NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in U.S. dollars, have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. The interim financial statements are condensed and should be read in conjunction with the Company's latest annual financial statements and that interim disclosures generally do not repeat those in the annual statements.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management, are necessary for fair presentation of the information contained therein.

Principles of consolidation

The consolidated financial statements include the accounts of The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88, LLC (an Arizona Limited Liability Company).

All significant intercompany balances and transactions have been eliminated. The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88, LLC (an Arizona Limited Liability Company) will be collectively referred herein to as the Company. Any reference herein to The Alkaline Water Company Inc., the Company, we, our or us is intended to mean The Alkaline Water Company Inc., including the subsidiaries indicated above, unless otherwise indicated.

Reverse split

Effective December 30, 2015, the Company effected a fifty for one reverse stock split of its authorized and issued and outstanding shares of common stock. As a result, the authorized common stock has decreased from 1,125,000,000 shares of common stock, with a par value of \$0.001 per share, to 22,500,000 shares of common stock, with a par value of \$0.001 per share. All shares and per share amounts have been retroactively restated to reflect such split.

On January 21, 2016, stockholders of our company approved, by written consents, an amendment to the articles of incorporation of our company to increase the number of authorized shares of our common stock from 22,500,000 to 200,000,000.

The Company received written consents representing 20,776,000 votes from the holders of shares of its common stock and our Series A Preferred Stock voting as a single class, representing approximately 61% of the voting power of its outstanding common stock and its outstanding Series A Preferred Stock voting as a single class as of the record date (January 12, 2016). On January 21, 2016, there were no written consents received by the Company representing a vote against, abstention or broker non-vote with respect to the proposal.

Our authorized preferred stock was not affected by the reverse stock split and continues to be 100,000,000 shares of preferred stock, with a par value of \$0.001 per share. In addition, the number of issued and outstanding shares of Series A Preferred Stock continues to be 20,000,000. However, holders of Series A Preferred Stock had 0.2 vote per share of Series A Preferred Stock, instead of 10 votes per share of Series A Preferred Stock, as a result of the reverse stock split.

On January 22, 2016, the Company amended the certificate of designation for our Series A Preferred Stock by filing an amendment to certificate of designation with the Secretary of State of the State of Nevada. The Company amended the certificate of designation for our Series A Preferred Stock by deleting Section 2.2 of the certificate of designation, which proportionately increases or decreases the number of votes per share of Series A Preferred Stock in the event of any dividend or other distribution on our common stock payable in its common stock or a subdivision or consolidation of the outstanding shares of its common stock. Accordingly, holders of Series A Preferred Stock will have 10 votes per share of Series A Preferred Stock, instead of 0.2 votes per share of Series A Preferred Stock.

On March 30, 2016, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series C Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series C Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) the Company achieves consolidated revenue equal to or greater than \$15,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series C Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

On May 3, 2017, we designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series D Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. On November 2, 2017, we increased the number of authorized shares of Series D Preferred Stock in our company to 5,000,000 shares by filing an Amendment to the foregoing Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series D Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) we achieve the consolidated revenue of our company and all of its subsidiaries equal to or greater than \$40,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series D Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of three months or less to be considered cash equivalents. The carrying value of these investments approximates fair value. The Company had \$481,831 and \$603,805 in cash and cash equivalents at September 30, 2017 and March 31, 2017, respectively.

Accounts receivable and allowance for doubtful accounts

The Company generally does not require collateral, and the majority of its trade receivables are unsecured. The carrying amount for accounts receivable approximates fair value.

Accounts receivable are periodically evaluated for collectability based on past credit history with clients. Provisions for losses on accounts receivable are determined on the basis of loss experience, known and inherent risk in the account balance and current economic conditions.

Inventory

Inventory represents raw and blended chemicals and other items valued at the lower of cost or market with cost determined using the weight average method which approximates first-in first-out method, and with market defined as the lower of replacement cost or realizable value.

As of September 30, 2017 and March, 31 2017, inventory consisted of the following:

	<u>September 30, 2017</u>	<u>March 31,</u> <u>2017</u>
Raw materials	\$ 453,858	\$ 587,689
Finished goods	180,489	232,300
Total inventory	\$ 634,347	\$ 819,989

Property and equipment

The Company records all property and equipment at cost less accumulated depreciation. Improvements are capitalized while repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method over the estimated useful life of the assets or the lease term, whichever is shorter. Depreciation periods are as follows for the relevant fixed assets:

Equipment	5 years
Equipment under capital lease	5 years

Stock-based Compensation

The Company accounts for stock-based compensation to employees in accordance with Accounting Standards Codification (ASC) 718. Stock-based compensation to employees is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The Company has elected to account for forfeitures as they occur. Company accounts for stock-based compensation to other than employees in accordance with ASC 505-50. Equity instruments issued to other than employees are valued at the earlier of a commitment date or upon completion of the services, based on the fair value of the equity instruments and is recognized as expense over the service period. The Company estimates the fair value of stock-based payments using the Black-Scholes option-pricing model for common stock options and warrants and the closing price of the Company's common stock for common share issuances.

Revenue recognition

The Company recognizes revenue when all of the following conditions are satisfied: (1) there is persuasive evidence of an arrangement; (2) the product or service has been provided to the customer; (3) the amount to be paid by the customer is fixed or determinable; and (4) the collection of such amount is probable.

The Company records revenue when it is realizable and earned upon shipment of the finished products. The Company does not accept returns due to the nature of the product. However, the Company will provide credit to our customers for damaged goods.

Fair value measurements

The valuation of our embedded derivatives and warrant derivatives are determined primarily by the multinomial distribution (Lattice) model. An embedded derivative is a derivative instrument that is embedded within another contract, which under the convertible note (the host contract) includes the right to convert the note by the holder, certain default redemption right premiums and a change of control premium (payable in cash if a fundamental change occurs). In accordance with ASC 815 *Accounting for Derivative Instruments and Hedging Activities*, as amended, these embedded derivatives are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. A warrant derivative liability is also determined in accordance with ASC 815. Based on ASC 815, warrants which are determined to be classified as derivative liabilities are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. The practical effect of this has been that when our stock price increases so does our derivative liability resulting in a non-cash loss charge that reduces our earnings and earnings per share. When our stock price declines, the Company records a non-cash gain, increasing our earnings and earnings per share. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, there exists a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.
- Level 2 inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
- Level 3 unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

To determine the fair value of our embedded derivatives, management evaluates assumptions regarding the probability of certain future events. Other factors used to determine fair value include our period end stock price, historical stock volatility, risk free interest rate and derivative term. The fair value recorded for the derivative liability varies from period to period. This variability may result in the actual derivative liability for a period either above or below the estimates recorded on our consolidated financial statements, resulting in significant fluctuations in other income (expense) because of the corresponding non-cash gain or loss recorded.

Income taxes

In accordance with ASC 740 *Accounting for Income Taxes*, the provision for income taxes is computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Basic and diluted loss per share

Basic and diluted earnings or loss per share (EPS) amounts in the consolidated financial statements are computed in accordance ASC 260 *Earnings per Share*, which establishes the requirements for presenting EPS. Basic EPS is based on the weighted average number of common shares outstanding. Diluted EPS is based on the weighted average number of common shares outstanding and dilutive common stock equivalents. Basic EPS is computed by dividing net income or loss available to common stockholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Potentially dilutive securities were excluded from the calculation of diluted loss per share, because their effect would be anti-dilutive.

Reclassification

Certain accounts in the prior period were reclassified to conform to the current period financial statements presentation.

Newly issued accounting pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-11 (ASU 2015-11) "Simplifying the Measurement of Inventory". According to ASU 2015-11 an entity should measure inventory within the scope of this update at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. The amendments in ASU 2015-11 more closely align the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). The Board has amended some of the other guidance in Topic 330 to more clearly articulate the requirements for the measurement and disclosure of inventory. However, the Board does not intend for those clarifications to result in any changes in practice. Other than the change in the subsequent measurement guidance from the lower of cost or market to the lower of cost and net realizable value for inventory within the scope of ASU 2015-11, there are no other substantive changes to the guidance on measurement of inventory. For public business entities, the amendments in ASU 2015-11 are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. For all other entities, the amendments in ASU 2015-11 are effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The amendments in ASU 2015-11 should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period.

The Board decided that the only disclosures required at transition should be the nature of and reason for the change in accounting principle. An entity should disclose that information in the first annual period of adoption and in the interim periods within the first annual period if there is a measurement-period adjustment during the first annual period in which the changes are effective.

On March 30, 2016, the FASB issued Accounting Standards Update (ASU) 2016-09) Improvements to Employee Share-based Accounting which amends ASC 718, Compensation – Stock Compensation . The ASU includes provisions intended to simplify various provisions related to how share-based payments are accounted for and presented in the financial statements. Compensation cost is ultimately only recognized for awards with performance and/or service conditions that vest (or for awards with market conditions for which the requisite service period is satisfied). Under the new guidance, entities are permitted to make an accounting policy election related to how forfeitures will impact the recognition of compensation cost. Currently entities are required to develop an assumption regarding the forfeiture rate on the grant date, which impacts the estimated amount of compensation cost recorded over the requisite service period. The forfeiture estimates are updated throughout the service period so that compensation cost is ultimately only recognized for awards that vest.

Under the new guidance, entities are permitted to make an accounting policy to either estimate forfeitures each period, as required today or to account for forfeitures as they occur. The Company elects to account for forfeitures as they occur. ASU 2016-09 is effective for public business entities for annual reporting periods beginning after December 15, 2016 and interim periods within that reporting period.

The Company has evaluated other recent accounting pronouncements through September 2017 and believes that none of them will have a material effect on our financial statements.

NOTE 2 GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability and/or acquisition and sale of assets and the satisfaction of liabilities in the normal course of business. Since its inception, the Company has been engaged substantially in financing activities, developing its business plan and building its initial customer and distribution base for its products. As a result, the Company incurred accumulated net losses from Inception (June 19, 2012) through the period ended September 30, 2017 of (\$26,269,516). In addition, the Company's development activities since inception have been financially sustained through debt and equity financing.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating revenues. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 PROPERTY AND EQUIPMENT

NOTE 4 REVOLVING FINANCING

On February 1, 2017, The Alkaline Water Company Inc. and its subsidiaries (the Company) entered into a Credit and Security Agreement (the Credit Agreement) with SCM Specialty Finance Opportunities Fund, L.P. (the Lender).

The Credit Agreement provides the Company with a revolving credit facility (the Revolving Facility), the proceeds of which are to be used to repay existing indebtedness of the Company, transaction fees incurred in connection with the Credit Agreement and for working capital needs of the Company.

Under the terms of the Credit Agreement, the Lender has agreed to make cash advances to the Company in an aggregate principal at any one time outstanding not to exceed the lesser of (i) \$3 million (the Revolving Loan Commitment Amount) and (ii) the Borrowing Base (defined to mean, as of any date of determination, 85% of net eligible billed receivables plus 65% of eligible unbilled receivables, minus certain reserves).

The Credit Agreement has a term of three years, unless earlier terminated by the parties in accordance with the terms of the Credit Agreement.

The principal amount of the Revolving Facility outstanding bears interest at a rate per annum equal to (i) a fluctuating interest rate per annum equal at all times to the rate of interest announced, from time to time, within Wells Fargo Bank at its principal office in San Francisco as its prime rate, plus (ii) 3.25%, payable monthly in arrears.

To secure the payment and performance of the obligations under the Credit Agreement, the Company granted to the Lender a continuing security interest in all of the Company's assets and agreed to a lockbox account arrangement in respect of certain eligible receivables.

In connection with the Credit Agreement, the Company paid to the Lender a \$30,000 facility fee. The Company agreed to pay to Lender monthly an unused line fee in amount equal to 0.083% per month of the difference derived by subtracting (i) the average daily outstanding balance under the Revolving Facility during the preceding month, from (ii) the Revolving Loan Commitment Amount. The unused line fee will be payable monthly in arrears. The Company also agreed to pay the Lender as additional interest a monthly collateral management fee equal to 0.35% per month calculated on the basis of the average daily balance under the Revolving Facility outstanding during the preceding month. The collateral management fee will be payable monthly in arrears. Upon a termination of the Revolving Facility, the Company agreed to pay the Lender a termination fee in an amount equal to 2% of the Revolving Loan Commitment Amount if the termination occurs before February 1, 2020. The Company must also pay certain fees in the event that receivables are not properly deposited in the appropriate lockbox account.

The interest rate will be increased by 5% in the event of a default under the Credit Agreement. Events of default under the Credit Agreement, some of which are subject to certain cure periods, include a failure to pay obligations when due, the making of a material misrepresentation to the Lender, the rendering of certain judgments or decrees against the Company and the commencement of a proceeding for the appointment of a receiver, trustee, liquidator or conservator or filing of a petition seeking reorganization or liquidation or similar relief.

NOTE 5 DERIVATIVE LIABILITY

On May 1, 2014, the Company completed the offering and sale of an aggregate of shares of our common stock and warrants. Each share of common stock sold in the offering was accompanied by a warrant to purchase one-half of a share of common stock. The warrants include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging, if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding were not indexed to the Company's own stock and therefore a derivative instrument.

On August 20, 2014, the Company entered into a warrant amendment agreement with certain holders of the Company's outstanding common stock purchase warrants whereby the Company agreed to reduce the exercise price of the Existing Warrants the Holders are to be issued new common stock purchase warrants of the Company in the form of the Existing Warrants to purchase up to a number of shares of our common stock equal to the number of Existing Warrants exercised by the Holders

The Company analyzed the warrants and conversion feature under ASC 815 Derivatives and Hedging to determine the derivative liability as of September 30, 2017 was \$3,407.

NOTE 6 STOCKHOLDERS' EQUITY

Preferred Shares

On October 7, 2013, the Company amended its articles of incorporation to create 100,000,000 shares of preferred stock by filing a Certificate of Amendment to Articles of Incorporation with the Secretary of State of Nevada. The preferred stock may be divided into and issued in series, with such designations, rights, qualifications, preferences, limitations and terms as fixed and determined by our board of directors. The Series A Preferred Stock had 10 votes per share (reduced to 0.2 votes per share as a result of the fifty for one reverse stock split, which became effective as of December 30, 2015) and are not convertible into shares of our common stock.

Grant of Series A Preferred Stock

On October 8, 2013, the Company issued a total of 20,000,000 shares of non-convertible Series A Preferred Stock to Steven P. Nickolas and Richard A. Wright (10,000,000 shares to each), our directors and executive officers, in consideration for the past services, at a deemed value of \$0.001 per share. The Company valued these shares based on the cost considering the time and average billing rate of these individuals and recorded a \$20,000 stock compensation cost for the year ended March 31, 2014.

Our authorized preferred stock was not affected by the reverse stock split and continues to be 100,000,000 shares of preferred stock, with a par value of \$0.001 per share. In addition, the number of issued and outstanding shares of Series A Preferred Stock continues to be 20,000,000. However, holders of Series A Preferred Stock had 0.2 vote per share of Series A Preferred Stock, instead of 10 votes per share of Series A Preferred Stock, as a result of the reverse-stock split.

On January 22, 2016, the Company amended the certificate of designation for our Series A Preferred Stock by filing an amendment to certificate of designation with the Secretary of State of the State of Nevada. The Company amended the certificate of designation for our Series A Preferred Stock by deleting Section 2.2 of the certificate of designation, which proportionately increases or decreases the number of votes per share of Series A Preferred Stock in the event of any dividend or other distribution on our common stock payable in its common stock or a subdivision or consolidation of the outstanding shares of its common stock. Accordingly, holders of Series A Preferred Stock will have 10 votes per share of Series A Preferred Stock, instead of 0.2 votes per share of Series A Preferred Stock.

Grant of Series C Convertible Preferred Stock

On March 30, 2016, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series C Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. Each share of the Series C Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) the Company achieves consolidated revenue equal to or greater than \$15,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series C Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time.

Effective March 31, 2016, the Company issued a total of 3,000,000 shares of our Series C Preferred Stock to Steven P. Nickolas and Richard A. Wright (1,500,000 shares to each), pursuant to their employment agreements dated effective March 1, 2016. On August 17, 2017, Steven P. Nickolas converted his 1,500,000 shares of Series C Preferred Stock to 1,500,000 shares of Common Stock.

Grant of Series D Convertible Preferred Stock

On May 3, 2017, the Company designated 3,000,000 shares of the authorized and unissued preferred stock of our company as Series D Preferred Stock by filing a Certificate of Designation with the Secretary of State of the State of Nevada. On November 2, 2017, we increased the number of authorized shares of Series D Preferred Stock in our company to 5,000,000 shares by filing an Amendment to the foregoing Certificate of Designation with the Secretary

of State of the State of Nevada. Each share of the Series D Preferred Stock will be convertible, without the payment of any additional consideration by the holder and at the option of the holder, into one fully paid and non-assessable share of our common stock at any time after (i) we achieve the consolidated revenue of our company and all of its subsidiaries equal to or greater than \$40,000,000 in any 12 month period, ending on the last day of any quarterly period of our fiscal year; or (ii) a Negotiated Trigger Event, defined as an event upon which the Series D Preferred Stock will be convertible as may be agreed by our company and the holder in writing from time to time. The company then issued a total of 3,000,000 shares of our Series D Preferred Stock to our directors, officers, consultants and employees. We issued these shares relying on the registration exemption provided for in Section 4(a)(2) of the Securities Act of 1933.

Common Stock

The Company was authorized to issue 1,125,000,000 shares of \$0.001 par value common stock. On May 31, 2013, the Company effected a 15-for-1 forward stock split of our \$0.001 par value common stock. All shares and per share amounts have been retroactively restated to reflect such split. Prior to the acquisition of Alkaline Water Corp., the Company had 109,500,000 shares of common stock issued and outstanding. On May 31, 2013, the Company issued 43,000,000 shares in exchange for a 100% interest in Alkaline Water Corp. For accounting purposes, the acquisition of Alkaline Water Corp. by The Alkaline Water Company Inc. has been recorded as a reverse acquisition of a company and recapitalization of Alkaline Water Corp. based on the factors demonstrating that Alkaline Water Corp. represents the accounting acquirer. Consequently, after the closing of this agreement the Company adopted the business of Alkaline Water Corp. s wholly-owned subsidiary, Alkaline 88, LLC. As part of the acquisition, the former management of the Company agreed to cancel 75,000,000 shares of common stock.

On December 30, 2015, the Company effected a fifty for one reverse stock split of its authorized and issued and outstanding shares of common stock. As a result, the authorized common stock has decreased from 1,125,000,000 shares of common stock, with a par value of \$0.001 per share, to 22,500,000 shares of common stock, with a par value of \$0.001 per share. All shares and per share amounts have been retroactively restated to reflect such split.

On January 21, 2016, stockholders of our company approved, by written consents, an amendment to the articles of incorporation of our company to increase the number of authorized shares of our common stock from 22,500,000 to 200,000,000.

The Company received written consents representing 20,776,000 votes from the holders of shares of its common stock and our Series A Preferred Stock voting as a single class, representing approximately 61% of the voting power of its outstanding common stock and its outstanding Series A Preferred Stock voting as a single class as of the record date (January 12, 2016). On January 21, 2016, there were no written consents received by the Company representing a vote against, abstention or broker non-vote with respect to the proposal.

Cash Requirements

We believe that cash flow from operations will not meet our present and near-term cash needs and thus we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We estimate that our capital needs over the next 12 months will be up to \$3,000,000. We will require additional cash resources to, among other things, expand broker network, increase manufacturing capacity, expand retail distribution and add support staff. If our own financial resources and future cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to our stockholders.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures.

Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in our company's reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer to allow timely decisions regarding required disclosure.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

Our company is aware that we have been named in a lawsuit filed on August 9, 2017, by Steven P. Nickolas, a stockholder of our company and our former president and chief executive officer and a former director of our company, in the Maricopa County, Arizona, Superior Court, styled as *Nickolas v. The Alkaline Water Company, Inc., et al.*, cause number CV2017-007786. In the complaint in that action, Mr. Nickolas seeks damages and injunctive relief compelling our company to issue a certificate for 1,500,000 shares of our common stock, which he alleges to have converted from the same number of Series C preferred stock on July 16, 2017. This lawsuit has been dismissed with prejudice pursuant to a Settlement Agreement and Mutual Release of Claims dated October 31, 2017 detailed below in this Item 1.

Our company is a defendant in a lawsuit filed on April 11, 2017 by Steven P. Nickolas in the Maricopa County, Arizona, Superior Court, *Nickolas v. The Alkaline Water Company, Inc., et al.*, cause number CV2017-053064. Mr. Nickolas seeks damages arising out of the alleged breach of a written employment agreement between our company and Mr. Nickolas. Mr. Nickolas alleges that our company wrongfully terminated the employment agreement and has failed to pay wages due to him under the employment agreement. Our company denies the allegations of the claims, and has counterclaimed against Mr. Nickolas for damages suffered by our company as a result of numerous breaches of fiduciary duty owed to our company by Mr. Nickolas in his capacity as officer and director of our company, including diversion of corporate assets to personal matters, and actively interfering with our company's suppliers and customers. This lawsuit against our company, along with our counterclaims, has been dismissed with prejudice pursuant to a Settlement Agreement and Mutual Release of Claims dated October 31, 2017 detailed below in this Item 1.

Our company is a nominal defendant in a lawsuit filed on April 6, 2017 by Steven P. Nickolas derivatively on behalf of our company against Richard A. Wright, David Guarino, and Aaron Keay (current directors of our company), and Daniel Lorey (current employee of our company) and our company's former accounting firm, Seale & Beers, LLC. The lawsuit is pending in the Maricopa County, Arizona, Superior Court, *Steven P. Nickolas, derivatively on behalf of the Alkaline Water Company, v. Richard A. Wright, et al.* cause number CV2017-005488 (the *Derivative Action*). Mr. Nickolas alleges a range of conduct including breach of fiduciary and general duties owed to our company. Some of these allegations were first raised by Mr. Nickolas in August, 2016 and, at that time, our company appointed an independent director, Mr. Keay, to conduct an investigation of the allegations. Mr. Keay conducted the investigation and concluded that the claims were without merit. Though our company is a nominal defendant in this action, our company believes the claims in the action are baseless and has denied the claims. We anticipate that the other defendants will defend the action vigorously, and is paying the cost of defending against the claims, subject to a reservation of rights in the event of a finding the principal defendants breached duties owed to our company and are not eligible for indemnification. This lawsuit against all of the parties, including our company as a nominal defendant, is currently in the process of being dismissed with prejudice pursuant a Settlement Agreement and Mutual Release of Claims dated October 31, 2017 detailed below in this Item 1.

Steven P. Nickolas also filed virtually an identical lawsuit to the Derivative Action in his individual capacity against Richard A. Wright, David Guarino, and Dan Lorey. The lawsuit was filed on April 6, 2017 and is pending in the Maricopa County, Arizona, Superior Court, *Steven P. Nickolas vs. Richard A. Wright et al.* cause number CV2017-005486 (the *Individual Action*). The allegations in the Individual Action are nearly identical to those in the

Derivative Action. We anticipate that the defendants will defend the action vigorously, and are paying the cost of defending against the claims, subject to a reservation of rights in the event of a finding the principal defendants breached duties owed to our company and are not eligible for indemnification. This lawsuit against all of the individual parties has been dismissed with prejudice pursuant to a Settlement Agreement and Mutual Release of Claims dated October 31, 2017 detailed below in this Item 1.

On October 31, 2017, our company and its subsidiaries entered into a Settlement Agreement and Mutual Release of Claims (the “Settlement Agreement”) with Steven P. Nickolas, the Nickolas Family Trust, Water Engineering Solutions, LLC and Enhanced Beverages, LLC, companies and trust that are controlled or owned by Mr. Nickolas, (collectively, the “Nickolas Parties”) and McDowell 78, LLC and Wright Investments Group, LLC, a company controlled or owned by Richard A. Wright, (collectively, “Wright/McDowell”).

The Settlement Agreement provides, among other things, the following:

1. Simultaneous with the full execution of the Settlement Agreement, we agreed to pay Mr. Nickolas \$110,000 in one lump sum (paid);
2. From the date of the Settlement Agreement, we agreed to waive the application of our Insider Trading Policy as to Mr. Nickolas, thereby removing any black-out periods for all future sales of our common stock by Mr. Nickolas;
3. Within three business date of the full execution of the Settlement Agreement, we agreed to instruct our transfer agent to issue to Mr. Nickolas 700,000 shares of our common stock (issued);
4. Within 10 business days of the full execution of the Settlement Agreement, we agreed to issue to Mr. Nickolas 300,000 shares of our Series D Preferred Stock (issued);
5. In exchange of 700,000 shares of our common stock and 300,000 shares of our Series D Preferred Stock described above, Mr. Nickolas forfeited his 10,000,000 shares of our Series A Preferred Stock, to be cancelled for no further consideration;
6. Upon the full execution of the Settlement Agreement, Mr. Nickolas and our company agreed to file the stipulations to dismiss the complaints and counterclaim filed by each of them with prejudice, with each side to bear its own costs and attorney’s fees. In addition, our company and Wright/McDowell agreed that they will effectuate the dismissal of an arbitration proceeding against the Nickolas Parties with prejudice, with each side to bear its own attorneys’ fees and costs;
7. Mr. Nickolas surrendered all right, interest or claim to the shares of our common stock owned by WIN Investments, LLC and Lifewater Industries, LLC for no additional consideration;
8. Mr. Nickolas acknowledged and agreed that the employment agreement between Mr. Nickolas and our company was terminated as of April 7, 2017 and no further amounts are owed to Mr. Nickolas under the employment agreement and we agreed to waive restrictive covenants set out in the employment agreement.
9. We agreed to assume financial responsibility for the federal tax obligations in the total amount of \$45,738.68 owed by Mr. Nickolas and certain outstanding invoice in the amount of \$21,008.71;
10. Mr. Nickolas acknowledged and agreed that 1,500,000 stock options with an exercise price of \$0.52 issued to Mr. Nickolas on or about March 1, 2016 has expired and a total of 148,000 stock options issued to Mr. Nickolas before 2016 will automatically expire 90 days from October 6, 2017, the date Mr. Nickolas ceased being a director of our company;
11. We agreed that Mr. Nickolas will have access to a reasonable amount of Alkaline88 water, not to exceed 30 cases at the time of pickup at our facility, for his personal consumption only at no cost while Mr. Nickolas is a direct stockholder of our company and Mr. Nickolas will be limited to an average of 20 cases per month for his personal consumption; and

12. The parties also agreed to mutual release of claims.

Our company was named as a defendant in a lawsuit filed on April 6, 2017, by Douglas Horn in the Maricopa County, Arizona, Superior Court, styled as “Horn v. The Alkaline Water Company, Inc., et al.,” cause number CV2017-005485. Mr. Horn sought damages arising out of the alleged breach of a written employment agreement between our company and Mr. Horn. Mr. Horn alleged that our company has failed to pay wages and to transfer stock allegedly owed to him under the terms of his employment agreement. Our company denied the allegations of the claims, and moved to dismiss pursuant to the terms of the employment agreement which require that all disputes be resolved by arbitration. In response, Mr. Horn filed a notice of dismissal of all claims in that court, without prejudice. On September 21, 2017, Mr. Horn filed a Demand for Arbitration with the American Arbitration Association, asserting the same claims. The claim has been assigned No. 01-17-0005-6474. Our company has responded, denying any liability to Mr. Horn. No date for arbitration has yet been set. Our company intends to defend the claim vigorously.

Except as detailed above, we know of no material pending legal proceedings to which our company or any of our subsidiaries is a party or of which any of our properties, or the properties of any of our subsidiaries, is the subject. In addition, we do not know of any such proceedings contemplated by any governmental authorities.

Except as detailed above, we know of no material proceedings in which any of our directors, officers or affiliates, or any registered or beneficial stockholder is a party adverse to our company or any of our subsidiaries or has a material interest adverse to our company or any of our subsidiaries.
