NETFLIX, INC.

Notes to Consolidated Financial Statements  
(unaudited)

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying consolidated interim financial statements of Netflix, Inc. and its wholly owned subsidiaries (the “Company”) have been prepared in conformity with accounting principles generally accepted in the United States (“U.S.”) and are consistent in all material respects with those applied in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission (the “SEC”) on February 3, 2014. The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Significant items subject to such estimates and assumptions include the amortization policy for the streaming content library; the recognition and measurement of income tax assets and liabilities; and the valuation of stock-based compensation. The Company bases its estimates on historical experience and on various other assumptions that the Company believes to be reasonable under the circumstances. On a regular basis, the Company evaluates the assumptions, judgments and estimates. Actual results may differ from these estimates.

The interim financial information is unaudited, but reflects all normal recurring adjustments that are, in the opinion of management, necessary to fairly present the information set forth herein. The interim financial statements should be read in conjunction with the audited financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. Interim results are not necessarily indicative of the results for a full year.

The Company is organized into three operating segments: Domestic streaming, International streaming and Domestic DVD. A majority of the Company’s revenues are generated in the United States, and substantially all of the Company’s long-lived tangible assets are held in the United States. The Company’s revenues are derived from monthly membership fees.

There have been no material changes in the Company’s significant accounting policies as compared to the significant accounting policies described in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606) which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. It is effective for annual reporting periods beginning after December 15, 2016. Early adoption is not permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently in the process of evaluating the impact of adoption of the ASU on its consolidated financial statements, but does not expect the impact to be material.

2. Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation in the consolidated financial statements.

Costs of revenues in the amount of \$7.9 million and \$25.1 million for the three and nine months ended September 30, 2013, respectively, related to free-trial periods that were previously allocated to “Marketing” on the Consolidated Statements of Operations have been reallocated to “Cost of revenues”. There was no impact in any period presented to contribution profit or net income or to the Consolidated Balance Sheets or Consolidated Statements of Cash Flows.

3. Earnings Per Share

Basic earnings per share is computed using the weighted-average number of outstanding shares of common stock during the period. Diluted earnings per share is computed using the weighted-average number of outstanding shares of

common stock and, when dilutive, potential common shares outstanding during the period. Potential common shares consist of shares issuable upon the assumed conversion of the Company's Senior Convertible Notes (prior to the conversion of such notes in April 2013) and incremental shares issuable upon the assumed exercise of stock options. The computation of earnings per share is as follows:

| Weighted-average common shares outstanding            | 60,171                                      | 59,108    | 59,996                                     | 57,769    |
| Senior Convertible Notes shares                       | —   | —         | —  | 956       |
| Employee stock options                                | 1,649                                       | 1,882     | 1,673                                      | 1,853     |
| Weighted-average number of shares                     | 61,820                                      | 60,990    | 61,669                                     | 60,578    |
| Diluted earnings per share                            | \$0.96                                      | \$ 0.52   | \$2.97                                     | \$ 1.06   |

Employee stock options with exercise prices greater than the average market price of the common stock were excluded from the diluted calculation as their inclusion would have been anti-dilutive. The following table summarizes the potential common shares excluded from the diluted calculation:

|                        | Three Months Ended<br>September 30,<br>2014 |    | Nine Months Ended<br>September 30,<br>2013 |     |

| Employee stock options | 53  | 12 | 64   | 260 |

#### 4. Short-term Investments

The Company's investment policy is consistent with the definition of available-for-sale securities. The Company does not buy and hold securities principally for the purpose of selling them in the near future. The Company's policy is focused on the preservation of capital, liquidity and return. From time to time, the Company may sell certain securities but the objectives are generally not to generate profits on short-term differences in price. The following tables summarize, by major security type, the Company's assets that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy:

| Agency securities                            | 17,951                   | —                            | (2)                           | ) 17,949                |
| Total (2)                                    | \$1,204,938              | \$1,761                      | \$(1,092)                     | ) \$1,205,607           |

Includes \$1,183.2 million that is included in cash and cash equivalents, \$483.6 million included in short-term (1) investments and \$5.7 million of restricted cash that is included in other non-current assets related primarily to workers compensation deposits.

Includes \$605.0 million that is included in cash and cash equivalents, \$595.4 million included in short-term (2) investments and \$5.2 million of restricted cash that is included in other non-current assets related to workers compensation deposits.

Fair value is a market-based measurement that is determined based on the assumptions that market participants would use in pricing an asset or liability. The hierarchy level assigned to each security in the Company's available-for-sale portfolio and cash equivalents is based on its assessment of the transparency and reliability of the inputs used in the valuation of such instrument at the measurement date. The fair value of available-for-sale securities and cash equivalents included in the Level 1 category is based on quoted prices that are readily and regularly available in an active market. The fair value of available-for-sale securities included in the Level 2 category is based on observable inputs, such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly. These values were obtained from an independent pricing service and were evaluated using pricing models that vary by asset class and may incorporate available trade, bid and other market information and price quotes from well-established independent pricing vendors and broker-dealers. The

Company's procedures include controls to ensure that appropriate fair values are recorded, such as comparing prices obtained from multiple independent sources. See Note 6 to the consolidated financial statements for further information regarding the fair value of the Company's debt instruments.

There were no investments in a material unrealized loss position as of September 30, 2014 or December 31, 2013. There were no material other-than-temporary impairments or credit losses related to available-for-sale securities in the three and nine months ended September 30, 2014 and 2013. In addition, there were no material gross realized gains or losses in the three and nine months ended September 30, 2014 and 2013.

Table of Contents

The estimated fair value of short-term investments by contractual maturity as of September 30, 2014 is as follows:

|  | (in thousands) |
|--|----------------|
| Due within one year                    | \$ 112,361     |
| Due after one year and through 5 years | 371,241        |
| Total short-term investments           | \$ 483,602     |

## 6. Long-term Debt

## Senior Convertible Notes

In November 2011, the Company issued \$200.0 million aggregate principal amount of zero coupon Senior Convertible Notes due on December 1, 2018 (the "Convertible Notes") in a private placement offering to TCV VII, L.P., TCV VII(A), L.P. and TCV Member Fund, L.P. A general partner of these funds also serves on the Company's Board of Directors, and as such, the issuance of the notes was considered a related party transaction. At any time following May 28, 2012, the Company could have elected to cause the conversion of the Convertible Notes into shares of the Company's common stock when specified conditions were satisfied, including that the daily volume weighted-average price of the Company's common stock was equal to or greater than \$111.54 for at least 50 trading days during a 65 trading day period prior to the conversion date.

In April 2013, after all specified conditions were satisfied, the Company elected to cause the conversion of all outstanding Convertible Notes with an aggregate principal amount of \$200.0 million in accordance with the terms of the Indenture governing such notes. Pursuant to

10

---

## Table of Contents

this conversion, the Company issued 2.3 million shares of common stock to the holders of the Convertible Notes at a conversion ratio of 11.6553. The fair market value of one share of common stock on the date of conversion was \$216.99 per share.

### 5.375% Senior Notes

In February 2013, the Company issued \$500.0 million aggregate principal amount of 5.375% Senior Notes due 2021 (the "5.375% Notes"). The 5.375% Notes were issued at par and are senior unsecured obligations of the Company. Interest is payable semi-annually at a rate of 5.375% per annum on February 1 and August 1 of each year, commencing on August 1, 2013. The 5.375% Notes are repayable in whole or in part upon the occurrence of a change of control, at the option of the holders, at a purchase price in cash equal to 101% of the principal plus accrued interest. The Company may redeem the 5.375% Notes prior to maturity in whole or in part at an amount equal to the principal amount thereof plus accrued and unpaid interest plus a make-whole payment equivalent to the present value of the remaining interest payments through maturity.

The 5.375% Notes include, among other terms and conditions, limitations on the Company's ability to create, incur or allow certain liens; enter into sale and lease-back transactions; create, assume, incur or guarantee additional indebtedness of the Company's subsidiaries; and consolidate or merge with, or convey, transfer or lease all or substantially all of the Company's and its subsidiaries assets, to another person. At September 30, 2014 and December 31, 2013, the Company was in compliance with these covenants.

In the first quarter of 2013, the Company used \$224.5 million of the net proceeds of the 5.375% Notes to redeem the outstanding \$200.0 million aggregate principal amount of 8.50% Senior Notes due 2017 (the "8.50% Notes") and pursuant to the make-whole provision in the Indenture governing the 8.50% Notes, paid a \$19.4 million premium and \$5.1 million of accrued and unpaid interest. The Company recognized a loss on extinguishment of debt of \$25.1 million related to redemption of the 8.50% Notes which included the write off of unamortized debt issuance costs of \$4.2 million.

Based on quoted market prices in less active markets (a Level 2 input for this financial instrument), the fair value of the 5.375% Notes as of September 30, 2014 and December 31, 2013 was \$510.0 million and \$506.3 million, respectively.

### 5.750% Senior Notes

In February 2014, the Company issued \$400.0 million aggregate principal amount of 5.750% Senior Notes due 2024 (the "5.750% Notes"). The 5.750% Notes were issued at par and are senior unsecured obligations of the Company. Interest is payable semi-annually at a rate of 5.750% per annum on March 1 and September 1 of each year, commencing on September 1, 2014. The 5.750% Notes are repayable in whole or in part upon the occurrence of a change of control, at the option of the holders, at a purchase price in cash equal to 101% of the principal plus accrued interest. The Company may redeem the 5.750% Notes prior to maturity in whole or in part at an amount equal to the principal amount thereof plus accrued and unpaid interest plus a make-whole payment equivalent to the present value of the remaining interest payments through maturity.

The 5.750% Notes include, among other terms and conditions, limitations on the Company's ability to create, incur or allow certain liens; enter into sale and lease-back transactions; create, assume, incur or guarantee additional indebtedness of the Company's subsidiaries; and consolidate or merge with, or convey, transfer or lease all or substantially all of the Company's and its subsidiaries assets, to another person. At September 30, 2014, the Company was in compliance with these covenants.

Based on quoted market prices in less active markets (a Level 2 input for this financial instrument), the fair value of the 5.750% Notes as of September 30, 2014 was \$412.0 million.

## 7. Stockholders' Equity

### Stock Option Plan

In June 2011, the Company adopted the 2011 Stock Plan. The 2011 Stock Plan provides for the grant of incentive stock options to employees and for the grant of non-statutory stock options, stock appreciation rights, restricted stock

and restricted stock units to employees, directors and consultants. As of September 30, 2014, 3.0 million shares were reserved for future grants under the 2011 Stock Plan.

Table of Contents

A summary of the activities related to the Company's stock option plans is as follows:

|  | Options Outstanding        |                  |                                 | Weighted-Average Remaining Contractual Term (in Years) | Aggregate Intrinsic Value (in Thousands) |
|--|----------------------------|------------------|---------------------------------|--|--|
|  | Shares Available for Grant | Number of Shares | Weighted-Average Exercise Price |  |  |
| Balances as of December 31, 2013             | 3,406,317                  | 3,526,898        | \$ 95.25                        |  |  |
| Granted                                      | (391,239 )                 | 391,239          | 409.70                          |  |  |
| Exercised                                    |                            | (639,378 )       | 88.82                           |  |  |
| Balances as of September 30, 2014            | 3,015,078                  | 3,278,759        | 134.02                          | 5.97   | \$ 1,041,797                             |
| Vested and exercisable at September 30, 2014 |                            | 3,278,759        | 134.02                          | 5.97   | \$ 1,041,797                             |

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the third quarter of 2014 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on the last trading day of the third quarter of 2014. This amount changes based on the fair market value of the Company's common stock. The total intrinsic value of options exercised for the three months ended September 30, 2014 and 2013 was \$60.3 million and \$64.5 million, respectively. The total intrinsic value of options exercised for the nine months ended September 30, 2014 and 2013 was \$208.0 million and \$182.8 million, respectively.

Cash received from option exercises for the three months ended September 30, 2014 and 2013 was \$9.9 million and \$25.6 million, respectively. Cash received from option exercises for the nine months ended September 30, 2014 and 2013 was \$56.8 million and \$93.6 million, respectively.

**Stock-Based Compensation**

The following table summarizes the assumptions used to value stock option grants using the lattice-binomial model:

|                            | Three Months Ended |                    | Nine Months Ended  |                    |
|----------------------------|--------------------|--------------------|--------------------|--------------------|
|                            | September 30, 2014 | September 30, 2013 | September 30, 2014 | September 30, 2013 |
| Dividend yield             | —                  | % —                | % —                | % —                |
| Expected volatility        | 43                 | % 51               | % 43% - 48%        | 51% - 54%          |
| Risk-free interest rate    | 2.52               | % 2.55             | % 2.52% - 2.83%    | 1.87% - 2.55%      |
| Suboptimal exercise factor | 2.68 - 4.57        | 2.43 - 3.79        | 2.66 - 4.57        | 2.33 - 3.79        |

The Company bifurcates its option grants into two employee groupings (executive and non-executive) and considers several factors, including the historical option exercise behavior, in determining the suboptimal exercise factor.

The weighted-average fair value of employee stock options granted during the three months ended September 30, 2014 and 2013 was \$236.96 and \$136.78 per share, respectively. The weighted-average fair value of employee stock options granted during the nine months ended September 30, 2014 and 2013 was \$217.23 and \$100.08 per share, respectively.

Stock-based compensation expense related to stock option plans was \$29.9 million and \$18.5 million for the three months ended September 30, 2014 and 2013, respectively. Stock-based compensation expense related to stock option plans was \$85.0 million and \$54.2 million for the nine months ended September 30, 2014 and 2013, respectively. The total income tax benefit recognized in the income statement related to stock option plans was \$11.4 million and \$7.1 million for the three months ended September 30, 2014 and 2013, respectively. The total income tax benefit recognized in the income statement related to stock option plans was \$32.5 million and \$20.8 million for the nine months ended September 30, 2014 and 2013, respectively.

Table of Contents

## 8. Accumulated Other Comprehensive Income

The following tables summarize the changes in accumulated balances of other comprehensive income, net of tax, for the three and nine months ended September 30, 2014:

|  | Foreign<br>currency | Change in<br>unrealized gains<br>on<br>available-for-sale<br>securities | Total    |
|--|---------------------|---|----------|
|  | (in thousands)      |   |          |
| Balance as of June 30, 2014                                      | \$5,532             | \$ 970  | \$6,502  |
| Other comprehensive income before reclassifications              | (4,354 )            | (191 )  | (4,545 ) |
| Amounts reclassified from accumulated other comprehensive income | —                   | (312 )  | (312 )   |
| Net increase in other comprehensive income                       | (4,354 )            | (503 )  | (4,857 ) |
| Balance as of September 30, 2014                                 | \$1,178             | \$ 467  | \$1,645  |

|  | Foreign<br>currency | Change in<br>unrealized gains<br>on<br>available-for-sale<br>securities | Total    |
|--|---------------------|---|----------|
|  | (in thousands)      |   |          |
| Balance as of December 31, 2013                                  | \$3,153             | \$ 422  | \$3,575  |
| Other comprehensive income before reclassifications              | (1,975 )            | 607 )   | (1,368 ) |
| Amounts reclassified from accumulated other comprehensive income | —                   | (562 )  | (562 )   |
| Net increase in other comprehensive income                       | (1,975 )            | 45 )  | (1,930 ) |
| Balance as of September 30, 2014                                 | \$1,178             | \$ 467  | \$1,645  |

All amounts reclassified from accumulated other comprehensive income were related to realized gains on available-for-sale securities. These reclassifications impacted "Interest and other income (expense)" on the Consolidated Statements of Operations.

## 9. Income Taxes

The effective tax rates for the three months ended September 30, 2014 and 2013 were 39% and 36%, respectively. The effective tax rates for the nine months ended September 30, 2014 and 2013 were 40% and 34%, respectively. The effective tax rates for the three and nine months ended September 30, 2014 differed from the federal statutory rate primarily due to state taxes and foreign taxes, partially offset by the California R&D credit. The effective tax rates for the three and nine months ended September 30, 2013 differed from the federal statutory rate primarily due to state taxes and foreign taxes, offset by the Federal and California R&D credits and a discrete benefit recorded for the 2012 Federal R&D credit. On January 2, 2013, the American Taxpayer Relief Act of 2012 (H.R. 8) was signed into law which retroactively extended the Federal R&D credit from January 1, 2012 through December 31, 2013. As a result, the Company recognized the retroactive benefit of the 2012 Federal R&D credit of approximately \$3.1 million as a discrete item in the first quarter of 2013, the period in which the legislation was enacted.

The increase in the Company's effective tax rates for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013 was primarily attributable to the expiration of the Federal R&D tax credit on December 31, 2013. The increase in the Company's effective tax rates for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013 was primarily attributable to the expiration of the Federal R&D tax credit on December 31, 2013 and from the discrete item recorded in the first quarter of 2013 related to the

retroactive benefit of the 2012 Federal R&D credit.

Gross unrecognized tax benefits were \$83.1 million and \$68.2 million as of September 30, 2014 and December 31, 2013, respectively. The gross unrecognized tax benefits, if recognized by the Company, will result in a reduction of approximately \$68.6 million to the provision for income taxes thereby favorably impacting the Company's effective tax rate. The Company's unrecognized tax benefits are classified as "Other non-current liabilities" on the Consolidated Balance Sheets. The Company includes interest and penalties related to unrecognized tax benefits within the "Provision for income taxes" on the Consolidated Statements of Operations. As of September 30, 2014, the total amount of gross interest and penalties accrued was \$4.6 million, and is classified as "Other non-current liabilities" on the Consolidated Balance Sheets.

Deferred tax assets include \$14.9 million and \$21.5 million classified as "Other current assets" and \$113.2 million and \$69.1 million classified as "Other non-current assets" on the Consolidated Balance Sheets as of September 30, 2014 and December 31, 2013, respectively. In evaluating its ability to realize the net deferred tax assets, the Company considered all available positive and negative evidence, including its past operating results and the forecast of future market growth, forecasted earnings, future taxable income, and prudent and feasible tax

Table of Contents

planning strategies. As of September 30, 2014 and December 31, 2013, it was considered more likely than not that substantially all deferred tax assets would be realized, and no significant valuation allowance was recorded. Income tax benefits attributable to the exercise of employee stock options of \$21.0 million and \$19.7 million, during the three months ended September 30, 2014 and 2013, respectively, were recorded directly to "Additional paid-in capital" on the Consolidated Balance Sheets. Income tax benefits attributable to the exercise of employee stock options of \$68.1 million and \$51.1 million, during the nine months ended September 30, 2014 and 2013, respectively, were recorded directly to "Additional paid-in capital" on the Consolidated Balance Sheets.

The Company files U.S. federal, state and foreign tax returns. The Company is currently under examination by the IRS for the years 2008 through 2011. The IRS has completed its Field Exam of the 2008 and 2009 federal tax returns and has issued a Revenue Agent Report with a proposed assessment primarily related to the Company's R&D Credits claimed in those years. The Company has filed a protest against the proposed assessment and is currently in the midst of the IRS Appeals process. The IRS Field Exam of the 2010 and 2011 federal tax returns is in process. The 2012 and 2013 federal tax returns remain subject to examination by the IRS.

The Company is also currently under examination by the state of California for the years 2006 and 2007. California has completed its Field Exam of the 2006 and 2007 California tax returns and has issued a Notice of Proposed Assessment primarily related to the Company's R&D Credits claimed in those years. The Company has filed a protest against the proposed assessment and is currently awaiting the commencement of the Protest process with the Franchise Tax Board. The years 1997 through 2005, as well as 2008 through 2012, remain subject to examination by the state of California.

The Company is currently not under examination in any foreign jurisdiction. The years 2011 through 2013 remain subject to examination by foreign jurisdictions.

Given the potential outcome of the current examinations, as well as the impact of the current examination on the potential expiration of the statute of limitations, it is reasonably possible that the balance of unrecognized tax benefits could significantly change within the next twelve months. However, at this time, an estimate of the range of reasonably possible adjustments to the balance of unrecognized tax benefits cannot be made.

## 10. Commitments and Contingencies

### Streaming Content

At September 30, 2014, the Company had \$8.9 billion of obligations comprised of \$2.1 billion included in "Current content liabilities" and \$1.5 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and \$5.3 billion of obligations that are not reflected on the Consolidated Balance Sheets.

At December 31, 2013, the Company had \$7.3 billion of obligations comprised of \$1.8 billion included in "Current content liabilities" and \$1.3 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and \$4.2 billion of obligations that are not reflected on the Consolidated Balance Sheets.

The expected timing of payments for these streaming content obligations is as follows:

|  | As of          |              |
|--|----------------|--------------|
|  | September 30,  | December 31, |
|  | 2014           | 2013         |
|  | (in thousands) |              |
| Less than one year                     | \$3,574,129    | \$ 2,972,325 |
| Due after one year and through 3 years | 4,176,621      | 3,266,907    |
| Due after 3 years and through 5 years  | 1,071,238      | 929,645      |
| Due after 5 years                      | 35,239         | 83,284       |
| Total streaming content obligations    | \$8,857,227    | \$ 7,252,161 |

A streaming content obligation is incurred at the time the Company enters into an agreement to obtain future titles. Once a title becomes available, a content liability is generally recorded on the Consolidated Balance Sheets. Certain

agreements include the obligation to license rights for unknown future titles, the ultimate quantity and / or fees for which are not yet determinable as of the reporting date. Because the amount is not reasonably estimable, the Company does not include any estimated obligation for these future titles beyond the known minimum amount. However, the unknown obligations are expected to be significant and the expected timing of payments could range from less than one year to more than five years.

The Company has entered into certain licenses with performing rights organizations ("PROs"), and is currently involved in negotiations with other PROs, that hold certain rights to music and other entertainment works "publicly performed" in connection with streaming content into various territories. Accruals for estimated license fees are recorded and then adjusted based on any change in estimates. These amounts

## Table of Contents

are included in the streaming content obligations. The results of these negotiations are uncertain and may be materially different from management's estimates.

### Legal Proceedings

From time to time, in the normal course of its operations, the Company is subject to litigation matters and claims, including claims relating to employee relations, business practices and patent infringement. Litigation can be expensive and disruptive to normal business operations. Moreover, the results of complex legal proceedings are difficult to predict and the Company's view of these matters may change in the future as the litigation and events related thereto unfold. The Company expenses legal fees as incurred. The Company records a provision for contingent losses when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. An unfavorable outcome to any legal matter, if material, could have an adverse effect on the Company's operations or its financial position, liquidity or results of operations.

On January 13, 2012, the first of three purported shareholder class action lawsuits was filed in the United States District Court for the Northern District of California against the Company and certain of its officers and directors. Two additional purported shareholder class action lawsuits were filed in the same court on January 27, 2012 and February 29, 2012 alleging substantially similar claims. These lawsuits were consolidated into *In re Netflix, Inc., Securities Litigation*, Case No. 3:12-cv-00225-SC, and the Court selected lead plaintiffs. On June 26, 2012, lead plaintiffs filed a consolidated complaint which alleged violations of the federal securities laws. The Court dismissed the consolidated complaint with leave to amend on February 13, 2013. Lead plaintiffs filed a first amended consolidated complaint on March 22, 2013. The Court dismissed the first amended consolidated complaint with prejudice on August 20, 2013, and judgment was entered on September 27, 2013. Lead plaintiffs filed a motion to alter or amend the judgment and requested leave to file a second amended complaint on October 25, 2013. On January 17, 2014, the Court denied that motion. On February 18, 2014, lead plaintiffs appealed that decision to the United States Court of Appeals for the Ninth Circuit. Management has determined a potential loss is reasonably possible however, based on its current knowledge, management does not believe that the amount of such possible loss or a range of potential loss is reasonably estimable.

On November 23, 2011, the first of six purported shareholder derivative suits was filed in the Superior Court of California, Santa Clara County, against the Company and certain of its officers and directors. Five additional purported shareholder derivative suits were subsequently filed: two in the Superior Court of California, Santa Clara County on February 9, 2012 and May 2, 2012; and three in the United States District Court for the Northern District of California on February 13, 2012, February 24, 2012 and April 2, 2012. The purported shareholder derivative suits filed in the Northern District of California have been voluntarily dismissed. On July 5, 2012, the purported shareholder derivative suits filed in Santa Clara County were consolidated into *In re Netflix, Inc. Shareholder Derivative Litigation*, Case No. 1-12-cv-218399, and lead counsel was appointed. A consolidated complaint was filed on December 4, 2012, with plaintiffs seeking compensatory damages and other relief. The consolidated complaint alleges, among other things, that certain of the Company's current and former officers and directors breached their fiduciary duties, issued false and misleading statements primarily regarding the Company's streaming business, violated accounting rules concerning segment reporting, violated provisions of the California Corporations Code, and wasted corporate assets. The consolidated complaint further alleges that the defendants caused the Company to buy back stock at artificially inflated prices to the detriment of the Company and its shareholders while contemporaneously selling personally held Company stock. The Company filed a demurrer to the consolidated complaint and a motion to stay the derivative litigation in favor of the related federal securities class action on February 4, 2013. On June 21, 2013, the Court granted the motion to stay the derivative litigation pending resolution of the related federal securities class action. Management has determined a potential loss is reasonably possible however, based on its current knowledge, management does not believe that the amount of such possible loss or a range of potential loss is reasonably estimable.

The Company is involved in other litigation matters not listed above but does not consider the matters to be material either individually or in the aggregate at this time. The Company's view of the matters not listed may change in the future as the litigation and events related thereto unfold.

#### Indemnification

In the ordinary course of business, the Company has entered into contractual arrangements under which it has agreed to provide indemnification of varying scope and terms to business partners and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of such agreements and out of intellectual property infringement claims made by third parties. In these circumstances, payment may be conditional on the other party making a claim pursuant to the procedures specified in the particular contract.

The Company's obligations under these agreements may be limited in terms of time or amount, and in some instances, the Company may have recourse against third parties for certain payments. In addition, the Company has entered into indemnification agreements with its directors and certain of its officers that will require it, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors or officers. The terms of such obligations vary.

It is not possible to make a reasonable estimate of the maximum potential amount of future payments under these or similar agreements due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. No amount has been accrued in the accompanying consolidated financial statements with respect to these indemnification obligations.

Table of Contents

## 11. Segment Information

The Company has three reportable operating segments: Domestic streaming, International streaming and Domestic DVD. Segment information is presented along the same lines that the Company's chief operating decision maker reviews the operating results in assessing performance and allocating resources. The Company's chief operating decision maker reviews revenues and contribution profit (loss) for each of the reportable segments. Contribution profit (loss) is defined as revenues less cost of revenues and marketing expenses directly incurred by the segment.

The Domestic and International streaming segments derive revenues from monthly membership fees for services consisting solely of streaming content. The Domestic DVD segment derives revenues from monthly membership fees for services consisting solely of DVD-by-mail. Revenues and the related payment card fees are attributed to the operating segment based on the nature of the underlying membership (streaming or DVD) and the geographic region from which the membership originates. There are no internal revenue transactions between the Company's reporting segments.

Cost of revenues are primarily attributed to the operating segment based on the amounts directly incurred by the segment to obtain content and deliver it to the specific region. Marketing expenses are primarily comprised of advertising expenses which are generally included in the segment in which the expenditures are directly incurred.

The Company's long-lived tangible assets were located as follows:

|               | As of              |                   |
|---------------|--------------------|-------------------|
|               | September 30, 2014 | December 31, 2013 |
| United States | \$ 131,839         | \$ 126,455        |
| International | 12,308             | 7,150             |

Table of Contents

The following tables represent segment information for the quarter ended September 30, 2014:

|                                    | As of/ Three months ended September 30, 2014 |                         |              |              |

A membership (also referred to as a subscription) is defined as the right to receive either the Netflix streaming service or Netflix DVD service. Memberships are assigned to territories based on the geographic location used at time of sign up as determined by the Company's internal systems, which utilize industry standard geo-location technology. The Company offers free-trial memberships to new and certain rejoining members. For inclusion in the (1) definition of a member in the above metrics, a method of payment is required to be provided even during the free-trial period. Total members therefore include those who are on a free-trial and have provided a method of payment. A membership is canceled and ceases to be reflected in the above metrics as of the effective cancellation date. Voluntary cancellations become effective at the end of the prepaid membership period, while involuntary cancellation of the service, as a result of a failed method of payment, becomes effective immediately.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements include, but are not limited to statements regarding: our core strategy; the impact of new accounting standards; investments in marketing and content, including original content; international expansion and investments related thereto; cash use in connection with content acquisitions and licensing and international expansion; contribution margin and free cash flow trends; deferred tax assets; accessing and obtaining additional capital and future contractual obligations. These forward-looking statements are subject to risks and uncertainties that could cause actual results and events to differ materially from those included in forward-looking statements. These forward-looking statements can be identified by our use of words such as "anticipate," "expect," "will," "may" and derivations thereof. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission ("SEC") on February 3, 2014, in particular the risk factors discussed under the heading "Risk Factors" in Part I, Item IA.

We assume no obligation to revise or publicly release any revision to any forward-looking statements contained in this Quarterly Report on Form 10-Q, unless required by law.

Investors and others should note that we announce material financial information to our investors using our investor relations website (<http://ir.netflix.com>), SEC filings, press releases, public conference calls and webcasts. We use these channels, as well as social media, to communicate with our members and the public about our company, our services and other issues. It is possible that the information we post on social media could be deemed to be material information. Therefore, we encourage investors, the media, and others interested in our company to review the information we post on the United States ("U.S.") social media channels listed on our investor relations website.

## Overview

We are the world's leading Internet television network with over 53 million members in nearly 50 countries enjoying more than two billion hours of TV shows and movies per month, including original series. Our members can watch as much as they want, anytime, anywhere, on nearly any Internet-connected screen. Members can play, pause and resume watching, all without commercials or commitments. Additionally, in the U.S., our members can receive DVDs delivered quickly to their homes.

We are a pioneer in the Internet delivery of TV shows and movies, launching our streaming service in 2007. Since this launch, we have developed an ecosystem for Internet-connected screens and have licensed and acquired increasing amounts of content that enable consumers to enjoy TV shows and movies directly on their TVs, computers and mobile devices. As a result of these efforts, we have experienced growing consumer acceptance of, and interest in, the delivery of TV shows and movies directly over the Internet. Historically, our acquisition of new members has been seasonal with the first and fourth quarters representing our strongest net member additions and our second quarter representing the lowest net member additions in a calendar year.

Our core strategy is to grow our streaming membership business domestically and internationally, within the parameters of our consolidated net income and operating segment contribution profit (loss) targets. We are continuously improving our members' experience by expanding our streaming content with a focus on a programming mix of content that delights our members. We are continually enhancing our user interface and extending our streaming service to even more Internet-connected screens.

## Results of Operations

The following represents our consolidated performance highlights:

|  | Three Months Ended | Change |
|--|--------------------|--------|
|--|--------------------|--------|

Edgar Filing: NETFLIX INC - Form 10-Q

|------------------|------------------------------------|-----------------------|--------------------|---|
|                  | (in thousands, except percentages) |                       |                    |   |
| Revenues         | \$1,409,432                        | \$ 1,105,999          | 27                 | % |
| Operating income | 110,407                            | 57,120                | 93                 | % |
| Net income       | 59,295                             | 31,822                | 86                 | % |

In the second quarter of 2014, we increased the domestic streaming membership fee from \$7.99 to \$8.99 per month for new members who choose our most popular streaming plan, which includes access to high definition quality streaming on two screens concurrently. Current members were grandfathered in at \$7.99 per month for this plan for two years, as long as they remain a member. We also introduced a new membership plan priced at \$7.99 per month which offers standard definition quality streaming on a single screen at a time. In the second quarter of 2013, we introduced membership plans priced at \$11.99 per month under which members can stream high definition quality content on four screens concurrently. Internationally, we rolled out similar changes in pricing and plan offerings.

## Table of Contents

Consolidated revenues for the three months ended September 30, 2014 increased \$303.4 million as compared to the three months ended September 30, 2013 due to growth in streaming members, both internationally and domestically. Operating income and net income increased \$53.3 million and \$27.5 million, respectively, due to the increase in revenues, partially offset by the increase in the cost of revenues due to increased content expenses relating to our existing and new streaming content.

The following represents the key elements to our segment results of operations:

We define contribution profit as revenues less cost of revenues and marketing expenses. We believe this is an important measure of our operating segment performance as it represents each segment's performance before global corporate costs.

For the Domestic and International streaming segments, content expenses, which include the amortization of the streaming content library and other expenses associated with the licensing and acquisition of streaming content, represent the vast majority of cost of revenues. Streaming content rights are generally specific to a geographic region and accordingly our international expansion will require us to obtain additional streaming content to support new international markets. Other cost of revenues such as streaming delivery expenses, customer service and payment processing fees tend to be lower as a percentage of total cost of revenues as compared to content licensing expenses. We utilize both our own and third-party content delivery networks to help us efficiently stream a high volume of content to our members over the Internet. Streaming delivery expenses, therefore, also include equipment costs related to our content delivery network ("Open Connect") and all third-party costs associated with delivering streaming content over the Internet. Cost of revenues in the Domestic DVD segment consist primarily of delivery expenses, content expenses, including amortization of DVD content library and revenue sharing expenses, and other expenses associated with our DVD processing and customer service centers. Delivery expenses for the Domestic DVD segment consist of the postage costs to mail DVDs to and from our members and the packaging and label costs for the mailers.

For the Domestic and International streaming segments, marketing expenses consist primarily of advertising expenses and payments made to our affiliates and device partners. Advertising expenses include promotional activities such as television and online advertising. Payments to our affiliates and device partners include fixed fee and /or revenue sharing payments. Marketing expenses are primarily incurred by our Domestic and International streaming segments given our focus on building consumer awareness of the streaming offerings. Marketing expenses incurred by our International streaming segment have been significant and will fluctuate dependent upon the number of International territories in which our streaming service is offered and the timing of the launch of new territories. Marketing expenses are immaterial for the Domestic DVD segment.

We have demonstrated our ability to grow domestic contribution margin as evidenced by the increase in contribution margin from 12% when we first began separately reporting Domestic streaming results in the fourth quarter of 2011 to 29% in the third quarter of 2014. As a result of our focus on growing the streaming segments, contribution margins for the Domestic and International streaming segments are lower than for our Domestic DVD segment. Investments in content and marketing associated with the International streaming segment will continue to fluctuate dependent upon the number of international territories in which our streaming service is offered and the timing of the launch of new territories.

As we grow our streaming segments, we continue to shift spending away from the Domestic DVD segment to invest more in streaming content and marketing for our streaming services.

| Contribution profit                       | 250,854  | 166,481               | 51                 | %  |
| Contribution margin                       | 29   | % 24                  |                    | %  |

In the Domestic streaming segment, we derive revenues from monthly membership fees for services consisting solely of streaming content offered through a membership plan. The \$176.1 million increase in our domestic streaming revenues was primarily due to the 22% growth in the average number of paid memberships as well as to the 3% increase in average monthly revenue per paying member resulting from our price increase and introduction of higher priced plans. Our two screen high definition plan continues to be the most popular plan choice for new members. The \$91.3 million increase in domestic streaming cost of revenues was primarily due to the \$71.2 million increase in content expenses relating to our existing and new streaming content, including more exclusive and original programming. In addition, streaming delivery expenses increased by \$12.8 million and other costs, such as payment processing fees and customer service call centers, increased \$7.3 million due to our growing member base. Marketing expenses were flat for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013.

Our Domestic streaming segment had a contribution margin of 29% for the three months ended September 30, 2014, which increased as compared to the contribution margin of 24% for the three months ended September 30, 2013. Growth in paid memberships and revenue continued to outpace content and marketing spending, resulting in the expansion of Domestic streaming contribution margin of approximately 500 basis points. We expect to grow contribution margins an average of 200 basis points per year beginning some time next year.

| Revenues                                  | \$2,513,992   | \$2,010,821        | 25                              | %  |
| Cost of revenues                          | 1,628,568   | 1,366,897          | 19                              | %  |
| Marketing                                 | 206,030   | 194,779            | 6                               | %  |
| Contribution profit                       | 679,394   | 449,145            | 51                              | %  |
| Contribution margin                       | 27  | % 22               |                                 | %  |

The \$503.2 million increase in our domestic streaming revenues was due to the 23% growth in the average number of paid memberships as well as to the 2% increase in the average monthly revenue per paying member resulting from our price increase and introduction of higher priced plan.

The \$261.7 million increase in domestic streaming cost of revenues was primarily due to the \$188.7 million increase in content expenses relating to our existing and new streaming content, including more exclusive and original programming. In addition, streaming delivery expenses increased by \$45.2 million and other costs, such as payment processing fees and customer service call centers, increased \$27.8 million due to our growing member base.

Marketing expenses increased \$11.3 million primarily due to an increase in advertising and public relations spending. Our Domestic streaming segment had a contribution margin of 27% for the nine months ended September 30, 2014, which increased as compared to the contribution margin of 22% for the nine months ended September 30, 2013, as a result of growing memberships and revenue faster than content and marketing spending.

Table of Contents

In the International streaming segment, we derive revenues from monthly membership fees for services consisting solely of streaming content offered through a membership plan. We launched our streaming service in Canada in September 2010 and have continuously expanded our services internationally with launches in Latin America in September 2011, the U.K. and Ireland in January 2012, Finland, Denmark, Sweden and Norway in October 2012, the Netherlands in September 2013, and Germany, Austria, Switzerland, France, Belgium and Luxembourg in September 2014.

The \$162.6 million increase in our international revenues was primarily due to the 81% growth in the average number of paid international memberships as well as the 4% increase in average monthly revenue per paying member resulting from our price increase and introduction of higher priced plans. Average paid international streaming memberships account for 28% of total average paid streaming memberships as of September 30, 2014, as compared to 21% of total average paid streaming memberships as of September 30, 2013.

The \$82.1 million increase in international cost of revenues was primarily due to a \$66.4 million increase in content expenses relating to our existing and new streaming content, including more exclusive and original programming. Other costs increased \$15.7 million primarily due to increases in our streaming delivery expenses, costs associated with our customer service call centers and payment processing fees, all driven by our growing member base. International marketing expenses for the three months ended September 30, 2014 increased \$37.1 million as compared to the three months ended September 30, 2013 mainly due to expenses for territories launched in the last twelve months.

International contribution losses improved \$43.4 million for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013, as a result of growing memberships and revenues faster than content and marketing spending. Our International streaming segment does not benefit from the established member base that exists for the Domestic segments. As a result of having to build a member base from zero, investments in streaming content and marketing programs for our International segment are larger initially relative to revenues, in particular as new territories are launched. The contribution losses for our International segment have been significant due to investments in streaming content and marketing programs to drive membership growth and viewing in our international markets.

Nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013

|  | As of /Nine Months Ended<br>September 30,<br>2014 | September 30,<br>2013 | Change<br>YTD'14 vs.<br>YTD'13 |    |

The \$429.3 million increase in our international revenues was primarily due to the 85% growth in the average number of paid international memberships.

The \$242.8 million increase in international cost of revenues was primarily due to a \$201.7 million increase in content expenses relating to our existing and new streaming content, including more exclusive and original programming.

Other costs increased \$41.1 million primarily due to increases in our streaming delivery expenses, costs associated with our customer service call centers and payment processing fees, all driven by our growing member base. International marketing expenses for the nine months ended September 30, 2014 increased \$50.6 million as compared to the nine months ended September 30, 2013 mainly due to expenses for territories launched in the last twelve months.

International contribution losses improved \$135.9 million for the nine months ended September, 2014 as compared to the nine months ended September 30, 2013, as a result of growing memberships and revenues faster than content and marketing spending.

| Contribution margin                       | 48  | % 48      | %         |    |

In the Domestic DVD segment, we derive revenues from our DVD-by-mail membership services. The price per plan for DVD-by-mail varies from \$4.99 to \$43.99 per month according to the plan chosen by the member. DVD-by-mail plans differ by the number of DVDs that a member may have out at any given point. Members electing access to high definition Blu-ray discs, in addition to standard definition DVDs, pay a surcharge ranging from \$2 to \$4 per month for our most popular plans.

The \$35.3 million decrease in our domestic DVD revenues was due to a 16% decrease in the average number of paid memberships.

The \$17.9 million decrease in domestic DVD cost of revenues was primarily due to a \$3.3 million decrease in content expenses and a \$10.5 million decrease in delivery expenses resulting from a 21% decrease in the number of DVDs mailed to members. The decrease in shipments was driven by a decline in the number of DVD memberships coupled with a decrease in usage by these members. Other costs, primarily those associated with processing and customer service expenses, decreased \$4.1 million primarily due to a decrease in hub operation expenses resulting from the decline in DVD shipments.

Our Domestic DVD segment had a contribution margin of 48% for the three months ended September 30, 2014, and was flat as compared to the three months ended September 30, 2013.

Table of Contents

The \$111.9 million decrease in our domestic DVD revenues was due to a 16% decrease in the average number of paid memberships.

The \$62.6 million decrease in domestic DVD cost of revenues was primarily due to a \$14.2 million decrease in content expenses and a \$33.0 million decrease in delivery expenses resulting from a 21% decrease in the number of DVDs mailed to members. The decrease in shipments was driven by a decline in the number of DVD memberships coupled with a decrease in usage by these members. Other costs, primarily those associated with processing and customer service expenses, decreased \$15.4 million primarily due to a decrease in hub operation expenses resulting from the decline in DVD shipments.

Our Domestic DVD segment had a contribution margin of 48% for the nine months ended September 30, 2014, and was relatively flat as compared to the nine months ended September 30, 2013.

## Consolidated Operating Expenses

## Technology and Development

Technology and development expenses consist of payroll and related costs incurred in making improvements to our service offerings, including testing, maintaining and modifying our user interface, our recommendation, merchandising and streaming delivery technology, as well as our telecommunications systems and infrastructures. Technology and development expenses also include costs associated with computer hardware and software.

Three months ended September 30, 2014 as compared to the three months ended September 30, 2013

|                             | Three Months Ended<br>September 30, 2014 | September 30, 2013 | Change<br>September 30, Q3'14 vs.<br>Q3'13 |   |
|-----------------------------|--|--------------------|--|---|
|                             | (in thousands, except percentages)       |                    |  |   |
| Technology and development  | \$120,953                                | \$95,540           | 27   | % |
| As a percentage of revenues | 9  | % 9                | %  |   |

The \$25.4 million increase in technology and development expenses was primarily due to a \$22.5 million increase in personnel-related costs, including stock-based compensation expense, resulting from a 14% growth in average headcount supporting continued improvements in our streaming service and our international expansion.

Nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013

|                             | Nine Months Ended<br>September 30, 2014 | September 30, 2013 | Change<br>September 30, YTD'14 vs.<br>YTD'13 |   |

|                             | (in thousands, except percentages)      |                    |  |   |
| Technology and development  | \$346,445                               | \$280,641          | 23   | % |
| As a percentage of revenues | 9                                       | % 9                | %  |   |

The \$65.8 million increase in technology and development expenses was primarily due to a \$62.1 million increase in personnel-related costs, including stock-based compensation expense, resulting from an 11% growth in average headcount supporting continued improvements in our streaming service and our international expansion.

## General and Administrative

General and administrative expenses consist of payroll and related expenses for corporate personnel, as well as professional fees and other general corporate expenses. General and administrative expenses also include the gain on disposal of DVDs.

Table of Contents

| As a percentage of revenues | 5                  | % 4                | %                               |   |

General and administrative expenses increased \$59.8 million primarily due to a \$48.5 million increase in personnel-related costs, including stock-based compensation expense, resulting from a 34% increase in average headcount primarily to support our international expansion. In addition, there was an increase in legal costs for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013.

#### Interest Expense

Interest expense consists primarily of the interest associated with our outstanding long-term debt obligations, including the amortization of debt issuance costs, as well as interest on our lease financing obligations.

Three months ended September 30, 2014 as compared to the three months ended September 30, 2013

|                             | Three Months Ended |                    | Change                        |   |

Interest expense for the three and nine months ended September 30, 2014 primarily consisted of approximately \$12.6 million of interest accrued per quarter on our notes. The increase in interest expense for the three and nine months ended September 30, 2014 as compared the three and nine months ended September 30, 2013 was due primarily to the higher aggregate principal of interest bearing notes outstanding.

Table of Contents

## Interest and Other Income (Expense)

Interest and other income (expense) consists primarily of interest earned on cash, cash equivalents and short-term investments and foreign exchange gains and losses on foreign currency denominated balances.

Three months ended September 30, 2014 as compared to the three months ended September 30, 2013

|                                     | Three Months Ended<br>September 30,<br>2014 | September 30,<br>2013 | Change<br>September 30, Q3'14 vs.<br>Q3'13 |   |
|-------------------------------------|---|-----------------------|--|---|
| Interest and other income (expense) | \$616                                       | \$ (193               | ) 419                                      | % |

Nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013

|                                     | Nine Months Ended<br>September 30,<br>2014 | September 30,<br>2013 | Change<br>September 30, YTD'14 vs.<br>YTD'13 |   |
|-------------------------------------|--|-----------------------|--|---|
| Interest and other income (expense) | \$3,117                                    | \$ (2,156             | ) 245  | % |

Interest and other income (expense) increased for the three and nine months ended September 30, 2014 as compared to the three and nine months ended September 30, 2013 primarily due to a decrease in foreign exchange losses on foreign currency denominated balances.

## Extinguishment of Debt

In connection with the redemption of the outstanding \$200.0 million aggregate principal amount of the 8.50% Notes, we recognized a loss on extinguishment of debt of \$25.1 million in the three months ended March 31, 2013, which consisted of expenses associated with the redemption, including a \$19.4 million premium payment pursuant to the make-whole provision in the indenture governing the 8.50% Notes.

## Provision for Income Taxes

The effective tax rates for the three months ended September 30, 2014 and 2013 were 39% and 36%, respectively. The effective tax rates for the nine months ended September 30, 2014 and 2013 were 40% and 34%, respectively. The effective tax rates for the three and nine months ended September 30, 2014 differed from the federal statutory rate primarily due to state taxes and foreign taxes partially offset by the California R&D credit. The effective tax rates for the three and nine months ended September 30, 2013 differed from the federal statutory rate primarily due to state taxes and foreign taxes offset by the Federal and California R&D Credits and a discrete benefit recorded for the 2012 Federal R&D credit. On January 2, 2013, the American Taxpayer Relief Act of 2012 (H.R. 8) was signed into law which retroactively extended the Federal R&D credit from January 1, 2012 through December 31, 2013. As a result, we recognized the retroactive benefit of the 2012 Federal R&D credit of approximately \$3.1 million as a discrete item in the first quarter of 2013, the period in which the legislation was enacted.

The increase in our effective tax rates for the three months ended September 30, 2014 as compared to the three months ended September 30, 2013 was primarily attributable to the expiration of the Federal R&D tax credit on December 31, 2013. The increase in our effective tax rates for the nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013 was primarily attributable to the expiration of the Federal R&D tax credit on December 31, 2013 and from the discrete item recorded in the first quarter of 2013 related to the retroactive benefit of the 2012 Federal R&D credit.

## Liquidity and Capital Resources

Cash, cash equivalents and short-term investments were \$1,666.8 million and \$1,200.4 million at September 30, 2014 and December 31, 2013, respectively. In February 2014, we issued \$400.0 million aggregate principal amount of 5.750% Senior Notes due 2024 (the "5.750% Notes"). In February 2013, we issued \$500.0 million aggregate principal amount of 5.375% Senior Notes due 2021 (the "5.375% Notes"). We used approximately \$224.5 million of the net

proceeds of our 5.375% Notes to redeem our outstanding 8.50% Notes, including a \$19.4 million make-whole premium and \$5.1 million of accrued and unpaid interest.

Our primary uses of cash include content acquisition and licensing, streaming delivery, marketing programs and payroll. We expect to continue to make significant investments in streaming content, including original content. We also expect to significantly increase our investments in international expansion. Payment terms for certain content agreements require more upfront cash payments relative to the expense and therefore, future investments could impact our liquidity.

Table of Contents

Our ability to obtain any additional financing that we may choose to, or need to, obtain to finance our international expansion, our investment in original content or otherwise, will depend on, among other things, our development efforts, business plans, operating performance and the condition of the capital markets at the time we seek financing. We may not be able to obtain such financing on terms acceptable to us or at all. If we raise additional funds through the issuance of equity or debt securities, those securities may have rights, preferences or privileges senior to the rights of our common stock, and our stockholders may experience dilution.

As of September 30, 2014, \$48.4 million of cash and cash equivalents were held by our foreign subsidiaries. If these funds are needed for our operations in the U.S., we would be required to accrue and pay U.S. income taxes and foreign withholding taxes on the amount associated with undistributed earnings for certain foreign subsidiaries.

**Free Cash Flow**

We define free cash flow as cash provided by operating and investing activities excluding the non-operational cash flows from purchases, maturities and sales of short-term investments. We believe free cash flow is an important liquidity metric because it measures, during a given period, the amount of cash generated that is available to repay debt obligations, make investments and for certain other activities. Free cash flow is considered a non-GAAP financial measure and should not be considered in isolation of, or as a substitute for, net income, operating income, cash flow (used in) provided by operating activities, or any other measure of financial performance or liquidity presented in accordance with GAAP.

In assessing liquidity in relation to our results of operations, we compare free cash flow to net income, noting that the three major recurring differences are excess content payments over expense, non-cash stock-based compensation expense and other working capital differences which include deferred revenue, taxes and semi-annual interest payments on our outstanding debt. Our receivables from members settle quickly and deferred revenue is a source of cash flow. For streaming content, we typically enter into multi-year agreements with various content providers that may result in an increase in content library and a corresponding increase in liabilities on the Consolidated Balance Sheets. The payment terms may extend over the term of the agreements, which typically range from six months to five years.

Three months ended September 30, 2014 as compared to the three months ended September 30, 2013

|   | Three Months Ended    |                       |
|---|-----------------------|-----------------------|
|   | September 30,<br>2014 | September 30,<br>2013 |
|   | (in thousands)        |                       |
| Net cash (used in) provided by operating activities | \$(37,439             | ) \$34,693            |
| Net cash used in investing activities               | (20,411               | ) (13,669             |
| Net cash provided by financing activities           | 30,662                | 45,795                |
| Non-GAAP free cash flow reconciliation:             |                       |                       |
| Net cash (used in) provided by operating activities | (37,439               | ) 34,693              |
| Acquisition of DVD content library                  | (15,530               | ) (15,471             |
| Purchases of property and equipment                 | (21,032               | ) (10,828             |
| Other assets  | 341                   | (1,329                |
| Non-GAAP free cash flow                             | \$(73,660             | ) \$7,065             |

Cash used in operating activities increased \$72.1 million, primarily due to increased payments for content other than DVD library of \$275.0 million or 44%, as well as increased payments associated with higher operating expenses. The increased use of cash was partially offset by a \$303.4 million or 27% increase in revenues.

Cash used in investing activities increased \$6.7 million, primarily due to an increase of \$10.2 million in the purchase of property and equipment. This increase in the use of cash was partially offset by an increase in the proceeds from sales and maturities of short-term investments, net of purchases, of \$1.9 million.

Cash provided by financing activities decreased \$15.1 million primarily due to a decrease of \$15.7 million in proceeds from the issuance of common stock.

Free cash flow was \$133.0 million lower than net income for the three months ended September 30, 2014 primarily due to \$152.8 million of content cash payments over expense and \$10.1 million non-favorable other working capital differences, partially offset by \$29.9 million of non-cash stock-based compensation expense.

Table of Contents

Free cash flow was \$24.8 million lower than net income for the three months ended September 30, 2013 primarily due to \$12.3 million of content cash payments over expense, and \$31.0 million non-favorable other working capital differences, partially offset by \$18.5 million of non-cash stock-based compensation expense.

Nine months ended September 30, 2014 as compared to the nine months ended September 30, 2013

|   | Nine Months Ended     |                       |
|---|-----------------------|-----------------------|
|   | September 30,<br>2014 | September 30,<br>2013 |
|   | (in thousands)        |                       |
| Net cash provided by operating activities           | \$54,944              | \$56,386              |
| Net cash provided by (used in) investing activities | 8,275                 | (320,590)             |
| Net cash provided by financing activities           | 517,321               | 416,336               |
| Non-GAAP free cash flow reconciliation:             |                       |                       |
| Net cash provided by operating activities           | 54,944                | 56,386                |
| Acquisition of DVD content library                  | (51,425)              | (50,687)              |
| Purchases of property and equipment                 | (54,235)              | (31,034)              |
| Other assets  | 1,765                 | 3,808                 |
| Non-GAAP free cash flow                             | \$(48,951)            | \$(21,527)            |

Cash provided by operating activities decreased \$1.4 million, primarily due to increased payments for content other than DVD library of \$592.0 million or 31%, as well as increased payments associated with higher operating expenses. The increased use of cash was partially offset by an \$820.6 million or 26% increase in revenues.

Cash provided by investing activities increased \$328.9 million, primarily due to an increase of \$354.8 million in the proceeds from sales and maturities of short-term investments, net of purchases.

Cash provided by financing activities increased \$101.0 million primarily due to the \$392.9 million net proceeds from the issuance of the 5.750% Notes in the nine months ended September 30, 2014 compared to the \$490.6 million net proceeds from the issuance of the 5.375% Notes less the \$219.4 million redemption of our 8.50% Notes in the nine months ended September 30, 2013.

Free cash flow was \$232.4 million lower than net income for the nine months ended September 30, 2014 primarily due to \$372.9 million of content cash payments over expense, partially offset by \$85.0 million of non-cash stock-based compensation expense, \$37.2 million in deferred revenue and \$18.3 million favorable other working capital differences.

Free cash flow was \$85.5 million lower than net income for the nine months ended September 30, 2013 primarily due to \$156.5 million of content cash payments over expense and \$8.3 million non-favorable other working capital differences partially offset by \$54.2 million non-cash stock-based compensation expense and \$25.1 million loss on debt extinguishment (a financing activity).

We expect that free cash flow will be materially less than net income while we increase our investments, particularly in original content, and we may use cash for operations and / or have negative free cash flow in future periods.

### Contractual Obligations

For the purpose of this table, contractual obligations for purchases of goods or services are defined as agreements that are enforceable and legally binding and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. The expected timing of payment of the obligations discussed below is estimated based on information available to us as of September 30, 2014. Timing of payments and actual amounts paid may be different depending on the time of receipt

of goods or services or changes to agreed-upon amounts for some obligations. The following table summarizes our contractual obligations at September 30, 2014:

29

---

Table of Contents

| Contractual obligations (in thousands): | Payments due by Period |                     |             |             |                      |
|---|------------------------|---------------------|-------------|-------------|----------------------|
|   | Total                  | Less than<br>1 year | 1-3 years   | 3-5 years   | More than<br>5 years |
| Streaming content obligations (1)       | \$8,857,227            | \$3,574,129         | \$4,176,621 | \$1,071,238 | \$35,239             |
| Debt (2)                                | 1,290,948              | 49,875              | 99,750      | 99,750      | 1,041,573            |
| Lease obligations (3)                   | 200,414                | 28,758              | 61,006      | 33,210      | 77,440               |
| Other purchase obligations (4)          | 538,852                | 218,042             | 305,890     | 14,620      | 300                  |
| Total                                   | \$10,887,441           | \$3,870,804         | \$4,643,267 | \$1,218,818 | \$1,154,552          |

(1) As of September 30, 2014, streaming content obligations were comprised of \$2.1 billion included in "Current content liabilities" and \$1.5 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and \$5.3 billion of obligations that are not reflected on the Consolidated Balance Sheets as they do not yet meet the criteria for asset recognition.

Streaming content obligations increased \$1.6 billion from \$7.3 billion as of December 31, 2013 to \$8.9 billion as of September 30, 2014 primarily due to multi-year commitments associated with our latest market launches in Europe and the continued expansion of our exclusive and original programming.

A streaming content obligation is incurred at the time we enter into an agreement to obtain future titles. Once a title becomes available, a content liability is generally recorded on the Consolidated Balance Sheets. Certain agreements include the obligation to license rights for unknown future titles, the ultimate quantity and / or fees for which are not yet determinable as of the reporting date. Because the amount is not reasonably estimable, we do not include any estimated obligation for these future titles beyond the known minimum amount. However, the unknown obligations are expected to be significant and the expected timing of payments could range from less than one year to more than five years. Traditional film output deals, like the future output deal with Disney, or certain TV series license agreements where the number of seasons to be aired is unknown, are examples of license agreements not included in the contractual obligations table. Once we know the title that we will receive and the license fees, we include the amount in the streaming content obligations.

(2) Long-term debt obligations include our 5.375% Notes and 5.750% Notes consisting of principal and interest payments.

(3) Lease obligations include lease financing obligations of \$10.1 million related to our current Los Gatos, California headquarters for which we are the deemed owner for accounting purposes and commitments of \$190.3 million for facilities under non-cancelable operating leases with various expiration dates through approximately 2025, including commitments of \$121.2 million for facilities lease agreements which will commence after the leased buildings have been constructed.

(4) Other purchase obligations include all other non-cancelable contractual obligations. These contracts are primarily related to streaming delivery, DVD content acquisition, and miscellaneous open purchase orders for which we have not received the related services or goods.

As of September 30, 2014, we had gross unrecognized tax benefits of \$83.1 million and an additional \$4.6 million for gross interest and penalties classified as "Other non-current liabilities" on the Consolidated Balance Sheets. At this time, we are not able to make a reasonably reliable estimate of the timing of payments in individual years due to uncertainties in the timing of tax audit outcomes; therefore, such amounts are not included in the above contractual obligation table.

#### Off-Balance Sheet Arrangements

As part of our ongoing business, we do not engage into any transactions with unconsolidated entities, such as entities often referred to as structured finance or special purpose entities, whereby we have financial guarantees, subordinated

retained interests, derivative instruments, or other contingent arrangements that expose us to material continuing risks, contingent liabilities, or any other obligation under a variable interest in an unconsolidated entity that provides financing, liquidity, market risk, or credit risk support to us.

#### Indemnification

The information set forth under Note 10 in the notes to the consolidated financial statements under the caption “Indemnification” is incorporated herein by reference.

#### Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported periods.

## Table of Contents

The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of a company's financial condition and results of operations, and which require a company to make its most difficult and subjective judgments. Based on this definition, we have identified the critical accounting policies and judgments addressed below. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates.

### Streaming Content

We license and acquire rights to stream TV shows, movies, and original content to members for unlimited viewing. These rights are for a fixed fee and specify windows of availability. Payment terms for certain content agreements require more upfront cash payments relative to the expense.

We capitalize the fee per title and record a corresponding liability at the gross amount of liabilities when the license period begins, the cost of the title is known and the title is accepted and available for streaming. The portion available for streaming within one year is recognized as "Current content library, net" and the remaining portion as "Non-current content library, net" on the Consolidated Balance sheets. The acquisition of streaming content rights and the changes in related liabilities, are classified within cash used in operating activities on the Consolidated Statements of Cash Flows.

We amortize the content library in "Cost of revenues" on a straight line or on an accelerated basis, as appropriate:

For content that does not premiere on the Netflix service (representing the vast majority of content), we amortize on a straight-line basis over the shorter of each title's contractual window of availability or estimated period of use, beginning with the month of first availability. The amortization period typically ranges from six months to five years.

For content that premieres on the Netflix service, we expect more upfront viewing due to the additional merchandising and marketing efforts for this original content available only on Netflix. Hence, we amortize on an accelerated basis over the amortization period, which is the shorter of four years or the license period, beginning with the month of first availability. If a subsequent season is added, the amortization period is extended by a year.

If the cost per title cannot be reasonably estimated, the license fee is not capitalized and costs are expensed on a straight line basis over the license period. This typically occurs when the license agreement does not specify the number of titles, the license fee per title or the windows of availability per title.

The content library is stated at the lower of unamortized cost or net realizable value. Streaming content (whether capitalized or not) is reviewed in aggregate at the geographic region level for impairment when an event or change in circumstances indicates a change in the expected usefulness of the content. The level of geographic aggregation is determined based on the streaming content rights which are generally specific to a geographic region inclusive of several countries (such as Latin America). No material write down from unamortized cost to a lower net realizable value was recorded in any of the periods presented.

We have entered into certain licenses with performing rights organizations ("PROs"), and are currently involved in negotiations with other PROs, that hold certain rights to music and other entertainment works "publicly performed" in connection with streaming content into various territories. Accruals for estimated license fees are recorded and then adjusted based on any changes in estimates. These amounts are included in the streaming content obligations. The results of these negotiations are uncertain and may be materially different from management's estimates.

### Income Taxes

We record a provision for income taxes for the anticipated tax consequences of our reported results of operations using the asset and liability method. Deferred income taxes are recognized by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases as well as net operating loss and tax credit carryforwards. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The measurement of deferred tax assets is reduced, if necessary, by a valuation allowance for any tax

benefits for which future realization is uncertain.

Although we believe our assumptions, judgments and estimates are reasonable, changes in tax laws or our interpretation of tax laws and the resolution of any tax audits could significantly impact the amounts provided for income taxes in our consolidated financial statements.

In evaluating our ability to recover our deferred tax assets, in full or in part, we consider all available positive and negative evidence, including our past operating results, and our forecast of future earnings, future taxable income and prudent and feasible tax planning strategies. The assumptions utilized in determining future taxable income require significant judgment and are consistent with the plans and estimates we are using to manage the underlying businesses. Actual operating results in future years could differ from our current assumptions, judgments and estimates. However, we believe that it is more likely than not that substantially all deferred tax assets recorded on our Consolidated Balance Sheets will ultimately be realized. In the event we were to determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to earnings in the period in which we make such determination.

31

---

## Table of Contents

We did not recognize certain tax benefits from uncertain tax positions within the provision for income taxes. We may recognize a tax benefit only if it is more likely than not the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon settlement. At September 30, 2014, our estimated gross unrecognized tax benefits were \$83.1 million of which \$68.6 million, if recognized, would favorably impact our future earnings. Due to uncertainties in any tax audit outcome, our estimates of the ultimate settlement of our unrecognized tax positions may change and the actual tax benefits may differ significantly from the estimates. See Note 9 to the consolidated financial statements for further information regarding income taxes.

### Stock-Based Compensation

Stock-based compensation expense at the grant date is based on the total number of options granted and an estimate of the fair value of the awards.

We calculate the fair value of our stock option grants using a lattice-binomial model. This model requires the input of highly subjective assumptions. Changes in the subjective input assumptions can materially affect the estimate of fair value of options granted and our results of operations could be impacted.

**Expected Volatility:** Our computation of expected volatility is based on a blend of historical volatility of our common stock and implied volatility of tradable forward call options to purchase shares of our common stock. Our decision to incorporate implied volatility was based on our assessment that implied volatility of publicly traded options in our common stock is more reflective of market conditions and, therefore, can reasonably be expected to be a better indicator of expected volatility than historical volatility of our common stock. Low trade volume of our tradable forward call options prior to 2011 precluded sole reliance on implied volatility, and as such we include historical volatility in our computation of expected volatility. An increase/decrease of 10% in our computation of expected volatility would increase/decrease the total stock-based compensation expense by approximately \$3.0 million for the three months ended September 30, 2014.

- **Suboptimal Exercise Factor:** Our computation of the suboptimal exercise factor is based on historical option exercise behavior and is determined for both executives and non-executives. An increase/decrease in the suboptimal exercise factor of 10% would increase/decrease the total stock-based compensation expense by approximately \$0.6 million for the three months ended September 30, 2014.

### Recent Accounting Pronouncements

The information set forth under Note 1 to the consolidated financial statements under the caption “Basis of Presentation and Summary of Significant Accounting Policies” is incorporated herein by reference.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For financial market risks related to changes in interest rates and foreign currency, reference is made to Item 7A “Quantitative and Qualitative Disclosures About Market Risk” contained in Part II of our Annual Report on Form 10-K for the year ended December 31, 2013. Our exposure to market risk has not changed significantly since December 31, 2013.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q were effective in providing reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended, is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
