ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports we file or submit to the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms, and that information is accumulated and communicated to our management, including our principal executive and principal financial officer (whom we refer to in this periodic report as our Certifying Officer), as appropriate to allow timely decisions regarding required disclosure. Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our management evaluated, with the participation of our Certifying Officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of December 31, 2011, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officer concluded that, as of December 31, 2011, our disclosure controls and procedures were not effective to provide reasonable assurance as of December 31, 2011, because of certain deficiencies involving internal controls constituted material weaknesses, as discussed below. The material weaknesses identified did not result in the restatement of any previously reported financial statements or any other related financial disclosure, and management does not believe that the material weaknesses had any effect on the accuracy of our financial statements for the current reporting period.

Changes in Internal Control over Financial Reporting

During the year ended December 31, 2011, the following items that were previously reported as material control weaknesses were relieved:

- Financial Reporting Process - We previously did not maintain an effective financial reporting process to prepare financial statements in accordance with generally accepted accounting principles. Specifically, we initially failed to appropriately account for and disclose the effects of the consolidation of Play Beverages, LLC, as a variable interest entity, impairment of long-lived assets, and proper accounting for embedded derivative liabilities. However, management believes that these issues have been addressed and appropriately reflected within this annual report and the included consolidated financial statements.
- Inventory - We previously failed to maintain effective internal controls over the tracking of inventory and adjusting its corresponding cost to reflect lower of cost or market. However, management believes that this issue has been addressed and appropriately reflected within this annual report and the included consolidated financial statements.

Limitations on Effectiveness of Controls

A system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the system will meet its objectives. The design of a control system is based, in part, upon the benefits of the control system relative to its costs. Control systems can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. In addition, over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. In addition, the design of any control system is based in part upon assumptions about the likelihood of future events.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control of over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. We have assessed the effectiveness of those internal controls as of December 31, 2011, using the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") Internal Control - Integrated Framework as a basis for our assessment.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies and procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance respecting financial statement preparation and presentation. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs.

A material weakness in internal controls is a deficiency in internal control, or combination of control deficiencies, that adversely affects our ability to initiate, authorize, record, process, or report external financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a material misstatement of our annual or interim financial statements that is more than inconsequential will not be prevented or detected.

Based on our evaluation of internal control over financial reporting, our management concluded that our internal control over financial reporting was not effective as of December 31, 2011.

As of December 31, 2011, management identified the following material weaknesses:

- Control Environment - We did not maintain an effective control environment for internal control over financial reporting. Specifically, we concluded that we did not have appropriate controls in the following areas.
 - o Segregation of Duties - As a result of limited resources and staff, we did not maintain proper segregation of incompatible duties. The effect of the lack of segregation of duties potentially affects multiple processes and procedures.
 - o Entity Level Controls - We failed to maintain certain entity-level controls as defined by the framework issued by COSO. Specifically, our lack of staff does not allow us to effectively maintain a sufficient number of adequately trained personnel necessary to anticipate and identify risks critical to financial reporting. There is a risk that a material misstatement of the financial statements could be caused, or at least not be detected in a timely manner, due to lack of adequate staff with such expertise.

- **Financial Reporting Process** - We did not maintain an effective financial reporting process to prepare financial statements in accordance with generally accepted accounting principles. Specifically, we initially failed to appropriately account for and recognize year-end accrued liabilities and long-term debt. We failed to maintain adequate controls over the financial closing process and the posting of manual journal entries. However, management believes that these issues have been addressed and appropriately reflected within this annual report and the included consolidated financial statements.
- **Access to Cash** - Our president has debit cards for most of our bank accounts and the ability to transfer from his personal bank account and our bank accounts.

These weaknesses are continuing. Management and the board of directors are aware of these weaknesses that result because of limited resources and staff. Management has begun the process of formally documenting our key processes as a starting point for improved internal control over financial reporting. Efforts to fully implement the processes we have designed have been put on hold due to limited resources, but we anticipate a renewed focus on this effort in the near future. Due to our limited financial and managerial resources, we cannot assure when we will be able to implement effective internal controls over financial reporting.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Because we are a smaller reporting company, management's report was not subject to attestation by our registered public accounting firm.

Fadi Nora

Fadi Nora is a self-employed investment consultant. He was formerly a director of ANAHOP, Inc., a private financing company in, Anaheim, California, and was a consultant for us and for several other projects and investment opportunities, including NFE Records, Tustin, California, and Focus Media Group, Tustin, California. Ms. Hollinger studied mathematics and accounting at Northridge University (now Cal. State University Northridge) in California. Based on her years of service as our controller, her background in accounting, and finance, the board has concluded that Ms. Hollinger is qualified to serve as a member of our board.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934 requires our officers, directors, and persons who beneficially own more than 10% of our common stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors, and greater than 10% stockholders are also required by the SEC to furnish us with copies of all Section 16(a) forms that they file.

Based upon a review of these forms that were furnished to us, and based on representations made by certain persons who were subject to this obligation that such filings were not required to be made, we believe that all reports that were required to be filed by these individuals and persons under Section 16(a) were filed on time in fiscal year 2011.

Committees of the Board of Directors

Our board of directors does not have separately designated audit, compensation, or nomination committees. Our entire board acts in these capacities. We do not have an audit committee financial expert as defined under Securities and Exchange Commission rules.

Director Independence

Under the definition of independent directors found in Nasdaq Rule 5605(a)(2), which is the definition we have chosen to apply, none of our directors is independent.

Board Leadership Structure

Mr. Hawatmeh currently holds the positions of chief executive officer, president, and chairman of our board. At this time, our board believes that combining the chairman and chief executive officer roles is most effective for our leadership and governance. Having one person as chairman and chief executive officer provides unified leadership and direction and strengthens the ability of our chief executive officer to develop and implement strategic initiatives and respond efficiently in various situations. Nevertheless, we continue to review the merits of separating these offices and will make such changes as our board determines to be in our best interests.

Board Role in Risk Oversight

While risk management is primarily the responsibility of our management team, our board of directors is responsible for overall supervision of our risk management efforts as they relate to the key business risks facing the organization. Management identifies, assesses, and manages the risks most critical to our operations and routinely advises the board on those matters. Those areas of material risk can include operational, financial, legal and regulatory, human capital, informational technology and security, and strategic and reputational risks. Our board's role in risk oversight of our Company is consistent with our leadership structure, with senior management having responsibility for assessing and managing our risk exposure and our board providing oversight as necessary in

connection with those efforts.

7

Our board also hears from third-party advisers in order to maintain oversight of risks that could affect us, including our outside accountants, counsel, and others. These advisers are consulted on a periodic basis and as particular issues arise in order to provide our board with the benefit of independent expert advice and insights on specific risk-related matters.

At its regularly scheduled meetings, our board also receives management updates on our business, including operational issues, financial results, and business outlook and strategy.

Our board also discusses with management our compliance with legal and regulatory requirements, our policies respecting risk assessment and management of risks that may affect us, and our system of disclosure control and system of controls over financial reporting.

We believe the division of risk management responsibilities described above is an effective approach for addressing the risks facing us and that our board leadership structure supports this approach.

Code of Ethics

We expect that all of our directors, officers, and employees will maintain a high level of integrity in their dealings with us and on our behalf and will act in our best interests. We have adopted a Code of Business Conduct and Ethics that provides principles of conduct and ethics for our directors, officers, and employees. This Code of Ethics is available on our website at www.cirtran.com under “Investor Relations--Corporate Governance.”

Global Marketing Alliance

We entered into an agreement with Global Marketing Alliance (“GMA”) and hired GMA’s owner as the Vice President of CirTran Online Corp., one of our subsidiaries. Under the terms of the agreement, we outsource to GMA the online marketing and sales activities associated with CirTran Online products. In return, we provide bookkeeping and management consulting services to GMA and pay GMA a fee equal to 5% of CirTran Online’s online net sales. In addition, GMA assigned to us all of its web-hosting and training contracts effective as of January 1, 2007, along with the revenue earned thereon, and we also assumed the related contractual performance obligations. We recognize the revenue collected under the GMA contracts and remit back to GMA a management fee approximating its actual costs. During 2011, we temporarily suspended our activities under this agreement to focus solely on the distribution and marketing of energy drinks. No revenues were recognized during 2011. We recognized revenues from GMA-related products and services in the amount \$1,095,086 for the year ended December 31, 2010.

Transactions Involving Officers, Directors, and Stockholders

In 2007, we appointed Fadi Nora to our board of directors. In addition to compensation we normally pay to non-employee members of our board, Mr. Nora is entitled to a quarterly bonus equal to 0.5% of any gross sales earned by us directly through Mr. Nora's efforts. As of December 31, 2011, we owed \$52,403 under this arrangement. During the year ended December 31, 2011, Mr. Nora loaned us a total of \$1,064,830 through cash contributed and expenses paid on our behalf. Mr. Nora received cash payments totaling \$172,000 from us during the year ended December 31, 2011, in payment of our expenses paid by Mr. Nora on a personal credit card. As of December 31, 2011, we still owed Mr. Nora \$1,299,829 in the form of unsecured advances. These advances and short-term bridge loans were approved by our board of directors under a 5% borrowing fee. The borrowing fees were waived by Mr. Nora on these loans. In addition, we owed Mr. Nora \$1,208,756 in accrued liabilities as of December 31, 2011, for selling, general, and administrative expenses that were paid for by Mr. Nora on a personal credit card.

12

We have agreed to issue 2,400,000 options each year to Mr. Nora as compensation for services provided as our director. The terms of the director agreement requires us to grant to Mr. Nora options to purchase 2,400,000 shares of our stock each year, with the exercise price of the options being the market price of our common stock as of the grant date. During the year ended December 31, 2011, we accrued for 2,400,000 stock options relating to the director agreement with Mr. Nora. The fair market value of the options was \$4,747, using the following assumptions: estimated five-year term, estimated volatility of 167.47, and a discount rate of 2.02%.

In addition, on July 14, 2009, we entered into a Stock Purchase Agreement with Mr. Nora to sell to him 75,000,000 shares of our common stock at a purchase price of \$0.003 per share, for a total of \$225,000, payable through the conversion of outstanding loans made by him to us. Mr. Nora acknowledged in the purchase agreement that we did not have sufficient shares to satisfy the issuances and agreed that the shares would be issued once we had sufficient shares to do so. At the August 11, 2011, annual meeting, our stockholders approved increasing our authorized shares to 4,500,000,000. Thereafter, the 75,000,000 shares were issued in conversion of \$225,000 of the amount payable to Mr. Nora.

In 2007, we issued a 10% promissory note to a family member of our president in exchange for \$300,000. The note was due on demand after May 2008. During the years ended December 31, 2011 and 2010, we repaid principal and interest totaling \$15,040 and \$71,013, respectively. At December 31, 2011, the principal amount owing on the note was \$151,833. On March 31, 2008, we issued to this same family member, along with four other Company shareholders, promissory notes totaling \$315,000. The family member's note was for \$105,000. Under the terms of all the notes, we received total proceeds of \$300,000 and agreed to repay the amount received plus a 5% borrowing fee. The notes were due April 30, 2008, after which they were due on demand, with interest accruing at 12% per annum. During 2011, we made no payments towards the outstanding notes. The principal balance owing on the promissory notes as of December 31, 2011, totaled \$72,465.

On April 2, 2009, Ihab Hawatmeh, our president, and Fadi Nora, our director, borrowed from a third party a total of \$890,000 in the form of four short-term promissory notes, which they personally guaranteed. Since the loans were used to pay our obligations, we have assumed full responsibility for the notes. Two of the notes were for a term of 60 days, with a 60-day grace period, a third note was for a term of 90 days, and a fourth note was for 24 days. Loan fees totaling \$103,418 were incurred with the issuance of the notes and are payable upon maturity of the notes. At December 31, 2011, we showed the balance of \$681,912 as part of short-term advances payable on the balance sheet. As of December 31, 2011, all four notes were in default and are accruing interest at the default rate of 36% per year.

We have agreed to issue 6,000,000 options each year to Ihab Hawatmeh, our president, as compensation for services provided as our officer. The terms of his employment agreement require us to grant to him options to purchase 6,000,000 shares of our common stock each year, with the exercise price to equal the market price of our common stock as of the grant date. During the year ended December 31, 2011, we accrued for 6,000,000 stock options relating to this employee agreement. The fair market value of the options was \$11,868, using the following assumptions: estimated five-year term, estimated volatility of 167.47, and a discount rate of 2.02%.

As of December 31, 2011, we owed Ihab Hawatmeh, our president, a total of \$179,102 in unsecured advances and 24,000,000 stock options with an aggregated value at time of grant of \$148,695. The advances and short-term bridge loans were approved by our board of directors under a 5% borrowing fee, which was waived by Mr. Hawatmeh on these loans.

On July 14, 2009, we entered into a Stock Purchase Agreement with Ihab Hawatmeh, our president, to sell to him 50,000,000 shares of our common stock at a purchase price of \$0.003 per share, for a total amount of \$150,000, payable through the conversion of outstanding loans made by him to us. Mr. Hawatmeh acknowledged in the purchase agreement that we did not have sufficient shares to satisfy the issuances and agreed that the shares would be issued once we had sufficient shares to do so. At the August 11, 2011, annual meeting, the stockholders approved increasing our authorized shares to 4,500,000,000. Thereafter, the 50,000,000 shares were issued in conversion of \$150,000 of the amount payable to Mr. Hawatmeh.

On March 5, 2010, we entered into a Separation Agreement with Shaher Hawatmeh, our former chief operating officer. As of the date of the Separation Agreement, Shaher Hawatmeh's employment with us was terminated and he no longer had any further employment obligations with us. In consideration of his execution of the Separation Agreement, we agreed to pay Shaher Hawatmeh's "separation pay" of \$210,000 in 26 biweekly payments. We recorded \$96,923 and \$113,077 of compensation expense for the years ended December 31, 2011 and 2010, under the terms of the Separation Agreement, respectively. All amounts due under this agreement had been paid as of December 31, 2011. Additional terms of the Separation Agreement included the issuance and delivery to Shaher Hawatmeh of 10,000,000 shares of our common stock within a reasonable time following authorization by our shareholders of sufficient shares to cover such issuance. The grant date fair value of the shares aggregated \$50,000 as of March 5, 2010, based on the \$0.005 per share value as of the effective date of the Separation Agreement. At the August 11, 2011, annual meeting, our stockholders approved increasing our authorized shares to 4,500,000,000. Thereafter, the 10,000,000 shares were issued to Mr. Hawatmeh.

On January 24, 2011, we entered into a forbearance agreement with YA Global, including a confession of judgment in its favor. In connection with that forbearance agreement, Ihab Hawatmeh, our president, agreed to guarantee such indebtedness on the occurrence of any triggering event, namely breach by Mr. Hawatmeh of his guaranty or the occurrence, while Mr. Hawatmeh is president, of fraud, intentional misrepresentation, or willful misconduct in any loan document or SEC filing, filing a voluntary receivership, the sale of our assets other than in the ordinary course of business, the payment of unbudgeted expenses, unauthorized payments to affiliates, and certain other matters. Such guarantee was secured by a pledge of one-half of his equity interest in Play Beverages, LLC. Mr. Hawatmeh continued his guaranty in connection with the March 22, 2012, forbearance agreement with YA Global, dated as of March 1, 2012 (the "2012 YA Forbearance Agreement"), in which we ratified our previous obligations under the debentures and agreed to pay the debentures under the following payment plan: \$25,000 at signing the 2012 YA Forbearance Agreement, \$25,000 per month in March through June 2012, \$50,000 per month in July through September 2012, \$75,000 in the months of September and October 2012, \$100,000 per month in the months of December 2012 through May 2013, \$125,000 per month in the months of June through December 2013, and the balance in December 2014. In addition to the above minimum payments to YA Global, we are required to pay monthly excess cash flow, to the extent cumulatively available, consisting of consolidated earnings before interest, taxes, depreciation, and amortization, less cash deposits for product orders received but not yet shipped, actual cash taxes paid, actual cash principal and interest paid, and reasonable out-of-pocket cash paid together with reasonable cash reserves in an amount not to exceed 5% of total net sales, provided that such excess cash flow payments shall not to exceed \$50,000 in March 2012 and \$25,000 per month in April through September 2012.

Sublease

In an effort to operate more efficiently and focus resources on higher margin areas of our business, on March 5, 2010, we and Katana Electronics, LLC, a Utah limited liability company (“Katana”) entered into certain agreements (collectively, the “Katana Agreements”) to reduce our costs. The Katana Agreements include an assignment and assumption agreement, an equipment lease, and a sublease agreement relating to our property. Pursuant to the terms of the sublease, we agreed to sublease a certain portion of our premises to Katana, consisting of the warehouse and office space used as of the close of business on March 4, 2010. The term of the sublease was for two months with automatic renewal periods of one month each. The base rent under the sublease was \$8,500 per month. The sublease contains normal and customary use restrictions, indemnification rights and obligations, default provisions and termination rights. Under the Katana Agreements, we continue to have rights to operate as a contract manufacturer in the future in the U.S. and offshore. The income from the sublease to Katana for the year ended December 31, 2011, was \$57,000 and was recognized as other income. On June 30, 2011, our lease agreement was terminated for our existing 40,000 square-foot headquarters and manufacturing facility, located at 4125 South 6000 West in West Valley City, Utah. On July 1, 2011, Katana signed a new lease agreement with the building’s owner and we have agreed orally to pay Katana \$5,000 per month for use of office space and utilities.

 ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees for Fiscal Years 2011 and 2010

The aggregate fees billed to us by Hansen Barnett & Maxwell, P.C., our independent registered public accounting firm and auditor, for the fiscal years ended December 31, 2011 and 2010, are as follows:

	December 31, 2011	December 31, 2010
Audit Fees(1)	\$156,838	\$122,082
Audit-Related Fees	--	--
Tax Fees(2)	10,393	8,250
All Other Fees	--	--
Total Fees	\$167,231	\$130,332

(1) Audit fees consist of the audit of our annual financial statements included in our Annual Report on Form 10-K for our 2011 and 2010 fiscal years and Annual Report to Stockholders, review of interim financial statements and services that are normally provided by the independent auditors in connection with statutory and regulatory filings or engagements for those fiscal years.

(2) Tax fees consist of fees for tax consultation and tax compliance services.

Policy on Preapproval of Audit and Permissible Non-Audit Services

Our board preapproves any engagement of Hansen Barnett & Maxwell, P.C., and has the ultimate authority and responsibility to select, evaluate, and when appropriate, replace our independent registered public accountants and nominate an independent registered public accounting firm for stockholder approval. While ratification of the selection of the independent registered public accounting firm by the stockholders is not required and is not binding upon our board, in the event of a negative vote on such ratification, our board might choose to reconsider its selection.

Prior to the performance of any services, our board approves all audit and non-audit services to be provided by our independent registered public accountant and the fees to be paid therefor. Although the Sarbanes-Oxley Act of 2002 permits the audit committee of the board to preapprove some types or categories of services to be provided by the independent registered public accountants, because we do not currently have an audit committee, it is the current practice of our board to specifically approve all services provided by the independent registered public accountants in advance, rather than to preapprove any type of service. Our board of directors, acting in the absence of a designated audit committee, has considered whether the provision of non-audit services is compatible with maintaining the independence of Hansen Barnett & Maxwell, P.C., and has concluded that the provision of such services is compatible with maintaining the independence of our auditors.
