PROXY STATEMENT AND NOTICE OF ANNUAL MEETING OF STOCKHOLDERS

Alfacell Corporation ("Alfacell", "we" or the "Company") is furnishing this Proxy Statement and the enclosed proxy card in connection with the solicitation of proxies by the Board of Directors of the Company (the "Board") for use at the Annual Meeting of Stockholders (the "Annual Meeting") to be held on Wednesday, January 30, 2008, beginning at 1:00 p.m., at the Doubletree Hotel, 200 Atrium Drive, Somerset, New Jersey, 08873 and at any postponements or adjournments thereof. The approximate date of mailing for this Proxy Statement and proxy card as well as a copy of Alfacell's 2007 Annual Report on Form 10-K is December 19, 2007.

ABOUT THE MEETING

What is the purpose of the Annual Meeting?

At Alfacell's Annual Meeting, stockholders will act upon the matters outlined in the accompanying notice of meeting, including:

the election of directors; and

the ratification of our independent registered public accounting firm.

In addition, management will report on our performance during 2007 and respond to questions from stockholders.

Who is entitled to vote?

Only stockholders of record of the Company's Common Stock at the close of business on the record date, December 5, 2007, are entitled to receive notice of the Annual Meeting and to vote the shares of Common Stock that they held on the record date at the Annual Meeting, or any postponement or adjournment of the Annual Meeting. Each outstanding share of the Company's Common Stock entitles its holder to cast one vote on each matter to be voted upon. There are no cumulative voting rights.

Who can attend the meeting?

All stockholders as of the record date, or their duly appointed proxies, may attend the meeting. Cameras, recording devices and other electronic devices will not be permitted at the meeting. Please note that if you hold your shares in "street name" (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the meeting.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of Common Stock issued and outstanding and entitled to vote on the record date, will constitute a quorum, permitting the meeting to conduct its business. As of December 5, 2007, the record date,

approximately 46,844,880 shares of Alfacell's Common Stock were outstanding. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered present at the meeting.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to us, it will be voted as you direct. If you are a registered stockholder as of the record date and attend the meeting, you may deliver your completed proxy card in person. "Street name" stockholders who wish to vote at the meeting will need to obtain a proxy card from the institution that holds their shares.

Can I vote by telephone or electronically?

No. We have not instituted any mechanism for telephone or electronic voting. However, "street name" stockholders may be able to vote electronically through their brokers. If so, instructions regarding electronic voting will be provided by the broker as part of the package which includes this proxy statement.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with Alfacell's Corporate Secretary at 300 Atrium Drive, Somerset, New Jersey 08873, either a notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the meeting in person and request that the previously granted proxy be revoked, although attendance at the meeting will not by itself revoke a previously granted proxy.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board. The Board's recommendation is set forth together with the description of each item in this proxy statement. In summary, the Board recommends a vote:

FOR election of the nominated slate of directors (see page 6);

FOR ratification of the appointment of J.H. Cohn LLP as Alfacell's independent registered public accounting firm (see page 32);

Pursuant to the provisions of Rule 14a-4(c) promulgated under the Securities Exchange Act of 1934, as amended, (the "Exchange Act") with respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board or, if no recommendation is given, in their own discretion.

What vote is required to approve each item?

Election of directors. Under the laws of Delaware and our By-laws, the affirmative vote of a plurality of the votes cast at the meeting, represented in person or by proxy and entitled to vote, is required for the election of directors.

Other proposals. For each other proposal, the affirmative vote of the holders of at least a majority of the shares represented in person or by proxy at the meeting and entitled to vote on the proposal will be required for approval.

Proxy cards returned. Votes cast "FOR" a proposal constitute affirmative votes. A properly executed proxy card marked "WITHHOLD" or "ABSTAIN" with respect to any such matter will not

be voted on such matter, although it will be counted for purposes of determining whether there is a quorum and in determining the number of shares necessary for approval of such matter. Accordingly, a "WITHHOLD" or "ABSTAIN" will have the effect of a negative vote.

Broker non-votes. Where brokers are prohibited from exercising discretionary authority for beneficial owners who have not provided voting instructions (commonly referred to as "broker non-votes"), such broker non-votes will be treated as shares that are present for purposes of determining the presence of a quorum; however, with respect to proposals which require the affirmative vote of a percentage of shares present at the Annual Meeting and entitled to vote on such proposal for approval, such broker non-votes will be treated as not present for purposes of determining the outcome of any such matter.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Under Alfacell's By-laws, all directors elected by stockholders are elected for a one-year term. Each of the nominees has consented to serve a one-year term. If any of them should become unavailable to serve as a director, the Board may designate a substitute nominee. In that case, the persons named as proxies will vote for the substitute nominee designated by the Board. The Corporate Governance and Nominating Committee met on November 19, 2007 and recommended the current directors of the Board for re-election to the Board by the stockholders.

Director nomination process

The Company's Corporate Governance and Nominating Committee currently comprises of Messrs. David Sidransky, M.D., Chairman, James J. Loughlin and Paul M. Weiss, Ph.D., none of whom is an employee of the Company. The Board has determined that each of the members of the Nominating Committee is independent in accordance with Nasdaq Marketplace Rule 4200(a)(15).

Criteria for Board Membership. The Board determines the required selection criteria and qualifications of director nominees based upon the needs of the Company at the time nominees are considered. Directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the long-term interests of the Company's stockholders. In evaluating a candidate for nomination as a director of the Company, the Corporate Governance and Nominating Committee will consider criteria including business and financial expertise; geography; experience as a director of a public company; gender and ethnic diversity on the Board; and general criteria such as ethical standards, independent thought, practical wisdom and mature judgment. The Board will consider these criteria for nominees identified by the Corporate Governance and Nominating Committee, by stockholders, or through some other source.

These general criteria are subject to modification and the Board shall be able, in the exercise of its discretion, to deviate from these general criteria from time to time, as the Board may deem appropriate or as required by applicable laws and regulations.

Stockholder Nominees. The Corporate Governance and Nominating Committee will consider qualified candidates for possible nomination that are submitted by the Company's stockholders. Stockholders wishing to make such a submission may do so by sending the following information to the Board of Directors c/o Corporate Secretary at 300 Atrium Drive Somerset, NJ 08873 within the time frame described under the caption, "Stockholder Proposals" below.

Name, age and contact information of the candidate;

A brief biographical sketch and resume;

Written consent evidencing the candidate's willingness to be named in the proxy and to serve as a director if elected;

A description of all arrangements or understandings between the stockholder and the candidate and any other person relating to the candidate;

A signed statement as to the submitting stockholder's current status as a stockholder and the number of shares currently held; and

All other information about the candidate that would be required to be included in the proxy statement soliciting proxies for the election of directors under the rules promulgated under the Exchange Act.

Process for Identifying and Evaluating Nominees. The Corporate Governance and Nominating Committee believes Alfacell is well-served by its current directors. In the ordinary course, absent special circumstances or a material change in the criteria for Board membership, the Corporate Governance and Nominating Committee will recommend to the Board that they nominate for re-election incumbent directors who continue to be qualified for Board service and are willing to continue as directors. If an incumbent director is not standing for re-election, or if a vacancy on the Board occurs between annual stockholder meetings, the Corporate Governance and Nominating Committee will seek out potential candidates for Board appointment who meet the criteria for selection as a nominee and have the specific qualities or skills being sought. The Corporate Governance and Nominating Committee will conduct a process of making a preliminary assessment of each proposed nominee based upon the resume and biographical information, an indication of the individual's

Edgar Filing: ALFACELL CORP - Form DEF 14A

willingness to serve and other background information. This information is evaluated against the criteria set forth above and the Company's specific needs at that time. Based upon a preliminary assessment of the candidate(s), those who appear best suited to meet the Company's needs may be invited to participate in a series of interviews, which are used as a further means of evaluating potential candidates. On the basis of information learned during this process, the Corporate Governance and Nominating Committee will determine which nominee(s) to recommend to the Board for inclusion as the slate of candidates that the Board recommends for election at each annual meeting of the Company's stockholders.

The Board uses the same process for evaluating all nominees, regardless of the original source of the nomination.

On November 19, 2007, based upon the recommendation of the Chief Executive Officer and the Vice Chairman of the Board, Mr. Lawrence A. Kenyon was elected to the Board and was appointed to the additional position of Chief Operating Officer. Mr. Kenyon joined the Company as its Executive Vice-President, Chief Financial Officer and Corporate Secretary in January 2007. When Mr. Kenyon became aware of the Company's announcement that its prior Chief Financial Officer was retiring, Mr. Kenyon contacted the Company to express an interest in the position of Chief Financial Officer, went through a series of interviews with the Chief Executive Officer and members of the Board of Directors and was ultimately hired by the Company. No search firm was involved and no fee was paid by the Company to any third party in connection with its identification or evaluation of Mr. Kenyon.

Board recommendation and stockholder vote required

The Board recommends a vote FOR the election of each of the nominees named above. (Proposal No. 1 on the proxy card). The affirmative vote of a plurality of the votes represented in person or by proxy and entitled to vote, cast at the meeting is required for the election of directors.

How often did the Board meet during 2007?

The Board met eleven times during the 2007 fiscal year. Each director attended at least 75% of the total number of meetings of the Board and committees on which he or she served.

Which directors are "independent"?

The Board has determined that the following directors are "independent" under Nasdaq Marketplace Rule 4200(a)(15): John P. Brancaccio, Stephen K. Carter, M.D., Donald R. Conklin, James J. Loughlin, David Sidransky, M.D. and Paul M. Weiss, Ph.D. The Board has also determined that the following directors (who are members of the Audit Committee) are "independent" in accordance with Section 10A(m)(3) of the Exchange Act: John P. Brancaccio, James J. Loughlin and Paul M. Weiss, Ph.D.

How are directors compensated?

In May 1997 and in December 1997, the Board and the stockholders, respectively, approved our 1997 Stock Option Plan, which, among other things, provides for automatic grants of options under a formula to non-employee directors who are independent directors for purposes of this plan on an annual basis. The formula provides that (i) on each December 31st each independent director automatically receives an option to purchase 15,000 shares of our Common Stock, or the regular grant; and (ii) on the date of each independent director's initial election to the Board, the newly elected independent director automatically receives an option to purchase the independent director's pro rata share of the regular grant which equals the product of 1,250 multiplied by the number of whole months remaining in the calendar year, or the pro rata grant. Each option granted pursuant to a regular grant and a pro rata grant vests and becomes exercisable on December 30th following the date of grant. An option will not become exercisable as to any shares unless the independent director has served continuously on the Board during the year preceding the date on which such options are scheduled to vest and become exercisable, or from the date the independent director joined the Board until the date on which the options are scheduled to vest and become exercisable. However, if an independent director does not fulfill such continuous service requirement due to the independent director's death or disability all options held by the independent director nonetheless vest and become exercisable as described herein. An option granted pursuant to the formula remains exercisable for a period of five years after the date the option first becomes exercisable. The per share exercise price of an option granted under the formula is equal to the closing price of our Common Stock on the date of grant.

In addition to the regular option grants awarded during the fiscal year ended July 31, 2007, the non-employee directors were awarded a discretionary grant pursuant to the 1997 Stock Option Plan. Pursuant to the discretionary grants, each non-employee director was granted an option to purchase 5,000 shares of our Common Stock. The 1997 Stock Option Plan expired in May 2007 pursuant to its terms. All options outstanding under the 1997 Stock Option Plan at the time the plan expired remain in effect in accordance with their terms. Currently, the only stock option plan in effect for the Company is the 2004 Stock Incentive Plan which was adopted by the Board on November 13, 2003 and approved by the stockholders on January 14, 2004. The 2004 Stock Incentive Plan provides for the grant of stock options and other stock-based awards to employees, officers, consultants, independent contractors and directors providing services to Alfacell and its subsidiaries as determined by the Board or by the Compensation Committee, the administrator of the 2004 Stock Incentive Plan. The types of awards that may be granted under the 2004 Stock Incentive Plan are stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, dividend equivalents, other stock grants, other stock-based awards and any combination thereof. Under grants awarded pursuant to the 2004 Stock Incentive Plan, awarded options become immediately exercisable or exercisable during the six months following certain triggering events but in no event beyond the option period provided in the Stock Option Agreements to the 2004 Stock Incentive Plan. See "*Post-termination Agreements*" below for further details.

On February 8, 2007, the Board adopted a non-employee director compensation policy whereby each member of the Board who was not an employee of Alfacell received \$15,000 in consideration of the member's serving on the Board, payable in four equal quarterly installments. The cash payments were effective as of January 1, 2007 and, beginning on March 31, 2007, replaced fees for attending meetings in 2007. Prior to February 8, 2007, each non-employee director received an annual retainer of \$10,000 plus \$1,000 for each meeting attended in person and \$500 for each meeting attended by telephone. The purpose of switching from a meeting fee basis of compensation to a cash retainer basis is to ease administration and to encourage more frequent meetings of the Board and its committees. The switch to a cash retainer basis of compensation also saves the Company money in years where the Board and its committees hold more than five meetings. The annual retainer of 20,000 options was granted in December 2006 under the 1997 Stock Option Plan and will be made annually under the

2004 Stock Incentive Plan on the last trading day of December. The Company increased the option retainer from 15,000 options to 20,000 options in 2004 due to the implementation of the Sarbanes-Oxley Act of 2002 and the increased responsibilities of the Board. Initial option grants for committee chairpersons, committee members and the Vice Chairman of the Board were granted on February 8, 2007 with the next such grants to be made on the last trading day of December 2007. The Vice Chairman of the Board received an option bonus equal to the number of options received by the Vice Chairman for his board and committee memberships. Committee chairpersons received 10,000 options for each committee chaired while each committee member received 5,000 options for each committee on which he serves. The exercise price of the options will be equal to the closing price of the Common Stock on the date of the grant. The options will vest on the first anniversary of the date of the grant provided that the option holder remains a director as of such anniversary date and the options will terminate on the sixth anniversary of the date of the grant.

Under our director compensation policies, directors who also serve as executive officers do not receive additional compensation for their service on our Board.

The exercise price and vesting schedules for the regular and discretionary option grants described above are set forth in the table titled "Directors' Stock Options" below. The total compensation paid to independent directors for their service as directors of the Company for fiscal year 2007 is set forth in the table titled "Directors' Compensation" below.

EXECUTIVE COMPENSATION**COMPENSATION DISCUSSION AND ANALYSIS****Identification of Executive Officers**

Name	Age	Current Position With Company	Officer Since(1)
Kuslima Shogen	62	Chief Executive Officer and Chairman of the Board	1981
Lawrence A. Kenyon(2)	42	Executive Vice President, Chief Financial Officer, Chief Operating Officer, Corporate Secretary and Director	2007

(1) Officers of Alfacell hold office until their successors are elected and qualified or until their earlier removal, death or resignation.

(2) Mr. Kenyon joined as the Company's Executive Vice President, Chief Financial Officer and Corporate Secretary on January 16, 2007. Mr. Kenyon was elected to the Board and appointed Chief Operating Officer on November 19, 2007.

Compensation Philosophy

Alfacell's compensation program is based on the philosophy that the interests of our employees should be closely aligned with those of our stockholders. The Company's compensation program is based on the following principles:

Compensation opportunities should attract the best talent, motivate individuals to perform at their highest levels, reward outstanding achievement, and retain the leadership and skills necessary for building long-term stockholder value;

Compensation should include a bonus potential which is tied directly to operating objectives; and

Compensation should include a long-term incentive award generally in the form of stock option grants to increase ownership in the Company and encourage executives to manage from the perspective of owners of the Company.

The Compensation Committee believes that the compensation program for executive officers should reward the achievement of the short-term and long-term objectives of the Company, and that compensation should be related to the value created for its stockholders. However, given the highly volatile nature of biotechnology company stocks it would be impracticable for the Company to tie executive compensation solely to stock performance. In making its compensation decisions, the Compensation Committee generally reviews the progress made by the individual officer in attaining his or her individual goals and the progress made by the Company in its drug development programs, while keeping the Company's stock performance in mind. Generally, performance tied to the long-term objectives of the Company or the overall business objectives of the Company are rewarded with equity compensation whereas performance tied to short-term goals of the Company or tied closely with individual performance is rewarded with cash compensation. As different elements of the Company's compensation have different underlying rationale and policy, determinations the Compensation Committee made with regard to one compensation element have not influenced decisions it made with respect to other compensation elements it contemplated or awarded. For example, the factor that the named executive officers may receive a bonus if the performance objectives are satisfied and may receive additional value through their stock options if the Company's stocks perform well has not influenced the determination as to the base salary of the named executive officers.

The Company's compensation philosophy was last reviewed by the Board in May 2007, at which time two new compensation programs were approved by the Board, the Incentive Bonus Program and the Annual Milestones bonus program. These two bonus programs were approved by the Board

because they each met the Company's desire to reward and encourage executive officers and employees for not only causing the Company to meet its primary objectives but also to meet certain short-term objectives within a timeline prescribed by management. See "*Incentive Compensation*" below for details relating to these two programs.

Compensation Committee

The Compensation Committee currently consists of Messrs. John P. Brancaccio, Chairman, Donald R. Conklin, and Paul M. Weiss Ph.D. All committee members have been and currently are independent non-employee directors as defined under Rule 16b-3 of the Exchange Act and satisfy the director independence standards of the Nasdaq Stock Market and the definition of "outside director" under Section 162(m) of the Internal Revenue Code. No special expertise in compensation matters is required for appointment to the Compensation Committee.

The Compensation Committee is responsible for all components of the Company's executive compensation program and for administering all stock option plans including the 1997 Stock Option Plan and the 2004 Stock Incentive Plan, under which stock option grants may be made to executive officers. On an annual basis, the Compensation Committee reviews and approves the corporate goals and objectives relevant to the compensation for the Company's chief executive officer ("CEO") and other executive officers. The Compensation Committee evaluates at least once a year, the CEO and executive officers' performance in light of these established goals and objectives and based upon these evaluations shall set the CEO's and executive officers' annual compensation, including salary, bonus, incentive and equity compensation. Other than adjustments for cost of living increases, the base salary of the CEO has not been significantly altered for the last three fiscal years as the performance of the Company has been mediocre and the Company has not met its objectives for its drug development programs. Adjustments to the CEO's compensation have primarily been made through the implementation of the Incentive Bonus Program as further described below. Because of the turnover in the Chief Financial Officer ("CFO") position over the past few years, each element of compensation for the current CFO has been determined by private negotiation driven by the leverage of both parties to the negotiation. There is no material differences in the evaluation or decision process for the CEO and other named executive officers.

While the Compensation Committee determines overall compensation philosophy, it relies on the CEO and executive officers to make recommendations in accordance with such compensation philosophy. The Company's CEO and CFO provide the Board and the Compensation Committee with feedback on the performance of the Company's non-executive officers and make compensation recommendations to the Compensation Committee for its approval. The CEO and CFO attended the Compensation Committee's meetings to provide their perspectives on competition in the industry and the needs of the business, information regarding the Company's performance and other advice specific to their areas of expertise. However, the CEO and CFO did not attend meetings where their respective compensation and/or performance was discussed. Once a recommendation has been approved by the Compensation Committee, it is sent to the Board for ratification. Upon ratification by the Board, the execution and administration of the recommendation may be delegated by the Compensation Committee to management as the Compensation Committee deems appropriate. The Compensation Committee currently does not utilize employment agreements nor does it employ the services of a compensation consultant, but will explore whether to retain the services of an outside compensation consultant for 2008.

Components of Executive Compensation

Compensation for the Company's executive officers includes the following components:

Base Salary. Fixed annual compensation that is certain as to payment and provides continuous income to meet ongoing living costs. This component is intended to ensure that Alfacell is able to retain executives capable of achieving the Company's strategic and business objectives. The Compensation Committee reviews executive officers' salaries annually and will make adjustments based

on its expectations of that officer's performance as compared to the officer's actual performance and what the Compensation Committee's expectations are for that officer's future performance. Additionally, the Compensation Committee factors in cost of living adjustments as well as the Company's overall performance and stock performance.

Stock Option Grants. Long-term incentive plan which offers eligible Company officers and employees incentives to put forth maximum efforts for the success of the Company's business, to afford executive officers an opportunity to acquire a proprietary interest in the Company and to relate the compensation of officers to the value they create for the Company's stockholders. Currently, all stock-based awards are granted under the 2004 Stock Incentive Plan. The 2004 Stock Incentive Plan provides for the grant of stock options and other stock-based awards to employees, officers, consultants, independent contractors and directors providing services to Alfacell and its subsidiaries as determined by the Board or by the Compensation Committee. The types of awards that may be granted under the 2004 Stock Incentive Plan are stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, dividend equivalents, other stock grants, other stock-based awards and any combination thereof. Stock options are granted based on the fair market value of a share on the date of grant of such option. The terms, time and method of the options are determined at the sole discretion of the Compensation Committee.

Incentive Compensation. The primary purpose is to align the interests of the executive officers with those of the stockholders by rewarding executive officers for creating stockholder value over the long-term. The 2004 Stock Incentive Plan provides for the award of stock options, stock appreciation rights, restricted stock, restricted stock units, performance awards, dividend equivalents, and other stock grants or stock based awards.

On May 25, 2007, the Board approved an Incentive Bonus Program under the 2004 Stock Incentive Plan which would grant \$375,000 in cash to the CEO and 250,000 and 100,000 in stock options with a per share exercise price of \$2.13 to the CEO and CFO, respectively. However, both the payment of the cash bonus and the vesting of the stock options is conditioned upon the Company submitting, and the Food and Drug Administration ("FDA") accepting, a New Drug Application ("NDA") submission for ONCONASE®, within six months of reaching evaluable event 316 (patient deaths) in the ongoing Phase IIIb clinical trial, and the Company achieving certain defined financial and other timeline objectives. Currently, the Company cannot be certain of the likelihood of achieving such financial and timeline objectives; however, if such objectives are met, the Company will make a prompt public disclosure to that effect. The Company felt that these two objectives were the proper metric for measuring performance as the filing of the NDA and the achievement of the financial and other timeline objectives represents the culmination of many years of work at Alfacell.

On May 25, 2007, the Board also approved the Annual Milestone bonus program. The Company traditionally does not provide for cash bonuses, however, the Company wanted to provide an appropriate level of encouragement and motivation to the staff for working on a daily basis to appropriately and timely complete all of the intermediate steps necessary to achieving the Company's primary objectives of submitting the NDA and achieving the financial and timeline objectives mentioned above. The goal of the Annual Milestone bonus program is to reward employees for staying on schedule and minimizing the potential for disruption and higher costs associated with delaying work until the last possible moment. Under the Annual Milestone bonus program, the CFO and professional staff, together with management, set personal objectives for themselves to accomplish the intermediate steps necessary to achieving the primary objectives. The amount of the bonus is determined by how well the employee met his or her personal objectives based on the timeline provided for meeting the primary objectives of the Company. Under this program, bonuses are paid out from a bonus pool and management has discretion to reward employees who met or exceeded his or her personal objectives with a higher percentage of the bonus pool and rewarding an employee who met less than his or her personal objectives with a lower percentage of the bonus pool. As part of the CFO's employment arrangements approved by the Board and under the Annual Milestone bonus program, the CFO is eligible to receive an annual bonus of up to 20% of his base salary. The CFO's bonus for fiscal year

Edgar Filing: ALFACELL CORP - Form DEF 14A

2007 has not yet been determined. The CEO is not eligible to participate in the Annual Milestone bonus program.

Other Benefits. All named executive officers are eligible to participate in the Company's 401(k) plan, health and dental coverage, life insurance, disability insurance, paid time off and paid holidays on the same terms as are available to all employees generally. Other benefits available to named executive officers are the payment of reasonable costs of temporary housing, reasonable airfare associated with relocation and relocation assistance. The CEO receives a monthly auto allowance and the Company pays the premiums on a life insurance policy for the CEO where the Company is not the beneficiary of that life insurance policy. These awards are designed to be competitive with overall market practices, and are in place to attract and retain the personnel needed in the business.

Post-termination Agreements. The Company does not utilize post-termination agreements with its named executive officers. However, under grants awarded pursuant to the 2004 Stock Incentive Plan, the named executive officers have received Stock Option Agreements which contain provisions that allows for the awarded options to become immediately exercisable or exercisable during the six months following a change in control but in no event beyond the option period provided in the Stock Option Agreement. A change in control is deemed to occur if (i) a person as defined by Section 13 (d) and 14 (d) of the Exchange Act becomes the beneficial owner, directly or indirectly, of securities representing 20% or more of the combined voting power of the Company's then outstanding shares (except that ownership by the McCash Family Limited Partnership must be 50% to qualify as a change in control); (ii) during any 12 month period, the individuals who were, at the beginning of such period, a majority of the Board ceases to be a majority of the Board; (iii) the Company's stockholders approve a merger or consolidation with another corporation except where the Company remains in control after such merger or consolidation or where the merger or consolidation was effected to recapitalize the Company and no one person acquired more than 50% of the combined voting power of the Company; or (iv) the stockholders of the Company approve a plan of complete liquidation or enter into an agreement for the sale or disposition of all or substantially all of the assets of the Company.

Additionally, under the terms of the Stock Option Agreements to the 2004 Stock Incentive Plan, if there is a termination of service due to the death, total disability or retirement of the optionee on or after age 65 after seven years of service with the Company, then the options become fully exercisable at the time of death, total disability or retirement and may be exercised by the optionee or optionee's estate during the six months following the month of optionee's death, total disability or retirement but in no event beyond the option period provided in the Stock Option Agreement. If there is a termination of employment due to voluntary resignation then to the extent options are exercisable as of the date of the termination, such options may be exercised within six months of the date of termination of employment. If there is termination for cause, then to the extent options are exercisable as of the date of the termination, such options may be exercised within 30 days of the date of termination. "Cause" is defined as (i) frequent and unjustifiable absenteeism other than optionee's illness or physical or mental disability; (ii) fraud or dishonesty materially injurious to the Company; (iii) gross or willful misconduct or willful neglect to act which is committed or omitted by optionee in bad faith; (iv) gross breach of optionee's fiduciary duties which has a materially injurious effect on the Company; (v) optionee's conviction as a felon; or (vi) optionee's willful or continuous neglect or refusal to perform his or her duties. If there is termination for any reason other than those described above, then to the extent options are exercisable as of the date of the termination, such options may be exercised within 12 months of the date of termination of employment.

Under grants awarded pursuant to the 1997 and 1993 Stock Option Plans, prior to a dissolution or liquidation of the Company or a merger or consolidation where the Company is not the surviving corporation, the optionee has the right to exercise all outstanding options. If the optionee terminates employment, then to the extent options are exercisable as of the date of termination, such options may be exercised within 190 days of the date of termination of employment. If the Board determines that the optionee engaged in activities or employment contrary to the best interest of the Company, then the Board can cancel the options within 190 days of the termination of employment. If an optionee

dies while still in service to the Company, then to the extent options are exercisable as of the date of death, such options may be exercised.

The rationale for the acceleration of the options under the 2004 Stock Incentive Plan, and the 1997 and 1993 Stock Option Plans upon a change in control of the Company is to ensure that officers are motivated to pursue the maximum value for stockholders and to encourage officers to remain with the Company after a change in control has occurred.

The following table summarizes the estimated value of the stock options for each named executive officer derived from the terms of the 2004 Stock Incentive Plan, the 1997 Stock Option Plan and the 1993 Stock Option Plan assuming that a triggering event took place on the last business day of our most recently completed fiscal year, July 31, 2007 and that the price per share of our common stock is the closing market price as of that date.

Name	Death or Total Disability(1)	Voluntary Termination or Termination for Cause(1)	Change in Control(1)
Kuslima Shogen	\$ 736,883	\$ 645,863	\$ 790,950
Lawrence A. Kenyon	\$ 231,750	\$ 45,750	\$ 231,750

(1)

These amounts represent the aggregate in-the-money value of stock options which would become vested as a direct result of the termination event or change in control before the applicable stated vesting date. The stated vesting date is the date at which an award would have vested absent such termination event or change in control. This calculation of value does not attribute any additional value to stock options based on their remaining terms and does not discount the value of awards based on the portion of the vesting period elapsed at the date of the termination event or change in control. These amounts represent the intrinsic value of stock options, based on a closing stock price of \$2.16 on July 31, 2007.

Pension Plans. The Company does not have pension plans for its employees, executive officers or directors.

Non-Qualified Deferred Compensation Plans. The Company does not have non-qualified deferred compensation plans for its employees, executive officers or directors.

Tax and Accounting Considerations

Deductibility of Executive Compensation. In making compensation decisions affecting the executive officers, the Compensation Committee considers the Company's ability to deduct under applicable federal corporate income tax law compensation payments made to executives. Specifically, the Compensation Committee considers the requirements and impact of Section 162(m) of the Internal Revenue Code, which generally disallows a tax deduction for annual compensation in excess of \$1 million paid to our named executive officers. Certain compensation that qualifies under applicable tax regulations as "performance-based" compensation is specifically exempted from this deduction rule. The Compensation Committee cannot assure that it will be able to fully deduct all amounts of compensation paid to persons who are named executive officers in the future. Further, because the Compensation Committee believes it is important to preserve flexibility in designing its compensation programs, it has not adopted a policy that all compensation must qualify as deductible under section 162(m). The cash compensation that the Company paid to each of its named executive officers during 2007 was below \$1 million. We believe that stock options granted to named executive officers under the 1997 Stock Option Plan and the 2004 Stock Incentive Program would qualify as "performance-based compensation" and therefore are Section 162(m) qualified.

Accounting for Stock Based Compensation. On August 1, 2005, the Company adopted the fair value recognition provisions of revised Statement of Financial Accounting Standards No. 123R, "Share-Based Payment" ("SFAS No. 123R"), to account for all stock grants under all of its stock plans.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the fiscal year ended July 31, 2007, the members of the Board who served on the Compensation Committee were Messrs. John P. Brancaccio, Donald R. Conklin and Paul M. Weiss, Ph.D. All such directors are independent directors and have never been officers of Alfacell. During the fiscal year ended July 31, 2007, no executive officer of Alfacell served on the Compensation Committee or Board of Directors of any

other entity which had any executive officer who also served on the Compensation Committee or Board of Alfacell.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation Committee has overall responsibility for evaluating and approving the Company's executive officer compensation plans, policies and programs, including compensation of the Chief Executive Officer. During the fiscal year ended July 31, 2007 the Compensation Committee consisted of three independent directors. Our compensation program, both for our executive officers as well as for all employees, is based on the philosophy that the interests of our employees should be closely aligned with those of our stockholders. As with many other biotechnology companies, Alfacell's current level of development and the highly volatile nature of biotechnology stocks in general makes executive compensation, which is normally based on sales and earnings goals, or strictly based on stock performance, impracticable. In determining compensation, the Compensation Committee generally reviews the progress made by the individual officer in attaining his or her individual goals and the progress made by the Company in its drug development programs. In addition, the Compensation Committee keeps the Company's stock performance in mind when making compensation decisions. Finally, the Compensation Committee generally reviews and takes into account competitive factors regarding compensation. Our compensation program is based on the following principles:

Compensation opportunities should attract the best talent, motivate individuals to perform at their highest levels, reward outstanding achievement, and retain the leadership and skills necessary for building long-term stockholder value;

Compensation should include a bonus potential which is tied directly to operating objectives; and

Compensation should include a long-term incentive award generally in the form of stock option grants to increase ownership in the Company and encourage executives to manage from the perspective of owners of the Company.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis as required by Item 402(b) of Regulation S-K with management. Based on these reviews and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's annual meeting proxy statement on Schedule 14A.

This report is respectfully submitted by the members of the Compensation Committee of the Board.

John P. Brancaccio, Chairman
Donald R. Conklin
Paul M. Weiss, Ph.D.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company recognizes that related party transactions can create the appearance that Company decisions are made based on factors other than the Company's best interest or the best interest of the Company's stockholders. Related party transactions can also create potential or actual conflicts of interest between the Company and the related party. Related person transactions are transactions which in the aggregate exceed \$120,000 or 1% of the average of the Company's total assets at year end for the last three completed fiscal years, to which the Company and a related party with a direct or indirect material interest, participated. The Company's Code of Business Conduct and Ethics requires that any such related party transactions be specifically approved by the Company's Ethics Officer. In addition directors, officers and employees must notify the Ethics Officer or the Chair of the Audit Committee of the existence of any actual or potential conflicts of interest. The Audit Committee performs a review of related party transactions as part of its review of the Annual Report on Form 10-K.

The Company was a party to the following transactions in which the amount involved exceeded \$120,000 and in which any executive officers, directors, holders of more than 5% of our capital stock and members of such person's immediate families had or will have a direct or indirect material interest.

At fiscal years ended July 31, 2007 and 2006, \$180,397 and \$170,870, respectively were due to the Company from Kuslima Shogen, the Company's CEO, from which the Company earned 8% interest in the amount of approximately \$9,500 on the unpaid principal balance for each of the fiscal years 2007 and 2006. This loan was made prior to July 30, 2002 and has not since been materially modified, thus it is not in violation of the Sarbanes-Oxley Act of 2002.

On July 23, 1991, the Board agreed to pay Kuslima Shogen, an amount equal to 15% of any gross royalties which the Company may receive from any license(s) with respect to the Company's lead drug product candidate, ONCONASE®, or any other products derived from amphibian source extract, produced either as a natural, synthesized, and/or genetically engineered drug for which the Company is the owner or co-owner of the patents, or acquires such rights in the future, for a period not to exceed the life of the patents. If the Company manufactures and markets any of these drugs, then Ms. Shogen will receive an amount equal to 5% of gross sales from any products sold during the term of the patents. On April 16, 2001, this agreement was amended and clarified to provide that Ms. Shogen would receive the 15% royalty payment relating to licenses or 5% of net sales relating to sales but not both, unless both the Company and the licensee market the licensed product.

CODE OF ETHICS

Alfacell has adopted a written Code of Business Conduct and Ethics ("Code of Ethics") that applies to the Company's principal executive officer, principal financial officer, principal accounting officer, and controller and to all its other employees. These standards are a guide to help ensure that all our employees live up to our high ethical standards. A copy of the Code of Ethics is maintained on our website at www.alfacell.com.

We intend to post on our website, any amendment to or waiver from any provision in our Code of Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, and that relates to any element of the standards enumerated in the rules of the Securities and Exchange Commission.
