Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Before the agenda of this Meeting was put to debate, the representative of the stockholder **Southern Electric Brasil Participações Ltda.** stated that the Bylaws adopted by the Extraordinary General Meeting of Stockholders of October 25, 1999, and subsequent meetings, were approved only in view of the suspension of the Stockholders Agreement, by the decision of the Judiciary, and were, thus, provisional and precarious. He stated that, thus, the acts and operations practiced or submitted to the approval of the management bodies of Cemig, under such changes in the Bylaws made under the protection of a Court decision currently in force, could at any moment be revised and withdrawn from the legal universe.

On the question, the representative of the stockholder **State of Minas Gerais** reminded the meeting that the decision that annulled the Stockholders Agreement signed between the State of Minas Gerais and Southern Electric Brasil Participações Ltda. no longer has an interim or provisional character being a decision on the merits, and that, therefore, this is not a case of suspension, but annulment. He added that there is already a decision on the merit which annuls the Stockholders Agreement confirmed by the Appeal Court of the State of Minas Gerais. He further stated that the decisions of this Board may only take into account what exists in the present day, and that not to vote on matters while awaiting a Court decision would be irresponsible since, in reality, the said Stockholders Agreement, by force of a Court decision, cannot produce any effect and the decisions taken are taken strictly within compliance with the Court decision. Finally, he said that the Extraordinary and Special Appeals brought by **Southern** were not allowed for hearing by the Vice-Chairman of the Appeal Court of Minas State, and that the Higher Appeal Court had refused the Interlocutory

and Special Appeals filed by **Southern**, reinforcing the legal situation already declared by the Appeal Court of Minas Gerais, that is to say, the inefficacy of the Stockholders Agreement which is the subject of the action.

Again having the floor, the representative of the stockholder Southern Electric Brasil Participações Ltda. stated that the Interlocutory Appeal brought against the dispatch denying the Extraordinary Appeal, currently before the Federal Supreme Court, is still awaiting judgment.

The Chairman then requested the Secretary to proceed to reading of the Proposal of the Board of Directors, which deals with the matter that is on the agenda, the content of which is as follows:
