NETSMART TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) In the opinion of the Company, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of the Company as of June 30, 2002 and the results of its operations for the six and three months ended June 30, 2002 and 2001 and the changes in cash flows for the six months ended June 30, 2002 and 2001. The results of operations for the periods ended June 30, 2002 are not necessarily indicative of the results to be expected for the full year.

(2) The accounting policies followed by the Company are set forth in Notes 1 and 2 to the Company's consolidated financial statements as filed in its Form 10-K for the year ended December 31, 2001.

(3) Income per share - The following table sets forth the components used in the computation of basic and diluted earnings per share:

	=====	=====	=====

(4) Income Taxes - The provision for income taxes for the period ended June 30, 2002, reflects a deferred tax provision of approximately \$77,000 offset by a reduction in the deferred tax asset valuation allowance of the same amount.

(5) During the quarter ended March 31, 2002, stock options to purchase 5,500 shares were exercised and the Company received gross proceeds of \$9,550. As a result, common stock and additional paid in capital increased by \$55 and \$9,495 respectively.

(6) The Company was a defendant in a previously-reported arbitration proceeding commenced in March 2001 seeking damages of \$635,000 for an alleged breach of a staff augmentation services agreement. This action was settled, and the settlement had no material adverse effect on the results of operations of the Company.

In October 2000, the Company's subsidiary, Creative Socio-Medics, commenced an action against the City of Richmond, in the Supreme Court of the State of New York, County of Suffolk, which action was subsequently removed to the United States District Court for the Eastern District of New York, for failure to pay more than \$1 million pursuant to a contract between the Company and Richmond. Richmond advised the court that it intended to move to dismiss the complaint for lack of personal jurisdiction in New York and improper venue. The parties are currently engaged in discovery on jurisdictional issues. In November 2000,

Richmond filed a complaint in the Circuit Court for the City of Richmond, Richmond, Virginia, alleging, among other things, that the contract with Creative Socio-Medics was procured through fraudulent misrepresentations concerning the nature of the work to be performed and the price for the services and that Creative Socio-Medics failed to perform its obligations under the agreement, seeking damages of \$373,000 and a finding that it owes no additional amounts to Creative Socio-Medics. The parties entered into a stipulation staying the Richmond action until a determination of Richmond's jurisdictional challenges to the New York action. The Company believes it has valid claims against Richmond and intends to vigorously pursue those claims. We also believe that the allegations contained in Richmond's complaint are without merit and we intend to vigorously defend against those claims.

(7) In March 2002 the stockholders approved the Company's 2001 Long Term Incentive plan, covering 180,000 shares of common stock. In March 2002, the Company issued options to its employees to purchase 179,000 shares of common stock at a price of \$2.50 which was the fair market value at the date of grant. In June 2002, the Company issued 13,000 options to employees and a director with exercise prices ranging from \$2.38 to \$2.40. These options were issued from previous Long Term Incentive plans.

(8) The Company currently classifies its operations into two business segments:

Edgar Filing: NETSMART TECHNOLOGIES INC - Form 10-Q

(1) Software and Related Systems and Services and (2) Data Center Services. Software and Related Systems and Services is the design, installation, implementation and maintenance of computer information systems that provide comprehensive healthcare information technology solutions including billing, patient tracking and scheduling for inpatient and outpatient environments, as well as clinical documentation and medical record generation and management. Data Center Services involve Company personnel performing data entry and data processing services for customers. Intersegment sales and sales outside the United States are not material. Information concerning the Company's business segments are as follows:

Six Months Ended June 30, -----	Software and ----- Related Systems ----- and Services -----	Data Center ----- Services -----	Consolidated -----

(9) During the quarter ended June 30, 2002, the Company issued warrants to purchase 200,000 shares in connection with a financial advisory agreement whereby the Company will pay consulting fees in addition to the issuance of warrants. These warrants, which expire over various times ranging from one to two years, were valued at \$.24 per warrant, which represented the costs of the services based upon the contractual agreement. The agreement may be terminated by either party. The warrants have the following exercise price and vesting dates for the number of shares set forth below.

Shares -----	Exercise Price -----	Vesting Date -----
50,000	\$2.70	April 10, 2002
30,000	\$4.00	June 1, 2002

30,000	\$7.00	January 1, 2003
30,000	\$8.00	February 28, 2003

During the quarter ended June 30, 2002, the Company charged to operations \$19,200 as costs related to the April 10 and June 1, 2002 warrants. The Company is scheduled to charge to future operations the amounts of \$7,200 each for the September 2002 through February 2003 warrants.

During the quarter ended June 30, 2002, the Company issued 10,000 options for services rendered. These options were valued at \$.57 per option based upon the Black-Scholes calculation and a charge was made to operations in the amount of \$5,673. These options have an exercise price of \$2.75 per option, which was the market value of the stock at the time of issuance and will expire on April 22, 2003.

In July 2002, the Company extended the expiration date of warrants to purchase 448,535 shares of common stock at \$12.00 per share, from July 31, 2002 to January 31, 2003.

(10) New Accounting Pronouncements - Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets" became effective for the Company during the period ended June 30, 2002. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

SFAS No. 143, "Accounting for Asset Retirement Obligations" became effective for the Company during the period ended June 30, 2002. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" became effective for the Company during the period ended June 30, 2002. The provisions of the interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

On April 30, 2002 the Financial Accounting Standards Board issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections". SFAS No. 145 eliminates the requirement that gains and losses from the extinguishment of debt be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect and eliminates an inconsistency between the accounting for sale-leaseback transactions and certain lease modifications that have economic effects that are similar to sale-leaseback transactions. Generally, SFAS No. 145 is effective for transactions occurring after May 15, 2002. The adoption of this standard is expected to have no impact to the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The most significant portion of our revenue is derived from fixed price software development contracts and licenses. We principally recognize this revenue on the estimated percentage of completion basis. Since the billing schedules under the contracts differ from the recognition of revenue, at the end of any period, these contracts generally result in either costs and estimated profits in excess of billing or billing in excess of cost and estimated profits. This largest

Edgar Filing: NETSMART TECHNOLOGIES INC - Form 10-Q

component of total revenue, which is generated primarily from time spent by our technical personnel, may be adversely affected during the third and fourth quarters of our fiscal year when vacation and holidays occur.

Six months Ended June 30, 2002 and 2001

Our revenue for the six months ended June 30, 2002 (the "June 2002 period") was \$10,277,000, an increase of \$1,038,000, or 11%, from our revenue for the six months ended June 30, 2001, (the "June 2001 period") which was \$9,239,000. The largest component of revenue was turnkey systems labor revenue, which increased by \$164,000 to \$3,549,000 in the June 2002 period, from \$3,385,000 in June 2001 period, reflecting a 5% increase. Revenue from third party hardware and software increased to \$1,378,000 in the June 2002 period, from \$1,353,000 in the June 2001 period, which represents an increase of 2%. Sales of third party hardware and software are made in connection with the sales of turnkey systems. These sales are typically made at lower gross margins than our behavioral health systems and services revenue. The data center (service bureau) revenue increased to \$955,000 in the June 2002 period, from \$934,000 in the June 2001 period, reflecting an increase of 2%. License revenue increased to \$912,000 in the June 2002 period, from \$483,000 in the June 2001 period, reflecting an increase of 89%. License revenue is generated as part of a sale of a behavioral health information system pursuant to a contract or purchase order that includes delivery of the system and maintenance. This increase was partially due to the sale of our licensed programs to an existing customer, which enables the customer to roll out our software within its entire organization. While this is an example of our ability to resell into our existing client base, there are no assurances that we will be able to duplicate these sales with other customers. Maintenance revenue increased to \$3,022,000 in the June 2002 period, from \$2,473,000 in the June 2001 period, reflecting an increase of 22%. As turnkey systems are completed, they are transitioned to the maintenance division. Revenue from the sales of our small turnkey division decreased to \$461,000 in the June 2002 period, from \$612,000 in the June 2001 period, reflecting a decrease of 25%.

Revenue from contracts from government agencies represented 43% of revenue in the June 2002 period and 42% of revenue in the June 2001 period. This reflects a slight increase in new government contracts.

Gross profit increased to \$3,529,000 in June 2002 period from \$3,060,000 in the June 2001 period, reflecting an increase of 15%. Our gross margin percentage increased to 34% in the June 2002 period from 33% in the June 2001 period. This increase was substantially the result of an increase in our license and maintenance revenue mentioned above.

Selling, general and administrative expenses were \$2,485,000 in the June 2002 period, reflecting an increase of 12% from the \$2,219,000 in the June 2001 period. This increase was substantially in the area of general insurance, settlement of certain litigation, increase in the provision for bad debts and investor public relations costs.

We incurred product development expenses of \$684,000 in the June 2002 period, an increase of 7% from the \$641,000 in the June 2001 period. During the June 2002 period, we continued to invest in improved functionality and technology in our products.

Interest expense was \$109,000 in the June 2002 period, an increase of \$48,000, or 79%, from the \$61,000 in the June 2001 period. This increase was substantially the result of interest associated with the \$2,500,000 term loan, which we made in June 2001.

Edgar Filing: NETSMART TECHNOLOGIES INC - Form 10-Q

Interest income of \$20,000, for the June 2002 period is generated from short-term investments made with a substantial portion of the proceeds received from the term loan.

We have a federal net operating loss tax carry forward of approximately \$11 million. In the June 2002 period, a deferred tax provision in the amount of \$77,000 was offset by a reduction in the deferred tax valuation allowance of the same amount. Therefore, in the June 2002 period we provided for taxes in the amount of \$26,000. This provision was based upon certain state taxes. We made a similar provision in the June 2001 period in the amount of \$11,000.

As a result of the foregoing factors, in the June 2002 period, we had a net income of \$246,000, or \$.07 per share basic and \$.06 per share diluted. For the June 2001 period, we had net income of \$134,000, or \$.04 per share basic and diluted.

Three Months Ended June 30, 2002 and 2001

Our revenue for the three months ended June 30, 2002 (the "June 2002 quarter") was \$5,447,000, an increase of \$782,000, or 17%, from our revenue for the three months ended June 30, 2001, (the "June 2001 quarter") which was \$4,665,000. The largest component of revenue was turnkey systems labor revenue, which increased by \$201,000 to \$1,913,000 in the June 2002 quarter, from \$1,712,000 in June 2001 quarter, reflecting a 12% increase. Revenue from third party hardware and software increased to \$886,000 in the June 2002 quarter, from \$581,000 in the June 2001 quarter, which represents an increase of 52%. Sales of third party hardware and software are made in connection with the sales of turnkey systems. These sales are typically made at lower gross margins than our behavioral health systems and services revenue. The data center (service bureau) revenue increased to \$486,000 in the June 2002 quarter, from \$468,000 in the June 2001 quarter, reflecting an increase of 4%. License revenue increased to \$378,000 in the June 2002 quarter, from \$212,000 in the June 2001 quarter, reflecting an increase of 78%. License revenue is generated as part of a sale of a behavioral health information system pursuant to a contract or purchase order that includes delivery of the system and maintenance. Maintenance revenue increased to \$1,514,000 in the June 2002 quarter, from \$1,429,000 in the June 2001 quarter, reflecting an increase of 6%. As turnkey systems are completed, they are transitioned to the maintenance division. Revenue from the sales of our small turnkey division increased to \$271,000 in the June 2002 quarter, from \$262,000 in the June 2001 quarter, reflecting an increase of 3%.

Revenue from contracts from government agencies represented 44% of revenue in the June 2002 quarter and 40% of revenue in the June 2001 quarter. This increase reflects a slight amplification in new government contracts.

Gross profit increased to \$1,843,000 in June 2002 quarter from \$1,577,000 in the June 2001 quarter, reflecting an increase of 17%. Our gross margin percentage remained constant at 34%.

Selling, general and administrative expenses were \$1,281,000 in the June 2002 quarter, reflecting an increase of 15% from the \$1,114,000 in the June 2001 quarter. This increase was substantially in the area of general insurance, settlement of certain litigation and an increase in the provision for bad debts.

We incurred product development expenses of \$356,000 in the June 2002 quarter, which represented no change from the \$356,000 in the June 2001 quarter. During the June 2002 quarter, we continued to invest in improved functionality and technology in our products.

Interest expense was \$57,000 in the June 2002 quarter, an increase of \$19,000,

or 50%, from the \$38,000 in the June 2001 quarter. This increase was substantially the result of interest associated with the \$2,500,000 term loan, which we made in June 2001.

Interest income of \$11,000, for the June 2002 quarter is generated from short-term investments made with a substantial portion of the proceeds received from the term loan arrangement.

We have a federal net operating loss tax carry forward of approximately \$11 million. In the June 2002 quarter, a deferred tax provision in the amount of \$43,000 was offset by a reduction in the deferred tax valuation allowance of the same amount. Therefore, in the June 2002 quarter we provided for taxes in the amount of \$18,000. This provision was based upon certain state taxes. We made a similar provision in the June 2001 quarter in the amount of \$5,800.

As a result of the foregoing factors, in the June 2002 quarter, we had a net income of \$143,000, or \$.04 per share basic and diluted. For the June 2001 quarter, we had net income of \$70,000, or \$.02 per share basic and diluted.

Liquidity and Capital Resources

We had working capital of \$8.3 million at June 30, 2002 as compared to working capital of \$7.9 million at December 31, 2001. The increase in working capital for June 2002 period was substantially the result of our net income after adding back depreciation and amortization and partially offset by the acquisition of equipment and principal payments of the term loan.

In June 2001, we entered into a financing arrangement with Fleet Bank. This financing provides us with a five-year term loan of \$2.5 million, as well as a two year \$1.5 million revolving line of credit. The term loan bears interest at a fixed rate of 7.95% per annum and the revolving line of credit is priced at the prime rate. Under our revolving line of credit, we can borrow up to 75% of eligible receivables up to a maximum of \$1.5 million. The maximum available to us at June 30, 2002 under the borrowing base formula was \$1.5 million. The proceeds of the term loan are intended to be used for acquisitions as well as for product modifications specific to California requirements. The revolving line of credit will be utilized for general working capital needs. We have not used the revolving line of credit from inception through June 30, 2002. We have made principal payments on the \$2.5 million term loan and the amount outstanding at June 30, 2002 is \$2,000,000.

Based on our outstanding contracts and our continuing business, we believe that our cash flow from operations, the availability under our financing agreement and our cash on hand will be sufficient to enable us to continue to operate without additional funding. It is possible that we may need additional funding if our business does not develop as we anticipate or if our expenses, including our software development costs relating to our expansion of our product line and our marketing costs for seeking to expand the market for our products and services to include smaller clinics and facilities and sole group practitioners, exceed our expectation.

A part of our growth strategy is to acquire other businesses that are related to our current business. Such acquisitions may be made with cash or our securities or a combination of cash and securities. If we fail to make any acquisitions our future growth may be limited to only internal growth. As of the date of this Form 10-Q quarterly report, we did not have any agreements or understandings with respect to any acquisitions, and we cannot give any assurance that we will be able to complete any acquisitions.

Forward-Looking Statements

Edgar Filing: NETSMART TECHNOLOGIES INC - Form 10-Q

Statements in this Form 10-Q quarterly report may be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may, and probably will, differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those described above and those risks discussed from time to time in this Form 10-Q quarterly report, and in other documents which we file with the Securities and Exchange Commission. In addition, such statements could be affected by risks and uncertainties related to product demand, market and customer acceptance, competition, government regulations and requirements, pricing and development difficulties, as well as general industry and market conditions and growth rates, and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this Form 10-Q.

Part II

Item 1. Legal Proceedings

The previously reported arbitration proceeding commenced in March 2001 by PriceWaterhouse Coopers LLP, seeking damages of \$635,000 for an alleged breach of staff augmentation services agreement has been settled for a modest payment by us. The settlement did not have a material effect on our financial position or the results of our operations.
