PATHFINDER BANCORP, INC. ANNOUNCES SECOND QUARTER EARNINGS

Oswego, New York, July 31, 2006 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) reported net income of \$303,000, or \$0.12 per share, for the three months ended June 30, 2006 as compared to \$234,000, or \$0.10 per share for the same period in 2005. For the six months ended June 30, 2006, the Company reported net income of \$543,000, or \$0.22 per share, compared to \$383,000, or \$0.16 per share, for the same period in 2005.

"We continue to be pleased by our improvement in earnings, particularly in light of the current interest rate cycle," stated Thomas W. Schneider, President and C.E.O. "Rising short-term interest rates have continued to compress net

interest margin, however, a 16% increase in core non-interest income, a 4% reduction in operating expenses, and continued improvement in asset quality helped to boost net income by 42% over the prior year. "

Net interest income for the quarter ended June 30, 2006 decreased 8% when compared to the same period during 2005. Interest expense increased \$327,000, or 21%, partially offset by an increase in interest income of \$145,000, or 4%. Net interest rate spread decreased to 2.93% for the second quarter of 2006 from 3.17% for the same period in 2005. Average interest-earning assets decreased 3% to \$273.9 million in the quarter ended June 30, 2006 as compared to \$281.2 million in the quarter ended June 30, 2005, while the yield on those assets increased 34 basis points to 5.81% compared to 5.47% for the same period in 2005. The decrease in average earning assets is primarily attributable to an \$11.1 million decrease in average investment securities, partially offset by a \$4.5 million, or 2%, increase in average loans receivable. Average interest-bearing liabilities decreased \$8.8 million, while the cost of funds increased 59 basis points to 2.88% from 2.29% for the same period in 2005. The decrease in the average balance of interest-bearing liabilities resulted primarily from a \$10.0 million, or 5%, reduction in average deposits, partially offset by a \$1.2 million increase in average borrowed funds. The reduction in deposits principally occurred in the municipal money management accounts due to the cyclical nature of the tax collections and expenditures of local municipal entities.

The sharp increase in cost of funds can be attributed to the 200 basis point increase in short-term interest rates over the past 12 months, combined with a \$7.8 million deposit migration from lower earning savings accounts to higher yielding certificates of deposit.

Provision for loan losses for the quarter ended June 30, 2006 decreased 99% to \$1,000 from \$66,000 for the same period in 2005. The Company's ratio of allowance for loan losses to period end loans has decreased to 0.86% at June 30, 2006 from 0.89% at December 31, 2005. Nonperforming loans to period end loans have decreased to 0.73% at June 30, 2006, compared to 0.89% at December 31, 2005. Overall, asset quality has improved significantly over the past two years through a combination of tightened credit administration and more robust collection activities.

Non-interest income, net of gains and losses from the sale of securities, loans and foreclosed real estate, increased 13% to \$616,000 for the quarter ended June 30, 2006 compared to \$546,000 for the same period in the prior year. The increase in non-interest income is primarily attributable to increases in service charges on deposit accounts, loan servicing fees, other charges, commissions and fees and earnings on bank owned life insurance of \$31,000, \$19,000, \$14,000 and \$6,000, respectively.

Operating expenses decreased 8% to \$2.3 million for the quarter ended June 30, 2006 compared to \$2.5 million for the quarter ended June 30, 2005. During the second quarter of 2006, professional and other services, salaries and employee benefits, other expenses and data processing expenses decreased \$106,000, \$70,000, \$30,000 and \$13,000, respectively. These decreases were offset by a \$19,000 increase in building occupancy expenses. The decrease in professional and other expenses was primarily due to costs associated with a company wide leadership training program and process improvement initiatives that occurred in 2005. The decrease in salaries and employee benefits was primarily due to the personnel realignment in December of 2005 and a reduction in stock based compensation expense, offset by the salaries and benefits associated with personnel at the new Central Square branch location. Data processing expenses were lower primarily due to a reduction in Internet banking and ATM processing charges. The decrease in other expenses was primarily attributable to a

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

decrease in the purchase of office supplies, decreased costs associated with "no cost home equity loans" and a reduction in mortgage recording tax expense. The increase in building occupancy primarily resulted from costs associated with the operation of the new Central Square branch that opened in May of 2005.
