Securities may be offered separately or together, in amounts, at prices and on terms to be determined based on market conditions at the time of sale and set forth in one or more shelf prospectus supplements (each, a "**Prospectus Supplement**").

The Corporation is permitted, under a multi-jurisdictional disclosure system adopted by the United States, to prepare this prospectus in accordance with Canadian disclosure requirements, which are different from those of the United States. We prepared and will prepare our financial statements in accordance with United States generally accepted accounting principles, and they are subject to Canadian and United States auditing and auditor independence standards. The ability of prospective investors to enforce civil liabilities under United States federal securities laws may be affected adversely by the fact that the Corporation is incorporated under the laws of the province of Alberta, most of its officers and directors and most of the experts named in this prospectus are residents of Canada, and that many of the Corporation's assets and all or substantial portion of the assets of said persons are located outside the United States.

Certain data on oil and gas reserves and resources incorporated by reference in this prospectus has been prepared in accordance with Canadian disclosure standards, which are not comparable in all respects to United States disclosure standards.

Prospective investors should be aware that the purchase of Securities may have tax consequences, both in the United States and Canada, which may not be fully described herein or in any applicable Prospectus Supplement. Prospective investors should read the tax discussion, if any, in the applicable Prospectus Supplement and consult with an independent tax advisor.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE "SEC") OR ANY STATE SECURITIES REGULATORY AUTHORITY NOR HAS THE SEC OR ANY STATE SECURITIES REGULATORY AUTHORITY PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

The specific terms of the Securities with respect to a particular offering will be set out in the applicable Prospectus Supplement and may include, where applicable: (i) in the case of Common Shares, the number of Common Shares offered, the issue price and currency (in the event the offering is a fixed price distribution), the manner in which the offering price and currency will be determined (in the event the offering is a non-fixed price distribution) and any other terms specific to the Common Shares being offered; (ii) in the case of Preferred Shares, the designation of the particular series, the number of Preferred Shares offered, the offering price or the manner of determining the offering price, the currency or the currency unit for which the Preferred Shares may be purchased, any voting rights, the dividend rate, the dividend payment dates, and terms for redemption at the option of Enerplus or the holder, any exchange or conversion terms and any other specific terms; (iii) in the case of Warrants, the designation, number and terms of the Common Shares purchasable upon exercise of the Warrants, any procedures that will result in the adjustment of these numbers, the exercise price, dates and periods of exercise, the currency in which the Warrants are offered and any other specific terms; (iv) in the case of Subscription Receipts, the number of Subscription Receipts offered, the issue price, the terms, conditions and procedures for the conversion or exercise of such Subscription

Edgar Filing: ENERPLUS Corp - Form F-10/A

Receipts into or for Common Shares or other securities or pursuant to which the holders thereof will become entitled to receive Common Shares or such other securities, and any other terms specific to the Subscription Receipts being offered; and (v) in the case of Units, the number of Units offered, the issue price, the currency (which may be Canadian dollars or any other currency), the terms of the Units and of the securities comprising the Units and any other terms specific to the Units being offered. Where required by statute, regulation or policy, and where Securities are offered in currencies other than Canadian dollars, appropriate disclosure of foreign exchange rates applicable to such Securities will be included in the Prospectus Supplement describing such Securities. The Corporation may also include in a Prospectus Supplement specific terms pertaining to the Securities which are not within the options and parameters set forth in this prospectus.

All shelf information permitted under applicable laws to be omitted from this prospectus will be contained in one or more Prospectus Supplements that will be delivered to prospective purchasers together with this prospectus, such delivery to be effected in the case of U.S. purchasers through the filing of such Prospectus Supplement or Prospectus Supplements with the SEC. Each Prospectus Supplement will be deemed to be incorporated by reference into this prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the offering of Securities to which the Prospectus Supplement pertains.

This prospectus constitutes a public offering of the Securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such Securities. Enerplus may sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell the Securities directly to one or more purchasers pursuant to applicable statutory exemptions or through agents. The Prospectus Supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by Enerplus in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including the method of distribution of such Securities, the proceeds to Enerplus and any fees, discounts or any other compensation payable to underwriters, dealers or agents and any other material terms of the plan of distribution. Securities may be sold from time to time in one or more transactions at a fixed price or fixed prices, or at non-fixed prices. If offered on a non-fixed price basis, Securities may be offered at market prices prevailing at the time of sale or at prices to be negotiated with purchasers at the time of sale, which prices may vary as between purchasers and during the period of distribution. If Securities are offered on a non-fixed price basis, the underwriters' compensation will be increased or decreased by the amount by which the aggregate price paid for Securities by the purchasers exceeds or is less than the gross proceeds paid by the underwriters to Enerplus.

Except as set out in a Prospectus Supplement relating to a particular offering of Securities, in connection with any offering of Securities, the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions intended to fix or stabilize the market price of the Common Shares at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. See "Plan of Distribution".

No underwriter, dealer or agent has been involved in the preparation of this prospectus or performed any review of the contents of this prospectus.

The issued and outstanding Common Shares of the Corporation are listed on the Toronto Stock Exchange (the "TSX") and the New York Stock Exchange (the "NYSE") under the symbol "ERF". On March 27, 2017, the last trading day before the date of this prospectus, the closing price of the Common Shares on the TSX was \$10.23 and the closing price of the Common Shares on the NYSE was US\$7.64.

Unless otherwise specified in the applicable Prospectus Supplement, there is no market through which the Preferred Shares, Warrants, Subscription Receipts or Units issuable pursuant to this prospectus and any applicable Prospectus Supplement may be sold and purchasers may not be able to resell the Preferred Shares, Warrants, Subscription Receipts or Units purchased under this prospectus or any Prospectus Supplement. This may affect the pricing of the Preferred Shares, Warrants, Subscription Receipts or Units in the secondary market, the transparency and availability of trading prices, the liquidity of the Preferred Shares, Warrants, Subscription Receipts or Units, and the extent of issuer regulation. See "Risk Factors". Unless otherwise specified in the applicable Prospectus Supplement, the Preferred Shares, Warrants, Subscription Receipts or Units will not be listed on any securities exchange.

Investment in the Securities offered by this prospectus involves risks that are described in the "Risk Factors" section in this prospectus.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form F-10 relating to the Securities that we filed with the SEC. Under the registration statement, Enerplus may, from time to time, sell any of the Securities described in this prospectus in one or more offerings up to an aggregate initial offering price of \$2,000,000,000. This prospectus provides the investors with a general description of the Securities that Enerplus may offer. Each time the Corporation sells Securities, it will provide a Prospectus Supplement that will contain specific information about the terms of that offering of Securities. The Prospectus Supplement may also add to, update or change information contained in this prospectus. Before investing, prospective investors should read both this prospectus and any applicable Prospectus Supplement. This prospectus does not contain all of the information contained in the registration statement, certain parts of which are omitted in accordance with the rules and regulations of the SEC. Prospective investors should refer to the registration statement and the exhibits to the registration statement for further information with respect to Enerplus and the Securities.

All dollar amounts set forth in this prospectus are in Canadian dollars unless otherwise indicated. References to "\$" or "C\$" are to Canadian dollars and references to "US\$" are to U.S. dollars. See "Exchange Rate Information".

Unless indicated otherwise, financial information in this prospectus, including the documents incorporated by reference herein, has been prepared in accordance with accounting principles generally accepted in the United States, and which differ from Canadian generally accepted accounting principles. Therefore, Enerplus' financial statements may not be comparable to the financial statements of Canadian companies.

The securities regulatory authorities in Canada have adopted National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*, which imposes oil and gas disclosure standards for Canadian public issuers engaged in oil and gas activities. National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* permits oil and gas issuers, in their filings with Canadian securities regulatory authorities, to disclose not only proved, probable and possible reserves but also resources, and to disclose reserves and production on a gross basis before deducting royalties. Probable reserves, possible reserves and resources are of a higher risk and are less likely to be accurately estimated or recovered than proved reserves. Data on oil and natural gas reserves included or incorporated by reference in this prospectus has generally been prepared in accordance with Canadian disclosure standards, which are not comparable in all respects to United States or other foreign disclosure standards. For example, although the SEC now generally permits oil and gas issuers, in their filings with the SEC, to disclose both proved reserves and probable reserves (each as defined in the SEC rules), the SEC definitions of proved reserves and probable reserves may differ from the definitions of "proved reserves" and "probable reserves" under Canadian securities laws. In addition, under Canadian disclosure requirements and industry practice, reserves and production are reported using gross (or, as noted above with respect to production information, "company interest") volumes, which are volumes prior to deduction of applicable royalties and similar payments. The practice in the United States is to report reserves and production using net volumes, after deduction of applicable royalties and similar payments. Moreover, in accordance with Canadian disclosure requirements, the Corporation has determined and disclosed estimated future net revenue from its reserves using forecast prices and costs, whereas the SEC generally requires that reserves estimates be prepared using an unweighted average of the closing prices for the applicable commodity on the first day of each of the twelve months preceding the company's fiscal year-end, with the option of also disclosing reserves estimates based upon future or other prices.

As a consequence of the foregoing, the Corporation's reserves estimates and production volumes may not be comparable to those made by companies utilizing United States reporting and disclosure standards. Additionally, the SEC prohibits disclosure of oil and gas resources in SEC filings, including contingent resources, whereas Canadian securities regulatory authorities allow disclosure of oil and gas resources. Resources are different than, and should not be construed as, reserves. For additional information regarding the presentation of our reserves and other oil and gas information, see the section entitled "Presentation of Oil and Gas Reserves, Contingent Resources, and Production Information" in the AIF, which is incorporated by reference in this prospectus.

The Corporation has adopted the standard of six one thousand cubic feet of natural gas ("**Mcf**") to one barrel of oil when converting natural gas to barrels of oil equivalent ("**BOE**"). BOEs may be misleading,

Edgar Filing: ENERPLUS Corp - Form F-10/A

particularly if used in isolation. The foregoing conversion ratios are based on an energy equivalency conversion method primarily applicable at the burner tip and do not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of crude oil as compared to natural gas is significantly different from the energy equivalency of six to one, utilizing a conversion on a six to one basis may be misleading as an indication of value.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

In particular, this prospectus contains forward-looking information pertaining to Enerplus' expectations regarding the proposed asset divestments, including expected timing of completion thereof and impact on Enerplus' operations and financial results, and the Corporation's adjusted 2017 guidance. ENFORCEABILITY OF CIVIL LIABILITIES

Enerplus is a corporation formed under, and governed by, the laws of the Province of Alberta, Canada, and its principal place of business is in Canada. Substantially all of its directors and officers and the experts named in this prospectus are residents of Canada or otherwise reside outside of the United States, and all or a substantial portion of their assets and Enerplus' assets are located outside the United States. As a result, it may be difficult for investors in the United States to effect service of process within the United States upon those directors, officers and experts who are not residents of the United States or to enforce against them judgments of United States courts based upon civil liability under the United States federal securities laws or the securities laws of any state within the United States.

Enerplus has been advised by its Canadian counsel, Blake, Cassels & Graydon LLP, that there is substantial doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws. Enerplus filed with the SEC, concurrently with the registration statement on Form F-10 of which this prospectus forms a part, an appointment of agent for service of process on Form F-X. Under the Form F-X, Enerplus appointed CT Corporation System, 111 Eighth Avenue, New York, New York 10011, as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving Enerplus in a United States court arising out of or related to or concerning the offering of Securities under the registration statement.

RECENT DEVELOPMENTS**Proposed Divestment of Certain Canadian Assets**

On March 9, 2017, Enerplus announced that it had entered into definitive agreements to sell various Canadian properties located in Alberta and southwest Saskatchewan for aggregate gross proceeds of \$67.3 million, before customary closing adjustments. Enerplus has made corresponding adjustments to its 2017 guidance to reflect the impact of these divestments. See "Adjustments to 2017 Guidance".

The properties to be divested include the majority of Enerplus' shallow gas assets, as well as its Brooks waterflood property. The proposed divestments are a part of Enerplus' portfolio optimization strategy as the Corporation continues to focus on its larger-scale, higher-margin assets in Canada and the United States that are expected to drive long-term profitable growth. The proposed divestments account for current production of 7,300 BOE/d (66% natural gas), operating costs of \$18.00 per BOE and 3,200 net wells divested. The proposed divestments are expected to close by mid-April 2017.

Adjustments to 2017 Guidance

As a result of the proposed divestments, Enerplus has updated its previously issued 2017 guidance. See "2017 Guidance" in the MD&A, which is incorporated by reference in this prospectus. As minimal capital was allocated to the divested assets, the Corporation's 2017 capital budget is unchanged. Production has been adjusted to reflect the approximate nine-month impact of the divested volumes on annual average production, as well as the full impact on fourth quarter production. As a result of the higher proportion of U.S. production following the divestments, the Corporation's average royalty and production tax rate is forecast to increase by 1% to 24%. Annual operating expense guidance has been reduced by \$0.60 per BOE, transportation expense is expected to increase by \$0.10 per BOE due to the higher proportion of U.S. production, and general and administrative expense per BOE is expected to increase modestly due to the lower overall production volumes. The table below provides the Corporation's updated guidance.

Summary of Guidance and Results	Revised Guidance ⁽¹⁾		Original Guidance	
Capital spending	\$450 million		\$450 million	
Average annual production	81,000	85,000 BOE/d	86,000	90,000 BOE/d

USE OF PROCEEDS

Each Prospectus Supplement will contain specific information concerning the use of proceeds from that sale of Securities. Unless otherwise specified in a Prospectus Supplement relating to a particular offering of Securities, the Corporation intends to use the net proceeds from the sale of Securities to complete direct or indirect asset and corporate acquisitions, to directly or indirectly finance future growth opportunities, to repay indebtedness, to finance the Corporation's ongoing capital program, and for other general corporate purposes. The amount of net proceeds to be used for any such purposes will be set forth in a Prospectus Supplement. The Corporation may invest funds which it does not immediately use. Such investments may include short-term marketable investment grade securities. The Corporation may, from time to time, issue securities (including debt securities) other than pursuant to this prospectus.

DESCRIPTION OF SHARE CAPITAL

Authorized Capital

The authorized capital of Enerplus consists of an unlimited number of Common Shares and a number of preferred shares, issuable in series ("**Preferred Shares**"), which are limited to an amount equal to not more than one-quarter of the number of issued and outstanding Common Shares at the time of the issuance of any such Preferred Shares. As of March 28, 2017, there were 242,128,944 Common Shares and no Preferred Shares outstanding.

The following is a summary of the rights, privileges, restrictions and conditions attaching to the Common Shares and the Preferred Shares.

Common Shares

Holders of Common Shares are entitled to receive notice of and to attend all meetings of shareholders and to one vote at such meetings for each Common Share held. The holders of the Common Shares are, at the discretion of the board of directors of Enerplus (the "**Board**") and subject to applicable legal restrictions and subject to the rights, privileges, restrictions and conditions attaching to any other class or series of shares of Enerplus, entitled to receive any dividends declared by Enerplus on the Common Shares and to share in the remaining property of Enerplus upon liquidation, dissolution or winding-up.

The articles of Enerplus, as amended and restated on May 11, 2012, contain provisions facilitating payment of dividends on Common Shares through issuance of Common Shares in circumstances where the Board discloses, and a shareholder validly elects to receive, payment of dividends, in whole or in part, in the form of Common Shares. Effective September 19, 2014, the board of directors of the Corporation suspended the stock dividend program to eliminate the dilution associated with the issuance of Common Shares through the program. See "Dividends Stock Dividend Program" in the AIF.

Preferred Shares

The Preferred Shares may be issued from time to time in one or more series with such rights, restrictions, privileges, conditions and designations attached thereto as shall be fixed from time to time by the Board. Subject to the provisions of the *Business Corporations Act* (Alberta), the Preferred Shares of each series shall rank in parity with the Preferred Shares of every other series. The Preferred Shares shall be entitled to preference over the Common Shares and any other shares of Enerplus ranking junior to the said Preferred Shares with respect to payment of dividends and the distribution of assets in the event of liquidation, dissolution or winding-up of Enerplus, whether voluntary or involuntary, to the extent fixed in the case of each respective series, and may also be given such other preferences over the Common Shares and any other shares of Enerplus ranking junior to the said Preferred Shares as may be fixed in the case of each such series.

DESCRIPTION OF WARRANTS

This section describes the general terms that will apply to any warrants (the "**Warrants**") for the purchase of Common Shares.

Each series of Warrants will be issued under a separate Warrant agreement or indenture to be entered into between the Corporation and one or more financial institutions or trust companies acting as Warrant agent. A copy of the Warrant agreement or indenture will be filed by the Corporation with the securities commission or similar regulatory authority in each of the provinces and territories of Canada and the SEC after it has been entered into by the Corporation and will be available electronically at www.sedar.com and www.sec.gov. The applicable Prospectus Supplement will include details of the Warrant agreements or indenture covering the Warrants being offered. The Warrant agent will act solely as the agent of the Corporation and will not assume a relationship of agency with any holders of Warrant certificates or beneficial owners of Warrants.

The Corporation will not offer Warrants for sale separately to any member of the public in Canada unless the offering is in connection with and forms part of the consideration for an acquisition or merger transaction or unless the applicable Prospectus Supplement containing the specified terms of the Warrants to be offered separately is first approved for filing by the securities commissions or similar regulatory authorities in each of the provinces and territories of Canada where the Warrants will be offered for sale.

The following sets forth certain general terms and provisions of the Warrants offered under this prospectus. The specific terms of the Warrants, and the extent to which the general terms described in this section apply to those Warrants, will be set forth in the applicable Prospectus Supplement. The Corporation reserves the right to set forth in a Prospectus Supplement specific terms of the Warrants that are not within the options and parameters set forth in this prospectus. In addition, to the extent that any particular terms of the Warrants described in a Prospectus Supplement differ from any of the terms described in this prospectus, the description of such terms set forth in this prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Warrants.

Holders of Warrants are not shareholders. The particular terms of each issue of Warrants will be described in the related Prospectus Supplement. This description will include, where applicable:

- (a) the designation and aggregate number of Warrants;
- (b) the price at which the Warrants will be offered;
- (c) the currency or currencies in which the Warrants will be offered;
- (d) the date on which the right to exercise the Warrants will commence and the date on which the right will expire;
- (e) the number of Common Shares that may be purchased upon exercise of each Warrant and the price at which and currency or currencies in which that amount of securities may be purchased upon exercise of each Warrant;
- (f) the designation and terms of any securities with which the Warrants will be offered, if any, and the number of the Warrants that will be offered with each security;
- (g) the date or dates, if any, on or after which the Warrants and the related securities will be transferable separately;
- (h) whether the Warrants are subject to redemption or call and, if so, the terms of such redemption or call provisions; and
- (i) any other material terms or conditions of the Warrants.

DESCRIPTION OF SUBSCRIPTION RECEIPTS

Edgar Filing: ENERPLUS Corp - Form F-10/A

Subscription Receipts may be offered separately or in combination with one or more other Securities. The Subscription Receipts will be issued under a Subscription Receipt agreement. A copy of the Subscription Receipt agreement will be filed by the Corporation with the securities commission or similar regulatory authority in each of the provinces and territories of Canada and the SEC after it has been entered into by the Corporation and will be available electronically at www.sedar.com and www.sec.gov. A Subscription Receipt will entitle the

Edgar Filing: ENERPLUS Corp - Form F-10/A

holder thereof to receive a Common Share and/or other securities of Enerplus, for no additional consideration, upon the completion of a particular transaction or event, typically an acquisition of the assets or securities of another entity by Enerplus or one or more of its subsidiaries. The subscription proceeds from an offering of Subscription Receipts will be held in escrow by an escrow agent pending the completion of the transaction or the termination time (the time at which the escrow terminates regardless of whether the transaction or event has occurred). Holders of Subscription Receipts will receive Common Shares and/or other securities of Enerplus upon the completion of the particular transaction or event or, if the transaction or event does not occur by the termination time, a return of the subscription funds for their Subscription Receipts together with any interest or other income earned thereon, as determined by the terms of the applicable escrow. Holders of Subscription Receipts are not shareholders.

The particular terms and provisions of Subscription Receipts offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in the Prospectus Supplement filed in respect of such Subscription Receipts. This description will include, where applicable:

- (a) the number of Subscription Receipts;
- (b) the price at which the Subscription Receipts will be offered;
- (c) the currency or currencies in which the Subscription Receipts will be offered;
- (d) the terms, conditions and procedures pursuant to which the holders of Subscription Receipts will become entitled to receive Common Shares or other securities of Enerplus;
- (e) the number of Common Shares or other securities that may be obtained upon conversion of each Subscription Receipt;
- (f) the designation and terms of any other securities with which the Subscription Receipts will be offered, if any, and the number of Subscription Receipts that will be offered with each Common Share or security;
- (g) the terms applicable to the gross proceeds from the sale of the Subscription Receipts plus any interest earned thereon; and
- (h) any other material terms and conditions of the Subscription Receipts.

The Corporation reserves the right to set forth in a Prospectus Supplement specific terms of the Subscription Receipts that are not within the options and parameters set forth in this prospectus. In addition, to the extent that any particular terms of the Subscription Receipts described in a Prospectus Supplement differ from any of the terms described in this prospectus, the description of such terms set forth in this prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Subscription Receipts.

DESCRIPTION OF UNITS

Enerplus may issue Units comprised of one or more of the Securities described in this prospectus in any combination. Each Unit will be issued so that the holder of the Unit is also the holder of each Security included in the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each included Security. The unit agreement, if any, under which a Unit is issued may provide that the Securities comprising the Unit may not be held or transferred separately, at any time or at any time before a specified date.

The particular terms and provisions of Units offered by any Prospectus Supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in the Prospectus Supplement filed in respect of such Units. This description will include, where applicable:

- the number of Units;

the price at which the Units will be offered;

the currency or currencies in which the Units will be offered;

the terms of the Units and of the Securities comprising the Units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions for the issuance, payment, settlement, transfer, adjustment or exchange of the Units or of the Securities comprising the Units; and

any other material terms of the Units.

The Corporation reserves the right to set forth in a Prospectus Supplement specific terms of the Units that are not within the options and parameters set forth in this prospectus. In addition, to the extent that any particular terms of the Units described in a Prospectus Supplement differ from any of the terms described in this prospectus, the description of such terms set forth in this prospectus shall be deemed to have been superseded by the description of such differing terms set forth in such Prospectus Supplement with respect to such Units.

PLAN OF DISTRIBUTION

The Corporation may sell the Securities (i) to underwriters or dealers purchasing as principals, (ii) directly to one or more purchasers, or (iii) through agents where permitted by law, for cash or other consideration. The Securities may be sold from time to time in one or more transactions at fixed prices or non-fixed prices, such prices determined by reference to the prevailing price of the Securities in a specified market, at market prices prevailing at the time of sale or at prices to be negotiated with purchasers, including sales in transactions that are deemed to be "at-the-market distributions" as defined in National Instrument 44-102 *Shelf Distributions*, including sales made directly on the TSX, NYSE or other existing trading markets for the Securities. The prices at which Securities may be offered may vary as between purchasers and during the period of distribution of the Securities.

The Prospectus Supplement for any of the Securities being offered will set forth the terms of the offering of those Securities, including the name or names of any underwriters, dealers or agents, the offering price of the Securities (in the event the offering is a fixed price distribution), the manner in which the offering price will be determined (in the event the offering is a non-fixed price distribution), the proceeds to the Corporation from that sale if determinable, any underwriting fees or discounts and other items constituting underwriters' compensation, any public offering price, and any discounts or concessions allowed or re-allowed or paid to dealers or agents. Only underwriters named in the relevant Prospectus Supplement are deemed to be underwriters in connection with the Securities offered by that Prospectus Supplement.

If underwriters purchase Securities as principal, the Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase those Securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all the Securities offered by the Prospectus Supplement if any of such Securities are purchased. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. The Securities may also be sold directly by the Corporation at prices and upon terms agreed to by the purchaser and the Corporation or through agents designated by the Corporation from time to time. Any agent involved in the offering and sale of the Securities pursuant to this prospectus will be named, and any commissions payable by the Corporation to that agent will be set forth, in the applicable Prospectus Supplement. Unless otherwise indicated in the Prospectus Supplement, any agent would be acting on a best efforts basis for the period of its appointment.

The Corporation may agree to pay the underwriters a commission for various services relating to the issue and sale of any Securities offered by this prospectus. Any such commission will be paid out of the Corporation's general funds or the proceeds of the sale of the Securities. Underwriters, dealers and agents who participate in the distribution of the Securities may be entitled under agreements to be entered into with the Corporation to indemnification against certain liabilities, including liabilities under the Securities Act, as amended, and Canadian provincial securities legislation, or to contribution with respect to payments that those underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

Any offering of Securities, other than Common Shares, will be a new issue of securities with no established trading market. Unless otherwise specified in the applicable Prospectus Supplement, such Securities will not be listed on any securities exchange. Certain dealers may make a market in such Securities, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that any

dealer will make a market in such Securities or as to the liquidity of the trading market, if any, for such Securities.

Except as set out in a Prospectus Supplement relating to a particular offering of Securities, in connection with any offering of Securities, other than an "at-the-market distribution", the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions intended to fix or stabilize the market price of the Common Shares at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement may describe certain Canadian federal income tax consequences to an investor who is a resident of Canada or who is a non-resident of Canada of acquiring, owning or disposing of any Securities offered thereunder, including to the extent applicable, whether any dividends or interest relating to the Securities will be subject to Canadian non-resident withholding tax.

The applicable Prospectus Supplement may also describe certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of any Securities offered thereunder by an initial investor who is subject to United States federal taxation.

RISK FACTORS

An investment in the Securities will be subject to various risks including those discussed below and those risks inherent to the industry in which Enerplus operates. Before deciding whether to invest in any Securities, investors should consider carefully the risks discussed below, the risks incorporated by reference in this prospectus (including subsequently filed documents incorporated by reference) and those described in a Prospectus Supplement relating to a specific offering of Securities.

Discussions of certain risk factors affecting Enerplus in connection with its business are provided in Enerplus' disclosure documents filed with the various securities regulatory authorities which are incorporated by reference in this prospectus. In particular, see "Risk Factors" in the AIF and "Risk Factors and Risk Management" in the MD&A. Before investing, prospective purchasers of Securities should carefully consider the information contained or incorporated by reference in this prospectus.

Risks Relating to the Securities

There is no market through which the Securities (other than the Common Shares) may be sold.

There is currently no market through which any of the Securities, other than the Common Shares, may be sold and the purchasers of such Securities may not be able to resell such securities purchased under this prospectus and any Prospectus Supplement. There can be no assurance that a secondary market will develop for any of the Preferred Shares, Warrants, Subscription Receipts or Units that may be issued under this prospectus or that any secondary market which does develop will continue. This may affect the pricing of such Securities in the secondary market, if any, the transparency and availability of trading prices, the liquidity of the securities and the extent of regulation of such Securities.

The public offering prices of the Securities may be determined by negotiation between Enerplus and underwriters based on several factors and may bear no relationship to the prices at which Securities will trade in the public market subsequent to such offering. See "Plan of Distribution".

The Common Shares may be subject to price and volume fluctuations, and the market price for the Common Shares following an offering may drop below the offering price.

In recent years, securities markets have experienced considerable price and volume volatility, which may have been unrelated to the operating performance of Enerplus and not necessarily determined solely by reference to the underlying value of Enerplus' assets. The market price of publicly traded securities is affected by many variables, including the strength of the economy generally, commodity prices, the availability and attractiveness of alternative investments and the breadth of the public market for the securities. The effect of these and other factors on the market price of securities on the stock exchanges on which Enerplus securities trade suggests that the trading price of the Common Shares may be volatile. The market price of the Common

Edgar Filing: ENERPLUS Corp - Form F-10/A

Shares may be affected by numerous factors beyond the control of Enerplus. These fluctuations may affect the price of the Common Shares following an offering, and the market price of the Common Shares may drop below the offering price. As a result of this volatility, securityholders may not be able to sell their Common Shares at or above the offering price. Enerplus cannot predict at what price the Common Shares issued by Enerplus will trade in the future.

Enerplus may issue additional Securities in the future which may dilute the holdings of existing securityholders, including holders of Securities purchased hereunder, or which may have priority over existing securityholders.

Enerplus may issue additional Securities, which may dilute existing securityholders, including purchasers of the Securities hereunder. Enerplus may also issue debt securities that have priority over holders of other Securities with respect to payment in the event of an insolvency or winding up of Enerplus. Securityholders will have no preemptive rights in connection with any such further issuances. The Board has the discretion to determine the designation, rights, privileges, restrictions and conditions attached to any series of Preferred Shares, and the price and terms for any issuances of Common Shares, Warrants and Subscription Receipts.

There can be no assurance as to the liquidity of the trading market for the Preferred Shares, Warrants, Subscription Receipts and Units or that a trading market for such Securities will develop.

Prior to an offering of Preferred Shares, Warrants, Subscription Receipts or Units, there will be no public market for such Securities. There can be no assurance that an active trading market for the Preferred Shares, Warrants, Subscription Receipts or Units will develop or be sustained. Unless otherwise specified in the applicable Prospectus Supplement(s), there is no market through which the Preferred Shares, Warrants, Subscription Receipts or Units may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus and the relevant Prospectus Supplement(s). This may affect the pricing of the Preferred Shares, Warrants and Subscription Receipts in the secondary market, the transparency and availability of trading prices and the liquidity of such Securities.

PART II

**INFORMATION NOT REQUIRED TO BE DELIVERED TO
OFFEREEES OR PURCHASERS**

Indemnification

Under the *Business Corporations Act* (Alberta) (the "**ABCA**"), a corporation may indemnify a present or former director or officer of the corporation or a person who acts or acted at the corporation's request as a director or officer of a body corporate of which the corporation is or was a shareholder or creditor, and his or her heirs and legal representatives (an "**Indemnified Party**"), against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him or her in respect of any civil, criminal or administrative action or proceeding to which he or she is made a party by reason of being or having been a director or officer of the corporation or that body corporate, if the director or officer acted honestly and in good faith with a view to the best interests of the corporation, and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, the director or officer had reasonable grounds for believing that his or her conduct was lawful. Such indemnification may be in connection with an action by or on behalf of the corporation to procure a judgment in its favor only with court approval. An Indemnified Party is entitled to indemnification from the corporation as a matter of right if in the defense of the matter or action he or she was substantially successful on the merits, fulfilled the conditions set forth above, and is fairly and reasonably entitled to indemnity.

The bylaws of the Registrant provide that, subject to section 124 of the ABCA, except in respect of an action by or on behalf of the Registrant or body corporate to procure a judgment in its favor, the Registrant shall indemnify a director or officer of the Registrant, a former director or officer of the Registrant or a person who acts or acted at the Registrant's request as a director or officer of a body corporate of which the Registrant is or was a shareholder or creditor, and his or her heirs and legal representatives, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him or her in respect of any civil, criminal or administrative action or proceeding to which he or she is made a party by reason of being or having been a director or officer of the Registrant or body corporate, if he or she (i) acted honestly and in good faith with a view to the best interests of the Registrant (ii) and in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, he or she had reasonable grounds for believing that his or her conduct was lawful.

The corporation may, subject to the approval of a Court (as defined in the ABCA), indemnify a person in respect of an action by or on behalf of the Registrant or a body corporate to procure a judgment in its favor, to which he or she is made a party by reason of being or having been a director or an officer of the Registrant or body corporate, against all costs, charges and expenses reasonably incurred by him or her in connection with such action if he or she (i) acted honestly and in good faith with a view to the best interests of the Registrant (ii) and in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, he or she had reasonable grounds for believing that his or her conduct was lawful.

Notwithstanding the above, a person shall be entitled to indemnity from the Registrant in respect of all costs, charges and expenses reasonably incurred by him or her in connection with the defense of any civil, criminal, or administrative action or proceeding to which he or she is made a party by reason of being or having been a director or officer of the Registrant or body corporate, if the person seeking indemnity (i) was substantially successful on the merits of his or her defense of the action or proceeding, (ii) acted honestly and in good faith with a view to the best interests of the Registrant; (iii) in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, he or she had reasonable grounds for believing that his or her conduct was lawful; and (iv) is fairly and reasonably entitled to indemnity.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers or persons controlling the Registrant pursuant to the foregoing provisions, the Registrant has been informed that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is therefore unenforceable.
