REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Monsanto Company Employee Benefits Plan Committee

We have audited the accompanying statements of net assets available for benefits of Monsanto Savings and Investment Plan (the "Plan") as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the accompanying statement of net assets available for benefits as of December 31, 2004 has been restated.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) Schedule of Assets (Held at End of Year) as of December 31, 2005, (2) Schedule of Assets (Acquired and Disposed of Within Year) for the Year Ended December 31, 2005, and (3) Schedule of Reportable Transactions for the Year Ended December 31, 2005 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2005 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic 2005 financial statements taken as a whole.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DEC. 31, 2005

NOTE 1. INFORMATION REGARDING THE PLAN

GENERAL

The following description of the Monsanto Savings and Investment Plan (the "Plan" or the "SIP") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was established as of June 11, 2001, as a successor to a portion of the Pharmacia Corporation Savings and Investment Plan ("Pharmacia Plan") for the benefit of certain employees and former employees ("Transferred Participants") of Monsanto Company ("Monsanto" or the "Company"). Effective July 1, 2001, the assets of the Pharmacia Plan that were allocated to the accounts of the Transferred Participants were transferred to the trust established under the Plan. Also effective July 1, 2001, a portion of the unallocated assets and liabilities (primarily debt) of the leveraged employee stock ownership plan ("ESOP") component of the Pharmacia Plan were transferred to the Plan.

Effective July 1, 2001, through June 30, 2002, the assets of the trust established under the Plan were collectively invested with the assets of the Pharmacia Plan in the Pharmacia Corporation and Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust (the "Master Trust"). Within the Master Trust, each participating plan was entitled to an interest in the Master Trust's net assets and net earnings. As of June 30, 2002, the Plan's proportionate interests in the total net assets of the Master Trust was approximately 51 percent. Effective as of July 1, 2002: (i) assets and liabilities from the Master Trust representing the Pharmacia Plan's interest and obligations in and under the Master Trust were transferred to the Pharmacia Savings Plan Master Trust and the Pharmacia Savings Plan ESOP Trust for Pharmacia Common Stock; and (ii) Monsanto and the trustee of the Plan entered into the Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust Agreement which is the trust established pursuant to the Plan to hold all the assets of the Plan.

ADMINISTRATION

Monsanto is the sponsor of the Plan. The Monsanto Employee Benefits Plans Committee is responsible for administering plan operations in accordance with the Employee Retirement Income Security Act of 1974 ("ERISA") and Plan documents. The Monsanto Pension and Savings Funds Investment Committee is responsible for monitoring Plan investments. The trustee of the Plan is The Northern Trust Company ("Northern") and Fidelity serves as the record keeper.

PARTICIPANT ACCOUNTS

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

The Plan is a contributory defined contribution profit sharing plan with individual accounts for each participant. Employees who have attained age 18 are generally eligible to participate in the Plan as soon as administratively possible. The cost of Plan administration is borne partially by Plan participants and partially by Monsanto, as Plan sponsor.

Each participant's account is credited with the participant's contributions, Company contributions and Plan earnings (losses). Participants' accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

EMPLOYEE CONTRIBUTIONS

The Plan provides for voluntary employee contributions generally ranging from 1 percent to 25 percent of an employee's eligible pay. Employees have an option to make before-tax contributions or after-tax contributions.

Subject to Internal Revenue Service ("IRS") discrimination tests, contributions may be all before-tax, all after-tax, or a combination of both. Generally, employee contributions to the Plan may be invested in 1 percent increments and allocated in any combination to the following investment fund types: a fixed income fund, a balanced fund consisting of both fixed income and equity securities, a growth and income equity fund, an international equity fund, a growth equity fund, a U.S. equity index fund, a treasury inflation-protected securities (TIPS) fund, a value equity fund, a small cap growth equity fund, a small cap value equity fund, the Monsanto Stock Fund and four asset allocation funds consisting of varying pre-set mixes of certain of the aforementioned investment fund types. The four asset allocation funds allow participants varying degrees of risk and return. As of April 4, 2005, targeted ("roundtrip") trading restrictions were effective. A roundtrip is defined as an

4

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

exchange in and then out of a fund in less than a 30-day period. Under these restrictions, participants are limited to one roundtrip transaction per fund within any 90-day rolling period and four roundtrip transactions across all funds over a rolling 12-month period. These targeted restrictions apply to all investment options except the Fixed Income Fund.

Prior to Aug. 14, 2002, contributions could also be invested in the Pharmacia (Employee) Common Stock Fund, which invested in Pharmacia Corporation common stock. Beginning Aug. 14, 2002, contributions could be invested in the Monsanto (Employee) Common Stock Fund, which invests in Monsanto common stock. See below for further discussion regarding the spinoff of Monsanto by Pharmacia Corporation ("Pharmacia") and the conversion of shares of Pharmacia common stock to shares of Monsanto common stock. As a result of the spinoff in 1997 of Solutia Inc. ("Solutia"), a former subsidiary of the former Monsanto Company, certain Transferred Participants' accounts received common stock of Solutia. This stock is maintained in the Solutia Non-Employer Stock Fund, and no contributions, either employee or employer, subsequent to the spinoff can be made to this

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

fund.

On Aug. 13, 2002, Pharmacia completed a spinoff of Monsanto by distributing its entire ownership interest via a tax-free dividend of shares of Monsanto common stock to Pharmacia's shareowners. The shares of Monsanto common stock received with respect to participants' accounts were deposited in the Monsanto Common Stock Fund. Shares of Pharmacia common stock then held in participants' accounts were transferred to the Pharmacia Non-Employer Stock Fund, and no contributions, either employee or employer, subsequent to the spinoff could be made to this fund. The Pharmacia common stock continued to be held in the Pharmacia Non-Employer Stock Fund until April 16, 2003, at which time the shares were exchanged for shares of common stock of Pfizer Inc. ("Pfizer") as a result of the acquisition of Pharmacia by Pfizer. The ratio was 1.4 shares of Pfizer stock for one share of Pharmacia stock. As a result of this acquisition, all of the shares of common stock of Pharmacia held in the Pharmacia Non-Employer Stock Fund were exchanged for shares of common stock of Pfizer, and the Pharmacia Non-Employer Stock Fund was replaced by the Pfizer Non-Employer Stock Fund. This Pfizer stock was maintained in the Pfizer Non-Employer Stock Fund, and no contributions, either employee or employer, could be made to this fund. Until Dec. 30, 2005, Plan participants could continue holding portions of their accounts in the Pfizer Non-Employer Stock Fund or could reallocate all or any part of such holdings to the Monsanto (Employee) Stock Fund or the other investment funds (excluding the Monsanto (Employer) and Solutia Stock Funds) and/or pre-mixed portfolios offered under the Plan. The amounts remaining invested in the Pfizer Non-Employer Stock Fund as of the close of business on Dec. 30, 2005, started to transfer to the Plan's default investment choice, which was the Moderate Portfolio. All amounts invested in the Pfizer Non-Employer Stock Fund at Dec. 31, 2005 were transferred to the Moderate Portfolio in January 2006. The change in fair value of Pfizer stock held in the Pfizer Non-Employer Stock Fund during the year ended Dec. 31, 2005, is included in "Appreciation/(depreciation) in fair value of investments: Common Stock--Pfizer Corporation" in the Statement of Changes in Net Assets Available for Benefits.

The breakout of common stock into Common Stock--Pfizer Corporation, Common Stock--Monsanto Company, and Common Stock--Solutia Inc. in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits is not required but is presented for the purpose of additional analysis.

Effective for paychecks received after Sept. 1, 2002, the Monsanto SIP was amended to allow eligible participants to make a before-tax catch-up contribution election. Participants may be eligible to make a catch-up contribution if they are at least age 50 on or before December 31 of the calendar year and either currently contributing at least 7 percent of their eligible pay per pay period to the SIP or had reached the IRS annual limit on before-tax contributions (\$14,000 in 2005). For 2005, they could have elected a before-tax catch-up contribution of up to \$4,000. The catch-up contributions are not eligible for Company matching contributions and are subject to the same rules as other before-tax contributions. The annual catch-up contribution limit may increase in future years in accordance with limits prescribed by the IRS.

The before-tax option allows participants to elect to make before-tax contributions from gross pay before most income taxes are deducted. The participants generally cannot withdraw before-tax contributions without income tax penalties until age 59 1/2, retirement, disability, death or termination of employment. After-tax contributions are made from participants' pay after income taxes are deducted. Withdrawal of after-tax employee contributions can be made with no penalty. Participants may change the amounts of their contributions and transfer their contributions among

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

the investment options.

5

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

Until Jan. 3, 2005, a participant who was not fully vested in the Plan or predecessor plan could not diversify any Company matching contributions into the other investment options in the Plan. Upon vesting in the Plan, all Company matched amounts could be diversified into the other investment options (excluding the Pfizer and Solutia Stock Funds) in the Plan. As of Jan. 3, 2005, all Monsanto SIP participants could transfer any Company match amounts out of their Monsanto (Employer) Stock Fund and into any of the other investment options available in SIP (except the Solutia Non-Employer Stock Fund and Pfizer Non-Employer Stock Fund options) whether or not they were fully vested.

LEVERAGED ESOP AND VESTING

Employee contributions to the Plan, up to a maximum of 7 percent of eligible pay, generally are matched 60 percent by Monsanto. The Plan also has a discretionary match employer contribution feature. In December 2005, Monsanto announced a discretionary performance contribution of an additional 40 percent on the first 10 percent of eligible pay, which was applied to participant accounts in March 2006 through an allocation of previously unallocated Monsanto Company common stock. Company contributions and related earnings are invested solely in Monsanto common stock held in the Monsanto Employer Stock Fund. In part, this is accomplished through an ESOP feature that was added to the Pharmacia Plan in October 1991 and has been subsequently retained. Generally, Company contributions vest and become non-forfeitable at the rate of 20 percent per year of service, such that Company contributions are 100 percent vested after five years of service. A participant who has less than five years of participation in the Plan or predecessor plan cannot withdraw Company matching contributions that are not vested or that were received in the last 24 months. Upon completion of five years of participation in the Plan, all Company matched amounts may be withdrawn from the Plan. Company contributions immediately vest upon a change of control of the Company.

In 1991, the ESOP component of the Pharmacia Plan issued \$100 million in amortizing notes and \$100 million in amortizing debentures, both guaranteed by Pharmacia, and borrowed \$50 million from Pharmacia. In January 1992, the proceeds from the borrowings were used to purchase approximately 18.5 million shares of common stock from Pharmacia at the average price of \$13.40 per share. In 1996 and 1997, the ESOP component of the Pharmacia Plan borrowed an additional \$3.7 million and \$4.3 million, respectively, from Pharmacia to make payments on existing ESOP borrowings.

The Pharmacia Plan's ESOP debt was restructured effective as of July 1, 2001, in connection with the establishment and transfer of assets and liabilities to the Plan. The Plan's ESOP component received a transfer from the Pharmacia Plan's ESOP of 3,029,255 unallocated shares of Pharmacia common stock. Immediately following the debt restructuring and transfer, the Plan's ESOP debt consisted of two promissory notes (the "Notes") to Monsanto: (i) one note payable in the principal amount of \$2.2 million,

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

bearing interest at the rate of 7 percent per annum, and having a maturity date of Dec. 15, 2021 (the "7.00% Note"), and (ii) the other note payable in the principal amount of \$40.6 million, bearing interest at the rate of 5.71 percent per annum, and providing for semi-annual amortization of principal and a final maturity date of Dec. 15, 2006 (the "5.71% Note").

Following the spinoff of Monsanto from Pharmacia on Aug. 13, 2002, the unallocated Pharmacia shares held by the Plan's ESOP component were gradually converted to shares of Monsanto common stock through open market transactions and through the exchange of Pharmacia stock for Monsanto stock with certain Pharmacia employee benefit plans at market rates. These Pharmacia shares are now fully converted to Monsanto shares. The unallocated shares of Monsanto common stock, which were converted from Pharmacia shares as described above, held by the Plan's ESOP component are released for allocation to participant accounts in accordance with the terms of the Plan as interest and principal on the promissory note is paid.

The Plan's ESOP debt was again restructured as of Dec. 10, 2004, to level out the future allocation of stock thereunder in an impartial manner intended to ensure equitable treatment for and generally to be in the best interests of current and future plan participants consistent with the level of benefits that Monsanto intended for the Plan to provide to participants. To this end, the terms of the restructuring were determined pursuant to an arm's length negotiation between Monsanto and an independent trust company as fiduciary for the Plan. In this role, the independent fiduciary determined

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

that the restructuring, including certain financial commitments and enhancements that were or will be made in the future by Monsanto to benefit participants and beneficiaries of the Plan, including the increased diversification rights described above that were provided to certain participants, was completed in accordance with the best interests of plan participants. Under the terms of the agreement, Monsanto committed to funding an additional \$40 million to the Plan if no additional contributions are made by Dec. 31, 2006, above the number of shares currently scheduled for release under the restructured debt schedule. On Dec. 10, 2004, the 5.71% Note and the 7.00% Note were refinanced with a single promissory note to Monsanto, payable in the principal amount of \$19.2 million, bearing interest at the rate of 4.60% per annum, and having a maturity date of Dec. 31, 2012 (the "4.60% Note").

As of Dec. 31, 2005, the 4.60% Note had an outstanding principal balance of \$14.9 million. Scheduled maturities on the 4.60% Note are \$2,721 in 2006, \$2,699 in 2007, \$2,711 in 2008, \$2,750 in 2009, \$2,803 in 2010, and \$1,261 in 2011 (all in thousands). Interest on the 4.60% Note is payable annually on December 31 of each year. The borrowing is collateralized by the unallocated shares of stock. The minimum number of shares allocated to participant accounts under the ESOP in a given year is determined by the Plan's net debt service (principal and interest) during that year relative to the total amount of the Plan's remaining debt service as of the beginning

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

of that year. The refinancing resulted in a decrease in the minimum number of shares to be allocated of 55 percent in 2005 and an estimated 59 percent in 2006. The reduction of shares allocated in 2005 and 2006 will result in more shares allocated to participants each year from 2007 through 2012.

The Plan obtains the funds to repay the ESOP debt to Monsanto primarily through Company contributions and dividends paid on Monsanto common stock held in the ESOP. In the 12 months ended Dec. 31, 2005, the Plan paid the ESOP debt payments solely through the use of dividends paid on Monsanto common stock held in the ESOP suspense account and the Monsanto Employer Stock Fund. While the ESOP debt is repaid annually, shares of Monsanto stock are released for allocation to participant accounts throughout the year. In the 12 months ended Dec. 31, 2005, the Plan's repayment of ESOP debt resulted in the release of approximately 590,000 equivalent shares of Monsanto stock for allocation to participant accounts. As of Dec. 31, 2005, and 2004, approximately 2,500,000 shares and 3,100,000 shares, respectively, of Monsanto stock remained unallocated with an approximate market value of \$192 million and \$171 million, respectively.

VOTING RIGHTS

Participants have the right to vote the shares of Monsanto stock in their accounts. The Trustee will vote the unallocated shares in the same proportion as the allocated shares are voted by participants.

PARTICIPANT LOANS

Most Plan participants can obtain loans from their accounts. A participant with a Plan account balance of over \$2,000 may borrow up to the lesser of 50 percent of the total vested account balance, \$50,000 minus the participant's highest outstanding loan balance during the last 12 months, or 100 percent of his or her employee account value excluding the employer portion. The minimum loan is \$1,000, and the maximum number of outstanding loans at any one time is two.

Effective Oct. 26, 2005, the Monsanto SIP was amended to allow eligible participants affected by Hurricane Katrina to obtain a loan with certain features. In the event an eligible affected participant elects to receive a loan at any time between the effective date and Dec. 31, 2006 and such loan meets certain required parameters, the participant may establish a repayment schedule for a period not to exceed 180 months.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a certain number of years. If employment is terminated before age 70 1/2, participants can elect to defer receiving benefits if their vested account balance is greater than \$5,000.

FORFEITED ACCOUNTS

During the years ended Dec. 31, 2005, and 2004, forfeited nonvested accounts totaled \$608 thousand and \$442 thousand,

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

respectively. These accounts will be used to reduce future employer contributions.

RECLASSIFICATION

Certain prior year amounts were reclassified to conform to current year presentation.

RESTATEMENT

Subsequent to the issuance of the Plan's financial statements as of and for the year ended Dec. 31, 2004, the Plan's management determined that collateral received under securities lending agreements and the related liability were not disclosed or separately presented within the statement of net assets available for benefits. As a result, the Dec. 31, 2004, statement of net assets available for benefits has been restated to record the collateral and the obligation to return collateral held under securities lending agreements of \$148 million and to disclose securities on loan of \$24 million of U.S. government and agency bonds, \$41 million of common and preferred stocks, and \$80 million of underlying securities supporting investment contracts. As a result, total assets and total liabilities increased by \$148 million. Total net assets available for benefits was not impacted. See Note 5 for disclosures of the Plan's securities lending program.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

Fixed income fund investments in guaranteed investment contracts, issued by insurance companies, are valued at contract value plus accrued interest because these investments have fully benefit-responsive features. Investments other than guaranteed investment contracts are stated at fair values, which are generally determined by quoted market prices. Amounts for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at that fair value. In general, however, debt securities held by the Plan of \$89 million at Dec. 31, 2005, and \$65 million at Dec. 31, 2004, are valued based on yields currently available on comparable securities of issuers with similar credit ratings. The value of outstanding participant loans is determined based on the outstanding principal balance as of the last day of the period, which approximates fair value.

The Collective Investment Funds included in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

for Benefits reflects the Plan's ownership of units in the various Collective Investment Funds. The Collective Investment Funds invest in a variety of securities including common stocks, bonds and money market instruments in accordance with the specific investment objectives of the Collective Investment Fund.

Purchases and sales of securities are recorded on a trade-date basis.

Dividend income is recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. In the statement of changes in net assets available for benefits, the Plan presents the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation (depreciation) on these investments.

The Plan pays certain outside service provider expenses (e.g. recordkeeping and trustee fees) incurred in the operation of the Plan. Certain investment manager fees are paid by the Plan and are included in Administrative Expenses. Certain other expenses are paid by Monsanto.

NOTE 3. NONPARTICIPANT-DIRECTED INVESTMENTS

Except as noted below, all other funds in the Plan are participant-directed. The Plan's ESOP debt and related principal and interest payments are also nonparticipant-directed. Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investment amounts in the Plan (as of Dec. 31, 2005, and Dec. 31, 2004, and for the period Jan. 1, 2005, to Dec. 31, 2005) is outlined in the table below.

NOTE 4. GUARANTEED INVESTMENT CONTRACTS

The Fixed Income Fund invests in synthetic guaranteed investment contracts. Synthetic guaranteed investment contracts are comprised of two components: an underlying portfolio of fixed income securities and a benefit responsive contract. Benefit responsive contracts are issued by financial services companies to allow participants' account balances to reflect the contract value of the underlying fixed income investments (principal plus interest) rather than the market value of those investments. Upon proper notification to the financial service provider, the benefit responsive agreement may be terminated. A single uniform contract (the "Global Wrap Benefit Responsive Contract") was in place on Dec. 31, 2005, and Dec. 31, 2004, with Commonwealth General Corporation, J.P. Morgan Chase Bank and State Street Bank.

The following summarizes the contract value of the synthetic guaranteed investment contracts as of Dec. 31, 2005, and Dec. 31, 2004.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

The rate of return for the synthetic guaranteed investment contracts generally fluctuates with the return on the underlying assets. The 12-month average yield for such contracts, net of all applicable administrative and investment fees, was 5.49 percent for the period from Jan. 1, 2005, to Dec. 31, 2005 and 5.26 percent for the period from Jan. 1, 2004, to Dec. 31, 2004. Participant accounts are credited with an interest rate which is determined quarterly by the issuers of the benefit responsive contracts based on the investments in the underlying fixed income portfolio. The annual crediting interest rates as of Dec. 31, 2005, and Dec. 31, 2004, were 5.59 percent and 5.70 percent, respectively.

The Plan values these synthetic guaranteed investment contracts at contract value plus accrued interest. The total estimated fair value of the assets supporting the synthetic guaranteed investment contracts was \$445 million and \$453 million as of Dec. 31, 2005, and Dec. 31, 2004, respectively.

NOTE 5. INVESTMENTS

Investments that represent more than 5% of the net assets available for benefits as of either Dec. 31, 2005, or Dec. 31, 2004, were as follows:

	AS OF DE
(Dollars in thousands)	2005
Monsanto common stock	\$ 570,467
Guaranteed Investment Contracts - Global Wrap Benefit Responsive Contract	436,300
Mellon Daily Liquidity Stock Index Fund	112,634
Capital Guardian international equity fund	90,719
Pfizer common stock	57,610

The Plan participates in a securities lending program through Northern, the Plan's trustee, whereby the Plan's investment securities are loaned to broker-dealers for a fee. Securities so loaned are fully collateralized primarily by cash and U.S. government securities. U.S. securities are loaned and collateralized by securities valued at 102 percent of the market value of the securities plus any accrued interest (105 percent for non-U.S. securities). As the market value of the securities loaned changes, the borrower must adjust the collateral accordingly. Northern pools all collateral received from securities lending transactions and invests any cash collateral. The Plan holds a prorated share of the collateral provided to Northern by the borrowers of the securities. Monsanto or the borrower has the right to close the loan at any time. When the loan closes, the borrower returns the securities to Northern who returns the associated collateral to the borrower. The Plan can not pledge or sell the collateral unless Northern fails to return the securities borrowed. At Dec. 31, 2005, and 2004, approximately \$186 million and \$145 million, respectively, of the Plan's securities were on loan under these programs, and collateral held was \$190

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

million and \$148 million, respectively. Income from this program was \$0.2 million for the year ended Dec. 31, 2005.

NOTE 6. INFORMATION REGARDING TAX STATUS

On Oct. 17, 2003, the IRS issued Monsanto a favorable determination letter stating that the Plan as then designed, was qualified for federal income tax purposes in compliance with section 401(a) of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

MONSANTO SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DEC. 31, 2005

NOTE 7. PRIORITIES UPON TERMINATION OF THE PLAN

If the Plan is terminated, all participants' account balances will be fully vested, and all participants would then be entitled to a full distribution of their account balances as more fully described and set forth in the Plan document.

NOTE 8. PARTY-IN-INTEREST INVESTMENTS AND TRANSACTIONS

There were no nonexempt prohibited transactions with parties-in-interest during the period from Jan. 1, 2005, to Dec. 31, 2005. As of Dec. 31, 2005, and 2004, the Plan holds \$570 million and \$434 million, respectively, of Monsanto Company stock.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. SUBSEQUENT EVENT

Monsanto acquired Seminis, Inc. (Seminis) in March 2005. Effective Jan. 1, 2006, eligible employees of Seminis became eligible to participate in the

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

Plan. The Company has not yet determined when the assets of the Seminis Vegetable Seeds Retirement Plan that were allocated to the transferred participants will be transferred to the Plan.
