SBA COMMUNICATIONS CORPORATION AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying consolidated financial statements should be read in conjunction with the Annual Report on Form 10-K for the fiscal year ended December 31, 2017 for SBA Communications Corporation and its subsidiaries (the “Company”). These financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of the Company’s management, all adjustments (consisting of normal recurring accruals) considered necessary for fair financial statement presentation have been made. The results of operations for an interim period may not give a true indication of the results for the year. Certain reclassifications have been made to prior year amounts or balances to conform to the presentation adopted in the current year.

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in consolidated financial statements and accompanying notes. While the Company believes that such estimates are fair when considered in conjunction with the consolidated financial statements and accompanying notes, the actual amounts, when known, may vary from these estimates.

Revenue Recognition and Accounts Receivable

Revenue from site leasing is recognized on a straight-line basis over the current term of the related lease agreements, which are generally five to ten years. Receivables recorded related to the straight-lining of site leases are reflected in other assets on the Consolidated Balance Sheets. Rental amounts received in advance are recorded as deferred revenue on the Consolidated Balance Sheets. Revenues from site leasing represent 94% of the Company’s total revenues.

Site development projects in which the Company performs consulting services include contracts on a fixed price basis. Site development projects are billed at contractual rates and revenue is recognized over time based on milestones achieved, which are determined based on costs incurred. Amounts billed in advance (collected or uncollected) are recorded as deferred revenue on the Consolidated Balance Sheets.

Revenue from construction projects is recognized over time, determined by the percentage of cost incurred to date compared to management’s estimated total cost for each contract. This method is used because management considers total cost to be the best available measure of progress on the contracts. These amounts are based on estimates, and the uncertainty inherent in the estimates initially is reduced as work on the contracts nears completion. The asset “costs and estimated earnings in excess of billings on uncompleted contracts” represents costs incurred and revenues recognized in excess of amounts billed. The liability “billings in excess of costs and estimated earnings on uncompleted contracts,” included within other current liabilities on the Consolidated Balance Sheets, represents billings in excess of costs incurred and revenues recognized. Refer to Note 8 for further detail of costs and estimated earnings in excess of billings on uncompleted contracts. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined to be probable.

The site development segment represents approximately 6% of the Company’s total revenues. The Company accounts for site development revenue in accordance with ASC 606, Revenue from Contracts with Customers, which the Company adopted on January 1, 2018 by applying the modified retrospective transition method. Payment terms do not

result in any significant financing arrangements. Furthermore, these contracts do not typically include variable consideration; therefore, the transaction price that is recognized over time is generally the amount of the total contract. The cumulative effect of initially applying the new revenue standard had no impact on the Company's financial results. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The adoption of the new standard will have no impact to net income on an ongoing basis.

The accounts receivable balance was \$101.1 million and \$90.7 million as of March 31, 2018 and December 31, 2017, respectively, of which \$29.3 million and \$20.8 million related to the site development segment as of March 31, 2018 and December 31, 2017, respectively. The Company performs periodic credit evaluations of its customers. In addition, the Company monitors collections and payments from its customers and maintains a provision for estimated credit losses based upon historical experience, specific customer collection issues identified, and past due balances as determined based on contractual terms. Interest is charged on outstanding receivables from customers on a case by case basis in accordance with the terms of the respective contracts or agreements with those customers. Amounts determined to be uncollectible are written off against the allowance for doubtful accounts in the period in which uncollectibility is determined to be probable. Refer to Note 14 for further detail of the site development segment.

Table of Contents

Foreign Currency Translation

All assets and liabilities of foreign subsidiaries that do not utilize the U.S. dollar as its functional currency are translated at period-end rates of exchange, while revenues and expenses are translated at monthly average rates of exchange prevailing during the period. Unrealized remeasurement gains and losses are reported as foreign currency translation adjustments through Accumulated Other Comprehensive Loss in the accompanying Consolidated Statement of Shareholders' Deficit.

For foreign subsidiaries where the U.S. dollar is the functional currency, monetary assets and liabilities of such subsidiaries, which are not denominated in U.S. dollars, are remeasured at exchange rates in effect at the balance sheet date, and revenues and expenses are remeasured at monthly average rates prevailing during the year. Unrealized translation gains and losses are reported as other income (expense), net in the Consolidated Statement of Operations.

Intercompany Loans Subject to Remeasurement

The Company has two wholly owned subsidiaries, Brazil Shareholder I, LLC, a Florida limited liability company, and SBA Torres Brasil, Limitada, a limitada existing under the laws of the Republic of Brazil, which have entered into intercompany loan agreements pursuant to which the entities may from time to time agree to lend/borrow amounts under the terms of each agreement. The first agreement entered into in November 2014 was for \$750.0 million and was created to fund the acquisition of 1,641 towers in Brazil. The second agreement entered into in December 2017 was for \$500.0 million and was created to fund the acquisition of 941 towers in Brazil.

In accordance with Accounting Standards Codification (ASC) 830, the Company remeasures foreign denominated intercompany loans with the corresponding change in the balance being recorded in Other income (expense), net in the Consolidated Statement of Operations as settlement is anticipated or planned in the foreseeable future. For the three months ended March 31, 2018 and 2017, the Company recorded a \$1.6 million gain and a \$13.7 million gain, respectively, on the remeasurement of intercompany loans due to changes in foreign exchange rates. As of March 31, 2018, the aggregate amount outstanding under the two intercompany loan agreements with the Company's Brazilian subsidiary was \$560.9 million.

Recent Accounting Pronouncements Not Yet Adopted

In February 2016, the FASB issued ASU 2016-02, Leases. The standard requires lessees to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments for all leases with a term greater than 12 months. The accounting for lessors remains largely unchanged from existing guidance. This standard is effective for annual and interim periods beginning after December 15, 2018. Early adoption is permitted; however, the Company does not currently plan to early adopt. The Company has established a cross functional project plan and is assessing the impact of the standard on its consolidated financial statements. The Company expects this guidance to have a material impact on its consolidated balance sheet due to the recognition of right-of-use assets and lease liabilities for its ground leases. The Company does not expect adoption to have a significant impact on its lease classification or to have a material impact on its consolidated statement of operations.

2. FAIR VALUE MEASUREMENTS

Items Measured at Fair Value on a Recurring Basis— The Company's earnout liabilities related to business combinations are measured at fair value on a recurring basis using Level 3 inputs and are recorded in Accrued expenses in the accompanying Consolidated Balance Sheets. Changes in estimates are recorded in Acquisition related adjustments and

expenses in the accompanying Consolidated Statement of Operations. The Company determines the fair value of earnouts (contingent consideration) and any subsequent changes in fair value using a discounted probability-weighted approach using Level 3 inputs. Level 3 valuations rely on unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. The fair value of the earnouts is reviewed quarterly and is based on the payments the Company expects to make based on historical internal observations related to the anticipated performance of the underlying assets. The Company's estimate of the fair value of its obligation contained in various acquisitions prior to January 1, 2017 (adoption of ASU 2017-01) was \$2.5 million as of March 31, 2018 and December 31, 2017. The maximum potential obligation related to the performance targets for these various acquisitions was \$3.1 million as of March 31, 2018 and December 31, 2017. The maximum potential obligation related to the performance targets for acquisitions since January 1, 2017, which have not been recorded on the Company's Consolidated Balance Sheet, were \$15.5 million and \$11.1 million as of March 31, 2018 and December 31, 2017, respectively.

The Company's asset retirement obligations are measured at fair value on a recurring basis using Level 3 inputs and are recorded in Other long-term liabilities in the accompanying Consolidated Balance Sheets. The fair value of the asset retirement obligations is calculated using a discounted cash flow model.

Table of Contents

Items Measured at Fair Value on a Nonrecurring Basis— The Company's long-lived assets and intangibles are measured at fair value on a nonrecurring basis using Level 3 inputs. The Company considers many factors and makes certain assumptions when making this assessment, including but not limited to: general market and economic conditions, historical operating results, geographic location, lease-up potential and expected timing of lease-up. The fair value of the long-lived assets and intangibles is calculated using a discounted cash flow model.

Asset impairment and decommission costs for all periods presented and the related impaired assets primarily relate to the Company's site leasing operating segment. The following summarizes the activity of asset impairment and decommission costs (in thousands):

	For the three months ended March 31, 2018 2017	
Asset impairment (1)	\$ 5,855	\$ 3,014
Write-off of carrying value of decommissioned towers	2,001	3,971
Other third party decommission costs	650	1,366
Total asset impairment and decommission costs	\$ 8,506	\$ 8,351

(1) Represents impairment charges resulting from the Company's regular analysis of whether the future cash flows from certain towers are adequate to recover the carrying value of the investment in those towers.

Fair Value of Financial Instruments— The carrying values of cash and cash equivalents, accounts receivable, restricted cash, accounts payable, and short-term investments approximate their estimated fair values due to the short maturity of these instruments. Short-term investments consisted of \$0.2 million in Treasury securities as of March 31, 2018 and December 31, 2017. The Company's estimate of the fair value of its held-to-maturity investments in treasury and corporate bonds, including current portion, are based primarily upon Level 1 reported market values. As of March 31, 2018 and December 31, 2017, the carrying value and fair value of the held-to-maturity investments, including current portion, were \$0.5 million. The current portion is recorded in Prepaid and other current assets in the accompanying Consolidated Balance Sheets, while held-to-maturity investments are recorded in Other assets.

The Company determines fair value of its debt instruments utilizing various Level 2 sources including quoted prices and indicative quotes (non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices. The fair value of the Revolving Credit Facility is considered to approximate the carrying value because the interest payments are based on Eurodollar rates that reset monthly or more frequently. The Company does not believe its credit risk has changed materially from the date the applicable Eurodollar Rate was set for the Revolving Credit Facility (137.5 to 200.0 basis points as of March 31, 2018 and 112.5 to 175.0 basis points as of the date of this filing). Refer to Note 10 for the fair values, principal balances, and carrying values of the Company's debt instruments.

3.RESTRICTED CASH

The cash, cash equivalents, and restricted cash balances on the consolidated statement of cash flows consists of the following:

	As of March 31, 2018	As of December 31, 2017	Included on Balance Sheet
	(in thousands)		
Cash and cash equivalents	\$ 109,350	\$ 68,783	
Securitization escrow accounts	28,143	32,699	Restricted cash - current asset
Payment and performance bonds	229	225	Restricted cash - current asset
Surety bonds and workers compensation	2,596	2,588	Other assets - noncurrent
Cash held in escrow for acquisitions	24,502	—	Other assets - noncurrent
Total cash, cash equivalents, and restricted cash	\$ 164,820	\$ 104,295	

Table of Contents

Pursuant to the terms of the Tower Securities (see Note 10), the Company is required to establish a securitization escrow account, held by the indenture trustee, into which all rents and other sums due on the towers that secure the Tower Securities are directly deposited by the lessees. These restricted cash amounts are used to fund reserve accounts for the payment of (1) debt service costs, (2) ground rents, real estate and personal property taxes and insurance premiums related to towers, (3) trustee and servicing expenses, and (4) management fees. The restricted cash in the securitization escrow account in excess of required reserve balances is subsequently released to the Borrowers (as defined in Note 10) monthly, provided that the Borrowers are in compliance with their debt service coverage ratio and that no event of default has occurred. All monies held by the indenture trustee are classified as restricted cash on the Company's Consolidated Balance Sheets.

Payment and performance bonds relate primarily to collateral requirements for tower construction currently in process by the Company. Cash is pledged as collateral related to surety bonds issued for the benefit of the Company or its affiliates in the ordinary course of business and primarily related to the Company's tower removal obligations. As of March 31, 2018 and December 31, 2017, the Company had \$39.6 million and \$39.5 million in surety, payment and performance bonds, respectively. As of March 31, 2018 and December 31, 2017, no collateral was required to be posted. The Company periodically evaluates the collateral posted for its bonds to ensure that it meets the minimum requirements. As of March 31, 2018 and December 31, 2017, the Company had also pledged \$2.5 million as collateral related to its workers compensation policy.

During the quarter ended March 31, 2018, the Company placed \$24.5 million into escrow accounts in anticipation of pending acquisitions. These amounts are designated for use in the acquisition of towers and their use is restricted for this activity. Should the acquisitions not be consummated and the Company is not in breach of the purchase and sale agreement, the funds would be returned back to the Company without penalty. Subsequent to March 31, 2018, the Company closed on one of the pending acquisitions and \$10.0 million of the escrow deposits were transferred from the escrow account to the seller.

4. PREPAID EXPENSES AND OTHER CURRENT ASSETS AND OTHER ASSETS

The Company's prepaid expenses and other current assets are comprised of the following:

	As of March 31, 2018	As of December 31, 2017
	(in thousands)	
Prepaid ground rent	\$ 31,257	\$ 32,505

5.ACQUISITIONS

The following table summarizes the Company's cash acquisition capital expenditures:

	For the three months ended March 31, 2018 2017	
	(in thousands)	
Acquisitions of towers and related intangible assets	\$ 108,355	\$ 31,147
Land buyouts and other assets (1)	9,267	11,504
Total cash acquisition capital expenditures	\$ 117,622	\$ 42,651

(1) In addition, the Company paid \$6.6 million and \$2.7 million for ground lease extensions and term easements on land underlying the Company's towers during the three months ended March 31, 2018 and 2017, respectively. The Company recorded these amounts in prepaid rent on its Consolidated Balance Sheets.

For acquisitions which qualify as asset acquisitions, the aggregate purchase price is allocated on a relative fair value basis to towers and related intangible assets. The fair values of these net assets acquired are based on management's estimates and assumptions, as well as other information compiled by management, including valuations that utilize customary valuation procedures and techniques. The fair value estimates are based on available historical information and on future expectations and assumptions deemed reasonable by management at the time. If the actual results differ from the estimates and judgments used in these fair values, the amounts recorded in the consolidated financial statements could be subject to a possible impairment of the intangible assets, or require acceleration of the amortization expense of intangible assets in subsequent periods.

For business combinations, the estimates of the fair value of the assets acquired and liabilities assumed at the date of an acquisition are subject to adjustment during the measurement period (up to one year from the particular acquisition date). During the measurement period, the Company will adjust assets and/or liabilities if new information is obtained about facts and circumstances that existed as of the acquisition date that, if known, would have resulted in a revised estimated value of those assets and/or liabilities as of that date. As of March 31, 2018, there were no purchase price allocations that were preliminary.

During the three months ended March 31, 2018, the Company acquired 334 completed towers and related assets and liabilities consisting of \$23.2 million of property and equipment, \$101.3 million of intangible assets, and \$16.2 million of working capital adjustments. All acquisitions in the quarter ended March 31, 2018 were accounted for as asset acquisitions.

Subsequent to March 31, 2018, the Company acquired 190 towers and related assets for \$119.5 million in cash.

Senior Credit Agreement

On April 11, 2018, the Company amended and restated its Senior Credit Agreement to (1) issue a new \$2.4 billion Term Loan, (2) increase the total commitments under the Revolving Credit Facility from \$1.0 billion to \$1.25 billion, (3) extend the maturity date of the Revolving Credit Facility to April 11, 2023, (4) lower the applicable interest rate margins and commitment fees under the Revolving Credit Facility, and (5) amend certain other terms and conditions under the Senior Credit Agreement. The proceeds from the new Term Loan were used to repay the outstanding balance on the 2014 Term Loan, 2015 Term Loan, and Revolving Credit Facility and for general corporate purposes. This transaction was accounted for as an extinguishment of the 2014 Term Loan and 2015 Term Loan.

Revolving Credit Facility under the Senior Credit Agreement

As amended, the Revolving Credit Facility consists of a revolving loan under which up to \$1.25 billion aggregate principal amount may be borrowed, repaid and redrawn, based upon specific financial ratios and subject to the satisfaction of other customary conditions to borrowing. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranges from 112.5 basis points to 175.0 basis points or (ii) the Base Rate plus a margin that ranges from 12.5 basis points to 75.0

basis points, in each case based on the ratio of Consolidated Net Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement. In addition, SBA Senior Finance II is required to pay a commitment fee of between 0.20% and 0.25% per annum on the amount of unused commitment. If not earlier terminated by SBA Senior Finance II, the Revolving Credit Facility will terminate on, and SBA Senior Finance II will repay all amounts outstanding on or before, April 11, 2023. The proceeds available under the Revolving Credit Facility may be used for general corporate purposes.

Prior to the amendment, amounts borrowed under the Revolving Credit Facility accrued interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranged from 137.5 basis points to 200.0 basis points or (ii) the Base Rate plus a margin that ranged from 37.5 basis points to 100.0 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement.

Table of Contents

2018-1C Tower Securities

On March 9, 2018, the Company, through the Trust, issued \$640.0 million of Secured Tower Revenue Securities Series 2018-1C, which have an anticipated repayment date of March 9, 2023 and a final maturity date of March 9, 2048 (the “2018-1C Tower Securities”). The fixed interest rate on the 2018-1C Tower Securities is 3.448% per annum, payable monthly. Net proceeds from this offering, in combination with borrowings under the Revolving Credit Facility, were used to repay the entire aggregate principal amount of the 2013-1C Tower Securities (\$425.0 million) and 2013-1D Tower Securities (\$330.0 million), as well as accrued and unpaid interest. The Company incurred deferred financing fees of \$8.2 million in relation to this transaction, which are being amortized through the anticipated repayment date of the 2018-1C Tower Securities.

In addition, to satisfy certain risk retention requirements of Regulation RR promulgated under the Exchange Act, SBA Guarantor, LLC, a wholly owned subsidiary, purchased \$33.7 million of Secured Tower Revenue Securities Series 2018-1R issued by the Trust. These securities have an anticipated repayment date of March 9, 2023 and a final maturity date of March 9, 2048 (the “2018-1R Tower Securities”). The fixed interest rate on the 2018-1R Tower Securities is 4.949% per annum, payable monthly. Principal and interest payments made on the 2018-1R Tower Securities eliminate in consolidation.

In connection with the issuance of the 2018-1C Tower Securities, the non-recourse mortgage loan was increased by \$673.7 million (but decreased by a net of \$81.3 million after giving effect to prepayment of the loan components relating to the 2013-1C Tower Securities and 2013-1D Tower Securities). The new loan, after eliminating the risk retention securities, accrues interest at the same rate as the 2018-1C Tower Securities and is subject to all other material terms of the existing mortgage loan, including collateral and interest rate after the anticipated repayment date.

Debt Covenants

As of March 31, 2018, the Borrowers met the debt service coverage ratio required by the mortgage loan agreement and were in compliance with all other covenants as set forth in the agreement.

On July 1, 2014, the Company issued \$750.0 million of unsecured senior notes due July 15, 2022 (the “2014 Senior Notes”). The 2014 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2014 Senior Notes is due semi-annually on January 15 and July 15 of each year. The Company incurred deferred financing fees of \$11.6 million in relation to this transaction, which are being amortized through the maturity date.

The 2014 Senior Notes are subject to redemption in whole or in part on or after July 15, 2017 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. The Company may redeem the 2014 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: July 15, 2017 at 103.656%, July 15, 2018 at 102.438%, July 15, 2019 at 101.219%, or July 15, 2020 until maturity at 100.000%, of the principal amount of the 2014 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

2016 Senior Notes

On August 15, 2016, the Company issued \$1.1 billion of unsecured senior notes due September 1, 2024 (the “2016 Senior Notes”). The 2016 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2016 Senior Notes is due semi-annually on March 1 and September 1 of each year, beginning on March 1, 2017. The Company incurred deferred financing fees of \$12.8 million in relation to this transaction, which are being amortized through the maturity date.

Net proceeds from this offering and cash on hand were used to redeem \$800.0 million, the aggregate principal amount outstanding, of Telecommunications' 5.75% Senior Notes and \$250.0 million of the Company's 5.625% Senior Notes and pay the associated call premiums.

The 2016 Senior Notes are subject to redemption in whole or in part on or after September 1, 2019 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. Prior to September 1, 2019, the Company may at its option redeem up to 35% of the aggregate principal amount of the 2016 Senior Notes originally issued at a redemption price of 104.875% of the principal amount of the 2016 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest with the net proceeds of certain equity offerings. The Company may redeem the 2016 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: September 1, 2019 at 103.656%, September 1, 2020 at 102.438%, September 1, 2021 at 101.219%, or September 1, 2022 until maturity at 100.000%, of the principal amount of the 2016 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

2017 Senior Notes

On October 13, 2017, the Company issued \$750.0 million of unsecured senior notes due October 1, 2022 (the "2017 Senior Notes"). The 2017 Senior Notes accrue interest at a rate of 4.0% per annum. Interest on the 2017 Senior Notes is due semi-annually on April 1 and October 1 of each year, beginning on April 1, 2018. The Company incurred deferred financing fees of \$8.9 million in relation to this transaction, which are being amortized through the maturity date. Net proceeds from this offering were used to repay \$460.0 million outstanding under the Revolving Credit Facility and for general corporate purposes.

The 2017 Senior Notes are subject to redemption in whole or in part on or after October 1, 2019 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. Prior to October 1, 2020, the Company may, at the Company's option, redeem up to 35% of the aggregate principal amount of the 2017 Senior Notes originally issued at a redemption price of 104.000% of the principal amount of the 2017 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest with the net proceeds of certain equity offerings. The Company may redeem the 2017 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: October 1, 2019 at 102.000%, October 1, 2020 at 101.000%, or October 1, 2021 until maturity at 100.000%, of the principal amount of the 2017 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

11.SHAREHOLDERS' EQUITY

Common Stock Equivalents

The Company has potential common stock equivalents (see Note 12) related to its outstanding stock options and restricted stock units. These potential common stock equivalents were considered in the Company's diluted earnings per share calculation (see Note 15).

Stock Repurchases

On February 16, 2018, the Company's Board of Directors authorized a \$1.0 billion stock repurchase plan replacing the prior plan authorized on January 12, 2017 which had a remaining authorization of \$150.0 million. This new plan authorizes the Company to purchase, from time to time, up to \$1.0 billion of the outstanding Class A common stock through open market repurchases in compliance with Rule 10b-18 under the Exchange Act and/or in privately negotiated transactions at management's discretion based on market and business conditions, applicable legal requirements and other factors. Shares repurchased will be retired. The plan has no time deadline and will continue

until otherwise modified or terminated by the Company's Board of Directors at any time in its sole discretion.

During the three months ended March 31, 2018, the Company repurchased 0.2 million shares of its Class A common stock under this plan for \$38.5 million, at an average price per share of \$161.60. Shares repurchased were retired.

Subsequent to March 31, 2018, the Company repurchased 1.6 million shares of its Class A common stock for \$261.5 million, at an average price per share of \$164.82. Shares repurchased were retired. As of the date of this filing, the Company had \$700.0 million of authorization remaining under the current stock repurchase plan.

12.STOCK-BASED COMPENSATION

Stock Options

The Company records compensation expense for employee stock options based on the estimated fair value of the options on the date of grant using the Black-Scholes option-pricing model with the assumptions included in the table below. The Company uses a combination of historical data and historical volatility to establish the expected volatility, as well as to estimate the expected option life. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for the estimated life of the option. The following assumptions were used to estimate the fair value of options granted using the Black-Scholes option-pricing model:

	For the three months ended March 31, 2018 2017	
Risk free interest rate	2.57%	1.91%
Dividend yield	0.7%	0.0%
Expected volatility	22%	20%
Expected lives	4.6 years	4.6 years

The following table summarizes the Company's activities with respect to its stock option plans for the three months ended March 31, 2018 as follows (dollars and shares in thousands, except for per share data):

	Number	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2017	4,842	\$ 100.12		
Granted	922	\$ 156.52		
Exercised	(180)	\$ 72.61		
Canceled	(8)	\$ 109.13		
Outstanding at March 31, 2018	5,576	\$ 110.32	4.6	\$ 337,860
Exercisable at March 31, 2018	2,883	\$ 95.84	3.5	\$ 216,484
Unvested at March 31, 2018	2,693	\$ 125.84	5.9	\$ 121,376

The weighted-average per share fair value of options granted during the three months ended March 31, 2018 was \$32.98. The total intrinsic value for options exercised during the three months ended March 31, 2018 was \$16.6 million.

13. INCOME TAXES

The primary reason for the difference in the Company's effective tax rate and the U.S. statutory rate is a result of the Company's REIT election and the Company having a full valuation allowance on the U.S. net deferred tax assets of the taxable REIT subsidiaries ("TRSs"). The Company has concluded that it is not more likely than not that its deferred tax assets will be realized and has recorded a full valuation allowance. A foreign tax provision is recognized because certain international subsidiaries of the Company have profitable operations or are in a net deferred tax liability position.

The Company elected to be taxed as a REIT commencing with its taxable year ended December 31, 2016. As a REIT, the Company generally will be entitled to a deduction for dividends that it pays, and therefore, not subject to U.S. federal corporate income tax on that portion of its net income that it distributes to its shareholders. As a REIT, the Company will continue to pay U.S. federal income tax on earnings, if any, from assets and operations held through its TRSs. These assets and operations currently consist primarily of the Company's site development services and its international operations. The Company's international operations would continue to be subject, as applicable, to foreign taxes in the jurisdictions in which those operations are located. The Company may also be subject to a variety of taxes, including payroll taxes and state, local, and foreign income, property, and other taxes on its assets and operations. The Company's determination as to the timing and amount of future dividend distributions will be based on a number of factors, including REIT distribution requirements, its existing federal net operating losses ("NOLs") of approximately \$1.0 billion as of December 31, 2017, the Company's financial condition, earnings, debt covenants, and other possible uses of such funds. The Company may use these NOLs to offset its REIT taxable income, and thus any required distributions to shareholders may be reduced or eliminated until such time as the NOLs have been fully utilized.

The Tax Cuts and Jobs Act (the "Tax Act") was enacted on December 22, 2017. The Tax Act reduces the U.S. federal corporate income tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain

foreign subsidiaries that were previously tax deferred and creates new taxes on certain foreign sourced earnings. The Company is applying the guidance in Staff Accounting Bulletin No. 118 when accounting for the enactment-date effects of the Tax Act. As of March 31, 2018, the Company has not recognized any adjustments to the provisional amounts recorded at December 31, 2017. As additional guidance becomes available related to the Tax Act, the Company will continue to refine its calculations. These estimates may also be affected as the Company gains a more thorough understanding of the Tax Act. These changes may be material to income tax expense.

The global intangible low-taxed income ("GILTI") provisions of the Tax Act impose a tax on the income of certain foreign subsidiaries in excess of a specified return on tangible assets used by the foreign companies. FASB Staff Q&A, Topic 740, No. 5, Accounting for Global Intangible Low-Taxed Income, states that an entity can make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI in the year the tax is incurred. Given the complexity of the GILTI provisions, the Company is still evaluating the effects of the GILTI provisions and has not yet determined the new accounting policy it intends to elect. At March 31, 2018, because the Company is still evaluating the GILTI provisions and the analysis of future taxable income subject to GILTI, the Company has included GILTI related to current-year operations only and have not provided additional GILTI on deferred items.

14.SEGMENT DATA

The Company operates principally in two business segments: site leasing and site development. The Company's site leasing business includes two reportable segments, domestic site leasing and international site leasing. The Company's business segments are strategic business units that offer different services. They are managed separately based on the fundamental differences in their operations. The site leasing segment includes results of the managed and sublease businesses. The site development segment includes the results of both consulting and construction related activities. The Company's Chief Operating Decision Maker utilizes segment operating profit and operating income as his two measures of segment profit in assessing performance and allocating resources at the reportable segment level. The Company has applied the aggregation criteria to operations within the international site leasing segment on a basis that is consistent with management's review of information and performance evaluations of the individual markets in this region.

Revenues, cost of revenues (exclusive of depreciation, accretion and amortization), capital expenditures (including assets acquired through the issuance of shares of the Company's Class A common stock) and identifiable assets pertaining to the segments in which the Company continues to operate are presented below.

Other than Brazil, no foreign country represented a material amount of total revenues in any of the periods presented. Site leasing revenue in Brazil was \$61.2 million and \$53.2 million for the three months ended March 31, 2018 and 2017, respectively. Total long-lived assets in Brazil were \$1,262.5 million and \$1,278.9 million as of March 31, 2018 and December 31, 2017, respectively.

15.EARNINGS PER SHARE

Basic earnings per share was computed by dividing net income attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding for each respective period. Diluted earnings per share was calculated by dividing net income attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding adjusted for any dilutive Common Stock equivalents, including unvested restricted stock and shares issuable upon exercise of stock options as determined under the "If-Converted" method and also Common Stock warrants as determined under the "Treasury Stock" method.

The following table sets forth basic and diluted net income per common share for the three months ended March 31, 2018 and 2017 (in thousands, except per share data):

For the three months
ended March 31,

Edgar Filing: SBA COMMUNICATIONS CORP - Form 10-Q

	2018	2017
Numerator:		
Net income	\$ 31,545	\$ 37,598
Denominator:

Net income per common share:		
Basic	\$ 0.27	\$ 0.31
Diluted	\$ 0.27	\$ 0.31

For the three months ended March 31, 2018 and 2017, the diluted weighted average number of common shares outstanding excluded an additional 0.3 million and 2.4 million shares, respectively, issuable upon exercise of the Company's stock options because the impact would be anti-dilutive.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We are a leading independent owner and operator of wireless communications infrastructure, including tower structures, rooftops and other structures that support antennas used for wireless communications, which we collectively refer to as "towers" or "sites." Our principal operations are in the United States and its territories. In addition, we own and operate towers in South America, Central America, and Canada. Our primary business line is our site leasing business, which contributed 98.5% of our total segment operating profit for the three months ended March 31, 2018. In our site leasing business, we (1) lease antenna space to wireless service providers on towers that we own or operate and (2) manage rooftop and tower sites for property owners under various contractual arrangements. As of March 31, 2018, we owned 28,309 towers, a substantial portion of which have been built by us or built by other tower owners or operators who, like us, have built such towers to lease space to multiple wireless service providers. We also managed or leased approximately 9,000 actual or potential sites, approximately 500 of which were revenue producing as of March 31, 2018. Our other business line is our site development business, through which we assist wireless service providers in developing and maintaining their own wireless service networks.

Site Leasing Services

Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts in the United States, Canada, Central America, and South America. As of March 31, 2018, (1) no U.S. state or territory accounted for more than 10% of our total tower portfolio by tower count, and (2) no U.S. state or territory accounted for more than 10% of our total revenues for the three months ended March 31, 2018. In addition, as of March 31, 2018, approximately 29.7% of our total towers are located in Brazil and less than 3% of our total towers are located in any of our other international markets (each country is considered a market). We derive site leasing revenues primarily from wireless service provider tenants, including AT&T, T-Mobile, Verizon Wireless, Sprint, Oi S.A., Telefonica, Claro, and TIM. Wireless service providers enter into tenant leases with us, each of which relates to the lease or use of space at an individual site. In the United States and Canada, our tenant leases are generally for an initial term of five to ten years with five 5-year renewal periods at the option of the tenant. These tenant leases typically contain specific rent escalators, which average 3-4% per year, including the renewal option periods. Tenant leases in our Central American and South American markets typically have an initial term of ten years with multiple five-year renewal periods. In Central America, we have similar rent escalators to that of leases in the United States and Canada while our leases in South America escalate in accordance with a standard cost of living index. Site leases in South America typically provide for a fixed rental amount and a pass through charge for the underlying ground lease rent.

In our Central American markets and Ecuador, significantly all of our revenue, expenses, and capital expenditures arising from our new build activities are denominated in U.S. dollars. Specifically, most of our ground leases, tenant leases, and tower-related expenses are due and paid in U.S. dollars. In our Central American markets, our local currency obligations are principally limited to (1) permitting and other local fees, (2) utilities, and (3) taxes. In Brazil, Canada, Chile, and Colombia, significantly all of our revenue, expenses, and capital expenditures, including tenant leases, ground leases, and other tower-related expenses are denominated in local currency. In Argentina and Peru, our revenue, expenses, and capital expenditures, including tenant leases, ground leases, and other tower-related expenses are denominated in a mix of local currency and U.S. dollars.

Cost of site leasing revenue primarily consists of:

- Rental payments on ground leases and other underlying property interests;
- Straight-line rent adjustment for the difference between rental payments made and the expense recorded as if the payments had been made evenly throughout the lease term (which may include renewal terms) of the underlying

- property interests;
- Property taxes;
- Site maintenance and monitoring costs (exclusive of employee related costs);
- Utilities;
- Property insurance; and
- Deferred lease origination cost amortization.

Ground leases are generally for an initial term of five years or more with multiple renewal terms of five-year periods at our option and provide for rent escalators which typically average 2-3% annually, or in our South American markets, adjust in accordance with a standard cost of living index. As of March 31, 2018, approximately 70% of our tower structures were located on parcels of land that we own, land subject to perpetual easements, or parcels of land in which we have a leasehold interest that extends beyond 20

Table of Contents

years. For any given tower, costs are relatively fixed over a monthly or an annual time period. As such, operating costs for owned towers do not generally increase as a result of adding additional customers to the tower. The amount of property taxes varies from site to site depending on the taxing jurisdiction and the height and age of the tower. The ongoing maintenance requirements are typically minimal and include replacing lighting systems, painting a tower, or upgrading or repairing an access road or fencing.

As indicated in the table below, our site leasing business generates substantially all of our total segment operating profit. For information regarding our operating segments, see Note 14 of our Condensed Notes to Consolidated Financial Statements included in this quarterly report.

	For the three months ended March 31,	
Segment operating profit as a percentage of total	2018	2017
Domestic site leasing	80.7%	81.9%
International site leasing	17.8%	16.7%
Total site leasing	98.5%	98.6%

We believe that the site leasing business continues to be attractive due to its long-term contracts, built-in rent escalators, high operating margins, and low customer churn (which refers to when a customer does not renew its lease or cancels its lease prior to the end of its term) other than in connection with customer consolidation or cessation of a particular technology. We believe that over the long-term, site leasing revenues will continue to grow as wireless service providers lease additional antenna space on our towers due to increasing minutes of network use and data transfer, network expansion and network coverage requirements. During the remainder of 2018, we expect organic site leasing revenue, in terms of revenue added per tower, in both our domestic and international segments to increase over 2017 levels due in part to wireless carriers deploying unused spectrum and spectrum acquired during auctions completed in 2017. We believe our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures. Due to the relatively young age and mix of our tower portfolio, we expect future expenditures required to maintain these towers to be minimal. Consequently, we expect to grow our cash flows by (1) adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost of tower modifications and (2) executing monetary amendments as wireless service providers add or upgrade their equipment. Furthermore, because our towers are strategically positioned and our customers typically do not relocate, we have historically experienced low tenant lease terminations as a percentage of revenue other than in connection with customer consolidation or cessations of a specific technology (e.g. iDEN, MetroPCS, Clearwire, and Cricket).

Site Development Services

Our site development business, which is conducted in the United States only, is complementary to our site leasing business and provides us the ability to keep in close contact with the wireless service providers who generate substantially all of our site leasing revenue and to capture ancillary revenues that are generated by our site leasing activities, such as antenna and equipment installation at our tower locations. Site development services revenues are earned primarily from providing a full range of end to end services to wireless service providers or companies providing development or project management services to wireless service providers. Our services include:

(1) network pre-design; (2) site audits; (3) identification of potential locations for towers and antennas on existing infrastructure; (4) support in leasing of the location; (5) assistance in obtaining zoning approvals and permits; (6) tower and related site construction; (7) antenna installation; and (8) radio equipment installation, commissioning, and maintenance. We provide site development services at our towers and at towers owned by others on a local basis, through regional, market, and project offices. The market offices are responsible for all site development operations.

Capital Allocation Strategy

Our capital allocation strategy is to prioritize investment in quality assets that meet our return criteria and then stock repurchases when we believe our stock price is below intrinsic value. A primary goal of our capital allocation strategy is to increase our Adjusted Funds From Operations per share. To achieve this, we expect we would continue to deploy capital between portfolio growth and stock repurchases, subject to compliance with REIT distribution requirements, available funds and market conditions, while maintaining our target leverage levels. Key elements of our capital allocation strategy include:

Portfolio Growth. We intend to continue to grow our tower portfolio, domestically and internationally, through tower acquisitions and the construction of new towers.

Table of Contents

Stock Repurchase Program. We currently utilize stock repurchases as part of our capital allocation policy when we believe our share price is below its intrinsic value. We believe that share repurchases, when purchased at the right price, will facilitate our goal of increasing our Adjusted Funds From Operations per share.

Critical Accounting Policies and Estimates

We have identified the policies and significant estimation processes listed in the Annual Report on Form 10-K as critical to our business operations and the understanding of our results of operations. The listing is not intended to be a comprehensive list. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management's judgment in their application. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. The impact and any associated risks related to these policies on our business operations is discussed throughout "Management's Discussion and Analysis of Financial Condition and Results of Operations" where such policies affect reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see Note 2 of our Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2017. Our preparation of our financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting periods. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

Revenue Recognition and Accounts Receivable

Revenue from site leasing is recognized on a straight-line basis over the current term of the related lease agreements, which are generally five to ten years. Receivables recorded related to the straight-lining of site leases are reflected in other assets on the Consolidated Balance Sheets. Rental amounts received in advance are recorded as deferred revenue on the Consolidated Balance Sheets. Revenue from site leasing represents 94% of our total revenue.

Site development projects in which we perform consulting services include contracts on a fixed price basis. Site development projects are billed at contractual rates and revenue is recognized over time based on milestones achieved, which are determined based on costs incurred. Amounts billed in advance (collected or uncollected) are recorded as deferred revenue on our Consolidated Balance Sheets.

Revenue from construction projects is recognized over time, determined by the percentage of cost incurred to date compared to management's estimated total cost for each contract. This method is used because management considers total cost to be the best available measure of progress on the contracts. These amounts are based on estimates, and the uncertainty inherent in the estimates initially is reduced as work on the contracts nears completion. The asset "costs and estimated earnings in excess of billings on uncompleted contracts" represents costs incurred and revenues recognized in excess of amounts billed. The liability "billings in excess of costs and estimated earnings on uncompleted contracts," included within other current liabilities on our Consolidated Balance Sheets, represents billings in excess of costs incurred and revenues recognized. Refer to Note 8 in the Condensed Notes to the Consolidated Financial Statements included in this filing for further detail of costs and estimated earnings in excess of billings on uncompleted contracts. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined to be probable.

The site development segment represents approximately 6% of our total revenues. We account for site development revenue in accordance with ASC 606, Revenue from Contracts with Customers, which we adopted on January 1, 2018 by applying the modified retrospective transition method. Payment terms do not result in any significant financing

arrangements. Furthermore, these contracts do not typically include variable consideration; therefore, the transaction price that is recognized over time is generally the amount of the total contract. The cumulative effect of initially applying the new revenue standard had no impact on our financial results. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The adoption of the new standard had no impact to net income on an ongoing basis.

The accounts receivable balance was \$101.1 million and \$90.7 million as of March 31, 2018 and December 31, 2017, respectively, of which \$29.3 million and \$20.8 million related to the site development segment as of March 31, 2018 and December 31, 2017, respectively. We perform periodic credit evaluations of our customers. In addition, we monitor collections and payments from our customers and maintain a provision for estimated credit losses based upon historical experience, specific customer collection issues identified, and past due balances as determined based on contractual terms. Interest is charged on outstanding receivables from customers on a case by case basis in accordance with the terms of the respective contracts or agreements with those customers. Amounts determined to be uncollectible are written off against the allowance for doubtful accounts in the period in which

uncollectibility is determined to be probable. Refer to Note 14 in the Condensed Notes to the Consolidated Financial Statements included in this filing for further detail of the site development segment.

RESULTS OF OPERATIONS

This report presents our financial results and other financial metrics after eliminating the impact of changes in foreign currency exchange rates. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period, as well as by eliminating the impact of the remeasurement of our intercompany loans.

Revenues					

Domestic site leasing revenues increased \$20.6 million for the three months ended March 31, 2018, as compared to the prior year, due to (i) revenues from 205 towers acquired and 57 towers built since January 1, 2017 and (ii) organic site leasing growth, primarily from monetary lease amendments for additional equipment added to our towers as well as new leases and contractual rent escalators, partially offset by lease non-renewals primarily by MetroPCS, Clearwire, and Cricket.

International site leasing revenues increased \$12.4 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, international site leasing revenues increased \$13.0 million. These changes were primarily due to (i) revenues from 1,554 towers acquired and 474 towers built since January 1, 2017, (ii) organic site leasing growth from new leases, amendments, and contractual escalators, and (iii) an increase in reimbursable pass-through expenses. Site leasing revenue in Brazil represented 14.2% of total site leasing revenue for the period. No other individual international market represented more than 3% of our total site leasing revenue.

Site development revenues increased \$1.9 million for the three months ended March 31, 2018, as compared to the prior year, as a result of increased carrier activity.

Table of Contents

Operating Profit

Domestic site leasing segment operating profit increased \$21.0 million for the three months ended March 31, 2018, as compared to the prior year, primarily due to additional profit generated by (i) towers acquired and built since January 1, 2017 and organic site leasing growth as noted above, (ii) continued control of our site leasing cost of revenue, and (iii) the positive impact of our ground lease purchase program.

International site leasing segment operating profit increased \$8.6 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, international site leasing segment operating profit increased \$9.0 million. These changes were primarily due to towers acquired and built since January 1, 2017 and organic site leasing growth as noted above.

Site development segment operating profit increased \$1.0 million for the three months ended March 31, 2018, as compared to the prior year, primarily due to an increase in revenue from increased carrier activity as well as a change in the mix of work performed.

Selling, general, and administrative expenses increased \$1.8 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, selling, general, and administrative expenses increased \$1.7 million. These changes were primarily as a result of increases in non-cash compensation, personnel, salaries, benefits, and other support costs.

Asset Impairment and Decommission Costs:

Site development	278	105	—	173	164.8%
Total	\$ 8,506	\$ 8,351	\$ 395	\$ (240)	(2.9%)

Asset impairment and decommission costs increased by \$0.2 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, asset impairment and decommission costs decreased \$0.2 million. These changes were primarily as a result of a \$2.8 million increase in impairment charges resulting from our regular analysis of whether the future cash flows from certain towers are adequate to recover the carrying value of the investment in those towers, partially offset by a \$2.7 million decrease in the impairment charge recorded on decommissioned towers for the three months ended March 31, 2018 compared to the prior year.

Depreciation, accretion, and amortization expense increased \$6.4 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, depreciation, accretion, and amortization expense increased \$6.6 million. These changes were primarily due to additional domestic site leasing and international site leasing depreciation and amortization associated with an increase in the number of towers we acquired and built since January 1, 2017, partially offset by no depreciation and amortization associated with assets that became fully depreciated since the prior year period.

Operating Income:

Domestic site leasing operating income increased \$22.3 million for the three months ended March 31, 2018, as compared to the prior year, primarily due to higher segment operating profit and decreases in asset impairment and decommission costs and depreciation, accretion, and amortization expense.

International site leasing operating income increased \$0.2 million for the three months ended March 31, 2018, as compared to the prior year. On a constant currency basis, international site leasing operating income increased \$0.9 million. These changes were primarily due to higher segment operating profit, partially offset by increases in depreciation, accretion, and amortization expenses, selling, general, and administrative expense, and asset impairment and decommission costs.

Site development operating income increased \$0.5 million for the three months ended March 31, 2018, as compared to the prior year, primarily due to higher segment operating profit, partially offset by an increase in selling, general, and administrative expenses and asset impairment and decommission costs.

Total	\$ (89,841)	\$ (66,823)	\$ (11,916)	\$ (11,102)	16.6%

Interest income decreased \$1.9 million, on an actual and constant currency basis, for the three months ended March 31, 2018, as compared to the prior year, due to a lower average interest rate and lower amount of interest bearing deposits held in Brazil as compared to the prior year.

Interest expense increased \$11.3 million, on an actual and constant currency basis, for the three months ended March 31, 2018, as compared to the prior year, due to a higher weighted average interest rate on debt and a higher average principal amount of cash-interest bearing debt outstanding as compared to the prior year. The increase primarily resulted from the issuance of the 2017-1C Tower Securities in April 2017, the 2017 Senior Notes in October 2017, and the 2018-1C Tower Securities in February 2018, partially offset by the repayment of the 2012-1C Tower Securities in April 2017, the 2013-1C Tower Securities and 2013-1D Tower Securities in March 2018, and a lower average balance outstanding on the Revolving Credit Facility in the current year period.

Provision for income taxes increased \$5.2 million for the three months ended March 31, 2018 as compared to the prior year. On a constant currency basis, provision for income taxes increased \$4.9 million. These changes were primarily due to an increase in foreign tax expense, primarily in Brazil.

Net income \$ 31,545 \$ 37,598 \$ (12,364) \$ 6,311 16.8%

Net income decreased \$6.1 million for the three months ended March 31, 2018, as compared to the prior year. This change was primarily due to fluctuations in our foreign currency exchange rates including changes recorded on the remeasurement of the intercompany loan and an increase in interest expense, partially offset by an increase in operating income.

NON-GAAP FINANCIAL MEASURES

This report contains information regarding a non-GAAP measure, Adjusted EBITDA. We have provided below a description of Adjusted EBITDA, a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure and an explanation as to why management utilizes this measure. This report also presents our financial results and other financial metrics after eliminating the impact of changes in foreign currency exchange rates. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period, as well as by eliminating the impact of the remeasurement of our intercompany loans.

Adjusted EBITDA

We define Adjusted EBITDA as net income excluding the impact of non-cash straight-line leasing revenue, non-cash straight-line ground lease expense, non-cash compensation, net loss from extinguishment of debt, other income and expenses, acquisition related adjustments and expenses, asset impairment and decommission costs, interest income, interest expenses, depreciation, accretion, and amortization, and provision for or benefit from taxes.

We believe that Adjusted EBITDA is useful to investors or other interested parties in evaluating our financial performance. Adjusted EBITDA is the primary measure used by management (1) to evaluate the economic productivity of our operations and (2) for purposes of making decisions about allocating resources to, and assessing the performance of, our operations. Management believes that Adjusted EBITDA helps investors or other interested parties to meaningfully evaluate and compare the results of our operations (1) from period to period and (2) to our competitors, by excluding the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization and accretion) from our financial results. Management also believes Adjusted EBITDA is frequently used by investors or other interested parties in the evaluation of REITs. In addition, Adjusted EBITDA is a component of the calculation that has been used by our lenders to determine compliance with certain covenants under our Senior Credit Agreement and the indentures relating to the 2014 Senior Notes, 2016 Senior Notes, and 2017 Senior Notes. Adjusted EBITDA should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

(2) Provision for taxes includes \$193 of franchise taxes and \$588 of franchise and gross receipts taxes for the three months ended March 31, 2018 and 2017, respectively, reflected in selling, general, and administrative expenses on the Consolidated Statement of Operations.

Adjusted EBITDA increased \$26.7 million for the three months ended March 31, 2018, as compared to the prior year period. On a constant currency basis, Adjusted EBITDA increased \$27.1 million. These changes were primarily due to increases in segment operating profit, partially offset by an increase in selling, general, and administrative expenses.

LIQUIDITY AND CAPITAL RESOURCES

SBAC is a holding company with no business operations of its own. SBAC's only significant asset is 100% of the outstanding capital stock of SBA Telecommunications, LLC ("Telecommunications"), which is also a holding company that owns equity interests in entities that directly or indirectly own all of our domestic and international towers and assets. We conduct all of our business operations through Telecommunications' subsidiaries. Accordingly, our only source of cash to pay our obligations, other than financings, is distributions with respect to our ownership interest in our subsidiaries from the net earnings and cash flow generated by these subsidiaries.

A summary of our cash flows is as follows:

	For the three months ended March 31, 2018	March 31, 2017
	(in thousands)	
Cash provided by operating activities	\$ 178,577	\$ 172,306
Cash used in investing activities	(151,597)	(84,277)
Cash provided by (used in) financing activities	34,049	(112,272)
Change in cash, cash equivalents, and restricted cash	61,029	(24,243)
Effect of exchange rate changes on cash, cash equiv., and restricted cash	(504)	3,744
Cash, cash equivalents, and restricted cash, beginning of period	104,295	185,970
Cash, cash equivalents, and restricted cash, end of period	\$ 164,820	\$ 165,471
Operating Activities		

Cash provided by operating activities was \$178.6 million for the three months ended March 31, 2018 as compared to \$172.3 million for the three months ended March 31, 2017. The increase of \$6.3 million was primarily due to increases in segment operating profit, partially offset by increases in cash outflows associated with working capital changes, an increase in cash interest payments, and lower interest income earned on interest bearing deposits.

Investing Activities

A detail of our cash capital expenditures is as follows:

	For the three months ended March 31,	
	2018	2017
	(in thousands)	
Acquisitions of towers and related intangible assets	\$ 108,355	\$ 31,147

Tower maintenance	6,664	6,647
General corporate	816	1,169
Total cash capital expenditures	\$ 148,718	\$ 78,398

(1) In addition, we paid \$6.6 million and \$2.7 million for ground lease extensions and term easements on land underlying our towers during the three months ended March 31, 2018 and 2017, respectively.

For 2018, inclusive of the capital expenditures made during the three months ended March 31, 2018, we expect to incur non-discretionary cash capital expenditures associated with tower maintenance and general corporate expenditures of \$33.0 million to \$43.0 million and discretionary cash capital expenditures, based on current acquisition obligations, planned new tower construction, forecasted tower augmentations, and forecasted ground lease purchases, of \$565.0 million to \$585.0 million as well as potential, additional tower acquisitions not yet under contract. We expect to fund these cash capital expenditures from cash on hand, cash flow from operations, and borrowings under the Revolving Credit Facility or new financings. The exact amount of our future cash capital expenditures will depend on a number of factors, including amounts necessary to support our tower portfolio, our new tower build and acquisition programs, and our ground lease purchase program.

Financing Activities

During the three months ended March 31, 2018, we borrowed \$265.0 million and repaid \$70.0 million of the outstanding balance under the Revolving Credit Facility. As of March 31, 2018, the balance outstanding under the Revolving Credit Facility was \$235.0 million. Subsequent to March 31, 2018, we borrowed an additional \$200.0 million and repaid \$335.0 million of the outstanding balance under the Revolving Credit Facility. As of the date of this filing, \$100.0 million was outstanding under the Revolving Credit Facility.

On February 16, 2018, our Board of Directors authorized a new \$1.0 billion stock repurchase plan. This plan authorizes us to purchase, from time to time, up to \$1.0 billion of our outstanding Class A common stock through open market repurchases in compliance with Rule 10b-18 under the Exchange Act and/or in privately negotiated transactions at management's discretion based on market and business conditions, applicable legal requirements and other factors. Shares repurchased will be retired. The plan has no time deadline and will continue until otherwise modified or terminated by our Board of Directors at any time in its sole discretion.

During the three months ended March 31, 2018, we repurchased 0.2 million shares of our Class A common stock under our current stock repurchase plan for \$38.5 million at a weighted average price per share of \$161.60. Subsequent to March 31, 2018, we repurchased 1.6 million shares of our Class A common stock under our current stock repurchase plan for \$261.5 million at a weighted average price per share of \$164.82. Shares repurchased were

retired. As of the date of this filing, we had \$700.0 million of authorization remaining under the current stock repurchase plan.

On March 9, 2018, we, through the Trust, issued \$640.0 million of 2018-1C Tower Securities (as defined below). The fixed interest rate on the 2018-1C Tower Securities is 3.448% per annum, payable monthly. Net proceeds from this offering, in combination with borrowings under the Revolving Credit Facility, were used to repay the entire aggregate principal amount of the 2013-1C Tower Securities (\$425.0 million) and 2013-1D Tower Securities (\$330.0 million), as well as accrued and unpaid interest.

Table of Contents

On April 11, 2018, we, through our wholly owned subsidiary, SBA Senior Finance II LLC, obtained a new \$2.4 billion, seven-year, senior secured term loan (the “2018 Term Loan”) under the amended and restated Senior Credit Agreement. The 2018 Term Loan was issued at 99.75% of par value and will mature on April 11, 2025. It bears interest, at our election, at either the Base Rate plus 1.00% per annum or the Eurodollar Rate plus 2.00% per annum. The proceeds from the 2018 Term Loan were used (1) to retire the outstanding \$1.93 billion in aggregate principal amount of existing term loans, (2) to pay down the existing outstanding balance under our Revolving Credit Facility, and (3) for general corporate purposes.

We also amended our Revolving Credit Facility to (1) increase the total commitments under the Revolving Credit Facility from \$1.0 billion to \$1.25 billion, (2) extend the maturity date of the Revolving Credit Facility to April 11, 2023, (3) lower the applicable interest rate margins and commitment fees under the Revolving Credit Facility, and (4) amend certain other terms and conditions under the Senior Credit Agreement. As amended, the Revolving Credit Facility consists of a revolving loan under which up to \$1.25 billion aggregate principal amount may be borrowed, repaid and redrawn, subject to compliance with specific financial ratios and the satisfaction of other customary conditions to borrowing. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II’s election, at either (i) the Eurodollar Rate plus a margin that ranges from 112.5 basis points to 175.0 basis points or (ii) the Base Rate plus a margin that ranges from 12.5 basis points to 75.0 basis points, in each case based on the ratio of Consolidated Net Debt to Annualized Borrower EBITDA.

Registration Statements

We have on file with the Commission a shelf registration statement on Form S-4 registering shares of Class A common stock that we may issue in connection with the acquisition of wireless communication towers or antenna sites and related assets or companies who own wireless communication towers, antenna sites, or related assets. During the three months ended March 31, 2018, we did not issue any shares of Class A common stock under this registration statement. As of March 31, 2018, we had approximately 1.2 million shares of Class A common stock remaining under this shelf registration statement.

On March 5, 2018, we filed with the Commission an automatic shelf registration statement for well-known seasoned issuers on Form S-3ASR. This registration statement enables us to issue shares of our Class A common stock, preferred stock or debt securities either separately or represented by warrants, or depositary shares as well as units that include any of these securities. Under the rules governing automatic shelf registration statements, we will file a prospectus supplement and advise the Commission of the amount and type of securities each time we issue securities under this registration statement. No securities were issued under this registration statement through the date of this filing.

Debt Instruments and Debt Service Requirements

Senior Credit Agreement

On April 11, 2018, we amended and restated our Senior Credit Agreement to (1) issue the 2018 Term Loan, (2) increase the total commitments under the Revolving Credit Facility from \$1.0 billion to \$1.25 billion, (3) extend the maturity date of the Revolving Credit Facility to April 11, 2023, (4) lower the applicable interest rate margins and commitment fees under the Revolving Credit Facility, and (5) amend certain other terms and conditions under the Senior Credit Agreement. The proceeds from the 2018 Term Loan were used to repay the outstanding balances on the 2014 Term Loan, 2015 Term Loan, and Revolving Credit Facility and for general corporate purposes. This transaction was accounted for as an extinguishment of the 2014 Term Loan and 2015 Term Loan.

Revolving Credit Facility under the Senior Credit Agreement

As amended, the Revolving Credit Facility consists of a revolving loan under which up to \$1.25 billion aggregate principal amount may be borrowed, repaid and redrawn, based upon specific financial ratios and subject to the satisfaction of other customary conditions to borrowing. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranges from 112.5 basis points to 175.0 basis points or (ii) the Base Rate plus a margin that ranges from 12.5 basis points to 75.0 basis points, in each case based on the ratio of Consolidated Net Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement. In addition, SBA Senior Finance II is required to pay a commitment fee of between 0.20% and 0.25% per annum on the amount of unused commitment. If not earlier terminated by SBA Senior Finance II, the Revolving Credit Facility will terminate on, and SBA Senior Finance II will repay all amounts outstanding on or before, April 11, 2023. The proceeds available under the Revolving Credit Facility may be used for general corporate purposes. SBA Senior Finance II may, from time to time, borrow from and repay the Revolving Credit Facility. Consequently, the amount outstanding under the Revolving Credit Facility at the end of the period may not be reflective of the total amounts outstanding during such period.

Table of Contents

Prior to the amendment, amounts borrowed under the Revolving Credit Facility accrued interest, at SBA Senior Finance II's election, at either (i) the Eurodollar Rate plus a margin that ranged from 137.5 basis points to 200.0 basis points or (ii) the Base Rate plus a margin that ranged from 37.5 basis points to 100.0 basis points, in each case based on the ratio of Consolidated Total Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement.

During the three months ended March 31, 2018, we borrowed \$265.0 million and repaid \$70.0 million of the outstanding balance under the Revolving Credit Facility. As of March 31, 2018, the balance outstanding under the Revolving Credit Facility was \$235.0 million and accrued interest at 3.74% per annum. In addition, SBA Senior Finance II was required to pay a commitment fee of 0.25% per annum on the amount of unused commitment. As of March 31, 2018, SBA Senior Finance II was in compliance with the financial covenants contained in the Senior Credit Agreement.

Subsequent to March 31, 2018, we borrowed an additional \$200.0 million and repaid \$335.0 million of the outstanding balance under the Revolving Credit Facility. As of the date of this filing, \$100.0 million was outstanding under the Revolving Credit Facility and was accruing interest at 3.26% per annum.

Term Loans under the Senior Credit Agreement

2014 Term Loan

The 2014 Term Loan consisted of a senior secured term loan with an initial aggregate principal amount of \$1.5 billion that was scheduled to mature on March 24, 2021. The 2014 Term Loan accrued interest, at SBA Senior Finance II's election at either the Base Rate plus 125 basis points (with a zero Base Rate floor) or the Eurodollar Rate plus 225 basis points (with a zero Eurodollar Rate floor). The 2014 Term Loan was originally issued at 99.75% of par value. As of March 31, 2018, the 2014 Term Loan was accruing interest at 3.99% per annum. Principal payments on the 2014 Term Loan commenced on September 30, 2014 and were being made in quarterly installments on the last day of each March, June, September, and December in an amount equal to \$3.8 million. We incurred deferred financing fees of approximately \$14.1 million in relation to this transaction, which were being amortized through the maturity date.

During the three months ended March 31, 2018, we repaid \$3.8 million of principal on the 2014 Term Loan. As of March 31, 2018, the 2014 Term Loan had a principal balance of \$1,443.8 million.

On April 11, 2018, we repaid the entire \$1,443.8 million outstanding principal balance of the 2014 Term Loan. In connection with the prepayment, we expensed \$5.8 million of net deferred financing fees and \$1.7 million of discount related to the debt.

2015 Term Loan

The 2015 Term Loan consisted of a senior secured term loan with an initial aggregate principal amount of \$500.0 million that was scheduled to mature on June 10, 2022. The 2015 Term Loan accrued interest, at SBA Senior Finance II's election at either the Base Rate plus 125 basis points (with a zero Base Rate floor) or the Eurodollar Rate plus 225 basis points (with a zero Eurodollar Rate floor). The 2015 Term Loan was originally issued at 99.0% of par value. As of March 31, 2018, the 2015 Term Loan was accruing interest at 3.99% per annum. Principal payments on the 2015 Term Loan commenced on September 30, 2015 and were being made in quarterly installments on the last day of each March, June, September, and December in an amount equal to \$1.3 million. We incurred deferred financing fees of approximately \$5.5 million in relation to this transaction, which were being amortized through the maturity date.

During the three months ended March 31, 2018, we repaid \$1.3 million of principal on the 2015 Term Loan. As of March 31, 2018, the 2015 Term Loan had a principal balance of \$486.3 million.

On April 11, 2018, we repaid the entire \$486.3 million outstanding principal balance of the 2015 Term Loan. In connection with the prepayment, we expensed \$3.2 million of net deferred financing fees and \$3.1 million of discount related to the debt.

2018 Term Loan

On April 11, 2018, we, through our wholly owned subsidiary, SBA Senior Finance II LLC, obtained the 2018 Term Loan under the amended and restated Senior Credit Agreement. The 2018 Term Loan consists of a senior secured term loan with an initial aggregate principal amount of \$2.4 billion that matures on April 11, 2025. The 2018 Term Loan accrues interest, at SBA Senior Finance II's election at either the Base Rate plus 100 basis points (with a zero Base Rate floor) or the Eurodollar Rate plus 200 basis

points (with a zero Eurodollar Rate floor). The 2018 Term Loan was issued at 99.75% of par value. Principal payments on the 2018 Term Loan commence on September 30, 2018 and will be made in quarterly installments on the last day of each March, June, September, and December in an amount equal to \$6.0 million. We incurred deferred financing fees of approximately \$15.9 million to date in relation to this transaction, which are being amortized through the maturity date. The proceeds from the 2018 Term Loan were used (1) to retire the outstanding \$1.93 billion in aggregate principal amount of existing term loans, (2) to pay down the existing outstanding balance under the Revolving Credit Facility, and (3) for general corporate purposes.

Secured Tower Revenue Securities

2013 Tower Securities

On April 18, 2013, we, through a New York common law trust (the “Trust”), issued \$425.0 million of 2.240% Secured Tower Revenue Securities Series 2013-1C, which had an anticipated repayment date of April 10, 2018 and a final maturity date of April 9, 2043 (the “2013-1C Tower Securities”), \$575.0 million of 3.722% Secured Tower Revenue Securities Series 2013-2C, which have an anticipated repayment date of April 11, 2023 and a final maturity date of April 9, 2048 (the “2013-2C Tower Securities”), and \$330.0 million of 3.598% Secured Tower Revenue Securities Series 2013-1D, which had an anticipated repayment date of April 10, 2018 and a final maturity date of April 9, 2043 (the “2013-1D Tower Securities”) (collectively the “2013 Tower Securities”). The aggregate \$1.33 billion of 2013 Tower Securities had a blended interest rate of 3.218% per annum, payable monthly. We incurred deferred financing fees of \$25.5 million in relation to this transaction, which were being amortized through the anticipated repayment date of each of the 2013 Tower Securities.

On March 9, 2018, we repaid the entire aggregate principal amount of the 2013-1C Tower Securities and 2013-1D Tower Securities in connection with the issuance of the 2018-1C Tower Securities (as defined below).

The sole asset of the Trust consists of a non-recourse mortgage loan made in favor of those entities that are borrowers on the mortgage loan (the “Borrowers”).

2014 Tower Securities

On October 15, 2014, we, through the Trust, issued \$920.0 million of 2.898% Secured Tower Revenue Securities Series 2014-1C, which have an anticipated repayment date of October 8, 2019 and a final maturity date of October 11, 2044 (the “2014-1C Tower Securities”) and \$620.0 million of 3.869% Secured Tower Revenue Securities Series 2014-2C, which have an anticipated repayment date of October 8, 2024 and a final maturity date of October 8, 2049 (the “2014-2C Tower Securities”) (collectively the “2014 Tower Securities”). The aggregate \$1.54 billion of 2014 Tower Securities have a blended interest rate of 3.289% per annum, payable monthly. We incurred deferred financing fees of \$22.5 million in relation to this transaction, which are being amortized through the anticipated repayment date of each of the 2014 Tower Securities.

2015-1C Tower Securities

On October 14, 2015, we, through the Trust, issued \$500.0 million of Secured Tower Revenue Securities Series 2015-1C, which have an anticipated repayment date of October 8, 2020 and a final maturity date of October 10, 2045 (the “2015-1C Tower Securities”). The fixed interest rate of the 2015-1C Tower Securities is 3.156% per annum, payable monthly. We incurred deferred financing fees of \$11.2 million in relation to this transaction, which are being amortized through the anticipated repayment date of the 2015-1C Tower Securities.

2016-1C Tower Securities

On July 7, 2016, we, through the Trust, issued \$700.0 million of Secured Tower Revenue Securities Series 2016-1C, which have an anticipated repayment date of July 9, 2021 and a final maturity date of July 10, 2046 (the “2016-1C Tower Securities”). The fixed interest rate of the 2016-1C Tower Securities is 2.877% per annum, payable monthly. Net proceeds from this offering were used to prepay the full \$550.0 million outstanding on the 2010-2C Tower Securities and for general corporate purposes. We incurred deferred financing fees of \$9.5 million in relation to this transaction, which are being amortized through the anticipated repayment date of the 2016-1C Tower Securities.

Table of Contents

2017-1C Tower Securities

On April 17, 2017, we, through the Trust, issued \$760.0 million of Secured Tower Revenue Securities Series 2017-1C, which have an anticipated repayment date of April 11, 2022 and a final maturity date of April 9, 2047 (the “2017-1C Tower Securities”). The fixed interest rate on the 2017-1C Tower Securities is 3.168% per annum, payable monthly. Net proceeds from this offering were used to prepay the entire \$610.0 million aggregate principal amount, as well as accrued and unpaid interest, of the 2012-1C Tower Securities and for general corporate purposes. We incurred deferred financing fees of \$10.2 million in relation to this transaction, which are being amortized through the anticipated repayment date of the 2017-1C Tower Securities.

In addition, to satisfy certain risk retention requirements of Regulation RR promulgated under the Exchange Act, SBA Guarantor, LLC, a wholly owned subsidiary, purchased \$40.0 million of Secured Tower Revenue Securities Series 2017-1R issued by the Trust, which have an anticipated repayment date of April 11, 2022 and a final maturity date of April 9, 2047 (the “2017-1R Tower Securities”). The fixed interest rate on the 2017-1R Tower Securities is 4.459% per annum, payable monthly. Principal and interest payments made on the 2017-1R Tower Securities eliminate in consolidation.

2018-1C Tower Securities

On March 9, 2018, we, through the Trust, issued \$640.0 million of Secured Tower Revenue Securities Series 2018-1C, which have an anticipated repayment date of March 9, 2023 and a final maturity date of March 9, 2048 (the “2018-1C Tower Securities”). The fixed interest rate on the 2018-1C Tower Securities is 3.448% per annum, payable monthly. Net proceeds from this offering, in combination with borrowings under the Revolving Credit Facility, were used to repay the entire aggregate principal amount of the 2013-1C Tower Securities (\$425.0 million) and 2013-1D Tower Securities (\$330.0 million), as well as accrued and unpaid interest. We incurred deferred financing fees of \$8.2 million in relation to this transaction, which are being amortized through the anticipated repayment date of the 2018-1C Tower Securities.

In addition, to satisfy certain risk retention requirements of Regulation RR promulgated under the Exchange Act, SBA Guarantor, LLC, a wholly owned subsidiary, purchased \$33.7 million of Secured Tower Revenue Securities Series 2018-1R issued by the Trust. These securities have an anticipated repayment date of March 9, 2023 and a final maturity date of March 9, 2048 (the “2018-1R Tower Securities”). The fixed interest rate on the 2018-1R Tower Securities is 4.949% per annum, payable monthly. Principal and interest payments made on the 2018-1R Tower Securities eliminate in consolidation.

In connection with the issuance of the 2018-1C Tower Securities, the non-recourse mortgage loan was increased by \$673.7 million (but decreased by a net of \$81.3 million after giving effect to prepayment of the loan components relating to the 2013-1C Tower Securities and 2013-1D Tower Securities). The new loan, after eliminating the risk retention securities, accrues interest at the same rate as the 2018-1C Tower Securities and is subject to all other material terms of the existing mortgage loan, including collateral and interest rate after the anticipated repayment date.

Debt Covenants

As of March 31, 2018, the Borrowers met the debt service coverage ratio required by the mortgage loan agreement and were in compliance with all other covenants as set forth in the agreement.

Senior Notes

2014 Senior Notes

On July 1, 2014, we issued \$750.0 million of unsecured senior notes due July 15, 2022 (the “2014 Senior Notes”). The 2014 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2014 Senior Notes is due semi-annually on January 15 and July 15 of each year. We incurred deferred financing fees of \$11.6 million in relation to this transaction, which are being amortized through the maturity date.

The 2014 Senior Notes are subject to redemption in whole or in part on or after July 15, 2017 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. We may redeem the 2014 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: July 15, 2017 at 103.656%, July 15, 2018 at 102.438%, July 15, 2019 at 101.219%, or July 15, 2020 until maturity at 100.000%, of the principal amount of the 2014 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

2016 Senior Notes

On August 15, 2016, we issued \$1.1 billion of unsecured senior notes due September 1, 2024 (the “2016 Senior Notes”). The 2016 Senior Notes accrue interest at a rate of 4.875% per annum and were issued at 99.178% of par value. Interest on the 2016 Senior Notes is due semi-annually on March 1 and September 1 of each year, beginning on March 1, 2017. We incurred deferred financing fees of \$12.8 million in relation to this transaction, which are being amortized through the maturity date. Net proceeds from this offering and cash on hand were used to redeem \$800.0 million, the aggregate principal amount outstanding, of Telecommunications’ 5.75% Senior Notes and \$250.0 million of our 5.625% Senior Notes and pay the associated call premiums.

The 2016 Senior Notes are subject to redemption in whole or in part on or after September 1, 2019 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. Prior to September 1, 2019, we may at our option redeem up to 35% of the aggregate principal amount of the 2016 Senior Notes originally issued at a redemption price of 104.875% of the principal amount of the 2016 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest with the net proceeds of certain equity offerings. We may redeem the 2016 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: September 1, 2019 at 103.656%, September 1, 2020 at 102.438%, September 1, 2021 at 101.219%, or September 1, 2022 until maturity at 100.000%, of the principal amount of the 2016 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

2017 Senior Notes

On October 13, 2017, we issued \$750.0 million of unsecured senior notes due October 1, 2022 (the “2017 Senior Notes”). The 2017 Senior Notes accrue interest at a rate of 4.0% per annum. Interest on the 2017 Senior Notes is due semi-annually on April 1 and October 1 of each year, beginning on April 1, 2018. We incurred deferred financing fees of \$8.9 million in relation to this transaction, which are being amortized through the maturity date. Net proceeds from this offering were used to repay \$460.0 million outstanding under the Revolving Credit Facility and for general corporate purposes.

The 2017 Senior Notes are subject to redemption in whole or in part on or after October 1, 2019 at the redemption prices set forth in the indenture agreement plus accrued and unpaid interest. Prior to October 1, 2020, we may, at our option, redeem up to 35% of the aggregate principal amount of the 2017 Senior Notes originally issued at a redemption price of 104.000% of the principal amount of the 2017 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest with the net proceeds of certain equity offerings. We may redeem the 2017 Senior Notes during the twelve-month period beginning on the following dates at the following redemption prices: October 1, 2019 at 102.000%, October 1, 2020 at 101.000%, or October 1, 2021 until maturity at 100.000%, of the principal amount of the 2017 Senior Notes to be redeemed on the redemption date plus accrued and unpaid interest.

The anticipated repayment date and the final maturity date for the 2017-1C Tower Securities is April 11, 2022 and April 9, 2047, respectively.

The anticipated repayment date and the final maturity date for the 2018-1C Tower Securities is March 9, 2023 and March 9, 2048, respectively.

(2) On April 11, 2018, we repaid in full the 2014 Term Loan, the 2015 Term Loan, and the outstanding balance on the Revolving Credit Facility with proceeds from the 2018 Term Loan. The 2018 Term Loan matures on April 11, 2025. Quarterly principal payments on the 2018 Term Loan in the amount of \$6.0 million commence on September 30, 2018.

Our current primary market risk exposure is (1) interest rate risk relating to our ability to refinance our debt at commercially reasonable rates, if at all, and (2) interest rate risk relating to the impact of interest rate movements on our 2018 Term Loan and any borrowings that we may incur under our Revolving Credit Facility, which are at floating rates. We manage the interest rate risk on our outstanding debt through our large percentage of fixed rate debt. While we cannot predict our ability to refinance existing debt or the impact interest rate movements will have on our existing debt, we continue to evaluate our financial position on an ongoing basis.

We are exposed to market risk from changes in foreign currency exchange rates in connection with our operations in Brazil, Canada, Chile, Peru, Argentina, Colombia, and to a lesser extent, our markets in Central America. In each of these countries, we pay

Table of Contents

most of our selling, general, and administrative expenses and a portion of our operating expenses, such as taxes and utilities incurred in the country in local currency. In addition, in Brazil, Canada, Chile, and Colombia we receive significantly all of our revenue and pay significantly all of our operating expenses in local currency. In Peru and Argentina, we receive our revenue and pay our operating expenses in a mix of local currency and U.S. dollars. All transactions denominated in currencies other than the U.S. Dollar are reported in U.S. Dollars at the applicable exchange rate. All assets and liabilities are translated into U.S. Dollars at exchange rates in effect at the end of the applicable fiscal reporting period, and all revenues and expenses are translated at average rates for the period. The cumulative translation effect is included in equity as a component of Accumulated other comprehensive income (loss). For the three months ended March 31, 2018, approximately 14.7% of our revenues and approximately 18.2% of our total operating expenses were denominated in foreign currencies.

We have performed a sensitivity analysis assuming a hypothetical 10% adverse movement in the Brazilian Real from the quoted foreign currency exchange rates at March 31, 2018. As of March 31, 2018, the analysis indicated that such an adverse movement would have caused our revenues and operating income to decline by approximately 1.2% and 0.6%, respectively, for the three months ended March 31, 2018.

As of March 31, 2018, we had intercompany debt, which is denominated in a currency other than the functional currency of the subsidiary in which it is recorded. As settlement of this debt is anticipated or planned in the foreseeable future, any changes in the foreign currency exchange rates will result in unrealized gains or losses, which will be included in our determination of net income. A change of 10% in the underlying exchange rates of our unsettled intercompany debt at March 31, 2018 would have resulted in approximately \$56.6 million of unrealized gains or losses that would have been included in Other income (expense), net in our Consolidated Statements of Operations for the three months ended March 31, 2018.

Special Note Regarding Forward-Looking Statements

This quarterly report contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements concern expectations, beliefs, projections, plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this quarterly report contains forward-looking statements regarding:

- our expectations on the future growth and financial health of the wireless industry and the industry participants, the drivers of such growth, the demand for our towers, the trends developing in our industry, and competitive factors;
- our ability to capture and capitalize on industry growth and the impact of such growth on our financial and operational results;
- our intent to grow our tower portfolio domestically and internationally and expand through organic lease up on existing towers;
- our belief that over the long-term, site leasing revenues will continue to grow as wireless service providers increase their use of our towers due to increasing minutes of network use and data transfer, network expansion and network coverage requirements;
- our expectation regarding site leasing revenue growth, on an organic basis, in our domestic and international segments;
- our belief that our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs, and minimal non-discretionary capital expenditures;
- our expectation that, due to the relatively young age and mix of our tower portfolio, future expenditures required to maintain these towers will be minimal;
- our expectation that we will grow our cash flows by adding tenants to our towers at minimal incremental costs and executing monetary amendments;
- our expectations regarding churn rates;

- our ability to remain qualified as a REIT and the timing of such qualification and our election to be subject to tax as a REIT;
- our belief that our business is currently operated in a manner that complies with the REIT rules and our intent to continue to do so;
- our plans regarding our distribution policy, and the amount and timing of, and source of funds for, any such distributions;
- our expectations regarding the use of NOLs to reduce REIT taxable income;
- our expectations regarding our capital allocation strategy, including future allocation decisions between the stock repurchases and portfolio growth, the impact of our election to be taxed as a REIT on that strategy, and our goal of increasing our Adjusted Funds From Operations per share;
- our expectations regarding our future cash capital expenditures, both discretionary and non-discretionary, including expenditures required to maintain, improve, and modify our towers, ground lease purchases, and general corporate expenditures, and the source of funds for these expenditures;
- our intended use of our liquidity;

- our intent to maintain our target leverage levels;
- our expectations regarding our debt service and our belief that our cash on hand, capacity under our Revolving Credit Facility, and our cash flows from operations for the next twelve months will be sufficient to service our outstanding debt during the next twelve months;
- our belief regarding our credit risk, including the impact of recent financings;
- our estimates with respect to tax matters as a result of the Tax Act and our expectation that one-time income charges recognized as a result of the Tax Act will be offset by our existing NOLs; and
- our estimates regarding certain tax and accounting matters, including the impact on our financial statements.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

- the impact of consolidation among wireless service providers, including the potential impact of the proposed merger between Sprint and T-Mobile if consummated, on our leasing revenue;
- our ability to continue to comply with covenants and the terms of our credit instruments and our ability to obtain additional financing to fund our capital expenditures;
- our ability to successfully manage the risks associated with international operations, including risks relating to political or economic conditions, tax laws, currency restrictions and exchange rate fluctuations, legal or judicial systems, and land ownership;
- our ability to successfully manage the risks associated with our acquisition initiatives, including our ability to effectively integrate acquired towers into our business and to achieve the financial results projected in our valuation models for the acquired towers;
- developments in the wireless communications industry in general, and for wireless communications infrastructure providers in particular, that may slow growth or affect the willingness or ability of the wireless service providers to expend capital to fund network expansion or enhancements;
- our ability to secure as many site leasing tenants as anticipated, recognize our expected economies of scale with respect to new tenants on our towers, and retain current leases on towers;
- our ability to secure and deliver anticipated services business at contemplated margins;
- our ability to build new towers, including our ability to identify and acquire land that would be attractive for our customers and to successfully and timely address zoning, permitting, weather, availability of labor and supplies and other issues that arise in connection with the building of new towers;
- competition for the acquisition of towers and other factors that may adversely affect our ability to purchase towers that meet our investment criteria and are available at prices which we believe will be accretive to our shareholders and allow us to maintain our long-term target leverage ratios while achieving our expected portfolio growth levels;
- our capital allocation decisions and the impact on our ability to achieve our expected tower portfolio growth levels;
- our ability to protect our rights to the land under our towers, and our ability to acquire land underneath our towers on terms that are accretive;
- our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels to permit us to meet our anticipated uses of liquidity for operations, debt service and estimated portfolio growth;
- the impact of rising interest rates and our ability to refinance our existing indebtedness at commercially reasonable rates or at all;
- our ability to successfully estimate the impact of regulatory and litigation matters;
- natural disasters and other unforeseen damage for which our insurance may not provide adequate coverage;
- a decrease in demand for our towers;
-

the introduction of new technologies or changes in a tenant's business model that may make our tower leasing business less desirable to existing or potential tenants;

- our ability to qualify for treatment as a REIT for U.S. federal income tax purposes and to comply with and conduct our business in accordance with such rules;
- our ability to utilize available NOLs to reduce REIT taxable income;
- the complexity of the Tax Act and our ability to accurately interpret and predict its impact on our financial condition and results; and
- our ability to successfully estimate the impact of certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements and the availability of sufficient NOLs to offset future REIT taxable income.

ITEM 4. CONTROLS AND PROCEDURES

In order to ensure that the information we must disclose in our filings with the Commission is recorded, processed, summarized and reported on a timely basis, we have formalized our disclosure controls and procedures. Our principal executive officer and principal financial officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures, as defined in Securities and Exchange Act Rule 13a-15(e) as of March 31, 2018. Based on such evaluation, such officers have concluded that, as of March 31, 2018, our disclosure controls and procedures were effective.

There have been no changes to our internal control over financial reporting during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
