NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

Nature of Business

Abercrombie & Fitch Co. ("A&F"), through its subsidiaries (collectively, A&F and its subsidiaries are referred to as "Abercrombie & Fitch" or the "Company"), is a specialty retailer of branded apparel and accessories. The Company operates stores in North America, Europe, Asia and the Middle East and direct-to-consumer operations in North America, Europe and Asia that serve its customers throughout the world.

Principles of Consolidation

The accompanying Condensed Consolidated Financial Statements include historical financial statements of, and transactions applicable to, the Company and reflect its assets, liabilities, results of operations and cash flows.

The Company has interests in a United Arab Emirates business venture and in a Kuwait business venture with Majid al Futtaim Fashion L.L.C. ("MAF"), each of which meets the definition of a variable interest entity ("VIE"). The Company is deemed to be the primary beneficiary of these VIEs; therefore, the Company has consolidated the assets, liabilities, results of operations and cash flows of these VIEs.

Fiscal Year

The Company's fiscal year ends on the Saturday closest to January 31. All references herein to "Fiscal 2016" and "Fiscal 2015" represent the fifty-two week fiscal years ending on January 28, 2017 and ended on January 30, 2016, respectively.

Interim Financial Statements

The Condensed Consolidated Financial Statements as of July 30, 2016, and for the thirteen and twenty-six week periods ended July 30, 2016 and August 1, 2015, are unaudited and are presented pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, these Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto contained in A&F's Annual Report on Form 10-K for Fiscal 2015 filed with the SEC on March 28, 2016. The January 30, 2016 consolidated balance sheet data, included herein, were derived from audited consolidated financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP").

In the opinion of management, the accompanying Condensed Consolidated Financial Statements reflect all adjustments (which are of a normal recurring nature) necessary to state fairly, in all material respects, the financial position and results of operations and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for Fiscal 2016.

Table of Contents

Recent Accounting Pronouncements

The following table provides a brief description of recent accounting pronouncements that could affect the Company's financial statements:

Accounting Standards Update (ASU)	Description	Date of Adoption	Effect on the Financial Statements or Other Significant Matters
Standards not yet adopted			
ASU 2015-11, Simplifying the Measurement of Inventory	This update amends ASC 330, Inventory. The new guidance applies to inventory measured using first-in, first-out (FIFO) or average cost. Under this amendment, inventory should be measured at the lower of cost and net realizable value, which is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.	January 29, 2017*	The adoption of this amendment is not expected to have a material impact on the Company's consolidated financial statements.
ASU 2016-09, Compensation—Stock Compensation	This update amends ASC 718, Compensation. Under the new guidance, simplified measures will be used for accounting for income taxes, identifying statutory tax withholding thresholds, and classifying tax effects and taxes paid related to stock compensation. This guidance also allows for entities to make a policy election to estimate forfeitures or account for them when they occur.	January 29, 2017*	The Company is currently evaluating the method of adoption and the impact that this standard will have on its consolidated financial statements.
ASU 2014-09, Revenue from Contracts with Customers	This update supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. The new guidance requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration which the entity expects to be entitled to in exchange for those goods or services.	February 4, 2018	The Company is currently evaluating the method of adoption and the impact that this standard will have on its consolidated financial statements.
ASU 2016-02, Leases	This update supersedes the leasing requirements in ASC 840, Leases. The new guidance requires an entity to recognize lease assets and lease liabilities on the balance sheet and disclose key leasing information that depicts the lease rights and obligations of an entity.	February 3, 2019*	The Company is currently evaluating the method of adoption and the impact that this standard will have on its consolidated financial statements.

* Early adoption is permitted.

Table of Contents

2. NET LOSS PER SHARE

Net loss per basic and diluted share is computed based on the weighted-average number of outstanding shares of common stock.

The following table presents weighted-average shares outstanding and anti-dilutive shares:

	Thirteen Weeks		Twenty-six Weeks	
	Ended		Ended	
(in thousands)	July 30,	August	July 30,	August
	2016	1, 2015	2016	1, 2015

Weighted-average treasury shares	(35,356)	(33,587)	(35,515)	(33,688)
Weighted-average — basic shares	67,944	69,713	67,785	69,612
Dilutive effect of share-based compensation awards	—	—	—	—
Weighted-average — diluted shares	67,944	69,713	67,785	69,612
Anti-dilutive shares ⁽¹⁾	6,622	12,258	6,251	12,258

- (1) Reflects the total number of shares related to outstanding share-based compensation awards that have been excluded from the computation of net loss per diluted share because the impact would have been anti-dilutive.

3. FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are prioritized based on a three-level hierarchy. The three levels of inputs to measure fair value are as follows:

Level 1—inputs are unadjusted quoted prices for identical assets or liabilities that are available in active markets that the Company can access at the measurement date.

Level 2—inputs are other than quoted market prices included within Level 1 that are observable for assets or liabilities, directly or indirectly.

Level 3—inputs to the valuation methodology are unobservable.

The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The three levels of the hierarchy and the distribution within it of the Company's assets and liabilities, which are measured at fair value on a recurring basis, were as follows:

	Assets and Liabilities at Fair Value as of July 30, 2016			
	Level 1	Level 2	Level 3	Total
(in thousands)				
Assets:				
Trust-owned life insurance policies (at cash surrender value)	\$—	\$98,113	\$—	\$98,113
Money market funds	23	—	—	23
Derivative financial instruments	—	3,645	—	3,645
Total assets	\$23	\$101,758	\$—	\$101,781
Liabilities:				
Derivative financial instruments	\$—	\$2,867	\$—	\$2,867

Assets at Fair Value as of January
30, 2016

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Money market funds	\$311,349	\$—	\$	—\$311,349
Derivative financial instruments	—	4,166	—	4,166
Total assets	\$311,349	\$4,166	\$	—\$315,515

The Level 2 assets and liabilities consist of derivative financial instruments, primarily forward foreign currency exchange contracts. The fair value of forward foreign currency exchange contracts is determined by using quoted market prices of the same or similar instruments, adjusted for counterparty risk.

Table of Contents

Fair value of borrowings:

The Company's borrowings under the Company's credit facilities are carried at historical cost in the accompanying Condensed Consolidated Balance Sheets. For disclosure purposes, the Company estimated the fair value of borrowings outstanding based on market rates for similar types of debt, which are considered to be Level 2 inputs.

The carrying amount and fair value of the Company's term loan facility were as follows:

(in thousands)	July 30, 2016	January 30, 2016
Gross borrowings outstanding, carrying amount	\$293,250	\$ 293,250
Gross borrowings outstanding, fair value	\$290,318	\$ 284,453

No borrowings were outstanding under the Company's senior secured revolving credit facility as of July 30, 2016 or January 30, 2016.

4. PROPERTY AND EQUIPMENT, NET

Property and equipment, net consisted of:

(in thousands)	July 30, 2016	January 30, 2016
Property and equipment, at cost	\$2,825,737	\$2,792,437
Less: Accumulated depreciation and amortization	(1,975,623)	(1,898,259)
Property and equipment, net	\$850,114	\$894,178

Long-lived assets, primarily comprised of leasehold improvements, furniture, fixtures and equipment, are tested for recoverability whenever events or changes in circumstances indicate that the carrying amount of the long-lived assets might not be recoverable. These include, but are not limited to, material declines in operational performance, a history of losses, an expectation of future losses, other than temporary adverse market conditions and store closure or relocation decisions. On at least a quarterly basis, the Company reviews for indicators of impairment at the individual store level, the lowest level for which cash flows are identifiable.

Stores that display an indicator of impairment are subjected to an impairment assessment. The Company's impairment assessment requires management to make assumptions and judgments related, but not limited, to management's expectations for future operations and projected cash flows. The key assumptions used in the Company's undiscounted future cash flow models include sales, gross margin and, to a lesser extent, operating expenses.

An impairment loss would be recognized when these undiscounted future cash flows are less than carrying amount of the asset group. In the circumstance of impairment, the loss would be measured as the excess of the carrying amount of the asset group over its fair value. The key assumptions used in estimating the fair value of impaired assets may include projected cash flows and discount rate.

In the second quarter of Fiscal 2016, the Company incurred non-cash asset impairment charges of \$6.4 million as it was determined that the carrying value of certain store assets would not be recoverable and exceeded fair value. These asset impairment charges are related to the Company's abercrombie kids flagship store in London.

In the year-to-date period of Fiscal 2015, the Company incurred non-cash asset impairment charges of \$6.1 million related to a decision to remove certain store fixtures in connection with changes to the Abercrombie and Hollister

store experiences, and a fair value adjustment related to the Company-owned aircraft which was sold in the second quarter of Fiscal 2015.

The Company had \$38.1 million and \$37.3 million of construction project assets in property and equipment, net at July 30, 2016 and January 30, 2016, respectively, related to the construction of buildings in certain lease arrangements where the Company is deemed to be the owner of the construction project.

Table of Contents

5. INCOME TAXES

The Company's quarterly tax provision and the estimate of the annual effective tax rate are subject to significant variation due to several factors. These include variability in the pre-tax jurisdictional mix of earnings, changes in how the Company does business including entering into new businesses or geographies, changes in foreign currency exchange rates, changes in law, regulations, and administrative practices, relative changes of expenses or losses for which tax benefits are not recognized and the impact of discrete items. The impact of these items on the effective tax rate will be greater at lower levels of pre-tax income (loss).

6. SHARE-BASED COMPENSATION

The Company recognized share-based compensation expense of \$4.4 million and \$11.0 million for the thirteen and twenty-six weeks ended July 30, 2016, respectively, and \$7.2 million and \$14.1 million for the thirteen and twenty-six weeks ended August 1, 2015, respectively. The Company also recognized tax benefits related to share-based compensation of \$1.7 million and \$4.1 million for the thirteen and twenty-six weeks ended July 30, 2016, respectively, and \$2.5 million and \$4.8 million for the thirteen and twenty-six weeks ended August 1, 2015, respectively.

Fair value of both service-based and performance-based restricted stock units is calculated using the market price of the underlying common stock on the date of grant reduced for anticipated dividend payments on unvested shares. In determining fair value, the Company does not take into account performance-based vesting requirements.

Performance-based vesting requirements are taken into account in determining the number of awards expected to vest. For market-based restricted stock units, fair value is calculated using a Monte Carlo simulation with the number of shares that ultimately vest dependent on the Company's total stockholder return measured against the total stockholder return of a select group of peer companies over a three-year period. For an award with performance-based or market-based vesting requirements, the number of shares that ultimately vest can vary from 0% to 200% of target depending on the level of achievement of performance criteria. Unvested shares related to restricted stock units with performance-based vesting conditions are reflected at 100% of their target vesting amount in the table above.

Service-based restricted stock units are expensed on a straight-line basis over the total requisite service period, net of forfeitures. Performance-based restricted stock units subject to graded vesting are expensed on an accelerated attribution basis, net of forfeitures. Market-based restricted stock units without graded vesting features are expensed on a straight-line basis over the requisite service period, net of forfeitures.

As of July 30, 2016, there was \$48.8 million, \$2.4 million and \$3.5 million of total unrecognized compensation cost, net of estimated forfeitures, related to service-based, performance-based and market-based restricted stock units, respectively. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 17 months, 16 months and 15 months for service-based, performance-based and market-based restricted stock units, respectively.

Additional information pertaining to restricted stock units for the twenty-six weeks ended July 30, 2016 and August 1, 2015 follows:

7. DERIVATIVE INSTRUMENTS

The Company is exposed to risks associated with changes in foreign currency exchange rates and uses derivative instruments, primarily forward contracts, to manage the financial impacts of these exposures. The Company does not use forward contracts to engage in currency speculation and does not enter into derivative financial instruments for trading purposes.

The Company uses derivative instruments, primarily forward contracts designated as cash flow hedges, to hedge the foreign currency exposure associated with forecasted foreign-currency-denominated intercompany inventory sales to foreign subsidiaries and the related settlement of the foreign-currency-denominated intercompany receivables. Fluctuations in exchange rates will either increase or decrease the Company's intercompany equivalent cash flows and affect the Company's U.S. Dollar earnings. Gains or losses on the foreign currency exchange forward contracts that are used to hedge these exposures are expected to partially offset this variability. Foreign currency exchange forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed upon settlement date. These forward contracts typically have a maximum term of twelve months. The sale of the inventory to the Company's customers will result in the reclassification of related derivative gains and losses that are reported in accumulated other comprehensive loss ("AOCL"). Substantially all of the unrealized gains or losses related to designated cash flow hedges as of July 30, 2016 will be recognized in cost of sales, exclusive of depreciation and amortization, over the next twelve months.

The Company presents its derivative assets and derivative liabilities at their gross fair values on the Condensed Consolidated Balance Sheets. However, our master netting and other similar arrangements allow net settlements under certain conditions.

As of July 30, 2016, the Company had outstanding the following foreign currency exchange forward contracts that were entered into to hedge either a portion, or all, of forecasted foreign-currency-denominated intercompany inventory sales, the resulting settlement of the foreign-currency-denominated intercompany accounts receivable, or both:

(in thousands)	Notional Amount ⁽¹⁾
Euro	\$ 102,221

Canadian dollar	\$ 20,884
Japanese yen	\$ 11,225

⁽¹⁾ Amounts are reported in U.S. Dollars equivalent as of July 30, 2016.

The Company also uses foreign currency exchange forward contracts to hedge certain foreign-currency-denominated net monetary assets/liabilities. Examples of monetary assets/liabilities include cash balances, receivables and payables. Fluctuations in exchange rates result in transaction gains/(losses) being recorded in earnings as U.S. GAAP requires that monetary assets/liabilities be remeasured at the spot exchange rate at quarter-end or upon settlement. The Company has chosen not to apply hedge accounting to these instruments because there are no differences in the timing of gain or loss recognition on the hedging instruments and the hedged items.

10. CONTINGENCIES

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where losses are deemed probable and reasonably estimable. The Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of claims. As of July 30, 2016, the Company had accrued charges of approximately \$10 million for certain legal contingencies. In addition, there are certain claims and legal proceedings pending against the Company for which accruals have not been established. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Additionally, for the quarter ended July 30, 2016, the Company recognized a \$12.3 million gain in other operating income, net in connection with a settlement of certain economic loss claims associated with the April 2010 Deepwater Horizon oil spill.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

BUSINESS SUMMARY

The Company is a specialty retailer that operates stores in North America, Europe, Asia and the Middle East and direct-to-consumer operations in North America, Europe and Asia that serve its customers throughout the world. The Company sells casual sportswear apparel, including knit tops and woven shirts, graphic t-shirts, fleece, jeans and woven pants, shorts, sweaters, and outerwear; personal care products; and accessories for men, women and kids under the Abercrombie & Fitch, abercrombie kids and Hollister brands.

The Company's fiscal year ends on the Saturday closest to January 31. Fiscal years are designated in the consolidated financial statements and notes by the calendar year in which the fiscal year commences. All references herein to "Fiscal 2016" represent the fifty-two week fiscal year that will end on January 28, 2017, and to "Fiscal 2015" represent the fifty-two week fiscal year that ended January 30, 2016.

For the second quarter of Fiscal 2016, net sales decreased 4% to \$783.2 million from \$817.8 million for the second quarter of Fiscal 2015. The gross profit rate for the second quarter of Fiscal 2016 was 60.9% compared to 62.3% for the second quarter of Fiscal 2015. Operating loss was \$10.8 million for the second quarter of Fiscal 2016 compared to operating income of \$2.0 million for the second quarter of Fiscal 2015. Net loss and net loss per diluted share attributable to A&F were \$13.1 million and \$0.19, respectively, for the second quarter of Fiscal 2016, compared to net loss and net loss per diluted share attributable to A&F of \$0.8 million and \$0.01, respectively, for the second quarter of Fiscal 2015.

For the Fiscal 2016 year-to-date period, net sales decreased 4% to \$1.469 billion from \$1.527 billion for the comparable period of Fiscal 2015. The gross profit rate for the Fiscal 2016 year-to-date period was 61.5% compared to 60.3% for the comparable period of Fiscal 2015. Operating loss was \$65.7 million for the Fiscal 2016 year-to-date period compared to \$88.2 million for the comparable period of Fiscal 2015. Net loss and net loss per diluted share attributable to A&F were \$52.7 million and \$0.78, respectively, for the Fiscal 2016 year-to-date period, compared to net loss and net loss per diluted share attributable to A&F of \$64.1 million and \$0.92, respectively, for the comparable period of Fiscal 2015.

Excluding certain items, the adjusted non-GAAP gross profit rate was 60.9%, operating loss was \$16.7 million and net loss and net loss per diluted share attributable to A&F were \$16.8 million and \$0.25, respectively, for the second quarter of 2016, compared to adjusted non-GAAP gross profit rate of 62.0%, operating income of \$16.5 million, and net income and net income per diluted share attributable to A&F of \$8.6 million and \$0.12, respectively, for the second quarter of 2015. Excluding certain items, adjusted non-GAAP gross profit rate was 61.5%, operating loss was \$71.6 million and net loss and net loss per diluted share attributable to A&F were \$56.4 million and \$0.83, respectively, for the year-to-date period of Fiscal 2016, compared to adjusted non-GAAP gross profit rate of 61.9%, operating loss of \$35.9 million, and net loss and net loss per diluted share attributable to A&F of \$28.6 million and \$0.41, respectively, for the year-to-date period of Fiscal 2015.

As of July 30, 2016, the Company had \$455.6 million in cash and equivalents, and \$293.3 million in gross borrowings outstanding under its term loan facility. Net cash used by operating activities was \$57.9 million for the twenty-six weeks ended July 30, 2016. The Company also used cash of \$58.0 million for capital expenditures and \$27.0 million to pay dividends during the twenty-six weeks ended July 30, 2016.

NON-GAAP FINANCIAL MEASURES

This Quarterly Report on Form 10-Q includes discussion of certain financial measures under "RESULTS OF OPERATIONS" on both a GAAP and a non-GAAP basis. The Company believes that the non-GAAP financial measures presented in this "ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" are useful to investors as they provide a measure of the Company's operating performance as compared to historical periods, excluding the effect of certain items which the Company believes do not reflect its future operating outlook, and therefore supplements investors' understanding of comparability across periods. These non-GAAP financial measures should be used supplemental to, not as an alternative to, the Company's GAAP financial results, and may not be the same as similar measures presented by other companies.

Changes in comparable sales are calculated on a constant currency basis by converting prior year store and online sales at current year exchange rates. For the purpose of this calculation, a store must have been open as the same brand at least one year and its square footage must not have been expanded or reduced by more than 20% within the past year.

In addition, the following financial measures are disclosed on a GAAP basis and, as applicable, on a non-GAAP basis excluding items relating to asset impairment, claims settlement benefits, inventory write-down, net, legal settlement charges, store fixture disposal, profit improvement initiative, lease termination and store closure costs and restructuring benefit: cost of sales, exclusive of depreciation and amortization; gross profit; stores and distribution expense; marketing, general and administrative expense; other operating income, net; operating (loss) income; income tax (benefit) expense; effective tax rate; net loss attributable to A&F; and, net loss per diluted share attributable to A&F. Certain of these GAAP and non-GAAP measures are also expressed as a percentage of net sales. The income tax effect of non-GAAP items is calculated as the difference in income tax (benefit) expense with and without the non-GAAP adjustments to income before income taxes based upon the tax laws and statutory income tax rates of the affected tax jurisdictions. Management used these non-GAAP financial measures during the periods presented to assess the Company's performance and to develop expectations for future operating performance.

CURRENT TRENDS AND OUTLOOK

Traffic remained a significant headwind for the second quarter of Fiscal 2016 as flagship and tourist stores, which are concentrated in the Abercrombie brand, accounted for the vast majority of the comparable sales decline across brands and geographies. Comparable sales improvement from the first quarter in international markets, driven by a recovery in the Hollister European business, including in the U.K., was offset by a decline in the U.S. trend. In addition, we saw strong growth in our direct-to-consumer business, both domestically and internationally.

During the quarter, we began to roll out programs that reflect our new brand positions for both the Abercrombie and Hollister brands. Our goal for Abercrombie is to be the iconic American casual luxury brand for today's twenty-something consumer, and our goal for Hollister is to be the iconic brand of the global teenage consumer. While still in the early stages, a clearly defined brand image and voice is beginning to be communicated across all customer touch points.

As we look to the rest of the year, we expect the environment to remain challenging with flagship and tourist locations continuing to weigh on the business. We are confident, however, that we are focusing on the right priorities and we expect to see traction in our business over time as we introduce new product and invest in marketing to drive awareness and relevance for our brands.

For Fiscal 2016, we now expect:

- Comparable sales to remain challenging through the second half of the year, with a disproportionate effect from flagship and tourist locations.

- Adverse effects from foreign currency exchange rates on sales and operating income.

- A gross margin rate flat to last year's adjusted non-GAAP rate of 61.9%, but down in the third quarter due to adverse effects from foreign currency.

- Operating expense dollars to be down slightly to last year's adjusted non-GAAP operating expense, with investments in marketing, skewed towards the third quarter, offset by savings from expense reduction efforts

- An effective tax rate in the mid-to-upper 30s.

- Net income attributable to noncontrolling interests of approximately \$5 million

- A weighted average diluted share count of approximately 68 million shares, excluding the effect of potential share buybacks.

We expect capital expenditures to be at the low end of the range of \$150 million to \$175 million for the full year.

We plan to open approximately 15 new stores in Fiscal 2016, including approximately 10 in international markets, primarily China, and approximately five in the U.S. We also plan to open six new outlet stores, primarily in the U.S. In addition, we anticipate closing up to 60 stores in the U.S. during the fiscal year through natural lease expirations.

Excluded from our outlook are the effects of certain potential items, including, but not limited to, insurance recoveries and impairments.

(1) Changes in comparable sales are calculated on a constant currency basis by converting prior year store and online sales at current year exchange rates. For the purpose of this calculation, a store must have been open as the same brand at least one year and its square footage must not have been expanded or reduced by more than 20% within the past year.

(2) Includes Abercrombie & Fitch and abercrombie kids brands.

For the second quarter and year-to-date period of Fiscal 2016, net sales decreased 4% compared to the second quarter and year-to-date period of Fiscal 2015, primarily attributable to a 4% decrease in comparable sales in each period, mainly driven by flagship and tourist stores across both brands and geographies.

(1) Inventory write-down charges related to a first quarter of Fiscal 2015 decision to accelerate the disposition of certain aged merchandise, net of recoveries realized during the second quarter Fiscal 2015.

For the second quarter of Fiscal 2016, cost of sales, exclusive of depreciation and amortization, as a percentage of net sales increased by approximately 140 basis points as compared to the second quarter of Fiscal 2015, primarily due to the adverse effects from changes in foreign currency exchange rates of approximately 90 basis points and the net impact of higher average unit costs partially offset by higher average unit retails. Excluding certain items, presented in the table above, second quarter Fiscal 2016 adjusted non-GAAP cost of sales, exclusive of depreciation and amortization, as a percentage of net sales increased by approximately 110 basis points as compared to the second quarter of Fiscal 2015.

For the year-to-date period of Fiscal 2016, cost of sales, exclusive of depreciation and amortization, as a percentage of net sales decreased by approximately 110 basis points as compared to the year-to-date period of Fiscal 2015, which included a \$24.2 million, net inventory write-down. Excluding the \$24.2 million, net inventory write-down, year-to-date Fiscal 2016 adjusted non-GAAP cost of sales, exclusive of depreciation and amortization, as a percentage of net sales increased by approximately 40 basis points as compared to the year-to-date period of Fiscal 2015, primarily due to the adverse effects from changes in foreign currency exchange rates of approximately 80 basis points and the net impact of higher average unit cost partially offset by higher average unit retails.

For the second quarter of Fiscal 2016, stores and distribution expense as a percentage of net sales increased by approximately 130 basis points as compared to the second quarter of Fiscal 2015, primarily due to the deleveraging effect of negative comparable sales and higher direct-to-consumer expense, partially offset by expense reduction efforts. Excluding certain items, presented in the table above, second quarter Fiscal 2016 adjusted non-GAAP stores and distribution expense as a percentage of net sales increased by approximately 150 basis points as compared to the second quarter of Fiscal 2015.

For the year-to-date period of Fiscal 2016, stores and distribution expense as a percentage of net sales increased by approximately 10 basis points as compared to the year-to-date period of Fiscal 2015, primarily due to the deleveraging effect from negative comparable sales and higher direct-to-consumer expense, partially offset by expense reduction efforts. Excluding certain items, presented in the table above, year-to-date Fiscal 2016 adjusted non-GAAP stores and distribution expense as a percentage of net sales increased by approximately 50 basis points as compared to the year-to-date period of Fiscal 2015.

For the second quarter of Fiscal 2016, shipping and handling costs, including costs incurred to store, move and prepare product for shipment and costs incurred to physically move product to the customer, associated with direct-to-consumer operations were \$27.4 million as compared to \$25.7 million for the second quarter of Fiscal 2015. For the year-to-date period of Fiscal 2016, shipping and handling costs were \$50.2 million as compared to \$47.8 million for the year-to-date period of Fiscal 2015.

For the second quarter of Fiscal 2016, handling costs, including costs incurred to store, move and prepare product for shipment to stores, were \$10.3 million as compared to \$11.0 million for the second quarter of Fiscal 2015. For the year-to-date period of Fiscal 2016, handling costs were \$20.7 million as compared to \$21.9 million for the year-to-date period of Fiscal 2015.

Shipping and handling costs are included in stores and distribution expense on the Condensed Consolidated Statements of Operations and Comprehensive Loss.

⁽¹⁾ Refer to "Operating (Loss) Income" for details of excluded items. The Company computed the tax effect of excluded items based on non-GAAP pre-tax (loss) income.

For the second quarter of Fiscal 2016, the effective tax rate was 22.6% as compared to 123.5% for the second quarter of Fiscal 2015. The change in tax rate was primarily driven by the change in the level and mix of consolidated pretax income between operating and valuation allowance jurisdictions. Excluding certain items, as presented above in the table under "Operating (Loss) Income," the second quarter Fiscal 2016 adjusted non-GAAP effective tax rate was 26.8% as compared to 16.0% for the second quarter of Fiscal 2015.

For the year-to-date period of Fiscal 2016, the effective tax rate was 32.4% as compared to 35.7% for the year-to-date period of Fiscal 2015. The decrease in rate was primarily due to the change in mix of consolidated pretax income as well as the recognition of deferred U.S. income taxes on net income generated after October 31, 2015. Excluding certain items, as presented above in the table under "Operating (Loss) Income," year-to-date Fiscal 2016 adjusted non-GAAP effective tax rate was 32.8% as compared to 39.7% for the year-to-date period of Fiscal 2015.

LIQUIDITY AND CAPITAL RESOURCES

HISTORICAL SOURCES AND USES OF CASH

Seasonality of Cash Flows

The Company's business has two principal selling seasons: the Spring season which includes the first and second fiscal quarters ("Spring") and the Fall season which includes the third and fourth fiscal quarters ("Fall"). As is typical in the apparel industry, the Company experiences its greatest sales activity during the Fall season due to Back-to-School and Holiday sales periods. The Company relies on excess operating cash flows, which are largely generated in the Fall season, to fund operating expenses throughout the year and to reinvest in the business to support future growth. The Company also has a revolving credit facility available as a source of additional funding.

Asset-Based Revolving Credit Facility

The Company has a senior secured revolving credit facility with availability of up to \$400 million (the "ABL Facility"), subject to a borrowing base. The ABL Facility is available for working capital, capital expenditures and other general corporate purposes. The ABL Facility will mature on August 7, 2019. No borrowings were outstanding under the ABL Facility as of July 30, 2016.

Amounts borrowed under the ABL Facility bear interest, at the Company's option, at either an adjusted LIBOR rate plus a margin of 1.25% to 1.75% per annum, or an alternate base rate plus a margin of 0.25% to 0.75% per annum based on average historical excess availability during the preceding quarter. The Company is also required to pay a fee of 0.25% per annum on undrawn commitments under the ABL Facility. Customary agency fees and letter of credit fees are also payable in respect of the ABL Facility.

As of July 30, 2016, the borrowing base on the ABL Facility was \$312.9 million. As of September 1, 2016, the Company had not drawn on the ABL Facility, but had approximately \$1.8 million in outstanding stand-by letters of credit under the ABL Facility.

Term Loan Facility

The Company is also party to a term loan agreement, which provides for a term loan facility of \$300 million (the "Term Loan Facility" and, together with the ABL Facility, the "2014 Credit Facilities"). The Term Loan Facility was issued at a \$3 million or 1.0% discount. In addition, the Company recorded deferred financing fees associated with the issuance of the 2014 Credit Facilities of \$5.8 million in aggregate, of which \$3.2 million was paid to lenders. The Company is amortizing the debt discount and deferred financing fees over the respective contractual terms of the 2014 Credit Facilities.

The Company's Term Loan debt is presented in the Condensed Consolidated Balance Sheets, net of the unamortized discount and fees paid to lenders. Net borrowings as of July 30, 2016 were as follows:

(in thousands)	July 30, 2016	August 1, 2015
Borrowings, gross at carrying amount	\$293,250	\$297,750
Unamortized discount	(2,143)	(2,571)
Unamortized fees paid to lenders	(4,111)	(3,328)
Borrowings, net	286,996	291,851
Less: short-term portion of borrowings, net	(1,468)	(2,017)

Long-term portion of borrowings, net \$285,528 \$289,834

The Term Loan Facility will mature on August 7, 2021 and amortizes at a rate equal to 0.25% of the original principal amount per quarter, beginning with the fourth quarter of Fiscal 2014. The Term Loan Facility is subject to (a) beginning in 2016, an annual mandatory prepayment in an amount equal to 0% to 50% of the Company's excess cash flows in the preceding fiscal year, depending on the Company's leverage ratio and (b) certain other mandatory prepayments upon receipt by the Company of proceeds of certain debt issuances, asset sales and casualty events, subject to certain exceptions specified therein, including reinvestment rights. The Company was not required to make any mandatory prepayments under the Term Loan Facility in Fiscal 2016.

At the Company's option, borrowings under the Term Loan Facility will bear interest at either (a) an adjusted LIBOR rate no lower than 1.00% plus a margin of 3.75% per annum or (b) an alternate base rate plus a margin of 2.75% per annum. Customary agency fees are also payable in respect of the Term Loan Facility. The interest rate on borrowings under the Term Loan Facility was 4.75% as of July 30, 2016.

Operating Activities

Net cash used by operating activities was \$57.9 million for the twenty-six weeks ended July 30, 2016 compared to \$20.8 million for the twenty-six weeks ended August 1, 2015. The year-over-year change in cash flow associated with operating activities was primarily the result of the extension of vendor payment terms in the second quarter of Fiscal 2015 and incentive compensation payments in the first quarter of Fiscal 2016, partially offset by the return of a \$22.8 million long-term lease deposit and a \$22.4 million decrease in cash paid for income taxes in Fiscal 2016.

Investing Activities

Cash outflows for investing activities for the twenty-six weeks ended July 30, 2016 and August 1, 2015 were used primarily for new construction, store updates, information technology, and direct-to-consumer and omnichannel capabilities.

Financing Activities

Cash outflows for financing activities consisted primarily of the payment of dividends of \$27.0 million and \$27.8 million for the twenty-six weeks ended July 30, 2016 and August 1, 2015, respectively.

As of July 30, 2016, A&F had approximately 6.5 million remaining shares available for repurchase as part of the A&F Board of Directors' previously approved authorization.

FUTURE CASH REQUIREMENTS AND SOURCES OF CASH

Over the next twelve months, the Company's primary cash requirements will be to fund operating activities, including the acquisition of inventory, and obligations related to compensation, leases, taxes and other operating activities, as well as to fund capital expenditures, marketing initiatives, quarterly dividends to stockholders subject to approval by A&F's Board of Directors and debt service requirements, including required repayments, if any, based on annual excess cash flows, as defined in the term loan agreement. The Company has availability under the ABL Facility as a source of additional funding.

The Company expects total capital expenditures for Fiscal 2016 to be at the low end of the range of \$150 million to \$175 million, primarily for store remodels, new stores, direct-to-consumer and IT investments to support growth initiatives.

The Company may continue to repurchase shares of its Common Stock and would anticipate funding these cash requirements utilizing free cash flow generated from operations or proceeds from its existing credit facilities.

As of July 30, 2016, \$275.1 million of the Company's \$455.6 million of cash and equivalents was held by foreign affiliates. The Company is not dependent on dividends from its foreign affiliates to fund its U.S. operations or pay dividends to A&F's stockholders. Unremitted earnings from foreign affiliates generally would become subject to U.S. income tax if remitted as dividends or lent to A&F or a U.S. affiliate. As of July 30, 2016, a provision for U.S. income tax has not been recorded on approximately \$214 million of the cash and equivalents held by foreign affiliates which is considered indefinitely invested in foreign operations.

OFF-BALANCE SHEET ARRANGEMENTS

The Company uses, in the ordinary course of business, stand-by letters of credit under the existing ABL Facility. The Company had \$1.8 million in stand-by letters of credit outstanding as of July 30, 2016. The Company has no other off-balance sheet arrangements.

CONTRACTUAL OBLIGATIONS

The Company's contractual obligations consist primarily of operating leases, purchase orders for merchandise inventory, unrecognized tax benefits, certain retirement obligations, lease deposits and other agreements to purchase goods and services that are legally binding and that require minimum quantities to be purchased. These contractual obligations impact the Company's short-term and long-term liquidity and capital resource needs. During the thirteen weeks ended July 30, 2016, there were no material changes in the contractual obligations as of January 30, 2016, with the exception of those obligations which occurred in the normal course of business (primarily changes in the Company's merchandise inventory-related purchases and lease obligations, which fluctuate throughout the year as a result of the seasonal nature of the Company's operations).

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

The Company cautions that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Quarterly Report on Form 10-Q or made by the Company, its management or spokespeople involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond the Company's control. Words such as "estimate," "project," "plan," "believe," "expect," "anticipate," "intend," and similar expressions may identify forward-looking statements.

The following factors, including the disclosures under the heading "FORWARD-LOOKING STATEMENTS AND RISK FACTORS" in "ITEM 1A. RISK FACTORS" of A&F's Annual Report on Form 10-K for Fiscal 2015, in some cases have affected and in the future could affect the Company's financial performance and could cause actual results for Fiscal 2016 and beyond to differ materially from those expressed or implied in any of the forward-looking statements included in this Quarterly Report on Form 10-Q or otherwise made by management:

- changes in global economic and financial conditions, and the resulting impact on consumer confidence and consumer spending, as well as other changes in consumer discretionary spending habits, could have a material adverse effect on our business, results of operations and liquidity;
- our inability to anticipate customer demand and changing fashion trends and to manage our inventory commensurately could adversely impact our sales levels and profitability;
- a significant component of our growth strategy is international expansion, which requires significant capital investment, the success of which is dependent on a number of factors that could affect the profitability of our international operations;
- direct-to-consumer sales channels are a significant component of our growth strategy, and the failure to successfully develop our position in these channels could have an adverse impact on our results of operations;
- our market share may be negatively impacted by increasing competition and pricing pressures from companies with brands or merchandise competitive with ours;
- we have currently suspended our search for a new Chief Executive Officer and the continuance of our interim governance structure may create uncertainty;
- our inability to successfully implement our strategic plans could have a negative impact on our growth and profitability;
- our failure to protect our reputation could have a material adverse effect on our brands;
- our business could suffer if our information technology systems are disrupted or cease to operate effectively;
- we may be exposed to risks and costs associated with cyber-attacks, credit card fraud and identity theft that would cause us to incur unexpected expenses and reputation loss;
- fluctuations in foreign currency exchange rates could adversely impact our financial condition and results of operations;
- fluctuations in the cost, availability and quality of raw materials, labor and transportation, could cause manufacturing delays and increase our costs;
- we depend upon independent third parties for the manufacture and delivery of all our merchandise, and a disruption of the manufacture or delivery of our merchandise could result in lost sales and could increase our costs;
- our ability to attract customers to our stores depends, in part, on the success of the shopping malls or area attractions that our stores are located in or around;
- we rely on the experience and skills of our senior executive officers, the loss of whom could have a material adverse effect on our business;
- our reliance on two distribution centers domestically and third-party distribution centers internationally makes us susceptible to disruptions or adverse conditions affecting our distribution centers;
- our litigation exposure could have a material adverse effect on our financial condition and results of operations;
-

our inability or failure to adequately protect our trademarks could have a negative impact on our brand image and limit our ability to penetrate new markets;

fluctuations in our tax obligations and effective tax rate may result in volatility in our operating results;

extreme weather conditions and the seasonal nature of our business may cause net sales to fluctuate and negatively impact our results of operations;

our facilities, systems and stores, as well as the facilities and systems of our vendors and manufacturers, are vulnerable to natural disasters, pandemic disease and other unexpected events, any of which could result in an interruption to our business and adversely affect our operating results;

the impact of war or acts of terrorism could have a material adverse effect on our operating results and financial condition;

changes in the regulatory or compliance landscape could adversely affect our business and results of operations;

our Asset-Based Revolving Credit Agreement and our Term Loan Agreement include restrictive covenants that limit our flexibility in operating our business; and,

compliance with changing regulations and standards for accounting, corporate governance and public disclosure could adversely affect our business, results of operations and reported financial results.

Future economic and industry trends that could potentially impact revenue and profitability are difficult to predict. Therefore, there can be no assurance that the forward-looking statements included in this Quarterly Report on Form 10-Q will prove to be accurate. In light of the significant uncertainties in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company, or any other person, that the objectives of the Company will be achieved. The forward-looking statements included herein are based on information presently available to the management of the Company. Except as may be required by applicable law, the Company assumes no obligation to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Investment Securities

The irrevocable rabbi trust (the "Rabbi Trust") is intended to be used as a source of funds to match respective funding obligations to participants in the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan I, the Abercrombie & Fitch Co. Nonqualified Savings and Supplemental Retirement Plan II and the Supplemental Executive Retirement Plan. The Rabbi Trust assets primarily consist of trust-owned life insurance policies which are recorded at cash surrender value. The change in cash surrender value of the trust-owned life insurance policies held in the Rabbi Trust resulted in realized gains of \$0.8 million for each of the thirteen weeks ended July 30, 2016 and August 1, 2015 and \$1.5 million and \$1.6 million for the twenty-six weeks ended July 30, 2016 and August 1, 2015, respectively, which are recorded in interest expense, net on the Condensed Consolidated Statements of Operations and Comprehensive Loss.

The Rabbi Trust assets are included in other assets on the Condensed Consolidated Balance Sheets as of July 30, 2016 and January 30, 2016, and are restricted in their use as noted above.

Interest Rate Risks

The Company has approximately \$293.3 million in gross borrowings outstanding under its term loan facility (the "Term Loan Facility") and no borrowings outstanding under its senior secured revolving credit facility (the "ABL Facility" and, together with the Term Loan Facility, the "2014 Credit Facilities"). The 2014 Credit Facilities carry interest rates that are tied to LIBOR, or an alternate base rate, plus a margin. The interest rate on the Term Loan Facility has a 100 basis point LIBOR floor, and assuming no changes in the Company's financial structure as it stands, an increase in market interest rates of 100 basis points would increase annual interest expense by approximately \$2.2 million. This hypothetical analysis for the fifty-two weeks ending January 28, 2017 may differ from the actual change in interest expense due to various conditions which may result in changes in interest rates under the Company's 2014 Credit Facilities.

Foreign Exchange Rate Risk

A&F's international subsidiaries generally operate with functional currencies other than the U.S. Dollar. Since the Company's Condensed Consolidated Financial Statements are presented in U.S. Dollars, the Company must translate revenues, expenses, assets and liabilities from functional currencies into U.S. Dollars at exchange rates in effect during or at the end of the reporting period. The fluctuation in the value of the U.S. Dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. The potential impact of currency fluctuation increases as international expansion increases.

A&F and its subsidiaries have exposure to changes in foreign currency exchange rates associated with foreign currency transactions and forecasted foreign currency transactions, including the sale of inventory between subsidiaries and foreign-currency-denominated assets and liabilities. The Company has established a program that primarily utilizes foreign currency exchange forward contracts to partially offset the risks associated with the effects of certain foreign currency transactions and forecasted transactions. Under this program, increases or decreases in foreign currency exposures are partially offset by gains or losses on forward contracts, to mitigate the impact of foreign currency gains or losses. The Company does not use forward contracts to engage in currency speculation. All outstanding foreign currency exchange forward contracts are recorded at fair value at the end of each fiscal period.

Table of Contents

The fair value of outstanding foreign currency exchange forward contracts included in other current assets was \$3.6 million and \$4.2 million as of July 30, 2016 and January 30, 2016, respectively. The fair value of outstanding foreign currency exchange forward contracts included in other liabilities was \$2.9 million as of July 30, 2016. Foreign currency exchange forward contracts are sensitive to changes in foreign currency exchange rates. The Company assessed the risk of loss in fair values from the effect of a hypothetical 10% devaluation of the U.S. Dollar against the exchange rates for foreign currencies under contract. The results would decrease derivative contract fair values by approximately \$17.5 million. As the Company's foreign currency exchange forward contracts are primarily designated as cash flow hedges of forecasted transactions, the hypothetical change in fair value would be largely offset by the net change in fair values of the underlying hedged items.

ITEM 4.CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

A&F maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in the reports that A&F files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to A&F's management, including the principal executive officer and the principal financial officer, as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

A&F's management, including the Executive Vice President and Chief Financial Officer of A&F (who serves as Interim Principal Executive Officer; Principal Financial Officer; and Principal Accounting Officer of A&F), evaluated the effectiveness of A&F's design and operation of its disclosure controls and procedures as of the end of the fiscal quarter ended July 30, 2016. The Executive Vice President and Chief Financial Officer of A&F (in such individual's capacity as the Interim Principal Executive Officer and the Principal Financial Officer of A&F) concluded that A&F's disclosure controls and procedures were effective at a reasonable level of assurance as of July 30, 2016, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in A&F's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during A&F's fiscal quarter ended July 30, 2016 that materially affected, or are reasonably likely to materially affect, A&F's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in lawsuits and other adversary proceedings arising in the ordinary course of business. Legal costs incurred in connection with the resolution of claims and lawsuits are generally expensed as incurred, and the Company establishes reserves for the outcome of litigation where losses are deemed probable and reasonably estimable. The Company's assessment of the current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries, administrative agencies or other finders of fact that are not in accordance with the Company's evaluation of claims. As of July 30, 2016, the Company had accrued charges of approximately \$10 million for certain legal contingencies. In addition, there are certain claims and legal proceedings pending against the Company for which accruals have not been established. Actual liabilities may exceed the amounts reserved, and there can be no assurance that final resolution of these matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

The Company's risk factors as of July 30, 2016 have not changed materially from those disclosed in Part I, "ITEM 1A. RISK FACTORS" of A&F's Annual Report on Form 10-K for Fiscal 2015. Although there has been no no material change in the risk factors disclosed in our Form 10-K for Fiscal 2015, certain of such risks may be heightened as a result of the recent decision by the United Kingdom to leave the European Union ("Brexit"). This decision has increased uncertainty in the economic and political environment in Europe and, in particular, our business and results of operations in the United Kingdom may be impacted by fluctuations in currency exchange rates, changes in trade policies, or changes in labor, immigration, tax or other laws. As of July 30, 2016 A&F operated 34 stores in the United Kingdom.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no sales of equity securities during the second quarter of Fiscal 2016 that were not registered under the Securities Act of 1933.

The following table provides information regarding the purchase of shares of Common Stock of A&F made by or on behalf of A&F or any "affiliated purchaser" as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, during each fiscal month of the thirteen weeks ended July 30, 2016:

Period (Fiscal Month)	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet Be Purchased under the Plans or Programs ⁽³⁾
May 1, 2016 through May 28, 2016	2,760	\$ 27.52	—	6,503,656
May 29, 2016 through July 2, 2016	9,062	\$ 19.88	—	6,503,656
July 3, 2016 through July 30, 2016	3,114	\$ 18.32	—	6,503,656
Total	14,936	\$ 20.96	—	6,503,656

(1)

All of the 14,936 shares of A&F's Common Stock purchased during the thirteen weeks ended July 30, 2016 represented shares which were withheld for tax payments due upon the exercise of employee stock appreciation rights and vesting of employee restricted stock units.

(2) No shares were repurchased during the thirteen weeks ended July 30, 2016 pursuant to A&F's publicly announced stock repurchase authorization. On August 14, 2012, A&F's Board of Directors authorized the repurchase of 10.0 million shares of A&F's Common Stock, which was announced on August 15, 2012.

(3) The number shown represents, as of the end of each period, the maximum number of shares of Common Stock that may yet be purchased under A&F's publicly announced stock repurchase authorization described in footnote 2 above. The shares may be purchased, from time to time, depending on market conditions.
