Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires the Company's directors, executive officers and persons who beneficially own more than 10% of the Company's common stock to file with the SEC and the Nasdaq Stock Market reports of ownership and reports of changes in ownership of common stock and other equity securities of the Company and to furnish the Company with copies of all such reports they file. To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company, or written representations that no other reports were required to be filed by those persons, the Company believes that, during the fiscal year ended December 31, 2011, each of the Company's officers, directors and greater than 10% stockholders complied with all applicable Section 16(a) filing requirements.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company maintains policies that relate to the identification, review and approval of related party transactions. As part of a review of possible related person transactions, the Company annually distributes and collects questionnaires that solicit information about any direct or indirect transactions with the Company from each of our directors and officers.

Our Standards of Business Conduct require all directors, officers and employees to avoid any situation that involves an actual or apparent conflict of interest in personal and professional relationships or with their duty to, or with any interest of, the Company. Under the Standards of Business Conduct, situations that involve, or may reasonably be inferred to involve, a conflict between a director, officer or employee's personal interests and the interests of the Company should be disclosed to the Chair of the Audit Committee. The Audit Committee is then responsible for reviewing the related party transaction. No related party transaction shall be approved or ratified if such transaction is contrary to the best interests of the Company. In determining whether to approve or ratify a related party transaction, the Audit Committee takes into account such factors as it deems appropriate, which may include whether the interested transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction.

From January 1, 2011 to the date of this proxy statement, there have not been any transactions subject to the Company's related party transaction policy or of the type described in Item 404 of Regulation S-K, and currently no such transactions are proposed.

CORPORATE GOVERNANCE

The Company strives to maintain corporate governance practices that benefit the long-term interests of the Company's stockholders by clearly outlining the Company's duties and responsibilities, providing a framework for active and fruitful discussions among the members of the Board of Directors and between the Board and management, and avoiding conflicts of interest and other legal and ethical problems. Accordingly, the Company's corporate governance practices are designed not only to satisfy regulatory requirements, but also to provide for effective management of the Company.

Information on the Company's corporate governance practices is available to the public under "Corporate Governance" on the Company's website at www.transact-tech.com. The information on the website includes the Company's Corporate Governance Principles, the charters of each of the Company's Committees, and the Company's Standards of Business Conduct, which includes a code of ethics applicable to the officers responsible for financial reporting, the Chief Executive Officer, Chief Financial Officer and Corporate Controller. None of the directors attended the Company's 2011 Annual Meeting. Each director attended 100% of the quarterly Board meetings. Additionally, each Director attended 100% of the supplemental Board Meetings with the exception of Mr. Schwarz and Mr. Dill who each missed one such meeting. Each Director attended 100% of the applicable Committee meetings.

Board Leadership Structure

At present, the Board has chosen to combine the positions of Chief Executive Officer and Chairman of the Board. The Board believes it is important to retain the organizational flexibility to determine whether the roles of Chairman of the Board and Chief Executive Officer should be separated or combined in one individual. While there may be circumstances in which an independent Chairman is appropriate, the Board currently believes that the Chief Executive Officer is the individual with the necessary experience, commitment and support of the other Board members to effectively carry out the role of Chairman.

The Board believes this structure promotes better alignment of strategic development and execution, more effective implementation of strategic initiatives, and clearer accountability for their success or failure. Moreover, the Board believes that combining the Chairman and Chief Executive Officer positions does not impede independent oversight. All of the members of the Board are independent under The Nasdaq Global Market rules except for the Chairman and Chief Executive Officer.

Board's Role in Risk Oversight

Senior management is responsible for assessing and managing the various exposures to risk on a day-to-day basis, including the creation of appropriate risk management policies and programs. The Company has a strong internal control environment to identify and manage risks. These include Standards of Business Conduct, quarterly internal management disclosure committee meetings, robust product quality standards and processes, and a comprehensive internal and external audit process. Management communicates routinely with the Board, Board Committees and individual Directors on the significant risks identified and how they are being managed. The Board of Directors is responsible for overseeing management in the execution of its responsibilities and for assessing the overall approach to risk management. The Board of Directors exercises these responsibilities periodically as part of its meetings and also through its four committees, each of which examines various components of enterprise risk as part of its responsibilities. The Compensation and Corporate Governance Committee is responsible for overseeing the management of risks relating to our executive compensation plans and arrangements. The Audit Committee oversees management of financial risks, as well as our policies with respect to risk assessment and risk management. The Nominating Committee manages risks associated with board independence and potential conflicts of interest. In addition, an overall review of risk is inherent in the Board's consideration of our long-term strategies and in the transactions and other matters presented to the Board, including capital expenditures, acquisitions and divestitures, and financial matters. The Board of Director's role in risk oversight is consistent with our leadership structure, with the Chief Executive Officer, President and other members of senior management having responsibility for assessing and managing our risk exposure, and the Board and its committees providing oversight in connection with these efforts.

Board Size

The Corporate Governance Principles provide that the Board should generally have between four and ten members. In establishing the appropriate number of directors, the Board along with the Compensation and Corporate Governance Committee consider (i) resignations and retirements from the current Board, (ii) the availability of appropriate, qualified candidates, and (iii) the goal of assuring that the Board is small enough to facilitate active discussions and decision-making while, at the same time, is large enough to provide an appropriate mix of continuity, experience, skills and diversity so that the Board and its Committees can effectively perform their responsibilities.

Criteria for Membership on the Board

The Board and its Nominating Committee consider a number of different factors in selecting nominees for director. Some of these factors, such as integrity, are applied uniformly to all prospective candidates. Others, such as specific industry experience, may be adopted on a case-by-case basis by the Board and the Nominating Committee based on the Company's business needs at the time a nomination is under consideration. The Nominating Committee and the Board of Directors apply the same criteria to each candidate for the Board, regardless of whether the candidate is proposed by a stockholder or some other source. On June 6, 2011, the Nominating Committee appointed John M. Dillon to the Board of Directors for a one year term through the 2012 Annual Meeting. Specific criteria considered by the Nominating Committee and the Board include:

Independence. The Board of Directors, in its Corporate Governance Principles and Committee charters, has established a policy that a substantial majority of the directors be "independent" members of the Board. The Nominating Committee and the Board consider the independence of each prospective director before election and further consider the independence of all continuing directors on at least an annual basis. The Board has determined that Messrs. Dill, Dillon, Schwarz and Tanaka are independent in accordance with the Company's criteria and Mr. Shuldman, the Company's Chief Executive Officer, is not independent. The Board applies the following criteria in determining independence, which criteria are derived from Nasdaq's listing standards as well as certain additional requirements that are imposed on certain Committee members under the rules and regulations of the Securities and Exchange Commission (the "SEC") and the Internal Revenue Service (the "IRS"):

Independent Judgment. The director must not have any relationship with the Company that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making this determination, the Board considers all relevant facts and circumstances, including commercial, charitable and familial relationships that might have an impact on the director's judgment.

Employment. The director must not have been an employee of the Company or any parent or subsidiary of the Company at any time during the past three years. In addition, a member of the director's immediate family (including the director's spouse, parents, stepparents, children, stepchildren, siblings, mother-in-law, father-in-law, brother-in-law, sister-in-law, son-in-law, daughter-in-law and anyone who resides in the director's home other than a tenant or employee) must not have been an executive officer of the Company during the past three years.

Other Payments. Neither the director nor a member of his or her immediate family member may have received compensation of more than \$100,000 per year from the Company during any period of twelve consecutive months during the past three years, except for director fees, payments arising solely from investments in the Company's securities, benefits under certain Company plans and non-discretionary compensation, certain permitted loans and compensation paid to a family member who is not an executive officer of the Company.

Auditor Affiliation. Neither the director nor a member of his or her immediate family may be a current partner of the Company's independent auditors or have been a partner or employee of the Company's independent auditors who worked on the Company's audit at any time during the past three years.

Interlocking Directorships. Neither the director nor any member of his or her immediate family may be employed as an executive officer by another entity where, at any time during the past three years, any of the Company's executive officers served on the compensation committee.

Transactions. Neither the director nor any member of his or her immediate family may be a partner in, or a controlling stockholder or executive officer of, any organization that, during the current or any one of the past three years, received payments from the Company, or made payments to the Company, for property or services that exceed the greater of \$200,000 or 5% of the recipient's annual consolidated gross revenues for such year (excluding payments arising solely from investments in the Company's securities or paid under a non-discretionary charitable matching program).

Additional Standards for Audit Committee Members. Any director who serves on the Board's Audit Committee may not, directly or indirectly, have received any consulting, advisory or other compensatory fee from the Company (other than certain retirement benefits and deferred compensation) or be an affiliate of the Company (except as a director, but including by way of stock ownership). In addition, no such director may have participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years.

Overall Board Composition. The Board of Directors believes it is important to consider the professional skills and background, experience in relevant industries, age and diversity of its directors in light of the Company's current and future business needs.

Personal Qualities. Each director must possess certain personal qualities, including integrity, judgment and business acumen. In addition, each director must be no older than 75 years of age at the time of nomination or re-nomination.

Diversity. The Board has not adopted a formal policy with respect to its consideration of diversity and does not follow any ratio or formula to determine the appropriate mix; rather, it uses its judgment to identify nominees whose backgrounds, attributes and experiences, taken as a whole, will contribute to the high standards of board service.

Commitments. Each director must have the time and ability to make a constructive contribution to the Board. While the Board does not believe it is appropriate to establish a single standard regarding the number of other boards on which a director may sit, this is a factor that may be considered in reviewing a candidate's suitability.

Additional Criteria for Incumbent Directors. During their terms, all incumbent directors on the Company's Board are expected to attend Board and Committee meetings regularly; to stay informed about the Company and its business; to participate in discussions of the Board and its Committees; to take an interest in the Company's business and provide advice and counsel to the Company's Chief Executive Officer; and to comply with the Company's Corporate Governance Principles and other applicable policies.

Regulatory Requirements. The Board must have directors who meet the criteria established from time to time by The Nasdaq Global Market, the SEC, the IRS and other applicable regulatory entities for service on the Board and its Committees.

Director Nomination Process

Under its charter, the Nominating Committee is responsible for identifying, reviewing and recommending individuals to the Board for nomination or election as directors. This typically involves the following steps:

Specific Criteria. The Nominating Committee and the Board review the overall composition of the Board in light of the Company's current and expected business needs and, as a result of such assessments, may establish specific qualifications that the Committee will seek in Board candidates.

Identifying New Candidates. The Nominating Committee may seek to identify new candidates for the Board (i) who possess the desired qualifications and (ii) who satisfy the other requirements for Board service. In identifying new director candidates, the Committee may seek advice and names of candidates from Committee members, other members of the Board, members of management, and other public and private sources. The Committee may also, but need not, retain a search firm in order to assist in these efforts.

Reviewing New Candidates. The Nominating Committee reviews the potential new director candidates identified through this process. This involves reviewing the candidates' qualifications and conducting an appropriate background investigation. The Committee may also select certain candidates to be interviewed by one or more Committee members.

Reviewing Incumbent Candidates. On an annual basis, the Nominating Committee also reviews incumbent candidates for re-nomination to the Board. This review involves an analysis of the criteria described above that apply to incumbent directors.

Recommending Candidates. The Nominating Committee recommends a slate of candidates for the Board of Directors to submit for approval to the stockholders at the Annual Meeting. This slate of candidates may include both incumbent directors and new nominees. In addition, apart from this annual process, the Committee may, in accordance with the Corporate Governance Principles, recommend that the Board elect new members of the Board who will serve until the next annual meeting of stockholders. At the time of making any recommendation to the Board, the Committee reports on the criteria that were applied in making the recommendation and its findings concerning each candidate's qualifications.

Stockholder Nominations Submitted to the Committee. Stockholders may also submit names of director candidates, including their own, to the Nominating Committee for its consideration. The process for stockholders to use in submitting suggestions to the Nominating Committee is set forth below at "Procedures for Submitting Director Nominations and Recommendations." Candidates who are nominated for the Board of Directors by stockholders are evaluated in the same manner as recommendations received from other sources.

Board Meetings and Executive Sessions

The Board of Directors holds regular quarterly meetings, as well as periodic special meetings. In 2011, the Board of Directors held seven meetings.

Independent directors meet by themselves in executive sessions, without management or employee directors present, at most regularly scheduled Board meetings. In addition, independent directors may convene additional executive sessions at any time.

The executive sessions are led by the Chair of the committee that is responsible for the subject matter at issue (e.g., the Audit Committee Chair would lead a discussion of audit-related matters). When it is not clear which committee

has specific responsibility for the subject matter, the Chair of the Compensation and Corporate Governance Committee presides.

Committees of the Board

The Board has four standing committees: the Audit Committee, the Compensation and Corporate Governance Committee, the Nominating Committee and the Executive Committee.

Each Committee is composed entirely of independent directors and operates under a written charter. The Chair of each Committee is selected by the Board. Each Committee, except the Executive Committee, holds regular executive sessions at which only Committee members are present. Each Committee is authorized to retain its own outside counsel and other advisors as it desires.

Charters for the Audit Committee, the Compensation and Corporate Governance Committee, and the Nominating Committee are available on the Company's website, www.transact-tech.com, but a brief summary of the committees' responsibilities follows:

Audit Committee. The Audit Committee is responsible for assisting the Board in fulfilling its responsibilities to oversee the quality and integrity of the Company's financial statements and accounting practices, the Company's compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications and independence, and the performance of the Company's independent registered public accounting firm and internal audit function. It is comprised of Messrs. Charles A. Dill, John M. Dillon, Thomas R. Schwarz and Graham Y. Tanaka, with Mr. Dill serving as Chair. The Board has determined that each member of the Audit Committee is an independent director and meets the financial literacy requirements of The Nasdaq Global Market to serve on the Committee. In addition, the Board has determined that Mr. Dill is an "audit committee financial expert" as defined under the rules of the Securities and Exchange Commission. The Audit Committee operates under a written charter, which was revised in March 2004 and is posted on the Company's website. The Audit Committee met four times during 2011.

Nominating Committee. The Nominating Committee is responsible for assisting the Board in carrying out its responsibilities relating to the composition of the Board, including identifying, reviewing and recommending candidates to the Board for nomination as directors. It is comprised of Messrs. Charles A. Dill, John M. Dillon, Thomas R. Schwarz and Graham Y. Tanaka, with Mr. Tanaka serving as Chair. The Nominating Committee operates under a written charter, which was adopted in March 2004 and is posted on the Company's website. The Nominating Committee met two times during 2011.

Compensation and Corporate Governance Committee. The Compensation and Corporate Governance Committee provides oversight for the hiring and termination of all executive officers of the Company, the Company's corporate governance practices, CEO performance review and succession planning, director compensation, Board and Committee performance evaluation, stockholder communication matters, the design and management of the executive compensation programs, and the philosophy and programs for all employee compensation and benefit programs worldwide. The Committee is responsible for determining the compensation (including salary, bonus, equity-based grants, and any other long-term cash compensation) for the Company's Chief Executive Officer and for other senior executives as are subject to the Committee's direct purview. The Committee is comprised of Messrs. Charles A. Dill, John M. Dillon, Thomas R. Schwarz and Graham Y. Tanaka, with Mr. Schwarz serving as Chair. The Compensation and Corporate Governance Committee operates under a written charter, which was adopted in March 2004 and is posted on the Company's website. The Compensation and Corporate Governance Committee met once during 2011.

Executive Committee. The Executive Committee meets between scheduled meetings of the Board of Directors and has the power and authority of the Board, except as limited by the Company's By-Laws. It is comprised of Messrs. Charles A. Dill, John M. Dillon, Thomas R. Schwarz and Graham Y. Tanaka. The Executive Committee did not meet during 2011.

Standards of Business Conduct

In order to help assure the highest levels of business ethics at the Company, the Board of Directors has approved and the Company has adopted Standards of Business Conduct (the "Standards"), which apply to the Company's directors, officers and employees. The Standards provide an overview of the Company's policies related to employee conduct in the workplace, regulatory compliance and investigations; the Company's relationships with its customers, vendors, competitors and the public; insider trading; conflicts of interest; lobbying; political activities and contributions; accuracy of books, records and financial statements; confidentiality; and the protection of all who come forward to report suspected violations of the Standards. In addition, the Standards act as a code of ethics promoting honest and ethical conduct on the part of the Company's officers who are responsible for financial reporting, including the Chief Executive Officer, Chief Financial Officer and Controller. The Standards mandate that these officers avoid conflicts of interest and disclose any relationship that could give rise to a conflict, protect the confidentiality of non-public information about the Company, work to achieve responsible use of the Company's assets and resources, comply with

all applicable governmental rules and regulations, and promptly report any possible violation of the Standards. The Standards require these individuals to promote full, fair, understandable and accurate disclosure in the Company's publicly filed reports and other public communications. It sets forth standards for accounting practices and maintenance of records. Individuals who fail to observe the terms of the Standards may face disciplinary action, including possible employment termination.

The Audit Committee has selected PricewaterhouseCoopers LLP as the independent registered public accounting firm to audit the financial statements of the Company for the 2012 fiscal year. This selection is being presented to the stockholders for ratification at the Annual Meeting. PricewaterhouseCoopers LLP has audited the Company's financial statements since the Company's formation in 1996. In the event stockholders do not ratify the appointment, the Audit Committee will reconsider the appointment.

A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting, will have the opportunity to make a statement, and is expected to be available to respond to appropriate questions.

VOTE REQUIRED

The ratification of the selection of PricewaterhouseCoopers LLP as independent registered public accounting firm for 2012 requires the affirmative vote of a majority of the Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting. Abstentions by holders of such shares with respect to voting on this matter will have the effect of a negative vote.

THE BOARD OF DIRECTORS OF THE COMPANY RECOMMENDS A VOTE "FOR" RATIFICATION OF THE SELECTION OF PRICEWATERHOUSECOOPERS LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2012.

POLICY REGARDING PRE-APPROVAL OF SERVICES PROVIDED BY THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has established a policy requiring its pre-approval of all audit services and permissible non-audit services provided by the independent registered public accounting firm, along with the associated fees for those services (the "Policy"). The Policy provides for the annual pre-approval of specific types of services pursuant to policies and procedures adopted by the Audit Committee, and gives detailed guidance to management as to the specific services that are eligible for such annual pre-approval. The Policy requires the specific pre-approval of all other permitted services. For both types of pre-approval, the Audit Committee considers whether the provision of a non-audit service is consistent with the Securities and Exchange Commission's rules on auditor independence, including whether provision of the service (i) would create a mutual or conflicting interest between the independent registered public accounting firm and the Company, (ii) would place the independent registered public accounting

firm in the position of auditing its own work, (iii) would result in the independent registered public accounting firm acting in the role of management or as an employee of the Company, or (iv) would place the independent registered public accounting firm in a position of acting as an advocate for the Company. In addition, the Audit Committee considers whether the independent registered public accounting firm is best positioned and qualified to provide the most effective and efficient service, based on factors such as the independent registered public accounting firm's familiarity with the Company's business, personnel, systems or risk profile and whether provision of the service by the independent registered public accounting firm would enhance the Company's ability to manage or control risk or improve audit quality or would otherwise be beneficial to the Company.

The Audit Committee may delegate to one of its members the authority to address certain requests for pre-approval of services between meetings of the Committee, and such Committee member is required to report his or her pre-approval decisions to the Committee at its next regular meeting. The Policy is designed to ensure that there is no delegation by the Audit Committee of authority or responsibility for pre-approval decisions to management of the Company. The Audit Committee monitors compliance by management with the pre-approval policy by requiring management, pursuant to the Policy, to report to the Audit Committee on a regular basis regarding the pre-approved services rendered by the independent registered public accounting firm.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM'S SERVICES AND FEES

The Audit Committee is responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm. Accordingly, the Audit Committee has appointed PricewaterhouseCoopers LLP to perform audit and other services for the Company. In addition, the Audit Committee has procedures in place for the pre-approval by the Audit Committee of all services provided by PricewaterhouseCoopers LLP. These pre-approval procedures, as amended, are described above under "Policy Regarding Pre-Approval of Services Provided by the Independent Registered Public Accounting Firm."

The aggregate fees billed by PricewaterhouseCoopers LLP to the Company for the years ended December 31, 2011 and 2010 are as follows:

	2011	2010
Audit Fees (1)	\$450,071	\$362,050
Audit-Related Fees (2)	15,000	23,000
Tax Fees (3)	3,848	3,585
All Other Fees (4)	1,818	1,818
Total Fees for Services Provided	\$470,737	\$390,453

(1) Audit Fees consist of fees related to: (i) the annual audit of the Company's financial statements (2011 was an integrated audit which included testing the effectiveness of the Company's internal control over financial reporting, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), while this testing was not required in the 2010 audit), (ii) reviews of the Company's quarterly financial statements, (iii) statutorily required audits for the Company's UK subsidiary and (iv) the review of registration statements, periodic reports and other reports filed with the SEC.

(2) Audit-Related Fees consist of fees incurred for consultations regarding accounting and financial reporting standards.

(3) Tax Fees consist of fees for the preparation of tax returns for our UK subsidiary.

(4) All Other Fees include software license fees for the use of a web-based accounting research tool.

The Audit Committee has considered whether the provision of the above services, other than Audit Fees, is compatible with maintaining the auditors' independence and has determined that, in its opinion, they are compatible. All of the above services during the year ended December 31, 2011, other than those covered by Audit Fees, were either approved by the Audit Committee or were performed pursuant to pre-approval policies and procedures.

AUDIT COMMITTEE REPORT

Under its charter, the Audit Committee is responsible for assisting the Board in fulfilling its responsibilities to oversee the internal control over financial reporting and quality and integrity of the Company's financial statements and accounting practices, the Company's compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications and independence, and the performance of the Company's independent registered public accounting firm and internal audit function.

Management is responsible for preparing complete and accurate consolidated financial statements in accordance with generally accepted accounting principles. The independent registered public accounting firm is responsible for performing independent audits of the Company's consolidated financial statements and for issuing reports about those financial statements. The Audit Committee meets with the independent registered public accounting firm, the Chief Executive Officer, the Chief Financial Officer and the Corporate Controller of the Company to review the scope and the results of the annual audit, the amount of audit fees, the Company's system of internal accounting controls over financial reporting, the financial statements contained in the Company's Annual Report to Stockholders and other related matters. Separate meetings are held with the independent registered public accounting firm and management.

In connection with its duties, the Audit Committee has taken the following actions:

It has reviewed and discussed the audited financial statements, as well as the assessment of internal controls over financial reporting, with management.

It has discussed with the independent registered public accounting firm, which is responsible for expressing an opinion on the financial statements in accordance with generally accepted accounting principles, the matters required to be discussed by the statement on Auditing Standards No. 61, "Communication with Audit Committees," as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

It has received from the independent registered public accounting firm the written disclosures describing any relationships between the independent registered public accounting firm and the Company and the letter confirming their independence required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and has discussed with the independent registered public accounting firm matters relating to their independence.

Based on its review and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements of the Company for the year ended December 31, 2011 be included in the Company's Annual Report on Form 10-K for filing with the SEC.

EXECUTIVE COMPENSATION COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis describes the philosophy, approach, and elements used by us and the Compensation and Corporate Governance Committee (the "Compensation Committee") of our Board of Directors, which is composed entirely of independent directors of the Company, to define, manage, and review the compensation paid to our executives. Our philosophy and approach to executive compensation apply to all executive officers of the Company, including those executives designated as Named Executive Officers ("NEO's").

Philosophy and Objectives of the Compensation Program

Our Compensation Committee's philosophy is that our executive compensation program is to be based on our performance and be competitive with other similarly-sized companies in similar industries. The primary objectives of our compensation program are to:

- Attract, engage, retain, and reward executive officers;
 - Motivate employees and encourage individual initiative and effort;
 - Help to achieve key business objectives and attain Company goals; and
- Align executives' interests closely with those of the Company and its stockholders to drive long term sustainable earnings growth.

Our executive compensation program principally includes base salary, an incentive cash performance bonus program and equity incentive awards. The Compensation Committee believes that each element of the total compensation program helps to ensure that the efforts of our executive officers support the creation of stockholder value, whether through focusing on short-term and long-term performance goals, promoting an ownership mentality or linking individual performance to the Company's overall performance. The Committee retains its discretion to modify the compensation program elements in response to the needs of the Company. Except as otherwise prohibited by law or the Company's organizational documents, the Compensation Committee may delegate any or all of its responsibilities to a subcommittee of the Compensation Committee.

The elements of our executive compensation program are periodically analyzed using current publicly available market data, contemporary market trends in the industries in which the Company operates and periodic reviews of compensation and benefit surveys. Although we perform periodic reviews of salary surveys and occasionally use compensation consultants to analyze elements of our compensation program, we do not believe that it is appropriate to establish compensation levels based solely on the use of such surveys.

The Compensation Committee reviews Company executive officer compensation and performance data to determine whether the Company's executive compensation program is competitive and reasonable. The Compensation Committee, on occasion, meets with the Chief Executive Officer and Chief Financial Officer to obtain recommendations with respect to the Company's compensation programs, practices and packages for the other executive officers, senior managers and other employees. Our Chief Executive Officer and Chief Financial Officer, with the assistance and support of the human resources department, provide recommendations regarding the design of the Company's compensation program to the Compensation Committee. The Compensation Committee considers, but is not bound to accept, management's recommendations with respect to executive compensation.

In May 2009, the Compensation Committee retained Towers Watson, an independent compensation consultant, to assist the Compensation Committee in assessing the competitiveness of the Company's total compensation program for the Company's CEO, CFO and EVP Engineering, with the goal of implementing compensation changes based on Towers Watson's advice and/or recommendations, if any, in 2010. The Compensation Committee directed Towers Watson to collect and analyze compensation data for the Company's CEO, CFO and EVP Engineering and assess their compensation relative to individuals holding similar positions at companies in similar industries and size. Towers Watson provided comparative market-based compensation data for base salaries, annual cash incentive awards and long-term equity awards for the CEO, CFO and EVP Engineering. Towers Watson developed a peer group of companies consisting of U.S.-based information technology companies with revenue, percentage of foreign sales and product diversity generally comparable to the Company's executives (the "Peer Group") mainly from the same Standard Industrial Classification codes. The Peer Group consisted of LTX-Credence Corp.; Spectrum Control, Inc.; Communications Systems, Inc.; Rimage Corp.; Mad Catz Interactive, Inc.; Maxwell Technologies, Inc.; FSI International, Inc.; Perceptron, Inc.; DRI Corporation; Vicon Industries, Inc.; IntriCon Corp.; Optical Cable Corp.; Optelecom-NKF, Inc.; ClearOne Communications, Inc.; and Alliance Fiber Optic Products, Inc. The Peer Group data was based on compensation paid predominantly in 2008.

In addition, Towers Watson examined the Company's executive compensation programs generally to ensure their ongoing support of the Company's business strategy, informed the Compensation Committee of developing legal and regulatory considerations affecting executive compensation and benefit programs, and provided general advice to the Compensation Committee with respect to all compensation decisions pertaining to the CEO, CFO and EVP Engineering. As a result, and at the conclusion of the review process, the Compensation Committee revised the Company's annual incentive bonus program in an effort to further align the Company's CEO and CFO's annual incentive compensation with the goal of building longer-term stockholder value. Based on the recommendation of Towers Watson, the Compensation Committee approved a change to the annual incentive bonus plan so that for Mr. Shuldman and Mr. DeMartino, 30% and 20%, respectively, of the Target Bonus amount earned going forward, be paid in the form of fully vested stock units under the Company's 2005 Equity Incentive Plan, with the number of deferred stock units to be based on the closing price of the Company's common stock on the date the Target Bonus is approved for payment by the Compensation Committee (the "Grant Date"). These stock units are payable three years from the Grant Date in the form of shares of the Company's common stock on a one-for-one basis. This new compensation program was implemented beginning with the 2009 annual incentive bonus plan.

Towers Watson did not advise management of the Company and neither it nor its affiliates received any compensation from the Company for services other than those performed for the Compensation Committee.

Elements of the Company's Compensation Plan

The principal elements of the Company's compensation program are base salary, an incentive cash bonus program and equity incentive awards.

Base Salary: In general, base salaries for employees, including executive officers, are established based on the scope of their responsibilities, individual contribution, prior experience, sustained performance, external market data and anticipated level of difficulty of replacing the employee with someone of comparable experience and skill. Base salary for each executive is reviewed on an annual basis as part of our companywide merit review process. The amount of any merit increase to an executive's base salary is determined based on a combination of the current position of the executive's pay against market data and the executive's performance and results during the past year. Our Chief Executive Officer is responsible for assessing the performance of each executive reporting to him. Our Compensation Committee assesses the performance of our Chief Executive Officer.

Incentive Cash and Deferred Stock Unit Bonus Program: We have historically maintained an incentive cash compensation plan for all executive officers, except for those who receive sales commissions, which provides our executives with the opportunity to receive performance bonuses in the form of cash upon the attainment of certain annual financial objectives, as well as performance and business objectives. The incentive bonus is designed to be a significant portion of executive compensation in order to create and maintain a significant incentive for our executives to achieve or exceed our strategic and annual financial objectives.

To ensure alignment of compensation with our business objectives, our Chief Executive Officer and other executive officers establish specific quantitative and qualitative performance metrics each fiscal year. Our performance metrics (as used for incentive bonus) are reviewed and approved by our Compensation Committee. The metrics are aligned with our strategic and annual business plans and are reviewed by our Board of Directors and Compensation Committee. For 2011, the quantifiable metric of our annual incentive bonus program consisted of a target level of diluted earnings per share of \$0.50, excluding the after-tax effect of external acquisition related expenses (the "EPS Target"). The minimum and maximum diluted earnings per share set forth in the incentive bonus program by our Compensation Committee was \$0.36 and \$0.66, respectively, excluding the after-tax effect of external acquisition related expenses.

Our executive officers, except for those that receive sales commissions, participate in the incentive bonus program. Bonuses are paid under the incentive bonus program only if the Company meets the specified quantifiable performance objectives and/or the

executive meets specified performance and business objectives. The incentive cash bonus that any particular executive is eligible to earn is established as a percentage (the “Target Percentage”) of the individual’s base salary (“Target Bonus”). For 2011, 75% of each executive’s Target Bonus was based on achievement of the EPS Target (the “EPS Bonus Amount”) and 25% was based solely on achievement of performance and business objectives established by the Chief Executive Officer and the Compensation Committee (the “Performance Bonus Amount”). No EPS Bonus Amount is payable unless diluted earnings per share exceeds a specified threshold (\$0.36 for 2011). Above the threshold, the EPS Bonus Amount is adjusted upward on a sliding scale ranging from 5% to 115% of the Target Percentage for 2011.

The Compensation Committee is responsible for determining achievement of performance and business objectives for the CEO. The CEO is responsible for determining achievement of performance and business objectives for each of his direct reports. For other participants, achievement of performance and business objectives will be determined by the President or the appropriate Vice President or manager. Performance objectives include personal goals that support the Company’s overall business objectives as well as other financial and non-financial measurements. For 2011, such objectives consisted of achievement of certain financial and strategic objectives such as completing the development of the EPICENTRAL™ Print System, expanding the Company’s core network of casino and gaming distributors, executing and closing the acquisition of Printrex, Inc., and generating a target level of free cash flow. For 2011, the Performance Bonus Amount ranged from 0% to 25% of the Target Percentage depending on the level of achievement.

In addition, for 2011, to continue the efforts to further align the incentives of the Company’s CEO and CFO with building longer-term stockholder value, the Compensation Committee again required that for Mr. Shuldman and Mr. DeMartino, 30% and 20%, respectively, of the Target Bonus amount earned for 2011 be paid in the form of fully vested stock units under the Company’s 2005 Equity Incentive Plan based on the closing price of the Company’s common stock on the date the Target Bonus is approved for payment by the Compensation Committee (the “Grant Date”). These stock units are payable three years from the Grant Date in the form of shares of the Company’s common stock on a one-for-one basis.

Equity Incentive Awards: The goal of our equity-based incentive awards is to align the interests of our executives with our stockholders and to provide executives with an incentive to manage the Company from the perspective of an owner with an equity stake in the business. We believe that our long-term performance is improved by encouraging ownership by our executives through the use of stock-based grants. Because vesting of our stock awards is based on continued employment, our equity-based incentives also facilitate the retention of executives through the term of the awards. Generally, we believe that stock options are the most effective tool for meeting our compensation goal of increasing long-term stockholder value by tying the value of stock options to our future performance – i.e. executives are able to profit from stock options only if our stock price increases in value over the stock option’s exercise price.

Grants of stock options are approved by the Compensation Committee at its regularly scheduled meeting typically on or about March 1. While the majority of stock option awards to our employees have been made under our annual grant program, the Compensation Committee may make stock option awards to employees at other times, including at the time of hire of an employee, promotion of an employee, to reward an employee, for retention purposes or for other circumstances as recommended by the Chief Executive Officer or the Compensation Committee. In determining the size of the long-term equity incentives to be awarded to employees, we take into consideration a number of factors including but not limited to relative job scope, individual performance level, prior contributions to the Company, the need to retain the employee, the size of prior grants and competitive market data. Based upon these factors, the Compensation Committee determines the size of the equity incentives at levels it considers appropriate to create meaningful opportunity for reward predicated on the creation of long-term stockholder value.

The exercise price of options granted is set at the closing price of our common stock on the date of grant. Grants of options generally vest in equal annual installments over a three- to five-year period and have a ten-year term.

2011 Executive Compensation

The specific compensation decisions made for each of our executive officers for 2011 reflect the performance of the Company against key financial and operational measurements, as well as performance against objectives.

Base Salary: The Company's Vice President, Human Resources and the CEO and CFO review and discuss the NEOs' (other than the CEO, CFO and EVP, Engineering) base salaries. In connection with establishing the NEOs' (other than the CEO, CFO and EVP, Engineering) base salary adjustments, the Company's Vice President, Human Resources provides merit increase percentage guidelines based on market-based compensation data, its knowledge of competitive market practices and the Company's salary budget. The merit increase percentage guidelines (the "Merit Increase Guideline") for the 2011 base salary increases for all NEOs serving at the time were from 0% to 2.9%. After considering the Merit Increase Guideline and evaluating a NEO's performance and the position of his or her current base salary, the CEO, as direct supervisor, makes a specific base salary adjustment recommendation to the Compensation Committee. Each NEO's (other than the CEO, CFO and EVP, Engineering) actual base salary adjustment, if any, is determined by the Compensation Committee.

In determining the base salary of the NEOs, the Compensation Committee evaluated the overall performance of the Company and the individual's contributions to that performance, as well as the performance of the sales unit or function that each leads when relevant. Based on individual considerations with respect to each NEO (other than the CEO, CFO and EVP, Engineering) such as his or her experience and contributions to the Company, and recognizing that the Company must also react to a competitive marketplace on a case-by-case basis when seeking to recruit and retain executives, the Compensation Committee strives to set each NEO's base salary within the Merit Increase Guideline, if warranted.

Following an extensive review and evaluation of executive compensation levels in 2010 based on the results of a compensation study and recommendations provided by an independent compensation consultant, no additional adjustments were considered necessary to executive compensation in 2011 other than the customary annual base salary increases previously discussed.

Incentive Cash and Equity Bonus Program: During 2011, the Company achieved and exceeded by 2% its diluted earnings per share performance objective of \$0.50, excluding the after-tax effect of external acquisition related expenses, as reviewed and approved by the Compensation Committee. Each NEO also achieved all of their performance objectives set for 2011. Therefore, for 2011, the incentive cash and equity bonus payout for all eligible employees based on both financial and performance objectives achievement was approved at 102.5% of the annual target amount. For 2011, Mr. Shuldman, Mr. DeMartino, Mr. Kumpf and Mr. Wyatt were paid an incentive bonus of \$242,897, \$121,082, \$78,327 and \$55,350, respectively. Mr. Wyatt also received an additional cash bonus of \$21,250 during 2011 for achievement of certain objectives related to the Company's EPICENTRAL™ Print System. For 2011, 30% and 20% of Mr. Shuldman's and Mr. DeMartino's incentive bonus was issued in the form of vested deferred stock units. These amounts are shown in the "Summary Compensation Table" below under the columns "Stock Awards" and "Non-Equity Incentive Plan Compensation." These bonuses were calculated as a percentage of each executive's base salary in effect as of March 2011. Mrs. Chernay was not eligible to participate in the incentive bonus program as she earned commissions based on annual sales from her sales units. Mrs. Chernay received a commission, paid monthly, equal to approximately 0.2% of sales achieved in the fiscal year.

Equity Incentive Awards: For 2011, Mr. Shuldman recommended to the Compensation Committee a total equity award dollar value range for each NEO based on factors including the NEO's performance evaluation, his/her overall compensation package and his/her perceived potential and contributions to the Company. After considering Mr. Shuldman's recommendations, the Compensation Committee, with Mr. Shuldman's participation, determined the total equity award dollar value for each NEO other than Mr. Shuldman. The Compensation Committee considered several factors in making its determinations, including Mr. Shuldman's recommendations, the Company's performance, each NEO's position within the Company, his/her perceived potential and contributions to the Company, and the Compensation Committee's subjective understanding of competitive practices in the marketplace with respect to equity awards. The factors used by Mr. Shuldman to determine recommendations regarding total equity award dollar value ranges for each NEO and by the Compensation Committee to establish each NEO's total equity award dollar value were assessed by Mr. Shuldman and the Compensation Committee, respectively, on a subjective basis. In March 2011, the Compensation Committee awarded a grant to Mr. Shuldman, Mr. DeMartino, Mr. Kumpf, Mrs. Chernay and Mr. Wyatt of stock options to purchase 17,500, 17,500, 10,000, 10,000 and 10,000 shares, respectively. The vesting terms of the grant of stock options are outlined in the table entitled "Grants of Plan-Based Awards in 2011." The level of awards granted was consistent with the level of historical grants over the previous five years.

Tax Deductibility of Compensation

Under Section 162(m) of the Internal Revenue Code, publicly held corporations may be prohibited from deducting as an expense for federal income tax purposes total compensation in excess of \$1 million paid to certain executive officers in a single year. Section 162(m) specifically exempts certain performance-based compensation from the

deduction limit. The levels of base salary, annual cash incentive bonus and equity compensation we generally pay to our executive officers do not exceed this limit, and thus compensation decisions are not driven by the requirements of Section 162(m).

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its review and discussions with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in TransAct's proxy statement for the 2012 annual meeting.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The Company has entered into certain agreements and maintains certain plans that may require payments be made, and/or benefits be provided, to the NEOs: (i) in the event a NEO's employment is terminated other than for Cause, as defined below, (a "Termination Event"), (ii) if a change in control (as defined by the applicable agreement or plan) occurs (a "Change in Control Event") or (iii) if a Termination Event occurs or a NEO resigns for certain specified reasons within one year following a change in control (a "Change in Control and Termination Event"). The payments and benefits that each NEO may be entitled to receive upon a Termination Event, Change in Control Event or a Change in Control and Termination Event are described in the applicable employment agreement or severance agreement and the Company's 1996 Stock Plan and 2005 Equity Incentive Plan. None of the agreements for our NEOs include a gross up for any taxes as a result of golden parachute payments. Below is a description of the types of events that would trigger payments under these agreements and plans and the potential payments to each such Named Executive Officer assuming that a triggering event occurred on December 31, 2011, the last day of our most recent fiscal year.

Employment and Severance Agreements

Events That Trigger a Termination Event or Change in Control Event. The applicable employment and severance agreements generally define Cause as a termination for the following reasons: (i) action or inaction by the NEO that

constitutes larceny, fraud, gross negligence, a willful or negligent misrepresentation to the Board or officers of the Company or a commission of a crime of moral turpitude; (ii) material, repetitive, unjustified and unexcused refusal to follow the reasonable and lawful written instruction of the Board—or in the case of the NEOs other than Mr. Shuldman, the Board or the Company's President; or (iii) death or disability. Change in control is generally defined in each agreement to include (i) a merger of the Company with another company where the majority of the board of the surviving company is not comprised of directors of the Company in office immediately prior to the transaction, (ii) a change in the board of directors of the Company such that after an election a majority of the directors in office are not directors that were nominated by two-thirds of board members prior to the election or (iii) a complete liquidation of the Company.

Effect of a Termination Event or Change in Control and Termination Event. Under the terms of an Employment Agreement dated July 31, 1996 between Bart C. Shuldman and the Company, if a Termination Event or Change in Control Event were to occur, Mr. Shuldman would continue to receive: (i) his annual base salary and (ii) all other benefits (including health, disability and life insurance benefits; participation in any ERISA benefit plans and 401(k) plans; an automobile allowance; and certain service fees related to medical exams, income tax planning and estate planning) for two years and three years, respectively, from the date of termination. In connection with a Termination Event, Mr. Shuldman would receive a pro rata portion of his annual target bonus amount for the year of termination. If a Change in Control Event were to occur and within one year thereafter either Mr. Shuldman's

employment is terminated other than for Cause, or Mr. Shuldman resigns following a significant reduction in the nature or scope of his responsibilities or authorities, a decrease in salary other than resulting from a reduction that applies generally to all management personnel or specified relocations of the Company's facilities, Mr. Shuldman would be entitled to continue to receive, in addition to the amounts listed in the first sentence, his annual target bonus for a period of three years from the date of termination and all stock options and other awards granted to Mr. Shuldman under the Company's stock plans would immediately vest.

Under the terms of a Severance Agreement with Steven A. DeMartino dated June 1, 2004, if a Termination Event were to occur, Mr. DeMartino would be entitled to continue to receive, for one year following the date of termination (i) his annual base salary, (ii) a pro rata portion of his annual target bonus for the year of termination and (iii) medical, dental, vision, life and long term disability insurance benefits. If a Change in Control Event were to occur and the employment of Mr. DeMartino is terminated other than for Cause, or if he resigns for specified reasons within one year following a Change in Control Event, Mr. DeMartino would be entitled to receive for two years after his termination (i) his annual base salary, (ii) annual target bonus, (iii) medical, dental, vision, life and long term disability insurance benefits and (iv) all stock options granted to Mr. DeMartino would immediately vest.

Under the terms of Severance Agreements with Michael S. Kumpf, Tracey S. Chernay and Benjamin C. Wyatt dated September 4, 1996, July 29, 2005 and May 27, 2008, respectively, if a Termination Event were to occur, the applicable NEO would be entitled to continue to receive, for six months following the date of termination (i) a pro rata portion of his or her annual base salary, (ii) a pro rata portion of his or her annual target bonus for the year of termination, and (iii) in the case of Mrs. Chernay and Mr. Wyatt, continuation in the Company's group medical and dental plans and in the case of Mr. Kumpf, all benefits which would otherwise have been payable. If a Change in Control Event were to occur, the applicable NEO would be entitled to continue to receive for a period of one year from the date of termination (i) base salary, (ii) annual target bonus, (iii) in the case of Mrs. Chernay and Mr. Wyatt, continuation in the Company's group medical and dental plans and in the case of Mr. Kumpf, all benefits and (iv) all stock options granted to the applicable NEO would immediately vest.

Equity Plans

2005 Equity Incentive Plan. The terms of the Company's 2005 Equity Incentive Plan provide that all awards issued under the plan would accelerate and either become exercisable or vest, as applicable, immediately prior to any of the following: (i) a reorganization, merger, consolidation or similar transaction in which the surviving corporation is not the Company or a publicly owned corporation (or a subsidiary thereof) in which the stockholders of the Company immediately prior to the transaction continue to beneficially own 50% or more of the voting securities of the Company, (ii) a sale, transfer, exchange or other disposition of all or substantially all of the Company's assets, (iii) any acquisition of 50% or more of the voting securities of the Company excluding acquisitions by specified parties or (iv) any dissolution or liquidation of the Company. Upon the occurrence of some of the foregoing Change in Control Events, stock or other property to be delivered upon acceleration of any award may be placed in escrow, rather than actually delivered, under terms set by the Compensation and Corporate Governance Committee.

1996 Stock Plan. The terms of the Company's 1996 Stock Plan do not provide for the acceleration of all awards issued under the plan in the event of a change in control of the Company. Instead, the plan provides that acceleration upon a change in control is permitted and that the terms of the individual awards issued under the plan control whether the awards accelerate upon occurrence of a Change in Control Event.

Payments Upon a Change in Control Event. If a Change in Control Event had occurred on December 31, 2011 that triggered acceleration of all of the equity awards outstanding to each NEO under each of the 1996 Stock Plan and the 2005 Equity Incentive Plan that accelerate either by their terms or the terms of the applicable plan, the following amounts would have been paid to the NEOs:

Name	Stock Awards (1)	Option Awards (2)	Total
Bart C. Shuldman	\$ 140,902	\$ 174,500	\$ 315,402
