#### **Salem Communications Announces Record Fourth Quarter 2003 Results Fourth Quarter Same Station Revenues and Station Operating Income Increase 11.7% and 26.1%, Respectively**

CAMARILLO, Calif. February 26, 2004 Salem Communications Corporation (NASDAQ: SALM), the leading radio broadcaster focused on religious and family themed programming, announced today results for the fourth quarter and year ended December 31, 2003.

Commenting on these results, Edward G. Atsinger III, President and CEO said, "On a same station basis, our fourth quarter station operating income growth of 26.1% matches the best quarterly financial performance we have achieved since going public in 1999. This is especially significant given the difficult year that the radio industry experienced in 2003. Our 12.8% revenue growth was fueled by our start-up and developing stations, which continue to achieve strong growth. In particular, our contemporary Christian music stations grew robustly achieving 30.0% revenue growth and 197.1% growth in station operating income. Looking ahead to 2004, we continue to focus on driving our start-up and developing stations to maturity. Their performance, combined with the consistent and stable performance of our block programming business, provides Salem with a business model featuring both growth and predictability."

### **Forward Looking Statements**

Statements used in this press release that relate to future plans, events, financial results, prospects or performance are forward-looking statements as defined under the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those anticipated as a result of certain risks and uncertainties, including but not limited to market acceptance of recently launched music formats, competition in the radio broadcast, Internet and publishing industries and from new technologies, adverse economic conditions, and other risks and uncertainties detailed from time to time in Salem's reports on Forms 10-K, 10-Q, 8-K and other filings made with the Securities and Exchange Commission. ### **Regulation G**

*The company's results as set forth in this press release include non-GAAP financial measures of station operating income, which is defined as net broadcasting revenue minus broadcasting operating expenses, and EBITDA, which is defined by the SEC as net income plus interest expense, tax, depreciation and amortization and minus interest income. Salem's definition of station operating income is not necessarily comparable to similarly titled measures reported by other companies. Salem has provided supplemental information, as an attachment to this press release, which reconciles non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with generally accepted accounting principles ("GAAP"). ..*

*Station operating income and EBITDA are not measures of performance calculated in accordance with GAAP; they should be viewed as a supplement to and not a substitute for results of operations presented on the basis of GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, are useful to investors because they are generally recognized by the radio broadcasting industry as a tool to provide useful measures of the company's operating performance and to apply valuation methodologies for companies in the media, entertainment and communications industries. These measures are used by investors and by analysts who report on the industry to provide comparisons between broadcasting groups. Salem uses these non-GAAP financial measures as key measures of operating efficiency and profitability.*
