NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard s, Inc. (the Company) have been prepared in accordance with the rules of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the three and six months ended July 28, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending February 2, 2013 due to the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended January 28, 2012 filed with the SEC on March 22, 2012.

Reclassifications Certain items have been reclassified from their prior year classifications to conform to the current year presentation. These reclassifications had no effect on net income or stockholders equity as previously reported.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores (retail operations) and a general contracting construction company (construction).

For the Company s retail operations, the Company determined its operating segments on a store by store basis. Each store s operating performance has been aggregated into one reportable segment. The Company s operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard s name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

Note 13. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

The fair value of the Company's long-term debt and subordinated debentures is based on market prices or dealer quotes (for publicly traded unsecured notes) and on discounted future cash flows using current interest rates for financial instruments with similar characteristics and maturities (for bank notes and mortgage notes).

The fair value of the Company's cash and cash equivalents, accounts receivable and other short-term borrowings approximates their carrying values at July 28, 2012 due to the short-term maturities of these instruments. The fair value of the Company's long-term debt at July 28, 2012 was approximately \$718 million. The carrying value of the Company's long-term debt at July 28, 2012 was \$691 million. The fair value of the Company's subordinated debentures at July 28, 2012 was approximately \$204 million. The carrying value of the Company's subordinated debentures at July 28, 2012 was \$200 million.

Table of Contents*Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis*

The FASB's accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions

(in thousands)	Fair Value of Assets (Liabilities)	Basis of Fair Value Measurements		
		Quoted Prices In Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

As of July 30, 2011	\$ 26,348	\$	\$	\$ 26,348
As of January 29, 2011	27,548			27,548

During the six months ended July 28, 2012, the Company sold two former retail store locations with carrying values totaling \$4.6 million.

During the six months ended July 30, 2011, long-lived assets held for sale with a carrying value of \$27.5 million were written down to their fair value of \$26.3 million, resulting in an impairment charge of \$1.2 million, which was included in earnings for the period. The inputs used to calculate the fair value of these long-lived assets in both periods included selling prices from commercial real estate transactions for similar assets in similar markets that we estimated would be used by a market participant in valuing these assets.

Note 14. Recently Issued Accounting Standards*Fair Value Measurements and Disclosure*

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update was effective for interim and annual periods beginning after December 15, 2011 and was to be applied prospectively. The adoption of this standard did not have a significant impact on the Company's financial statements.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard requires companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update was effective for interim and annual periods beginning after December 15, 2011 and was applied retrospectively. The adoption of this standard changed the order and placement where certain financial statement items are presented but did not have any other impact on the Company's financial statements.

Table of Contents

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments. The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented.

Seasonality and Inflation

Our business, like many other retailers, is subject to seasonal influences, with a significant portion of sales and income typically realized during the last quarter of our fiscal year due to the holiday season. Because of the seasonality of our business, results from any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

Table of Contents

We do not believe that inflation has had a material effect on our results during the periods presented; however, our business could be affected by such in the future.

We believe that gross margin from retail operations will improve slightly during fiscal 2012; however, there is no guarantee of improved gross margin performance.

The decrease in rental expense for the three and six months ended July 28, 2012 compared to the three and six months ended July 30, 2011 was primarily due to a reduction in the amount of equipment leased by the Company.

We believe that rental expense will continue to decline significantly during fiscal 2012, with a current projected reduction of \$14 million from fiscal 2011, primarily as a result of the expiration of certain equipment leases.

Income Taxes

The Company's estimated federal and state income tax rate, inclusive of income on and equity in losses of joint ventures, was approximately 35.8% and 28.5% for the three months ended July 28, 2012 and July 30, 2011, respectively. During the three months ended July 28, 2012, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes. Certain federal tax credits were not extended into fiscal 2012. During the three months ended July 30, 2011, income tax expense differed from what would be computed using the statutory federal tax rate due to the effect of state and local income taxes offset by a benefit due to decreases in net deferred tax liabilities resulting from legislatively-enacted state tax rate reductions and benefits for federal tax credits.

The Company's estimated federal and state income tax rate, inclusive of income on and equity in losses of joint ventures, was approximately 35.8% and 34.5% for the six months ended July 28, 2012 and July 30, 2011, respectively. During the six months ended July 28, 2012, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes partially offset by a benefit due to net decreases in unrecognized tax benefits primarily related to statute lapses. Certain federal tax credits were not extended into fiscal 2012. During the six months ended June 30, 2011, income tax expense differed from what would be computed using the statutory federal tax rate due to the effect of state and local income taxes offset by a benefit due to decreases in net deferred tax liabilities resulting from legislatively-enacted state tax rate reductions and benefits for federal tax credits.

The Company's effective tax rate for fiscal 2012 is expected to approximate 36%. This rate may change if results of operations for fiscal 2012 differ from management's current expectations. Changes in the Company's assumptions and judgments can materially affect amounts recognized in the condensed consolidated balance sheets and statements of income.

Income on Joint Venture

During the six months ended July 30, 2011, the Company's retail operations segment received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

Table of Contents**FINANCIAL CONDITION**

A summary of net cash flows for the six months ended July 28, 2012 and July 30, 2011 follows:

(in thousands of dollars)	Six Months Ended		\$ Change
	July 28, 2012	July 30, 2011	
Operating Activities	\$ 152,821	\$ 125,030	\$ 27,791
Investing Activities	(78,857)	(33,624)	(45,233)

Total Cash Provided (Used)	\$ (61,739)	\$ (163,766)	\$ 102,027

Net cash flows from operations increased \$27.8 million during the six months ended July 28, 2012 compared to the six months ended July 30, 2011. This improvement was primarily attributable to higher net income, as adjusted for non-cash items, of \$39.9 million. This increase was partially offset by a decrease of \$12.1 million related to changes in working capital items, primarily of decreases in income taxes payable partially offset by increases in trade accounts payable and accrued expenses and other liabilities.

GE owns and manages Dillard's branded proprietary credit card business under the Alliance that expires in fiscal 2014. The Alliance provides for certain payments to be made by GE to the Company, including a revenue sharing and marketing reimbursement. The Company received income of approximately \$51.4 million and \$45.2 million from GE during the six months ended July 28, 2012 and July 30, 2011, respectively. While future cash flows under this Alliance are difficult to predict, the Company expects income from the Alliance to improve moderately during fiscal 2012 compared to fiscal 2011. The amount the Company receives is dependent on the level of sales on GE accounts, the level of balances carried on the GE accounts by GE customers, payment rates on GE accounts, finance charge rates and other fees on GE accounts, the level of credit losses for the GE accounts as well as GE's funding costs.

During the six months ended July 28, 2012, the Company received proceeds of \$7.8 million from the sales of two former retail stores located in Cincinnati, Ohio and Antioch, Tennessee that were held for sale and one building that was formerly a portion of a currently operating retail location, resulting in a net gain of \$0.9 million.

During the six months ended July 30, 2011, the Company received proceeds of \$11.0 million from the sale of an interest in a mall joint venture, resulting in a gain of \$2.1 million that was recorded in gain on disposal of assets.

Capital expenditures were \$86.7 million and \$48.7 million for the six months ended July 28, 2012 and July 30, 2011, respectively. The current year expenditures were primarily for the remodeling of existing stores, purchase of equipment, including the buyout of certain leased equipment, and completion of the Company's new internet fulfillment center located in Maumelle, Arkansas, which began processing merchandise during the first quarter of fiscal 2012. This new 850,000 square foot internet fulfillment center has replaced the Company's Nashville, Tennessee internet fulfillment center (285,000 square feet), which closed in July 2012. During the three months ended July 28, 2012, we also closed our Hutchinson Mall location in Hutchinson, Kansas (70,000 square feet). We have also announced the upcoming closure of our Southpark Mall location in Colonial Heights, Virginia (85,000 square feet), which is expected to close during the third quarter of fiscal 2012 with minimal closing costs. We remain committed to closing under-performing stores where appropriate and may incur future closing costs related to these stores when they close.

Edgar Filing: DILLARDS INC - Form 10-Q

Capital expenditures for fiscal 2012 are expected to be approximately \$140 million compared to actual expenditures of \$116 million during fiscal 2011. There are no planned store openings for fiscal 2012.

During the six months ended July 30, 2011, the Company received a distribution of excess cash from a mall joint venture of \$6.7 million and recorded a related gain of \$4.2 million in income on and equity in losses of joint ventures.

The Company had cash on hand of approximately \$162.5 million as of July 28, 2012. As part of our overall liquidity management strategy and for peak working capital requirements, the Company maintains a \$1.0 billion credit facility. During the six months ended July 28, 2012, the Company amended and extended this credit facility, which now has higher availability for the same amount of pledged inventory as the previous agreement and expires April 11, 2017.

Table of Contents

Limited to 90% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$902.9 million at July 28, 2012. Borrowings of \$24.0 million were outstanding and letters of credit totaling \$83.9 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$795 million at July 28, 2012.

During the six months ended July 28, 2012, the Company repurchased 2.5 million shares of its Class A Common Stock for \$162.1 million (including the accrual of \$9.0 million of share repurchases that had not settled as of July 28, 2012) at an average price of \$64.21 per share under its 2012 and May 2011 Stock Plans. During the six months ended July 30, 2011, the Company repurchased 6.4 million shares of its Class A Common Stock for \$268.7 million at an average price of \$41.95 per share under its 2010 and February 2011 Stock Plans. At July 28, 2012, no authorization remained under the 2010, February 2011 and May 2011 Stock Plans, and \$115.4 million of authorization remained under the 2012 Stock Plan. The ultimate disposition of the repurchased stock has not been determined.

During fiscal 2012, the Company expects to finance its capital expenditures and its working capital requirements, including required debt repayments and stock repurchases, from cash on hand, cash flows generated from operations and utilization of the credit facility. During fiscal 2012, the Company expects peak borrowings to not exceed \$200 million. Depending on conditions in the capital markets and other factors, the Company will from time to time consider other possible financing transactions, the proceeds of which could be used to refinance current indebtedness or for other corporate purposes.

There have been no material changes in the information set forth under the caption Contractual Obligations and Commercial Commitments in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in the Company's Annual Report on Form 10-K for the fiscal year ended January 28, 2012.

OFF-BALANCE-SHEET ARRANGEMENTS

The Company has not created, and is not party to, any special-purpose entities or off-balance-sheet arrangements for the purpose of raising capital, incurring debt or operating the Company's business. The Company does not have any off-balance-sheet arrangements or relationships that are reasonably likely to materially affect the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or the availability of capital resources.

NEW ACCOUNTING STANDARDS

Fair Value Measurements and Disclosure

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The amendments in this update change the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements to ensure consistency between U.S. GAAP and IFRS. This update was effective for interim and annual periods beginning after December 15, 2011 and was to be applied prospectively. The adoption of this standard did not have a significant

impact on the Company's financial statements.

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220) Presentation of Comprehensive Income*, to make the presentation of items within other comprehensive income (OCI) more prominent. The new standard requires companies to present items of net income, items of OCI and total comprehensive income in one continuous statement or two separate consecutive statements, and companies will no longer be allowed to present items of OCI in the statement of stockholders' equity. This new update was effective for interim and annual periods beginning after December 15, 2011 and was applied retrospectively. The adoption of this standard changed the order and placement where certain financial statement items were presented but did not have any other impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments.

Table of Contents

The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented.
