INFORMATION STATEMENT

This Information Statement is being furnished to the stockholders of Cogent Communications Group, Inc., a Delaware corporation (the "Company"), in connection with the amendment and restatement of the Company's Certificate of Incorporation in order to (1) implement a 1-for-20 reverse stock split (the "Reverse Stock Split"), and (2) reduce the authorized number of shares of the Company's common stock to 75 million and the authorized number of shares of the Company's preferred stock to 10,000. The Company is effecting the Reverse Stock Split in connection with the proposed underwritten follow-on public offering of the Company's common stock, for which a registration statement was filed on Form S-1 with the Securities and Exchange Commission on February 14, 2005. This proposal is discussed in more detail below under the heading "Proposal."

The Company anticipates that this Information Statement will be first mailed to stockholders on or about February 28, 2005.

**WE ARE NOT ASKING YOU FOR A PROXY AND
YOU ARE REQUESTED NOT TO SEND A PROXY.**

Outstanding Shares; Voting Rights

The Company anticipates that prior to the mailing this Information Statement (the "Consent Date"), stockholders holding common stock of the Company representing a number of votes necessary to do so will have acted by written consent to approve the Proposal. On February 16, 2005, the Company's issued and outstanding capital stock consisted of 647,940,747 shares of common stock, which were held by approximately 460 holders of record. After giving effect to the 1-for-20 reverse stock split discussed in the "Proposal" section, the Company will have 32,397,037 issued and outstanding shares of common stock. Holders of shares of our common stock are entitled to one vote for every share held.

Dissenters' Rights of Appraisal

Under the laws of the State of Delaware and the Company's governing documents, stockholders will not have the right to dissent and obtain payment for their shares in connection with the proposals described in this Information Statement.

Note Regarding Share and Per Share Data

In connection with the completion of the merger of Allied Riser Communications Corporation with a subsidiary of the Company in February 2002, the Company completed a ten-for-one reverse stock split with respect to its common stock. All share information contained in and accompanying this Information Statement reflects the occurrence of that reverse stock split.

PROPOSAL

**AMENDMENT AND RESTATEMENT OF
THE FOURTH AMENDED AND RESTATED CERTIFICATE OF INCORPORATION**

The Board of Directors has, subject to stockholder approval, adopted the Company's Fifth Amended and Restated Certificate of Incorporation, a copy of which is attached hereto as Appendix A, (the "Amended and Restated Charter"). It is anticipated that on the Consent Date, stockholders holding capital stock of the Company sufficient to do so will give their written consent to approve the adoption of the Amended and Restated Charter.

The Amended and Restated Charter will:

implement a 1-for-20 reverse stock split (the "Reverse Stock Split") pursuant to which each share of the Company's common stock will be exchanged for 1/20th of a share of the Company's common stock; and

reduce the authorized number of shares of the Company's common stock to seventy five million (75,000,000), and the authorized number of shares of the Company's preferred stock to ten thousand (10,000) (the "Authorized Share Reduction").

These actions are being taken in connection with the proposed underwritten follow-on public offering of the Company's common stock described below (the "Public Offering"), which is discussed in greater detail below. The Reverse Stock Split and the Authorized Share Reduction will become effective upon the filing of the Amended and Restated Charter with the Secretary of State of the State of Delaware, which we anticipate will be done 20 days after this information statement is first mailed to our stockholders.

Purpose of the Reverse Stock Split and Authorized Share Reduction

The purpose of the Reverse Stock Split is to cause the number of shares of the Company's common stock outstanding prior to the Public Offering to be reduced in order to provide the Company with a capital structure more typical of a publicly traded Company and consequently enable the Public Offering to be more effectively marketed.

The purpose of the Authorized Share Reduction is to eliminate the excess authorized shares of common stock that will be created by the Reverse Stock Split and the excess authorized shares of preferred stock that would otherwise remain authorized after the holders of all of the outstanding shares of the Company's preferred stock converted their shares of preferred stock into the Company's common stock on February 15, 2005 (the "Equity Conversion").

The Public Offering

On February 14, 2005, the Company filed a Registration Statement on Form S-1 with the Securities and Exchange Commission to register the sale of shares of its common stock in the Public Offering. The Company cannot assure you that it will complete the Public Offering or that, if it is completed, the net proceeds from the Public Offering will be in the amount anticipated.

The Company is conducting the Public Offering in order to raise additional capital that it expects to use to repay the entire \$17.0 million of its indebtedness to Cisco Systems Capital Corporation, to fund the expansion of its sales and marketing efforts, to fund the increase in the number of on-net buildings that it serves, and for general corporate purposes, which may include potential acquisitions of complementary businesses.

Potential Risks of the Reverse Stock Split

There can be no assurance that the total market capitalization of our common stock after the Reverse Stock Split will be equal to or greater than the total market capitalization before the Reverse Stock Split or that the per-share market price of the common stock following the Reverse Stock Split will either exceed or remain higher than the current per-share market price.

There can be no assurance that the market price per share of the common stock after the Reverse Stock Split will rise or remain constant in proportion to the reduction in the number of shares of common stock outstanding before the Reverse Stock Split. For example, based on the closing price of the common stock on February 11, 2005 of \$0.72 per share, there can be no assurance that the post-split market price of the common stock would be \$14.40 per share or greater.

Accordingly, the total market capitalization of the common stock after the Reverse Stock Split may be lower than the total market capitalization before the Reverse Stock Split, and, in the future, the market price of the common stock following the Reverse Stock Split may not exceed or remain higher than the market price prior to the Reverse Stock Split. In many cases, the total market capitalization of a company following a reverse stock split is lower than the total market capitalization before the reverse stock split.

A decline in the market price for the common stock after the Reverse Stock Split may result in a greater percentage decline than would occur in the absence of the Reverse Stock Split, and the liquidity of the common stock could be adversely affected following the Reverse Stock Split.

The market price of the common stock also will be based on our performance and other factors, some of which are unrelated to the number of shares outstanding. If and after the Reverse Stock Split is implemented and the market price of the common stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of the Reverse Stock Split. In many cases, both the total market capitalization of a company and the market price of a share of such company's stock following a reverse stock split are lower than they were before the reverse stock split. Furthermore, the liquidity of the common stock could be adversely affected by the reduced number of shares that would be outstanding after the Reverse Stock Split.

Although the implementation of a Reverse Stock Split may facilitate the completion of our proposed Public Offering, the Public Offering would be dilutive to the ownership position of our existing common stockholders and may be effected at an offering price per share that is below the then current market price of our common stock.

Depending on the market conditions at the time of the proposed Public Offering, our ability to implement the Reverse Stock Split may facilitate our ability to complete the Public Offering. While our stock is only thinly traded on the American Stock Exchange, our existing common stockholders will experience substantial dilution upon the issuance of additional shares in connection with the Public Offering. However, the issuance of additional shares in a public offering of shares of our common stock will result in substantial dilution in the ownership position of our existing common stockholders. Additionally, although the offering price per share of the common stock in the public offering is not known at this time, it is not unusual for a follow-on offering by a public company to be effected at an offering price that is below the then current market price of the company's common stock. As a result, the proposed Public Offering may be effected at an offering price per share that is below the market price per share of our common stock at the time of the offering.

Effects of the Reverse Stock Split and Authorized Share Reduction*Accounting Matters*

On the effective date of the Reverse Stock Split, the net loss per share and net book value of the common stock will be increased because there will be fewer shares of common stock outstanding.

Effect on Authorized and Outstanding Shares

The table below depicts the effects of the Reverse Stock Split and the Authorized Share Reduction on the number of shares of common stock outstanding, the number of shares of common stock reserved for future issuance and the number of authorized but unissued shares of common stock available for future issuance.

	Common Stock Outstanding (1)	Reserved Shares (2)	Authorized but Unissued and Unreserved Common Stock
Before Reverse Stock Split and Authorized Share Reduction	647,940,747	27,647,413	74,411,840
After Reverse Stock Split and Authorized Share Reduction	32,397,037	1,382,371	41,220,592

(1) As of December 31, 2004.

(2) Includes (i) 6,294,654 shares of our common stock reserved for future grants under our stock based employee compensation plans (314,733 after the reverse split), (ii) 103,776 shares of common stock issuable upon exercise of outstanding common stock warrants (5,189 after the reverse split), (iii) 21,227,654 shares of our common stock issuable upon the exercise of outstanding stock options issued by us under our stock based employee compensation plans (1,061,383 after the reverse split) and (iv) 21,329 shares of our common stock issuable upon conversion of our convertible subordinated notes due 2007 (1,066 after the reverse split).

With the exception of the number of shares that are authorized and issued and outstanding, the rights and preferences of the shares of the common stock prior and subsequent to the Reverse Stock Split and Authorized Share Reduction will remain the same. Following the effective date of the Reverse Stock Split and Authorized Share Reduction, it is not anticipated that our financial condition, the percentage ownership of management, the number of stockholders, or any aspect of our business would materially change as a result of the Reverse Stock Split and Authorized Share Reduction.

The Reverse Stock Split will be implemented simultaneously for all of the common stock and the exchange ratio will be the same for all such stock. The Reverse Stock Split will affect all stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company, except to the extent that the Reverse Stock Split results in any stockholder owning a fractional share. See "Fractional Shares" below. Common stock issued pursuant to the Reverse Stock Split will remain fully paid and non-assessable.

We are subject to periodic reporting and other requirements of the Securities Exchange Act of 1934, as amended. The proposed Reverse Stock Split will not affect the registration of the common stock under the Securities Exchange Act.

Outstanding Options and Warrants

On the effective date of the Reverse Stock Split, if approved, all outstanding contingent rights to acquire the Company's common stock, including outstanding options, warrants and convertible notes will be adjusted to reflect the Reverse Stock Split.

Potential Odd Lots

If approved, the Reverse Stock Split will result in some stockholders holding less than 100 shares of the Company's common stock, and, as a consequence, such stockholders may incur greater costs associated with selling such shares. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per share basis, than the cost of transactions in even multiples of 100 shares.

Exchange of Stock Certificates

As soon as practicable after the Amended and Restated Charter has been filed with the Secretary of State of Delaware and the effective date of the Reverse Stock Split, the Company, or its transfer agent, will send a letter of transmittal to each holder of record of its outstanding common stock. The letter of transmittal will contain instructions for the surrender of certificates representing the shares of common stock. Upon proper completion and execution of the letter of transmittal and return thereof, together with certificates representing the holder's shares of common stock, the holder of record will be entitled to receive a certificate representing the number of new shares of common stock into which such holder's existing shares of common stock have been reclassified as a result of the Reverse Stock Split.

No new certificate will be issued to a holder of record until such holder has surrendered all outstanding certificates together with the properly completed and executed letter of transmittal. Until so surrendered, each outstanding certificate representing existing shares of common stock will be deemed for all corporate purposes after the effective date to evidence ownership of new shares of common stock in the appropriately reduced number. No fees or other commissions will be charged to stockholders to effect the exchange of existing shares for new shares.

Fractional Shares

As a result of the Reverse Stock Split, the reclassification of a stockholder's existing shares of common stock into new shares of common stock as described above may result in the creation of fractional shares. For instance, a stockholder who owns 105 shares of common stock would be entitled to receive after the effective date of the Reverse Stock Split $5\frac{1}{4}$ shares of common stock. The one-fourth share is a fractional share.

No certificates will be issued for fractional shares that result from the Reverse Stock Split. Stockholders who would be entitled to receive fractional shares after the Reverse Stock Split will be entitled to a cash payment in lieu of the fractional shares. In order to receive the cash payment, stockholders must surrender any certificates representing fractional shares to the Company, or its transfer agent, which will then issue a new certificate representing the whole number of shares to which the holder is entitled as a result of the Reverse Stock Split plus a cash payment in place of the fractional shares at a price equal to the fraction to which the stockholder would otherwise be entitled multiplied by the average of the closing prices of the common stock for the last ten (10) trading days prior to the effective date of the Reverse Stock Split (or if such price is not available, the average of the last bid and ask prices of the common stock on such days or other price determined by the board of directors). The ownership of a fractional interest will not give the holder any voting, dividend or other rights except to receive payment as described.

Certain Federal Income Tax Consequences

The Company believes that the federal income tax consequences of the Reverse Stock Split to holders of existing shares will be as follows:

No gain or loss will be recognized by a stockholder on the surrender of their existing shares of common stock or upon receipt of a certificate representing the new number of shares of common stock (except to the extent of any cash received in lieu of a fractional share);

Gain or loss equal to the difference, if any, between the amount of cash received for fractional shares and the stockholder's basis in the fractional shares will be recognized by the stockholder;

The aggregate tax basis of the shares after the Reverse Stock Split will equal the aggregate tax basis of the shares exchanged therefore;

The holding period of the shares after the Reverse Stock Split will include the holding period of the holder's existing shares; and

The conversion of the existing shares into the new shares after the Reverse Stock Split will produce no gain or loss to us.

The Company's belief as outlined above is not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above. This summary does not purport to be complete and does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, non-resident foreign individuals, broker-dealers and tax exempt entities. This summary also assumes that the existing shares of common stock were, and the new shares of common stock will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (i.e., generally, property held for investment). The state and local tax consequences of the Reverse Stock Split may vary significantly as to each stockholder, depending upon the state in which the stockholder resides. The foregoing summary is included for general information only. Accordingly, stockholders are urged to consult their own tax advisors with respect to the federal, state and local tax consequences of the Reverse Stock Split.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table provides summary information regarding the beneficial ownership of the Company's outstanding common stock as of January 15, 2004, after giving effect to the Reverse Stock Split:

each person or group who beneficially owns more than 5% of the Company's capital stock on a fully diluted basis;

each of the named executive officers;

each of the Company's directors; and

all of the Company's directors and executive officers as a group.

Beneficial ownership of shares is determined under the rules of the SEC and generally includes any shares over which a person exercises sole or shared voting or investment power. Except as indicated by footnote, and subject to applicable community property laws, each person identified in the table possesses sole voting and investment power with respect to all shares of common stock held by them. Shares of common stock subject to options currently exercisable or exercisable within 60 days of January 15, 2004 and shares of restricted stock not subject to repurchase as of that date are deemed outstanding for calculating the percentage of outstanding shares of the person holding those options or shares of restricted stock, but are not deemed outstanding for calculating the percentage of any other person.

Unless otherwise noted, the address for each director and executive officer is c/o Cogent Communications Group, Inc., 1015 31st Street, N.W., Washington D.C. 20007.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form PRE 14C

every twenty (20) shares of the Corporation's Common Stock, par value \$.001 per share, issued and outstanding immediately prior to the Reverse Split Effective Time shall be combined into one (1) share of Common Stock, par value \$.001 per share.

The total number of shares of capital stock of all classes that the Corporation will have the authority to issue is seventy five million ten thousand (75,010,000) shares, of which: (i) seventy five million (75,000,000) shares, of a par value of \$.001 per share, shall be of a class designated "Common Stock"; and (ii) ten thousand (10,000) shares, of a par value of \$.001 per share, of authorized but unissued Preferred Stock.

The Board of Directors is hereby authorized to fix or alter the dividend rights, dividend rate, conversion rights, voting rights, rights and terms of redemption including sinking fund provisions, if any, the redemption price or prices, the liquidation preferences, any other qualifications, limitations, or restrictions thereof, of any wholly unissued series of Preferred Stock, and the number of shares constituting any such unissued series and the designation thereof, or any of them; and to increase or decrease the number of shares of any series subsequent to the issue of shares of that series, but not below the number of shares of such series then outstanding. In case the number of shares of any series shall be so decreased, the shares constituting such decrease shall resume the status which they had prior to the adoption of the resolution originally fixing the number of shares of such series.

Except as otherwise set forth in a certificate designating any authorized but unissued Preferred Stock (such certificate, a "Certificate of Designation"), the designations, preferences, privileges and powers and relative, participating, optional or other special rights and qualifications, limitations or restrictions of the Preferred Stock and the Common Stock shall be as follows:

Such determination shall be made with (1) respect to a meeting of the stockholders of the Corporation on the record date fixed for meeting, or (2) with respect to a written consent of the stockholders of the Corporation, on the effective date of such written consent.

conversion of the then outstanding Preferred Stock) by the affirmative vote of the holders of a majority of the outstanding stock of the Corporation (voting together on an as-if converted basis).

ARTICLE 5. COMPROMISE OR ARRANGEMENT WITH CREDITORS.

Whenever a compromise or arrangement is proposed between the Corporation and its creditors or any class of them and/or between the Corporation and its stockholders or any class of them, any court of equitable jurisdiction within the State of Delaware may, on the application in a summary way of the Corporation or of any creditor or stockholder thereof or on the application of any receiver or receivers appointed for the Corporation under the provisions of Section 291 of Title 8 of the Delaware Code or on the application of trustees in dissolution or of any receiver or receivers appointed for the Corporation under the provisions of Section 279 of Title 8 of the Delaware Code, order a meeting of the creditors or class of creditors and/or of the stockholders or class of stockholders of the Corporation, as the case may be, to be summoned in such manner as the said court directs. If a majority in number representing three-fourths in value of the creditors or class of creditors and/or of the stockholders or class of stockholders of the Corporation, as the case may be, agree to any compromise or arrangement and to any reorganization of the Corporation as a consequence of such compromise or arrangement, the said compromise or arrangement and the said reorganization shall, if sanctioned by the court to which the said application had been made, be binding on all the creditors or class of creditor, and/or on all the stockholders or class of stockholders, of the Corporation, as the case may be, and also on the Corporation.

ARTICLE 6. DIRECTORS LIABILITY; INDEMNIFICATION.

A. Indemnification. The Corporation shall, to the fullest extent permitted by Section 145 of the General Corporation Law, as the same may be amended and supplemented from time to time, indemnify and advance expenses to, (i) its directors and officers, and (ii) any person who, at the request of the Corporation is or was serving as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, from and against any and all of the expenses, liabilities, or other matters referred to in or covered by said section as amended or supplemented (or any successor), for actions taken in such person's capacity as such a director, officer, employee or agent, and then only to the extent such person is not indemnified for such actions by such other corporation, partnership, joint venture, trust or other enterprise; provided, however, that except with respect to proceedings to enforce rights to indemnification, the by-laws of the Corporation may provide that the Corporation shall indemnify any director, officer or such person in connection with a proceeding (or part thereof) initiated by such director, officer or such person only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation. The Corporation, by action of its Board of Directors, may provide indemnification or advance expenses to employees and agents of the Corporation or other persons only on such terms and condition and to the extent determined by the Board of Directors in its sole and absolute discretion. The indemnification provided for herein shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any by-law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in their official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

B. Limitation of Liability. No director of this Corporation shall be personally liable to the Corporation or its stockholders for any monetary damages for breaches of fiduciary duty as a director, notwithstanding any provision of law imposing such liability; provided that this provision shall not eliminate or limit the liability of a director, to the extent that such liability is imposed by applicable law, (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders; (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of

No amendment to or repeal of this provision shall apply to or have any effect on the liability or alleged liability of any director for or with respect to any acts or omissions of such director occurring prior to such amendment or repeal. If the General Corporation Law is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the General Corporation Law, as so amended.

C. Prospective Amendment. Any repeal or modification of this Article 6 shall be prospective and shall not affect the rights under this Article 6 in effect at the time of the alleged occurrence of any act or Omission to act giving rise to liability or indemnification.
