- o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

ITEM 8.01 OTHER EVENTS.

On September 28, 2005, Incyte Corporation (Incyte) publicly announced that it met with representatives from the Food and Drug Administration (FDA) on September 27, 2005, regarding the development of Reverset™, Incyte s nucleoside reverse transcriptase inhibitor (NRTI) that is being developed as a therapy for treatment-experienced HIV patients.

The purpose of the meeting was to discuss the results of a recently completed Phase II trial, which were presented in July 2005 at the International AIDS Society meeting, and Incyte s plans to move Reverset into two Phase III pivotal trials. At the meeting, the FDA did not approve of Incyte s moving into Phase III studies. The agency requested that Incyte conduct another Phase II trial to provide additional data to support the efficacy and safety demonstrated in the original Phase II study with the drug.

SIGNATURE
