Forward-Looking Statements

This Quarterly Report on Form 10-Q, together with other statements and information publicly disseminated by U-Store-It Trust (we, us, our or the Company), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Although we believe the expectations reflected in these forward-looking statements are based on reasonable assumptions, future events and actual results, performance, transactions or achievements, financial and otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

- national and local economic, business, real estate and other market conditions;
- the competitive environment in which we operate;
- the execution of our business plan;
- financing risks, including the risk of overleverage and the corresponding risk of default on our mortgage loans and other debt and potential inability to refinance existing indebtedness;
- increases in interest rates and operating costs;

Edgar Filing: U-Store-It Trust - Form 10-Q

- counterparty non-performance related to the use of derivative financial instruments;
- our ability to maintain our status as a real estate investment trust (REIT) for federal income tax purposes;
- acquisition and development risks;
- changes in real estate and zoning laws or regulations;
- risks related to natural disasters;
- potential environmental and other liabilities;
- other factors affecting the real estate industry generally or the self-storage industry in particular; and
- other risks identified in our Annual Report on Form 10-K and, from time to time, in other reports we file with the Securities and Exchange Commission (the SEC) or in other documents that we publicly disseminate.

We undertake no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required in securities laws.

U-STORE-IT TRUST AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND NATURE OF OPERATIONS

U-Store-It Trust, a Maryland real estate investment trust (collectively with its subsidiaries, we or the Company), is a self-administered and self-managed real estate investment trust, or REIT, active in acquiring, developing and operating self-storage properties for business and personal use under month-to-month leases. As of September 30, 2008, the Company owned 394 self-storage facilities (collectively, the Properties) containing an aggregate of approximately 25.4 million square feet. The Properties are located in 26 states throughout the United States and in the District of Columbia.

The Company owns substantially all of its assets through U-Store-It, L.P., a Delaware limited partnership (the Operating Partnership). The Company is the sole general partner of the Operating Partnership and, as of September 30, 2008, owned a 91.9% interest in the Operating Partnership. The Company manages its assets through YSI Management LLC (the Management Company), a wholly owned subsidiary of the Operating Partnership. The Company owns 100% of U-Store-It Mini Warehouse Co. (the TRS), which it has elected to treat as a taxable REIT subsidiary. In general, a taxable REIT subsidiary may perform non-customary services for tenants, hold assets that the Company cannot hold directly and generally may engage in any real estate or non-real estate related business.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) regarding interim financial reporting and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of financial position, results of operations and cash flows for the interim periods presented in accordance with generally accepted accounting principles (GAAP). Accordingly, readers of this Quarterly Report on Form 10-Q should refer to the Company's audited financial statements prepared in accordance with GAAP, and the related notes thereto, for the year ended December 31, 2007, which are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 as certain footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted from this report pursuant to the rules of the SEC. The results of operations for each of the three and nine months ended September 30, 2008 and 2007 are not necessarily indicative of the results of operations to be expected for any future period or the full year.

New Accounting Pronouncements

Edgar Filing: U-Store-It Trust - Form 10-Q

In May 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). Under SFAS 162, the GAAP hierarchy will now reside in the accounting literature established by the FASB. SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. We believe that the adoption of this standard on its effective date will not have a material effect on our consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities - an Amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FASB Statement No. 133 and the impact of derivative instruments and related hedged items on an entity's financial position, financial performance and cash flows. SFAS 161 is effective on January 1, 2009. We believe that the adoption of this standard on January 1, 2009 will not have a material effect on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS 141(R)). SFAS 141(R) establishes principles and requirements for recognizing identifiable assets acquired, liabilities assumed, noncontrolling interest in the acquiree, goodwill acquired in the combination or the gain from a bargain purchase, and disclosure requirements. Under this revised

Edgar Filing: U-Store-It Trust - Form 10-Q

Table of Contents

statement, all costs incurred to effect an acquisition will be recognized separately from the acquisition. Also, restructuring costs that are expected but the acquirer is not obligated to incur will be recognized separately from the acquisition. SFAS 141(R) is effective for all transactions entered into on or after January 1, 2009. The Company is currently assessing the potential impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51* (SFAS 160). FAS 160 requires that ownership interests in subsidiaries held by parties other than the parent are to be reported as equity. In addition, it requires that the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the income statement. SFAS 160 is effective on January 1, 2009. The Company is currently assessing the potential impact on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value, with unrealized gains and losses related to these financial instruments reported in earnings at each subsequent reporting date. This statement was effective on January 1, 2008. We have not elected the fair value option for any of our existing financial instruments on the effective date and have not determined whether or not we will elect this option for any eligible financial instruments we acquire in the future.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS No. 157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS No. 157 applies whenever other standards require assets or liabilities to be measured at fair value. This statement became effective for our financial assets and liabilities on January 1, 2008. The FASB has deferred the implementation of the provisions of SFAS No. 157 relating to certain nonfinancial assets and liabilities until January 1, 2009. This standard did not materially affect how we determine fair value, but resulted in certain additional disclosures.

4. INTANGIBLE ASSETS

During the year ended December 31, 2007, the Company acquired finite-lived intangible assets valued at approximately \$6.8 million as part of its 2007 acquisitions. These assets represent the value of in-place leases at the time of acquisition. During the three months ended September 30, 2008, the intangible assets became fully amortized, with \$1.1 million and \$4.6 million recognized as amortization expense during the three and nine months ended September 30, 2008, respectively.

During the quarter ended March 31, 2008, the Company acquired a finite-lived intangible asset valued at approximately \$1.0 million as part of its acquisition of one self-storage facility. This asset represents the value of in-place leases at the time of acquisition. The Company recognized amortization expense related to this asset of \$0.3 million and \$0.7 million during the three and nine months ended September 30, 2008, respectively. The estimated life of this asset at the time of acquisition was 12 months. The amortization expense that will be recognized during the remainder of 2008 is \$0.3 million.

5. REVOLVING CREDIT FACILITY, UNSECURED TERM LOAN AND SECURED TERM LOAN

As of September 30, 2008, the Company and its Operating Partnership had in place a three-year \$450 million unsecured credit facility, which was entered into in November 2006, including a \$200 million unsecured term loan and \$250 million in unsecured revolving loans. The outstanding balance on the Company's credit facility at September 30, 2008 was \$382.7 million and was comprised of \$200 million of unsecured term loan borrowings and \$182.7 million of unsecured revolving loans. Approximately \$67.3 million was available under the Company's credit facility at September 30, 2008. Borrowings under the credit facility bear interest, at our option, at either an alternative base rate or a Eurodollar rate, in each case, plus an applicable margin based on our leverage ratio or

Edgar Filing: U-Store-It Trust - Form 10-Q

Table of Contents

our credit rating. The alternative base interest rate is a fluctuating rate equal to the higher of the prime rate or the sum of the federal funds effective rate plus 50 basis points. The applicable margin for the alternative base rate will vary from 0.00% to 0.50% depending on our leverage ratio prior to achieving an investment grade rating, and will vary from 0.00% to 0.25% depending on our credit rating after achieving an investment grade rating. The Eurodollar rate is a rate of interest that is fixed for interest periods of one, two, three or nine months based on the LIBOR rate determined two business days prior to the commencement of the applicable interest period. The applicable margin for the Eurodollar rate will vary from 1.00% to 1.50% depending on our leverage ratio prior to achieving an investment graded rating, and will vary from 0.425% to 1.00% depending on our credit rating after achieving an investment grade rating. This credit facility is scheduled to terminate on November 20, 2009, with an option for the Company to extend the termination date to November 20, 2010. At September 30, 2008, borrowings under the unsecured credit facility had a weighted average interest rate of 4.77%, which includes the impact of derivative financial instruments discussed in footnote seven.

On September 14, 2007, the Company and its Operating Partnership entered into a credit agreement that allowed for total secured term loan borrowings of \$50.0 million and subsequently amended the agreement on April 3, 2008 to allow for total secured term loan borrowings of \$57.4 million. The term loans mature on November 20, 2009, with an option for the Company to extend the termination date to November 20, 2010. Each term loan bears interest at either an alternative base rate or a Eurodollar rate, at our option, in each case plus an applicable margin at terms identical to the unsecured revolving credit facility. As of September 30, 2008, there were two term loans outstanding totaling \$57.4 million that had a weighted average interest rate of 4.67%. The outstanding term loans are secured by a pledge by our Operating Partnership of all equity interests in YSI RT LLC, the wholly-owned subsidiary of the Operating Partnership that acquired eight self-storage facilities in September 2007 and one self-storage facility in May 2008. The nine YSI RT LLC assets had a net book value of approximately \$70.9 million at September 30, 2008.

7. DERIVATIVE FINANCIAL INSTRUMENTS

The Company's derivative instruments are limited to interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure. The counterparties to these arrangements are major financial institutions with which the Company and its subsidiaries may also have other financial relationships. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. While large-scale dislocation in the credit markets has resulted in an increased risk of counterparty defaults and non-performance on derivative contracts, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due. The Company does not hedge credit or property value market risks.

The Company formally assesses, both at inception of the hedge and on an on-going basis, whether each derivative is highly-effective in offsetting changes in cash flows of the hedged item. If management determines that a derivative is highly-effective as a hedge, it accounts for the derivative using hedge accounting, pursuant to which gains or losses inherent in the derivative do not impact the Company's results of operations. If management determines that a derivative is not highly-effective as a hedge or if a derivative ceases to be a highly-effective hedge, the Company will discontinue hedge accounting prospectively and will reflect such changes in its statement of operations realized and unrealized gains and losses in respect of the derivative.

The Company has entered into interest rate swap agreements that qualify and are designated as cash flow hedges designed to reduce the impact of interest rate changes on its variable rate debt. Therefore, the interest rate swaps are recorded in the condensed and consolidated balance sheets at fair value and the related gains or losses are reflected in shareholders' equity as Accumulated Other Comprehensive Income (Loss). These deferred gains and losses are amortized into interest expense during the period or periods in which the related interest payments affect earnings. However, to the extent that the interest rate swaps are not perfectly effective in offsetting the change in value of the interest payments being hedged, the ineffective portion of these contracts is recognized in earnings immediately. Ineffectiveness was immaterial for all periods presented.

At September 30, 2008, the Company had interest rate swap agreements for notional principal amounts aggregating \$300 million. The swap agreements effectively fix the 30-day LIBOR interest until November 2009.

8. FAIR VALUE MEASUREMENTS

As stated in Note 2 Summary of Significant Accounting Policies and Recent Accounting Pronouncements, on January 1, 2008, the Company adopted the methods of fair value as described in SFAS No. 157 to value its financial assets and liabilities. As defined in SFAS No. 157, fair value is based on the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, SFAS No. 157 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Financial assets and (liabilities) carried at fair value as of September 30, 2008 are classified in the table below in one of the three categories described above (dollars in thousands):

Level 1	Level 2	Level 3
---------	---------	---------

Edgar Filing: U-Store-It Trust - Form 10-Q

Interest Rate Swap Derivative Liabilities	\$	\$	(240)	\$
Total liabilities at fair value	\$	\$	(240)	\$

For financial liabilities that utilize Level 2 inputs, the Company utilizes both direct and indirect observable price quotes, including LIBOR yield curves, bank price quotes for forward starting swaps, NYMEX futures pricing and common stock price quotes. Below is a summary of valuation techniques for Level 2 financial liabilities:

- Interest rate swap derivative assets and liabilities valued using LIBOR yield curves at the reporting date. Counterparties to these contracts are most often highly rated financial institutions none of which experienced any significant downgrades in the three months ended September 30, 2008 that would reduce the receivable amount owed, if any, to the Company.

Although the Company has not elected the fair value option for financial assets and liabilities existing at January 1, 2008, any transacted financial asset or liability subsequent to that has been evaluated for the fair value election as prescribed by SFAS No. 159 and fair valued under the provisions of SFAS No. 157.

Table of Contents**9. MINORITY INTERESTS**

Operating Partnership minority interests relate to the interests in the Operating Partnership that are not owned by the Company, and at each of September 30, 2008 and December 31, 2007 amounted to approximately 8.1% of the ownership of the Operating Partnership. These minority interests were issued in the form of Operating Partnership units and were a component of the consideration the Company paid to acquire certain self-storage facilities. Limited partners who acquired Operating Partnership units have the right to require the Operating Partnership to redeem part or all of their Operating Partnership units for, at the Company's option, an equivalent number of common shares of the Company or cash based upon the fair market value of an equivalent number of common shares of the Company. The market value of the Company's common shares for this purpose will be equal to the average of the closing trading price of the Company's common shares on the New York Stock Exchange for the 10 trading days before the date the Company receives the redemption notice. As of September 30, 2008, the calculated aggregate redemption value of outstanding Operating Partnership units based upon the Company's stock price was approximately \$61.4 million. The table below presents unit activity from December 31, 2007 through September 30, 2008:

	Number of limited partnership units
As of December 31, 2007	5,079,928
Units issued	
Units redeemed	
As of September 30, 2008	5,079,928

10. RELATED PARTY TRANSACTIONSAmsdell Settlement/Rising Tide Acquisition

On September 14, 2007, the Company settled all pending state and federal court litigation involving the Company and the interests of Robert J. Amsdell and Barry L. Amsdell (each a former trustee), Todd C. Amsdell (a former executive officer) and Kyle Amsdell, son of Robert and brother of Todd Amsdell (collectively, the Amsdells), and Rising Tide Development LLC, a company owned and controlled by Robert J. Amsdell and Barry L. Amsdell (Rising Tide). The Board of Trustees of the Company, along with the Corporate Governance and Nominating Committee, approved the terms of the settlement.

In addition, on September 14, 2007, the Operating Partnership purchased 14 self-storage facilities from Rising Tide (the Rising Tide Properties) for an aggregate purchase price of \$121 million pursuant to a purchase and sale agreement. In connection with the settlement agreement and acquisition of the 14 self-storage facilities, the Company considered the provisions of EITF 04-01, *Accounting for Pre-existing Relationships between the Parties to a Business Combination*, and determined that all consideration paid was allocable to the purchase of the storage facilities.

Pursuant to a Settlement Agreement and Mutual Release, dated August 6, 2007, (the Settlement Agreement) which was conditioned upon the acquisition of the 14 self-storage facilities from Rising Tide for \$121 million, each of the parties to the agreement executed various agreements. A summary of the various agreements follows:

Edgar Filing: U-Store-It Trust - Form 10-Q

- *Standstill Agreement.* Robert J. Amsdell, Barry L. Amsdell and Todd C. Amsdell agreed they would not commence or participate in any proxy solicitation or initiate any shareholder proposal; take any action to convene a meeting of shareholders; or take any actions, including making any public or private proposal or announcement, that could result in an extraordinary corporate transaction relating to the Company. The standstill agreement terminated on April 20, 2008.
- *First Amendment to Lease.* The Operating Partnership and Amsdell and Amsdell, an entity owned by Robert and Barry Amsdell, entered into a First Amendment to Lease which modified certain terms of all of the lease agreements the Operating Partnership has with Amsdell and Amsdell for office space in Cleveland, Ohio. The First Amendment provided the Operating Partnership the ability to assign or sublease the office space previously used for its corporate office and certain operations. Separately, Amsdell and Amsdell consented to the Operating Partnership's proposed sublease to an unrelated party of approximately 22,000 square feet of office space covered by the aforementioned leases.

Table of Contents

- *Termination of Option Agreement.* The Operating Partnership and Rising Tide entered into an Option Termination Agreement that terminated an Option Agreement dated October 27, 2004, by and between the Operating Partnership and Rising Tide. The Option Agreement provided the Operating Partnership with an option to acquire Rising Tide's right, title and interest to 18 properties, including: the 14 Rising Tide Properties discussed above; three properties that the Operating Partnership acquired in 2005 pursuant to exercise of its option; and one undeveloped property that Rising Tide has the option to acquire and that was not acquired as a part of the purchase and sale agreement.

- *Termination of Property Management Agreement, and Marketing and Ancillary Services Agreement.* Certain of the Company's subsidiaries and Rising Tide entered into a Property Management Termination Agreement and a Marketing and Ancillary Services Termination Agreement. Under the Property Management Agreement, the Company provided property management services for the Rising Tide Properties for a fee equal to the greater of 5.35% of the gross revenues of each property or \$1,500 per property per month. Under the Marketing and Ancillary Services Agreement, the Company provided limited marketing and other miscellaneous services for the Rising Tide Properties. In connection with the termination of the Property Management Agreement, expenses relating to property management will be prorated.

- *Amendment of Employment and Non-Compete Agreements.* As part of the Settlement Agreement, the Company entered into a Modification of Noncompetition Agreement and Termination of Employment Agreement (each a "Modification of Noncompetition Agreement and Termination of Employment Agreement") with each of Robert J. Amsdell and Todd C. Amsdell, and a Modification of Noncompetition Agreement ("Modification of Noncompetition Agreement") with Barry L. Amsdell, which terminates and modifies specific provisions of the noncompetition agreement the Company has with each of them, dated October 27, 2004 (the "Original Noncompetition Agreements"). The Original Noncompetition Agreements restricted the ability of Robert J., Barry L. and Todd C. Amsdell to compete with the Company for one year and their ability to solicit employees of the Company for two years from the date of their termination employment or resignation from service as a Trustee. Pursuant to these modification agreements, Todd C. Amsdell will be able to compete with the Company, and Robert J. and Barry L. Amsdell will be able to (a) develop the one Rising Tide property that the Company did not acquire under the Purchase Agreement and (b) compete with respect to any property identified as part of a Section 1031 like-kind exchange referenced in the purchase agreement. Further, each Original Noncompetition Agreement was modified to allow each of them to hire, for any purpose, any employee or independent contractor who was terminated, has resigned or otherwise left the employment or other service of the Company or any of its affiliates on or prior to June 1, 2007.

The Modification and Noncompetition Agreement and Termination of Employment Agreement with each of Robert J. Amsdell and Todd C. Amsdell also terminated the employment agreements the Company had with each of them, effective as of February 13, 2007 with respect to Robert J. Amsdell and February 19, 2007 with respect to Todd C. Amsdell.

Office Leases

Edgar Filing: U-Store-It Trust - Form 10-Q

During 2005 and 2006, the Operating Partnership entered into various office lease agreements with Amsdell and Amsdell. Pursuant to these lease agreements, during 2006 we rented office space from Amsdell and Amsdell at The Parkview Building, a multi-tenant office building of approximately 40,000 square feet located at 6745 Engle Road, an office building of approximately 18,000 square feet located at 6751 Engle Road, and an office building of approximately 28,000 square feet located at 6779 Engle Road. Each of these properties is part of Airport Executive Park, a 50-acre office and flex development located in Cleveland, Ohio, which is owned by Amsdell and Amsdell. Our independent Trustees approved the terms of, and entry into, each of the office lease agreements by the Operating Partnership. During 2007, the Operating Partnership subleased certain of its lease agreements with Amsdell and Amsdell to a subtenant.

The table below shows the office space subject to these lease agreements and certain key provisions, including the term of each lease agreement, the period for which the Operating Partnership may extend the term of each lease agreement, and the minimum and maximum rents payable per month during the term. The table also shows the fixed minimum rents payable to us by the subtenant per month during the term.

(1) The Operating Partnership may extend the lease agreement beyond the termination date by the period set forth in this column at prevailing market rates upon the same terms and conditions contained in each of the lease agreements.

(2) The lease terminated as of the end of the stated term.

In addition to monthly rent, the office lease agreements provide that the Operating Partnership reimburse Amsdell and Amsdell for certain maintenance and improvements to the leased office space. The aggregate amount of payments by us to Amsdell and Amsdell under these lease agreements for each of the three months ended September 30, 2008 and September 30, 2007 was approximately \$0.1 million. Additionally, the aggregate amount of payments for each of the nine months ended September 30, 2008 and September 30, 2007 was approximately \$0.3 million.

Total future minimum rental payments under the related party lease agreements entered into as of September 30, 2008 are as follows:

During the fourth quarter of 2006, the Company engaged a consultant to assist in establishing certain development protocols and processes. In connection with that assignment, the outside consultant utilized the services of the son-in-law of Dean Jernigan, President and Chief Executive Officer of the Company. Our payments during the nine months ended September 30, 2008 and September 30, 2007 for Mr. Jernigan's son-in-law's services totaled \$157 thousand and \$110 thousand, respectively. Mr. Jernigan's son-in-law was hired as a full-time employee of the Company on September 15, 2008.

Table of Contents**11. PRO FORMA FINANCIAL INFORMATION**

During 2007, the Company acquired 17 self-storage facilities for an aggregate purchase price of approximately \$140.5 million. During 2008, the Company acquired one self-storage facility for a purchase price of approximately \$13.3 million.

The unaudited condensed consolidated pro forma financial information set forth below reflects adjustments to the Company's historical financial data to give effect to each of the acquisitions and related financing activity that occurred subsequent to January 1, 2007 as if each had occurred at the beginning of each period presented. The unaudited pro forma information presented below does not purport to represent what the Company's actual results of operations would have been for the periods indicated, nor does it purport to represent the Company's future results of operations.

The following table summarizes, on a pro forma basis, our consolidated results of operations for the nine months ended September 30, 2008 and 2007 based on the assumptions described above:

13. DISCONTINUED OPERATIONS

For the three and nine months ended September 30, 2008 and September 30, 2007, income from discontinued operations relates to 16 properties that the Company sold during 2008, five properties that were considered held-for-sale at September 30, 2008, and five properties that the Company sold during 2007. Each of the sales during 2008 resulted in the recognition of a gain, which in the aggregate totaled \$7.5 million and \$13.4 million for the three and nine months ended September 30, 2008, respectively.

The approximate gain on disposition of the held-for-sale properties is \$4.0 million and will be finalized as the sales are consummated.

14. LEASE ABANDONMENT CHARGE

In August 2007, the Company abandoned certain office space in Cleveland, Ohio that was previously used for its corporate offices. The related leases have expiration dates ranging from December 31, 2008 through December 31, 2014. Upon vacating the space, the Company entered into a sub-lease agreement with a sub-tenant to lease the majority of the space for the duration of the term.

As a result of this exit activity, the Company recognized a Lease abandonment charge of \$1.3 million during the three months ended September 30, 2007. The charge was comprised of approximately \$0.8 million of costs that represent the present value of the net cash flows associated with leases and the sub-lease agreement (Contract Termination Costs) and approximately \$0.5 million of costs associated with the write-off of certain assets related to the abandoned space (Other Associated Costs). The Contract Termination Costs of \$0.8 million are presented as Accounts payable and accrued rent and the Other Associated Costs of \$0.5 million were accounted for as a reduction of Storage facilities. The Company amortizes the Contract Termination Costs against rental expense over the remaining life of the respective leases.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. The Company makes certain statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in this report entitled Forward-Looking Statements. Certain risk factors may cause actual results, performance or achievements to differ materially from those expressed or implied by the following discussion. For a discussion of such risk factors, see the section in this report entitled Risk Factors.

Overview

The Company is an integrated self-storage real estate company, which means that it has in-house capabilities in the operation, design, development, leasing, and acquisition of self-storage facilities. The Company has elected to be taxed as a REIT for federal tax purposes. At September 30, 2008 and December 31, 2007, the Company owned 394 and 409 self-storage facilities, respectively, totaling approximately 25.4 million square feet and 26.1 million square feet, respectively.

The Company derives revenues principally from rents received from our customers who rent units at our self-storage facilities under month-to-month leases. Therefore, our operating results depend materially on our ability to retain our existing customers and lease our available self-storage units to new customers while maintaining and, where possible, increasing our pricing levels. In addition, our operating results are affected by the ability of our customers to make required rental payments to us. We believe that our decentralized approach to the management and operation of our facilities allows us to respond quickly and effectively to changes in local market conditions. Emphasis on local, market level oversight and control enhances our ability to optimize occupancy and pricing levels.

The Company experiences minor seasonal fluctuations in the occupancy levels of our facilities, which are generally slightly higher during the summer months due to increased activity in housing related moves.

The Company focuses on maximizing internal growth by selectively pursuing targeted acquisitions and development of self-storage facilities. In addition, we intend to selectively dispose of self-storage facilities that no longer meet our operating criteria or that we deem to be in areas that are no longer strategically important to us. We also may pursue joint ventures to acquire and/or develop self-storage facilities. We intend to incur additional debt in connection with any such future acquisitions or developments.

The Company has one reportable operating segment: we own, operate, develop, and acquire self-storage facilities.

Edgar Filing: U-Store-It Trust - Form 10-Q

The Company's self-storage facilities are located in major metropolitan areas as well as rural areas and have numerous tenants per facility. No single tenant represents 1% or more of our revenues. The facilities in Florida, California, Texas and Illinois provided approximately 19%, 15%, 8% and 7%, respectively, of total revenues during the nine months ended September 30, 2008. During the nine months ended September 30, 2007, the facilities in Florida, California, Texas and Illinois provided approximately 18%, 15%, 8% and 7%, respectively, of total revenues.

Summary of Critical Accounting Policies and Estimates

Set forth below is a summary of the accounting policies and estimates that management believes are critical to an understanding of the unaudited condensed consolidated financial statements included in this report. These policies require the application of judgment and assumptions by management and, as a result, are subject to a degree of uncertainty. Due to this uncertainty, actual results could differ from estimates calculated and utilized by management.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include all of the accounts of the Company, the Operating Partnership and the wholly-owned subsidiaries of the Operating Partnership.

Table of Contents

Self-Storage Facilities

The Company records self-storage facilities at cost less accumulated depreciation. Depreciation on the buildings and equipment is recorded on a straight-line basis over their estimated useful lives, which range from five to 39 years. Expenditures for significant renovations or improvements that extend the useful lives of assets are capitalized. Repairs and maintenance costs are expensed as incurred.

When facilities are acquired, the purchase price is allocated to the tangible and intangible assets acquired and liabilities assumed based on estimated fair values. When a portfolio of facilities is acquired, the purchase price is allocated to the individual facilities based upon an income approach or a cash flow analysis using appropriate risk adjusted capitalization rates, which take into account the relative size, age and location of the individual facility along with current and projected occupancy and rental rate levels or appraised values, if available. Allocations to the individual assets and liabilities are based upon comparable market sales information for land, buildings and improvements and estimates of depreciated replacement cost of equipment.

In allocating the purchase price, the Company determines whether the acquisition includes intangible assets or liabilities. Substantially all of the leases in place at acquired facilities are at market rates, as the majority of the leases are month-to-month contracts. Accordingly, to date no portion of the purchase price has been allocated to above- or below-market lease intangibles. To date, no intangible asset has been recorded for the value of tenant relationships, because the Company does not have any concentrations of significant tenants and the average tenant turnover is fairly frequent. The Company recorded a \$6.8 million intangible asset to recognize the value of in-place leases related to its acquisitions in 2007 and a \$1.0 million intangible asset to recognize the value of in-place leases related to its acquisition of a self-storage facility during the first quarter of 2008.

Long-lived assets classified as held for use are reviewed for impairment when events and circumstances indicate that there may be an impairment. The carrying values of these long-lived assets are compared to the undiscounted future net operating cash flows attributable to the assets. An impairment loss is recorded if the net carrying value of the asset exceeds the fair value based on its undiscounted future net operating cash flows attributable to the asset and circumstances indicate that the carrying value of the real estate asset may not be recoverable. The impairment loss recognized equals the excess of net carrying value over the related fair value of the asset.

The Company considers long-lived assets to be held for sale upon satisfaction of the following criteria: (a) management commits to a plan to sell a facility (or group of facilities), (b) the facility is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such facilities, (c) an active program to locate a buyer and other actions required to complete the plan to sell the facility have been initiated, (d) the sale of the facility is probable and transfer of the asset is expected to be completed within one year, (e) the facility is being actively marketed for sale at a price that is reasonable in relation to its current fair value, and (f) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Typically these criteria are all met when the relevant assets are under contract, significant non-refundable deposits have been made by the potential buyer, the assets are immediately available for transfer and there are no contingencies related to the sale that may prevent the transaction from closing. In most transactions, these contingencies are not satisfied until the actual closing of the transaction; and, accordingly, the facility is not identified as held for sale until the closing actually occurs. However, each potential transaction is evaluated based on its separate facts and circumstances.

Revenue Recognition

Management has determined that all of our leases with tenants are operating leases. Rental income is recognized in accordance with the terms of the lease agreements or contracts, which generally are month-to-month. Revenues from long-term operating leases are recognized on a straight-line basis over the term of the lease. The excess of rents recognized over amounts contractually due pursuant to the underlying leases is included in deferred revenue, and contractually due but unpaid rents are included in other assets.

Share-Based Payments

We apply the fair value method of accounting for contingently issued shares and share options issued under our incentive award plans. Accordingly, share compensation expense was recorded ratably over the vesting period relating to such contingently issued shares and options. The Company has elected to recognize compensation expense on a straight-line method over the requisite service

period. Compensation expense recorded for the three months ended September 30, 2008 and 2007 was approximately \$0.9 million and \$0.5 million, respectively, and \$2.6 million and \$1.3 million for the nine months ended September 30, 2008 and 2007, respectively.

Minority Interests

Minority Interests include income allocated to holders of the Operating Partnership units. Income is allocated to the minority interests based on their ownership percentage of the Operating Partnership. This ownership percentage, as well as the total net assets of the Operating Partnership, changes when additional shares of our common stock or Operating Partnership units are issued. Such changes result in an allocation between shareholders' equity and Minority Interests in the Consolidated Balance Sheets.

Recent Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). Under SFAS 162, the GAAP hierarchy will now reside in the accounting literature established by the FASB. SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. We believe that the adoption of this standard on its effective date will not have a material effect on our consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities - an Amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 enhances required disclosures regarding derivatives and hedging activities, including enhanced disclosures regarding how an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FASB Statement No. 133 and the impact of derivative instruments and related hedged items on an entity's financial position, financial performance and cash flows. SFAS 161 is effective on January 1, 2009. We believe that the adoption of this standard on January 1, 2009 will not have a material effect on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS 141(R)). SFAS 141(R) establishes principles and requirements for recognizing identifiable assets acquired, liabilities assumed, noncontrolling interest in the acquiree, goodwill acquired in the combination or the gain from a bargain purchase, and disclosure requirements. Under this revised statement, all costs incurred to effect an acquisition will be recognized separately from the acquisition. Also, restructuring costs that are expected but the acquirer is not obligated to incur will be recognized separately from the acquisition. SFAS 141(R) is effective for all transactions entered into on or after January 1, 2009. The Company is currently assessing the potential impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* (SFAS 160). FAS 160 requires that ownership interests in subsidiaries held by parties other than the parent are to be reported as equity. In addition, it requires that the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the income statement. SFAS 160 is effective on January 1, 2009. The Company is currently assessing the potential impact on our consolidated financial statements.

Edgar Filing: U-Store-It Trust - Form 10-Q

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value, with unrealized gains and losses related to these financial instruments reported in earnings at each subsequent reporting date. This statement was effective on January 1, 2008. We have not elected the fair value option for any of our existing financial instruments on the effective date and have not determined whether or not we will elect this option for any eligible financial instruments we acquire in the future.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides guidance for using fair value to measure assets and liabilities. This statement clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing the asset or liability. SFAS No. 157 establishes a fair value hierarchy, giving the highest priority to quoted prices in active markets and the lowest priority to unobservable data. SFAS No. 157 applies whenever other standards require assets or liabilities to be measured at fair value. This statement became effective for our financial assets and liabilities on January 1, 2008. The FASB has deferred the implementation of the provisions of SFAS No. 157

relating to certain nonfinancial assets and liabilities until January 1, 2009. This standard did not materially affect how we determine fair value, but resulted in certain additional disclosures.

Results of Operations

The following discussion of our results of operations should be read in conjunction with the unaudited condensed consolidated financial statements and the accompanying notes thereto. Historical results set forth in the condensed consolidated statements of operations reflect only the existing facilities and should not be taken as indicative of future operations.

Acquisition and Development Activities

The comparability of the Company's results of operations is affected by acquisition and disposition activities in 2008 and 2007. At September 30, 2008 and 2007, the Company owned 394 and 411 self-storage facilities and related assets, respectively.

The following table summarizes the acquisition and disposition activity that the Company completed during the period January 1, 2007 to September 30, 2008:

Total Revenues

Rental income increased from \$51.8 million for the three months ended September 30, 2007 to \$56.1 million for the three months ended September 30, 2008, an increase of \$4.3 million, or 8%. This increase is attributable to additional rental income from the same-store properties of \$1.9 million as a result of increases in effective rental rates, as well as additional rental income from the 2007 and 2008 acquisitions.

Other property related income increased from \$4.1 million for the three months ended September 30, 2007 to \$4.6 million for the three months ended September 30, 2008, an increase of \$0.5 million, or 12%. This increase is primarily attributable to a \$0.6 million increase in

administrative fees earned from the same-store properties.

Table of Contents

Other related party decreased from \$0.1 million for the three months ended September 30, 2007 to \$0 for the three months ended September 30, 2008 due to a decrease in third party management fee income pursuant to the termination of the Rising Tide property management agreement in September 2007.

Total Operating Expenses

Property operating expenses, including Property operating expenses related party, increased from \$24.1 million for the three months ended September 30, 2007 to \$25.8 million for the three months ended September 30, 2008, an increase of \$1.7 million, or 7%. This increase is primarily attributable to additional expense from the same-store properties of \$0.2 million, as well as additional operating expenses from the 2007 and 2008 acquisitions of \$1.4 million.

Depreciation expense increased from \$16.6 million for the three months ended September 30, 2007 to \$19.4 million for the three months ended September 30, 2008, an increase of \$2.8 million or 17%. The increase is primarily attributable to additional depreciation expense related to the 2007 and 2008 acquisitions.

In August 2007, the Company abandoned certain office space in Cleveland, OH that was previously used for its corporate offices. The related leases have expiration dates ranging from December 31, 2008 through December 31, 2014. Upon vacating the space, the Company entered into a sub-lease agreement with a sub-tenant to lease the majority of the space for the duration of the term. As a result of this exit activity, the Company recognized a Lease abandonment charge of \$1.3 million during the three months ended September 30, 2007.

General and administrative expenses, including General and administrative related party, increased from \$5.3 million for the three months ended September 30, 2007 to \$5.8 million for the three months ended September 30, 2008, an increase of \$0.5 million, or 9%. The primary source of the increase is additional amortization of equity compensation of \$0.3 million.

Total Other Expenses

Interest expense decreased from \$13.7 million for the three months ended September 30, 2007 to \$12.8 million for the three months ended September 30, 2008, a decrease of \$0.9 million, or 7%. Although additional debt was incurred to finance certain 2007 and 2008 acquisitions, lower interest rates on unsecured debt in 2008 resulted in a decrease to overall interest expense. The weighted average interest rate for unsecured borrowings was 4.76% and 6.35% as of September 30, 2008 and September 30, 2007, respectively.

Discontinued Operations

Edgar Filing: U-Store-It Trust - Form 10-Q

Gains on disposition of discontinued operations increased to \$7.5 million for the three months ended September 30, 2008 as a result of the sale of nine assets during the 2008 period as compared to no sales during the 2007 period.

Other related party decreased from \$0.3 million for the nine months ended September 30, 2007 to \$0 for the nine months ended September 30, 2008 due to a decrease in third party management fee income pursuant to the termination of the Rising Tide property management agreement in September 2007.

Total Operating Expenses

Property operating expenses, including Property operating expenses related party, increased from \$67.6 million for the nine months ended September 30, 2007 to \$75.3 million for the nine months ended September 30, 2008, an increase of \$7.7 million, or 11%. This increase is primarily attributable to additional expense from the same-store properties of \$0.3 million in marketing expense, \$0.6 million of personnel expense, \$0.9 million of real estate taxes and \$0.6 million of utilities expense, as well as additional operating expenses from the 2007 and 2008 acquisitions of \$5.3 million.

Depreciation expense increased from \$49.1 million for the nine months ended September 30, 2007 to \$58.9 million for the nine months ended September 30, 2008, an increase of \$9.8 million, or 20%. The increase is primarily attributable to additional depreciation expense related to the 2007 and 2008 acquisitions.

In August 2007, the Company abandoned certain office space in Cleveland, OH that was previously used for its corporate offices. The related leases have expiration dates ranging from December 31, 2008 through December 31, 2014. Upon vacating the space, the Company entered into a sub-lease agreement with a sub-tenant to lease the majority of the space for the duration of the term. As a result of this exit activity, the Company recognized a Lease abandonment charge of \$1.3 million during the nine months ended September 30, 2007.

General and administrative expenses, including General and administrative related party, increased from \$17.1 million for the nine months ended September 30, 2007 to \$17.8 million for the nine months ended September 30, 2008, an increase of \$0.7 million, or 4%. The primary source of the increase is (i) approximately \$0.6 million of due diligence costs that were written off during the 2008 period and (ii) \$1.3 million of increased amortization of equity compensation during the 2008 period as compared to the 2007 period, offset by (iii) \$1.2 million of non-recurring legal costs incurred during the 2007 period.

Total Other Expenses

Interest expense increased from \$39.4 million for the nine months ended September 30, 2007 to \$39.6 million for the nine months ended September 30, 2008, an increase of \$0.2 million, or 0.5%. The change is primarily attributable to additional debt incurred to finance certain 2007 and 2008 acquisitions, which resulted in additional interest expense during the 2008 period. However, lower interest rates on unsecured debt in 2008 and loan repayments reduced the overall increase in interest expense.

Discontinued Operations

Edgar Filing: U-Store-It Trust - Form 10-Q

Gains on disposition of discontinued operations increased from \$2.1 million for the nine months ended September 30, 2007 to \$13.4 million for the nine months ended September 30, 2008 as a result of the sale of 16 assets during the 2008 period as compared to three asset sales during the 2007 period.

Same-store total revenues increased from \$54.5 million for the three months ended September 30, 2007 to \$56.8 million for the three months ended September 30, 2008, an increase of \$2.3 million, or 4%, primarily attributable to a 3.7% increase in effective rental rates on the same-store portfolio during the 2008 period as compared to the 2007 period. Same-store property operating expenses increased from \$21.9 million for the three months ended September 30, 2007 to \$22.1 million for the three months ended September 30, 2008, an increase of \$0.2 million, or 1%. The increase related primarily to year-over-year increases in utility expense of \$0.3 million and real estate tax expense of \$0.2 million offset by a decrease in repair and maintenance expense of \$0.3 million.

Non GAAP Financial Measures -

NOI

We define net operating income, which we refer to as *NOI*, as total continuing revenues less continuing property operating expenses. *NOI* also can be calculated by adding back to net income (loss): interest expense on loans, loan procurement amortization expense, minority interests, minority interest attributable to discontinued operations, depreciation, general and administrative and

Edgar Filing: U-Store-It Trust - Form 10-Q

Table of Contents

general and administrative related party; and deducting from net loss: income from discontinued operations, gains on disposition of discontinued operations, other and interest income. NOI is not a measure of performance calculated in accordance with GAAP.

We use NOI as a measure of operating performance at each of our facilities, and for all of our facilities in the aggregate. NOI should not be considered as a substitute for operating income, net income, cash flows provided by operating, investing and financing activities, or other income statement or cash flow statement data prepared in accordance with GAAP.

We believe NOI is useful to investors in evaluating our operating performance because:

- It is one of the primary measures used by our management and our facility managers to evaluate the economic productivity of our facilities, including our ability to lease our facilities, increase pricing and occupancy, and control our property operating expenses;
- It is widely used in the real estate industry and the self-storage industry to measure the performance and value of real estate assets without regard to various items included in net income that do not relate to or are not indicative of operating performance, such as depreciation and amortization, which can vary depending upon accounting methods and the book value of assets; and
- We believe it helps our investors to meaningfully compare the results of our operating performance from period to period by removing the impact of our capital structure (primarily interest expense on our outstanding indebtedness) and depreciation of our basis in our assets from our operating results.

There are material limitations to using a measure such as NOI, including the difficulty associated with comparing results among more than one company and the inability to analyze certain significant items, including depreciation and interest expense, that directly affect our net income. We compensate for these limitations by considering the economic effect of the excluded expense items independently as well as in connection with our analysis of net income. NOI should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with GAAP, such as total revenues, operating income and net income.

Cash Flows

Comparison of the Nine Months Ended September 30, 2008 to the Nine Months Ended September 30, 2007

Edgar Filing: U-Store-It Trust - Form 10-Q

A comparison of cash flow operating, investing and financing activities for the nine months ended September 30, 2008 and 2007 is as follows:

	Nine Months Ended September 30,		
	2008	2007	Change
	(in thousands)		
<u>Net cash flow provided by (used in):</u>			
Operating activities	\$ 53,205	\$ 45,537	\$ 7,668
Investing activities	\$ 14,589	\$ (144,688)	\$ 159,277
Financing activities	\$ (69,771)	\$ 85,338	\$ (155,109)

Cash provided by operating activities increased from \$45.5 million in 2007 to \$53.2 million in 2008, an increase of \$7.7 million, or 17%. The increase is primarily attributable to additional net operating income of \$7.4 million for the 2008 period and a decrease in the change in other assets of \$4.7 million, offset by an increase in the change in accounts payable and accrued expenses of \$3.5 million, an increase in general and administrative expense of \$0.7 million in the 2008 period as compared to the 2007 period, and an increase of \$0.2 million of interest expense in the 2008 period as compared to the 2007 period.

Cash used in or provided by investing activities changed from a use of \$144.7 million in 2007 to proceeds of \$14.6 million in 2008, a change of \$159.3 million. The change in cash related to investing activities is primarily attributable to (i) higher acquisition activity in the 2007 period (17 facilities for an aggregate purchase price of \$140.5 million) relative to the 2008 period (one facility for an aggregate purchase price of \$13.3 million), (ii) proceeds from dispositions during 2008 of \$43.2 million compared to proceeds from dispositions during 2007 of \$12.1 million and (iii) a decrease in the change in restricted cash of \$2.5 million in the 2008 period as compared to the 2007 period.

Table of Contents

Cash used in or provided by financing activities changed from proceeds of \$85.3 million in 2007 to a use of \$69.8 million in 2008, a change of \$155.1 million. The change is primarily attributable to net borrowings of \$140.0 million during the 2007 period as compared to net principal payments of \$35.7 million in the 2008 period and a dividend decrease to \$0.54 per share in 2008 from \$0.87 in 2007 per share, which reduced distributions paid to shareholders and minority partners by \$20.6 million during the 2008 period compared to the 2007 period.

Liquidity and Capital Resources

As of September 30, 2008, we had approximately \$2.5 million in available cash and cash equivalents. In addition, we had approximately \$67.3 million of available borrowings under our revolving credit facility.

In November 2006, we and our Operating Partnership entered into a three-year, \$450.0 million unsecured credit facility with Wachovia Capital Markets, LLC and Keybank Capital Markets, replacing our existing \$250.0 million unsecured revolving credit facility. The facility consists of a \$200 million term loan and a \$250 million revolving credit facility. The facility has a three-year term with a one-year extension option and scheduled termination in November 2009. We have the option to extend the scheduled termination of the facility to November 2010. Borrowings under the credit facility bear interest, at our option, at either an alternative base rate or a Eurodollar rate, in each case, plus an applicable margin based on our leverage ratio or our credit rating. The alternative base interest rate is a fluctuating rate equal to the higher of the prime rate or the sum of the federal funds effective rate plus 50 basis points. The applicable margin for the alternative base rate will vary from 0.00% to 0.50% depending on our leverage ratio prior to achieving an investment grade rating, and will vary from 0.00% to 0.25% depending on our credit rating after achieving an investment grade rating. The Eurodollar rate is a rate of interest that is fixed for interest periods of one, two, three or nine months based on the LIBOR rate determined two business days prior to the commencement of the applicable interest period. The applicable margin for the Eurodollar rate will vary from 1.00% to 1.50% depending on our leverage ratio prior to achieving an investment grade rating, and will vary from 0.425% to 1.00% depending on our credit rating after achieving an investment grade rating.

Our ability to borrow under this credit facility will be subject to our ongoing compliance with the following financial covenants, among others:

- Maximum total indebtedness to total asset value of 65%;
- Minimum interest coverage ratio of 2.0:1.0;
- Minimum fixed charge coverage ratio of 1.6:1.0; and

Edgar Filing: U-Store-It Trust - Form 10-Q

- Minimum tangible net worth of \$673.2 million plus 75% of net proceeds from future equity issuances.

On September 14, 2007, the Company and its Operating Partnership entered into a credit agreement that allowed for total secured term loan borrowings of \$50.0 million and subsequently amended the agreement on April 3, 2008 to allow for total secured term loan borrowings of \$57.4 million. Each term loan matures in November 2009, with an option for the Company to extend the termination date to November 20, 2010. Each term loan bears interest at either an alternative base rate or a Eurodollar rate, at our option, in each case plus an applicable margin at terms identical to the unsecured revolving credit facility. As of September 30, 2008, there were two secured term loans outstanding totaling \$57.4 million. The outstanding term loans are secured by a pledge by our Operating Partnership of all equity interests in YSI RT LLC, the wholly-owned subsidiary of our Operating Partnership that acquired eight self-storage facilities in September 2007 and one self-storage facility in May 2008. At September 30, 2008, the outstanding term loans had an interest rate of 4.67%. Financial covenants for the secured term loans are identical to the financial covenants for the unsecured credit facility described above.

During 2007 and 2008, the Company entered into interest rate swap agreements designated as cash flow hedges that are designed to reduce the impact of interest rate changes on its variable rate debt. At September 30, 2008, the Company had interest rate swap agreements for notional principal amounts aggregating \$300 million. The swap agreements effectively fix the 30-day LIBOR interest rate on \$50 million of credit facility borrowings at 4.7725% per annum, \$25 million of credit facility borrowings at 4.716% per annum and on \$25 million of credit facility borrowings at 2.3400% per annum, in each case until November 2009. Additionally, the Company entered into interest rate cap agreements on \$40 million of credit facility borrowings at 5.50% per annum that matured in June 2008. In April 2008, the Company entered into an interest rate swap agreement for notional principal amounts aggregating \$200

million, that effectively fix the 30-day LIBOR interest rate on \$200 million of LIBOR based borrowings at 2.7625% per annum until November 2009. The notional amount at September 30, 2008 provides an indication of the extent of the Company's involvement in these instruments at that time, but does not represent exposure to credit, interest rate or market risks. The Company is exposed to the potential risk of counterparty default or non-payment with respect to its interest rate swap agreements, in which event the Company could suffer a material loss on the value of those agreements; however, the Company does not currently believe that its counterparties on its swap agreements are likely to default or not perform their obligations under those agreements.

Our cash flow from operations has historically been one of our primary sources of liquidity to fund debt service, distributions and capital expenditures. We derive substantially all of our revenue from customers who lease space from us at our facilities. Therefore, our ability to generate cash from operations is dependent on the rents that we are able to charge and collect from our customers. We believe that the facilities in which we invest self-storage facilities are less sensitive to near-term economic downturns. Prolonged economic downturns will adversely affect cash flow from operations.

In order to qualify as a REIT for federal income tax purposes, we are required to distribute at least 90% of our REIT taxable income, excluding capital gains, to our shareholders on an annual basis or pay federal income tax. The nature of our business, coupled with the requirement that we distribute a substantial portion of our income on an annual basis, will cause us to have substantial liquidity needs over both the short term and the long term.

Our short-term liquidity needs consist primarily of funds necessary to pay operating expenses associated with our facilities, refinancing of certain mortgage indebtedness, interest expense and scheduled principal payments on debt, expected distributions to limited partners and shareholders and recurring capital expenditures. These expenses, as well as the amount of recurring capital expenditures that we incur, will vary from year to year, in some cases significantly. For each of the years ended 2008, 2009 and 2010 we expect to incur costs totaling \$8 to \$12 million for recurring capital expenditures. In addition, our scheduled principal payments on debt are approximately \$2 million over the balance of 2008, \$94 million in 2009 and \$552 million in 2010 (assuming we elect to extend the termination dates for our credit facility, unsecured and secured term loans as discussed above).

The current credit-market turmoil has significantly affected our ability to obtain additional capital in the near term. We expect to meet our short-term liquidity needs through a combination of the following activities: cash generated from operations, borrowings under our revolving credit facility, additional debt financings, the issuance of public equity or debt instruments, and proceeds from future sales of existing properties or joint venture formations. We expect to generate cash from operations to satisfy expected distributions to limited partners and shareholders, fund recurring capital expenditures and to satisfy debt service excluding debt maturities.

To the extent the credit markets remain dislocated, the ability to obtain and refinance debt could be difficult. If market conditions continue to deteriorate and our short-term liquidity needs require immediate attention, we have the ability to generate cash by accelerating sales of existing properties. Also, we may raise additional funds in order to respond to competitive pressures or take advantage of unanticipated opportunities. Our most restrictive debt covenants limit the amount of additional leverage we can add; however, we believe the sources of capital described above are adequate to execute our current business plan and remain in compliance with our debt covenants.

Our long-term liquidity needs consist primarily of funds necessary to pay for development of new facilities, redevelopment of operating facilities, non-recurring capital expenditures, acquisitions of facilities and repayment of indebtedness at maturity. In particular, we intend to actively pursue the acquisition of additional facilities, which will require additional capital. We do not expect that we will have sufficient funds on hand to cover these long-term cash requirements. We anticipate that we will have to satisfy these needs through a combination of the

Edgar Filing: U-Store-It Trust - Form 10-Q

following activities: either cash generated from operations, borrowings under our revolving credit facility, additional debt financings, the issuance of public equity or debt instruments, or proceeds from future sales of existing properties or joint venture formations.

We believe that, as a publicly traded REIT, we will have access to multiple sources of capital to fund long-term liquidity requirements, including the incurrence of additional debt and the issuance of additional equity. However, we cannot provide any assurance that this will be the case. Our ability to incur additional debt will be dependent on a number of factors, including our degree of leverage, the value of our unencumbered assets and borrowing restrictions that may be imposed by lenders. In addition, the current dislocation in the United States debt markets has significantly reduced the availability and increased the cost of long-term debt capital, including conventional mortgage financing and commercial mortgage-backed securities financing. There can be no assurance that such capital will be readily available in the foreseeable future. Our ability to access the equity capital markets will be dependent on a number of factors as well, including general market conditions for REITs and market perceptions about us.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's future income, cash flows and fair values relevant to financial instruments depend upon prevailing interest rates.

Market Risk

Our investment policy relating to cash and cash equivalents is to preserve principal and liquidity while maximizing the return through investment of available funds. The carrying value of these investments approximates fair value on the reporting dates.

Effect of Changes in Interest Rates on our Outstanding Debt

The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market rates. The range of changes chosen reflects our view of changes which are reasonably possible over a one-year period. Market values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of September 30, 2008, our consolidated debt consisted of \$551.3 million in fixed rate loans, \$182.7 million in borrowings under our variable rate revolving credit facility, \$200.0 million in a variable rate unsecured term loan and \$57.4 million in a variable rate secured term loan. All financial instruments were entered into for other than trading purposes and the net market value of these financial instruments is referred to as the net financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the net financial instrument position, but has no impact on interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the net financial instrument position.

If market rates of interest on our variable rate debt increase by 1%, the increase in annual interest expense on our variable rate debt would decrease future earnings and cash flows by approximately \$4.4 million a year. If market rates of interest on our variable rate debt decrease by 1%, the decrease in interest expense on our variable rate debt would increase future earnings and cash flows by approximately \$4.4 million a year.

If market rates of interest increase by 1%, the fair value of our outstanding fixed-rate mortgage debt would decrease by approximately \$16.0 million. If market rates of interest decrease by 1%, the fair value of our outstanding fixed-rate mortgage debt would increase by approximately \$16.7 million.

During 2007 and 2008, the Company entered into interest rate swap agreements designated as cash flow hedges that are designed to reduce the impact of interest rate changes on its variable rate debt. At September 30, 2008, the Company had interest rate swap agreements for notional

principal amounts aggregating \$300 million. The swap agreements effectively fix the 30-day LIBOR interest rate on \$50 million of credit facility borrowings at 4.7725% per annum, \$25 million of credit facility borrowings at 4.716% per annum and on \$25 million of credit facility borrowings at 2.3400% per annum, in each case until November 2009. Additionally, the Company entered into interest rate cap agreements on \$40 million of credit facility borrowings at 5.50% per annum until it matured in June 2008. In April 2008, the Company entered into an interest rate swap agreement for notional principal amounts aggregating \$200 million, that effectively fix the 30-day LIBOR interest rate on \$200 million of LIBOR based borrowings at 2.7625% per annum until November 2009. The notional amount at September 30, 2008 provides an indication of the extent of the Company's involvement in these instruments at that time, but does not represent exposure to credit, interest rate or market risks.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based on that evaluation, the CEO and the CFO have concluded that our disclosure controls and procedures are effective.

Changes in Internal Controls Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during our most recent fiscal quarter, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about repurchases of the Company's common shares during the three-month period ended September 30, 2008:

	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans (2)
July	N/A	N/A	N/A	3,000,000
August	N/A	N/A	N/A	3,000,000
September	N/A	N/A	N/A	3,000,000
Total	N/A		N/A	3,000,000

(1) Represents common shares withheld by the Company upon the vesting of restricted shares to cover employee tax obligations.

(2) On June 27, 2007, the Company announced that the Board of Trustees approved a share repurchase program for up to 3.0 million of the Company's outstanding common shares. Unless terminated earlier by resolution of the Board of Trustees, the program will expire when the number of authorized shares has been repurchased. The Company has made no repurchases under this program.

ITEM 5. OTHER INFORMATION

On November 6, 2008, the Board of Trustees of the Company (the Board) approved and adopted Second Amended and Restated Bylaws of the Company (the Bylaws) to make the following changes to the previous bylaws of the Company:

- remove the requirement that annual meetings of shareholders be held during the month of May;
- clarify that a special meeting of shareholders for the purpose of electing trustees will only be called at the direction of the Board;
- provide that a meeting of shareholders may be adjourned by the chairman of the meeting to a date within 120 days of the record date for the adjourned meeting without providing notice other than at the adjourned meeting;
- allow for the continued transaction of business at a meeting of shareholders if a quorum is established but ceases to be present as the result of the withdrawal of enough shareholders to leave less than a quorum;
- clarify that shareholders may vote by electronic means;
- provide for alternative timing for the delivery of shareholder proposals if the annual meeting is advanced or delayed by more than 30 days from the anniversary of the date of the preceding year's annual meeting (the bylaws previously provided for such alternative timing if the date of the mailing of the notice for such meeting was advanced or delayed by more than 30 days from the anniversary of the date of the mailing of notice for the preceding year's annual meeting);
- clarify that an adjournment of an annual meeting of shareholders until a later time does not commence a new period of time for shareholders to provide advance notice of trustee nominations or business proposals;
- update and/or clarify the disclosure required to be made to the Company by shareholders that desire to make a trustee nomination or business proposal to be considered at an annual or special meeting of shareholders to include:

- all material relationships between the shareholder and persons associated with the shareholder, and any trustee nominees;
- all direct and indirect ownership interests and securities, including derivative holdings, in the Company, and all short positions with respect to the Company's securities, held by the shareholder, persons associated with the shareholder and trustee nominees;

Table of Contents

- the date(s) on which the shareholder, persons associated with the shareholder and any trustee nominees acquired such any such ownership interest and securities or short positions;
- any understandings between the shareholder or persons associated with the shareholder, and any other persons, in connection with the nomination of any person for election as a trustee;
- whether or not the shareholder intends to solicit proxies in support of the proposed nomination or business; and
- completed written questionnaire by trustee nominees regarding their qualifications and background in the form to be provided by the Company;
- clarify that shareholder trustee nominations or business proposals must be submitted in accordance with the advance notice provisions of the Bylaws to be considered at a special meeting of shareholders;
- require that shareholders notify the Company of any material inaccuracy or change in information submitted by such shareholders in connection with trustee nominations or business proposals to be considered at an annual or special meeting of shareholders;
- clarify that advancement of expenses related to legal proceedings involving trustees and officers of the Company does not require a preliminary determination of the trustee s or officer s ultimate entitlement to indemnification; and
- otherwise clarify and update the Bylaws.

The amendments to the Bylaws became effective on November 6, 2008 in accordance with resolutions adopted by the Board. The foregoing description of the amendments to the Bylaws is qualified in its entirety by reference to the full text of the Second Amended and Restated Bylaws of the Company, which is filed as Exhibit 3.2 to this Quarterly Report on Form 10-Q.
