ABERCROMBIE & FITCH CO.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

Abercrombie & Fitch Co. (“A&F”), through its wholly-owned subsidiaries (collectively, A&F and its wholly-owned subsidiaries are referred to as the “Company”), is a specialty retailer of high-quality, casual apparel for men, women and kids with an active, youthful lifestyle.

The accompanying Consolidated Financial Statements include the historical financial statements of, and transactions applicable to, the Company and reflect its assets, liabilities, results of operations and cash flows.

The Company’s fiscal year ends on the Saturday closest to January 31. Fiscal years are designated in the consolidated financial statements and notes by the calendar year in which the fiscal year commences. All references herein to “Fiscal 2014” represent the 52-week fiscal year that will end on January 31, 2015, and to “Fiscal 2013” represent the 52-week fiscal year that ended February 1, 2014.

The Consolidated Financial Statements as of November 1, 2014 and for the thirteen and thirty-nine weeks ended November 1, 2014 and November 2, 2013 are unaudited and are presented pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, these Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto contained in A&F’s Annual Report on Form 10-K for Fiscal 2013 filed with the SEC on March 31, 2014. The February 1, 2014 consolidated balance sheet data were derived from audited consolidated financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America (“U.S. GAAP”).

In the opinion of management, the accompanying Consolidated Financial Statements reflect all adjustments (which are of a normal recurring nature) necessary to state fairly, in all material respects, the financial position and results of operations and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for Fiscal 2014.

The thirteen and thirty-nine weeks ended November 1, 2014 and November 2, 2013 include the correction of certain errors relating to prior years. Amounts recorded out-of-period included a reduction to pre-tax income of \$0.6 million and \$3.3 million for the thirteen and thirty-nine weeks ended November 1, 2014, respectively, and an unrelated tax charge of \$0.4 million for the thirteen and thirty-nine weeks ended November 1, 2014. The effect of these corrections decreased net income by \$0.8 million and \$2.4 million for the thirteen and thirty-nine weeks ended November 1, 2014, respectively. Amounts recorded out-of-period also included a reduction to pre-tax loss of \$2.1 million, and an unrelated tax benefit of \$1.9 million, for the thirteen weeks ended November 3, 2013, and a reduction to pre-tax loss of \$6.3 million, and an unrelated tax benefit of \$0.7 million, for the thirty-nine weeks ended November 2, 2013. The effect of these corrections reduced net loss by \$3.0 million and \$4.7 million for the thirteen and thirty-nine weeks ended November 2, 2013, respectively. The Company does not believe these corrections were material to any current or prior interim or annual periods that were affected.

To conform with current year presentation, charges related to the restructuring of the Gilly Hicks brand of \$40.1 million and asset impairments of \$43.6 million for thirteen and thirty-nine weeks ended November 2, 2013 have been reclassified from stores and distribution expense to restructuring charges in the Company's Consolidated Statements of Operations and Comprehensive Income (Loss). Additionally, \$4.6 million of charges related to the restructuring of the Gilly Hicks brand for the thirteen and thirty-nine weeks ended November 2, 2013 have been reclassified from marketing, general and administrative expenses to restructuring charges in the Company's Consolidated Statements of

Operations and Comprehensive Income (Loss).

The Consolidated Financial Statements as of November 1, 2014 and for the thirteen and thirty-nine weeks ended November 1, 2014 and November 2, 2013 included herein have been reviewed by PricewaterhouseCoopers LLP, an independent registered public accounting firm, and the report of such firm follows the Notes to Consolidated Financial Statements.

PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933 (the "Act") for their report on the consolidated financial statements because their report is not a "report" or a "part" of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

2. SEGMENT REPORTING

The Company determines its segments on the same basis that it uses to allocate resources and assess performance. All of the Company's segments sell a similar group of products—casual sportswear apparel, personal care products and accessories for men, women and kids and bras, underwear and sleepwear for girls. The Company has three reportable segments: U.S. Stores, International Stores, and Direct-to-Consumer. Corporate functions, interest income and expense, and other income and expense are evaluated on a consolidated basis and are not allocated to the Company's segments, and therefore are included in Other.

The U.S. Stores reportable segment includes the results of store operations in the United States and Puerto Rico. The International Stores reportable segment includes the results of store operations in Canada, Europe, Asia, Australia and the Middle East. The Direct-to-Consumer reportable segment includes the results of operations directly associated with on-line operations, both U.S. and international.

Operating income is the primary measure of profit the Company uses to make decisions regarding the allocation of resources to its segments. For the U.S. Stores and the International Stores reportable segments, operating income is defined as aggregate income directly attributable to individual stores on a four-wall basis plus sell-off of excess merchandise to authorized third-party resellers. Four-wall operating income includes: net sales, cost of merchandise, selling payroll and related costs, rent, utilities, depreciation, repairs and maintenance, supplies and packaging and other store sales-related expenses including credit card and bank fees and indirect taxes. Operating income also reflects pre-opening charges related to stores not yet in operation. For the Direct-to-Consumer reportable segment, operating income is defined as aggregate income attributable to the direct-to-consumer business: net sales, shipping and handling revenue, call center costs, fulfillment and shipping expense, charge card fees and direct-to-consumer operations management and support expenses. The U.S. Stores, the International Stores and the Direct-to-Consumer segments exclude marketing, general and administrative expense; store management and support functions such as regional and district management and other functions not dedicated to an individual store, as well as distribution center costs. All costs excluded from the three reportable segments are included in Other.

The Company estimates the fair value of stock appreciation rights using the Black-Scholes option-pricing model. The weighted-average assumptions used in the Black-Scholes option-pricing model for stock appreciation rights granted during the thirty-nine weeks ended November 1, 2014 and November 2, 2013, were as follows:

	Executive Officers other than the CEO		All Other Associates		
	November 1, 2014	November 2, 2013	November 1, 2014	November 2, 2013	
Grant date market price	\$37.85	\$46.57	\$38.58	\$45.46

Fair value	\$14.04	\$20.34	\$13.56	\$16.82	
Assumptions:					
Price volatility	50	% 61	% 50	% 54	%
Expected term (years)	4.9	4.7	4.1	4.1	
Risk-free interest rate	1.6	% 0.7	% 1.4	% 0.6	%
Dividend yield	2.0	% 1.8	% 1.9	% 1.8	%

Compensation expense for stock appreciation rights is recognized on a straight-line basis over the awards' requisite service period, net of forfeitures. As of November 1, 2014, there was \$8.4 million of total unrecognized compensation cost, net of estimated forfeitures, related to stock appreciation rights. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 16 months.

The total intrinsic value of stock appreciation rights exercised during the thirty-nine weeks ended November 1, 2014 and November 2, 2013 was \$1.5 million and \$8.5 million, respectively. The grant date fair value of stock appreciation rights that vested during the thirty-nine weeks ended November 1, 2014 and November 2, 2013 was \$7.3 million and \$25.0 million, respectively.

#### Restricted Stock Units

The following table summarizes activity for restricted stock units with performance and/or service vesting conditions for the thirty-nine weeks ended November 1, 2014:

	Number of Underlying Shares	Weighted-Average Grant Date Fair Value
Unvested at February 1, 2014	1,426,579	\$46.00
Granted <sup>(1)</sup>	632,925	34.75
Vested	(352,359)	) 48.32
Forfeited	(211,931)	) 44.04
Unvested at November 1, 2014	1,495,214	\$40.35

Includes 158,922 shares, which represents "target performance," related to grants of restricted stock units with <sup>(1)</sup> performance vesting conditions at their targeted vesting amount. The number of shares that ultimately vest can vary from 0% - 200% of target depending on the level of achievement of performance criteria.

The fair value of restricted stock units with performance and/or service vesting conditions is calculated using the market price of the underlying Common Stock on the date of grant reduced for anticipated dividend payments on unvested shares. In determining the fair value, the Company does not take into account any performance-based vesting requirements. The performance-based vesting requirements are taken into account in determining the number

of awards expected to vest and the related expense.

Restricted stock units with only service vesting conditions and restricted stock units with fixed performance vesting thresholds without graded vesting features are expensed on a straight-line basis over the total requisite service period, net of forfeitures. Restricted stock units with annually determined vesting thresholds are expensed on a graded vesting basis, net of forfeitures. As of November 1, 2014, there was \$30.4 million of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested restricted stock units with performance and/or service conditions. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 15 months.

The total fair value of restricted stock units with service and/or performance vesting conditions granted during the thirty-nine weeks ended November 1, 2014 and November 2, 2013 was \$22.0 million and \$33.3 million, respectively. The total grant date fair value of restricted stock units with service and/or performance vesting conditions which vested during the thirty-nine weeks ended November 1, 2014 and November 2, 2013 was \$17.0 million and \$14.6 million, respectively.

(1) Reflects the target vesting amount granted. However, the number of shares that ultimately vest can vary from 0% - 200% of target depending on market performance.

The fair value of restricted stock units with market vesting conditions is calculated using a Monte Carlo simulation with the number of shares that ultimately vest dependent on the Company's total stockholder return measured against the total stockholder return of a select group of peer companies over a three-year period. The weighted-average assumptions used in the Monte Carlo simulation during the thirty-nine weeks ended November 1, 2014, were as follows:

	Chief Executive Officer	Other Executive Officers	
Grant date market price	\$38.50	\$38.50	
Fair value	\$43.96	\$46.86

Restricted stock units with market vesting conditions without graded vesting features are expensed on a straight-line basis over the requisite service period, net of forfeitures. As of November 1, 2014, there was \$2.6 million of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested restricted stock units with market vesting conditions. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 11 months.

The total fair value of restricted stock units with market vesting conditions granted during the thirty-nine weeks ended November 1, 2014 was \$3.6 million.

On February 27, 2014, A&F entered into an Accelerated Share Repurchase Agreement ("ASR Agreement") with a financial institution in order to repurchase shares of A&F's Common Stock during the term of the ASR Agreement which extended through April 2014. Pursuant to the ASR Agreement, A&F paid \$150 million and, in exchange, approximately 3.1 million shares were initially delivered to A&F and accounted for as a reduction to stockholders' equity. The transaction contemplated by the ASR Agreement was completed during the first quarter of Fiscal 2014, at which time A&F received approximately 0.7 million additional shares. The total number of shares delivered upon settlement of the ASR Agreement was based upon the volume weighted average price of the A&F's Common Stock over the term of the ASR Agreement, less an agreed discount.

During the second quarter of Fiscal 2014, A&F repurchased approximately 1.5 million additional shares of A&F's Common Stock in the open market at a market value of approximately \$60 million. During the third quarter of Fiscal 2014, A&F repurchased approximately 2.0 million additional shares of A&F's Common Stock in the open market at a market value of approximately \$75 million.

## 6. RABBI TRUST ASSETS

Investments of Rabbi Trust assets consisted of the following:

(in thousands)	November 1, 2014	February 1, 2014
Rabbi Trust assets:		
Trust-owned life insurance policies (at cash surrender value)	\$92,643	\$90,198

Nonqualified Savings and Supplemental Retirement Plan I, the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan II and the Chief Executive Officer Supplemental Executive Retirement Plan. ## 7. FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are prioritized based on a three-level hierarchy. The three levels of inputs to measure fair value are as follows:

- Level 1—inputs are unadjusted quoted prices for identical assets or liabilities that are available in active markets.
- Level 2—inputs are other than quoted market prices included within Level 1 that are observable for assets or liabilities, directly or indirectly.
- Level 3—inputs to the valuation methodology are unobservable.

The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The three levels of the hierarchy and the distribution of the Company's assets and liabilities, measured at fair value, within it were as follows:

(in thousands)	Assets and Liabilities at Fair Value as of November 1, 2014			
	Level 1	Level 2	Level 3	Total
<b>ASSETS:</b>				
Money market funds	\$19,820	\$—	\$—	\$19,820
Derivative financial instruments	—	8,095	—	8,095
Total assets measured at fair value	\$19,820	\$8,095	\$—	\$27,915
<b>LIABILITIES:</b>				
Derivative financial instruments	—	133	—	133
Total liabilities measured at fair value	\$—	\$133	\$—	\$133

(in thousands)	Assets and Liabilities at Fair Value as of February 1, 2014			
	Level 1	Level 2	Level 3	Total
<b>ASSETS:</b>				
Money market funds	\$148,024	\$—	\$—	\$148,024
Derivative financial instruments	—	969	—	969
Total assets measured at fair value	\$148,024	\$969	\$—	\$148,993
<b>LIABILITIES:</b>				
Derivative financial instruments	—	2,555	—	2,555
Total liabilities measured at fair value	\$—	\$2,555	\$—	\$2,555

The level 2 assets and liabilities consist of derivative financial instruments, primarily forward foreign currency exchange contracts. The fair value of forward foreign currency exchange contracts is determined by using quoted market prices of the same or similar instruments, adjusted for counterparty risk.

## Disclosures of Fair Value of Other Assets and Liabilities:

The Company's borrowings under the 2014 Credit Facilities and the 2011 and 2012 Credit Agreements are carried at historical cost in the accompanying Consolidated Balance Sheets. For disclosure purposes, the Company estimated the fair value of borrowings outstanding using discounted cash flow analysis based on market rates obtained from independent third parties for similar types of debt. The inputs used to value the borrowings outstanding are considered to be Level 2 instruments.

The carrying amount of gross borrowings outstanding under the Term Loan Facility was \$300.0 million and the fair value of such borrowings was \$296.6 million as of November 1, 2014. The carrying amount of borrowings outstanding under the 2012 Term Loan Agreement approximated fair value and was \$135.0 million as of February 1, 2014. No borrowings were outstanding under the ABL Facility and the 2011 Credit Agreement as of November 1, 2014 and February 1, 2014, respectively. See Note 12, "BORROWINGS," for further discussion of the Credit Facilities.

## 8. INVENTORIES

Inventories are principally valued at the lower of cost or market on a weighted-average cost basis. The Company writes down inventory through a lower of cost or market adjustment, the impact of which is reflected in Cost of Goods Sold on the Consolidated Statements of Operations and Comprehensive Income (Loss). This adjustment is based on management's judgment regarding future demand and market conditions and analysis of historical experience. The lower of cost or market reserve for inventory was \$10.5 million and \$22.1 million at November 1, 2014 and February 1, 2014, respectively.

Additionally, as part of inventory valuation, inventory shrinkage estimates based on historical trends from actual physical inventories are made each period that reduce the inventory value for lost or stolen items. The Company performs physical inventories on a periodic basis and adjusts the shrink reserve accordingly. The shrink reserve was \$5.1 million and \$13.6 million at November 1, 2014 and February 1, 2014, respectively.

The inventory balance, net of reserves, was \$617.5 million and \$530.2 million at November 1, 2014 and February 1, 2014, respectively. These balances included inventory in transit balances of \$68.3 million and \$76.4 million at November 1, 2014 and February 1, 2014, respectively. Inventory in transit is merchandise considered to be owned by the Company that has not yet been received at a Company distribution center.

## 9. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consisted of (in thousands):

	November 1, 2014	February 1, 2014
Property and equipment, at cost	\$2,904,092	\$2,885,712
Accumulated depreciation and amortization	(1,853,297	) (1,754,371
Property and equipment, net	\$1,050,795	\$1,131,341

Long-lived assets, primarily comprised of property and equipment, are reviewed periodically for impairment or whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Factors used in the evaluation include, but are not limited to, management's plans for future operations, recent operating results, and projected cash flows.

Fair value of the Company's store-related assets is determined at the individual store level, primarily using a discounted cash flow model that utilizes level 3 inputs. The estimation of future cash flows from operating activities requires significant estimates of factors that include future sales, gross margin performance, and operating expenses. In instances where the discounted cash flow analysis indicated a negative value at the store level, the market exit price based on historical experience, and other comparable market data where applicable, was used to determine the fair value by asset type.

In the third quarter of Fiscal 2014, the Company incurred non-cash asset impairment charges of \$16.7 million, as it was determined that the carrying value of certain store-related assets would not be recoverable and exceeded fair value. The asset impairment charges primarily related to the Company's Abercrombie & Fitch flagship store location in the Ginza district of Tokyo, Japan, as well as three other Abercrombie & Fitch stores, five Hollister stores and nine abercrombie kids stores.

In certain lease arrangements, the Company is involved in the construction of the building. If it is determined that the Company has substantially all of the risks of ownership during construction of the leased property and therefore is deemed to be the owner of the construction project, the Company records an asset for the amount of the total project costs and an amount related to the value attributed to the pre-existing leased building in Property and Equipment, Net and the related financing obligation in Leasehold Financing Obligations on the Consolidated Balance Sheets. Once construction is complete, if it is determined that the asset does not qualify for sale-leaseback accounting treatment, the Company continues to amortize the obligation over the lease term and depreciates the asset over its useful life. The Company had \$44.6 million and \$52.3 million of construction project assets in Property and Equipment, Net at November 1, 2014 and February 1, 2014, respectively.

## 10. DEFERRED LEASE CREDITS

Deferred lease credits are derived from payments received from landlords to wholly or partially offset store construction costs and are classified between current and long-term liabilities. The amounts, which are amortized over the respective terms of the related leases, consisted of the following (in thousands):

	November 1, 2014	February 1, 2014
Deferred lease credits	\$522,559	\$543,040
Amortized deferred lease credits	(374,358	) (366,076
Total deferred lease credits, net	\$148,201	\$176,964

## 11. INCOME TAXES

The provision for income taxes is based on the current estimate of the annual effective tax rate adjusted to reflect the impact of discrete items occurring during the quarter. The effective tax rates for the thirteen weeks ended November 1, 2014 and November 2, 2013 were 34.4% and 57.7%, respectively. The effective tax rates for the thirty-nine weeks ended November 1, 2014 and November 2, 2013 were 36.8% and 67.4%, respectively. The Fiscal 2013 year-to-date effective tax rate reflects a benefit resulting from the settlement of certain state tax audits and a \$4.9 million benefit related to other discrete tax matters in the third quarter.

Income taxes paid directly to taxing authorities, net of refunds received, for the thirteen weeks ended November 1, 2014 and November 2, 2013 were approximately \$7.1 million and \$1.0 million, respectively. Income taxes paid directly to taxing authorities, net of refunds received, for the thirty-nine weeks ended November 1, 2014 and November 2, 2013 were approximately \$68.4 million and \$109.2 million, respectively. These amounts include payments and refunds for income and withholding taxes incurred related to the current year and prior years.

## 12. BORROWINGS

In 2011, the Company entered into an unsecured credit agreement (the “2011 Credit Agreement”) which, as amended most recently on November 4, 2013, provided for a \$350 million revolving credit facility. In 2012, the Company entered into a term loan agreement (the “2012 Term Loan Agreement” and, together with the 2011 Credit Agreement, the “2011 and 2012 Credit Agreements”) which, as amended most recently on November 4, 2013, provided for a \$150 million term loan facility. No borrowings were outstanding under the 2011 Credit Agreement and \$135.0 million in borrowings were outstanding under the 2012 Term Loan Agreement as of February 1, 2014.

On August 7, 2014, in connection with the Company entering into new credit agreements, all amounts outstanding under the 2011 and 2012 Credit Agreements were repaid in full, and the 2011 and 2012 Credit Agreements were terminated. The new credit agreements are discussed below.

## Asset-Based Revolving Credit Facility and Term Loan Facility

On August 7, 2014, A&F, through its subsidiary Abercrombie & Fitch Management Co. (“A&F Management”) as the lead borrower (with A&F and certain other subsidiaries as borrowers or guarantors), entered into an asset-based revolving credit agreement. The agreement provides for a senior secured revolving credit facility of up to \$400 million (the “ABL Facility”), subject to a borrowing base. The ABL Facility is available for working capital, capital expenditures and other general corporate purposes.

A&F, through its subsidiary A&F Management as the borrower (with A&F and certain other subsidiaries as guarantors), also entered into a term loan agreement on August 7, 2014, which provides for a term loan facility of \$300 million (the “Term Loan Facility” and, together with the ABL Facility, the “2014 Credit Facilities”). A portion of the proceeds of the Term Loan Facility were used to repay the outstanding balance of approximately \$127.5 million under the Company’s 2012 Term Loan Agreement, to repay outstanding borrowings of approximately \$60 million under the Company’s 2011 Credit Agreement and to pay fees and expenses associated with the transaction.

#### Debt Discount and Deferred Financing Fees

The Term Loan Facility was issued at a 1.0% discount. In addition, the Company recorded deferred financing fees associated with the issuance of the 2014 Credit Facilities of \$5.8 million in aggregate, of which \$3.2 million was paid to lenders. The Company

Table of Contents

is amortizing the debt discount and deferred financing fees over the respective contractual terms of the 2014 Credit Facilities. The Company's Term Loan debt is presented in the Consolidated Balance Sheets, net of the unamortized discount and fees paid to lenders. Net borrowings as of November 1, 2014 were as follows:

(in thousands)	November 1, 2014
Borrowings, gross at carrying amount	\$300,000
Unamortized discount	(2,893 )
Unamortized fees paid to lenders	(3,169 )
Borrowings, net	\$293,938

No borrowings were outstanding under the ABL Facility as of November 1, 2014.

## Maturity, Amortization and Prepayments

The ABL Facility will mature on August 7, 2019. The Term Loan Facility will mature on August 7, 2021 and will amortize at a rate equal to 0.25% of the original principal amount per quarter, beginning with the fourth quarter of Fiscal 2014. The Term Loan Facility is subject to (a) beginning in 2016, an annual mandatory prepayment in an amount equal to 0% to 50% of the Company's excess cash flows in the preceding fiscal year, depending on the Company's leverage ratio and (b) certain other mandatory prepayments upon receipt by the Company of proceeds of certain debt issuances, asset sales and casualty events, subject to certain exceptions specified therein, including reinvestment rights.

## Guarantees and Security

All obligations under the 2014 Credit Facilities are unconditionally guaranteed by A&F and certain of its subsidiaries. The ABL Facility is secured by a first-priority security interest in certain working capital of the borrowers and guarantors consisting of inventory, accounts receivable and certain other assets. The Term Loan Facility is secured by a second-priority security interest in the same collateral, with certain exceptions. The Term Loan Facility is also secured by a first-priority security interest in certain property and assets of the borrowers and guarantors, including certain fixed assets, intellectual property, stock of subsidiaries and certain after-acquired material real property. The ABL Facility is secured by a second-priority security interest in the same collateral.

## Interest and Fees

Amounts borrowed under the ABL Facility bear interest, at the Company's option, at either an adjusted LIBOR rate plus a margin of 1.25% to 1.75% per annum, or an alternate base rate plus a margin of 0.25% to 0.75% per annum. The initial applicable margins with respect to LIBOR loans and base rate loans, including swing line loans, under the ABL Facility are 1.50% and 0.50% per annum, respectively, and are subject to adjustment each fiscal quarter beginning January 31, 2015, based on average historical excess availability during the preceding quarter. The Company is also required to pay a fee of 0.25% per annum on undrawn commitments under the ABL Facility. Customary agency fees and letter of credit fees are also payable in respect of the ABL Facility.

At the Company's option, borrowings under the Term Loan Facility will bear interest at either (a) an adjusted LIBOR rate no lower than 1.00% plus a margin of 3.75% per annum or (b) an alternate base rate plus a margin of 2.75% per annum. Customary agency fees are also payable in respect of the Term Loan Facility.

The interest rate on borrowings under the Term Loan Facility was 4.75% as of November 1, 2014.

Representations, Warranties and Covenants

The 2014 Credit Facilities contain various representations, warranties and restrictive covenants that, among other things and subject to specified exceptions, restrict the ability of A&F and its subsidiaries to incur indebtedness (including guarantees), grant liens, make investments, pay dividends or distributions with respect to capital stock, make prepayments on other indebtedness, engage in mergers, dispose of certain assets or change the nature of their business. In addition, excess availability equal to the greater of 10% of the loan cap or \$30 million must be maintained under the ABL Facility. The 2014 Credit Facilities do not otherwise contain financial maintenance covenants.

The Company was in compliance with the covenants under the 2014 Credit Facilities as of November 1, 2014.

13. LEASEHOLD FINANCING OBLIGATIONS

As of November 1, 2014 and February 1, 2014, the Company had \$55.5 million and \$60.7 million, respectively, of long-term liabilities related to leasehold financing obligations. In certain lease arrangements, the Company is deemed to be involved in the construction of the building. If it is determined that the Company has substantially all of the risks of ownership during construction of the leased property and therefore is deemed to be the owner of the construction project, the Company records an asset for the amount of the total project costs and an amount related to the value attributed to the pre-existing leased building in Property and Equipment, Net and a liability of a corresponding amount related to the financing obligation in Leasehold Financing Obligations on the Consolidated Balance Sheets. Once construction is complete, if it is determined that the asset does not qualify for sale-leaseback accounting treatment, the Company continues to amortize the obligation over the lease term and depreciates the asset over its useful life. The Company does not report rent expense for the portion of the rent payment determined to be related to the assets which are determined to be owned for accounting purposes. Rather, that portion of the rental payments under the lease is recognized as a reduction of the financing obligation and interest expense.

Total interest expense related to leasehold financing obligations was \$1.5 million and \$1.7 million for the thirteen weeks ended November 1, 2014 and November 2, 2013, respectively. Total interest expense related to leasehold financing obligations was \$4.8 million and \$5.0 million for the thirty-nine weeks ended November 1, 2014 and November 2, 2013, respectively.

14. DERIVATIVES

The Company is exposed to risks associated with changes in foreign currency exchange rates and uses derivatives, primarily forward contracts, to manage the financial impacts of these exposures. The Company does not use forward contracts to engage in currency speculation and does not enter into derivative financial instruments for trading purposes.

In order to qualify for hedge accounting treatment, a derivative must be considered highly effective at offsetting changes in either the hedged item's cash flows or fair value. Additionally, the hedge relationship must be documented to include the risk management objective and strategy, the hedging instrument, the hedged item, the risk exposure, and how hedge effectiveness will be assessed prospectively and retrospectively. The extent to which a hedging instrument has been, and is expected to continue to be, effective at offsetting changes in fair value or cash flows is assessed and documented at least quarterly. Any hedge ineffectiveness is reported in current period earnings and hedge accounting is discontinued if it is determined that the derivative is not highly effective.

For derivatives that either do not qualify for hedge accounting or are not designated as hedges, all changes in the fair value of the derivative are recognized in earnings. For qualifying cash flow hedges, the effective portion of the change in the fair value of the derivative is recorded as a component of Other Comprehensive Income (Loss) ("OCI") and recognized in earnings when the hedged cash flows affect earnings. The ineffective portion of the derivative gain or loss, as well as changes in the fair value of the derivative's time value is recognized in current period earnings. The effectiveness of the hedge is assessed based on changes in the fair value attributable to changes in spot prices. The changes in the fair value of the derivative contract related to the changes in the difference between the spot price and the forward price are excluded from the assessment of hedge effectiveness and are also recognized in current period earnings. If the cash flow hedge relationship is terminated, the derivative gains or losses that are deferred in OCI will be recognized in earnings when the hedged cash flows occur. However, for cash flow hedges that are terminated

because the forecasted transaction is not expected to occur in the original specified time period, or a two-month period thereafter, the derivative gains or losses are immediately recognized in earnings.

The Company uses derivative instruments, primarily forward contracts designated as cash flow hedges, to hedge the foreign currency exposure associated with forecasted foreign-currency-denominated inter-company inventory sales to foreign subsidiaries and the related settlement of the foreign-currency-denominated inter-company receivables. Fluctuations in exchange rates will either increase or decrease the Company's inter-company equivalent cash flows and affect the Company's U.S. Dollar earnings. Gains or losses on the foreign currency exchange forward contracts that are used to hedge these exposures are expected to partially offset this variability. Foreign currency exchange forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed-upon settlement date. These forward contracts typically have a maximum term of 12 months. The sale of the inventory to the Company's customers will result in the reclassification of related derivative gains and losses that are reported in Accumulated Other Comprehensive Income (Loss). Substantially all of the unrealized gains or losses related to designated cash flow hedges as of November 1, 2014 will be recognized in cost of goods sold over the next twelve months.

The Company presents its derivative assets and derivative liabilities at their gross fair values on the Consolidated Balance Sheets. However, our master netting and other similar arrangements allow net settlements under certain conditions.

As of November 1, 2014, the Company had outstanding the following foreign currency exchange forward contracts that were entered into to hedge either a portion, or all, of forecasted foreign-currency-denominated inter-company inventory sales, the resulting settlement of the foreign-currency-denominated inter-company accounts receivable, or both:

	Notional Amount <sup>(1)</sup>
Euro	\$76,926
British Pound	\$34,003
Canadian Dollar	\$14,377

<sup>(1)</sup> Amounts are reported in thousands and in U.S. Dollar equivalent as of November 1, 2014.

The Company also uses foreign currency exchange forward contracts to hedge certain foreign-currency-denominated net monetary assets/liabilities. Examples of monetary assets/liabilities include cash balances, receivables and payables. Fluctuations in exchange rates result in transaction gains/(losses) being recorded in earnings as U.S. GAAP requires that monetary assets/liabilities be remeasured at the spot exchange rate at quarter-end or upon settlement. The Company has chosen not to apply hedge accounting to these instruments because there are no differences in the timing of gain or loss recognition on the hedging instrument and the hedged item.

As of November 1, 2014, the Company had outstanding the following foreign currency forward contracts that were entered into to hedge foreign currency denominated net monetary assets/liabilities:

	Notional Amount <sup>(1)</sup>
Swiss Franc	\$7,925
British Pound	\$6,400

<sup>(1)</sup> Amounts are reported in thousands and in U.S. Dollar equivalent as of November 1, 2014.

## 16. GILLY HICKS RESTRUCTURING

As previously announced, on November 1, 2013, A&F's Board of Directors approved the closure of the Company's 24 stand-alone Gilly Hicks stores. The Company substantially completed the store closures as planned by the end of the first quarter of Fiscal 2014. The Company continues to offer Gilly Hicks products through Hollister stores and direct-to-consumer channels.

As a result of exiting the Gilly Hicks branded stores, the Company currently estimates that it will incur aggregate pre-tax charges of approximately \$89 million, of which \$6.1 million of charges, primarily related to lease terminations, was recognized during the thirty-nine weeks ended November 1, 2014.

Below is a summary of the aggregate pre-tax charges incurred through November 1, 2014 related to the closure of the Gilly Hicks branded stores (in thousands):

Lease Terminations and Store Closure Costs	\$48,395
Asset Impairment	37,940
Other	1,218
Total Charges <sup>(1)</sup>	\$87,553

<sup>(1)</sup> As of November 1, 2014, the Company incurred aggregate pre-tax charges related to restructuring plans for the Gilly Hicks brand of \$50.2 million for the U.S. Stores segment and \$37.4 million for the International Stores segment.

The remaining charges, primarily lease-related, including the net present value of payments related to lease terminations, potential sub-lease losses and other lease-related costs of approximately \$1.4 million, are expected to be recognized over the remaining lease terms. These estimates are based on a number of significant assumptions and could change materially.

Costs associated with exit or disposal activities are recorded when the liability is incurred. Below is a roll forward of the liabilities recognized on the Consolidated Balance Sheet as of November 1, 2014, related to the closure of the Gilly Hicks stores (in thousands):

Accrued Liability as of February 1, 2014	\$42,507
Costs Incurred	11,361
Cash Payments	(47,533)
Accrued Liability as of November 1, 2014	\$6,335

## 17. CONTINGENCIES

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where it deems appropriate to do so under applicable accounting rules. The Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of claims. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. The

Company has established accruals for certain matters where losses are deemed probable and reasonably estimable. There are other claims and legal proceedings pending against the Company for which accruals have not been established.

#### 18. RECENT ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board ("FASB") issued ASU No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists," which amends ASC 740, "Income Taxes." The amendments provide guidance on the financial statement presentation of an unrecognized tax benefit as either a reduction of a deferred tax asset or as a liability, when a net operating loss carryforward, similar tax loss or a tax credit carryforward exists. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this guidance did not have an impact on the Company's consolidated financial statements.

Table of Contents

In May 2014, FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements in "Revenue Recognition (Topic 605)," and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU No. 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and is to be applied retrospectively, with early application not permitted. The Company is currently evaluating the potential impact of this standard.

In June 2014, FASB issued ASU No. 2014-12, "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period," which amends ASC 718, "Compensation—Stock Compensation." The amendment provides guidance on the treatment of share-based payments awards with a specific performance target, requiring that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. ASU No. 2014-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 with early adoption permitted. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

## RESULTS OF OPERATIONS

During the third quarter of Fiscal 2014, net sales decreased 12% to \$911.5 million from \$1.033 billion for the third quarter of Fiscal 2013. The gross profit rate for the third quarter of Fiscal 2014 was 62.2% compared to 63.0% for the third quarter of Fiscal 2013. Operating income was \$33.4 million for the third quarter of Fiscal 2014 compared to an operating loss of \$35.4 million for the third quarter of Fiscal 2013. The Company had net income of \$18.2 million and net income per diluted share of \$0.25 for the third quarter of Fiscal 2014 compared to a net loss of \$15.6 million and net loss per diluted share of \$0.20 for the third quarter of Fiscal 2013.

During the Fiscal 2014 year-to-date period, net sales decreased 7% to \$2.624 billion from \$2.818 billion for the comparable period of Fiscal 2013. The gross profit rate for the Fiscal 2014 year-to-date period was 62.2% compared to 64.2% for the comparable period of Fiscal 2013. The Company reported an operating income of \$21.4 million for the Fiscal 2014 year-to-date period compared to an operating loss of \$30.1 million for the comparable period of Fiscal 2013. and net income per diluted share of \$0.10 for the Fiscal 2014 year-to-date period compared to a net loss of \$11.5 million and net loss per diluted share of \$0.15 for the comparable period of Fiscal 2013.

Excluding certain charges detailed in the GAAP to non-GAAP financial measures reconciliation below, the Company reported adjusted non-GAAP net income of \$30.4 million and adjusted non-GAAP net income per diluted share of \$0.42 for the third quarter of Fiscal 2014 compared to adjusted non-GAAP net income of \$40.5 million and adjusted non-GAAP net income per diluted share of \$0.52 for the third quarter of Fiscal 2013. For the Fiscal 2014 year-to-date period, the Company reported adjusted non-GAAP net income of \$31.5 million and adjusted non-GAAP net income per diluted share of \$0.43 compared to adjusted non-GAAP net income of \$46.4 million and adjusted non-GAAP net income per diluted share of \$0.59 for the comparable period of Fiscal 2013.

The Company believes that the non-GAAP financial measures discussed above are useful to investors as they provide the ability to measure the Company's operating performance and compare it against that of prior periods without reference to the impact of charges related to store-related asset impairment, store closures, the Gilly Hicks brand restructuring, the Company's profit improvement initiative, and legal, advisory and other charges related to certain corporate governance matters. These non-GAAP financial measures should not be used as alternatives to operating income (loss), net income (loss), or net income (loss) per diluted share and are also not intended to be indicators of the ongoing operating performance of the Company or to supersede or replace the Company's GAAP financial measures. The table below reconciles the GAAP financial measures to the non-GAAP financial measures for the thirteen and thirty-nine weeks ended November 1, 2014 and November 2, 2013.

In addition, the Company had net proceeds of \$162.0 million from borrowings during the thirty-nine weeks ended November 1, 2014.

Due to the seasonal nature of the retail apparel industry, the results of operations for any current period are not necessarily indicative of the results expected for the full fiscal year. The seasonality of the Company's operations may also lead to significant fluctuations in certain asset and liability accounts.

CURRENT TRENDS AND OUTLOOK

In what continues to be a challenging retail environment, particularly among younger consumers, the third quarter of Fiscal 2014 proved to be more difficult than expected, with a weakening in trends across all brands and channels. Total Company comparable sales for the quarter were down 10%, with U.S. comparable store sales down 10% and international comparable store sales down 22%. Direct-to-consumer comparable sales were up 8% in the third quarter, but positive by a lower percentage than in the first and second quarters. Reduced heavy logo business continued to weigh heavily on our results, contributing approximately 12 percentage points to our down 10% total comparable sales for the third quarter, with non-logo business comping up slightly. On the international front, comparable sales were negative in almost all markets, but we are encouraged by positive comparable sales in China, which improved from the second quarter. The quarter also marked the opening of our first Chinese mall-based A&F store in Chengdu, which is performing strongly, and encourages us to believe in the growth potential of both of our major brands in China.

While we anticipate business conditions will remain difficult, we continue to take strategic steps to position the Company for future top-line growth and operating margin improvement to drive long-term value for stockholders.

We remain focused on improving the productivity and profitability of our U.S. stores, through initiatives around our assortment, marketing and brand engagement, through the opening of high productivity outlet stores and through closures of underperforming stores. We are pleased with results from the Hollister stores we have converted to a redesigned storefront, and we expect to allocate capital to accelerate the roll-out in both the U.S. and Europe in 2015. Regarding store closures, we still expect to close approximately 60 stores during Fiscal 2014 and a similar number in each of the next few years, primarily through natural lease expirations.

We are pleased with key metrics we are seeing from our marketing initiatives. Across both brands, fan growth in platforms such as Instagram, Facebook and Twitter is up by over 25% year-over-year and total social engagement during the quarter was more than four times greater than last year. In addition, according to our social listening tool Crimson Hexagon, net brand sentiment is up close to 30% for A&F and up close to 40% for Hollister since the beginning of the year. Going forward, we believe our greatest opportunity remains in improving top of funnel metrics, specifically brand consideration.

We continued the roll-out of our omnichannel efforts during the third quarter. Ship-from-store is now live in approximately 370 stores and order-in-store is live in approximately 660 stores, all within the U.S. We believe these initiatives will be both sales and margin accretive during the fourth quarter and beyond. In addition, we continue to expect to have reserve-in-store and in-store-pickup activated during 2015, and we are working on a roll-out of omnichannel capabilities in Europe. During the quarter we also launched localized Asia direct-to-consumer capabilities, including local desktop and mobile sites in Japan, China, Hong Kong, Singapore and Taiwan; regional fulfillment from Hong Kong and local fulfillment within China; and a Hollister storefront on Tmall. We are still in the early stages, but we have seen a clear improvement in both traffic and conversion.

We continue to pursue other initiatives to grow the international penetration of our brands, including our first franchising arrangement in Mexico, which encompasses both the A&F and Hollister brands, where our first store is set to open in late Spring 2015.

We continue to make excellent progress on expense reduction, enabling us to partially mitigate lower than projected sales and gross margin dollars. Our next steps in our profit improvement initiative include institutionalizing the process changes implemented during 2014, and continuing to drive for more efficiencies in our core processes.

Related to our move to a brand-based organizational model, we are very pleased to have welcomed Fran Horowitz and Christos Angelides to the Company during the quarter as our Hollister and A&F/Kids brand presidents, respectively.

Looking forward, we expect Fiscal 2014 full year adjusted non-GAAP diluted earnings per share to be in the range of \$1.50 to \$1.65. This guidance is based on the assumption that fourth quarter total comparable sales will be down by a mid-to-high single-digit percentage. The guidance also assumes a gross margin rate for the fourth quarter higher than last year, but lower than the third quarter year-to-date rate.

The guidance assumes a full year effective tax rate in the upper 30's, which remains sensitive to the mix between international and domestic income. The guidance also assumes a full year weighted average share count of approximately 73.1 million shares.

The guidance does not include charges related to the Gilly Hicks restructuring, the Company's profit improvement initiative, certain corporate governance matters, other potential impairment and store closure charges or any charges related to the Chief Executive Officer's retirement, as discussed in Note 19, "SUBSEQUENT EVENTS" of the Notes to the Consolidated Financial Statements.

THIRD QUARTER AND YEAR-TO-DATE RESULTS

Net Sales

Net sales for the third quarter of Fiscal 2014 were \$911.5 million, a decrease of 12% from net sales of \$1.033 billion during the third quarter of Fiscal 2013. The net sales decrease was primarily attributable to a 10% decrease in total comparable sales. Including direct-to-consumer sales, U.S. sales decreased 12% to \$594.7 million and international sales decreased 12% to \$316.7 million. The impact of changes in foreign currency adversely affected sales by approximately \$8.8 million for the thirteen weeks ended November 1, 2014 (based on converting prior year sales at current year exchange rates).

Year-to-date net sales in Fiscal 2014 were \$2.624 billion, a decrease of 7% from net sales of \$2.818 billion during the year-to-date period in Fiscal 2013. The net sales decrease was attributable to a 7% decrease in total comparable sales. Including direct-to-consumer sales, U.S. sales decreased 9% to \$1.645 billion and international sales decreased 3% to \$979.1 million. The impact of changes in foreign currency benefited sales by approximately \$16.0 million for the thirty-nine weeks ended November 1, 2014.

By brand, comparable sales for the third quarter of Fiscal 2014, including direct-to-consumer, were as follows: Abercrombie & Fitch decreased 6%, abercrombie kids decreased 10% and Hollister decreased 12%. Across the brands, the male and female business performed comparably.

Total comparable sales for the quarter, including direct-to-consumer sales, decreased 10% with comparable U.S. sales decreasing 7% and comparable international sales decreasing 15%. Within the quarter, comparable sales were weakest in September and October.

Direct-to-consumer sales, including shipping and handling revenue, for the third quarter of Fiscal 2014 were \$187.5 million, an increase of 7% from Fiscal 2013 third quarter direct-to-consumer sales of \$174.6 million. The direct-to-consumer sales increase was primarily driven by an increase in the international business. The direct-to-consumer business, including shipping and handling revenue, accounted for 20.6% of total net sales in the third quarter of Fiscal 2014 compared to 16.9% in the third quarter of Fiscal 2013.

Direct-to-consumer sales, including shipping and handling revenue, for the Fiscal 2014 year-to-date period were \$531.4 million, an increase of 15% from Fiscal 2013 year-to-date direct-to-consumer sales of \$461.6 million. The direct-to-consumer sales increase was primarily driven by an increase in the international business. The direct-to-consumer business, including shipping and handling revenue, accounted for 20.2% of total net sales for the year-to-date period of Fiscal 2014 compared to 16.4% in the Fiscal 2013 year-to-date period.

Gross Profit

Gross profit for the third quarter of Fiscal 2014 was \$567.1 million compared to \$651.0 million for the comparable period in Fiscal 2013. The gross profit rate (gross profit divided by net sales) for the third quarter of Fiscal 2014 was 62.2%, a decrease of 80 basis points from the third quarter of Fiscal 2013 rate of 63.0%.

Year-to-date gross profit for Fiscal 2014 was \$1.632 billion compared to \$1.808 billion for the comparable period in Fiscal 2013. The gross profit rate for the year-to-date period of Fiscal 2014 was 62.2%, down 200 basis points from the year-to-date period of Fiscal 2013 rate of 64.2%.

The decrease in the gross profit rate for both the third quarter and year-to-date period was primarily driven by increased promotional activity, including shipping promotions in the direct-to-consumer business, partially offset by lower average unit cost in the third quarter.

#### Stores and Distribution Expense

Stores and distribution expense for the third quarter of Fiscal 2014 was \$413.6 million, down from \$481.2 million for the comparable period in Fiscal 2013. Stores and distribution expense included \$2.3 million of charges in the third quarter of Fiscal 2014 and \$0.6 million of charges in the third quarter of Fiscal 2013 related to lease terminations, store closures and the Company's profit improvement initiative. Excluding these charges, the stores and distribution expense rate for the quarter was 45.1% of net sales, down 140 basis points from 46.5% of net sales in the third quarter of Fiscal 2013.

Stores and distribution expense for the Fiscal 2014 year-to-date period was \$1.257 billion compared to \$1.402 billion for the comparable period in Fiscal 2013. Stores and distribution expense included \$4.4 million of charges for the thirty-nine weeks

ended November 1, 2014 and \$0.6 million of charges for thirty-nine weeks ended November 2, 2013 related to lease terminations, store closures and the Company's profit improvement initiative. The decrease in stores and distribution expense as a percent of net sales for both the third quarter and year-to-date period was driven primarily by savings in from the Company's profit improvement initiative, largely in store payroll and other controllable store expense, partially offset by higher direct-to-consumer expense.

Shipping and handling costs, including costs incurred to store, move and prepare the products for shipment and costs incurred to physically move the product to the customer, associated with direct-to-consumer operations were \$24.0 million for the thirteen weeks ended November 1, 2014 compared to \$20.2 million for the thirteen weeks ended November 2, 2013, and \$69.7 million for the thirty-nine weeks ended November 1, 2014 compared to \$54.5 million for the thirty-nine weeks ended November 2, 2013. These amounts are included in Stores and Distribution Expense on the Consolidated Statements of Operations and Comprehensive Income (Loss).

Handling costs, including costs incurred to store, move and prepare the products for shipment to stores, were \$12.1 million for the thirteen weeks ended November 1, 2014 compared to \$13.6 million for the thirteen weeks ended November 2, 2013, and \$39.7 million for the thirty-nine weeks ended November 1, 2014 compared to \$39.6 million for the thirty-nine weeks ended November 2, 2013. Marketing, general and administrative expense during the Fiscal 2014 year-to-date period was \$339.6 million compared to \$363.2 million during the same period in Fiscal 2013. Marketing, general and administrative expense included \$11.2 million of charges for the thirty-nine weeks ended November 1, 2014 and \$9.5 million of charges for the thirty-nine weeks ended November 2, 2013 related to the Company's profit improvement initiative and legal, advisory and other charges related to certain corporate governance matters. Excluding these charges, marketing, general and administrative expense for the Fiscal 2014 year-to-date period was \$328.5 million compared to \$353.7 million for the same period in Fiscal 2013, a decrease of 7%.

The decrease in marketing, general and administrative expense for both the thirteen and thirty-nine weeks ended November 1, 2014 was driven primarily by a decrease in compensation expense, including incentive and equity compensation, partially offset by an increase in marketing expense.

## FINANCIAL CONDITION

### Liquidity and Capital Resources

#### Historical Sources and Uses of Cash

#### Seasonality of Cash Flows

The Company's business has two principal selling seasons: the Spring season which includes the first and second fiscal quarters ("Spring") and the Fall season which includes the third and fourth fiscal quarters ("Fall"). As is typical in the apparel industry, the Company experiences its greatest sales activity during the Fall season due to Back-to-School and Holiday sales periods, particularly in the U.S. The Company relies on excess operating cash flows, which are largely generated in the Fall season, to fund operating expenses throughout the year and to reinvest in the business to support future growth. The Company also has the ABL facility available as a source of additional funding.

### Credit Agreements

In 2011, the Company entered into an unsecured credit agreement (the "2011 Credit Agreement") which, as amended most recently on November 4, 2013, provided for a \$350 million revolving credit facility. In 2012, the Company entered into a term loan agreement (the "2012 Term Loan Agreement" and, together with the 2011 Credit Agreement, the "2011 and 2012 Credit Agreements") which, as amended most recently on November 4, 2013, provided for a \$150 million term loan facility. No borrowings were outstanding under the 2011 Credit Agreement and \$135.0 million in borrowings were outstanding under the 2012 Term Loan Agreement as of February 1, 2014.

On August 7, 2014, in connection with the Company entering into new credit agreements, all amounts outstanding under the 2011 and 2012 Credit Agreements were repaid in full, and the 2011 and 2012 Credit Agreements were terminated. The new credit agreements are discussed below.

### Asset-Based Revolving Credit Facility and Term Loan Facility

On August 7, 2014, A&F, through its subsidiary Abercrombie & Fitch Management Co. ("A&F Management") as the lead borrower (with A&F and certain other subsidiaries as borrowers or guarantors), entered into an asset-based revolving credit agreement. The agreement provides for a senior secured revolving credit facility of up to \$400 million (the "ABL Facility"), subject to a borrowing base. The ABL Facility is available for working capital, capital expenditures and other general corporate purposes.

A&F, through its subsidiary A&F Management as the borrower (with A&F and certain other subsidiaries as guarantors), also entered into a term loan agreement on August 7, 2014, which provides for a term loan facility of \$300 million (the “Term Loan Facility” and, together with the ABL Facility, the “2014 Credit Facilities”). A portion of the proceeds of the Term Loan Facility were used to repay the outstanding balance of approximately \$127.5 million under the Company’s 2012 Term Loan Agreement, to repay outstanding borrowings of approximately \$60 million under the Company’s 2011 Credit Agreement and to pay fees and expenses associated with the transaction.

The Company is amortizing the debt discount and deferred financing fees on a straight-line basis over the respective contractual terms of the 2014 Credit Facilities. No borrowings were outstanding under the ABL Facility as of November 1, 2014.

## Maturity, Amortization and Prepayments

The Term Loan Facility will mature on August 7, 2021 and will amortize at a rate equal to 0.25% of the original principal amount per quarter, beginning with the fourth quarter of Fiscal 2014. The Term Loan Facility is subject to (a) beginning in 2016, an annual mandatory prepayment in an amount equal to 0% to 50% of the Company's excess cash flows in the preceding fiscal year, depending on the Company's leverage ratio and (b) certain other mandatory prepayments upon receipt by the Company of proceeds of certain debt issuances, asset sales and casualty events, subject to certain exceptions specified therein, including reinvestment rights.

Repurchases of A&F's Common Stock were made pursuant to the A&F Board of Directors' authorizations.

As of November 1, 2014, A&F had approximately 9.0 million remaining shares available for repurchase as part of the A&F Board of Directors' previously approved authorizations.

### Future Cash Requirements and Sources of Cash

Over the next twelve months, the Company's primary cash requirements will be to fund operating activities, including the acquisition of inventory, and obligations related to compensation, leases, taxes and other operating activities, as well as to fund capital expenditures and quarterly dividends to stockholders subject to approval by the A&F's Board of Directors. The Company has availability under the ABL Facility as a source of additional funding.

Subject to suitable market conditions and available liquidity, A&F expects to continue to repurchase shares of its Common Stock. The Company anticipates funding these cash requirements utilizing free cash flow generated from operations.

The Company is not dependent on dividends from its foreign subsidiaries to fund its U.S. operations or make distributions to A&F's stockholders. Unremitted earnings from foreign subsidiaries, which are considered to be invested indefinitely, would become subject to income tax if they were remitted as dividends or were lent to A&F or a U.S. affiliate. Although the Company has no intent to repatriate cash held in Europe and Asia, the Company has the ability to repatriate current Europe and Asia cash balances without the occurrence of a taxable dividend in the United States.

### Off-Balance Sheet Arrangements

The Company uses in the ordinary course of business stand-by letters of credit under the existing ABL Facility. The Company had \$9.4 million in stand-by letters of credit outstanding as of November 1, 2014. The Company has no other off-balance sheet arrangements.

### Contractual Obligations

The Company's contractual obligations consist primarily of operating leases, purchase orders for merchandise inventory, unrecognized tax benefits, certain retirement obligations, lease deposits and other agreements to purchase goods and services that are legally binding and that require minimum quantities to be purchased. These contractual obligations impact the Company's short- and long-term liquidity and capital resource needs. During the thirty-nine weeks ended November 1, 2014, there were no material changes in the contractual obligations as of February 1, 2014, with the exception of those obligations which occurred in the normal course of business (primarily changes in the Company's merchandise inventory-related purchases and lease obligations, which fluctuate throughout the year as a result of the seasonal nature of the Company's operations), and the repayments under the 2014 Credit Facilities.

## Gilly Hicks Restructuring

As previously announced, on November 1, 2013, A&F's Board of Directors approved the closure of the Company's stand-alone Gilly Hicks stores. The Company substantially completed the store closures as planned by the end of the first quarter of Fiscal 2014. The Company continues to offer Gilly Hicks products through Hollister stores and direct-to-consumer channels.

As a result of exiting the Gilly Hicks branded stores, the Company currently estimates that it will incur aggregate pre-tax charges of approximately \$89 million, of which \$6.1 million of charges, primarily related to lease terminations, was recognized during the thirty-nine weeks ended November 1, 2014.

Below is a summary of the aggregate pre-tax charges incurred through November 1, 2014 related to the closure of the Gilly Hicks branded stores (in thousands):

Lease Terminations and Store Closure Costs	\$48,395
Asset Impairment	37,940
Other	1,218
Total Charges <sup>(1)</sup>	\$87,553

As of November 1, 2014, the Company incurred aggregate pre-tax charges related to restructuring plans for the Gilly Hicks brand of \$50.2 million for the U.S. Stores segment and \$37.4 million for the International Stores segment.

The remaining charges, primarily lease-related, including the net present value of payments related to lease terminations, potential sub-lease losses and other lease-related costs of approximately \$1.4 million, are expected to be recognized over the remaining lease terms. These estimates are based on a number of significant assumptions and could change materially.

Costs associated with exit or disposal activities are recorded when the liability is incurred. Below is a roll forward of the liabilities recognized on the Consolidated Balance Sheet as of November 1, 2014, related to the closure of the Gilly Hicks stores (in thousands):

Accrued Liability as of February 1, 2014	\$42,507
Costs Incurred	11,361
Cash Payments	(47,533)
Accrued Liability as of November 1, 2014	\$6,335

## Store Activity

The Company now anticipates that it will have opened a total of 12 full-price international stores throughout Fiscal 2014, including 7 Hollister stores and 4 Abercrombie & Fitch stores. The Company also expects to have opened 9 international and U.S. outlet stores during Fiscal 2014. In addition, the Company continues to expect to have closed approximately 60 stores in the U.S. during Fiscal 2014 through natural lease expirations.

The Company expects total capital expenditures for Fiscal 2014 to be approximately \$200 million. Capital expenditures totaled \$132.2 million and \$124.0 million for the thirty-nine week periods ended November 1, 2014 and November 2, 2013, respectively.

During the thirty-nine week period ended November 1, 2014, the Company closed the last remaining U.S. Gilly Hicks store.

Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board ("FASB") issued ASU No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists," which amends ASC 740, "Income Taxes." The amendments provide guidance on the financial statement presentation of an unrecognized tax benefit as either a reduction of a deferred tax asset or as a liability, when a net operating loss carryforward, similar tax loss or a tax credit carryforward exists. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this guidance did not have an impact on the Company's consolidated financial statements.

In May 2014, FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements in "Revenue Recognition (Topic 605)," and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU No. 2014-09 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and is to be applied retrospectively, with early application not permitted. The Company is currently evaluating the potential impact of this standard.

In June 2014, FASB issued ASU No. 2014-12, "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period," which amends ASC 718, "Compensation—Stock Compensation." The amendment provides guidance on the treatment of share-based payments awards with a specific performance target, requiring that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. ASU No. 2014-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2015 with early adoption permitted. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

Critical Accounting Estimates

We describe our significant accounting policies in Note 3, "SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES," of the Notes to Consolidated Financial Statements contained in "ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA" of A&F's Annual Report on Form 10-K for Fiscal 2013. We discuss our critical accounting estimates in "ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS", in our Annual Report on Form 10-K for Fiscal 2013. There have been no significant changes in our significant accounting policies or critical accounting estimates since the end of Fiscal 2013 with the exception of the items below.

Policy	Effect if Actual Results Differ from Assumptions
<p><b>Property and Equipment</b>                      Long-lived assets, primarily comprised of property and equipment, are reviewed whenever events or changes in circumstances indicate that full recoverability of net asset group balances through future cash flows is in question. In addition, the Company conducts an annual impairment analysis in the fourth quarter of each year. For the purposes of the annual review, the Company reviews long-lived assets associated with stores that have an operating loss in the current year and have been open for at least two full years.</p> <p>The Company's impairment calculation requires management to make assumptions and judgments related to factors used in the evaluation for impairment, including, but not limited to, management's expectations for future operations and projected cash flows. The key assumptions used in our undiscounted future cash flow model include sales, gross margin and, to a lesser extent, operating expenses.</p>	<p>The Company has not made any material changes in the accounting methodology used to determine impairment loss over the past three fiscal years.</p> <p>Based on the impact of current sales trends, a number of stores were tested for impairment during the third quarter. The stores that were tested and not impaired had an insignificant aggregate net asset group value. Net asset group value includes the value of construction allowances.</p> <p>A 10% decrease in the sales assumption used to project future cash flows in the third quarter of Fiscal 2014 impairment test would have increased the impairment charge by an insignificant amount.</p>

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Investment Securities

The Company maintains its cash equivalents in financial instruments, primarily money market funds and United States treasury bills, with original maturities of three months or less.

The irrevocable rabbi trust (the "Rabbi Trust") is intended to be used as a source of funds to match respective funding obligations to participants in the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan I, the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan II and the Chief Executive Officer Supplemental Executive Retirement Plan. The Rabbi Trust assets are consolidated and recorded at fair value, with the exception of the trust-owned life insurance policies which are recorded at cash surrender value. The Rabbi Trust assets are included in Other Assets on the Consolidated Balance Sheets and are restricted as to their use as noted above. The change in cash surrender value of the trust-owned life insurance policies held in the Rabbi Trust resulted in realized gains of \$0.8 million for each of the thirteen week periods ended November 1, 2014 and November 2, 2013 and realized gains of \$2.4 million and \$2.5 million for the thirty-nine week periods ended November 1, 2014 and November 2, 2013, respectively.

Interest Rate Risks

On August 7, 2014, the Company entered into new credit agreements and all amounts outstanding under the Company's previously existing term loan facility and revolving credit facility were repaid in full. The Company has approximately \$300 million in gross borrowings outstanding under its new term loan facility (the "Term Loan Facility") and no borrowings outstanding under its new senior secured revolving credit facility (the "ABL Facility" and, together with the Term Loan Facility, the "2014 Credit Facilities"). The 2014 Credit Facilities carry interest rates that are tied to LIBOR or an alternate base rate plus a margin. The interest rate on the Term Loan Facility has a 100 basis point LIBOR floor, and assuming no changes in the Company's financial structure as it stands, an increase in market interest rates of 100 basis points would not have a material effect on annual interest expense. This hypothetical analysis for the fifty-two week period ending January 31, 2015 may differ from the actual change in interest expense due to various conditions which may result in changes in interest rates under the Company's Credit Facilities.

Foreign Exchange Rate Risk

A&F's international subsidiaries generally operate with functional currencies other than the U.S. Dollar. The Company's Consolidated Financial Statements are presented in U.S. Dollars. Therefore, the Company must translate revenues, expenses, assets and liabilities from functional currencies into U.S. Dollars at exchange rates in effect during or at the end of the reporting period. The fluctuation in the value of the U.S. Dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. The potential impact of currency fluctuation increases as international expansion increases.

A&F and its subsidiaries have exposure to changes in currency exchange rates associated with foreign currency transactions and forecasted foreign currency transactions, including the sale of inventory between subsidiaries and foreign denominated assets and liabilities. Such transactions are denominated primarily in U.S. Dollars, Australian Dollars, British Pounds, Canadian Dollars, Chinese Yuan, Danish Kroner, Euros, Hong Kong Dollars, Japanese Yen, Polish Zloty, South Korean Won, Singapore Dollars, Swedish Kroner, Swiss Francs and UAE Dirham. The Company has established a program that primarily utilizes foreign currency forward contracts to partially offset the risks associated with the effects of certain foreign currency transactions and forecasted transactions. Under this program, increases or decreases in foreign currency exposures are partially offset by gains or losses on forward contracts, to

mitigate the impact of foreign currency gains or losses. The Company does not use forward contracts to engage in currency speculation. All outstanding foreign currency forward contracts are recorded at fair value at the end of each fiscal period.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

A&F maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to provide reasonable assurance that information required to be disclosed in the reports that A&F files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to A&F’s management, including the Chief Executive Officer of A&F (the principal executive officer) and the Executive Vice President and Chief Financial Officer of A&F (the principal financial officer), as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

A&F’s management, including the Interim Principal Executive Officer of A&F and the Executive Vice President and Chief Financial Officer of A&F, evaluated the effectiveness of A&F’s design and operation of its disclosure controls and procedures as of the end of the fiscal quarter ended November 1, 2014. Based upon that evaluation, the Interim Principal Executive Officer of A&F and the Executive Vice President and Chief Financial Officer of A&F concluded that A&F’s disclosure controls and procedures were effective at a reasonable level of assurance as of November 1, 2014, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in A&F’s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during A&F’s fiscal quarter ended November 1, 2014 that materially affected, or are reasonably likely to materially affect, A&F’s internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where it deems appropriate to do so under applicable accounting rules. The Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of claims. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. The Company has established accruals for certain matters where losses are deemed probable and reasonably estimable. There are other claims and legal proceedings pending against the Company for which accruals have not been established.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in Part I, "ITEM 1A. RISK FACTORS" of A&F's Annual Report on Form 10-K for Fiscal 2013 filed on March 31, 2014, except for the following:

We rely on the experience and skills of our senior executive officers, the loss of whom could have a material adverse effect on our business.

Our senior executive officers closely supervise all aspects of our business - in particular, the design of our merchandise and the operation of our stores. Our senior executive officers have substantial experience and expertise in the retail business and have made significant contributions to the growth and success of our brands. If we were to lose the benefit of their involvement - in particular the services of any one or more of certain members of the Office of the Chairman, including Jonathan E. Ramsden, Chief Operating Officer and Interim Principal Executive Officer; Christos E. Angelides, Brand President of Abercrombie & Fitch; Fran Horowitz, Brand President of Hollister - without adequate succession plans, our business could be adversely affected. In addition, our new leadership positions for our major brands will play an important role in enhancing brand engagement and profitability. Competition for such senior executive officers is intense, and we cannot be sure we will be able to attract, retain and develop a sufficient number of qualified senior executive officers in future periods.

We are currently involved in a search for a new chief executive officer and if this search is delayed or if we were to lose the services of other key personnel, our business could be negatively impacted.

On December 8, 2014, Michael S. Jeffries resigned from the positions of chief executive officer and director of the Company. Our board of directors appointed Arthur C. Martinez to serve as Executive Chairman of the Company, created an Office of the Chairman, and initiated a search to identify a new chief executive officer. The search for a new chief executive officer may be disruptive to our operations and create uncertainty about our business and future direction. To the extent there is a delay in choosing a new chief executive officer, our business could be negatively impacted. In addition, our future success depends in part upon the continued service of key members of our senior management team.

Our inability to transition to a brand-based organizational model in a timely fashion could have a negative impact on our business.

As part of our transition to a brand-based organizational model, the Company hired Christos E. Angelides as the Brand President of Abercrombie & Fitch and abercrombie kids and Fran Horowitz as the Brand President of Hollister. The successful transition to a brand-based organizational model is dependent on the speed, efficiency and effectiveness of this transition. In addition, it may take some time for our Brand Presidents to become fully integrated into our business. Any delay in a successful transition to a brand-based organizational model and integration of our Brand Presidents may have a negative impact on our business.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no sales of equity securities during the third quarter of Fiscal 2014 that were not registered under the Securities Act of 1933.

The following table provides information regarding the purchase of shares of Common Stock of A&F made by or on behalf of A&F or any "affiliated purchaser" as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, during each fiscal month of the thirteen-week period ended November 1, 2014:
