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The negative working capital position of \$60,179,000, the defaults of the BOA Financing and Security Agreement and the 13% senior notes, and the lack of borrowing capacity under its revolving credit facility indicate that the Company may not be able to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Since September 2001, the Company has been negotiating with its lenders to defer principal payments and modify the financial covenants under its existing debt facilities. Additionally, the Company has engaged a firm to serve as its investment banker with respect to the sale of its materials handling systems business and has had discussions with several prospective buyers. The Company plans to continue to pursue this sale to provide the liquidity necessary to maintain its ongoing operations. Although management expects to be able to accomplish its plans, there is no assurance that it will be able to do so. Failure to accomplish these plans could have an adverse impact on the Company's liquidity, financial position and future operations.

- F-9 -

Discontinued Operations

In December 2001, pursuant to a plan developed by management to restructure the Company's continuing businesses and dispose of or shut-down certain other businesses (see note 2), the Company classified and began accounting for its bridges and cranes and material handling systems businesses as discontinued operations in accordance with Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions" (APB 30), which requires discontinued operations to be reported separately from continuing operations. Prior period information contained in these consolidated financial statements and accompanying notes have been restated to reflect accounting for these discontinued businesses in accordance with APB 30. See note 16.

On October 27, 2000, the Company sold substantially all of its wine grape

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

agricultural operations and real estate holdings in Napa County, California. The Company classified and began accounting for the agricultural operations as discontinued operations in accordance with APB 30. See note 16.

During 1999, the former Chatwins Group disposed of its grating manufacturing business and liquidated its oil and gas business through the disposition of all of its grating and oil and gas related assets. See note 16.

Principles of Consolidation

The consolidated financial statements include the accounts of Reunion Industries and its subsidiaries. All significant intercompany transactions and balances have been eliminated.

Investments in other companies over which Reunion Industries does not have control, less than a 50% equity interest, and in which Reunion Industries has the ability to exercise significant influence over operating or financial policies, if any, are accounted for by the equity method.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the reported amounts of assets, liabilities, revenues, expenses, and disclosures of contingencies during the reporting period, which in the normal course of business are subsequently adjusted to actual results. Actual results could differ from such estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposit accounts and other cash equivalents with original maturities of 3 months or less.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are net of \$212,000 and \$328,000 in allowance for doubtful accounts at December 31, 2001 and 2000, respectively. Credit is extended after a credit review by management which is based on a customer's ability to perform its obligations. Such reviews are regularly updated. The allowance for doubtful accounts is based upon agings of customer balances and specific account reviews by management. The Company has no concentration of credit risks and generally does not require collateral or other security from its customers.

- F-10 -

Inventories and Reserves for Obsolescence

Inventories are stated at the lower of cost or market, at costs which approximate the "last-in, first-out" (LIFO) method of inventory valuation for approximately 64% and 71% of total inventories at December 31, 2001 and 2000, respectively. The remainder are at costs which approximate the "first-in, first-out" (FIFO) method. Work-in-process and finished goods include material costs, labor costs and manufacturing overhead. Reserves for excess, slow-moving and obsolete inventories are based on reviews of inventory usage reports for items more than one year old. See note 4.

Property, Plant and Equipment

Property, plant and equipment is recorded at cost, including costs as determined by the allocation of the purchase price in business acquisitions

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

accounted for using the purchase method, and depreciated over their estimated useful lives using the straight-line method for financial statement purposes. Estimated useful lives in years for depreciation are as follows: 25 to 40 for buildings and improvements; 7 to 12 for machinery and equipment; 5 to 8 for computer systems; 7 to 10 for furniture and fixtures. Additions, betterments and replacements are capitalized, while expenditures for repairs and maintenance are charged to operations when incurred. As units of property are sold or retired, the related cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income.

Computer Software Costs

The internal and external costs incurred to develop internal-use computer software are capitalized if they relate to designing, coding, installing and testing the software during the application development stage. All other costs incurred are expensed.

Goodwill

Goodwill, which represents the excess of the purchase consideration over the fair value of the net assets of acquired businesses, is being amortized over 15 years using the straight-line method. Accumulated amortization of goodwill at December 31, 2001 and 2000, is \$935,000 and \$324,000, respectively.

The Company periodically evaluates whether events and circumstances have occurred that indicate the remaining estimated useful life of goodwill may warrant revision or the carrying value of goodwill may not be recoverable. In evaluating goodwill for possible impairment, an estimate of undiscounted future cash flows over the goodwill's remaining estimated useful life is used. If this analysis indicates that goodwill is impaired, a loss is recognized to reduce its carrying value to fair value.

Long-Lived Assets and Impairment

The Company reviews long-lived assets for impairment whenever circumstances indicate that the carrying amount of the asset may not be recoverable, and recognizes an impairment loss when the undiscounted future cash flows expected to be generated by the asset are less than the carrying amount of the asset. Long-lived assets held for sale, other than assets to be disposed of in connection with disposal of a discontinued business segment, are reported at the lower of carrying amount or fair value less cost to sell.

- F-11 -

Other Assets

Other assets primarily include capitalized debt issuance costs on presently outstanding debt, which are being amortized to interest expense using the effective interest rate method over the term of the related debt agreements, and the cash surrender value of life insurance policies. See notes 6 and 13.

Revenue Recognition

Sales are recorded when shipped and title and risks of ownership transfer to the buyer. Shipping and handling fees charged to customers are recorded as revenues and the related costs are recorded as cost of sales.

The percentage-of-completion method of accounting is used for orders with long cycle times. Under this method, income is recognized as work on contracts progresses. The percentage of work completed is determined

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

principally by comparing the accumulated costs to date with management's current estimate of costs at contract completion. Contract costs include all direct material and labor costs and those indirect costs related to contract performance. At the time when current estimates indicate a loss, a provision is made. Long-term contract amounts are related to and included in net assets of discontinued operations at December 31, 2001 and 2000.

Environmental Policies

Environmental expenditures that relate to current operations are either expensed or capitalized depending on the nature of the expenditure. Expenditures relating to conditions caused by past operations that do not contribute to current or future revenue generation are expensed. Liabilities are recorded when environmental assessments and/or remediation actions are probable, and the costs can be reasonably estimated (See note 14).

Income Taxes

The Company provides deferred income taxes for all temporary differences between financial and income tax reporting using the liability method. Deferred taxes are determined based on the estimated future tax effect of differences between the financial statement and tax bases of assets and liabilities given the provisions of enacted tax laws. A valuation allowance is recorded for net deferred tax assets if it is more likely than not that such assets will not be realized. The Company has significant net operating loss and investment tax credit carryforwards for tax purposes, a portion of which may expire unutilized (see note 12).

Earnings Per Share

Basic earnings per share is computed based on the weighted average number of common shares outstanding during the period. Diluted earnings per share gives effect to all dilutive potential common shares outstanding during this period. Potential common shares include shares issuable upon exercise of the Company's stock options (see note 9).

Potential common shares relating to options to purchase common stock aggregating 25,809 and 69,682 are included in the weighted average number of shares for the years ended December 31, 2001 and 2000, respectively.

- F-12 -

Recent Accounting Pronouncements

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, "Business Combinations." This statement eliminates the pooling-of-interest method for business combinations and changes the criteria for recognizing intangible assets apart from goodwill. This statement is effective for purchases completed after June 30, 2001. The Company has not engaged in any acquisitions since June 30, 2001. Acquisitions prior to June 30, 2001 were recorded as purchases in accordance with Accounting Principles Board Opinion No. 16.

The Financial Accounting Standards Board issued SFAS No. 142, "Goodwill and Other Intangible Assets." This statement eliminates the amortization of goodwill and indefinite lived intangible assets and requires such assets be reviewed for impairment at least annually. This statement is effective for goodwill and intangible assets acquired prior to July 1, 2001 upon adoption, which is required for fiscal years beginning after December 15, 2001. The Company is evaluating the adoption and effects of this statement on the Company. During the year ended December 31, 2001, the Company recorded goodwill amortization of \$1,903,000. The effect on basic earnings per share

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

had the Company adopted the non-amortization of goodwill provisions of SFAS 142 at the beginning of 2001 would have been a decrease in net loss per share of \$0.12 for the year ended December 31, 2001.

The Financial Accounting Standards Board issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." This statement supersedes SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" but retains many of its fundamental provisions. SFAS 144 also supersedes Accounting Principles Board Opinion No. 30, "Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions" but retains its provision to separately report discontinued operations and extends that reporting to a component of an entity, as defined therein, that either has been disposed of or is classified as held for sale, thus broadening the presentation of discontinued operations to include more disposal transactions. This statement is effective for fiscal years beginning after December 15, 2001.

Non-cash Financing and Investing Activities

The Company acquired all of the outstanding common stocks of NPS Acquisition Corp. in 2001 and Kingway in 2000. These transactions included the assumptions of liabilities as part of the purchase price. The Company and Chatwins Group merged in 2000 in a non-cash issuance of the Company's stock and the assumption of certain liabilities. See note 3 for a discussion of these events.

The Company exchanged its Series A and B preferred stock in a non-cash issuance of the Company's common stock in 2000. See note 8 for a discussion of this event.

Reclassifications

Certain reclassifications of prior year amounts have been made to conform to 2001 classifications.

- F-13 -

NOTE 2: RESTRUCTURING AND OTHER ACTIONS

As the result of downturns in several of the markets served by the Company during the third and fourth quarters of 2001 and the resulting decreases in the Company's ability to absorb costs and the quality of its borrowing base, management of the Company has developed a plan to restructure its continuing businesses and dispose of or shut-down certain other businesses. Key elements of the plan include:

RESTRUCTURING

- * Consolidate the pressure vessel operations of CPI and NPSAC.
- * Consolidate the cylinder operations of Hanna and TJ Brooks.
- * Shut-down Plastics' thermoplastics operations at Siler City, NC.
- * Close Plastics' corporate headquarters in Charlotte, NC.
- * Address machinery and equipment impairments.

DISCONTINUED OPERATIONS

- * Shut-down and liquidate the assets and business of Alliance Machine.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

* Dispose of the Kingway Material Handling division.

The plan was approved by the Company's board of directors in December 2001. The Company has recorded a fourth quarter 2001 charge for restructuring costs, including facility shut-down costs, lease termination costs and asset writedowns, including impaired goodwill related to Plastics, and a charge for estimated loss on disposal of discontinued operations (related solely to Alliance Machine) including phase-out period operating losses, lease termination costs and asset writedowns. Components of the fourth quarter 2001 charges are as follows:

	Classifications of Charges	
	Provision for Restructuring	Discontinued Operations
Metals:		
Asset impairments	\$ 613	\$ 3,771
Lease termination costs	927	995
Reserve for operating losses during phase-out	-	1,633
Employee separations	20	-
	-----	-----
Total charges - Metals	1,560	6,399
	-----	-----
Plastics:		
Asset impairments	2,060	-
Goodwill impairment	2,946	-
Lease termination costs	245	-
	-----	-----
Total charges - Plastics	5,251	-
	-----	-----
Total charges	\$ 6,811	\$ 6,399
	=====	=====

The \$1.6 million charge for discontinued operations phase-out includes \$1.4 million for operating losses and \$0.2 million for employee separations costs.

- F-14 -

Execution of the plan began in January 2002 and is expected to be completed by June 2002 but by no later than the end of 2002. Benefits of the plan include cost reductions from streamlining operations, reducing operating losses at historically unprofitable businesses and interest savings from reduced debt. Management estimates indicate that the present value of these benefits significantly exceeds the near-term estimated costs to execute the plan.

NOTE 3: THE MERGER, REFINANCING AND ACQUISITIONS

The Merger

On March 16, 2000, Chatwins Group, Inc. (Chatwins Group) and Reunion merged, with Reunion as the surviving entity. Prior to the merger, Chatwins Group owned approximately 37% of Reunion's issued and outstanding common stock.

The merger was accounted for as a purchase under APB Opinion No. 16 "Business Combinations" with Chatwins Group as the acquirer for purposes of applying purchase accounting. Accordingly, Chatwins Group's assets and

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

liabilities were accounted for at historical book values and the assets and liabilities of the 63% of Reunion not previously owned were revalued at their estimated fair value. As Chatwins Group was considered to be the acquirer in the merger, the pre-merger financial information presented herein represents the historical financial information of Chatwins Group restated for the classifications of the Company's bridges and cranes and materials handling systems businesses as discontinued operations. See note 2.

The purchase price in the merger was \$8.1 million, consisting of 2,490,000 shares of Reunion common stock not owned by Chatwins Group at March 16, 2000 valued at \$3.25 per share, based on the market price of Reunion common stock between July 28 and August 2, 1999, immediately prior to the announcement of the July 28, 1999 approval by Reunion's board of directors of the amended and restated merger agreement. Assets acquired included approximately \$13.3 million of current assets and approximately \$23.5 million of fixed and other assets. Liabilities and minority interests assumed included approximately \$9.9 million of current liabilities, \$21.6 million of noncurrent liabilities and \$2.1 million of minority interests.

In the merger, Reunion issued 9,500,000 shares of common stock to holders of Chatwins Group's common stock. The 1,450,000 shares of Reunion common stock previously owned by Chatwins Group were retired in the merger, as were the previously issued shares of Chatwins Group common stock. The merger agreement also provided that up to an additional 500,000 shares of Reunion common stock would be issued to former Chatwins Group common stockholders if the former Chatwins Group businesses and the acquired Kingway business achieved specified performance levels in 2000. A determination of the number of shares to be issued was made by the board of directors at its meeting held on May 15, 2001. Such additional shares totaled 348,995 and were issued on May 29, 2001. The closing price of Reunion's common stock on that date was \$1.30 per share. The issuance of the additional shares was recorded as a merger purchase price adjustment to goodwill.

Holder of Chatwins Group Class D, Series A, B and C preferred stock received 9,033 shares of Reunion Series A preferred stock in the merger. The Reunion Series A preferred stock had an initial redemption price of \$9,033,000. Cumulative dividends at 10% of the initial redemption price were payable as and when declared by Reunion's Board of Directors. See note 8 for a discussion of the exchange of the Company's preferred stock for common stock.

- F-15 -

The Refinancing

Simultaneously with the merger, Reunion entered into \$72.5 million of senior secured credit facilities with Bank of America ("Bank of America" or "BOA"). These credit facilities consist of a \$39.0 million revolving credit facility, a \$25.8 million term loan A facility, a \$5.0 million term loan B facility and a \$2.7 million capital expenditures facility.

Proceeds from initial borrowings under the Bank of America credit facilities were used for various purposes, including repayment of Chatwins Group's then existing credit facilities with Bank of America, repayment of Reunion's existing credit facilities with the CIT Group/Business Credit, Inc. and retirement of \$25.0 million of Chatwins Group's 13% senior notes plus accrued and unpaid interest. Reunion assumed the obligations of Chatwins Group under the indenture governing the remaining 13% senior notes. See note 7.

Acquisition of Kingway

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Simultaneously with the merger, Reunion acquired Stanwich Acquisition Corp. (SAC), an affiliated company, doing business as Kingway Material Handling (Kingway). Similar to Chatwins Group's material handling product line, Kingway produces industrial and commercial storage racks and materials handling systems. Subsequent to the merger and acquisition, Reunion integrated Kingway into the existing material handling product line and operates from a single location.

The purchase price included \$100,000 in cash paid to the then existing common stockholders of Kingway, the assumption of approximately \$10.3 million of Kingway's debt and the issuance of \$6.8 million of preferred stock in exchange for Kingway's existing preferred stock as described below. Assets acquired included approximately \$3.0 million of current assets and approximately \$2.1 million of fixed and other assets. Liabilities assumed, including the assumed debt, included approximately \$11.7 million of current liabilities and \$6.8 million of preferred stock. The purchase price in excess of net assets acquired, less \$0.3 million, the value assigned to SAC's net operating losses at the time of the acquisition, amounting to approximately \$13.2 million, was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years.

In the acquisition, the holder of SAC's preferred stock received in exchange for its shares 5,000 shares of Reunion Series B preferred stock. The Reunion Series B preferred stock has a redemption price of \$5,000,000 plus cumulative dividends as of the date of the acquisition of \$1,781,000. See note 8 for a discussion of the exchange of preferred stock for common stock.

In December 2001, pursuant to a plan developed by management to restructure the Company's continuing businesses and dispose of or shut-down certain other businesses (see note 2), the Company classified and began accounting for the materials handling systems business as a discontinued operation.

Acquisition of NPS Acquisition Corp.

On January 17, 2001, the Company acquired NPS Acquisition Corp. (NPSAC) (f/k/a Naptech Pressure Systems) from Charles E. Bradley, Sr. (Mr. Bradley), the Company's chairman of the board and chief executive officer. Until the first quarter of 2002, NPSAC was based in Clearfield, Utah and manufactured seamless steel pressure vessels, an existing Metals product line. As part of the Company's plan to restructure its continuing operations, in the first quarter of 2002 this facility was shut-down and its operations were relocated and combined with the Company's pressure vessel manufacturing operations in McKeesport, Pennsylvania.

- F-16 -

The purchase price was \$10,000 plus the non-cash assumption of \$10.3 million of NPSAC's liabilities, including a 15% per annum \$6.9 million note payable to Shaw Group, the former owner of Naptech Pressure Systems and \$0.6 million of notes payable to Stanwich Financial Services Corp., a related party. Simultaneously with the acquisition, Reunion paid Shaw Group \$2.0 million of the note payable in cash from funds available under its revolving credit facility with Bank of America (BOA). The remainder of the note payable of \$4.9 million was then restructured to include quarterly principal payments of \$0.6 million for eight quarters which began on February 28, 2001. Reunion made the first two payments from funds available under its revolving credit facility. The Company has been unable to fund the remaining payments under this note due to lack of liquidity and insufficient funds available under its revolving credit facility. The note is unsecured and subordinated to the BOA term loan and revolving credit facilities.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

The estimated fair value of assets acquired included approximately \$1.4 million of cash, receivables, inventories and other current assets, approximately \$0.3 million of fixed assets and \$1.3 million of deferred tax assets which are fully reserved by a valuation allowance. The purchase price in excess of net assets acquired of \$8.6 million was recorded as goodwill and, until December 31, 2001, was being amortized over 15 years. NPSAC's fully-reserved deferred tax assets are comprised primarily of net operating losses.

NOTE 4: INVENTORIES

Inventories are comprised of the following (in thousands):

	At December 31,	
	2001	2000
Metals:		
Raw material	\$ 3,297	\$ 4,268
Work-in-process	1,908	3,499
Finished goods	2,431	5,873
	7,636	13,640
Less: LIFO adjustment	131	80
	7,767	13,720
Plastics:		
Raw material	1,715	2,584
Work-in-process	421	323
Finished goods	911	1,352
	3,047	4,259
Inventories	\$ 10,814	\$ 17,979

- F-17 -

NOTE 5: PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment (PP&E) is comprised of the following (in thousands):

	At December 31,	
	2001	2000
Metals:		
Land	\$ 541	\$ 541
Buildings and improvements	4,853	4,870
Machinery and equipment	13,219	13,205

13% Senior Notes

Chatwins Group was required to make sinking fund payments to redeem \$12.5 million principal amount of the senior notes on May 1 in each of 2000 through 2003 at face value plus accrued interest and to offer to purchase \$25 million of the senior notes on June 1, 2000 at face value plus accrued interest. In February 2000, Chatwins Group solicited the holders of the \$49,975,000 of 13% senior notes outstanding asking them to waive their right to participate in the June 1, 2000 \$25.0 million purchase offer, of which \$47,450,000 agreed to waive such right resulting in a maximum purchase offer obligation on June 1, 2000 of \$2,525,000.

- F-19 -

On June 1, 2000 Reunion made the required offer to purchase \$2,525,000 of senior notes, of which holders of only \$120,000 of senior notes tendered. However, the \$25.0 million of 13% senior notes repaid from the merger proceeds was applied against Reunion's obligations for sinking fund payments and the purchase offer as follows (in thousands):

	May 1, 2000	June 1, 2000	May 1, 2001	Total
-----	-----	-----	-----	-----
Sinking fund payment or purchase offer obligation	\$ 12,500	\$ 120	\$ 12,500	\$ 25,120
\$25.0 million applied to obligations	(12,500)	(120)	(12,380)	(25,000)
-----	-----	-----	-----	-----
Maximum required payment	\$ -	\$ -	\$ 120	\$ 120
-----	=====	=====	=====	=====

The \$120,000 principal amount of 13% senior notes was repaid by the Company on May 1, 2001 with funds available under its revolving credit

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

facility.

On September 4, 2001, the Company solicited the consent of its senior noteholders to extend the May 2002 and 2003 sinking fund payment dates by two years. The solicitation expired on November 2, 2001. As part of the solicitation, the Company reserved the right to terminate it if holders of less than \$22.0 million principal amount of senior notes consented. The Company has exercised its right to terminate the solicitation.

The Indenture governing the 13% senior notes includes covenants which restrict or prohibit: incurrence of indebtedness outside its revolving credit facility unless interest coverage tests are met; dividends, stock repurchases, loans, investments and retirements of junior debt; liens and encumbrances on assets; transactions with affiliates; sales of assets at less than fair value and for less than 75% cash consideration; and mergers, consolidations and the sale of substantially all assets.

The indenture also requires that the company maintain EBITDA (as defined in the indenture) of at least \$7.2 million on a last twelve months basis at the end of each fiscal quarter and that the company offer to repurchase some or all of the 13% senior notes upon a change of control or the sale of a significant amount of assets where the proceeds are not reinvested in other manufacturing assets within 180 days of the sale. In 2001, the Company did not generate the required EBITDA.

The Company was unable to fund its November 1, 2001 \$1.616 million semi-annual interest payment on its 13% senior notes as it had insufficient funds available under its revolving credit facility with BOA. Failure to make the November 1 interest payment is a default under the indenture which governs the 13% senior notes. Under the terms of the indenture, the Company had thirty days to cure the default. The Company was unable to cure the default during the 30-day cure period.

As part of its corporate-wide restructuring plan (see note 2), management of the Company has determined to dispose of assets in order to meet its interest payment obligations under the 13% senior notes. The senior notes are subordinated to the Bank of America revolving and term loan credit facilities.

Bank of America Revolving and Term Loan Credit Facilities

Simultaneously with the Chatwins Group merger, Reunion entered into senior secured credit facilities with Bank of America and other lenders. These credit facilities consist of a \$39.0 million revolving credit facility, a \$25.8 million term loan A facility amortizing in 84 monthly principal payments, a \$5.0 million term loan B facility amortizing in 36 monthly

- F-20 -

principal payments, and a \$2.7 million capital expenditures facility which amortizes in 60 monthly principal payments when borrowed. These facilities have a three-year initial term and automatically renew for additional one-year increments unless either party gives the other notice of termination at least 60 days prior to the beginning of the next one-year term. Since the merger, the Company has borrowed \$1.2 million under the capital expenditures facility. All of the term loan B and portions of the term loan A and revolving credit facility were repaid with the proceeds from the sale of the Company's Irish plastics business and agricultural and Chicago, Illinois real estate in 2000.

Interest on loans outstanding under the Bank of America facilities is tied to Bank of America's prime rate, as that term is defined in the financing agreements. Interest rates the prime rate plus 0.50% for the revolving credit facility and the prime rate plus 0.75% for the term loan A and capital

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

expenditures facilities. Because the Company is in default on its BOA revolving credit and term loan A facilities, the interest rate on each has been adjusted to the BOA prime rate plus 4%.

The Bank of America credit facilities are collateralized by a first priority lien on substantially all of the current and after-acquired assets of Reunion including, without limitation, all accounts receivable, inventory, property, plant and equipment, chattel paper, documents, instruments, deposit accounts, contract rights and general intangibles.

The facilities require Reunion to comply with financial covenants, including fixed charge coverage and leverage tests, and other covenants. The fixed charge coverage covenant requires the Company to maintain a minimum fixed charge coverage ratio to be tested as of the last day of each fiscal quarter. The components of the calculation are on a rolling twelve-month basis. The ratio is defined as EBITDA (adjusted to exclude non-financed capital expenditures and income taxes paid) divided by fixed charges (defined as scheduled or required principal and interest payments on debt). The leverage test is defined as the ratio of funded debt to EBITDA. Funded debt is defined as all secured and unsecured long-term debt, including current maturities. See "2001 Covenant Compliance" below.

In addition, the facilities contain various affirmative and negative covenants, including limitations on stockholder and related party distributions. The Company was in compliance with all other covenants. The facilities require Reunion to pay the reasonable expenses incurred by the lenders in connection with the facilities. Available borrowings under the Bank of America revolving credit facility are based upon a percentage of eligible receivables and inventories.

Since the refinancing, the Company and BOA have entered into several amendments of the Financing and Security Agreement and various letter agreements to provide the Company with temporary overadvance and special availability loans in order to assist the Company with short-term tightenings of liquidity.

On December 12, 2000, the agreement was amended to include a requirement that the Company maintain a minimum availability under the revolving credit facility of \$1.5 million. See "2001 Covenant Compliance" below. On January 19, 2001, the agreement was amended to allow for the acquisition of NPSAC by the Company.

2001 Covenant Compliance

For the quarter ended March 31, 2001 and for each fiscal quarter thereafter in 2001, the Bank of America (BOA) Financing and Security Agreement required the Company to maintain a minimum fixed charge coverage ratio of 1.25:1 and maximum funded debt to EBITDA ratios of 3.75:1, 3.50:1, 3.25:1 and 3.00:1.

- F-21 -

In April 2001, the Company entered into a letter agreement with Bank of America whereby, as long as the Company maintained both a fixed charge coverage ratio of at least 1.00:1 and had a funded debt to EBITDA ratio of no more than 4.50:1 as of the September 30, 2001 and December 31, 2001 calculation dates, and as long as the Company was in compliance on all other covenants, the Bank of America would not accelerate any of its loans.

Due to the rate and level of the downturns in several of the markets served by the Company and the resulting decrease in the Company's ability to absorb costs, cost cutting and capital expenditure restriction measures taken

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

by management during the third and fourth quarters of 2001 were not enough to achieve ratio compliance. For the quarter ended September 30, 2001, the Company's fixed charge coverage ratio was 0.79:1 and the funded debt to EBITDA ratio was 5.61:1. As a result, the Company is in default under its BOA Financing and Security Agreement.

The Company and Bank of America entered into various amendments to the BOA Financing and Security Agreement during 2000. The December 12, 2000 amendment required the Company to maintain a minimum availability under the revolving credit facility of \$1.5 million. Through the second quarter of 2001, the Company had complied with this requirement. However, due to the downturn in several of the markets served by the Company during the third quarter of 2001 and the resulting decrease in the quality of the Company's borrowing base, ineligible receivables and inventory increased. Based on the borrowing base formulas as set forth in the BOA Financing and Security Agreement, this increase in ineligibles resulted in a decrease in borrowing availability under the revolving credit facility and the Company's inability to maintain a minimum availability of \$1.5 million. As a result, the Company is in default under its BOA Financing and Security Agreement.

In November 2001, the Company was informed by BOA that a borrowing base deficiency existed, as defined in the BOA financing and security agreement. Since that time, the Company and BOA have entered into six side letter agreements wherein BOA and the other lenders that participated in the BOA refinancing of the Company in the merger agreed to provide monthly advances in excess of the borrowing base of the Company for working capital needs while the Company addresses its lack of liquidity issue pursuant to its plan to sell assets and reduce debt. The sixth side letter agreement, dated April 1, 2002, provides overadvance approval on a day-to-day basis whereby the overadvance may not exceed \$3.5 million. As of April 16, 2002, the Company has not exceeded the \$3.5 million overadvance availability provided for in the side letter agreement. However, nothing in these six side letter agreements waives or otherwise alters BOA's already existing remedies under the BOA financing and security agreement including acceleration of all amounts outstanding under the BOA financing and security agreement.

In consideration of providing its approval of overadvance availability, as provided in the side letter agreements, the Company has been and continues to pay a weekly fee of \$25,000 or \$50,000, depending on the amount of the overadvance. Since entering into the side letter agreements beginning in November 2001, the Company has paid BOA a total of \$750,000 in such fees.

During 2001, the Company spent \$2.9 million on capital expenditures. The Company's covenant limitation on capital expenditures is \$4.5 million for the year 2001 and thereafter.

- F-22 -

Note Payable due February 28, 2003

With the acquisition of NPSAC, Reunion assumed a note payable of \$4.9 million. Terms of this note payable include quarterly principal payments of \$0.6 million for eight quarters which began on February 28, 2001 and quarterly interest payments at 15% per annum on the unpaid principal. Reunion made the first two payments from funds available under its revolving credit facility. The Company has been unable to fund the remaining payments under this note due to lack of liquidity and insufficient funds available under its revolving credit facility. The Company has classified this note payable as long-term as it is unsecured and subordinated to the BOA term loan and revolving credit facilities.

Other Long-Term Debt

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Other long-term debt includes a \$1,017,000 11% note payable, \$134,000 of capital leases and a \$102,000 small business loan related to Plastics. Payment of the note payable is restricted by the terms of the Bank of America revolving and term loan facilities agreement and, as such, is classified as long-term. The capital leases are collateralized by the financed equipment. Maturities of capital leases and the small business loan are: 2002 - \$87; 2003 - \$86 and 2004 - \$63.

Other Debt - Related Parties

Related party debt includes notes payable to SFSC totaling \$4,615,000 with interest at 10% per annum on \$100,000, at 11% per annum on \$1,017,000, at 15% per annum on \$500,000 and at 18% per annum on \$2,998,000. Related party debt is classified as long-term as it is subordinated to the Bank of America revolving and term loan facilities except that regularly scheduled payments of interest may be made when due as long as no default exists under the BOA facilities (see note 13).

NOTE 8: STOCKHOLDERS' EQUITY

The Company's Certificate of Incorporation authorizes the issuance of 20,000,000 shares of common stock, par value \$.01 per share, and 10,000,000 shares of "blank check" preferred stock, par value \$.01 per share, and includes certain capital stock transfer restrictions which are designed to prevent any person or group of persons from becoming a 5% shareholder of the Company and to prevent an increase in the percentage stock ownership of any existing person or group of persons that constitutes a 5% shareholder by prohibiting and voiding any transfer or agreement to transfer stock to the extent that it would cause the transferee to hold such a prohibited ownership percentage. The Transfer Restrictions are intended to help assure that the Company's substantial net operating loss carryforwards will continue to be available to offset future taxable income by decreasing the likelihood of an "ownership change" for federal income tax purposes.

No dividends have been declared or paid during the year with respect to the common stock of the Company. Cash dividends are limited by the availability of funds and by restrictions in the Company's debt agreements.

	-----	-----
Outstanding common stock, December 31	15,591	15,236
	=====	=====

(1) - Not restated to give effect to the merger.

In the merger, Reunion issued 9,500,000 shares of common stock to holders of Chatwins Group's common stock. The merger agreement also provided that up to an additional 500,000 shares of Reunion common stock would be issued to former Chatwins Group common stockholders if the former Chatwins Group businesses and the acquired Kingway business achieved specified performance levels in 2000. A determination of the number of shares to be issued was made by the board of directors at its meeting held on May 15, 2001. Such additional shares totaled 348,995 and were issued on May 29, 2001. The

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

closing price of Reunion's common stock on that date was \$1.30 per share. The issuance of the additional shares was recorded as a merger purchase price adjustment to goodwill.

On June 14, 2000, the Company's Board of Directors approved the exchange of its Series A and Series B preferred stocks for 3,245,515 shares of the Company's common stock at an exchange price of \$5.00 per share. The Series A and Series B preferred stocks were issued in connection with the March 16, 2000 merger with Chatwins Group and acquisition of Kingway, and had an aggregate liquidation value of \$16.2 million. The closing market price of Reunion's common stock was \$1.00 on that date.

NOTE 9: STOCK OPTIONS

At December 31, 2001, the Company has three stock option plans which are described below. In implementing FASB Statement 123 "Accounting for Stock-Based Compensation" in 1996, the Company elected to continue to apply the provisions of APB Opinion 25 and related interpretations in accounting for its plans. Stock option grants during the periods presented were all at exercise prices equal to or above the current market price of the underlying security and, accordingly, no compensation cost has been recognized for the Company's stock option plans. At December 31, 2001, 1,463,000 shares of common stock were reserved for issuance pursuant to these plans.

- F-25 -

Had compensation cost for the Company's stock option plans been determined based on the fair value at the grant dates for awards under those plans consistent with the method of FASB Statement 123, the Company's loss per share for 2001 and earnings per share for 2000 would have changed to the pro forma amounts as indicated below:

	As Reported		Pro forma	
	2001	2000	2001	2000
Earnings (loss) applicable to common stockholders	\$ (38,128)	\$ 5,045	\$ (38,374)	\$ 4,655
Basic earnings (loss) per common share	\$ (2.45)	\$ 0.38	\$ (2.46)	\$ 0.35
Diluted earnings (loss) per common share	\$ (2.45)	\$ 0.38	\$ (2.46)	\$ 0.35

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: dividend yield of 0 percent for all years; expected volatility of 86% for 2001 and 82% for 2000; risk-free interest rates of 3.4% to 5.8% for 2001 and 5.3% to 6.5% for 2000 and expected life of ten years in 2001 and 2000. Expected volatility was estimated based on historical performance of the Company's stock prices and is not necessarily an indication of future stock movements.

1992 Option Plan

Effective July 1, 1992, the Board of Directors and stockholders of the Company approved the adoption of the 1992 Nonqualified Stock Option Plan (the "1992 Option Plan"). The 1992 Option Plan, as amended, authorized the grant of options and sale of 250,000 shares of common stock of the Company to key

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

employees, directors and consultants. In March 2000, the Company granted 25,000 options at an exercise price of \$3.00 per share and in June 2000 granted 14,000 options at an exercise price of \$1.00 per share to Mr. Bradley. The options vest in one-third installments over a two year period beginning with the date of grant. No option granted under the 1992 Option Plan may be exercised prior to six months from its date of grant or remain exercisable after ten years from the grant date.

1993 Option Plan

Effective September 28, 1993, the Board of Directors and stockholders of the Company approved the adoption of the 1993 Incentive Stock Option Plan (the "1993 Option Plan") for the granting of options or awards covering up to 250,000 shares of the Company's common stock to officers and other key employees. Under the terms of the 1993 Option Plan, the Compensation Committee of the Board of Directors is authorized to grant (i) stock options (nonqualified or incentive), (ii) restricted stock awards, (iii) phantom stock options, (iv) stock bonuses and (v) cash bonuses in connection with grants of restricted stock or stock bonuses. In July 1996, the Company granted 50,000 incentive stock options (10,000 exercised) to Richard L. Evans, the Company's Secretary and Executive Vice President of Administration, and 5,000 incentive stock options (all forfeited) to another officer, all at an exercise price of \$4.4375 per share. The options were fully vested in July 1998 and were exercisable until July 2001. During 2001, the exercise period for these options was extended until July 2006. In February 1998, the Company granted 20,000 options at an exercise price of \$5.0625 to Mr. Evans, and in May 1998, the Company granted 75,000 options at an exercise price of \$7.21875 to Mr. Bradley. The options vest in installments through February 2000 and are exercisable until February 2003 for Mr. Evans and vest in installments through January 2003 and are exercisable until May 2003 for Mr. Bradley.

- F-26 -

In June 2000, the Company granted 95,000 options, 82,500 at an exercise price of \$1.00 per share (including 6,000 to Mr. Bradley, 12,500 to Mr. Lawyer, 9,500 to Mr. Froehlich and 7,000 to Mr. Evans) and 12,500 at an exercise price of \$1.10 per share to Kimball Bradley. The options vest in one-third installments over a two year period beginning six months after the date of grant. The options are exercisable until June 2005 for Kimball Bradley and June 2010 for all other options granted. During 2001, Mr. Evans exercised 4,667 of these options.

1998 Option Plan

On August 4, 1998, the Company's stockholders ratified the adoption by the Board of Directors, on June 1, 1998, of the 1998 Stock Option Plan (the 1998 Option Plan). The Compensation Committee of the Board of Directors is authorized to grant incentive options and nonqualified options covering up to 600,000 shares of the Company's common stock to officers and other key employees. On February 13, 1998, the Board of Directors, on recommendation by the Compensation Committee, had conditionally granted options to purchase 15,000 shares of the Company's common stock to each of the five non-employee Directors (excluding Mr. Bradley), subject to adoption of the plan by the Board and ratification by the stockholders. The options have an exercise price of \$5.0625, vested immediately and are exercisable until February 2008.

In March 2000, the Company granted 304,000 options, 279,000 at an exercise price of \$3.00 per share (including 25,000 to Mr. Lawyer, 20,000 to Mr. Froehlich, 10,000 to Mr. Evans and 50,000 to non-employee directors) and 25,000 at an exercise price of \$3.30 per share to Kimball Bradley. The options vest in one-third installments over a two year period beginning with the date of grant. The options are exercisable until March 2005 for Kimball

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Bradley and March 2010 for all other options granted. As of December 31, 2000, 2,000 options had been forfeited.

In June 2000, the Company granted 212,000 options, 204,500 at an exercise price of \$1.00 per share (including 7,500 to Mr. Lawyer, 9,500 to Mr. Froehlich, 2,000 to Mr. Evans and 45,000 to non-employee directors) and 7,500 at an exercise price of \$1.10 per share to Kimball Bradley. The options vest in one-third installments over a two year period beginning with the date of grant. The options are exercisable until June 2005 for Kimball Bradley and June 2010 for all other options granted. During 2001, Mr. Evans exercised 1,333 of these options.

In December 2000, the Company granted 10,000 options at an exercise price of \$1.25 per share to an employee. The options vest in one-third installments over a two year period beginning with the date of grant. The options are exercisable until December 2010.

At the Company's annual meeting of stockholders in May 2001, the Company's stockholders approved a proposal to reserve an additional 600,000 shares of the Company's common stock for issuance under the 1998 Stock Option Plan.

In May 2001, the Company granted 313,500 options, 263,500 at an exercise price of \$1.45 per share (including 10,000 to Mr. Lawyer, 25,000 to Mr. Froehlich, 10,000 to Mr. Evans and 55,000 to non-employee directors) and 50,000 at an exercise price of \$1.595 per share to Kimball Bradley. The options vest in one-third installments over a two year period beginning with the first anniversary of the date of grant. The options are exercisable until June 2006 for Kimball Bradley and June 2011 for all other options granted.

In August 2001, the Company granted 10,000 options at an exercise price of \$1.40 per share to an employee. The options vest in one-third installments over a two year period beginning with the first anniversary of the date of grant. The options are exercisable until June 2011.

NOTE 10: EMPLOYEE BENEFIT PLANS

The Company sponsors defined benefit plans and other postretirement benefit plans for certain employees in Metals and Plastics and employees of its Corporate Executive Payroll (as defined in the plan document).

Metals

Metals Pension Plan: Reunion sponsors a defined benefit pension plan which covers substantially all of its employees at its McKeesport, PA pressure vessel manufacturing location. This plan is the defined benefit plan from former Chatwins Group. Benefits under this plan are based solely on continuous years of service and are not affected by changes in compensation rates.

The Company's funding policy with respect to this plan provides that payments to the pension trusts be at least equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974. Assets of the plan are invested principally in fixed income and equity securities.

Metals and Corporate Executive Payroll Other Postretirement Plan: Reunion maintains various postretirement healthcare and life insurance benefit plans for certain active and retired employees. Covered active and retired employees include those of the Company's McKeesport, PA pressure vessel manufacturing location, pursuant to a November 1997 plan amendment which became effective January 1, 1998 and employees of Reunion's Corporate Executive Payroll. In a September 2000 amendment, certain employees of the Company's crane and bridge manufacturing location in Alliance, OH who had attained age 60 and had at least 10 years of service were offered a voluntary early retirement incentive program whereby the Company will provide healthcare coverage at no cost to the employee for the employee and eligible dependents until the employee reaches age 65. In the fourth quarter of 2000, the Company recorded a charge of \$169,000 representing the estimated cost of providing coverage to those employees accepting the offer before December 31, 2000.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Eligible active and retired employees of the one Metals operating division for which postretirement benefits are provided include both union and nonunion employees. Healthcare benefits for both union and nonunion retirees are provided for the most part through comprehensive major medical and other health benefit provisions subject to various retiree cost-sharing features. The majority of employees eligible for healthcare benefits upon retirement are former employees of USX Corporation (USX). A significant portion of postretirement healthcare earned by such employees prior to 1987 is the responsibility of USX. Life insurance benefits provided to eligible union retirees are based on fixed amounts negotiated in labor agreements. Life insurance benefits provided to eligible nonunion retirees are based on the employee's annual base salary at retirement subject to a maximum benefit.

Postretirement healthcare benefits for eligible active and retired employees of Reunion's Corporate Executive Payroll are paid for by Reunion and subject to various retiree cost-sharing features. Postretirement healthcare benefits for Corporate Executive Payroll employees terminate when the retiree becomes Medicare eligible. Postretirement life insurance benefits for eligible active and retired employees of Reunion's Corporate Payroll are paid for by Reunion and are based on the employee's annual base salary at retirement. Except for certain life insurance benefits paid from reserves held by insurance carriers, benefits have not been funded. Contributions to the plans by Reunion equal benefits paid.

- F-29 -

The following table sets forth the changes in the benefit obligations and plan assets for the years ended December 31, 2001 and 2000 and the funded status at December 31, 2001 and 2000 of the Metals pension plan and the Metals and Corporate Executive Payroll other postretirement benefits plans (in thousands):

	Pension		Other Postretirement

	=====	=====	=====	=====	=====	=====

- F-30 -

Assumptions used to develop Metals pension cost and projected benefit obligation for the defined benefit pension plan for the following years ended December 31 are as follows:

	2001	2000	1999
Discount rate	7.00%	7.25%	7.25%
	=====	=====	=====
Expected rate of return on plan assets	8.25%	8.25%	8.25%
	=====	=====	=====

For the calculation of Metals and Corporate Executive Payroll net periodic pension costs to be recorded in 2002, the expected rate of return on plan assets was held at 8.25%.

Assumptions used to develop the net periodic postretirement benefit costs and accumulated postretirement benefit obligations for the following years ended December 31 are as follows:

	2001	2000	1999
Discount rate	7.00%	7.75%	6.75%
	=====	=====	=====
Healthcare cost trend rate	3.0%	3.0%	3.0%
	=====	=====	=====
Rate of compensation increase	2.0%	2.0%	2.0%
	=====	=====	=====

USX administers the postretirement healthcare plans for the eligible employees of the McKeesport, PA location previously owned by USX and bills Reunion for its share of the postretirement costs related to Reunion's retirees covered by the plans. During 1997, Chatwins Group's actuary reviewed

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

several years of rates charged to Chatwins Group by USX for retiree medical coverage and, as a result, elected to reduce the applicable healthcare cost trend rate for all years subsequent to 1997 to 3%. A one percentage point increase in the assumed healthcare cost trend rate would increase the benefit obligation at December 31, 2001 by approximately \$153,000, increase net periodic cost by approximately \$34,000 and increase the total of the service and interest cost components by approximately \$17,000. Conversely, a one percentage point decrease in the assumed healthcare cost trend rate would result in approximate decreases in each by \$125,000, \$21,000 and \$16,000, respectively.

Plastics

Plastics Pension Plan: Reunion sponsors a defined benefit pension plan which covered substantially all of its employees at its New York facilities. Effective June 15, 1999, all benefits under this plan were frozen and the remaining employees became eligible to participate in the 401(k) defined contribution plan.

Plastics Other Postretirement Plan: Reunion maintains a postretirement healthcare plan for certain salaried and union retirees and their dependents. Covered employees are eligible to participate in the medical benefit plan if, at the time they retire, they have at least 10 years of service and have attained 62 years of age. This plan is contributory via employee contributions, deductibles and co-payments and are subject to certain annual, lifetime and benefit-specific maximum amounts.

- F-31 -

The following table sets forth the changes in the benefit obligations and plan assets for the years ended December 31, 2001 and 2000 and the funded status at December 31, 2001 and 2000 for Plastics pension and other postretirement benefits plans (in thousands):

	Pension		Other Postretirement	
	2001	2000	2001	2000
Change in benefit obligation:				
Benefit obligation, beginning	\$ 2,731	\$ 2,576	\$ 1,499	\$ 1,368
Service cost	-	-	53	50
Interest cost	204	194	107	101
Plan amendment	-	-	(68)	-
Actuarial loss (gain)	300	33	(44)	50
Benefits paid	(100)	(72)	(94)	(70)
Benefit obligation, ending	\$ 3,135	\$ 2,731	\$ 1,453	\$ 1,499
Change in plan assets:				
Fair value, beginning	\$ 2,423	\$ 2,366	\$ -	\$ -
Actual return	(608)	7	-	-
Company contribution	186	122	94	70
Benefits paid	(100)	(72)	(94)	(70)
Fair value, ending	\$ 1,901	\$ 2,423	\$ -	\$ -
Funded status:				
Net obligation, ending	\$ 1,234	\$ 308	\$ 1,453	\$ 1,499
Unrecognized costs:				
Additional minimum liability	1,126	-	-	-
Net (loss) gain	(1,126)	(3)	97	53

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Accrued benefit cost	\$ 1,234	\$ 305	\$ 1,550	\$ 1,552
	=====	=====	=====	=====

Net periodic pension and other postretirement benefits costs for the following years for Plastics pension and other postretirement benefits plan ended December 31 are as follows (in thousands):

	Pension		Other Postretirement	
	2001	2000	2001	2000
Benefits earned during year	\$ -	\$ -	\$ 53	\$ 50
Interest cost	204	194	107	101
Expected return on plan assets	(222)	(206)	-	-
Defined benefit pension and total other postretirement benefits costs (income)	\$ (18)	\$ (12)	\$ 160	\$ 151
	=====	=====	=====	=====

Assumptions used to develop the pension cost and projected benefit obligation for the defined benefit pension plan for the following years ended December 31, 2001 and 2000 are as follows:

	2001	2000
Discount rate	7.00%	7.75%
Expected rate of return on plan assets	9.00%	9.00%
	=====	=====

- F-32 -

For the calculation of the net periodic pension costs to be recorded in 2002, the expected rate of return on plan assets was reduced to 8.25%.

Assumptions used to develop the net periodic postretirement benefit costs and accumulated postretirement benefit obligations for the following years ended December 31 are as follows:

	2001	2000
Discount rate	7.00%	7.75%
Healthcare cost trend rate	7.00%	8.45%
	=====	=====

A one percentage point increase in the assumed healthcare cost trend rate would increase the benefit obligation at December 31, 2001 by approximately \$128,000, increase net periodic cost by approximately \$16,000 and increase the total of the service and interest cost components by approximately \$16,000. Conversely, a one percentage point decrease in the assumed healthcare cost trend rate would result in approximate decreases in each by \$114,000, \$15,000 and \$15,000, respectively.

Other Employee Benefit Plans

The Company also sponsors qualified contributory 401(k) plans covering substantially all employees and a money purchase defined contribution plan for Corporate Executive Payroll and certain other salaried employees. For those employees electing to participate in the 401(k) plans, employees can contribute up to an annually determined maximum amount permitted by law and

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

the Company makes matching contributions up to specified limits. For those eligible for the money purchase defined contribution plan, until December 31, 2001, the Company contributes 5% of the employee's base salary to savings funds designated by the employee. Effective December 31, 2001, the Company terminated the money purchase defined contribution plan and the majority of its assets were distributed to participating employees during the first quarter of 2002. During 2001 and 2000, the Company's expense to these deferred compensation plans totaled \$1,016,000 and \$1,215,000, respectively. In 1999, Chatwins Group's expense related to such plans totaled \$901,000. Excluding discontinued operations, such amount for 2001 would be \$772,000.

The Company does not provide any other postemployment benefits to former or inactive employees except for unemployment compensation benefits required by law.

- F-33 -

NOTE 11: EARNINGS PER COMMON SHARE

The computations of basic and diluted earnings per common share (EPS) for the years ended December 31, 2001, 2000 and 1999 are as follows (in thousands, except share and per share amounts):

	Income	Shares	EPS
	-----	-----	-----
Year ended December 31, 2001:			
Loss applicable to common stockholders, weighted average shares outstanding and basic EPS	\$ (38,128)	15,587	\$ (2.45)
			=====
Dilutive effect of stock options		25	
	-----	-----	
Loss applicable to common stockholders, shares outstanding and diluted EPS	\$ (38,128)	15,612	\$ (2.45)
	=====	=====	=====
Year ended December 31, 2000:			
Net income	\$ 5,140		
Less: Preferred stock dividend accretions	(95)		

Income available to common stockholders, weighted average shares outstanding and basic EPS	5,045	13,236	\$ 0.38
			=====
Dilutive effect of stock options		70	
	-----	-----	
Income available to common stockholders, shares outstanding and diluted EPS	\$ 5,045	13,306	\$ 0.38
	=====	=====	=====
Year ended December 31, 1999:			
Net income	\$ 1,166		
Less: Preferred stock dividend accretions	(456)		

Income available to common stockholders, shares outstanding and basic and diluted EPS	\$ 710	9,500	\$ 0.07
	=====	=====	=====

The assumed conversion of potentially dilutive instruments is anti-dilutive in the year ended December 31, 1999, therefore, basic and dilutive EPS are the same in each period. At December 31, 2001, the Company's stock options outstanding totaled 1,089,000. Such options included a dilutive component of 25,809 shares. At December 31, 2000, the Company's stock options outstanding totaled 868,000. Such options included a dilutive component of 69,682 shares. Weighted average shares outstanding for 1999 has been restated

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

to give effect to the recapitalization of Chatwins Group in connection with the merger.

- F-34 -

NOTE 12: INCOME TAXES

The tax provision for continuing operations is comprised of the following amounts (in thousands):

	Year Ended December 31,		
	2001	2000	1999
Current:			
Federal	\$ -	\$ 176	\$ 88
State and local	-	106	(252)
	-	282	(164)
Deferred:

Deferred tax assets	52,206	53,670
Less: Valuation allowance	(50,475)	(35,734)
	-----	-----
Deferred tax assets, net	1,731	17,936
	-----	-----
Deferred taxes, net asset	\$ -	\$ 12,678
	=====	=====

At December 31, 2001, Reunion had net operating loss carryforwards for Federal tax return reporting purposes of approximately \$124.1 million, of which \$79.2 million will expire by the end of 2004. The Company may be able to utilize its loss carryforwards against possible increased profitability as the result of the Company's corporate-wide restructuring plan. However, until the amount of proceeds from and timing of asset dispositions as part of such plan are known, management concluded that it is more likely than not that the Company's loss carryforwards will expire unutilized and has determined to fully reserve for the total amount of net deferred tax assets as of December 31, 2001.

The current and noncurrent classifications of the deferred tax balances are as follows (in thousands):

	At December 31,	
	2001	2000
	-----	-----
Current:		
Deferred tax assets	\$ 10,798	\$ 5,254
Deferred tax liabilities	(862)	(696)
Less: Valuation allowance	(10,350)	(3,407)
	-----	-----
Current deferred taxes, net asset (liability)	(414)	1,151
	-----	-----
Noncurrent:		
Deferred tax assets	41,409	48,416
Deferred tax liabilities	(870)	(4,562)
Less: Valuation allowance	(40,125)	(32,327)
	-----	-----

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Noncurrent deferred taxes, net asset	414	11,527
	-----	-----
Deferred taxes, net asset	\$ -	\$ 12,678
	=====	=====

- F-36 -

No U.S. federal or state corporate income tax return examinations are currently in process. The Company believes adequate provisions for income taxes have been recorded for all years.

NOTE 13: RELATED PARTIES, RELATIONSHIPS, TRANSACTIONS AND BALANCES

The Parties and Relationships

Reunion Industries, Inc. - Reunion is a publicly traded Delaware corporation which is headquartered in Pittsburgh, Pennsylvania. Charles E. Bradley, Sr. (Mr. Bradley) is chairman of the board and Chief Executive Officer of Reunion. Kimball Bradley is President, Chief Operating Officer, a director of Reunion and son of Mr. Bradley. Mr. Richard L. Evans (Mr. Evans) is Executive Vice President of Administration and Secretary of Reunion. Mr. John G. Poole (Mr. Poole) is a director of Reunion.

Chatwins Group, Inc. - Until the merger, Chatwins was a privately held corporation headquartered in Pittsburgh, Pennsylvania. Chatwins owned approximately 37% of Reunion's outstanding common stock. Mr. Bradley was Chairman of the Board and majority beneficial shareholder of Chatwins. Kimball Bradley was Senior Vice President and a shareholder of Chatwins. Mr. Poole was a director and shareholder of Chatwins.

Stanwich Partners, Inc. - Stanwich Partners, Inc. (SPI) is engaged in consulting services in the field of financial planning and reporting. Mr. Bradley is the President of SPI. Mr. Poole was Vice President of SPI until December 31, 2001.

Stanwich Financial Services Corp. - SFSC is a privately held corporation in the structured settlement business. SFSC is owned 100% by Mr. Bradley. Mr. Evans was an officer of SFSC until June 2001. The Company has been named as a defendant in several lawsuits filed against SFSC. See note 14.

Stanwich Acquisition Corp. - Stanwich Acquisition Corp. (SAC) was a privately-held company whose common stock was owned 42.5% by Mr. Bradley, 42.5% by Kimball Bradley and 15% by Mr. Evans. SAC acquired Kingway Material Handling (Kingway) in 1997 and was subsequently acquired by the Company simultaneously with the Chatwins merger.

NPS Acquisition Corp. - NPS Acquisition Corp. (NPSAC) was formed by Mr. Bradley to acquire and hold NAPTech Pressure Systems (NAPTech). NAPTech was based in Clearfield, Utah and manufactures seamless steel pressure vessels, an existing Metals product line. In January 2001, NPSAC was purchased by the Company. See note 3.

CPS Leasing, Inc. - CPS Leasing, Inc. (CPSL) is a subsidiary of Consumer Portfolio Services, Inc. (CPS). Mr. Bradley and Mr. Poole are stockholders of CPS. Mr. Poole is a director of CPS and Mr. Bradley was a director until July 2001. Charles E. Bradley Jr., Mr. Bradley's son, is President of CPS. CPSL is primarily engaged in machinery and equipment lease financing.

Butler Air, Inc. - Butler Air, Inc. (Butler) is a wholly owned subsidiary of Stanwich Aviation Company, Inc. (SAVI). Butler provides charter flight services. Mr. Bradley is a director of Butler and the owner of 65% of SAVI.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

- F-37 -

The Transactions and Balances

SPI Consulting Agreement

Reunion, and Chatwins Group prior to the merger, have maintained various consulting agreements with SPI under which \$300,000 was recorded as expense during each of the years ended December 31, 2001, 2000 and 1999, respectively. The consulting agreement expires on March 31, 2003 unless terminated by SPI with 30 days' notice. Annual payments are permitted on this agreement as long as the Company meets an interest coverage ratio of at least 1.5 to 1 for the prior 4 full fiscal quarters. All amounts owed to SPI from the Company have been paid as of December 31, 2001. At December 31, 2000, \$20,000 was prepaid and is included in other current assets in the accompanying consolidated balance sheet.

SPI Sublease

The Company subleases from SPI approximately 1,500 square feet of office space in Stamford, Connecticut for administrative purposes. During 2001, the Company paid SPI approximately \$36,000 under this sublease. During 2000, the Company paid SPI approximately \$30,000 under this sublease.

SFSC Revolving Credit Facility

In November 1997, SFSC provided SAC with a revolving credit facility. At the time of the merger and acquisition of Kingway, SFSC was paid \$1,116,000 including interest under this loan from refinancing proceeds. The Company assumed the remaining balance. See notes 3 and 8. During 2001, \$148,000 of interest was paid to SFSC. During 2000, \$434,000 of interest was paid to SFSC, including \$75,000 prepaid at December 31, 2000 which is included in other current assets in the accompanying consolidated balance sheet. At December 31, 2001 and 2000, the balance of \$2,998,000 is included in long-term debt - related parties in the accompanying consolidated balance sheet. At December 31, 2001, accrued and unpaid interest due to SFSC of \$227,000 is included in due to related parties in the accompanying consolidated balance sheet.

Other SFSC Notes Payable

At the time of the acquisition of NPSAC by the Company, the Company assumed two notes payable by NPSAC to SFSC. At December 31, 2001, their balances of \$500,000 and \$100,000 are included in long-term debt - related parties in the accompanying consolidated balance sheet. During 2001, no interest was paid to SFSC related to these notes payable. At December 31, 2001, accrued and unpaid interest due to SFSC related to these notes payable of \$173,000 is included in due to related parties in the accompanying consolidated balance sheet.

SFSC Note Receivable

In August 1999, pre-merger Reunion loaned \$310,000 to SFSC. The loan was scheduled to be repaid in December 1999 with interest at 15%. In December 1999, the Company agreed to extend the maturity to March 2000 and loaned an additional \$40,000 to SFSC also with interest at 15% which was repaid in March 2000. The remaining balance including accrued and unpaid interest due from SFSC at December 31, 2001 and 2000 is \$419,000 and \$372,000, respectively, and is included in due from related parties in the accompanying consolidated balance sheet.

Kingway Service Agreement

Similar to Auto-Lok, Chatwins Group's storage rack and materials handling systems business prior to the merger, Kingway produced industrial and commercial storage racks and materials handling systems. In 1997, Kingway and Auto-Lok entered into a service agreement pursuant to which Kingway would utilize Auto-Lok's surplus capacity in exchange for fees approximately equal to Auto-Lok's costs of providing the surplus capacity. The integration of Kingway's business into Auto-Lok's facility took place primarily during the second quarter of 1998. During 2000, in the period prior to the merger, and 1999, costs totaling \$1,256,000 and \$1,550,000, respectively, were charged to Kingway under this agreement. At the acquisition date, receivables totaling \$3,407,000 were due from Kingway.

NAPTech Services Agreement

In August 1998, the pressure vessel division of pre-merger Chatwins Group and NPSAC entered into a services agreement pursuant to which CPI would provide certain administrative services to NAPTech for cash fees at approximately equal to the cost of providing such services. During 2000 and 1999 costs, net of non-cash services provided by NPSAC, totaling \$1,363,000 and \$899,000, respectively, were charged to NPSAC under this agreement. At December 31, 2000, receivables totaling \$2,356,000 were due from NPSAC and included in due from related parties in the accompanying consolidated balance sheets. On January 17, 2001, the Company acquired the common stock of NPSAC from Mr. Bradley. See note 3.

CPS Leasing, Inc.

Reunion, and Chatwins Group prior to the merger, entered into various operating lease agreements with CPSL. During 2001, 2000 and 1999, lease payments totaling \$803,000, \$866,000 and \$613,000, respectively, were paid to CPSL. At December 31, 2001, the Company has future minimum rental commitments under noncancellable operating leases with CPSL totaling \$3,221,000.

Butler Air

Reunion, and Chatwins Group prior to the merger, entered into arrangements for flying services with Butler. Butler provides charter flight services for certain business travel by Reunion's officers and employees at rates which the Company believes are comparable to those available from third parties. The Company paid a monthly fee of \$5,000 through May 2001 which was credited against services used. Such arrangement was then terminated.

SFSC Collateral Fees

At the time of the merger and essential to the closing of the Bank of America refinancing, SFSC provided side collateral in the form of CPS debt and common stock to support the borrowings. Under this arrangement, SFSC is to receive a 5% collateral fee for as long as the collateral is in place. Such collateral was in place from the time of the merger and remains in place. During 2001 and 2000, the Company recorded interest expense of \$283,000 and \$224,000, respectively, related to this arrangement. During 2001, the Company made a \$100,000 payment related to this arrangement. At December 31, 2001, \$407,000 is included in due to related party in the accompanying consolidated balance sheet.

In March 2000, SFSC pledged a \$5.0 million note from CPS to secure the

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

obligations of NPSAC to the former owners of the business. NPSAC agreed to pay SFSC a 2% credit support fee for this pledge. The Company assumed this credit support obligation in the acquisition of NPSAC. During 2001, no amounts under this credit support obligation were paid to SFSC by the Company. At December 31, 2001, accrued and unpaid fees totalling \$154,000 were due to SFSC under this credit support obligation and included in due to related party in the accompanying consolidated balance sheet.

Cash Surrender Value of Life Insurance Policies

The Company pays the premiums on life insurance policies covering Mr. Bradley, Mr. Joseph C. Lawyer (Mr. Lawyer), the Company's vice chairman and a director, and Mr. Poole. Pursuant to these arrangements, the Company will be reimbursed for the premiums it pays for such policies from either the death benefit of the policy or their cash surrender value. The covered individuals have agreed with the Company that if the policy proceeds are insufficient to reimburse the Company for the full amount of the premiums paid, they will cover the shortfall. As of December 31, 2001 and 2000, premiums paid by the Company in excess of the cash surrender values of the policies totaled \$1,069,000 and \$1,222,000, respectively, and are included in due from related parties in the accompanying consolidated balance sheets.

Mr. Bradley Note Payable

At the time of the merger, the Company assumed a note payable to Mr. Bradley related to pre-merger Reunion's plastics business. At December 31, 2001 and 2000, the balance of \$1,017,000 is included in long-term debt - related parties in the accompanying consolidated balance sheet. During 2001, \$55,000 was paid to SFSC related to this note payable. No interest was paid in 2000. At December 31, 2001, accrued and unpaid interest due related to this notes payable of \$56,000 is included in due to related parties in the accompanying consolidated balance sheet. The note payable and any accrued and unpaid interest have been assigned to SFSC.

Mr. Bradley Guarantee

At the time of the NPSAC acquisition by the Company, NPSAC was indebted to Mr. Bradley in connection with an agreement whereby Mr. Bradley guaranteed certain obligations of NPSAC to its former owners. At December 31, 2001, a total of \$90,000 is included in due to related parties in the accompanying consolidated balance sheet related to this agreement.

Employee Advances

At December 31, 2001 and 2000, the Company had non-interest bearing advances due from five employees totaling \$213,000 and \$233,000, respectively. The highest balance during each of 2001 and 2000 was \$233,000.

NOTE 14: COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company and its subsidiaries are defendants in a number of lawsuits and administrative proceedings, which have arisen in the ordinary course of business of the Company and its subsidiaries. The Company believes that any material liability which can result from any of such lawsuits or proceedings has been properly reserved for in the Company's consolidated financial statements or is covered by indemnification in favor of the Company or its subsidiaries, and therefore the outcome of these lawsuits or proceedings will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

- F-40 -

In June 1993, the U.S. Customs Service (Customs) made a demand on Chatwins Group's former industrial rubber distribution division for \$612,948 in marking duties pursuant to 19 U.S.C. Sec. 1592. The duties are claimed on importations of "unmarked" hose products from 1982 to 1986. Following Chatwins Group's initial response raising various arguments in defense, including expired statute of limitations, Customs responded in January 1997 by reducing its demand to \$370,968 and reiterating that demand in October 1997. Chatwins Group restated its position and continues to decline payment of the claim. Should the claim not be resolved, Customs threatens suit in the International Courts of Claims. The Company continues to believe, based on consultation with counsel, that there are facts which raise a number of procedural and substantive defenses to this claim, which will be vigorously defended. There is no applicable insurance coverage.

In December 1999, a stockholder of Reunion filed a purported class-action lawsuit in Delaware Chancery Court alleging, among other things, that Reunion's public stockholders would be unfairly diluted in the merger with Chatwins Group. The lawsuit sought to prevent completion of the merger and, the merger having been completed, seeks rescission of the merger or awarding of damages. The lawsuit remains in the initial stages of discovery. Reunion intends to vigorously contest the suit.

The Company has been named as a defendant in fifteen consolidated lawsuits filed in December 2000 or early 2001 in the Superior Court for Los Angeles County, California, three of which are purported class actions asserted on behalf of approximately 200 payees. The plaintiffs in these suits, except one, are structured settlement payees to whom Stanwich Financial Services Corp. (SFSC) is indebted. The Company and SFSC are related parties (see note 13).

In addition to the Company, there are numerous defendants in these suits, including SFSC, Mr. Bradley, the sole shareholder of SFSC's parent, several major financial institutions and certain others. All of these suits arise out of the inability of SFSC to make structured settlement payments when due. Pursuant to the court's order, plaintiffs in the purported class actions and plaintiffs in the individual cases actions filed a model complaint. Except for the class allegations, the two model complaints are identical. The plaintiffs seek compensatory and punitive damages, restoration of certain alleged trust assets, restitution and attorneys' fees and costs.

The plaintiffs in one of the suits are former owners of a predecessor of SFSC and current operators of a competing structured settlement business. These plaintiffs claim that their business and reputations have been damaged by SFSC's structured settlement defaults, seek damages for unfair competition and purport to sue on behalf of the payees.

The plaintiffs allege that the Company borrowed funds from SFSC and has not repaid these loans. The plaintiffs' theories of liability against the Company are that it is the alter ego of SFSC and Mr. Bradley and that the Company received fraudulent transfers of SFSC's assets. The plaintiffs also assert direct claims against the Company for inducing breach of contract and aiding and abetting an alleged breach of fiduciary duty by SFSC.

On June 25, 2001, SFSC filed a Chapter 11 Bankruptcy Petition in the U.S. Bankruptcy Court for the District of Connecticut. SFSC filed an adversary proceeding in the bankruptcy case against the plaintiffs seeking a declaration that the structured settlement trust assets are the property of the bankruptcy estate. On July 16, 2001, the bankruptcy court granted a temporary restraining order enjoining the plaintiffs from prosecuting their claims

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

against the Company, SFSC, Mr. Bradley and others. As a result of this

- F-41 -

restraining order of the bankruptcy court, the Company entered a standstill agreement with the plaintiffs on August 22, 2001. Pursuant to the standstill agreement, and the stipulation of the parties to the SFSC bankruptcy case, the plaintiffs agreed to take no further action to prosecute any claim in the litigation against the Company, Mr. Bradley and others to recover any structured settlement trust assets or any derivative claims or claims based on allegations of alter ego, fraudulent transfer or conversion. The plaintiffs did not agree to waive or release their direct personal claims against the Company for damages, but the plaintiffs agreed to cease and desist the prosecution of those claims until no earlier than sixty days following service of written notice to the Company stating that they have elected to unilaterally terminate the standstill.

Plaintiffs filed second amended model complaints in the class actions and individual cases on August 24, 2001. Both model complaints allege causes of action against the Company for interference with contract and aiding and abetting breach of fiduciary duty. However, pursuant to the standstill agreement, the plaintiffs are taking no action to prosecute these claims against the Company at this time.

Certain of the financial institution defendants have asserted cross-complaints against the Company for implied and express indemnity and contribution and negligence. The Company denies the allegations of the plaintiffs and the cross-complainant financial institutions and intends to vigorously defend against these actions and cross-actions.

The Company has been named in approximately 250 separate asbestos suits filed since January 1, 2001 by three plaintiffs' law firms in Wayne County, Michigan. The claims allege that cranes from the Company's crane manufacturing location in Alliance, OH were present in various parts of McLouth and Great Lakes Steel Mills in Wayne County, Michigan and that those cranes contained asbestos to which plaintiffs were exposed over a 40 year span. Counsel for the Company has filed an answer to each complaint denying liability by the Company and asserting all alternative defenses permitted under the Court's Case Management Order. Counsel for the Company has negotiated dismissal of 95 cases without any cost to the Company. The Company denies that it manufactured any products containing asbestos or otherwise knew or should have known that any component part manufacturers provided products containing asbestos. The Company intends to vigorously defend against these lawsuits.

On July 10, 2001, a lawsuit that alleges personal injury from asbestos exposure was filed in the Superior Court for San Francisco County in California against greater than fifty defendants, including Oneida Rostone Corporation (ORC), pre-merger Reunion's Plastics subsidiary and the Company's Plastics Group. In October 2001, Allen-Bradley Company, a former owner of the Rostone business of ORC, agreed to defend and indemnify Reunion in this lawsuit pursuant to a contractual obligation to do so. As of March 15, 2002, 43 separate actions in various states have been brought against the Company and all actions are being defended by the prior owner.

- F-42 -

Environmental Compliance

Various U.S. federal, state and local laws and regulations including, without limitation, laws and regulations concerning the containment and disposal of hazardous waste, oil field waste and other waste materials, the use of storage tanks, the use of insecticides and fungicides and the use of

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

underground injection wells directly or indirectly affect the Company's operations. In addition, environmental laws and regulations typically impose "strict liability" upon the Company for certain environmental damages. Accordingly, in some situations, the Company could be liable for clean up costs even if the situation resulted from previous conduct of the Company that was lawful at the time or from improper conduct of, or conditions caused by, previous property owners, lessees or other persons not associated with the Company or events outside the control of the Company. Such clean up costs or costs associated with changes in environmental laws and regulations could be substantial and could have a materially adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Except as described in the following paragraphs, the Company believes it is currently in material compliance with existing environmental protection laws and regulations and is not involved in any significant remediation activities or administrative or judicial proceedings arising under federal, state or local environmental protection laws and regulations. In addition to management personnel who are responsible for monitoring environmental compliance and arranging for remedial actions that may be required, the Company has also employed outside consultants from time to time to advise and assist the Company's environmental compliance efforts. Except as described in the following paragraphs, the Company has not recorded any accruals for environmental costs.

In February 1996, Reunion was informed by a contracted environmental services consulting firm that soil and ground water contamination exists at its Lafayette, Indiana site. Since then, the Company has expended \$376,000 of remediation costs and accrued an additional \$20,000.

In connection with the sale of its former oil and gas operations, pre-merger Reunion retained certain oil and gas properties in Louisiana because of litigation concerning environmental matters. The Company is in the process of environmental remediation under a plan approved by the Louisiana Department of Natural Resources Office of Conservation (LDNROC). The Company has recorded an accrual for its proportionate share of the remaining estimated costs to remediate the site based on plans and estimates developed by the environmental consultants hired by the Company. During 1999, the Company conducted remediation work on the property. The Company paid \$172,000 of the total cost of \$300,000. Regulatory hearings were held in January 2000 and 2001 to consider the adequacy of the remediation conducted to date. In August 2001, LDNROC issued its order for the Company to complete the soil remediation under the plan approved in 1999 and to perform additional testing to determine to what extent groundwater contamination might exist. The Company's environmental consultant is in the process of updating the estimate of the costs to comply with this order, but the Company does not believe that the cost of future remediation will exceed the amount accrued. No remediation was performed in 2000 or 2001 pending the decision. However, the Company has paid \$232,000 for its share of consulting services in connection with the hearings. At December 31, 2001, the balance accrued for these remediation costs is approximately \$1,076,000. Owners of a portion of the property have objected to the Company's cleanup methodology and have filed suit to require additional procedures. The Company is contesting this litigation, and believes its proposed methodology is well within accepted industry practice for remediation efforts of a similar nature. No accrual has been made for costs of any alternative cleanup methodology which might be imposed as a result of the litigation.

- F-43 -

On March 15, 2002, the Company received a Request for Information from the United States Environmental Protection Agency (USEPA) regarding the Gambonini Mine Site in Marin County, California. The Company is currently

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

gathering the information requested by the USEPA and is cooperating fully with this request. At this time, the Company has not been formally named as a potentially responsible party. As such and because the extent of the Company's involvement with the Gambonini Mine Site is not known, the Company has not made any assessment of potential liability, if any.

Operating leases

Minimum rental commitments under all noncancellable operating leases in effect at December 31, 2001, were as follows (in thousands):

Total	Year ended December 31,					After 2006
2002	2003	2004	2005	2006		
\$22,756	\$4,724	\$3,565	\$2,900	\$2,422	\$1,745	\$7,400
=====	=====	=====	=====	=====	=====	=====

Of the total future lease rental commitments of \$22.8 million, \$7,061,000 relates to discontinued operations, of which \$5,782,000 relates to the discontinued materials handling systems business and \$1,279,000 relates to the discontinued bridges and cranes business. As part of the Company's plan to restructure its continuing operations and the related provision for restructuring recorded in 2001, the Company has provided \$2,167,000 of operating lease termination reserves, of which \$995,000 relates to the discontinued bridges and cranes operations. Operating lease commitments related to the discontinued materials handling systems business are anticipated to be assigned to the purchaser of the business when sold.

Operating lease rental expense related to continuing operations for the years ended December 31, 2001, 2000 and 1999, amounted to \$3,181,000, \$2,482,000 and \$851,000, respectively.

NOTE 15: FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents, accounts receivable and accounts payable - The carrying amounts approximate fair value because of the short maturities of these instruments.

Debt - Approximately 53% of the Company's debt has variable rates of interest and 47% bears interest at fixed rates approximating current market rates. Accordingly, management estimates that the carrying amounts approximate the fair value, approximately \$72.9 million at December 31, 2001. Approximately 1% (\$1,017,000) of the debt is related party debt for which comparable instruments do not exist. Accordingly, it is not practicable to estimate the fair value of this debt. This debt bears interest at 11% and is subject to subordination to the Bank of America senior secured credit facilities.

- F-44 -

NOTE 16: DISCONTINUED OPERATIONS

In December 2001, pursuant to the plan developed by management to restructure the Company's continuing businesses and dispose of or shut-down certain other businesses (see note 2), the Company classified and began accounting for its bridges and cranes and materials handling systems businesses as discontinued operations in accordance with Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations - Reporting the

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions" (APB 30).

On October 27, 2000, the Company sold substantially all of its wine grape agricultural operations and real estate holdings in Napa County, California. The Company classified and began accounting for the agricultural operations as discontinued operations in accordance with APB 30.

During 1999, Chatwins Group's management adopted plans to exit the grating manufacturing business and oil and gas business through the disposition of all of its grating and oil and gas related assets. Upon adoption of the plans, Chatwins Group classified and began accounting for such businesses as discontinued operations in accordance with APB 30.

On September 30, 1999, Chatwins Group completed the sale of its domestic grating business and assets to Alabama Metal Industries Corporation (AMICO) for \$32.1 million in cash and the assumption by AMICO of certain operating liabilities, subject to post-closing adjustments. The sale of the domestic business and assets of Discontinued Klemp resulted in a pre-tax gain of approximately \$12.3 million, classified within discontinued operations for the year ended December 31, 1999, net of tax, at \$8.4 million. Chatwins Group retained certain obligations of Discontinued Klemp and is obligated to pay various expenses of the sale, all of which have been estimated to total approximately \$2.7 million and are classified within discontinued operations for the year ended December 31, 1999, net of tax, at \$1.9 million, and within net assets (liabilities) of discontinued operations as reserve for estimated expenses. Through December 31, 1999, Chatwins Group paid in cash almost \$1.6 million of such expenses. In December 1999, this reserve was increased by \$0.7 million for additional identified future items. Obligations retained and expenses required to be paid by Chatwins Group primarily include non-cancelable lease commitments and legal and professional fees.

At that time management provided a reserve for estimated losses on disposals of its international grating businesses and its oil and gas operations of \$6.0 million and \$1.0 million, respectively. Such estimated losses on disposal are classified within discontinued operations for the year ended December 31, 1999, net of tax, at \$4.1 million (including \$0.5 million for estimated operating losses during the phase-out period) and \$0.7 million, respectively, and within net assets (liabilities) of discontinued operations as reserve for estimated loss on disposal. During the fourth quarter of 1999, \$3.4 million of such reserve was utilized to write-off receivables due to Chatwins Group from Klemp de Mexico (\$2.6 million) and to recognize losses on disposal from sales of oil and gas assets (\$0.8 million). Cash proceeds from the sales of oil and gas related assets during the fourth quarter of 1999 totaled approximately \$0.2 million. Such cash proceeds were used to paydown borrowings under the BOA Facility.

- F-45 -

In the period subsequent to the sale of its domestic grating business to AMICO, Chatwins Group (and then Reunion after the merger) and AMICO unsuccessfully attempted to negotiate the final post-closing adjustment. The purchase and sale agreement between Chatwins Group and AMICO included a provision for disagreements over the final post-closing adjustments to enter binding arbitration. Reunion and AMICO entered binding arbitration in the second quarter of 2000 which resulted in a final post-closing adjustment payment of \$1.3 million by Reunion to AMICO in November 2000. Reunion made the payment from funds available under its revolving credit facility with Bank of America. In calculating the gain on disposal in September 1999, the Company provided \$0.5 million for future estimated purchase price adjustments, a \$0.8 million difference. During 2000, including the payment to AMICO, Reunion made payments of expenses of discontinued operations of \$2.2 million.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

During 2001, Reunion made payments of expenses of discontinued operations of more than \$0.4 million.

At December 31, 2001, the assets and liabilities of discontinued operations are comprised of the assets and liabilities of the discontinued bridges and cranes and material handling systems businesses and the remaining reserve for expenses of the discontinued grating business. At December 31, 2000, the assets and liabilities of discontinued operations are comprised of the assets and liabilities of the discontinued bridges and cranes and material handling systems businesses, the assets and liabilities of the discontinued wine grape agricultural business, the remaining reserve for expenses of the discontinued grating business and a \$680,000 note payable due May 1, 2001 related to an industrial development revenue bond issue by Orem City, Utah. This note payable was retained by the Company upon the sale of its domestic grating operations and paid with funds available under its revolving credit facility on May 1, 2001. The assets and liabilities have been separately classified on the balance sheet as net assets of discontinued operations. A summary follows (in thousands):

	At December 31,	
	2001	2000
	-----	-----
NET ASSETS, CURRENT:		
Cash and cash equivalents	\$ 506	\$ 723
Receivables, net	14,463	19,849
Inventories, net	2,093	3,802
Other current assets	249	1,202
	-----	-----
Total current assets	17,311	25,576
	-----	-----
Current maturities of debt	-	680
Trade payables	7,182	10,753
Other current liabilities	2,014	3,277
Reserve for operating losses during phase-out	2,628	-
Reserve for estimated expenses	325	450
	-----	-----
Total liabilities	12,149	15,160
	-----	-----
Net assets of discontinued operations, current	\$ 5,162	\$ 10,416
	=====	=====
NET ASSETS, NON-CURRENT:		
Property, plant and equipment, net	\$ 6,985	\$ 7,888
Goodwill, net	11,628	12,516
Other assets, net	28	753
	-----	-----
Net assets of discontinued operations, non-current	\$ 18,641	\$ 21,157
	=====	=====

- F-46 -

Pursuant to APB 30, the consolidated financial statements reflect the operating results of discontinued operations separately from continuing operations. For 2001, results of discontinued operations relate to the Company's discontinued bridges and cranes and material handling systems businesses. For 2000, results of discontinued operations relate to the Company's discontinued bridges and cranes and material handling systems businesses and discontinued wine grape agricultural operations. Summarized results of discontinued operations for the years ended December 31, 2001 and 2000 follow (in thousands):

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

	2001 -----	2000 -----
Net sales	\$ 64,979	\$ 79,748
Income (loss) before taxes	(8,720)	845

Interest expense is allocated to discontinued operations on the basis of the percentage of total average assets of discontinued operations to gross total assets for the period presented. The above results of discontinued operations include actual and allocated interest expense totaling \$3.1 million and \$4.4 million for the years ended December 31, 2001 and 2000, respectively. The above results of discontinued operations for 2000 includes a \$2,286,000 gain on sale of the discontinued agricultural operations.

In the merger, Chatwins Group was considered the acquirer for purposes of applying purchase accounting. Accordingly, all pre-merger historical financial statements are those of the former Chatwins Group. Because Chatwins Group used the equity method to account for its approximately 37% investment in Reunion prior to the merger, the agricultural operations were not reclassified to discontinued operations. Had the agricultural operations been reclassified from equity in loss of affiliate, the effect on Chatwins Group's results from continuing operations for the year ended December 31, 1999 is as follows (in thousands, except for per share amounts) (unaudited):

	1999 -----
Income from continuing operations	\$ 264
Effect of reclassification	501
Adjusted income from continuing operations	765
Preferred stock dividend accretions	(456)
Adjusted income applicable to common stockholders	\$ 309
Income (loss) from continuing operations per common share - basic and diluted	\$ 0.03
Weighted average number of common shares - basic and diluted	9,500

NOTE 17: SEGMENT DISCLOSURES AND RELATED INFORMATION

The Company owns and operates a diverse group of industrial manufacturing operations that design and manufacture engineered, high-quality products for specific customer requirements, such as large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders, leaf springs and precision plastic components. Until December 2001, the Company's products also included heavy-duty cranes, bridge structures and materials handling systems. In December 2001, the Company classified its heavy-duty cranes, bridge structures and materials handling systems businesses as discontinued operations.

- F-47 -

The Company's customers include original equipment manufacturers and end-users in a variety of industries, such as transportation, power generation, chemicals, metals, home electronics, office equipment and consumer goods. The Company's business units are organized into two major product categories:

* Metals manufactures and markets a broad range of fabricated and machined industrial metal parts and products including large-diameter seamless pressure vessels, hydraulic and pneumatic cylinders and leaf springs. Metals serves original equipment manufacturers and end-users and has nearly 1,000 customers.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

* Plastics manufactures precision molded plastic parts and provides engineered plastics services to more than 500 original equipment manufacturers.

Prior to the third quarter of 2001, the Company considered these product categories to be its reportable segments for financial reporting purposes. Due to the third quarter 2001 downturns in the markets for several of the Company's Metals product lines and the resulting significant variation in product line gross margins, the Company realigned Metals' reportable segments into its separate Metals' products. The Company then classified two Metals' businesses as discontinued operations in the fourth quarter of 2001 and combined two others, resulting in two reportable segments: pressure vessels and springs; cylinders. Plastics continues to be reported as a single segment.

Reunion's continuing operations manufacture their products in the United States. Of Reunion's \$99.5 million of consolidated net sales for 2001, \$16.7 million were export sales, of which \$12.6 million related to pressure vessel sales and \$3.7 million related to Plastics. The remainder related to cylinder sales in Canada. Of the \$12.6 million of foreign pressure vessel sales, approximately \$9.0 million was in the Far East (principally China and Taiwan) and \$2.6 million was in Western Europe. The remainder were in the Middle East and Canada. Plastics export sales included \$2.6 million in Mexico with the remainder in Europe and Canada. During 2001, no one customer accounted for more than 10.0% of the net sales of Reunion.

		=====	

- (1) EBITDA is presented as it is the primary measurement used by management in assessing segment performance and not as an alternative measure of operating results or cash flow from operations as determined by accounting principles generally accepted in the United States, but because it is a widely accepted financial indicator of a company's ability to incur and service debt.
- (2) Headquarters total assets at December 31, 2001 is primarily comprised of goodwill. Headquarters total assets at December 31, 2000 is primarily comprised of goodwill and deferred tax assets. At December 31, 2001, the goodwill relates to the Company's pressure vessel and springs segment and the cylinders segment. Because of the historically positive operating results and cash generation of the pressure vessel and springs segment, management does not consider its related goodwill to be impaired as of December 31, 2001. Also, management does not consider the cylinders segment goodwill to be impaired as the Company believes this segment is in a temporary cyclical downturn.
- (3) Includes the gain of \$2.4 million on sale of the land and building of the Company's Chicago, IL hydraulic cylinder location.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

- (4) Includes the gain of \$4.9 million on sale of the Company's Irish plastics operation.
- (5) Excludes amortization of debt issuance expenses of \$1,011,000, \$897,000 and \$1,308,000 for the years ended December 31, 2001, 2000 and 1999, respectively, which is included in interest expense.

- F-50 -

NOTE 18: QUARTERLY DATA (unaudited)

In the fourth quarter of 2001, the Company classified its bridges and cranes and materials handling systems operations as discontinued operations. Amounts for interim periods during 2001 and 2000 have been restated. Results by quarter for 2001 and 2000 follow:

	2001 Quarter Ended			
	March 31	June 30	Sept 30	Dec 31
Operating revenue	\$ 32,472	\$ 26,318	\$ 21,658	\$ 19,047
Operating costs and expenses	29,968	26,030	22,545	30,170

Report of Independent Accountants

To the Board of Directors of
Reunion Industries, Inc.

Our audits of the consolidated financial statements referred to in our report dated April 18, 2001, appearing in this Annual Report on Form 10-K of Reunion Industries, Inc. also included an audit of the financial statement schedule listed in Item 14(a)(2) of this Form 10-K. In our opinion, this financial statement schedule presents fairly, in all material respects, the information set forth therein when read in connection with the related consolidated financial statements.

Re: Amended and Restated Financing Agreement, dated as of March 16, 2000, by and between REUNION INDUSTRIES, INC., a Delaware corporation ("Borrower"), BANK OF AMERICA, NATIONAL ASSOCIATION, a national banking association ("BANA"), and each other financial institution that is a party thereto (collectively, the "Lenders" and individually, a "Lender"), and BANK OF AMERICA, NATIONAL ASSOCIATION a national banking association, in its capacity as both collateral and administrative agent (the "Agent") for each of the Lenders, as such agreement has been amended by that certain Amendment No. 1 to Amended and Restated Financing and Security Agreement, dated as of June 26, 2000, by that certain Amendment No. 2 to Amended and Restated Financing and Security Agreement, dated as of July 31, 2000, by that certain Amendment No. 3 to Amended and Restated Financing and Security Agreement, dated as of December 12, 2000 and by that certain Amendment No. 4 to Amended and Restated Financing and Security Agreement, dated as of January 19, 2001 (as amended, modified, restated, substituted, extended and renewed at any time and from time to time, the "Financing Agreement")

Dear Mr. Bradley:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

It has come to our attention that, based on recently discovered ineligibles which have posted today, a Borrowing Base Deficiency in the amount of approximately \$2,000,000 has occurred. While neither the Agent nor any of the Formula Lenders has any obligation to fund a Borrowing Base Deficiency, the Agent may in its sole discretion, pursuant to Section 8.13 of the Financing Agreement, make, for the account of the Formula Lenders on a pro rata basis, advances under the Revolving Loan of up to \$2,500,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in the aggregate Revolving Credit Commitments) for an aggregate period of not more than 30 days in any twelve month period without the prior written consent of the Requisite Lenders ("Agent Discretionary Loans"). The Agent has already used a portion of these days funding Borrowing Base Deficiencies during October 2001.

Based on information currently available, please be advised that the Agent is not willing to make any further Agent Discretionary Loans except under the following conditions:

(a) At all times during which a Borrowing Base Deficiency exists, commencing with the date of this letter agreement, the interest rate applicable to all Loans and other Obligations under the Financing Agreement will be the Prime Rate plus four percent (4%) per annum;

(b) Additionally, commencing with the week beginning November 25, 2001, the Agent will charge to the Borrower a weekly fee in the amount of \$25,000, payable (if at all) on the last day of each week for each week during which a Borrowing Base Deficiency exists as of the end of any Business Day during such week; and

(c) The Agent does not intend to make any Agent Discretionary Loans after December 7, 2001.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

- E-9 -

Nothing in this letter agreement shall be read as a commitment by the Agent to make any Agent Discretionary Loans in any amount for any period of time. Agent Discretionary Loans will be evaluated on a case-by-case basis, in each case, and will be made only in the Agent's sole discretion. Nothing in this letter agreement shall be construed as a waiver of any Event of Default, or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved.

Please indicate your agreement to the foregoing terms and conditions by signing a copy of this letter and returning it to the undersigned.

Very truly yours,

Bank of America, National Association, as Agent

Brett Mook, Vice President

Re: Amended and Restated Financing Agreement, dated as of March 16, 2000, by and between REUNION INDUSTRIES, INC., a Delaware corporation ("Borrower"), BANK OF AMERICA, NATIONAL ASSOCIATION, a national banking association ("BANA"), and each other financial institution that is a party thereto (collectively, the "Lenders" and individually, a "Lender"), and BANK OF AMERICA, NATIONAL ASSOCIATION a national banking association, in its capacity as both collateral and administrative agent (the "Agent") for each of the Lenders, as such agreement has been amended by that certain Amendment No. 1 to Amended and Restated Financing and Security Agreement, dated as of June 26, 2000, by that certain Amendment No. 2 to Amended and Restated Financing and Security Agreement, dated as of July 31, 2000, by that certain Amendment No. 3 to Amended and Restated Financing and Security Agreement, dated as of December 12, 2000 and by that certain Amendment No. 4 to Amended and Restated Financing

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

and Security Agreement, dated as of January 19, 2001 (as amended, modified, restated, substituted, extended and renewed at any time and from time to time, the "Financing Agreement")

Dear Mr. Bradley:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

Recently the Agent delivered to the Lenders for their approval a proposal for a \$3.5 million overadvance facility that was intended to address the Borrower's working capital needs through February 28, 2002. Unfortunately, the Lenders are unable to approve this proposal, if at all, by December 7, 2001, as the proposal requested. It is the Agent's view that the Agent and the Lenders will be unable to fund Loans under the Financing Documents as currently in effect beyond December 7, 2001. Accordingly, as an interim measure while the Agent, the Lenders and the Borrower work toward a longer-term solution to the Borrower's liquidity issues, the Agent has proposed to the Lenders that notwithstanding the 30-day limitation set forth in Section 8.13 of the Financing Agreement, (i) the Agent shall have the authority to grant discretionary advances of up to \$2,500,000 otherwise permitted under, and subject to the other limitations set forth in, Section 8.13 of the Financing Agreement through January 11, 2002, without regard to the number of days that such discretionary advances remain outstanding, (ii) all discretionary advances made by the Agent through December 9, 2001, and, to the extent made within the parameters set forth in clause (i) above, all discretionary advances made thereafter, have been and are for the account of the Formula Lenders on a pro rata basis. The foregoing agreement, if accepted by the Lenders, is subject to the following terms and conditions:

(a) during the period that a discretionary advance is outstanding, and at all times that a Borrowing Base Deficiency exists, the interest rate applicable to the Obligations will be the Prime Rate plus 4% per annum;

- E-11 -

(b) the Agent will charge to the Borrower a weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Lenders, on the last day of each week for each week, from the week beginning December 10, 2001 through and including the week beginning January 7, 2002, during which a discretionary advance under Section 8.13 of the Financing Agreement is outstanding;

(c) Borrowers will be charged a \$50,000 amendment fee in connection with the amendment to Section 8.13 of the Financing Agreement, payable upon the effectiveness of the amendment to the Agent for the ratable benefit of the Lenders;

(d) Borrower agrees to report inventory values on a weekly basis, with methodologies satisfactory to the Agent and the Lenders;

(e) Borrower agrees not to use any proceeds of any discretionary advances under Section 8.13 of the Financing Agreement (as modified by clause (i) above) to make any payments on any Indebtedness for Borrowed Money (other than the Obligations); and

(f) Borrower agrees to retain a crisis manager reasonably acceptable to the Agent and the Lenders, whose activities shall include, among others, providing the Lenders with a 13-week cash flow forecast for the Borrower, and conducting an independent review of the Borrower's collateral reporting methodologies and reporting on the results thereof to the Lenders.

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Please indicate your approval of and agreement to the foregoing terms and conditions by signing a copy of this letter and returning it to me. Please understand, however, that your signature alone will not be enough to create discretionary advance authority in the Agent--the approval of the Lenders is also required. Accordingly, even though you are, by signing below, agreeing to the terms set forth above, neither the Agent nor any Lender will be bound by such terms until the Agent and the Lenders have approved the same terms and executed a document to that effect. Please also bear in mind that, as we have discussed, absent an acceptable agreement signed by the Agent, the Lenders and the Borrower, the Agent and the Lenders will not be able to fund any Loans after the date hereof.

Additionally, nothing in this letter agreement shall be read as a commitment by the Agent to make any discretionary loans in any amount for any period of time, even if the terms and conditions hereof are approved and accepted by the Agent and the Lenders in writing. Discretionary loans will be evaluated on a case-by-case basis, in each case, and will be made only in the Agent's sole discretion and then only to the extent such discretionary advances comply with the Financing Agreement, as the same may be modified hereby (to the extent the Agent and the Lenders agree hereto). Nothing in this letter agreement shall be construed as a waiver of any Event of Default, or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved.

Very truly yours,

Bank of America, National Association, as Agent

Dear Mr. Bradley:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

Reference is also made to a letter agreement, dated December 7, 2001, between the Agent and the Borrower (the "December 7 Letter"), pursuant to which the Borrower agreed that the Agent's authority to grant discretionary advances in excess of the Borrowing Base under Section 8.13 of the Financing Agreement, in an amount not to exceed \$2,500,000, would be extended through January 11 2002, notwithstanding the 30-day limitation set forth in Section 8.13 of the Financing Agreement.

As we have discussed, the Agent and the Lenders have now approved, and the Borrower by executing the acknowledgment attached to this letter hereby acknowledges and agrees, that notwithstanding the 30-day limitation set forth in Section 8.13 of the Financing Agreement, and notwithstanding the \$2,500,000 cap on discretionary advances set forth in Section 8.13 of the Financing Agreement, (i) the Agent shall have the authority to make, in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$4,400,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving Credit Commitments) for the period commencing on January 11, 2002 and continuing through January 31, 2002, without the prior written consent of the Requisite Lenders, (ii) the Agent shall have the authority to make , in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$2,500,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving Credit Commitments) for the period commencing on February 1, 2002 and continuing through February 11, 2002, without the prior written consent of

- E-14 -

the Requisite Lenders, and (iii) all discretionary advances made by the agent through January 22, 2001, and, to the extent made within the parameters set forth in clauses (i) and (ii) above (as applicable), all discretionary advances made thereafter, have been and are for the account of the Formula Lenders on a pro rata basis. The foregoing agreement remains subject to the terms and conditions set forth in paragraphs (a) - (f) of the December 7 Letter.

Nothing in this letter agreement shall be read as a commitment by the Agent to make any discretionary loans in any amount for any period of time. Discretionary loans will be evaluated on a case-by-case basis, in each case, and

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

will be made only in the Agent's sole discretion and then only to the extent such discretionary advances comply with the Financing Agreement, as the same may be modified hereby. Additionally, nothing in this letter agreement shall be construed as a waiver of any Event of Default (including without limitation those Events of Default arising out of the existence of the Borrowing Base deficiency and the Borrower's failure to maintain minimum Revolving Credit Availability of at least \$1,500,000, as required by the Financing Agreement, the existence of each of which Borrower acknowledges by signing below), or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved. By signing below, Borrower also represents, warrants and acknowledges that as of the date hereof, it has no defenses, claims, counterclaims or setoffs with respect to the Financing Agreement or its Obligations thereunder or with respect to any actions of the Agent, any Lender, or any of their respective officers, directors, shareholders, employees, agents or attorneys, and Borrower irrevocably and absolutely waives any such defenses, claims, counterclaims and setoffs and releases the Agent, each Lender, and each of their respective officers, directors, shareholders, employees, agents and attorneys from the same.

Very truly yours,

Bank of America, National Association, as Agent

Dear Mr. Bradley:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

Reference is also made to a letter agreement, dated January 22, 2001, between the Agent and the Borrower, pursuant to which the Borrower agreed that the Agent's authority to grant discretionary advances in excess of the Borrowing Base under Section 8.13 of the Financing Agreement, in an amount not to exceed \$4,400,000, would be extended through January 31, 2002, notwithstanding limitations set forth in Section 8.13 of the Financing Agreement.

As we have discussed, the Agent and the Lenders have now approved, and the Borrower by executing the acknowledgment attached to this letter hereby acknowledges and agrees, that notwithstanding the 30-day limitation set forth in Section 8.13 of the Financing Agreement, and notwithstanding the \$2,500,000 cap on discretionary advances set forth in Section 8.13 of the Financing Agreement, (i) the Agent shall have the authority to make, in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$4,400,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving Credit Commitments) for the period commencing on January 11, 2002 and continuing through February 10, 2002, without the prior written consent of the Requisite Lenders, (ii) the Agent shall have the authority to make, in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$3,500,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving Credit Commitments) for the period commencing on February 11, 2002 and continuing through March 1, 2002, without the prior written consent of the Requisite Lenders, and (iii) all discretionary advances made by the Agent through January 31, 2002, and, to the extent made within the parameters set forth in clauses (i) and (ii) above (as applicable), all discretionary advances made thereafter, have been and are for the account of the Formula Lenders on a pro rata basis. The foregoing agreement is subject to the following terms and conditions:

- E-16 -

(a) during the period that a discretionary advance is outstanding, and at all times that a Borrowing Base Deficiency exists, the interest rate applicable to the Obligations will be the Prime Rate plus 4% per annum;

(b) the Agent will charge to the Borrower a weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning December 10, 2001 through and including the week beginning February 25, 2002, during which a discretionary advance under Section 8.13 of the Financing Agreement is outstanding;

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

(c) the Agent will charge to the Borrower an additional weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning February 11, 2002, through and including the week beginning February 25, 2002, during which, at any time, the amount of discretionary advances outstanding under Section 8.13 of the Financing Agreement exceeds \$2,500,000;

(d) Borrower agrees to report inventory values on a weekly basis, with methodologies satisfactory to the Agent and the Lenders;

(e) Borrower agrees not to use any proceeds of any discretionary advances under Section 8.13 of the Financing Agreement (as modified by clauses (i) and (ii) above) to make any payments on any Indebtedness for Borrowed Money (other than the Obligations); and

(f) Borrower agrees to retain a crisis manager reasonably acceptable to the Agent and the Lenders, whose activities shall include, among others, providing the Lenders with a 13-week cash flow forecast for the Borrower, and conducting an independent review of the Borrower's collateral reporting methodologies and reporting on the results thereof to the Lenders.

Nothing in this letter agreement shall be read as a commitment by the Agent to make any discretionary loans in any amount for any period of time. Discretionary loans will be evaluated on a case-by-case basis, in each case, and will be made only in the Agent's sole discretion and then only to the extent such discretionary advances comply with the Financing Agreement, as the same may be modified hereby. Additionally, nothing in this letter agreement shall be construed as a waiver of any Event of Default (including without limitation those Events of Default arising out of the existence of the Borrowing Base Deficiency and the Borrower's failure to maintain minimum Revolving Credit Availability of at least \$1,500,000, as required by the Financing Agreement, the existence of each of which Borrower acknowledges by signing below), or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved. By signing below, Borrower also represents, warrants and acknowledges that as of the date hereof, it has no defenses, claims, counterclaims or setoffs with respect to the Financing Agreement or its Obligations thereunder or with respect to any actions of the Agent, any Lender, or any of their respective officers, directors, shareholders, employees, agents or attorneys, and Borrower irrevocably and absolutely waives any such defenses, claims, counterclaims and setoffs and releases the Agent, each Lender, and each of their respective officers, directors, shareholders, employees, agents and attorneys from the same.

Dear Mr. Bradley:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

Reference is also made to a letter agreement, dated February 1, 2002, between the Agent and the Borrower, pursuant to which, among other things, the Borrower agreed that the Agent's authority to grant discretionary advances in excess of the Borrowing Base under Section 8.13 of the Financing Agreement, in an amount not to exceed \$4,400,000 (as reduced pursuant to such letter agreement) would be extended through March 1, 2002, notwithstanding the limitations set forth in Section 8.13 of the Financing Agreement.

- E-19 -

As we have discussed, the Agent and the Lenders have now approved, and the Borrower by executing the acknowledgment attached to this letter hereby acknowledges and agrees, that notwithstanding the 30-day limitation set forth in Section 8.13 of the Financing Agreement, and notwithstanding the \$2,500,000 cap on discretionary advances set forth in Section 8.13 of the Financing Agreement, (i) the Agent shall have the authority to make, in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$3,500,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Credit Commitments) for the period commencing on March 2, 2002, and continuing through March 15, 2002, without the prior written consent of the Requisite Lenders, (ii) if the Borrower has provided the Agent with a Letter of Intent, as defined herein, together with evidence satisfactory to the Agent that the transactions contemplated by such Letter of Intent are being diligently pursued, the Agent shall have the authority to make, in its sole discretion, advances under the Revolving Loan for the account of the Formula Lenders on a pro rata basis, of up to \$3,500,000 in excess of the Borrowing Base (but not in excess of the limitation set forth in aggregate Revolving Credit Commitments) for the period commencing on March 16, 2002, and continuing through April 1, 2002, without the prior written consent of the Requisite Lenders, and (iii) all discretionary advances made by the Agent through March 1, 2002, and, to the extent made within the parameters set forth in clauses (i) and (ii) above (as applicable), all discretionary advances made thereafter, have been and are for the account of the Formula Lenders on a pro rata basis. As used in the foregoing sentence, "Letter of Intent" means a fully executed letter of intent relating to the sale of the Borrower's Auto-Lok/ King-Way division, in form and substance acceptable to the Agent in its sole reasonable discretion.

The foregoing agreement is subject to the following terms and conditions:

(a) during the period that a discretionary advance is outstanding, and at all times that a Borrowing Base Deficiency exists, the interest rate applicable to the Obligations will be the Prime Rate plus 4% per annum;

(b) the Agent will charge to the Borrower a weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning December 10, 2001 through and including the week beginning April 1, 2002, during which a discretionary advance under Section 8.13 of the Financing Agreement is outstanding;

(c) the Agent will charge to the Borrower an additional weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning March 4, 2002, through and including the week beginning April 1, 2002, during which, at any time, the amount of discretionary advances outstanding under Section 8.13 of the Financing Agreement exceeds \$2,500,000;

(d) Borrower agrees to report inventory values on a weekly basis, with methodologies satisfactory to the Agent and the Lenders;

(e) Borrower agrees not to use any proceeds of any discretionary advances under Section 8.13 of the Financing Agreement (as modified by clauses (i) and (ii) above) to make any payments on any Indebtedness for Borrowed Money (other than the Obligations); and

(f) Borrower agrees to retain a crisis manager reasonably acceptable to the Agent and the Lenders, whose activities shall include, among others, providing the Lenders with a 13-week cash flow forecast for the Borrower, and conducting an independent review of the Borrower's collateral reporting methodologies and reporting on the results thereof to the Lenders.

- E-20 -

Nothing in this letter agreement shall be read as a commitment by the Agent to make any discretionary loans in any amount for any period of time. Discretionary loans will be evaluated on a case-by-case basis, in each case, and will be made only in the Agent's sole discretion and then only to the extent such discretionary advances comply with the Financing Agreement, as the same may be modified hereby. Additionally, nothing in this letter agreement shall

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

be construed as a waiver of any Event of Default (including without limitation those Events of Default arising out of the existence of the Borrowing Base Deficiency and the Borrower's failure to maintain minimum Revolving Credit Availability of at least \$1,500,000, as required by the Financing Agreement, the existence of each of which Borrower acknowledges by signing below), or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved. By signing below, Borrower also represents, warrants and acknowledges that as of the date hereof, it has no defenses, claims, counterclaims or setoffs with respect to the Financing Agreement or its Obligations thereunder or with respect to any actions of the Agent, any Lender, or any of their respective officers, directors, shareholders, employees, agents or attorneys, and Borrower irrevocably and absolutely waives any such defenses, claims, counterclaims and setoffs and releases the Agent, each Lender, and each of their respective officers, directors, shareholders, employees, agents and attorneys from the same.

Very truly yours,

Bank of America, National Association, as Agent

Brett Mook, Vice President

Pittsburgh, Pennsylvania 15236
Attention: Mr. Kimball J. Bradley

Re: Amended and Restated Financing Agreement, dated as of March 16, 2000, by and between REUNION INDUSTRIES, INC., a Delaware corporation ("Borrower"), BANK OF AMERICA, NATIONAL ASSOCIATION, a national banking association ("BANA"), and each other financial institution that is a party thereto (collectively, the "Lenders" and individually, a "Lender"), and BANK OF AMERICA, NATIONAL ASSOCIATION a national banking association, in its capacity as both collateral and administrative agent (the "Agent") for each of the Lenders, as such agreement has been amended by that certain Amendment No. 1 to

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

Amended and Restated Financing and Security Agreement, dated as of June 26, 2000, by that certain Amendment No. 2 to Amended and Restated Financing and Security Agreement, dated as of July 31, 2000, by that certain Amendment No. 3 to Amended and Restated Financing and Security Agreement, dated as of December 12, 2000 and by that certain Amendment No. 4 to Amended and Restated Financing and Security Agreement, dated as of January 19, 2001, by that certain letter agreement dated February 1, 2002 between the Borrower and the Agent, and by that certain letter agreement dated March 1, 2002 between the Borrower and the Agent (as amended, modified, restated, substituted, extended and renewed at any time and from time to time, the "Financing Agreement")

Gentlemen:

Reference is hereby made to the Financing Agreement. Capitalized terms used in this letter have the meanings ascribed thereto in the Financing Agreement.

The period for discretionary advances of the Revolving Loan notwithstanding the existence of a Borrowing Base Deficiency set forth in the letter agreement dated March 1, 2002 between the Borrower and the Agent expires on April 1, 2002. A Borrowing Base Deficiency is still in existence.

The Agent hereby informs the Borrower that any further advances, loans and extensions of credit during the existence of a Borrowing Base Deficiency or that would result in a Borrowing Base Deficiency shall be in the Agent's sole discretion and the Agent's decision on whether to make any such advances, loans or extension of credit shall be made on a case-by-case basis. No extension of credit on any day or days shall (a) imply that an extension of credit will be made on any succeeding day or (b) establish any course of dealing.

In accordance with the provisions of the Financing Agreement the Revolving Loan is payable on demand in the amount of the Borrowing Base Deficiency at the time of demand.

In consideration of any such discretionary loans that the Lenders may make, please indicate your agreement to the following:

(a) during the period that a discretionary advance is outstanding, and at all times that a Borrowing Base Deficiency exists, the interest rate applicable to the Obligations will be the Prime Rate plus 4% per annum;

- E-22 -

(b) the Agent will charge to the Borrower a weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning December 10, 2001 through and including the week during which, at any time, a discretionary advance under Section 8.13 of the Financing Agreement is outstanding;

(c) the Agent will charge to the Borrower an additional weekly fee in the amount of \$25,000, payable to the Agent, for the ratable benefit of the Formula Lenders, on the last day of each week for each week, from the week beginning March 4, 2002, through and including each week during which, at any time, the amount of discretionary advances outstanding under Section 8.13 of the Financing Agreement exceeds \$2,500,000;

(d) Borrower agrees to report inventory values on a weekly basis, with methodologies satisfactory to the Agent and the Lenders;

(e) Borrower will not use any proceeds of any discretionary advances

Edgar Filing: REUNION INDUSTRIES INC - Form 10-K

under Section 8.13 of the Financing Agreement (as modified by clauses (i) and (ii) above) to make any payments on any Indebtedness for Borrowed Money (other than the Obligations); and

(f) Borrower will retain a crisis manager reasonably acceptable to the Agent and the Lenders, whose activities shall include, among others, providing the Lenders with a 13-week cash flow forecast for the Borrower, and conducting an independent review of the Borrower's collateral reporting methodologies and reporting on the results thereof to the Lenders.

Nothing in this letter agreement shall be read as a commitment by the Agent to make any discretionary loans in any amount for any period of time. Discretionary loans will be evaluated on a case-by-case basis, in each case, and will be made only in the Agent's sole discretion. Additionally, nothing in this letter agreement shall be construed as a waiver of any Event of Default (including without limitation those Events of Default arising out of the existence of the Borrowing Base Deficiency and the Borrower's failure to maintain minimum Revolving Credit Availability of at least \$1,500,000, as required by the Financing Agreement, the existence of each of which Borrower acknowledges by signing below), or of the Agent's or any Lenders' rights and remedies with respect to any Event of Default, all of which are specifically hereby reserved. By signing below, Borrower also represents, warrants and acknowledges that as of the date hereof, it has no defenses, claims, counterclaims or setoffs with respect to the Financing Agreement or its Obligations thereunder or with respect to any actions of the Agent, any Lender, or any of their respective officers, directors, shareholders, employees, agents or attorneys, and Borrower irrevocably and absolutely waives any such defenses, claims, counterclaims and setoffs and releases the Agent, each Lender, and each of their respective officers, directors, shareholders, employees, agents and attorneys from the same.

- E-23 -

Very truly yours,

Bank of America, National Association, as Agent

Brett Mook, Vice President
