Urban Television Network Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2005
(UNAUDITED)

1. BASIS OF PRESENTATION:

The unaudited financial statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such SEC rules and regulations; nevertheless, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes hereto should be read in conjunction with the financial statements and notes thereto included in the Company's Form 10-KSB for the year ended September 30, 2004, which was filed January 13, 2005. In the opinion of the Company, all adjustments, including normal recurring adjustments necessary to present fairly the financial position of Urban Television Network Corporation as of June 30, 2005 and the results of its Operations and cash flows for the nine months then ended, have been included. The results of operations for the interim period are not necessarily indicative of the results for the full year.

ACCOUNTING POLICIES:

There have been no changes in accounting policies used by the Company during the quarter ended June 30, 2005.

2. Significant Accounting Policies

Description of Business

Urban Television Network Corporation (the "Company") formerly known as Waste Conversion Systems, Inc. was incorporated under the laws of the state of Nevada on October 21, 1986. The principal office of the corporation is 2707 South Cooper, Suite 119, Arlington, Texas 76015.

In January 2002, the Company underwent a change of control in connection with Urban Television Network Corporation, a Texas corporation, (Urban-Texas). The directors of the Company appointed Urban-Texas officers as new officers of the Company, and at the same time resigned their board positions and appointed the directors of Urban-Texas as the Company's new board of directors.

On May 1, 2002, the Company entered into an agreement with Urban-Texas to acquire the rights to the Urban-Texas affiliate network signal space which included the assignment of the Urban-Texas broadcast television station affiliates for 16,000,000 shares of common stock, which became 800,000 after a 1 for 20 reverse stock split.

On February 7, 2003, the Company entered into a Stock Exchange Agreement with the majority shareholders of Urban-Texas. Among other things, the Agreement provided for the Company's purchase of approximately 90% of the issued and outstanding capital stock of Urban-Texas (13,248,000 of 14,759,000 shares) in exchange for the Company's issuance of 13,248,000 shares of its authorized but unissued common stock, \$.0001 par value (the "Exchange Shares"), to the majority shareholders of Urban-Texas. In June of

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

2003, the remaining 10% of Urban-Texas common stock was contributed to the Company.

Urban-Texas is considered the accounting acquirer, and the accompanying financial statements include the operations of Urban-Texas from the earliest period presented. The Company operated from May 1, 2002 to February 7, 2003 as a 71% subsidiary of Urban-Texas, a predecessor entity to the existing business. The May 1, 2002 and February 7, 2003 transactions with the Company are presented as a recapitalization of Urban-Texas.

The Company is authorized to issue 200,000,000 shares of \$.0001 par value stock and 500,000 shares of \$1.00 par value preferred stock.

Urban Television Network Corporation
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2005
(UNAUDITED)

2. Significant Accounting Policies - continued

The Company is engaged in the business of supplying programming to broadcast television stations and cable systems. Formerly the Company's business had been the marketing of thermal burner systems that utilize industrial and agricultural waste products as fuel to produce steam, which generates electricity, air-conditioning or heat.

Accounting Method

The Company records income and expenses on the accrual method.

Revenue Recognition

The Company's sources of revenues includes sale of short-form national and local spot advertising long-form program time slots. The Company's policy is to recognize the revenue associated with these sources of revenue at the time that it inserts the short-form advertising spots or airs the long-form program at the network or local level.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiary. All material intercompany accounts and transactions are eliminated. The Company owns 100% of Urban Television Network Corporation, a Texas corporation, Urban Records, Inc., a Nevada corporation and Waste Conversion Systems of Virginia, Inc.

Non Goodwill Intangible Assets

Intangible assets other than goodwill consist of network assets acquired by purchase. They are being amortized over their expected lives of 5 years and are reviewed for potential impairment whenever events or circumstances indicate that carrying amounts may not be recoverable. No impairment loss was recognized during the reporting periods. On January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, Goodwill and Intangible Assets. This provides that a recognized intangible shall be amortized over its useful life to the reporting entity unless that life is determined to be indefinite. The amount of an intangible asset to

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

be amortized shall be the amount initially assigned to that asset less any residual value.

Income (Loss) Per Share

Income (loss) per common share is calculated in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share". Basic Income (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding. Diluted net income (loss) per share is computed similar to basic net income (loss) per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Stock options and warrants are anti-dilutive, and accordingly, are not included in the calculation of income (loss) per share.

Comprehensive Income

Comprehensive income (loss) and net income (loss) are the same for the Company.

Cash

For purposes of the statement of cash flows, the Company considers unrestricted cash and all highly liquid debt instruments purchased with an original maturity of three months or less to be cash.

2. Significant Accounting Policies - continued

Concentration of Credit Risk

The Company periodically maintains cash in excess of federally insured limits. The amount in excess at June 30, 2005 was \$-0-.

Advertising Costs

The Company expenses non-direct advertising costs as incurred. The Company did not incur any direct response advertising costs for the nine months ended June 30, 2005 and 2004.

Stock Based Compensation

The Company accounts for equity instruments issued to employees for services based on the fair value of the equity instruments issued and accounts for equity instruments issued to other than employees based on the fair value of the consideration received or the fair value of the equity instruments, whichever is more reliably measurable. The determined value is recognized as an expense in the accompanying consolidated statements of operations.

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Standards

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity". This Statement establishes standards for classifying and measuring as liabilities certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity. SFAS No. 150 is effective at the beginning of the first interim period beginning after June 15, 2003; including all financial instruments created or modified after May 31, 2003. SFAS No. 150 currently has no impact on the Company.

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs - an amendment of ARB No. 43, Chapter 4." This Statement clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted materials. This Statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The initial application of SFAS No. 151 will have no impact on the Company's financial statements.

In December 2004, the FASB issued SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions - an amendment of FASB Statements No. 66 and 67." This Statement references the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position 04-2, "Accounting for Real Estate Time-Sharing Transactions." This Statement also states that the guidance for incidental operations and costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. The initial application of SFAS No. 152 will have no impact on the Company's financial statements.

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29." This Statement eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has

2. Significant Accounting Policies - continued

commercial substance if the future cash flows of the entity are expected to

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

change significantly as a result of the exchange. This Statement is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect application of SFAS No. 153 to have a material affect on its financial statements.

In December 2004, the FASB issued a revision to SFAS No. 123, "Share-Based Payment." This Statement supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees" and its related implementation guidance. It establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This Statement does not change the accounting guidance for share-based payment transactions with parties other than employees provided in Statement No. 123 as originally issued and EITF Issue No. 96-18. This Statement is effective for public entities that file as small business issuers as of the beginning of the first fiscal period that begins after December 15, 2005. The Company has not yet determined the impact of SFAS No. 123 (revised) on its financial statements.

Stock Options

The Company accounts for non-employee stock options under SFAS 123, whereby option costs are recorded at the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliable measurement, in accordance with EITF 96-18 "Accounting for Equity" instruments that are issued to other than employees for acquiring or in conjunction with selling goods or services.

3. Accounts receivable

Accounts receivable consists of normal trade receivables. The Company assesses the collectibility of its accounts receivable regularly. Based on this assessment, an allowance for doubtful accounts is recorded. At June 30, 2005 and September 30, 2004 an allowance for doubtful accounts was not considered necessary.

4. Network Assets - Amortization

Network assets consist of intangibles other than Goodwill. These assets automatically renew every year unless either party terminates the agreement by such notification to the other party. A useful life of five (5) years is estimated for the assets. These agreements are not expected to be terminated by either party prior to its useful life period. Total amortization of these assets has been \$126,286 and the amortization for the nine months ended June 30, 2005 and 2004 was \$25,552 and \$29,344, respectively.

Future amortization of the Network assets at June 30, 2005 will be \$69,342 and on an annual basis be as follows:

Year ended September 30, 2005	\$10,127
Year ended September 30, 2006	\$39,125
Year ended September 30, 2007	\$20,090

The Company acquired equipment totaling \$18,325 and \$148,704 during the nine months ended June 30, 2005 and 2004, respectively. The 2004 amount included the issuance of 120,000 shares of the Company's common stock valued at \$30,000. Total depreciation expense for the nine months ended June 30, 2005 and 2004 was \$40,784 and \$29,353, respectively.

6 Related Party Transactions

In May 2002, the Company issued 16,000,000 (800,000 after the 1 for 20 Reverse) shares to Urban Television Network Corporation, a Texas corporation for asset purchase of network assets - See footnote 1.

The Company leased office space from one its shareholders and director for \$2,000 per month. The lease expired on March 31, 2004. The total rental expense for the nine months ended June 30, 2004 was 30,000.

In 2003 and the first six months of fiscal 2004, the Company used the services of a company owned by shareholders, one being a director of the Company, that provided the Company with the equipment and master control services to put the Company's programming on the satellite for the broadcast affiliates to receive and rebroadcast to their local markets. During the nine months ended June 30, 2004 the amount paid was \$260,067.

The Company uses the services of a company owned by shareholders to provide it with technology services including Internet and affiliate relations. During the nine months ended June 30, 2005 and 2004, the total expense paid out for these services was \$152,690 and \$260,067, respectively.

During the periods ended September 30, 2003, the Company executed an interest bearing notes a shareholder. The Company borrowed \$298,127 and \$263,165 from the shareholders and made repayments of \$164,177 and \$66,400 during the years ended September 30, 2003 and 2002, respectively. At

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

September 30, 2003, \$168,765 of the notes plus accrued interest of \$29,750 were converted to a non-interest payable to the shareholder. In October 2003, a shareholder agreed to reduce the Company payable by \$198,515 to apply towards the purchase of common stock by Wright Entertainment LLC during the period ended September 30, 2004 and was brought back onto the Company's books as part of the termination of the Wright Entertainment LLC stock subscription agreement

The Company executed an interest bearing note with a shareholder of the Company during the period ended September 30, 2003 to pay operating expenses. During the period ended September 30, 2003 the amounts loaned totaled \$132,200. The balance on this loan was \$-0- at June 30, 2004.

On October 30, 2003, the Company completed a stock subscription agreement with Wright Entertainment, LLC, a Nevada limited liability company, whose owner and managing director is Lonnie G. Wright, President and Chief Executive Officer of the Company. Wright Entertainment, LLC entered into the stock Subscription agreement for Fourteen Million (14,000,000) common shares for Seven Million (\$7,000,000) Dollars or Fifty (\$0.50) Cents per share. The stock sale was structured as an installment stock sale. The

terms of the stock sale are as follows: \$500,000 down, the \$6,500,000 balance payable on a promissory note at \$875,000 Dollars quarterly, including 6% interest on the declining balance. A portion (\$200,000) of the \$500,000 down payment was achieved by one of the Company's lenders forgiving \$198,515 of advances due the lender and \$1,485 of accrued interest on a note payable to the lender. In December 2004, this subscription agreement was terminated by mutual agreement between the Company and Wright Entertainment LLC as well as the termination of 4,000,000 shares that has been issued to Wright Entertainment and were to be vested to Wright Entertainment upon the full payment of the subscription agreement.

On December 13, 2004, we entered into a definitive agreement with World One Media Group, Inc., a Nevada corporation. The definitive agreement called for World One to purchase 70,000,000 restricted common shares for \$7,000,000. The subscription agreement signed on December 23, 2004 set the terms of the installment purchase at \$100,000 being paid on December 23, 2004 and with a promissory note bearing no interest being executed for the remaining \$6,900,000 and being paid at the rate of \$150,000 every 45 days beginning on January 31, 2005 until promissory note has been paid in full. All the shares are pledged as collateral for the promissory note and will be physically held by the Company. Additionally, World One will be issued warrants for 30,000,000 (reduced by mutual agreement from the original 80,000,000 warrants) shares of common stock that can be exercised for \$.01 per share at any time after the Company's stock price has maintained a \$10 bid price for 20 consecutive trading days. The total warrants exercisable will be subject the available authorized and unissued shares of the Company at the time of exercise. The holder of the July and August 2005 notes has a UCC-1 lien against the Company's assets.

The \$228,290 and \$171,710 notes payable are convertible at any time before the maturity date into the Company's common stock at the rate of five

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

shares of common stock for each dollar of loan amount plus accrued interest through the date of conversion.

8. Income Tax

The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". This standard requires, among other things, recognition of future tax consequences, measured by enacted tax rates attributable to taxable and deductible temporary differences between financial statement and income tax bases of assets and liabilities. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable for the period and the change during the period in the deferred tax asset and liability.

Temporary differences between the financial statement carrying amounts and tax basis of assets and liabilities did not give rise to significant portions of deferred taxes at June 30, 2005 and 2004.

The (provision) benefit for income tax consist of the following:

	June 30, 2005	September 30, 2004
	-----	-----
Current	\$ 0	\$ 0
Deferred	0	0
	-----	-----
	\$ 0	\$ 0
	=====	=====

The Company's utilization of any tax loss carryforward available to it will be significantly limited under Internal Revenue Code Section 382, if not totally, by recent stock issuances and changes in control. The Company has established a 100% valuation allowance until such time as it is decided that any tax loss carryforwards might be available to it. The Company accounts for income taxes pursuant to the Statement of Financial Accounting Standards No.109. The Company has no current or deferred income tax component. For the year ended September 30, 2004, the Valuation Allowance increased by approximately \$1,100,000.

11. Commitments and Contingencies - continued

In August of 2004, the Company settled a lawsuit brought by Three F Productions, Inc. vs. Pacific Family Entertainment LLC, et al. which included the Company as a defendant as the result of the Company airing a program that Pacific Family Entertainment had represented as having the copyright and rights to air. The settlement amount due by Company was \$50,000 to be paid at the rate of \$5,000 per month beginning September 1, 2004. The Company paid the final payment of \$5,000 on June 1, 2005 and received a Stipulation for Dismissal of Action Against the Company from Three F Productions.

12. Going Concern

The Company has suffered recurring losses from operations and has a deficit in both working capital and stockholders' equity. In order for the Company to sustain operations and execute its television broadcast and programming business plan, capital will need to be raised to support operations as the company executes its business plan. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company may raise additional capital through operating cash flows, the sale of its equity securities, or debt securities. Subsequent to year end the Company has raised additional capital of approximately \$508,541 from bridge loans, that were subsequently converted to common stock, \$450,000 in other advances to the Company and \$550,000 from World One towards the payment on its stock subscription agreement.

13. Subsequent Event

On July 26, 2005, the Board of Directors voted to (1) terminate the stock subscription agreement with Dove Media Group, Inc. (formerly known as World One Media Group, Inc.) due to its nonpayment of required installment payments, (2) cancel the 70,000,000 shares issued and held by the Company as security on the stock subscription agreement, (3) reissue 2,500,000 shares to Dove Media Group, Inc. for \$250,000 that it paid towards the

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

stock subscription Agreement and (4) cancel the 5,000,000 shares that had been authorized for Dr. Ajibike Akinkoye for services to be rendered to the Company.

On July 29, 2005, we entered into a stock subscription agreement with Miles Investment Group, Inc., a Texas limited liability company controlled by Jacob R. Miles III, a shareholder and the Company's Chief Executive Officer. The agreement calls for Miles Investment Group, LLC to purchase 69,000,000 restricted common shares for \$6,900,000 on an installment basis over a 28 month period with the terms being \$100,000 as a down payment and \$250,000 per month beginning on September 1, 2005 and the first each month thereafter until the total of \$6,800,000 has been paid in full. All the shares are pledged as collateral for the promissory note and will be physically held by the Company. Additionally, Miles Investment Group, LLC will be issued warrants for 30,000,000 shares of restricted common stock that can be exercised for \$.01 per share on the following basis: (1) three million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$1.50 price for 10 consecutive trading days, (2) seven million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$3.00 price for 10 consecutive trading days, (3) ten million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$5.00 price for 10 consecutive trading days and (4) ten million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$6.00 price for 10 consecutive trading days.

Background

Urban Television Network Corporation (the "Company") formerly known as Waste Conversion Systems, Inc. was incorporated under the laws of the state of Nevada On October 21, 1986. The principal office of the corporation is 2707 S. Cooper, Suite 119, Arlington, Texas 76015.

In January 2002, the Company underwent a change of control with the directors of the Company appointing the directors and officers of Urban Television Network Corporation, a Texas corporation, (Urban-Texas) as the new directors and officers of the Company, and at the same time resigning their board positions.

On May 1, 2002, the Company entered into an agreement with Urban-Texas to acquire the rights to the Urban-Texas affiliate network signal space which included the assignment of the Urban-Texas broadcast television station affiliates for 16,000,000 shares of common stock, which became 800,000 shares after the 1 for 20 reverse split in November 2002.

On February 7, 2003, the Company entered into a Stock Exchange Agreement with the majority shareholders of Urban-Texas to acquire approximately 90% of the issued and outstanding capital stock of Urban-Texas (13,248,000 of 14,759,000 shares) in exchange for the Company's issuance of 13,248,000 shares of its authorized but unissued common stock, \$.0001 par value (the "Exchange Shares"), to the majority shareholders of Urban-Texas. The remaining 10% was contributed to the Company in June of 2003.

Urban-Texas is considered the accounting acquirer, and the accompanying financial statements include the operations of Urban-Texas from the earliest period presented. The May 2002 and February 2003 transactions with the Company are presented as a recapitalization of Urban-Texas.

The consideration exchanged in Stock Exchange Agreement was negotiated between the Company and Urban-Texas in a transaction with management. The management of the Company and Urban-Texas, were the same individuals. The transaction did not represent an arms-length transaction.

On October 30, 2003, the Company completed a stock subscription agreement with Wright Entertainment, LLC, a Nevada limited liability company, whose owner and managing director is Lonnie G. Wright, Chairman and Chief Executive Officer of the Company. Wright Entertainment, LLC entered into the stock subscription agreement for Fourteen Million (14,000,000) common shares for Seven Million (\$7,000,000) Dollars or Fifty (\$0.50) Cents per share. The stock sale was structured as an installment stock sale. The terms of the stock sale are as follows: \$500,000 down, the \$6,500,000 balance payable on a promissory note at \$875,000 Dollars quarterly, including 6% interest on the declining balance. A portion (\$200,000) of the \$500,000 down payment was satisfied by one of the Company's lenders forgiving \$198,515 of advances due the lender and \$1,485 of accrued interest on a note payable to the lender. In December 2004, this subscription agreement was terminated by mutual agreement between the Company

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

and Wright Entertainment LLC as well as the termination of 4,000,000 shares that has been issued to Wright Entertainment and were to be vested to Wright Entertainment upon the full payment of the subscription agreement.

On December 13, 2004, we entered into a definitive agreement with World One Media Group, Inc., a Nevada corporation. The definitive agreement called for World One to purchase 70,000,000 restricted common shares for \$7,000,000. The subscription agreement signed on December 23, 2004 set the terms of the installment purchase at \$100,000 being paid on December 23, 2004 and with a promissory note bearing no interest being executed for the remaining \$6,900,000 and being paid at the rate of \$150,000 every 45 days beginning on January 31, 2005 until promissory note has been paid in full. All the shares are pledged as collateral for the promissory note and will be physically held by the Company. Additionally, World One will be issued warrants for 30,000,000 (reduced by mutual agreement from the original 80,000,000 warrants) shares of common stock that can be exercised for \$.01 per share at any time after the Company's stock price has maintained a \$10 bid price for 20 consecutive trading days. The total warrants exercisable will be subject the available authorized and unissued shares of the Company at the time of exercise. See Note 13 - Subsequent Events to the financial statements for discussion of change in ownership.

As part of the definitive agreement, Wright Entertainment LLC which had previously entered into a stock subscription agreement for 14,000,000 shares agreed to the termination and cancellation of that agreement by the Company and further agreed to the termination and cancellation of 4,000,000 shares that had been issued in Wright Entertainment LLC's name and were to be vested when Wright Entertainment LLC completed the payment for its subscription agreement. The definitive agreement calls for the Company to pay Wright Entertainment LLC, owned by Lonnie G. Wright, \$300,000 (\$60,000 at the signing and \$15,000 per month for sixteen months beginning January 15, 2005) and issue Wright Entertainment LLC 1,000,000 shares of the Company's restricted common stock.

The Company is engaged in the business of supplying programming to independent broadcast television stations and cable systems. Formerly the Company's business had been the marketing of thermal burner systems that utilize industrial and agricultural waste products as fuel to produce steam, which generates electricity, air-conditioning or heat.

The Company acquired a general market television network affiliate base from Hispanic Television Network, Inc. This television network was rebranded to focus on the minority markets, primarily the African American and Hispanic markets, across the United States. The network presently includes approximately 70 broadcast television station affiliates in various parts of the country.

We are targeting the minority markets, primarily the African American and English speaking Hispanic Markets, because we believe that they present vast marketing opportunities and that are currently under-served by our competition. The African American market, composes approximately 13% of the U.S. population with a spending power in excess of \$500 billion. The Hispanic population is also approximately 13% of the U.S. total with a spending power also in the \$500+ billion range. With few competitors in broadcast television that are exclusively devoted to programming to the minority markets, we feel that there are attractive opportunities to provide a quality broadcasting service to the African American and Hispanic (especially bi-lingual and English speaking Hispanic programming) populations that together make up in excess of 25% of the U.S. population.

On July 10, 2004, the Company received a certificate from Nevada Minority Business Council, an affiliate of the National Minority Supplier Development Council, indicating that the Company qualifies as a Minority Owned and Managed Company, which has met the certification criteria established by the National Minority Supplier Development Council. The certification was renewed for a year

Our financial results depend on a number of factors, including the strength of the national economy and the local economies served by our affiliate stations, total advertising dollars dedicated to the markets served by our affiliate stations, advertising dollars dedicated to the African American and Hispanic consumers in the markets served by our affiliate stations, our affiliate stations' audience ratings, our ability to provide interesting minority focused programming, local market competition from other television stations and other media, and government regulations and policies, such as the multiple ownership rules, the ability of Class A affiliate stations to be considered must carry for cable systems to increase their distribution and the deadlines for television stations converting to digital signals.

Management is implementing a revenue generation plan that includes local advertising sales, for company operated stations, securing network advertising at the best available rate, uplinking other parties signals to the satellite, plus implementing a technology plan to assist its affiliates with sale of their local advertising time. Management intends to increase rates as affiliate stations are added to the network. The implementation of this comprehensive plan is expected to have a positive affect upon sales revenues. In addition, the Company has added a focus to secure carriage agreements with cable and digital distribution companies.

Revenues

Our primary source of revenue is the sale of advertising and programming time on our network and local stations. Our revenues are affected primarily by the advertising rates that we are able to charge for national advertising commercials on the Urban TV network and that the television stations we manage on a local basis are able to charge as well as the overall demand for African-American and Hispanic television advertising time. Advertising rates in general are determined primarily by:

- o the markets covered by broadcast television affiliates,
- o the number of competing African-American television stations in the same market as our affiliate stations,
- o the television audience share in the demographic groups targeted by advertisers, and
- o the supply and demand for African-American advertising time.

Seasonal fluctuations are also common to the broadcast industry and are due primarily to fluctuations in advertising expenditures by national and local advertisers. The first calendar quarter typically produces the lowest broadcast revenues for the year because of the normal post-holiday decreases in advertising.

Currently most of our network advertising has been sold to direct response and per inquiry advertisers. Going forward, we plan to deploy a network advertising team consisting of account executives that will solicit advertising directly from national advertisers as well as soliciting advertising from national advertising agencies. Locally managed stations will also have account executives that will solicit local and national advertising directly from advertisers and from advertising agencies in the local markets.

We market our advertising time on the Urban Television network to:

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

- o Advertising agencies and independent advertisers. We market commercial time to advertising agencies and independent advertisers. The monetary value of this time is based upon the estimated size of the viewing audience; the larger the audience, the more we are able to charge for the advertising time.

To measure the size of a viewing audience, networks and stations generally subscribe to nationally recognized rating services, such as Nielsen. We do not currently have the resources to subscribe to the Nielsen service and this hinders our ability to attract the larger advertising clients. Currently, a number of Urban Television's affiliate stations are located in the smaller market areas of the country, which is also not as desirable to the larger advertising clients. Our goal is to enter into affiliate agreements with television stations located in the top demographic market areas (ideally stations that are already on a cable system), which would give us the ability to justify the cost of Nielsen ratings that would in turn justify charging higher rates for our advertising time.

21

- o Affiliate Stations. In exchange for providing programming and advertising time to our affiliate stations, we retain advertising time and gain access to the affiliate stations' markets. In a traditional broadcasting contract, an affiliate station would retain all available advertising time, which it would then sell to outside advertisers, and the network would receive a fee from the affiliate station. However, we believe that with a network such as ours that currently is composed primarily of small independent low power stations that cannot afford a significant affiliation fee, we will have the ability to generate larger revenues over time by taking half of the affiliates advertising time, aggregating a number of the affiliate stations and accumulating a large household coverage base. This household coverage base of over the air broadcast television stations (which a portion will be on local cable in their local markets) can then be used to market the retained commercial time to outside advertisers. Advertising time is generally a component of the programming contract with affiliate stations. As a result, our advertising spots are inserted into the programs that go to the affiliates and we do have to separately market the advertising time to our affiliate stations.
- o Program Owners: In exchange for licensing rights to select programming, the program owner retains half of the available advertising time in each program and we as the network get the other half of the available advertising time in each program. The program owner is then able to sell the advertising time he retains to outside parties. We obtain programming by contracting with program owners at the annual National Association of Television Program Executives convention and by contracting with program owners who during the year are looking for distributions sources. In the future, to acquire certain exclusive, original or first-run usage and licenses for programming, we may be required to incur upfront

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

programming expenses.

Expenses

Our most significant expenses are satellite and uplink transmission costs, master control costs, technology expenses, employee compensation, advertising and promotional expenses, and production and programming expenses. In cases, where we may in the future incur upfront programming expenses to procure exclusive programming usages and licenses, upfront payments will, in most cases, be amortized over the applicable contract term. Until cash flow permits, we do not expect to acquire exclusive programming usages and licenses that require upfront costs. We will maintain tight controls over our operating expenses by contracting master control and centralizing network programming, finance, human resources and management information system functions. Depreciation of fixed assets and amortization of costs associated with the acquisition of additional stations are also significant elements in determining our total expense level.

As a result of attracting key officers and personnel to Urban Television, we may offer stock grants or options as an alternate form of compensation. In the event that the strike price of the stock option is less than the fair market value of the stock on the date of grant, any difference will be amortized as compensation expense over the vesting period of the stock options.

Our monthly operating expense level may vary from month to month due primarily to the timing of significant advertising and promotion expenses. We will incur significant advertising and promotion expenses associated with the growth of Urban Television and with the establishment of our presence in new markets associated with any new station lease or acquisition agreements. Increased advertising revenue associated with these advertising and promotional expenses will typically lag behind the incurrence of these expenses.

Advertising and Program Time Sales

The majority of all revenues generated come from the sale of national advertising spots and program time slots and from advertising spots and program time slots on managed local television stations.

Network Advertising. All operated stations as well as affiliates have a percentage of available commercial time dedicated for "network" sales. The commercials sold on the network are broadcast simultaneously and aired in the affiliate markets that are at that time airing the network's programming.

22

National Spot Advertising. National advertisers have the opportunity to buy "spot" advertising in specific markets. For example, an advertising agency in New York could use spot advertising to purchase commercials in Dallas or Oklahoma City.

Currently the Company generates its Network and National spot advertising sales. The Company's plan is to have the yet to be established sales personnel located in all major markets that have a large concentration of advertising agencies targeting the African-American and English speaking Hispanic markets. The sales of our local spot advertising would then be generated by these local sales staff personnel placed at each of our television stations.

Local Spot Advertising. Advertising agencies and businesses located in specific markets will buy commercial air-time in their respective market. This commercial time will be sold in the market by a local sales force or as a specific buy from a national client. Local spot advertising also includes event marketing. In

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

conjunction with a spot buy, the station incorporates events that may be held on the premise of a business or advertiser for the purpose of driving traffic to that place of business.

Program Time Sales. Also known as long-form programs are sold on the network and on locally managed stations to companies wanting to purchase the television time and air their own programs.

Results of Operations

Urban Television Network Corporation - Historical Results for the three month and nine month periods ended June 30, 2005 and 2004.

REVENUES. Revenues are primarily derived from sales of advertising and programming time. Revenues for the three months and nine months ended June 30, 2005 were \$55,624 and \$225,757 compared to \$71,842 and \$129,009 for the three months and nine month periods ended June 30, 2004. The decrease in revenues of \$16,218 for the three month period ended June 30, 2005 and the increase of \$96,748 for the nine months periods ended June 30, 2005 is primarily attributable to the fluctuations in the sales of program time during these periods. The Company is still in the process of implementing its revenue generation plan that includes focusing on creating advertising and sponsorship opportunities for the Fortune 500 companies that want to target the 80 million consumers that consider themselves "urban", uplinking and providing master control services for other parties wanting to have a satellite signal, plus implementing a technology plan to assist its affiliates with sale of their local advertising time.

The operations are still in the growth stages and the Company is dependent upon working capital derived from management, significant shareholders and private investors to provide sufficient working capital. There is no assurance, however, that the Company will be able to generate the necessary working capital needs from these sources.

OPERATING RESULTS. For the three months ended June 30, 2005 and 2004 the Company had operating cost of \$437,034 and \$360,291, respectively. For the nine months ended June 30, 2005 and 2004, the Company had operating cost of \$1,059,027 and \$988,952, respectively. The major components of cost of operations for the three month and nine month periods ended June 30, 2005 and 2004 were as follows:

	Three months ended		Nine months ended	
	2005	2004	2005	2004
Satellite and uplink services	\$ 80,049	\$ 80,174	\$ 240,267	\$ 266,194
Master control and production	61,660	34,073	181,394	213,329
Affiliate relations	25,853	11,250	41,053	11,250
Programming	139,586	12,600	188,368	49,000

	-----	-----	-----	-----
Total	\$ 437,034	\$ 360,291	\$1,059,027	\$ 988,952

The cost of satellite and uplink services decreased by \$25,927 in the nine months ended June 30, 2005 as compared to 2004 primarily as the result of the Company reducing its facilities costs by moving its master control facilities from the Verestar uplink facilities to its own facilities in Arlington, Texas in April of 2004.

The cost of master control and production decreased by \$31,935 for the nine months ended June 30, 2005 as compared to 2004 primarily as the result reduction in expenses by moving its master control facilities from the Verestar uplink facilities to its own facilities in Arlington, Texas in April of 2004 and moving from a tape based system to a digital system.

The cost of master control and production increased by \$27,587 for the three months ended June 30, 2005 as compared to 2004 primarily due to increased production costs for programming.

Affiliate relations costs increased for the nine months and three months ended June 30, 2005 as compared to 2004 primarily as the result of adding additional personnel to manage the networks television affiliates.

Programming costs increased for the nine months and three months ended March 31, 2005 as compared to 2004 primarily as the result of adding additional personnel to work with program suppliers and develop original programming for the Company.

The costs of operations for stations increased by \$9,184 for nine months ended June 30, 2005 as compared to 2004 primarily as the result of the increased monthly lease costs of the Dallas and Oklahoma City stations.

The costs of operations for stations decreased for three months ended June 30, 2005 as compared to 2004 primarily as the result of the lease agreement for the Oklahoma City station being terminated in April of 2005 by mutual agreement between the station owner and the Company.

The technology expenses decreased by for the nine months and three months ended June 30, 2005 as compared to 2004 due primarily to due the completion of the Conversion from a tape based system to a digital system in 2004.

Administration expenses of \$332,850 for the three months ended June 30, 2005 decreased by \$4,151,204 from the administrative expenses of \$4,484,054 for the three months ended June 30, 2004.

Administration expenses of \$1,966,378 for the nine months ended June 30, 2005 decreased by \$3,052,409 from the administrative expenses of \$5,018,787 for the nine months ended June 30, 2004.

Following is a comparative of the major expense categories for the three and nine months periods ending June 30, 2005 and 2004.

	Three months ended		Nine months ended

	-----	-----	-----	-----

The increase in administration costs for the three and nine months ended June 30, 2005 as compared to the same periods for 2004 is due to the Company adding additional management personnel in the current fiscal year.

Stock based compensation decreased for the three and nine months periods ended June 30, 2005 as compared to the same periods for 2004 primarily due to fewer shares being issued to new management, board members and consultants.

24

The decreases in consulting fees for the three and nine months ended June 30, 2005 as compared to 2004 is due the Company replacing consultants with additional management personnel.

The increases in expenses associated with the Las Vegas office is due to the costs associated with the resignation and termination of the stock subscription agreement by Lonnie G. Wright and Wright Entertainment LLC. These direct expenses were \$447,500 for the nine months ended June 30, 2005. The \$447,500 is made up of \$307,500 in cash and note payable and \$140,000 value assigned to 1,200,000 shares of common stock issued to Wright Entertainment LLC.

The decreases in commissions for the three and nine months ended June 30, 2005 as compared to 2004 is attributed program sales decreasing in the 2005 periods as compared to the same periods ending in 2004.

The decreases in travel and conventions costs for the three and nine months ended June 30, 2005 as compared to 2004 is related to the Company's reduced travel related cost associated with the minority ownership no longer being located in Las Vegas, Nevada.

The increases in legal expenses for the nine months ended June 30, 2005 as compared to the same period for 2004 is attributed to the legal fees associated with the pursuit of sources of capital for the Company and with the continued legal requirements regarding permanent injunction obtained by the Company against Walter E. Morgan, Jr.

The decrease in public relations for the nine months ended June 30, 2005 as compared to the same period for 2004 is due to the \$7,250 cost associated with a media event held in Las Vegas in November of 2004 announcing the new minority ownership position of Wright Entertainment LLC.

The decreases in rent and utilities costs for the three and nine months ended June 30, 2005 as compared to 2004 is related to the Company's reduced rent expense associated with the minority ownership no longer being located in Las Vegas, Nevada.

Internet cost decreased during nine month periods ended June 30, 2005 as compared to the same period for 2004 primarily due to the Company securing its own high speed Internet line at the corporate offices, rather than contracting

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

with an outside provider.

The decrease in supplies - digital operations during the three and nine month periods ended June 30, 2005 as compared to the same periods for 2004 is due to the completing in 2004 its conversion from a tape digital based operations for its program insertions.

The increase in telephone related costs for the three and nine months ended June 30, 2005 as compared to the same periods in 2004 is due primarily to the Company incurring a one time cost of \$14,500 related to the installation of video fiber from the Arlington master control facilities to the Verestar uplink facilities in De Soto, Texas and the monthly cost of the video fiber service.

Operating Results:

The Company had operating losses for the three months ended June 30, 2005 and 2004 of \$738,167 and \$4,795,440, respectively. The decrease in loss of \$4,057,273 from 2005 to 2004 is due primarily to \$4,151,204 decrease in administrative expenses of which \$3,499,250 was attributable to a decrease in stock based compensation and \$578,279 was attributable to a decrease in consulting expenses.

The Company had operating losses for the nine months ended June 30, 2005 and 2004 of \$2,869,430 and \$5,937,427, respectively. The decrease in loss of \$3,067,997 from 2005 to 2004 is due primarily to \$3,052,409 decrease in administrative expenses of which \$2,867,750 was attributable to a decrease in stock based compensation; \$592,471 was attributable to a decrease in consulting expenses along with increases in Las Vegas Office costs of \$453,129 and legal expenses of \$65,884.

EARNINGS PER SHARE OF COMMON STOCK. Income (loss) per common share is calculated in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share." Basic Income (loss) per share is computed by dividing the net income (loss) by the weighted average number of common shares outstanding. Diluted net income (loss) per share is computed similar to basic net income (loss) per share, except that the denominator is increased to include the number of additional common shares that would have outstanding if the potential common

25

shares had been issued and if the additional common shares were dilutive. Stock options and warrants are anti-dilutive, and accordingly, are not included in the calculation of income (loss) per share. The basic and diluted net loss per share of common stock was \$0.01 and \$0.09 for the three months June 30, 2005 and 2004, respectively. The basic and diluted net loss per share of common stock was \$0.03 and \$0.13 for the nine months June 30, 2005 and 2004, respectively.

LIQUIDITY AND CAPITAL RESOURCES

We have financed our operations through a combination of loans from stockholders, proceeds from convertible promissory notes and to a much lesser extent revenues generated from operations. The Company has incurred cumulative losses of \$18,477,873 from the inception of the Company through June 30, 2005.

Current assets at June 30, 2005 were \$15,663 which were exceeded by current liabilities of \$1,594,605 by \$1,578,942. The Company's cash position at June 30, 2005 was \$2,536, a decrease of \$6,459 from the position at September 30, 2004. As discussed below, the Company's ability to continue its growth will require additional funds from various sources. If adequate funds are not available on

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

acceptable terms, our business, results of operations and financial condition could be materially adversely affected. In a worse case scenario, we would have to scale back or cease operations, and we might not be able to remain a viable entity. Accrued compensation is the result of management deferring a portion of their annual compensation until the Company has funds available. Deferred income is the result of the Company receiving full payment for a year contract to air programming, which amount was amortized on a monthly basis as the programming was aired.

Our continued growth, will require additional funds that may come from a variety of sources, including stock subscription agreements, shareholder loans, equity or debt issuances, bank borrowings and capital lease financings. We currently intend to use any funds raised through these sources to fund various aspects of our continued growth, including funding our working capital needs, acquisition of new stations, performing digital upgrades of acquired stations, funding key programming acquisitions, performing station capital upgrades, securing cable connections, funding master control/ network equipment upgrades, making strategic investments.

The Company's licensing agreements with program suppliers are generally for a term of 13 to 52 weeks and are cancelable by either party upon thirty (30) days written notice. These license agreements provide the Company with a source of revenue by the Company's right to insert commercial spots during the programs. The Company's policy is to recognize the revenue associated with these sources of revenue at the time that it inserts the short-form advertising spots or airs the long-form program at the network or local level. As the Company continues to grow, it has been entering into new license agreements to replace existing licenses for programs that do not fit into the Company's business model for a minority focused television network. The cancelable feature of these license agreements could effect the Company's source of revenue generation should a program be cancelled by a licensor and the Company not be able to replace it within the 30 day notice of cancellation period.

We had net losses \$744,165 and \$4,795,440 for the three months ended June 30, 2005 and 2004, respectively and \$2,887,439 and \$5,940,448 for the nine months ended June 30, 2005 and 2004, respectively. We expect these losses to continue as we incur operating expenses in the growth of the Company's television network and its affiliate base and convert them to an African-American format. We currently anticipate that our revenues as well as cash from financings and equity sales will be sufficient to satisfy operating expenses by the end of fiscal 2005, although we can offer no assurance in this regard. We may need to raise additional funds, however. If adequate funds are not available on acceptable terms, our business, results of operations and financial condition could be materially adversely affected.

RISK FACTORS

We are subject to a high degree of risk as we are considered to be in unsound financial condition. The following risks, if any one or more occurs, could materially harm our business, financial condition or future results of operations, and the trading price of our common stock could decline. These risks factors include, but are not limited to, our limited operating history, history of operating losses, the inability to obtain for additional capital, the failure to successfully expand our operations, the competition in the television industry from competitors with substantially greater resources, the legal and

regulatory requirements and uncertainties related to our industry, the inability to enter into strategic partnerships with major advertisers, the loss of key

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

personnel, adverse economic conditions, the control of our common stock by our management, the classification of our common stock as "penny stock," the absence of any right to dividends, the costs associated with the issuance of and the rights granted to additional securities, the unpredictability of the trading of our common stock.

For a more detailed discussion as to the risks related to Urban Television Network Corporation, our industry and our common stock, please see the section entitled, "Management's Discussion and Analysis or Plan of Operation - Risk Factors," in our Annual Report on Form 10-KSB, as filed with the Securities and Exchange Commission on January 13, 2005.

Financing activities for the three months ended June 30, 2005 include:

1) Issuance of common stock in lieu of cash payments totaling \$267,500 For management and consulting services.

2) The Company received \$150,000 cash as payments on the World One Media Group, Inc. (name changed to Dove Media Group, Inc.) subscription agreement as discussed in Footnote 9 to the Financial Statements and in Item 2 of this Quarterly Report

4) The Company received \$100,000 cash as advances from a non-related party that the Company expects to convert to a note payable with a term of at least one year

In addition, common stock may also be issued for conversion or settlement of debt and/or payables for equity, future obligations which may be satisfied by the issuance of common shares, and other transactions and agreements which may in the future result in the issuance of additional common shares. The common shares that the Company may issue in the future could significantly increase the number of shares outstanding and could be extremely dilutive.

Impact of Inflation

Management does not believe that general inflation has had or will have a material effect on operations.

Critical Accounting Policies

The discussion and analysis of the financial condition and results of operations are based on the financial statements, which have been prepared in accordance with generally accepted accounting principles. Note 1 of the Notes describes the significant accounting policies essential to the financial statements. The preparation of these financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ materially from those estimates.

We believe the following to be critical accounting policies and estimates. That is, they are both important to the portrayal of the Company's financial condition and results, and they require significant management judgment and estimates about matters that are inherently uncertain. As a result of inherent uncertainty, there is a likelihood that materially different amounts would be reported under different conditions or using different assumptions. Although we believe that our judgments and estimates are reasonable, appropriate and correct, actual future results may differ materially from our estimates.

Revenue Recognition

The Company's sources of revenues include the sale of short-term national and local spot advertising and long-form program time slots. The Company's policy is to recognize the revenue associated with these sources of revenue at the time

Edgar Filing: URBAN TELEVISION NETWORK CORP - Form 10QSB

that it inserts the short-form advertising spots or airs the long-form program at the network or local level.

Non Goodwill Intangible Assets

Intangible assets other than goodwill consist of network assets acquired by purchase. They are being amortized over their expected lives of 5 years and are reviewed for potential impairment whenever events or circumstances indicate that carrying amounts may not be recoverable. No impairment loss was recognized during the reporting periods. On January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, Goodwill and Intangible Assets. This provides that a recognized intangible shall be amortized over its useful life to the reporting entity unless that life is determined to be indefinite. The amount of an intangible asset to be amortized shall be the amount initially assigned to that asset less any residual value.

Stock Based Compensation

The Company accounts for equity instruments issued to employees for services based on the fair value of the equity instruments issued and accounts for equity instruments issued to other than employees based on the fair value of the consideration received or the fair value of the equity instruments, whichever is more reliably measurable. The determined value is recognized as an expense in the accompanying consolidated statements of operations.

Contingencies

In the normal course of business, the Company is subject to certain claims and legal proceedings. The Company records an accrued liability for these matters when an adverse outcome is probable and the amount of the potential liability is reasonably estimable. The Company does not believe that the resolution of these matters will have a material effect upon its financial condition, results of operations, or cash flows for an interim or annual period.

Item 3. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

Within the 90 days prior to the date of this Quarterly Report for the quarter ended March 31, 2005, we carried out an evaluation, under the supervision and with the participation of our management, including the Company's Chairman and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-4 of the Securities Exchange Act of 1934 (the "Exchange Act"), which disclosure controls and procedures are designed to insure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required

time periods specified by the SEC's rules and forms.

Limitations on the Effectiveness of Controls

Our management does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, but not absolute, assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of a control. The design of a control system is also based upon certain assumptions about the likelihood of future events, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Although unlikely, due to the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Conclusions

Based on this evaluation, our chief executive officer and our president concluded that, subject to the limitations noted above and as of the evaluation date, our disclosure controls and procedures are effective to ensure that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported in such reports within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) Changes in Internal Control.

Subsequent to the date of such evaluation as described in subparagraph (a) above, there were no significant changes in our internal controls or other factors that could significantly affect these controls, including any corrective action with regard to significant deficiencies and material weaknesses.
