

COMPETITIVE TECHNOLOGIES INC
Form 10-Q/A
March 17, 2003

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q/A

AMENDMENT NO. 1

AMENDMENT TO QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended January 31, 2003

Commission file number 1-8696

COMPETITIVE TECHNOLOGIES, INC.
(Exact name of registrant as specified in its charter)

The undersigned registrant hereby amends the following items,
financial statements, exhibits or other portions of its Quarterly
Report for the quarterly period ended January 31, 2003 on Form 10-Q as
set forth in the pages attached hereto:

(List all such items, financial statements, exhibits or other portions
amended)

- Exhibit 99.1 Certification by the Principal Executive Officer
 pursuant to Section 906 of the Sarbanes-Oxley Act of
 2002 (18 U.S.C. 1350)
- Exhibit 99.2 Certification by the Principal Financial Officer
 pursuant to Section 906 of the Sarbanes-Oxley Act of
 2002 (18 U.S.C. 1350)

This amendment adds Exhibits 99.1 and 99.2 to the filing and makes no
other changes.

Pursuant to the requirements of Section 13 or 15(d) of the
Securities Exchange Act of 1934, the registrant has duly caused this
amendment to be signed on its behalf by the undersigned thereunto duly
authorized.

COMPETITIVE TECHNOLOGIES, INC.
(the Registrant)

By /s/ Frank R. McPike, Jr.

PART I. FINANCIAL INFORMATION (Continued)

COMPETITIVE TECHNOLOGIES, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

1. Interim Financial Statements

Interim financial information presented in the accompanying financial statements and notes hereto is unaudited.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

The year-end balance sheet data were derived from audited financial statements but do not include all disclosures required by accounting principles generally accepted in the United States of America. Certain amounts, including operating expenses, have been reclassified to conform with the presentation in financial statements for fiscal 2003.

In the opinion of management, all adjustments that are necessary to present the financial statements fairly in conformity with accounting principles generally accepted in the United States of America, consisting only of normal recurring adjustments, have been made.

The interim financial statements and notes thereto as well as the accompanying Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended July 31, 2002.

The Company has incurred substantial losses and negative cash flows from operations for the periods ended January 31, 2003 and 2002, respectively. For the year ended July 31, 2002, the Company incurred a net loss of approximately \$4,016,000 and negative cash flows from operating activities of approximately \$1,666,000. Management expects that currently available funds and expected revenues will be sufficient to finance cash needs for our current material operating and enforcement activities at least into the third quarter of fiscal 2004. However, we cannot assure you that our current expectations regarding the sufficiency of currently available funds and expected revenues will prove to be accurate.

2. Net Loss Per Share

The following table sets forth the computations of basic and diluted net loss per share.

	Six months ended January 31,		Quarter ended January 31,	
	2003	2002	2003	2002
Net loss applicable to common stock:				
Basic and diluted	\$ (631,116)	\$ (2,206,099)	\$ (1,410,023)	\$ (1,167,059)
Weighted average number of common shares outstanding	6,166,284	6,141,797	6,174,196	6,144,242
Effect of dilutive securities:				
Stock options	--	--	--	--
Weighted average number of common shares outstanding and dilutive securities	6,166,284	6,141,797	6,174,196	6,144,242
Net loss per share of common stock:				
Basic and diluted	\$ (0.10)	\$ (0.36)	\$ (0.23)	\$ (0.19)

At January 31, 2003 and 2002, respectively, a total of options and warrants to purchase 997,767 and 650,267 shares of common stock were outstanding but were not included in the computation of earnings per share because they were anti-dilutive (of total options

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

and warrants outstanding of 997,767 and 650,267).

3. Notes Receivable

E. L. Specialists, Inc.

Through a series of bridge financing agreements, the Company loaned \$1,056,300 (\$956,300 in cash and \$100,000 in services) to E. L. Specialists, Inc. (ELS).

Effective August 5, 2002, CTT sold and transferred all its interests related to ELS to MRM Acquisitions, LLC (MRM) for \$200,000 cash. The transferred interests include CTT's notes receivable in the face amount of \$1,056,300 (plus interest) from ELS, its related security interest in ELS' intellectual property, all its other interests under agreements in connection with its notes receivable from ELS and CTT's interest in a technology servicing agreement related to ELS's intellectual property.

CTT collected \$200,000 from MRM on August 5, 2002, after which CTT had no remaining interest in ELS.

4. Receivables

Receivables were:

	January 31, 2003	July 31, 2002
Royalties	\$1,892,927	\$1,158,685
Other	36,891	40,798
	\$1,929,818	\$1,199,483

5. Investment in NTRU Cryptosystems, Inc.

In March 2003, the NTRU Cryptosystems, Inc. (NTRU) Board of Directors approved a plan to redeem all outstanding shares of its Series A and Series B Preferred Stock (NTRU Preferred Stock) in exchange for cash or NTRU common stock. This will result in NTRU's former Preferred Stock holders owning approximately 40% of NTRU's outstanding common stock.

Competitive Technologies, Inc. (CTT) is a minority investor in NTRU and currently owns 3,053,000 shares of NTRU common stock and 200,526 shares of NTRU Preferred Stock. At July 31 and October 31, 2002, CTT carried its investment in NTRU on the cost method at \$1,034,381. CTT will exchange its NTRU Preferred Stock for approximately \$90,000 in cash and will own approximately 10% of NTRU's outstanding common stock after the recapitalization plan is implemented.

CTT recorded a charge of \$944,000 in its second quarter ended January 31, 2003 due to the uncertain timing and amount of CTT's expected future cash flows from its investment in NTRU's common stock after its recapitalization.

CTT continues to hold a seat and participate actively on NTRU's Board of Directors. CTT's management continues to believe NTRU's encryption technology has value and these actions provide NTRU an opportunity to allow applications to evolve to meet its customer's needs.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

6. Intangible Assets Acquired

The Company purchased additional patents during the first half of fiscal 2003 for \$50,000. These patents are being amortized on a straight-line basis over their estimated remaining lives, approximately 18 years.

The Company reported amortization expense of \$78,759 in the first half of fiscal 2003 and expects to record annual amortization expense of approximately \$158,000 for fiscal 2003, 2004, 2005, 2006, \$111,000 for fiscal 2007, and \$3,000 for fiscal 2008.

	January 31, 2003	July 31, 2002
Intangible assets acquired, principally licenses and patented technologies, at adjusted cost	\$1,687,067	\$1,637,067
Accumulated amortization	(982,580)	(903,821)
	\$ 704,487	\$ 733,246

7. Accrued Liabilities

Accrued liabilities were:

	January 31, 2003	July 31, 2002
Royalties payable	\$1,161,675	\$1,308,381
Accrued professional fees	170,716	65,162
Accrued compensation	94,455	157,416
Deferred revenues	106,667	106,667
Other	49,760	43,277
	\$1,583,273	\$1,680,903

8. Contingencies

Contingent Obligation

On October 28, 2002, the Company signed an agreement making any further payments to our former patent litigation counsel completely contingent on future receipts from Fujitsu. This contingent obligation is reflected in a promissory note payable to our former patent litigation counsel for \$1,683,349 plus simple interest at the annual rate of 11% from the agreement date (approximately \$49,000 at January 31, 2003) payable only from future receipts in a settlement or other favorable outcome of the litigation against Fujitsu, if any. Accordingly, in the first quarter of fiscal 2003, we reversed from accounts payable \$1,583,445 that was accrued at July 31, 2002. Since interest is also contingently payable, the Company has recorded no interest expense with respect to this note.

Litigation

Fujitsu

In December 2000, (coincident with filing a complaint with the United States International Trade Commission (ITC) that was withdrawn in August 2001) CTT and the University of Illinois filed a complaint against Fujitsu Limited, Fujitsu General Limited, Fujitsu General America, Fujitsu Microelectronics, Inc. and Fujitsu Hitachi

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Plasma Display Ltd. (Fujitsu et al.) in the United States District Court for the Central District of Illinois seeking damages for past infringements and an injunction against future sales of plasma display panels (PDPs) that infringe two U. S. patents held by CTT's client, the University of Illinois. The two patents cover energy recovery in flat plasma display panels. In July 2001, CTT reactivated this complaint to pursue legal remedies (damages for past infringing sales and possibly damages for willfulness) that are not available at the ITC. In May 2002, the District Court granted defendants' motion to transfer this case to the Northern District of California. The trial in this case is currently scheduled for October 2003.

Effective July 23, 2002, CTT and the University of Illinois agreed that the University of Illinois would take the lead in this litigation and assume the cost of new lead counsel. Before this agreement, CTT bore the entire costs of lead counsel in this litigation. In December 2002, CTT was dismissed as co-plaintiff from this litigation but retains its economic interest in any potential favorable outcome.

In September 2001, Fujitsu et al. filed suit against CTT and Plasmaco, Inc. in the United States District Court for the District of Delaware. This lawsuit alleged, among other things, that CTT misappropriated confidential information and trade secrets supplied by Fujitsu during the course of the ITC action. It also alleged that, with Plasmaco's assistance, CTT abused the ITC process to obtain information to which it otherwise would not have been entitled and which it will use in the action against Fujitsu in the United States District Court for the Central District of Illinois (now in the Northern District of California). The Delaware District Court dismissed this action at the request of Fujitsu who subsequently re-instituted the case in the Northern District of California.

CTT is unable to estimate the legal expenses or the loss it may incur or the possible damages it may recover in these suits, if any, and has recorded no potential judgment proceeds in its financial statements to date.

LabCorp

On May 4, 1999, Metabolite Laboratories, Inc. (MLI) and CTT (collectively plaintiffs) filed a complaint and jury demand against Laboratory Corporation of America Holdings d/b/a LabCorp (LabCorp) in the United States District Court for the District of Colorado. The complaint alleged, among other things, that LabCorp owes plaintiffs royalties for homocysteine assays performed beginning in the summer of 1998 using methods falling within the claims of a patent owned by CTT. CTT licensed the patent non-exclusively to MLI and MLI sublicensed it to LabCorp. Plaintiffs claimed LabCorp's actions constitute breach of contract and patent infringement. The claim sought an injunction ordering LabCorp to perform all its obligations under its agreement, to cure past breaches, to provide an accounting of wrongfully withheld royalties and to refrain from infringing the patent. Plaintiffs also sought unspecified money and exemplary damages and attorneys' fees, among other things. LabCorp filed an answer and counterclaims alleging noninfringement, patent invalidity and patent misuse.

The jury that heard this case in November 2001 confirmed the validity of CTT's patent rights and found that LabCorp willfully

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

contributed to and induced infringement and breached its contract. In December 2001, the Court entered judgment affirming the jury's verdict.

In November 2002, the Court confirmed its judgment in favor of CTT and MLI. The Court's amended judgment awarded CTT approximately \$1,019,000 damages, \$1,019,000 enhanced damages, and \$132,000 prejudgment interest. If the Court's judgment is upheld in post-trial motions and on appeal, CTT will retain approximately \$1,000,000 of damages awarded plus post-judgment interest at the statutory rate. This judgment is pending appeal and post-trial motions relating to awarding attorneys' fees to CTT.

CTT is unable to estimate the legal expenses it may incur or the possible damages it may ultimately recover in this suit, if any. CTT has not recorded revenue in its financial statements to date for awarded damages, awarded enhanced damages or awarded interest from the Court's November 2002 judgment.

In a January 2003 Stipulated Order, LabCorp agreed to post a bond for all damages awarded in the November 2002 judgment and to pay CTT a percentage of sales of homocysteine tests performed since November 1, 2002 through final disposition of this case. In addition, pursuant to this order, LabCorp agreed to pay \$250,000 (in twelve monthly installments of \$20,824 each) for homocysteine assays performed from November 1, 2001 through October 31, 2002 (of which it has paid approximately \$62,000). In exchange, this Stipulated Order stayed execution of the monetary judgment and the permanent injunction against LabCorp in the Court's November 2002 judgment. This Stipulated Order is without prejudice to any party's position on appeal. At January 31, 2003, CTT had recorded total royalties of \$403,408 (revenues of \$161,363 in the second quarter of fiscal 2003 (of which \$99,954 relate to assays performed from November 1, 2001 through October 31, 2002) and royalties payable of \$242,045) from LabCorp pursuant to this January 2003 Stipulated Order. LabCorp has appealed the November 2002 judgment in favor of CTT. If the judgment is reversed on appeal, LabCorp's ability to recover amounts paid to CTT will depend on the extent and reason for the reversal. CTT's management believes the probability that LabCorp will recover such amounts is very unlikely.

MaternaTM

The University of Colorado Foundation, Inc., the University of Colorado, the Board of Regents of the University of Colorado, Robert H. Allen and Paul A. Seligman, plaintiffs, previously filed a lawsuit against American Cyanamid Company (a subsidiary of Wyeth), defendant, in the United States District Court for the District of Colorado. This case involved a patent for an improved formulation of Materna, a prenatal vitamin compound sold by defendant. While the Company was not and is not a party to this case, the Company had a contract with the University of Colorado to license University of Colorado inventions to third parties. As a result of this contract, the Company is entitled to share 18.2% of damages awarded to the University of Colorado, if any, after deducting the legal expenses of this suit.

On July 7, 2000, the District Court concluded that Robert H. Allen and Paul A. Seligman were the sole inventors of the reformulation of Materna that was the subject of the patent and that defendant is liable to them and the other plaintiffs on their claims for fraud and unjust enrichment.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

On August 13, 2002, the District Court judge awarded approximately \$54 million, plus certain interest from January 1, 2002, to the plaintiffs, of which CTT's share would be approximately \$6 million plus its proportionate share of interest.

The defendant has appealed to the U.S. Court of Appeals for the Federal Circuit and posted a \$59 million bond and plaintiffs have responded. CTT is unable to predict when this lawsuit will finally be settled or when it will receive its share of damages finally awarded, if any.

CTT has recorded no potential judgment proceeds in its financial statements to date. The Company records expenses in connection with this suit as they are incurred.

Optical Associates, Limited Partnership (OALP)

In 1989, University Optical Products Co. (UOP), a majority-owned subsidiary of CTT which had developed a computer-based system to manufacture specialty contact lenses, intraocular lenses and other precision optical products, sold substantially all its assets to Unilens Corp. USA (Unilens). The proceeds of the sale included an installment obligation for \$5,500,000 payable at a minimum of \$250,000 per year beginning in January 1992. Due to the uncertainty of the timing and amount of future cash flows, income on the installment obligation is recorded net of related expenses as the payments are received. Cash received in excess of the fair value assigned to the original obligation is recorded as other income from continuing operations. As cash proceeds are received, CTT records a 4% commission expense payable to its joint venture partner, OALP. Unilens made no payments in fiscal 2003 or 2002.

On November 4, 1991, a suit was filed in the Superior Court of the Judicial District of Fairfield, Connecticut, at Bridgeport by Bruce Arbeiter, Jeffrey A. Bigelow, Jeffrey W. Leiderman, Optical Associates, Limited Partnership and Optical Associates Management Corp. (OAMC) purportedly on behalf of all the limited partners of OALP, as plaintiffs, against Genetic Technology Management, Inc. (GTM), University Optical Products Co., the Company, Jay Warren Blaker, L.W. Miles, A. Sidney Alpert, Frank R. McPike, Jr., Michael Behar, Bruce E. Langton, Arthur M. Lieberman and Harry Van Benschoten, as defendants. The complaint alleges, among other things, that in January 1989 the defendants, GTM, UOP and the Company, sold substantially all the assets of OALP to Unilens Corp. USA and disbursed only 4% of the sales price to OALP, all in violation of certain agreements, representations and legal obligations; that OALP is entitled to the full proceeds of the sale to Unilens; and that by vote of limited partners holding in excess of 80% of the capital interests of OALP, the limited partners have removed GTM as the general partner of OALP and replaced GTM with OAMC. The complaint claims, among other things, money damages (in an amount not specified in the claim for relief); treble and punitive damages (with no amounts specified); attorneys fees; an accounting; temporary and permanent injunctive relief; and judgment holding that OAMC was legally substituted for GTM as the general partner of OALP. Based upon all the facts available, management believes that the claims asserted in the suit are without merit, and the Company has vigorously defended against plaintiffs' claims. On September 14, 2001, the attorney referee recommended that the Court grant defendants' motion for dismissal, but plaintiffs objected. There has been no further action and no final order has yet been

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

entered. Through January 31, 2003, the Company had received aggregate cash proceeds of approximately \$1,011,000 from the January 1989 sale of UOP's assets to Unilens.

CTT incurred no legal expenses related to this suit in the first half of either fiscal year.

9. Related Party Transactions

During the six months ended January 31, 2003 and 2002, CTT incurred charges of approximately \$6,000 and \$65,000, respectively, for consulting services (including expenses and use taxes) provided by one and two directors in the respective periods.

10. Recently Issued Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement No. 142, "Goodwill and Other Intangible Assets." This statement establishes financial accounting and reporting for acquired goodwill and other intangible assets acquired individually or with a group of other assets but not acquired in a business combination. The Company's adoption of this statement on August 1, 2002, did not have a material effect on its financial condition or results of operations.

In August 2001, the FASB issued Statement No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets." This statement establishes a single accounting model for the impairment of long-lived assets. The Company's adoption of this statement on August 1, 2002, did not have a material effect on its financial condition or results of operations.

In December 2002, the FASB issued Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure." This statement amends Statement No. 123, "Accounting for Stock-Based Compensation," to provide alternative transition methods for a voluntary change to the fair value based method of accounting for stock-based employee compensation. This statement also requires prominent disclosures in annual and interim financial statements about the method of accounting for stock-based employee compensation and its effect on reported results. The disclosure provisions of this statement will be effective for the Company's third quarter ending April 30, 2003.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN 45 expands previously issued accounting guidance and disclosure requirements for certain guarantees and requires an entity to recognize an initial liability for the fair value of an obligation assumed by issuing a guarantee. The disclosure requirements of FIN 45 are effective for all financial statements issued after December 15, 2002. The Company will apply the initial recognition and measurement provisions on a prospective basis to guarantees issued or modified after December 31, 2002. Adoption of FIN 45 did not have a material impact on the Company's financial position, results of operations or cash flows.

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities," to address consolidation by business enterprises of variable interest entities with certain characteristics. The Company is not involved in any

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

arrangements that this Interpretation addresses.

PART I. FINANCIAL INFORMATION (Continued)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We have rounded all amounts in this Item 2 to the nearest thousand dollars. In addition, all periods discussed in this Item 2 relate to our fiscal years ending July 31 (first, second, third and fourth quarters ending October 31, January 31, April 30 and July 31 respectively).

Critical Accounting Policies

Preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenues and expenses for the reporting period, and related disclosures. We base our estimates on the information available at the time and assumptions we believe are reasonable.

We believe that significant estimates, assumptions and judgments affect the following critical accounting policies used in preparing our consolidated financial statements. Our audit committee has reviewed their selection, application and disclosure.

Revenue Recognition

We derive revenues primarily from patent and technology license and royalty fees. Since these revenues result from our representation agreements with owners and assignees of intellectual property rights, we record revenues net of the owners' and assignees' shares of license and royalty fees. We stipulate the terms of our licensing arrangements in written agreements with the owners, assignees and licensees.

Single element arrangements

Since we usually have no significant obligations after we execute license agreements, they are generally single element arrangements. Under the terms of our license agreements, we generally receive an upfront license fee and a royalty stream based on the licensee's sales of products applying the licensed technology.

License fees under single element arrangements

We recognize upfront, nonrefundable license fees when our licensee executes the license agreement and pays the license fee. When these two events occur, we have persuasive evidence of an arrangement, no continuing obligations, completed delivery, and assurance of collection.

Royalty fees under single element arrangements

Although we fix the royalty rate (e.g., percentage of sales or rate per unit sold) in the license agreement, the

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

amount of earned royalties is contingent upon the amount of licensed product the licensee sells. Royalties earned in each reporting period are contingent on the outcome of events (i.e., the licensee's sales of licensed products) occurring within that period that are not within our control and are not directly tied to our providing services. Therefore, we recognize this royalty revenue when the contingency is resolved and we can estimate the amount of royalty fees earned, which is upon our receipt of the licensee's royalty report.

Other arrangements

In limited instances, we enter into multiple element arrangements with continuing service obligations. Based upon the limited verifiable objective evidence available, we generally defer all revenue from such multiple element arrangements until we deliver all elements.

In limited instances, we enter into milestone billing arrangements, which we evaluate on a case-by-case basis. In these arrangements, we generally defer upfront fees and recognize the related revenue and other services revenue as earned over the entire arrangement.

Impairment of Intangible Assets and Long-Term Investments

We review intangible assets and investments in equity securities that do not have readily determinable fair values for impairment when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the sum of expected future undiscounted cash flows is less than the carrying amount of the asset, we recognize an impairment loss measured by the amount the asset's carrying value exceeds its fair value and re-evaluate the remaining useful life of the asset. If a quoted market price is available for the asset or a similar asset, we use it in determining fair value. If not, we determine fair value as the present value of estimated cash flows based on reasonable and supportable assumptions.

We regularly apply this policy to our equity investments in privately held companies. We consider the investee's financial health (including cash position), business outlook (including product stage and viability to continue operations), recent funding activities, and business plan (including historical and forecast financial information). These investments are not readily transferable and our opportunities to liquidate them are limited and subject to many factors beyond our control, including circumstances internal to the investee and broader economic conditions.

We also apply this policy regularly to all acquired intangible assets.

See Notes 3, 7 and 14 to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended July 31, 2002, for complete discussions of the results of applying this policy in prior fiscal years. See Note 5 to the accompanying financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in this Quarterly Report on Form 10-Q for complete discussions of the results of applying this policy in the current fiscal year.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Impairment of Loans

We review loans for impairment when events or changes in circumstances indicate that the carrying amount of the loan may not be recoverable. We determine the present value of expected future cash flows under the loan (discounted at the loan's effective interest rate) or the fair value of the collateral if the loan is collateral dependent. If the fair value of the loan is less than its carrying amount, we recognize an impairment loss based on the fair value of the loan. This policy is consistent with Statement of Financial Accounting Standards No. 114, "Accounting by Creditors for Impairment of a Loan - an amendment of Statements No. 5 and 15."

See Notes 3 and 14 to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended July 31, 2002, for discussion of the results of applying this policy in prior fiscal years.

Results of Operations - Three Months Ended January 31, 2003 (Second Quarter of 2003) vs. Three Months Ended January 31, 2002 (Second Quarter of 2002)

Revenues

Our revenues for the second quarter of 2003 were \$833,000, which was \$36,000 (4%) higher than in the second quarter of 2002.

In the second quarter of 2003, \$625,000 (75%) of our retained royalties were from three technologies: \$287,000 (34%) from the homocysteine assay; \$278,000 (33%) from gallium arsenide semiconductors; and \$60,000 (7%) from the sexual dysfunction therapeutic. Increases in homocysteine assay royalties more than offset decreases in royalties from gallium arsenide semiconductors and other technologies.

The increase in homocysteine assay royalties includes amounts for assays performed in several quarters by LabCorp (\$161,000 under a stipulated order in the LabCorp litigation) and other clinical laboratories (\$75,000 under license agreements made in the second quarter of 2003). LabCorp has appealed the judgment in favor of CTT. If the judgment is reversed on appeal, LabCorp's ability to recover amounts paid to CTT will depend on the extent and reason for the reversal. CTT's management believes the probability that LabCorp will recover such amounts is very unlikely. See also Note 8 to the accompanying financial statements.

The decrease in royalties from gallium arsenide semiconductors is due to expired licenses and certain licensees' lower sales.

Although we have no royalties from Ethyol™ (a chemotherapeutic mitigation agent) for the second quarter of 2003 (because we reached our \$500,000 per calendar year maximum in the first quarter of 2003), we expect Ethyol royalties to resume in the third quarter of 2003.

The last vitamin B12 assay patent expired in November 2002.

Other changes in retained royalty revenues reflect changes in the timing of royalties reported by licensees and in licensees' sales of licensed products. Historically, the Company's royalty revenues in its second and fourth quarters have been higher than in

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

its first and third quarters.

Since much of our retained royalty revenue depends on our licensees' sales of licensed products, current economic conditions may reduce our royalties from them. However, we cannot predict either the timing or the amount of such potential changes, if any.

Operating expenses

Patent enforcement expenses, net of reimbursements, in the second quarter of 2003 were \$118,000, which was \$435,000 (79%) lower than in the second quarter of 2002. Our July 23, 2002, agreement with the University of Illinois (for the University to take the lead and assume the cost of new lead counsel in the litigation against Fujitsu) substantially reduced our net patent enforcement expenses in the second quarter of 2003. Patent enforcement expenses are principally for outside litigation counsels' services in patent litigations where our clients and we have sued to enforce their and our patent rights. We have included details of progress and status in these cases in Note 8 to the accompanying financial statements.

We have reclassified certain second quarter of 2002 amounts between personnel and other direct expenses relating to revenue and general and administrative expenses to conform to the presentation for 2003. We classify domestic and foreign patent legal expenses (net of reimbursements), amortization of intangible assets acquired, employee salaries and benefits, and marketing and consulting expenses related to technologies and specific revenue initiatives as personnel and other direct expenses relating to revenue. We classify directors' fees and expenses, public company expenses, professional service expenses (including corporate legal, litigation and audit), rent, and other general business and operating expenses as general and administrative expenses.

Personnel and other direct expenses relating to revenue were \$671,000 for the second quarter of 2003, which was \$76,000 (13%) higher than in the second quarter of 2002. A reduction in recruiting expense partially offset increases in expenses for salaries and consultants we engaged (under agreements that are terminable with one week's notice) to assist us in developing specific revenue opportunities and strategic alliances and relationships.

General and administrative expenses for the second quarter of 2003 were \$516,000, which was \$219,000 (74%) higher than in the second quarter of 2002. This increase reflects increases in corporate litigation expenses directly related to the SEC investigation (see Item 3 "Legal Proceedings" in our Annual Report on Form 10-K for the year ended July 31, 2002 and Item 1 "Legal Proceedings" in Part II of this Quarterly Report on Form 10-Q for the quarter ended January 31, 2003), investor relations, travel, marketing and professional service expenses. During this quarter, we participated in two international marketing events, including Korea Technomart 2002.

Impairment loss on investment in NTRU Cryptosystems, Inc. (NTRU)

In March 2003, the NTRU Board of Directors approved a plan to redeem all outstanding shares of its Series A and Series B Preferred Stock (NTRU Preferred Stock) in exchange for cash or NTRU common stock. This will result in NTRU's former Preferred Stock holders owning approximately 40% of NTRU's outstanding common stock.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Competitive Technologies, Inc. (CTT) is a minority investor in NTRU and currently owns 3,053,000 shares of NTRU common stock and 200,526 shares of NTRU Preferred Stock. At July 31 and October 31, 2002, CTT carried its investment in NTRU on the cost method at \$1,034,000. CTT will exchange its NTRU Preferred Stock for approximately \$90,000 in cash and will own approximately 10% of NTRU's outstanding common stock after the recapitalization plan is implemented.

CTT recorded a charge of \$944,000 in its second quarter ended January 31, 2003 due to the uncertain timing and amount of CTT's expected future cash flows from its investment in NTRU's common stock after its recapitalization.

CTT continues to hold a seat and participate actively on NTRU's Board of Directors. CTT's management continues to believe NTRU's encryption technology has value and these actions provide NTRU an opportunity to allow applications to evolve to meet customer's needs for strong encryption, a small footprint and low processing requirements.

Impairment loss on loans to E. L. Specialists, Inc. (ELS)

In the second quarter of 2002, CTT recorded an impairment loss of \$519,200 against its notes receivable from ELS.

Interest income

Interest income of \$6,000 for the second quarter of 2003 was \$21,000 (77%) lower than in the second quarter of 2002. Our average invested balance was approximately 57% lower and our weighted average interest rate was approximately 1.1% per annum compared with approximately 2.1% per annum in fiscal 2002.

Income taxes

The Company has substantial net operating and capital loss carryforwards for Federal income tax purposes. See Note 9 to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended July 31, 2002.

Results of Operations - Six Months Ended January 31, 2003 (First Half of 2003) vs. Six Months Ended January 31, 2002 (First Half of 2002)

Revenues

Our total revenues for the first half of 2003 were \$1,215,000, which was \$8,000 (1%) higher than in the first half of 2002.

In the first half of 2003, \$861,000 (71%) of our retained royalties were from four technologies: \$321,000 (26%) from the homocysteine assay, \$312,000 (26%) from gallium arsenide semiconductors, \$147,000 (12%) from Ethyol and \$81,000 (7%) from the babesiosis vaccine. Increases in royalties from the homocysteine assay and Ethyol slightly more than offset decreases in royalties from gallium arsenide semiconductors, vitamin B12 assays and other technologies.

Ethyol's royalty base is higher since October 2001 when the licensee began selling Ethyol directly in the United States rather

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

than through a distributor. In the first quarter of 2003, our retained royalties from Ethyol reached our \$500,000 per calendar year maximum.

We discussed the increases in homocysteine assay royalties and decreases in royalties from gallium arsenide semiconductors, vitamin B12 assays and other technologies in the second quarter results above.

On August 13, 2002, the District Court judge in the MaternaTM case awarded to the plaintiffs approximately \$54 million plus certain interest from January 1, 2002, of which CTT's share would be approximately \$6 million plus its proportionate share of interest. The defendant has appealed to the U.S. Court of Appeals for the Federal Circuit and posted a \$59 million bond and plaintiffs have responded. We cannot predict when this lawsuit will finally be settled or when we will receive our share of damages finally awarded, if any. We have included details of progress and status in this case in Note 8 to the accompanying financial statements.

The jury and judge in the U.S. District Court for the District of Colorado confirmed our client's and our homocysteine patent rights and found that LabCorp had willfully contributed to and induced infringement.

In November 2002, the Court confirmed its judgment in favor of CTT and MLI. The Court's amended judgment awarded CTT approximately \$1,019,000 damages, \$1,019,000 enhanced damages, and \$132,000 prejudgment interest. If the Court's judgment is upheld in post-trial motions and on appeal, CTT will retain approximately \$1,000,000 of damages awarded plus post-judgment interest at the statutory rate. This judgment is pending appeal and post-trial motions relating to awarding attorneys' fees to CTT.

CTT is unable to estimate the legal expenses it may incur or the possible damages it may ultimately recover in this suit, if any. CTT has not recorded revenue in its financial statements to date for awarded damages, awarded enhanced damages or awarded interest from the Court's November 2002 judgment.

In a January 2003 Stipulated Order, LabCorp agreed to post a bond for all damages awarded in the November 2002 judgment and to pay CTT a percentage of sales of homocysteine tests performed since November 1, 2002 through final disposition of this case. In addition, pursuant to this order, LabCorp agreed to pay \$250,000 (in twelve monthly installments of \$20,824 each) for homocysteine assays performed from November 1, 2001 through October 31, 2002 (of which it has paid approximately \$62,000). In exchange, this Stipulated Order stayed execution of the monetary judgment and the permanent injunction against LabCorp in the Court's November 2002 judgment. This Stipulated Order is without prejudice to any party's position on appeal. At January 31, 2003, CTT had recorded total royalties of \$403,408 (revenues of \$161,363 in the second quarter of fiscal 2003 (of which \$99,954 relate to assays performed from November 1, 2001 through October 31, 2002) and royalties payable of \$242,045) from LabCorp pursuant to this January 2003 Stipulated Order. LabCorp has appealed the November 2002 judgment in favor of CTT. If the judgment is reversed on appeal, LabCorp's ability to recover amounts paid to CTT will depend on the extent and reason for the reversal. CTT's management believes the probability that LabCorp will recover such amounts is very unlikely.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Based on the Court's judgment, we believe we are entitled to royalties on all homocysteine assays performed by our licensees and others and we are aggressively pursuing potential licenses. However, we cannot assure you that we will ultimately prevail. We have included details of progress and status in this case in Note 8 to the accompanying financial statements.

Operating expenses

Patent enforcement expenses, net of reimbursements, in the first half of 2003 were \$154,000, which was \$1,031,000 (87%) lower than in the first half of 2002. Our July 23, 2002, agreement with the University of Illinois, our client, (for the University to take the lead and assume the cost of new lead counsel in the litigation against Fujitsu) substantially reduced our net patent enforcement expenses in the first half of 2003. The level of patent enforcement expenses varies depending on the stage of the litigation. We have included details of progress and status in these cases in Note 8 to the accompanying financial statements.

We have reclassified certain first half of 2002 amounts between personnel and other direct expenses relating to revenue and general and administrative expenses to conform to the presentation for 2003.

Personnel and other direct expenses relating to revenue were \$1,411,000 for the first half of 2003, which was \$365,000 (35%) higher than in the first half of 2002. A reduction in recruiting expense partially offset increases in expenses for salaries and consultants we engaged to assist us in developing specific revenue opportunities and strategic alliances and relationships. During the first quarter of 2003, we paid discretionary bonuses (which were both approved and paid in the first quarter of 2003) in lieu of increasing base salaries for our professional staff.

General and administrative expenses for the first half of 2003 were \$940,000, which was \$232,000 (33%) higher than in the first half of 2002. Expenses that increased were investor relations, travel, marketing, professional services and corporate litigation expenses directly related to the SEC investigation (see Item 3 "Legal Proceedings" in our Annual Report on Form 10-K for the year ended July 31, 2002 and Item 1 "Legal Proceedings" in Part II of this quarterly Report on Form 10-Q for the quarter ended January 31, 2003). During the first half of 2003, we participated in three international marketing events.

Reversal of accounts payable exchanged for contingent note payable

On October 28, 2002, the Company signed an agreement making future payments completely contingent on future receipts from Fujitsu. This contingent promissory note is payable to our former patent litigation counsel for \$1,683,000 plus simple interest at the annual rate of 11% from the agreement date (\$49,000 at January 31, 2003) payable only from future receipts in a settlement or other favorable outcome of the litigation against Fujitsu, if any. Accordingly, in the first quarter of 2003, we reversed from accounts payable \$1,583,000 that was accrued at July 31, 2002. This one-time reversal constituted income in the first quarter of 2003 and increased shareholders' interest.

We discussed the impairment losses on our investment in NTRU Cryptosystems, Inc. (2003) and loans to E. L. Specialists, Inc. (2002) in the second quarter results above.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Interest income

Interest income of \$19,000 for the first half of 2003 was \$53,000 (74%) lower than in the first half of 2002. Our average invested balance was approximately 53% lower and our weighted average interest rate was approximately 1.5% per annum compared with approximately 2.7% per annum in fiscal 2002.

Financial Condition and Liquidity

At January 31, 2003, cash and cash equivalents of \$107,000 were \$643,000 lower than cash and cash equivalents of \$750,000 at July 31, 2002. Operating activities used \$1,816,000 and investing activities provided \$1,172,000 in the first half of 2003.

In addition, the Company held \$1,101,000 in short-term investments at January 31, 2003 compared with \$2,137,000 at July 31, 2002. These investments are available for our current operating, investing and financing needs.

The Company's net loss for the first half of 2003 included noncash charges of \$1,080,000 comprising \$944,000 for the impairment loss on investment in NTRU Cryptosystems, Inc., \$95,000 for depreciation and amortization and \$41,000 for stock compensation. In addition, the reversal of accounts payable of \$1,583,000 exchanged for a contingent note payable was a noncash credit.

The most substantial changes in operating accounts were the \$734,000 (63%) increase in royalties receivable, the \$1,505,000 (87%) decrease in accounts payable and the \$147,000 (11%) decrease in royalties payable. At January 31, 2003, amounts related to LabCorp under the stipulated order discussed in the second quarter results above included \$331,000 royalties receivable and \$199,000 royalties payable. In addition to fluctuations in the amounts of royalties reported, the changes in royalties receivable and payable reflect the Company's normal cycle of royalty collections and payments.

During the six months ended January 31, 2003, the Company sold \$1,036,000 of short-term investments to support its operating and investing activities.

In November 2002, the Company purchased certain intangible assets for \$50,000 cash.

Effective August 5, 2002, CTT sold and transferred all its interests related to E. L. Specialists, Inc. to MRM Acquisitions, LLC for \$200,000 cash it collected on August 5, 2002.

At January 31, 2003, the Company's purchase commitments were less than \$5,000.

At January 31, 2003, the Company had no outstanding debt or available credit facility.

In October 2002, the Company retained an investment banker to advise and assist the Company in obtaining additional debt and/or equity funding. Under this retainer (which either party currently may terminate at any time), the Company committed to pay \$10,000 per month plus out-of-pocket expenses for six months plus certain fees payable only if CTT completes a financing transaction. The

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

investment banker is assisting the Company in the offering described in the next paragraph.

In February 2003, the Company began offering up to \$5,000,000 aggregate principal amount of its 7.5% Senior Subordinated Notes due 2008 together with warrants to purchase shares of its common stock in an offering exempt from registration under the Securities Act of 1933 pursuant to Rule 506 of Regulation D promulgated under the Securities Act. The Notes and warrants will be sold only to "accredited investors" within the meaning of Rule 501 under the Securities Act. The Company will use the net proceeds of this offering for working capital and other general corporate purposes including funding CTT's technology commercialization strategy. There can be no assurance that this offering will be successful.

At January 31, 2003, we had net working capital of \$1,598,000, which was \$457,000 more than at July 31, 2002. Our accounts payable at July 31, 2002, included \$1,583,000 of invoices we reversed in October 2002, as discussed above under "Reversal of accounts payable exchanged for contingent note payable."

Based on our current expectations, we anticipate that currently available funds and expected revenues will be sufficient to finance cash needs for our current material operating and enforcement activities at least into the third quarter of fiscal 2004. However, we are considering additional opportunities to increase our cash resources. In addition to engaging the investment banker and offering the notes with warrants discussed above, we are pursuing an opportunity to potentially monetize a portion of our interest in the Materna judgment prior to its final resolution on appeal. We expect to determine the specific terms of such a transaction during the third or fourth quarter of 2003, when we will evaluate the economic costs and benefits carefully.

We are also pursuing additional strategies to leverage our core licensing competencies and generate near-term revenues. During the first half of 2003, we obtained rights to license six new technologies. In addition to the new homocysteine licenses discussed above, we have granted two other licenses. We are also moving forward to develop certain strategic alliances and relationships.

We intend to continue to monitor our operating and enforcement costs closely and to reduce them, if necessary, to meet these expectations. However, royalty revenues, costs of enforcement actions and expansion of our business are subject to many factors outside our control or that we cannot currently anticipate. Accordingly, we cannot assure you that our current expectations regarding the sufficiency of currently available funds and expected revenues will prove to be accurate.

At January 31, 2003, CTT's shareholders' interest was \$2,474,000. Under American Stock Exchange (AMEX) listing standards, if CTT sustains a net loss in 2003 and has less than \$4,000,000 shareholders' interest at July 31, 2003, or if CTT has less than \$2,000,000 shareholders' interest before July 31, 2003, the AMEX may consider suspending dealings in or de-listing CTT's common stock. We cannot assure you that we will continue to meet these requirements.

Other Matters

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

The Company carries liability insurance, directors' and officers' liability insurance and casualty insurance for owned or leased tangible assets. We do not carry key person life insurance. There are no legal restrictions on payments of dividends by CTT.

The Company is involved in four pending litigation matters, three of which are patent enforcement suits. They are detailed in Note 8 to the accompanying financial statements.

Recently Issued Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement No. 142, "Goodwill and Other Intangible Assets." This statement establishes financial accounting and reporting for acquired goodwill and other intangible assets acquired individually or with a group of other assets but not acquired in a business combination. The Company's adoption of this statement on August 1, 2002, did not have a material effect on its financial condition or results of operations.

In August 2001, the FASB issued Statement No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets." This statement establishes a single accounting model for the impairment of long-lived assets. The Company's adoption of this statement on August 1, 2002, did not have a material effect on its financial condition or results of operations.

In December 2002, the FASB issued Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure." This statement amends Statement No. 123, "Accounting for Stock-Based Compensation," to provide alternative transition methods for a voluntary change to the fair value based method of accounting for stock-based employee compensation. This statement also requires prominent disclosures in annual and interim financial statements about the method of accounting for stock-based employee compensation and its effect on reported results. The disclosure provisions of this statement will be effective for the Company's third quarter ending April 30, 2003.

In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN 45 expands previously issued accounting guidance and disclosure requirements for certain guarantees and requires an entity to recognize an initial liability for the fair value of an obligation assumed by issuing a guarantee. The disclosure requirements of FIN 45 are effective for all financial statements issued after December 15, 2002. The Company will apply the initial recognition and measurement provisions on a prospective basis to guarantees issued or modified after December 31, 2002. Adoption of FIN 45 did not have a material impact on the Company's financial position, results of operations or cash flows.

In January 2003, the FASB issued Interpretation No. 46, "Consolidation of Variable Interest Entities," to address consolidation by business enterprises of variable interest entities with certain characteristics. The Company is not involved in any arrangements that this Interpretation addresses.

Forward-Looking Statements

Statements about the Company's future expectations, including

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

development and regulatory plans, and all other statements in this Quarterly Report on Form 10-Q other than historical facts, are "forward-looking statements" within the meaning of applicable Federal Securities Laws and are not guarantees of future performance. These statements involve risks and uncertainties related to market acceptance of and competition for the Company's licensed technologies and other risks and uncertainties inherent in the Company's business, including those set forth in Item 1 of the Company's Annual Report on Form 10-K for the year ended July 31, 2002 under the caption "Risk Factors," and other factors that may be described in the Company's filings with the Securities and Exchange Commission, and are subject to change at any time. The Company's actual results could differ materially from these forward-looking statements. The Company undertakes no obligation to update publicly any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

The Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-14(c) and 15d-14(c)) as of January 31, 2003. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported as specified in the Securities and Exchange Commission's rules and forms. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that these controls were effective as of January 31, 2003.

(b) Change in Internal Controls

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation. There were no significant deficiencies or material weaknesses in our internal controls.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in four pending litigation matters. They are fully detailed in Note 8 to the accompanying Consolidated Financial Statements.

By letter of January 6, 2003, George C. J. Bigar, a former director of CTT, received a subpoena from the SEC seeking documents from July 1, 1998 to date in connection with the SEC's private investigation (detailed under Item 3 "Legal Proceedings" in our Annual Report on Form 10-K for the year ended July 31, 2002) and setting a date for Mr. Bigar to testify before officers of the SEC. Mr. Bigar has produced the subpoenaed documents and completed his testimony before the SEC. The Company has assumed responsibility for Mr. Bigar's legal fees in this matter, which were approximately \$12,000 to January 31, 2003.

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

Item 4. Submission of Matters to a Vote of Security Holders

At the Company's annual meeting of stockholders held January 24, 2003, the following directors were elected:

Name	Votes For	Votes Withheld
Richard E. Carver	5,095,870	502,285
George W. Dunbar, Jr.	4,512,102	1,086,053
Samuel M. Fodale	4,538,622	1,059,533
John B. Nano	5,134,170	463,985
Charles J. Philippin	4,571,422	1,026,733
John M. Sabin	4,458,077	1,140,078

There were no broker non-votes.

Also at the Company's annual meeting of stockholders held January 24, 2003, stockholders approved the proposal to amend the 1997 Employees' Stock Option Plan by increasing the number of shares of common Stock available for option grants under the Plan by 150,000 shares to a total of 1,025,000 shares. There were 4,138,029 shares voted for and 1,387,109 shares voted against this proposal, and 73,017 shares abstained. There were no broker non-votes on this matter.

In addition, at the Company's annual meeting of stockholders held January 24, 2003, stockholders approved the proposal to amend the 2000 Directors Stock Option Plan by increasing the number of shares of Common Stock available for option grants under the Plan by 150,000 shares to a total of 400,000 shares. There were 4,110,775 shares voted for and 1,422,328 shares voted against this proposal, and 65,052 shares abstained. There were no broker non-votes on this matter.

Item 5. Other Matters

Effective February 7, 2003, CTT appointed Paul A. Levitsky (previously Associate General Counsel) as V. P. and General Counsel, replacing George M. Yahwak who resigned. Before joining CTT, Mr. Levitsky held progressive management positions during 15 years at Pitney Bowes Inc.

Item 6. Exhibits and Reports on Form 8-K

Page

A) Exhibits

3.1 By-laws of the registrant as amended effective January 24, 2003, filed as Exhibit 4.2 to the registrant's registration statement on Form S-8, File Number 333-102798 and hereby incorporated by reference.

CERTIFICATIONS

I, John B. Nano, President and Chief Executive Officer of Competitive Technologies, Inc., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Competitive Technologies, Inc.;

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the

Edgar Filing: COMPETITIVE TECHNOLOGIES INC - Form 10-Q/A

registrant and we have:

- a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
- b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
- c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

- a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officer and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
