-

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e)

(1) At the 2010 Annual Meeting of Stockholders of the Company (the "Annual Meeting"), stockholders of the Company approved the amendment and restatement of the Company's Long-Term Stock Incentive Compensation Program (the "Long-Term Stock Program") by the affirmative vote of a majority of the shares of common stock represented at the Annual Meeting, in person or by proxy, and entitled to vote. Pursuant to the amended and restated Long-Term Stock Program, among other things (i) the total number of shares of common stock available for issuance under the Long-Term Stock Program was increased by 1,500,000 shares, and (ii) the number of shares of common stock that may be granted in the form of restricted stock and restricted stock units was increased by 500,000 shares. The description of the amended and restated Long-Term Stock Program is qualified in its entirety by reference to the Long-Term Stock Program, as incorporated by reference to Appendix A to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.

(2) At the Annual Meeting, stockholders of the Company approved the amendment and restatement of the Company's Nonemployee Directors Stock Incentive Program (the "Nonemployee Directors Program") by the affirmative vote of a majority of the shares of common stock represented at the Annual Meeting, in person or by proxy, and entitled to vote. Pursuant to the amended and restated Nonemployee Directors Program, among other things (i) the total number of shares of common stock available for issuance under the Nonemployee Directors Program was increased by 100,000 shares, and (ii) the expiration date of the Nonemployee Directors Program was extended to April 1, 2020. The description of the amended and restated Nonemployee Directors Program is qualified in its entirety by reference to the Nonemployee Directors Program, as incorporated by reference to Appendix B to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.

(3) At the Annual Meeting, stockholders of the Company approved the 2010 Edwards Incentive Plan (the "Incentive Plan") by the affirmative vote of a majority of the shares of common stock represented at the Annual Meeting, in person or by proxy, and entitled to vote. Under the Incentive Plan, the Compensation and Governance Committee of the Board (the "Compensation Committee") may grant to participants incentive compensation bonus awards structured to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). For each fiscal year, the Compensation Committee establishes a target for each participant and the performance goals to be satisfied for the participant to be paid a bonus. The performance goals may be based upon any of the measures described in the Incentive Plan. The maximum bonus payable to any participant in any fiscal year may not exceed \$2,500,000. The description of the Incentive Plan is qualified in its entirety by reference to the Incentive Plan, as incorporated by reference to Appendix C to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.

(4) The Company has announced a two-for-one stock split of its outstanding shares of common stock effected in the form of a stock dividend, to be paid on May 27, 2010 to shareholders of record on May 14, 2010. The share amounts set forth above are without giving effect to the stock split.

Item 5.07. Submission of Matters to a Vote of Security Holders

At the Annual Meeting held on May 13, 2010, (i) three directors were elected to serve for three-year terms on the Board, (ii) the amended and restated Long-Term Stock Program was approved (iii) the amended and restated Nonemployee Directors Program was approved, (iv) the Incentive Plan was approved, and (v) the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year 2010 was ratified. Set forth below are the voting results for these proposals:

	For	Against	Abstain	Broker Non-Votes
(i) Election of Directors				
(a) Robert A. Ingram	44,254,499	2,605,233	72,845	3,611,202
(b) William J. Link, Ph.D.	46,511,086	348,933	72,559	3,611,202
(c) Wesley W. von Schack	46,748,377	106,482	77,719	3,611,202
(ii) Approval of the Long-Term Stock Program	42,216,902	4,585,328	130,348	3,611,202
(iii) Approval of the Nonemployee Directors Program	42,738,227	4,051,706	142,645	3,611,202
(iv) Approval of the Incentive Plan	45,438,136	1,371,130	123,312	3,611,202
(v) Ratification of the Appointment of PricewaterhouseCoopers as the Company's Independent Registered Public Accounting Firm for 2010	49,855,497	615,146	73,136	0

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits

10.1 Amended and Restated Long-Term Stock Incentive Compensation Program (incorporated by reference to Appendix A to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.)

10.2 Amended and Restated Nonemployee Directors Stock Incentive Program (incorporated by reference to Appendix B to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.)

10.3 2010 Edwards Incentive Plan, (incorporated by reference to Appendix C to Edwards Lifesciences' Definitive Proxy Statement filed March 31, 2010, under the Securities Exchange Act of 1934.)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

4. Operating Segments

We report our results of operations from one identifiable segment, with four service lines: home infusion and related healthcare services, specialty infusion pharmacy services, specialty distribution pharmacy services, and other.

Home infusion and related healthcare services primarily involve the intravenous administration of medications treating a wide range of acute and chronic health conditions such as infections, nutritional deficiencies and cancer.

These services offer health plans a proven, reliable and cost effective alternative to intravenous administration of medications within a hospital setting or physician office. These services are primarily provided in the patient's home, but may also be provided at one of the Company's ambulatory treatment centers and involve intensive clinical coordination between our pharmacy and nursing staff, the patient, the prescribing physician, and payor case managers.

All of our company-owned home infusion pharmacies provide infusion pharmacy services. Several of our company-owned pharmacies also provide home health nursing services, respiratory therapy services and home medical equipment sales and rentals. We also have one location that provides home hospice services.

Specialty pharmacy services, which include **specialty infusion pharmacy services** and **specialty distribution pharmacy services**, involve the distribution of high cost pharmaceuticals, as well as related support services, to treat a wide range of chronic

Table of Contents

health conditions. These services provide patients with a comprehensive program to effectively manage their illness, provide payors with a cost effective solution to manage fast growing and very expensive therapies, and provide drug manufacturers with improved drug utilization and patient compliance. We are the leading integrated provider of nationwide delivery of specialty distribution pharmacy services and locally delivered specialty infusion pharmacy services. Our operations provide the necessary national and local capabilities to manage the entire spectrum of low-touch to high touch specialty pharmacy medications including orals, injectables, and infused products. We purchase specialty pharmaceuticals from manufacturers and wholesale distributors, fill prescriptions provided by physicians, and label, package and deliver the pharmaceuticals to patients homes or physicians offices, either ourselves or through contract couriers. These pharmaceuticals may require refrigeration during shipping as well as special handling to prevent potency degradation.

Specialty infusion pharmacy services are those specialty pharmaceuticals that are delivered through our local pharmacies. These therapies may require administration to the patient at the patient s home or at one of our ambulatory infusion centers. Patients receiving treatment are often provided special counseling and education regarding their condition and treatment program as well as on-going compliance support.

Specialty distribution pharmacy services are designed to provide cost effective pharmaceutical distribution and support services for the management of high cost injectable and oral therapies treating many chronic health conditions. The Company s specialty distribution pharmacy facilities provide a centralized source for patient intake, customer service, pharmaceutical management and distribution, and compliance and reimbursement support. The operations are designed to maximize throughput through the effective utilization of automation, call center technology, and a dedicated information technology platform customized for the operating requirements of the specialty marketplace.

Other revenue primarily consists of royalties and other fees generated from our franchised pharmacy network.

5. Significant Customers and Concentration of Credit Risk

We generate the majority of our revenue from managed care contracts and other agreements with commercial third party payors by our provision of health care services to their members. We have multiple managed care contracts with Blue Cross and Blue Shield of Florida and Blue Cross and Blue Shield of Michigan, to whose members we provide infusion pharmacy services and specialty pharmacy services. The most significant Blue Cross and Blue Shield of Florida contract is for specialty distribution pharmacy services and is terminable by either party on 90 days notice. Unless terminated, this contract automatically renews each September for an additional one-year term. We signed and fully implemented a specialty distribution pharmacy services contract with Blue Cross and Blue Shield of Michigan (BCBSM) and Blue Care Network (BCN), during 2006, to be the exclusive supplier of specialty pharmacy drugs and services to their members. The Agreement shall remain in force for an initial term ending September 30, 2009, with an automatic one year renewal unless written notice of termination is given by BCBSM or BCN. We also generate revenue from government healthcare programs such as Medicare and Medicaid.

The following table sets forth information regarding revenue and accounts receivable related to our most significant payors as of the dates and for the periods presented:

	Revenue		Accounts Receivable	
	Three months ended		March	December
	March 31,	March 31,	31,	31,
	2007	2006	2007	2006
Blue Cross and Blue Shield of Florida	11%	13%	10%	9%
Blue Cross and Blue Shield of Michigan	10%		3%	4%
Medicaid	17%	12%	10%	10%
Medicare	8%	8%	9%	9%
All other payors (1)	54%	67%	68%	68%
Total	100%	100%	100%	100%

(1)

No other payor represents 10% or more of revenue or accounts receivable as of the dates and for the periods presented.

Table of Contents**6. Seasonal Revenue Trends**

Synagis[®], one of the specialty pharmaceuticals that we provide to patients, is seasonal. Synagis[®] is a drug used for the prevention of respiratory syncytial virus (RSV) in high-risk pediatric patients. RSV infection is a seasonal condition, with the season generally lasting from October through April.

Option Care's quarterly Synagis[®] revenue for the year 2006 and the first quarter of 2007 was as follows (in thousands):

	Synagis[®]	% of Total
	revenue	Revenue
		(1)
Quarter ended March 31, 2006	\$ 27,102	17.5%
Quarter ended June 30, 2006	8,327	5.3%
Quarter ended September 30, 2006	1,780	1.2%
Quarter ended December 31, 2006	25,676	13.2%
Fiscal year 2006	\$ 62,885	9.5%
Quarter ended March 31, 2007	\$ 40,180	18.9%

(1) Percent of total revenue is calculated based on total revenue from continuing operations.

7. Acquisitions

During the three months ended March 31, 2007 we made no new acquisitions and paid \$2.3 million of deferred purchase price obligations.

8. Discontinued Operations

On February 28, 2007, we completed the sale of a non-strategic Durable Medical Equipment (DME) business in Burlington, New Jersey for its approximate book value resulting in a gain on the sale of approximately \$21,000. On August 1, 2006, we completed the sale of our home health agency in Portland, Oregon for \$500,000. We recorded a pre-tax gain of \$242,000 on this sale. In addition, during the quarter ended September 30, 2006 we ceased operations of our home health agency in Phoenix, Arizona and recorded a pre-tax loss of \$291,000 on this disposal. The results of operations of these businesses, including any gains or losses on sale or disposal, are reported as discontinued operations, net of tax, in our condensed consolidated statements of income.

The following table sets forth operating results from all discontinued operations for the three months ended March 31, 2007 and 2006 (in thousands):

	Three months ended March 31, 2007	Three months ended March 31, 2006
Total revenue	\$ 403	\$ 2,104
Gain (loss) from discontinued operations before income taxes	35	(577)
Income tax provision	14	(190)
Net gain (loss) from discontinued operations	\$ 21	\$ (387)

9. Franchise-related Revenue

We maintain a national franchise network through which we generate a portion of our revenue. Our franchise-related revenues include: (1) royalties; (2) vendor rebates and administration fees; and (3) franchise settlement and related fees. Each of these types of revenue can fluctuate over time, with the largest potential fluctuations relating to franchise settlements. Franchise-related revenue is included within our Other revenue service line.

Table of Contents

The following table sets forth our franchise-related revenue for the periods indicated (in thousands):

	Three months ended March 31,	
	2007	2006
<u>Franchise-related revenue:</u>		
Royalties	\$ 1,250	\$ 1,450
Vendor rebates and administration fees	131	249
Franchise termination and settlement fees	300	
 Total franchise-related revenue	 \$ 1,681	 \$ 1,699

10. Stock-based Compensation

We adopted SFAS No. 123(R), *Share-Based Payment*, utilizing the modified retrospective method, as of January 1, 2006. SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options and shares purchased under our employee stock purchase plan, to be recognized in the income statement based on their fair values.

11. Income Taxes

In June 2006, the Financial Accounting Standards Board published Interpretation 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), which is an interpretation of Statement 109, *Accounting for Income Taxes*. FIN 48 provides guidance on how entities should evaluate and report on uncertain tax positions. This interpretation requires that realization of an uncertain income tax position must be more likely than not (i.e. greater than 50% likelihood of receiving a benefit) before it can be recognized in the financial statements. Further, this interpretation prescribes the benefit to be recorded in the financial statements at the amount most likely to be realized assuming a review by tax authorities having all relevant information and applying current conventions. This interpretation also clarifies the financial statement classification of tax-related penalties and interest and sets forth new disclosures regarding unrecognized tax benefits. This interpretation is effective for fiscal years beginning after December 15, 2006.

We adopted the guidance contained in FIN 48 effective January 1, 2007. Upon adoption, we recognized a decrease of approximately \$1.8 million in the liability for previously recorded uncertain tax positions no longer required under the technical guidance of FIN 48 and a corresponding \$1.8 million increase to beginning retained earnings. This reversal included approximately \$60,000 of accrued interest expense related to the uncertain tax position. Our policy is to reflect penalties and interest related to taxes within Selling, general and administrative expenses and Interest income (expense), net , respectively, in our consolidated statements of income.

As of March 31, 2007, our total amount of unrecognized tax benefits was \$600,000, of which approximately \$540,000 would affect our effective tax rate, if recognized. We do not anticipate a significant decrease or increase in our unrecognized tax benefits within the next twelve months. During the quarter ended March 31, 2007, we recorded \$9,000 in interest expense and no penalties related to uncertain tax positions. Our condensed consolidated balance sheet as of March 31, 2007 contains a total of \$33,000 in accrued interest related to uncertain tax positions within

Other current liabilities.

Our consolidated income tax returns remain subject to examination by the Internal Revenue Service for the years 2003 through current. This is also the case for the majority of states in which we file income tax returns.

12. Quarterly Dividends

In May 2004, our Board of Directors authorized the adoption of a quarterly dividend policy. Each quarter, our Board of Directors will determine the dividend amount per share, if any. During each of the fiscal quarters beginning with the quarter ended June 30, 2004 through the quarter ended March 31, 2005, our board declared a dividend of \$0.0133 per share. During each of the fiscal quarters beginning with the quarter ended June 30, 2005 our Board declared a \$0.02 per share dividend. The \$0.02 per share dividend in the quarter ended March 31, 2007 was paid March 19, 2007 to stockholders of record as of March 5, 2007.

13. Comprehensive Income

Net income was our only component of comprehensive income for the quarters ended March 31, 2007 and 2006.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
FORWARD LOOKING STATEMENTS

The following discussion should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2006. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Certain information included in this Quarterly Report on Form 10-Q and other materials filed or to be filed by us with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by us) contain statements that are or will be forward-looking, such as statements relating to acquisitions and other business development activities, future capital expenditures and the anticipated or potential effects of future regulation and competition. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by us, or on our behalf. These risks and uncertainties include, but are not limited to, uncertainties affecting our businesses and our franchisees relating to acquisitions and divestitures (including integration issues and continuing obligations with respect to completed transactions), sales and renewals of franchises, government and regulatory policies (including federal, state and local efforts to reform the delivery of and payment for healthcare services), general economic conditions (including economic conditions affecting the healthcare industry in particular), the pricing and availability of equipment and services, technological developments and changes in the competitive environment in which we operate. For a more comprehensive description of risks applicable to our business, see Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006. We do not undertake any obligation to release publicly any revisions to such forward-looking statements to reflect events or circumstances occurring after the date of the Annual Report or to reflect the occurrence of unanticipated events.

OVERVIEW

We provide infusion therapy, specialty pharmacy services and other ancillary healthcare services through a national network of company-owned and franchised locations. We contract home infusion pharmacy and related services with managed care organizations, third party payors, hospitals, physicians and other referral sources to provide pharmaceuticals and complex compounded solutions to patients for intravenous delivery in the patients' homes or other non-hospital settings. Many of our locations also provide other ancillary healthcare services such as nursing, respiratory therapy and durable medical equipment. We contract specialty infusion and specialty distribution pharmacy services with managed care organizations and physicians to become their specialty pharmacy, dispensing and delivering specialty pharmaceuticals, assisting with clinical compliance information and providing pharmacy consulting services. Our services are provided through our national network of 58 company-owned and managed locations, our 48 franchise-owned pharmacies and our two company-owned, high-volume specialty pharmacy distribution facilities.

We have four service lines: home infusion and related healthcare services, specialty infusion pharmacy services, specialty distribution pharmacy services, and other. Home infusion and related healthcare services primarily involve the intravenous administration of medications treating a wide range of acute and chronic health conditions such as infections, nutritional deficiencies and cancer. These services are primarily provided in the patient's home, but may also be provided at one of our ambulatory treatment centers and involve intensive clinical coordination between our pharmacy and nursing staff, the patient, the prescribing physician, and payor case managers. Specialty infusion pharmacy services primarily involve the local distribution and administration of high cost specialty pharmaceuticals that are typically infused. Home infusion and specialty infusion pharmaceuticals treat a wide range of acute and chronic health conditions through our national network of 58 company owned pharmacies. Specialty distribution pharmacy services involve the national distribution of high cost specialty pharmaceuticals, typically injectibles, through our 2 high volume pharmacies. Both specialty services treat a wide range of chronic health conditions and the associated pharmaceuticals may require special handling including refrigeration during shipping to prevent potency degradation. Other revenue primarily consists of royalties and other fees generated from our franchised pharmacy network.

Table of Contents**SUMMARIZED INFORMATION ABOUT REVENUE AND GROSS PROFIT**

Summarized information about revenues and gross profit from continuing operations for each of our service lines is provided in the following table (amounts in thousands):

	Three months ended March 31, 2007				Three months ended March 31, 2006 (Revised)			
	Revenue	% of Total	Gross Profit	Gross Profit %	Revenue	% of Total	Gross Profit	Gross Profit %
Home infusion and related healthcare services	\$ 64,439	30.3%	\$ 28,385	44.0%	\$ 57,116	36.9%	\$ 25,539	44.7%
Specialty infusion pharmacy services	83,085	39.0%	15,005	18.1%	53,211	34.3%	9,682	18.2%
Specialty distribution pharmacy services	63,581	29.9%	4,326	6.8%	42,588	27.5%	3,498	8.2%
Other	1,836	0.8%	1,835	100.0%	2,076	1.3%	2,077	100.0%
Total	\$ 212,941	100.0%	\$ 49,551	23.3%	\$ 154,991	100.0%	\$ 40,796	26.3%

We derive most of our revenue from contracts with third party payors, such as managed care organizations, insurance companies, self-insured employers and Medicare and Medicaid programs. We have significant managed care contracts with Blue Cross Blue Shield of Florida (BCBSF) and Blue Cross Blue Shield of Michigan (BCBSM) for the provision of specialty pharmacy services and infusion pharmacy services to their members. For the three months ended March 31, 2007 approximately 11% and 10% of our revenue was generated from our BCBSF and BCBSM contracts, respectively. In the prior year quarter, we generated approximately 13% and 0% of our revenue, respectively, from the BCBSF and BCBSM contracts.

As of March 31, 2007, approximately 10% and 3% of our accounts receivable was due from BCBSF and BCBSM, respectively. As of December 31, 2006, approximately 8% and 4% of our accounts receivable was due from BCBSF and BCBSM, respectively. No other single managed care payor represents more than 10% of our revenue.

We also provide services that are reimbursable through government healthcare programs such as Medicare and state Medicaid programs. For the three months ended March 31, 2007 and 2006, respectively, approximately 24% and 19% of our revenue was generated from government healthcare programs. As of March 31, 2007 and December 31, 2006, respectively, 19% and 19% of our total accounts receivable was due from these government healthcare programs.

Table of Contents**RESULTS OF OPERATIONS**

The following table shows the results of our operations for the three months ended March 31, 2007 and 2006, expressed in amounts and percentages of revenue (in thousands):

	Three Months Ended March 31, 2007		Three months Ended March 31, 2006 (Restated)

Net income	\$ 6,766	3.2%	\$ 4,790	3.1%

Three Months Ended March 31, 2007 and 2006

In the quarter ended March 31, 2007, our revenue from continuing operations was \$212.9 million, representing an increase of \$58.0 million, or 37.4%, over the corresponding quarter in 2006. Revenues increased due to a combination of internal growth, significant new contracts, and acquisitions. In dollars, our gross profit increased by 21.5% to

\$49.6 million in the current year quarter. Our overall gross profit margin declined due to a shift in mix of business between our service lines and a decline in other revenue. As a result of our increased revenues, net income from continuing operations per diluted share increased to \$0.19 for the quarter ended March 31, 2007 compared to \$0.15 in the prior year quarter.

We continued to generate positive cash flows from operations, producing \$6.0 million in operating cash flows during the quarter ended March 31, 2007. We ended the quarter with cash and short-term investments totaling \$17.0 million compared to \$8.9 million as of December 31, 2006. Our positive operating cash flows, cash that was relieved of restrictions, and cash generated from the issuance of common stock from stock option exercises and employee stock purchase plan withholdings more than offset the cash

Table of Contents

we used for the purchase of short-term investments during the quarter.

Revenue:

We report our operating results in one segment, consisting of four service lines: home infusion and related healthcare services; specialty infusion pharmacy services; specialty distribution pharmacy services; and other. Our home infusion and related healthcare services and specialty infusion pharmacy services are delivered locally through our 58 company-owned and managed pharmacies. Our specialty distribution pharmacy service line distributes through our two high-volume facilities in Michigan and Florida. For the quarter ended March 31, 2007, our revenue from continuing operations was \$212.9 million, which represents an increase of \$58.0 million, or 37.4%, over the corresponding prior year quarter. This increase is due to the growth in sales for multiple products and therapies, including Synagis[®], the effects of acquisitions completed in 2006 and the implementation of significant new managed care relationships.

Home infusion and related healthcare services revenue:

For the quarter ended March 31, 2007, home infusion and related healthcare services revenue from continuing operations was \$64.4 million, an increase of \$7.3 million, or 12.8%, over the corresponding prior year quarter. Home Infusion pharmacy services from continuing operations increased \$7.0 million, or 14.5%, while other related healthcare services, such as respiratory therapy services, durable medical equipment sales and home health nursing services, increased by \$0.3 million, or 3.4%. Infusion pharmacy services revenue increased in most of our company-owned pharmacies and across a wide variety of therapies. Continuing sales efforts contributed to the increases, as well as the effect of acquisitions completed in 2006.

Specialty infusion pharmacy services revenue:

During the quarter ended March 31, 2007, specialty infusion pharmacy services revenue from continuing operations was \$83.1 million, an increase of \$29.9 million, or 56.1%, over the prior year quarter. Our specialty infusion pharmacy revenue grew, due to organic growth and acquisitions completed in 2006, throughout our network of company-owned pharmacies across a wide variety of therapies including our largest revenue-producing specialty drug was Synagis[®]. Synagis[®] is a seasonal drug for the prevention of respiratory syncytial virus (RSV) in premature and other high-risk infants. RSV season runs through the cold months, generally from October through April. Accordingly, our Synagis[®] revenue will decline in our quarter ending June 30, 2007 as the current Synagis[®] season reaches its conclusion.

Specialty distribution pharmacy services revenue:

During the quarter ended March 31, 2007, specialty distribution pharmacy services revenue from continuing operations was \$63.6 million, an increase of \$21.0 million, or 49.3%, over the prior year quarter. Our specialty distribution pharmacy services revenue grew due to organic growth in our Miramar distribution center and through the implementation of a significant contract with Blue Cross and Blue Shield of Michigan (BCBSM) and Blue Care Network (BCN) contract which is serviced by our Ann Arbor distribution center.

Other revenue:

Other revenue consists of royalties and other fees generated from our franchised pharmacy network. Other revenue from continuing operations decreased \$240,000 to \$1.8 million in the quarter ended March 31, 2007 compared to \$2.0 million in the corresponding prior year quarter. This decrease was primarily due to a decline in our royalty revenue as a result of franchise terminations and acquisitions.

Cost of revenue:

Cost of revenue consists of the cost of goods sold and the cost of service provided. For the quarter ended March 31, 2007, our cost of revenue from continuing operations was \$163.4 million, which represents an increase of \$49.2 million, or 43.1%, over the prior year quarter. Cost of goods sold from continuing operations for the quarter ended March 31, 2007 was \$144.4 million, or 67.8% of revenue, while in the prior year quarter, cost of goods sold was \$98.2 million, or 63.3% of revenue. The primary cause of these increases was our 37.4% increase in revenue over the same period and a higher mix of specialty infusion pharmacy services and specialty distribution pharmacy services revenue which have lower margins.

Cost of service consists of salaries and related costs for employees directly involved in patient care, including pharmacists, nurses, therapists and delivery drivers. Cost of service also includes the cost of shipping or delivering

products and services to the patient. Our cost of service from continuing operations for the quarter ended March 31, 2007 was \$19.0 million, or 8.9% of revenue, compared to \$16.0 million, or 10.4% of revenue in the prior year. This decrease in cost of service as a percentage of revenue was due to a higher mix of specialty infusion pharmacy services and specialty distribution pharmacy services revenue over the prior year quarter which has a lower cost of service.

Gross profit margin:

Our gross profit margin from continuing operations for the quarter ended March 31, 2007 was 23.3% compared to 26.3% for the

Table of Contents

quarter ended March 31, 2006. Our home infusion and related healthcare services gross profit margin from continuing operations decreased slightly from 44.7% in the quarter ended March 31, 2006 to 44.0% in the quarter ended March 31, 2007. This decrease is primarily due to a shift in therapy mix. Our specialty infusion pharmacy services gross profit margin from continuing operations declined slightly from 18.2% for the quarter ended March 31, 2006 to 18.1% for the quarter ended March 31, 2007. Our specialty distribution pharmacy services gross profit margin from continuing operations declined from 8.2% for the quarter ended March 31, 2006 to 6.8% for the quarter ended March 31, 2007. This decrease is due to an unfavorable plan mix within our Blue Cross and Blue Shield of Florida contract and the launch of the Blue Cross and Blue Shield of Michigan / Blue Cross Network relationship.

Selling, general and administrative expenses:

For the quarter ended March 31, 2007, selling, general and administrative expenses from continuing operations were \$32.3 million, an increase of \$3.9 million, or 13.6% over the prior year period. The largest increases were in wages and related costs, which increased by \$3.2 million, and bad debt provision, which increased by \$927,000. The increase in wages and related costs was due to our increase in staff from business acquisitions completed in 2006 as well as an increase in staff to manage our continued growth. The increase in bad debt provision was due primarily to our increase in total revenues. Selling, general and administrative expenses as a percentage of revenue were 15.2% and 18.3% for the three months ended March 31, 2007 and 2006 respectively. This decrease as a percentage of revenue is primarily related to the shift in mix toward our high volume specialty distribution pharmacy services and improved operating efficiencies across all service lines.

Provision for doubtful accounts:

Our provision for doubtful accounts from continuing operations for the quarter ended March 31, 2007 was \$4.4 million, or 2.1% of revenue, compared to \$3.5 million, or 2.2% of revenue, in the prior year period. In general, we record a higher provision for doubtful accounts for revenue generated from our locally delivered services than from our central distribution facilities. This difference in provision rates reflects the difference in collection risk involved in these services as many of our services from our central distribution facilities are billed under pharmacy benefits whereas the services from our local pharmacies are typically billed under major medical benefits and typically require higher patient co-payments and deductibles. The decrease in our provision for doubtful accounts as a percentage of revenue was primarily due to a higher mix of specialty distribution pharmacy services revenue over the prior year quarter.

Depreciation and amortization:

For the quarter ended March 31, 2007, depreciation and amortization expense from continuing operations was \$1.3 million, an increase of \$122,000, or 10.7%, over the corresponding prior year period. This increase is primarily related to depreciation of tangible assets and amortization of intangible assets purchased in 2006. The depreciation expense contained within this line item relates to non-revenue producing assets only, such as furniture and fixtures and leasehold improvements. Depreciation for revenue-producing equipment such as rental medical equipment and delivery vehicles is included in cost of revenue.

Operating income:

Our operating income from continuing operations was \$11.6 million in the quarter ended March 31, 2007 representing an increase of \$3.8 million, or 49.3%, over the prior year quarter. This increase resulted primarily from an increase in total revenues. Our operating income from continuing operations was 5.5% and 5.0% of revenue for the quarters ended March 31, 2007 and 2006, respectively.

Interest income/(expense):

For the quarter ended March 31, 2007, our interest expense from continuing operations, net of interest income, was \$234,000. In the prior year, interest income, net of interest expense, was \$8,000. Our long-term debt consists principally of \$86.3 million of 2.25% convertible senior notes, due 2024. Our interest expense on these notes for the quarters ended March 31, 2007 and 2006 was approximately \$485,000. Excess short term cash balances are invested in commercial paper, variable-rate bonds and preferred stocks and other related instruments. During the quarter ended March 31, 2007, the interest earned on these investments offset the interest expense on our convertible senior notes due to an overall increase in market interest rates on investments as compared to the prior year quarter.

Income taxes:

Our income tax provision from continuing operations for the quarter ended March 31, 2007 was \$4.5 million compared to \$2.5 million in the prior year period. As a percentage of pre-tax income, our provision for income taxes from continuing operations was 39.9% compared to 32.9% for the prior year quarter ended March 31, 2006. The lower provision rate of 32.9% in the prior year quarter was primarily due to adjustments recorded to reduce an excess provision from the end of 2005. Additionally, we experienced an increase in income taxes as a percentage of pre-tax income in the quarter ended March 31, 2007 due to a shift in income toward states with higher tax rates.

Net income from continuing operations:

Our net income from continuing operations was \$6.7 million for the quarter ended March 31, 2007 compared to \$5.2 million in the

Table of Contents

prior year quarter. This 30.3% increase was primarily due to the growth in revenue from organic growth, significant new contracts, and acquisitions in 2006 over the period. As a percentage of revenue, our net income from continuing operations declined to 3.2% of revenue from 3.3% of revenue in the prior year period. This decrease was due to a higher mix of specialty infusion pharmacy services and specialty distribution pharmacy services revenue over the prior year quarter.

Diluted shares & earnings per share:

For the quarter ended March 31, 2007, the total number of diluted shares was 36.2 million compared to 35.1 million during the corresponding prior year quarter. The primary cause for this increase was our issuance of approximately 950,000 shares of common stock as partial consideration for acquisitions completed in 2006. These issuances resulted in a weighted average increase of approximately 840,000 shares. The remainder of the increase was attributable to shares issued and issuable under the employee stock purchase plan and stock option plan, partially offset by a decline in the dilutive effect of our \$86.3 million of 2.25% convertible senior notes due 2024. These notes are dilutive to the extent that the weighted average market price of our common stock exceeds the conversion price of the notes, currently \$11.96 per share. Our earnings from continuing operations per diluted share were \$0.19 for the quarter ended March 31, 2007 versus \$0.15 for the quarter ended March 31, 2006.

LIQUIDITY AND CAPITAL RESOURCES

During the quarter ended March 31, 2007, we financed our operations and acquisition activities through operating cash flows. Our cash and cash equivalents increased by \$4.4 million during the quarter ended March 31, 2007, as the cash proceeds from our positive operating cash flows and cash generated from the issuance of common stock slightly exceeded our expenditures for short-term investments and other capital investments.

Operating Cash Flows:

We generated \$6.0 million in positive cash flows from operations in the quarter ended March 31, 2007 compared to \$1.8 million of positive operating cash flow in the corresponding prior year period. The increase in cash flows was primarily due to a \$2.0 million increase in net income over the prior year quarter as well as better working capital management that included a reduction in DSO from 56 days for the quarter ended December 31, 2006 to 55 for the quarter ended March 31, 2007.

Investing Cash Flows:

Investing activities used \$9.3 million in cash in the quarter ended March 31, 2007 compared to \$2.1 million provided by investing activities in the corresponding prior year period. In the current year we used \$3.8 million for the purchase of short-term investments, \$3.2 million for the purchase of equipment and other depreciable assets, and \$2.3 for additional payments for acquisitions made in 2006. In the comparable prior year period, net sales of short-term investments provided \$26.8 million in cash offset by \$21.3 million in cash used for two acquisitions and \$3.4 million used for the purchase of equipment and other depreciable assets.

Financing Cash Flows:

Financing activities provided \$7.7 million in positive cash flows in the quarter ended March 31, 2007, compared to \$1.8 million provided by financing activities in the comparable prior year period. In the current year, \$7.6 million in cash was released from restricted cash, \$872,000 in cash was generated from the issuance of common stock, principally from our employee stock purchase plan and employee stock option exercises, and \$693,000 in cash was used in the payment of dividends. In the comparable prior year period, \$1.5 million was generated from the issuance of common stock, principally from employee stock option exercises and the associated tax benefit and \$1.0 million was generated due to the release of restricted cash. Additionally, \$700,000 in cash was used to pay dividends to our stockholders.

Convertible Senior Notes:

Our long-term debt consists principally of \$86.3 million of 2.25% convertible senior notes, due 2024. On November 2, 2004, we completed the offering of \$75 million of these notes through a private placement to qualified institutional buyers. The initial purchasers were granted the option to purchase up to an additional \$11.25 million principal amount of notes and exercised this option in full on November 9, 2004. We incurred deferred financing costs of \$3.2 million related to this offering, consisting of underwriting, legal and other related costs. These costs are being amortized over a five-year period. See Note 2, Long-Term Debt in our Notes to Condensed Consolidated Financial

Statements for additional information.

Credit Agreement with LaSalle Bank N.A.:

In the current year quarter, we recorded non-use fees of \$15,000 related to this Agreement. See Note 2, Long-Term Debt in our Notes to Condensed Consolidated Financial Statements for additional information.

Table of Contents**Accounts Receivable:**

The following table sets forth information regarding our accounts receivable as of the dates indicated (dollar amounts in thousands):

	March 31, 2007	December 31, 2006
Accounts receivable	\$ 142,845	\$ 133,239
Less allowance for doubtful accounts	(12,234)	(10,736)
Accounts receivable, net of allowance for doubtful accounts	\$ 130,611	\$ 122,503
Days sales outstanding (DSO)(1)	55 days	56 days

(1) DSO is calculated using the exhaustion method, whereby the net accounts receivable balance is exhausted against each preceding month's or partial month's net revenue. The DSO calculation excludes revenue not related to patient care, such as franchise royalties and other fees and software license and support revenue, and trade accounts receivable purchased in business acquisitions.

Our accounts receivable, net of bad debt reserves, was \$130.6 million as of March 31, 2007 compared to \$122.5 million as of December 31, 2006. This increase in accounts receivable was related to our increase in sequential quarterly revenue from continuing operations, which grew from \$194.2 million in the quarter ended December 31, 2006 to \$212.9 million in the quarter ended March 31, 2007. Our days sales outstanding (DSO) declined slightly to 55 days for the quarter ended March 31, 2007 from 56 days for quarter ended December 31, 2006.

The following table sets forth the percentage breakdown of our trade accounts receivable by aging category and by major payor as of the dates indicated:

	March 31, 2007	December 31, 2006
<u>By Aging Category (1):</u>		
Aged 0-90 days	71%	71%
Aged 91-180 days	14%	14%
Aged 181-365 days	10%	11%
Aged over 365 days	5%	4%
Total	100%	100%
<u>By Payor Type:</u>		
Managed care and other payors	81%	81%
Medicare and Medicaid	19%	19%
Total	100%	100%

(1) Accounts receivable by aging category

Capital Resources:

As of March 31, 2007, we had cash and cash equivalents of \$7.5 million and short-term investments of \$9.5 million compared to cash and cash equivalents of \$3.2 million and short-term investments of \$5.7 million at December 31, 2006. For the quarter ended March 31, 2007, we generated positive cash flow from operations of \$6.0 million, which, along with the cash provided by the release of restricted cash offset by cash used in investing, allowed us to increase our cash and cash equivalents by \$4.4 million.

We expect that cash flow from operations, plus our current cash and short-term investments and available credit under our

Table of Contents

\$35 million revolving Credit Agreement with LaSalle Bank National Association will be sufficient to meet our operating cash needs for the immediate future, including any interest due on our \$86.3 million of 2.25% convertible senior notes, due 2024. In the event that additional capital is required, there can be no assurance that such capital can be obtained from other sources on terms acceptable to us, if at all.

Our business strategy includes the selective acquisition of additional local pharmacy facilities and specialty pharmacy operations. Accordingly, we may require additional capital in order to complete these acquisitions. It is impossible to predict the amount of capital that may be required for acquisitions, and there is no assurance that sufficient financing for these activities will be available on terms acceptable to us, if at all. We anticipate utilizing our revolving credit facility with LaSalle Bank National Association to finance future growth initiatives.

Goodwill and Other Intangible Assets

The following table sets forth the net value of our goodwill and other intangible assets as of March 31, 2007 and December 31, 2006 (in thousands):

	March 31, 2007	December 31, 2006
Goodwill, net of accumulated amortization	\$ 195,963	\$ 165,323
Other intangible assets, net of accumulated amortization	\$ 1,087	\$ 1,173
Total intangible assets, net of accumulated amortization	\$ 197,050	\$ 166,496

Other intangible assets consist of non-compete agreements, contracts and patient records acquired through business acquisitions.

For the quarter ended March 31, 2007, goodwill increased \$30.6 million as a result of additional consideration paid and payable related to prior year acquisitions. For the quarter ended March 31, 2007, other intangible assets decreased by \$86,000 as a result of amortization during the period.

As required by Statements of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets (SFAS No. 142)*, we do not amortize goodwill, but test our goodwill for impairment annually each October 1, or whenever we identify events or conditions that could potentially result in impairment of our goodwill. During the quarter ended March 31, 2007, no impairment of goodwill was identified.

Regulatory and other developments:

Average Wholesale Price litigation update. The case New England Carpenters Health Benefits Fund, et al. v. First DataBank, et al., (U.S. District Court, D. Mass), a civil class action case brought against First DataBank, one of several companies that report data on prescription drug prices, alleges that the company colluded with a prescription drug wholesaler to artificially raise the average wholesale prices (AWP) of various prescription drugs to increase pharmacy profits. As part of a proposed settlement in the case, First DataBank has agreed to reduce the reported AWP of over 8,000 specific pharmaceutical products by five percent. The presiding court has not approved the proposed settlement. We cannot predict the outcome or timing of any such settlement.

Health Insurance Portability and Accountability Act of 1996 (HIPAA). To improve the efficiency and effectiveness of the health care system, the Health Insurance Portability and Accountability Act (HIPAA) of 1996, Public Law 104-191, included Administrative Simplification provisions that required the Department of Health and Human Services (HHS) to adopt national standards for electronic health care transactions. At the same time, Congress recognized that advances in electronic technology could erode the privacy of health information. Consequently, Congress incorporated provisions into HIPAA that mandated the adoption of Federal privacy protections for individually identifiable health information.

In response to the HIPAA mandate, in December 2000, HHS published a final regulation in the form of the Privacy Rule, which became effective on April 14, 2001. This Privacy Rule set national standards for the protection of health information, as applied to the three types of covered entities: health plans, health care clearinghouses, and health care providers who conduct certain health care transactions electronically. Pursuant to the Privacy Rule, covered entities are required to have standards in place to protect and guard against the misuse of individually identifiable health information.

The Privacy Rule established a foundation of Federal protections for the privacy of protected health information. The Privacy Rule does not replace federal, state, or other laws that grant individuals even greater privacy protections, and covered entities are free to

Table of Contents

retain or adopt more protective policies or practices. We have implemented the standards set forth in the Privacy Rule, and believe that we and all of our franchisees are in compliance with the Privacy Rule or any more stringent federal or state laws relating to privacy.

Additionally, the Administrative Simplification provisions address electronic health care transactions and the security of electronic health information systems. Providers are required to comply with the standards by specific compliance dates established by HHS. For standards relating to electronic health care transactions, all providers were required to comply by October 16, 2003. The security standards applicable to individually identifiable health information maintained electronically were required to be implemented by April 21, 2005. We were materially compliant with these standards by the applicable compliance date. The standards for a unique national health identifier for providers used in connection with the electronic healthcare transactions must be implemented by May 23, 2007, by when we expect to be materially compliant with this requirement.

Penalties for non-compliance with the Privacy Rule and other HIPAA Administrative Simplification provisions range from a civil penalty of \$100 for each violation (which can total up to \$25,000 per person per year), to criminal penalties, including up to \$50,000 and/or one year imprisonment, up to \$100,000 and/or five years imprisonment if the offense is committed under false pretenses and up to \$250,000 and/or ten years imprisonment for violating a standard with the intent to sell, transfer or use individually identifiable health information for commercial advantage, personal gain or malicious harm.

In addition to regulating privacy of individual health information and other provisions relating to Administrative Simplification, HIPAA includes several anti-fraud and abuse laws, extends criminal penalties to private health care benefit programs and, in addition to Medicare and Medicaid, to other federal health care programs, and expands the Office of Inspector General's authority to exclude persons and entities from participating in the Medicare and Medicaid programs.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risk primarily in relation to our cash and short-term investments. As of March 31, 2007, we had no variable-rate debt. We had fixed-rate debt as of that date primarily comprised of \$86.3 million offering of 2.25% convertible senior notes, due 2024. The interest rate we may earn on the cash we invest in short-term investments is subject to market fluctuations. We utilize a mix of investment maturities based on our anticipated cash needs and evaluation of existing interest rates and market conditions. The following table sets forth our cash and cash equivalents and short-term investments as of March 31, 2007 and December 31, 2006 (in thousands):

	March 31, 2007	December 31, 2006
Cash and cash equivalents, unrestricted	\$ 7,542	\$ 3,171
Cash, restricted (1)		7,554
Total cash and cash equivalents	\$ 7,542	\$ 10,725
Short-term investments (2)	\$ 9,500	\$ 5,700
Total cash and cash equivalents and short-term investments	\$ 17,042	\$ 16,425

(1) The restricted cash was related to our issuance of 559,700 shares of stock to the sellers of Trinity Homecare, LLC, which is a business we acquired during 2006. The restriction was subsequently lifted upon our registration of the issued shares on January 31, 2007.

(2) Short-term investments consist of commercial paper and other investments having a maturity of greater than three months at time of purchase. Short-term investments also consists of municipal variable rate demand

notes, preferred stock and similar instruments with maturities greater than ten years, but which contain provisions for the periodic adjustment of interest rate to market, generally each 28 or 35 days.

While we attempt to minimize market risk and maximize return, changes in market conditions may significantly affect the income we earn on our cash and cash equivalents and short-term investments. Based on our actual cash and cash equivalents and short-term investment balances at March 31, 2007, a 1% percent decline in interest rates would reduce our interest income by \$170,000 on an annualized basis.

Table of Contents

ITEM 4. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) as of March 31, 2007. Based upon that evaluation, the chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective as of March 31, 2007 to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) is accumulated and communicated to management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during our fiscal quarter ended March 31, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

We are subject to claims and legal actions that may arise in the ordinary course of business. However, we maintain insurance to protect against such claims or legal actions. We are not aware of any litigation, either pending or filed, that we believe is likely to have a material adverse effect on our results of operation or financial condition.

We currently maintain insurance for general and professional liability claims in the amount of \$1 million per claim and \$3 million in aggregate per policy year, plus \$5 million in umbrella coverage. Accordingly, the maximum coverage for a first claim in any policy year is \$6 million, and the maximum aggregate coverage for all claims in a policy year is \$8 million. We also require each franchisee to maintain general liability and professional liability insurance covering both the franchisee and us, at coverage levels that we believe to be sufficient. These policies provide coverage on a claims-made or occurrence basis and have certain exclusions from coverage. These insurance policies generally must be renewed annually. There can be no assurance that our insurance coverage will be adequate to cover liability claims that may be asserted against us.

ITEM 1A. Risk Factors

Our Annual Report on Form 10-K for the year ended December 31, 2006 includes a detailed discussion of certain risk factors in Part I, Item 1A. The risk factors in our Annual Report on Form 10-K for the year ended December 31, 2006 are not the only risks and uncertainties that we face or that could develop. Other risks and uncertainties that we have not predicted or evaluated could also adversely affect our company. If any of these risks and uncertainties actually occurs, our business, financial condition, operating results or liquidity could be materially and adversely affected.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

ITEM 3. Defaults Upon Senior Securities

None.

ITEM 4. Submission of Matters to a Vote of Securities Holders

None.

ITEM 5. Other Information
