PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

As reported in a Form 8-K filed on November 7, 2005, the Registrant is in discussions with its bondholders concerning a possible restructuring of its outstanding debt. In connection with those discussions the Registrant elected not to make its November 1, 2005 interest payment on the notes held by the bondholders. Subsequently the Registrant also entered into an agreement with its primary lender to waive certain defaults under its credit agreement with that lender for the quarter ended September 30, 2005. The Registrant has incurred significant losses over the past several quarters and, in the absence of some significant improvement in its cash flow or restructuring of its debt, it is unlikely that the Registrant will be able to pay the principal of and interest on its debt in the future. As a result of these developments, the Registrant recently concluded, that there is substantial doubt about the Registrant's ability to continue as a going concern and that all of its outstanding long-term debt needs to be reclassified as current liabilities as of September 30, 2005. The Registrant is delaying the filing of its Form 10-Q for the fiscal quarter ended September 30, 2005 (the Form 10-Q) in order to revise the disclosure in its Form 10-Q to reflect these developments.

In connection with the preparation of the Form 10-Q, the Registrant conducted a review of its goodwill and other intangible assets for possible impairment. Due primarily to changes in the economics of the Specialty Infusion business unit, the Registrant concluded that its goodwill and other intangibles were impaired in the amount of \$78.5 million and \$0.2 million, respectively, as of September 30, 2005. As a result, the Registrant is recording a non-cash impairment charge of \$78.7 million in the third quarter of 2005, resulting in a net loss of \$80.9 million, or \$6.22 per share, for the quarter ended September 30, 2005 as compared to a net loss of \$2.1 million, or \$0.16 per share, for the quarter ended September 30, 2004.

Primarily as a result of this non-cash impairment charge and the reclassification of long-term debt discussed in Part III above, the Registrant's goodwill was \$36.9 million, total assets were \$173,500, total current liabilities were \$255.6 million and total long-term liabilities were insignificant as of September 30, 2005, as compared to \$123.1 million, \$283.8 million, \$63.6 million and \$215.7 million, respectively, as of December 31, 2004.
