**ASCENT CAPITAL GROUP, INC. AND SUBSIDIARIES**

**Notes to Condensed Consolidated Financial Statements**

**(1) Basis of Presentation**

On July 7, 2011, Ascent Media Corporation merged with its direct wholly owned subsidiary, Ascent Capital Group, Inc., for the purpose of changing its name to Ascent Capital Group, Inc. The accompanying Ascent Capital Group, Inc. ( Ascent Capital or the Company ) condensed consolidated financial statements represent the financial position and results of operations of Ascent Capital and its consolidated subsidiaries. Monitronics International, Inc. ( Monitronics ) is the primary, wholly owned, operating subsidiary of the Company. On August 16, 2013, Monitronics acquired all of the equity interests of Security Networks LLC ( Security Networks ) and certain affiliated entities (the Security Networks Acquisition ). Monitronics provides security alarm monitoring and related services to residential and business subscribers throughout the United States and parts of Canada. Monitronics monitors signals arising from burglaries, fires, medical alerts and other events through security systems installed by independent dealers at subscribers' premises.

The unaudited interim financial information of the Company has been prepared in accordance with Article 10 of the Securities and Exchange Commission's (the SEC ) Regulation S-X. Accordingly, it does not include all of the information required by generally accepted accounting principles in the United States ( U.S. GAAP ) for complete financial statements. The Company's unaudited condensed consolidated financial statements as of March 31, 2014, and for the three months ended March 31, 2014 and 2013, include Ascent Capital and all of its direct and indirect subsidiaries. The accompanying interim condensed consolidated financial statements are unaudited but, in the opinion of management, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the results for such periods. The results of operations for any interim period are not necessarily indicative of results for the full year. These condensed consolidated financial statements should be read in conjunction with the Ascent Capital Annual Report on Form 10-K for the year ended December 31, 2013, filed with the SEC on February 27, 2014 (the 2013 Form 10-K ).

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses for each reporting period. The significant estimates made in preparation of the Company's condensed consolidated financial statements primarily relate to valuation of goodwill, other intangible assets, long-lived assets, deferred tax assets, derivative financial instruments, and the amount of the allowance for doubtful accounts. These estimates are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors and adjusts them when facts and circumstances change. As the effects of future events cannot be determined with any certainty, actual results could differ from the estimates upon which the carrying values were based.

**(2) Recent Accounting Pronouncements**

In April 2014, the Financial Accounting Standards Board ( FASB ) issued FASB Accounting Standards Update ( ASU ) 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. The update raises the threshold for disposals to qualify as discontinued operations, expands the disclosures for discontinued operations and requires new disclosures related to individually material disposals that do not meet the definition of a discontinued operation. The ASU is effective for annual periods beginning on or after December 15, 2014 and interim periods within that year. The Company does not expect the impact of adopting this ASU to be material to the Company's financial position, results of operations or cash

flows.

**(3) Security Networks Acquisition**

On August 16, 2013 (the Closing Date ), Monitronics acquired all of the equity interests of Security Networks and certain affiliated entities. The purchase price (the Security Networks Purchase Price ) of \$500,557,000 consisted of \$481,834,000 in cash and 253,333 shares of Ascent Capital s Series A common stock (par value \$0.01 per share) with a Closing Date fair value of \$18,723,000. The Security Networks Purchase Price includes post-closing adjustments of \$1,057,000.

The cash portion of the Security Networks Purchase Price was funded by cash on hand at Ascent Capital, the proceeds of Ascent Capital s July issuance of \$103,500,000 in aggregate principal amount of 4.00% Senior Convertible Notes due 2020, the proceeds of Monitronics July issuance of \$175,000,000 in aggregate principal amount of 9.125% Senior Notes due 2020 and the proceeds of incremental term loans of \$225,000,000 issued under Monitronics existing credit facility. See note 6, Long-Term Debt for further information on the debt obligations.

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

### Table of Contents

The Security Networks Acquisition was accounted for as a business combination utilizing the acquisition method in accordance with FASB Accounting Standards Codification ( ASC ) Topic 805, Business Combinations. Under the acquisition method of accounting, the Security Networks Purchase Price has been allocated to Security Networks tangible and identifiable intangible assets acquired and liabilities assumed based on their preliminary estimates of fair value as follows (amounts in thousands):

Cash	\$	3,096
Trade receivables		1,305
Other current assets		1,677
Property and equipment		1,404
Subscriber accounts		307,800
Dealer network and other intangible assets		48,500
Goodwill		176,300
Holdback liability, current and non-current		(9,620)
Deferred income tax liabilities		(4,108)
Other current and non-current liabilities		(25,797)
Fair value of consideration	\$	500,557

The preliminary estimates of fair value of assets acquired and liabilities assumed are based on available information as of the date of this report and may be revised as additional information becomes available, which primarily includes obtaining the Security Networks final short period federal and state income tax returns for 2013, which are expected to be filed in the second quarter of 2014.

The following table includes unaudited pro forma information for Ascent Capital, which includes the historical operating results of Security Networks prior to ownership by Monitronics. This pro forma information gives effect to certain adjustments, including increased amortization to reflect the fair value assigned to the subscriber accounts and dealer network and other intangible assets acquired and increased interest expense relating to the debt transactions entered into to fund the Security Networks Acquisition. The pro-forma results assume that the Security Networks Acquisition and the debt transactions had occurred on January 1, 2012 for the period presented. They are not necessarily indicative of the results of operations that would have occurred if the acquisition had been made at the beginning of the periods presented or that may be obtained in the future.

(a) The interest rate on the term loan and the revolving credit facility was LIBOR plus 4.25%, subject to a LIBOR floor of 1.25%, until March 25, 2013.

*Convertible Notes*

On July 17, 2013, Ascent Capital issued \$103,500,000 in aggregate principal amount of 4.00% convertible senior notes due July 15, 2020 (the Convertible Notes) in an offering registered under the Securities Act of 1933, as amended. The Convertible Notes are convertible, under certain circumstances, into cash, shares of Ascent Capital's Series A common stock, par value \$.01 per share (the Common Stock), or any combination thereof at Ascent Capital's election. The Convertible Notes mature on July 15, 2020 and bear interest at a rate per annum of 4.00%. Interest on the Convertible Notes is payable semi-annually on January 15 and July 15 of each year.

Holders of the Convertible Notes (Noteholders) have the right, at their option, to convert all or any portion of such Convertible Notes, subject to the satisfaction of certain conditions, at an initial conversion rate of 9.7272 shares of Common Stock per \$1,000 principal amount of Convertible Notes (subject to adjustment in certain situations), which represents an initial conversion price per share of Common Stock of approximately \$102.804 (the Conversion Price). Ascent Capital is entitled to settle any such conversion by delivery of cash, shares of Common Stock or any combination thereof at Ascent's election. In addition, Noteholders have the right to submit Convertible Notes for conversion, subject to the satisfaction of certain conditions, in the event of certain corporate transactions.

In the event of a fundamental change (as such term is defined in the indenture governing the Convertible Notes) at any time prior to the maturity date, each Noteholder shall have the right, at such Noteholder's option, to require Ascent Capital to repurchase for cash any or all of such Noteholder's Convertible Notes on the repurchase date specified by Ascent Capital at a repurchase price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, including unpaid additional interest, if any, unless the repurchase date occurs after an interest record date and on or prior to the related interest payment date, as specified in the indenture.

The Convertible Notes are within the scope of FASB ASC Topic 470 Subtopic 20, *Debt with Conversion and Other Options* ( FASB ASC 470-20 ), and as such are required to be separated into a liability and equity component. The carrying amount of the liability component is calculated by measuring the fair value of a similar liability (including any embedded features other than the conversion option) that does not have an associated conversion option. The carrying amount of the equity component is determined by deducting the fair value of the liability component from the initial proceeds ascribed to the Convertible Notes as a whole. The excess of the principal amount of the liability component over its carrying amount, treated as a debt discount, is amortized to interest cost over the expected life of a similar liability that does not have an associated conversion option using the effective interest method. The equity component is not remeasured as long as it continues to meet the conditions for equity classification as prescribed in FASB ASC 815 Subtopic 40, *Contracts in an Entity's Own Equity* ( FASB ASC 815-40 ). Accordingly, upon issuance, the Company estimated fair value of the liability component as \$72,764,000, with the remaining excess amount of \$30,736,000 allocated to the equity component.

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

### Table of Contents

The Convertible Notes are presented on the consolidated balance sheet as follows (amounts in thousands):

	<b>As of March 31, 2014</b>	<b>As of December 31, 2013</b>
Principal	\$ 103,500	\$ 103,500
Unamortized discount	(28,506)	(29,311)
Carrying value	\$ 74,994	\$ 74,189

The Company is using an effective interest rate of 10.0% to calculate the accretion of the debt discount, which is being recorded as interest expense over the expected remaining term to maturity of the Convertible Notes. The Company recognized contractual interest expense of \$1,035,000 on the Convertible Notes for the three months ended March 31, 2014. The Company amortized \$805,000 of the Convertible Notes debt discount into interest expense for the three months ended March 31, 2014.

### *Hedging Transactions Relating to the Offering of the Convertible Notes*

In connection with the issuance of the Convertible Notes, Ascent Capital entered into separate privately negotiated purchased call options (the Bond Hedge Transactions). The Bond Hedge Transactions require the counterparties to offset Common Stock deliverable or cash payments made by Ascent Capital upon conversion of the Convertible Notes in the event that the volume-weighted average price of the Common Stock on each trading day of the relevant valuation period is greater than the strike price of \$102.804, which corresponds to the Conversion Price of the Convertible Notes. The Bond Hedge Transactions cover, subject to anti-dilution adjustments, approximately 1,007,000 shares of Common Stock, which is equivalent to the number of shares initially issuable upon conversion of the Convertible Notes, and are expected to reduce the potential dilution with respect to the Common Stock, and/or offset potential cash payments Ascent Capital is required to make in excess of the principal amount of the Convertible Notes upon conversion.

Concurrently with the Bond Hedge Transactions, Ascent Capital also entered into separate privately negotiated warrant transactions with each of the call option counterparties (the Warrant Transactions). The warrants are European options, and are exercisable in tranches on consecutive trading days starting after the maturity of the Convertible Notes. The warrants cover the same initial number of shares of Common Stock, subject to anti-dilution adjustments, as the Bond Hedge Transactions. The Warrant Transactions require Ascent Capital to deliver Common Stock or make cash payments to the counterparties on each expiration date with a value equal to the number of warrants exercisable on that date times the excess of the volume-weighted average price of the Common Stock over the strike price of \$118.62, which effectively reflects a 50% conversion premium on the Convertible Notes. As such, the Warrant Transactions may have a dilutive effect with respect to the Common Stock to the extent the Warrant Transactions are settled with shares of Common Stock. Ascent Capital may elect to settle its delivery obligation under the Warrant Transactions in cash.

The Bond Hedge Transactions and Warrant Transactions are separate transactions entered into by Ascent Capital, are not part of the terms of the Convertible Notes and will not affect the Noteholders' rights under the Convertible Notes. The Noteholders will not have any rights with respect to the Bond Hedge Transactions or the Warrant Transactions.

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

Ascent Capital purchased the bond hedge call option for \$20,318,000 and received \$14,211,000 in proceeds from the sale of the warrants, resulting in a net cost for the Bond Hedge Transactions and the Warrant Transactions of \$6,107,000. In accordance with FASB ASC 815-40, the fair value of the Bond Hedge and Warrant Transactions was recognized in Additional paid-in capital on the consolidated balance sheet.

### *Senior Notes*

On July 17, 2013, Monitronics closed on a \$175,000,000 privately placed debt offering of 9.125% Senior Notes (the New Senior Notes). In December 2013, Monitronics completed an exchange of the New Senior Notes for identical securities in a registered offering under the Securities Act of 1933, as amended.

The New Senior Notes, together with the \$410,000,000 Existing Senior Notes (the Senior Notes), total \$585,000,000 in principal, mature on April 1, 2020 and bear interest at 9.125% per annum. Interest payments are due semi-annually on April 1 and October 1 of each year.

The Senior Notes are guaranteed by all of Monitronics existing domestic subsidiaries. Ascent Capital has not guaranteed any of Monitronics obligations under the Senior Notes.

*Credit Facility*

On March 25, 2013, Monitronics entered into an amendment ( Amendment No. 2 ) with the lenders of its existing senior secured credit agreement dated March 23, 2012, and as amended and restated on November 7, 2012 (the Existing Credit Agreement ). Pursuant to Amendment No. 2, Monitronics repriced the interest rates applicable to the Existing Credit Agreement s facility (the Repricing ), which is comprised of the term loans and revolving credit facility noted in the table above. Concurrently with the Repricing, Monitronics extended the maturity of the revolving credit facility by nine months to December 22, 2017.

On August 16, 2013, in connection with the Security Networks Acquisition, Monitronics entered into a third amendment ( Amendment No. 3 ) to the Existing Credit Agreement to provide for, among other things, (i) an increase in the commitments under the revolving credit facility in a principal amount of \$75,000,000, resulting in an aggregate principal amount of \$225,000,000, (ii) new term loans in an aggregate principal amount of \$225,000,000 (the Incremental Term Loans ) at a 0.5% discount and (iii) certain other amendments to the Existing Credit Agreement, each as set forth in Amendment No. 3 (the Existing Credit Agreement together with Amendment No. 2 and Amendment No. 3, the Credit Facility ).

The Credit Facility term loans bear interest at LIBOR plus 3.25%, subject to a LIBOR floor of 1.00%, and mature on March 23, 2018. Principal payments of approximately \$2,292,000 and interest on the term loans are due quarterly. The Credit Facility revolver bears interest at LIBOR plus 3.75%, subject to a LIBOR floor of 1.00%, and matures on December 22, 2017. There is an annual commitment fee of 0.50% on unused portions of the Credit Facility revolver. As of March 31, 2014, \$187,500,000 is available for borrowing under the revolving credit facility.

On March 31, 2014, Monitronics borrowed \$33,000,000 on the Credit Facility revolver to fund its April 1, 2014 interest payment due under the Senior Notes of approximately \$26,691,000 and other business activities.

At any time after the occurrence of an event of default under the Credit Facility, the lenders may, among other options, declare any amounts outstanding under the Credit Facility immediately due and payable and terminate any commitment to make further loans under the Credit Facility. In addition, failure to comply with restrictions contained in the Senior Notes could lead to an event of default under the Credit Facility.

The Credit Facility is secured by a pledge of all of the outstanding stock of Monitronics and all of its existing subsidiaries and is guaranteed by all of Monitronics existing domestic subsidiaries. Ascent Capital has not guaranteed any of Monitronics obligations under the Credit Facility.

As of March 31, 2014, the Company has deferred financing costs, net of accumulated amortization, of \$26,179,000 related to the Convertible Notes, the Senior Notes and the Credit Facility. These costs are included in Other assets, net on the accompanying consolidated balance sheet and will be amortized over the remaining term of the respective debt instruments using the effective-interest method.

In order to reduce the financial risk related to changes in interest rates associated with the floating rate term loans under the Credit Facility, Monitronics has entered into interest rate swap agreements, with terms similar to the Credit Facility term loans. On March 25, 2013, Monitronics negotiated amendments to the terms of its existing swap agreements to coincide with the Repricing. In the third quarter of 2013,

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

Monitronics entered into additional interest rate swap agreements in conjunction with the Incremental Term Loans (all outstanding interest rate swap agreements are collectively referred to as the Swaps ).

The Swaps have a maturity date of March 23, 2018 to match the term of the Credit Facility term loans. The Swaps have been designated as effective hedges of the Company's variable rate debt and qualify for hedge accounting. See note 7, Derivatives, for further disclosures related to these derivative instruments. As a result of the Swaps, the interest rate on the borrowings under the Credit Facility term loans have been effectively converted from a variable rate to a weighted average fixed rate of 5.06%.

The terms of the Convertible Senior Notes, the Senior Notes and the Credit Facility provide for certain financial and nonfinancial covenants. As of March 31, 2014, the Company was in compliance with all required covenants.

**(7) Derivatives**

The Company utilizes interest rate swap agreements to reduce the interest rate risk inherent in Monitronics' variable rate Credit Facility term loans. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatility. The Company incorporates credit valuation adjustments to appropriately reflect the respective counterparty's nonperformance risk in the fair value measurements. See note 8, Fair Value Measurements, for additional information about the credit valuation adjustments.

The Swaps' outstanding notional balance as of March 31, 2014 and terms are noted below:

Notional	Effective Date	Fixed Rate Paid	Variable Rate Received
\$ 539,000,000	March 28, 2013	1.884%	3 mo. USD-LIBOR-BBA, subject to a 1.00% floor (a)

111,652,010	September 30, 2013	1.850%	3 mo. USD-LIBOR-BBA, subject to a 1.00% floor

(a) On March 25, 2013, Monitronics negotiated amendments to the terms of these interest rate swap agreements to coincide with the Repricing (the Amended Swaps). The Amended Swaps are held with the same counterparties as the Existing Swap Agreements. Upon entering into the Amended Swaps, Monitronics simultaneously dedesignated the Existing Swap Agreements and redesignated the Amended Swaps as cash flow hedges for the underlying change in the swap terms. The amounts previously recognized in Accumulated other comprehensive income relating to the dedesignation will be recognized in Interest expense over the remaining life of the Amended Swaps.

All of the Swaps are designated and qualify as cash flow hedging instruments, with the effective portion of the Swaps change in fair value recorded in Accumulated other comprehensive income. Any ineffective portions of the Swaps change in fair value are recognized in current

earnings in Interest expense. Changes in the fair value of the Swaps recognized in Accumulated other comprehensive income are reclassified to Interest expense when the hedged interest payments on the underlying debt are recognized. Amounts in Accumulated other comprehensive income expected to be recognized in Interest expense in the coming 12 months total approximately \$6,054,000.

### **(8) Fair Value Measurements**

According to the Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification, fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants and requires that assets and liabilities carried at fair value are classified and disclosed in the following three categories:

- Level 1 - Quoted prices for identical instruments in active markets.
- Level 2 - Quoted prices for similar instruments in active or inactive markets and valuations derived from models where all significant inputs are observable in active markets.
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs are unobservable in any market.

The following summarizes the fair value level of assets and liabilities that are measured on a recurring basis at March 31, 2014 and December 31, 2013 (amounts in thousands):

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

The Company has determined that the majority of the inputs used to value the Swaps fall within Level 2 of the fair value hierarchy. The credit valuation adjustments associated with the derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by their counterparties. As the counterparties have publicly available credit information, the credit spreads over LIBOR used in the calculations represent implied credit default swap spreads

obtained from a third-party credit data provider. However, as of March 31, 2014, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of the Swaps. As a result, the Company has determined that its derivative valuations are classified in Level 2 of the fair value hierarchy.

Carrying values and fair values of financial instruments that are not carried at fair value are as follows (amounts in thousands):

	March 31, 2014		December 31, 2013

Carrying value	\$ 1,598,035	\$	1,581,264
Fair value (a)	1,668,197		1,667,671

(a) The fair value is based on valuations from third party financial institutions and is classified as Level 2 in the hierarchy.

Ascent Capital's other financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are carried at cost, which approximates their fair value because of their short-term maturity.

**(9) Restructuring Charges**

In connection with the Security Networks Acquisition, management approved a restructuring plan to transition Security Networks' operations in West Palm Beach and Kissimmee, Florida to Dallas, Texas (the 2013 Restructuring Plan). The 2013 Restructuring Plan provides certain employees with a severance package that entitles them to benefits upon completion of the transition in 2014. Severance costs related to the 2013 Restructuring Plan are recognized ratably over the future service period. During the three months ended March 31, 2014, the Company recorded \$547,000 of restructuring charges related to employee termination benefits.

There were no restructuring charges recorded in continuing operations for the three months ended March 31, 2013.

In 2008 through 2010, the Company completed a restructuring plan (the 2008 Restructuring Plan) to align the Company's organization with its strategic goals and how it operated, managed and sold its services. The 2008 Restructuring Plan included severance costs from labor cost mitigation measures undertaken across all of the businesses and facility costs in conjunction with the consolidation of certain facilities in the United Kingdom and the closing of the Company's Mexico operations.

The following tables provide the activity and balances of the Company's restructuring plans (amounts in thousands):

(11) **Basic and Diluted Earnings (Loss) Per Common Share Series A and Series B**

Basic earnings (loss) per common share ( EPS ) is computed by dividing net earnings (loss) by the weighted average number of Ascent Capital Series A and Series B common shares outstanding for the period. Diluted EPS is computed by dividing net earnings (loss) by the sum of the weighted average number of Ascent Capital Series A and Series B common shares outstanding and the effect of dilutive securities such as outstanding stock options and unvested restricted stock.

	<b>Three Months ended March 31,</b>	
	<b>2014</b>	<b>2013</b>

Weighted average Series A and B shares diluted	13,808,344	14,624,026

For the three months ended March 31, 2014, diluted shares outstanding excluded the effect of 1,498,945 stock options and unvested restricted stock awards because their inclusion would have been anti-dilutive. For the three months ended March 31, 2013, there were no anti-dilutive outstanding securities.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

Certain statements in this Quarterly Report on Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our business, marketing and operating strategies, integration of acquired assets and businesses, new service offerings, financial prospects, and anticipated sources and uses of capital. Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished. The following include some but not all of the factors that could cause actual results or events to differ materially from those anticipated:

Factors relating to the Company and its consolidated subsidiaries:

- general business conditions and industry trends;
- macroeconomic conditions and their effect on the general economy and on the U.S. housing market, in particular single family homes which represent Monitronics' largest demographic;
- uncertainties in the development of our business strategies, including market acceptance of new products and services;
- the competitive environment in which we operate, in particular increasing competition in the alarm monitoring industry from larger existing competitors and new market entrants, including telecommunications and cable companies;
- the development of new services or service innovations by competitors;
- Monitronics' ability to acquire and integrate additional accounts, including competition for dealers with other alarm monitoring companies which could cause an increase in expected subscriber acquisition costs;
- integration of acquired assets and businesses, including Security Networks;
- the regulatory environment in which we operate, including the multiplicity of jurisdictions and licensing requirements to which Monitronics is subject and the risk of new regulations, such as the increasing adoption of false alarm ordinances;
- technological changes which could result in the obsolescence of currently utilized technology and the need for significant upgrade expenditures, including the phase-out of 2G networks by cellular carriers;
- the trend away from the use of public switched telephone network lines and resultant increase in servicing costs associated with alternative methods of communication;
- the operating performance of Monitronics' network, including the potential for service disruptions at both the main monitoring facility and back-up monitoring facilities due to acts of nature or technology deficiencies;
- the outcome of any pending, threatened, or future litigation, including potential liability for failure to respond adequately to alarm activations;

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

- our ability to continue to obtain insurance coverage sufficient to hedge our risk exposures, including as a result of acts of third parties and/or alleged regulatory violations;
- changes in the nature of strategic relationships with original equipment manufacturers, dealers and other Monitronics business partners;
- the reliability and creditworthiness of Monitronics independent alarm systems dealers and subscribers;
- changes in Monitronics expected rate of subscriber attrition;
- the availability and terms of capital, including the ability of Monitronics to obtain additional funds to grow its business;
- Monitronics high degree of leverage and the restrictive covenants governing its indebtedness; and
- availability of qualified personnel.

For additional risk factors, please see Part I, Item 1A, Risk Factors, in the 2013 Form 10-K. These forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Quarterly Report, and we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based.

The following discussion and analysis provides information concerning our results of operations and financial condition. This discussion should be read in conjunction with our accompanying condensed consolidated financial statements and the notes thereto included elsewhere herein and the 2013 Form 10-K.

**Overview**

Ascent Capital Group, Inc. is a holding company and its assets primarily consist of its wholly-owned subsidiary, Monitronics International, Inc.

The Monitronics business provides security alarm monitoring and related services to residential and business subscribers throughout the United States and parts of Canada. On August 16, 2013, Monitronics acquired all of the equity interests of Security Networks LLC ( Security Networks ) and certain affiliated entities (the Security Networks Acquisition ). Monitronics monitors signals arising from burglaries, fires, medical alerts and other events through security systems at subscribers premises, as well as provides customer service and technical support. Nearly all of its revenues are derived from monthly recurring revenues under security alarm monitoring contracts purchased from independent dealers in its exclusive nationwide network.

Ascent Capital s attrition analysis and results of operations for the three months ended March 31, 2014 include the operations of the Security Networks business.

*Attrition*

Account cancellation, otherwise referred to as subscriber attrition, has a direct impact on the number of subscribers that Monitronics services and on its financial results, including revenues, operating income and cash flow. A portion of the subscriber base can be expected to cancel its service every year. Subscribers may choose not to renew or terminate their contract for a variety of reasons, including relocation, cost and switching to a competitor s service. The largest category of canceled accounts relate to subscriber relocation or the inability to contact the subscriber. Monitronics defines its attrition rate as the number of canceled accounts in a given period divided by the weighted average of number of subscribers for that period. Monitronics considers an account canceled if payment from the subscriber is deemed uncollectible or if the subscriber cancels for various reasons. If a subscriber relocates but continues its service, this is not a cancellation. If the subscriber relocates, discontinues its service and a new subscriber takes over the original subscriber s service continuing the revenue stream, this is also not a cancellation. Monitronics adjusts the number of canceled accounts by excluding those that are contractually guaranteed by its dealers. The typical dealer contract provides that if a subscriber cancels in the first year of its contract, the dealer must either replace the canceled account with a new one or refund to Monitronics the cost paid to acquire the contract. To help ensure the dealer s obligation to Monitronics, Monitronics typically maintains a dealer funded holdback reserve ranging from 5-10% of subscriber accounts in the guarantee period. In some cases, the amount of the holdback liability may be less than actual attrition experience.

The table below presents subscriber data for the twelve months ended March 31, 2014 and 2013:

(a) Canceled accounts that are contractually guaranteed to be refunded from holdback.

(b) Includes 2,064 subscriber accounts that were proactively cancelled following the acquisition of Security Networks in August 2013 because they were active with both Monitronics and Security Networks.

Monitronics analyzes its attrition by classifying accounts into annual pools based on the year of acquisition. Monitronics then tracks the number of accounts that cancel as a percentage of the initial number of accounts acquired for each pool for each year subsequent to its acquisition. Based on the average cancellation rate across the pools, in recent years Monitronics has averaged less than 1% attrition within the initial 12-month period after considering the accounts which were replaced or refunded by the dealers at no additional cost to Monitronics. Over the next few years of the subscriber account life, the number of subscribers that cancel as a percentage of the initial number of subscribers in that pool gradually increases and historically has peaked following the end of the initial contract term, which is typically three to five years. The peak following the end of the initial contract term is primarily a result of the buildup of subscribers that moved or no longer had need for the service but did not cancel their service until the end of their initial contract term. Subsequent to the peak following the end of the initial contract term, the number of subscribers that cancel as a percentage of the initial number of subscribers in that pool declines.

**Accounts Acquired**

During the three months ended March 31, 2014 and 2013, Monitronics acquired 31,774 and 28,460 subscriber accounts, respectively. Acquired contracts for the twelve months ended March 31, 2014 include 203,898 accounts acquired in the Security Networks Acquisition, which was completed on August 16, 2013. In addition, subscriber accounts acquired for the twelve months ended March 31, 2013 include approximately 93,000 accounts purchased in a bulk buy on October 25, 2012.

Recurring monthly revenue acquired during the three months ended March 31, 2014 and 2013 was approximately \$1,451,000 and \$1,277,000, respectively.

**Adjusted EBITDA**

We evaluate the performance of our operations based on financial measures such as revenue and Adjusted EBITDA. Adjusted EBITDA is defined as net income (loss) before interest expense, interest income, income taxes, depreciation, amortization (including the amortization of subscriber accounts and dealer network), realized and unrealized gain/(loss) on derivative instruments, restructuring charges, stock-based and other non-cash long-term incentive compensation, and other non-cash or nonrecurring charges. Ascent Capital believes that Adjusted EBITDA is an important indicator of the operational strength and performance of its business, including the business ability to fund its ongoing acquisition of subscriber accounts, its capital expenditures and to service its debt. In addition, this measure is used by management to evaluate operating results and perform analytical comparisons and identify strategies to improve performance. Adjusted EBITDA is also a measure that is customarily used by financial analysts to evaluate the financial performance of companies in the security alarm monitoring industry and is one of the financial measures, subject to certain adjustments, by which Monitronics covenants are calculated under the agreements governing their debt obligations. Adjusted EBITDA does not represent cash flow from operations as defined by generally accepted accounting principles (GAAP), should not be construed as an alternative to net income or loss and is indicative neither of our results of operations nor of cash flows available to fund all of our cash needs. It is, however, a measurement that Ascent Capital believes is useful to investors in analyzing its operating performance. Accordingly, Adjusted EBITDA should be considered in addition to, but not as a substitute for, net income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with GAAP. Adjusted EBITDA is a non-GAAP financial measure. As companies often define non-GAAP financial measures differently, Adjusted EBITDA as calculated by Ascent Capital should not be compared to any similarly titled measures reported by other companies.

### Table of Contents

*Net revenue.* Net revenue increased \$32,706,000, or 32.7%, for the three months ended March 31, 2014 as compared to the corresponding prior year period. The increase in net revenue is attributable to the growth in the number of subscriber accounts and the increase in average monthly revenue per subscriber. The growth in subscriber accounts reflects the effects of the Security Networks Acquisition in August 2013, which included over 200,000 subscriber accounts, acquisition of over 135,000 accounts through Monitronics' authorized dealer program subsequent to March 31, 2013, and the purchase of approximately 18,200 accounts in various bulk buys over the last 12 months. In addition, average monthly revenue per subscriber increased from \$39.74 as of March 31, 2013 to \$41.15 as of March 31, 2014.

*Cost of services.* Cost of services increased \$6,888,000, or 45.3%, for the three months ended March 31, 2014 as compared to the corresponding prior year period. The increase is primarily attributable to subscriber growth over the last twelve months, as well as increases in cellular and service costs. Cellular costs have increased due to more accounts being monitored across the cellular network, which often include interactive and home automation services. This has also resulted in higher service costs as existing subscribers upgrade their systems. Cost of services as a percent of net revenue increased from 15.2% for the three months ended March 31, 2013 to 16.6% for the three months ended March 31, 2014.

*Selling, general and administrative.* Selling, general and administrative costs ( SG&A ) increased \$6,800,000, or 34.5%, for the three months ended March 31, 2014 as compared to the corresponding prior year period. The increase is attributable to increases in Monitronics SG&A costs which include \$3,940,000 of Security Networks SG&A costs for the three months ended March 31, 2014. Increased Monitronics SG&A costs are also attributable to redundant staffing and operating costs at our Dallas, Texas headquarters and integration costs incurred in advance of transitioning Security Networks' operations from Florida to Texas. This transition was completed in April 2014. Integration costs for the three months ended March 31, 2014, were \$1,059,000, which primarily relate to professional services rendered. SG&A as a percent of net revenue increased from 19.7% for the three months ended March 31, 2013 to 20.0% for the three months ended March 31, 2014.

*Amortization of subscriber accounts, dealer network and other intangible assets.* Amortization of subscriber accounts, dealer network and other intangible assets increased \$17,465,000 for the three months ended March 31, 2014 as compared to the corresponding prior year period. The increase is attributable to amortization of subscriber accounts acquired subsequent to March 31, 2013, including amortization of approximately \$16,517,000 related to the definite lived intangible assets acquired in the Security Networks Acquisition.

*Restructuring charges.* In connection with the Security Networks Acquisition, management approved a restructuring plan to transition Security Networks operations in West Palm Beach and Kissimmee, Florida to Dallas, Texas (the 2013 Restructuring Plan ). The 2013 Restructuring Plan provides certain employees with a severance package that entitles them to benefits upon completion of the transition in 2014. Severance costs related to the 2013 Restructuring Plan are recognized ratably over the future service period. During the three months ended March 31, 2014, the Company recorded \$547,000 of restructuring charges related to employee termination benefits.

There were no restructuring charges recorded in continuing operations for the three months ended March 31, 2013.

In 2008 through 2010, the Company completed a restructuring plan (the 2008 Restructuring Plan ) to align the Company's organization with its strategic goals and how it operated, managed and sold its services. The 2008 Restructuring Plan included severance costs from labor cost mitigation measures undertaken across all of the businesses and facility costs in conjunction with the consolidation of certain facilities in the United Kingdom and the closing of the Company's Mexico operations.

*Interest expense.* Interest expense increased \$7,630,000 for the three months ended March 31, 2014 as compared to the corresponding prior year period. The increase in interest expense is primarily attributable to increases in the Company's consolidated debt balance related to the borrowings incurred to fund the Security Networks Acquisition. This increase is partially offset by the favorable repricing of Monitronics credit facility interest rates effective March 25, 2013.

*Income tax expense from continuing operations.* The Company had a pre-tax loss from continuing operations of \$7,757,000 and income tax expense of \$1,621,000 for the three months ended March 31, 2014. The Company had pre-tax income from continuing operations of \$3,088,000 and income tax expense of \$774,000 for the three months ended March 31, 2013. Income tax expense for the three months ended March 31, 2014 is attributable to Monitronics' state tax expense and the deferred tax impact from amortization of deductible goodwill related to the Security Networks Acquisition. Income tax expense for the three months ended March 31, 2013 is primarily attributable to Monitronics state tax expense.

*Earnings (loss) from discontinued operations, net of income taxes.* Earnings (loss) from discontinued operations, net of income taxes, were \$(354,000) and \$446,000 for the three months ended March 31, 2014 and 2013, respectively. Loss from discontinued operations includes contract termination costs and other loss contingencies for the three months ended March 31, 2014. Earnings from discontinued operations include recoveries of prior period expenses associated with discontinued operations for the three months ended March 31, 2013.

*Adjusted EBITDA.* The following table provides a reconciliation of total Adjusted EBITDA to net income (loss) from continuing operations (amounts in thousands):

Adjusted EBITDA increased \$16,644,000, or 23.3%, for the three months ended March 31, 2014 as compared to the respective prior year period. The increase in Adjusted EBITDA was primarily due to revenue growth. Monitronics Adjusted EBITDA was \$89,275,000 for the three months ended March 31, 2014 as compared to \$69,414,000 for the three months ended March 31, 2013.

**Liquidity and Capital Resources**

At March 31, 2014, we had \$59,663,000 of cash and cash equivalents, \$119,000 of current restricted cash, and \$129,841,000 of marketable securities on a consolidated basis. We may use a portion of these assets to decrease debt obligations, fund stock repurchases, or fund potential strategic acquisitions or investment opportunities.

Additionally, our other source of funds is our cash flows from operating activities which are primarily generated from the operations of Monitronics. During the three months ended March 31, 2014 and 2013, our cash flow from operating activities was \$69,084,000 and \$60,542,000, respectively. The primary driver of our cash flow from operating activities is Adjusted EBITDA. Fluctuations in our Adjusted EBITDA and the components of that measure are discussed in Results of Operations above. In addition, our cash flow from operating activities may be significantly impacted by changes in working capital.

During the three months ended March 31, 2014 and 2013, the Company used cash of \$53,789,000 and \$46,043,000, respectively, to fund subscriber account acquisitions, net of holdback and guarantee obligations. In addition, during the three months ended March 31, 2014 and 2013, the Company used cash of \$1,938,000 and \$1,277,000, respectively, to fund its capital expenditures. In order to improve our investment rate of return, the Company purchased marketable securities consisting primarily of diversified corporate bond funds for cash of \$1,003,000 during the three months ended March 31, 2013.

On March 31, 2014, Monitronics borrowed \$33,000,000 on the Credit Facility revolver to fund its April 1, 2014 interest payment due under the Senior Notes of approximately \$26,691,000 and other business activities.

On November 14, 2013, the Company's Board of Directors authorized the repurchase of an additional \$25,000,000 of its Series A common stock (the 2013 Share Repurchase Authorization). As of March 31, 2014, 192,100 shares had been purchased, at an approximate average price paid of \$76.33, pursuant to the 2013 Share Repurchase Authorization. Approximately \$10,336,000 of Series A common stock may still be purchased under the 2013 Share Repurchase Authorization.

In considering our liquidity requirements for 2014, we evaluated our known future commitments and obligations. We will require the availability of funds to finance the strategy of our primary operating subsidiary, Monitronics, which is to grow through the acquisition of subscriber accounts. Additionally, as a result of announcements by AT&T and certain other telecommunication providers that they intend to discontinue 2G services in the near future, we expect to incur expenditures over the next few years as we replace the 2G equipment used in many of our subscribers' security systems. Costs incurred and subscriber attrition resulting from the 2G phase-out will, to some extent, be dependent on the level of advance notice received from the telecommunication providers. We expect costs associated with the phase-out to be relatively small in 2014 and then increase in 2015 and 2016. We considered the expected cash flow from Monitronics, as this business is the driver of our operating cash flows. In addition, we considered the borrowing capacity of Monitronics' Credit Facility revolver, under which Monitronics could borrow an additional \$187,500,000 as of March 31, 2014. Based on this analysis, we expect that cash on hand, cash flow generated from operations and borrowings under the Monitronics' Credit Facility will provide sufficient liquidity, given our anticipated current and future requirements.

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

The existing long-term debt of the Company at March 31, 2014 includes the principal balance of \$1,631,173,000 under its Convertible Notes, Senior Notes, Credit Facility, and Credit Facility revolver. The Convertible Notes have an outstanding principal balance of \$103,500,000 as of March 31, 2014 and mature July 15, 2020. The Senior Notes have an outstanding principal balance of \$585,000,000 as of March 31, 2014 and mature on April 1, 2020. The Credit Facility term loans have an outstanding principal balance of \$905,173,000 as of March 31, 2014 and require principal payments of approximately \$2,292,000 per quarter with the remaining outstanding balance becoming due on March 23, 2018. The Credit Facility revolver has an outstanding balance of \$37,500,000 as of March 31, 2014 and becomes due on December 22, 2017.

We may seek external equity or debt financing in the event of any new investment opportunities, additional capital expenditures or our operations requiring additional funds, but there can be no assurance that we will be able to obtain equity or debt financing on terms that would be acceptable to us or at all. Our ability to seek additional sources of funding depends on our future financial position and results of operations, which are subject to general conditions in or affecting our industry and our customers and to general economic, political, financial, competitive, legislative and regulatory factors beyond our control.

Table of Contents**Item 3. Quantitative and Qualitative Disclosure about Market Risk*****Interest Rate Risk***

Due to the terms of our debt obligations, we have exposure to changes in interest rates related to these debt obligations. Monitronics uses derivative financial instruments to manage the exposure related to the movement in interest rates. The derivatives are designated as hedges and were entered into with the intention of reducing the risk associated with variable interest rates on the debt obligations. We do not use derivative financial instruments for trading purposes.

***Tabular Presentation of Interest Rate Risk***

The table below provides information about our outstanding debt obligations and derivative financial instruments that are sensitive to changes in interest rates. Interest rate swaps are presented at fair value and by maturity date. Debt amounts represent principal payments by maturity date.

<b>Year of Maturity</b>	<b>Fixed Rate Derivative Instruments (a)</b>	<b>Variable Rate Debt Amounts in thousands</b>	<b>Fixed Rate Debt</b>	<b>Total</b>
Remainder of 2014	\$	6,875		6,875
2015		9,166		9,166
2016		9,166		9,166
2017		46,666		46,666
2018	1,094	870,800		871,894
2019				
Thereafter			688,500	688,500
<b>Total</b>	\$ 1,094	942,673	688,500	1,632,267

(a) The derivative financial instruments reflected in this column include four interest rate swaps, all with a maturity date of March 23, 2018. As a result of these interest rate swaps, the interest rate on the borrowings under the Credit Facility term loans have been effectively converted from a variable rate to a weighted average fixed rate of 5.06%. See notes 6, 7 and 8 to our condensed consolidated financial statements included in this quarterly report for further information.

**Item 4. Controls and Procedures**

In accordance with Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company carried out an evaluation, under the supervision and with the participation of management, including its chief executive officer and chief financial officer (the Executives), of the effectiveness of its disclosure controls and procedures as of the end of the period covered by this report. Based

## Edgar Filing: Ascent Capital Group, Inc. - Form 10-Q

on that evaluation, the Executives concluded that the Company's disclosure controls and procedures were effective as of March 31, 2014 to provide reasonable assurance that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There has been no change in the Company's internal controls over financial reporting that occurred during the three months ended March 31, 2014 that has materially affected, or is reasonably likely to materially affect, its internal controls over financial reporting.
