NOTES TO CONSOLIDATED FINANCIAL STATEMENTS SEPTEMBER 30, 2014 AND 2013 (UNAUDITED) AND DECEMBER 31, 2013

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The consolidated financial statements include the accounts of Republic Bancorp, Inc. (the Parent Company) and its wholly-owned subsidiaries, Republic Bank & Trust Company (RB&T or the Bank) and Republic Insurance Services, Inc. (the Captive). RB&T is a Kentucky-based, state chartered non-member financial institution. The Captive, which was formed during the third quarter of 2014, is a wholly-owned insurance subsidiary of the Company that provides property and casualty insurance coverage to the Company and the Bank. The Captive provides reinsurance to five other third party insurance captives for which insurance may not be currently available or economically feasible in today s insurance marketplace. Republic Bancorp Capital Trust (RBCT) is a Delaware statutory business trust that is a wholly-owned unconsolidated finance subsidiary of Republic Bancorp, Inc. All companies are collectively referred to as Republic or the Company. All significant intercompany balances and transactions are eliminated in consolidation.

During the second quarter of 2014, Republic Bank, the Company s wholly-owned, federally chartered savings institution, was legally merged into RB&T. The merged institution operates under the name Republic Bank & Trust Company. The merger did not materially impact the Company s consolidated financial statements.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and footnotes thereto included in Republic s Form 10-K for the year ended December 31, 2013.

As of September 30, 2014, the Company was divided into three distinct business operating segments: Traditional Banking, Mortgage Banking and Republic Processing Group (RPG). Tax Refund Solutions (TRS), Republic Payment Solutions (RPS) and Republic Credit Solutions (RCS) operate as divisions of the RPG segment. The TRS division comprises the substantial majority of revenues and expenses of RPG. The RPS and RCS divisions are considered immaterial for separate and independent segment reporting.

Traditional Banking and Mortgage Banking (collectively Core Banking)

As of September 30, 2014, in addition to an Internet delivery channel, Republic had 42 full-service banking centers with locations as follows:

- Kentucky 33

- Metropolitan Louisville 20
- Central Kentucky 8
- Elizabethtown 1
- Frankfort 1
- Georgetown 1
- Lexington 4
- Shelbyville 1
- Western Kentucky 2
- Owensboro 2

- Florence 1
- Independence 1
- Southern Indiana 3
- Floyds Knobs 1
- Jeffersonville 1
- New Albany 1
- Metropolitan Tampa, Florida 3
- Metropolitan Cincinnati, Ohio 1
- Metropolitan Nashville, Tennessee 2

Table of Contents

Republic s headquarters are located in Louisville, which is the largest city in Kentucky based on population.

Core Banking results of operations are primarily dependent upon net interest income, which represents the difference between the interest income and fees on interest-earning assets and the interest expense on interest-bearing liabilities. Principal interest-earning Core Banking assets represent investment securities and commercial and consumer loans primarily secured by real estate and/or personal property. Interest-bearing liabilities primarily consist of interest-bearing deposit accounts, securities sold under agreements to repurchase, as well as short-term and long-term borrowing sources. FHLB advances have traditionally been a significant borrowing source for the Bank.

Other sources of Core Banking income include service charges on deposit accounts, debit and credit card interchange fee income, title insurance commissions, fees charged to customers for trust services and revenue generated from Mortgage Banking activities. Mortgage Banking activities represent both the origination and sale of loans in the secondary market and the servicing of loans for others, primarily the Federal Home Loan Mortgage Corporation (Freddie Mac or FHLMC).

Core Banking operating expenses consist primarily of salaries and employee benefits, occupancy and equipment expenses, communication and transportation costs, data processing, debit card interchange expenses, marketing and development expenses, FDIC insurance expense, and various general and administrative costs. Core Banking results of operations are significantly impacted by general economic and competitive conditions, particularly changes in market interest rates, government laws and policies and actions of regulatory agencies.

The Core Bank provides short-term, revolving credit facilities to mortgage bankers across the Nation through mortgage warehouse lines of credit. These credit facilities are secured by single family, first lien residential real estate loans. Outstanding balances on these credit facilities may be subject to significant fluctuations consistent with the overall market demand for mortgage loans.

The Core Bank began acquiring single family, first lien mortgage loans for investment through its Correspondent Lending division in May 2014. Correspondent Lending generally involves the Bank acquiring, primarily from its Mortgage Warehouse clients, closed loans that meet the Bank s specifications. Substantially all loans purchased through the Correspondent Lending channel are purchased at a premium. Premiums on loans held for investment acquired though the Correspondent Lending division are amortized into interest income on the level-yield method over the expected life of the loan. Loans acquired through the Correspondent Lending division generally reflect borrowers outside of the Bank s historical market footprint. As of September 30, 2014, a substantial majority of loans originated through the Company s Correspondent Lending division were secured by single family residences located in the state of California.

Republic Processing Group

All divisions of the RPG segment operate through the Bank. Nationally, RPG facilitates the receipt and payment of federal and state tax refunds under the TRS division, primarily through refund transfers (RT s). RTs are products whereby a tax refund is issued to the taxpayer after the Bank has received the refund from the federal or state government. There is no credit risk or borrowing cost associated with these products, because they are only delivered to the taxpayer upon receipt of the tax refund directly from the governmental paying authority. Fees earned on RTs, net of rebates, are the primary source of revenue for the TRS division and the RPG segment, and are reported as non-interest income under the line item Net refund transfer fees.

The TRS division historically originated and obtained a significant source of revenue from Refund Anticipation Loans (RAL s), but terminated this product effective April 30, 2012. RALs were short-term consumer loans offered to taxpayers that were secured by the customer s anticipated tax refund, which represented the sole source of repayment. While RALs were terminated in 2012, TRS has received and expects to continue receiving recoveries from previously charged-off RALs.

The RPS division is an issuing bank offering general purpose reloadable prepaid debit cards through third party program managers.

The RCS division is piloting short-term consumer credit products.

Recently Issued Accounting Standards Updates (**ASU**)

ASU 2014-14 Receivables Troubled Debt Restructurings by Creditors ***(Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure.***

The amendments in this ASU require that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if: a) the loan has a government guarantee that is not separable from the loan before foreclosure; b) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and the creditor has the ability to recover under that claim; and c) at the time of foreclosure, any amount of the claim that is determined on the basis of the fair value of the real estate is fixed. The separate other receivable recognized upon foreclosure should be measured based on the amount of the loan balance (principal and interest) expected to be received from the guarantor. The amendments in this ASU are effective for the Company beginning January 1, 2015 and are not expected to have a material impact on the Company s financial statements.

Reclassifications and recasts Certain amounts presented in prior periods have been reclassified to conform to the current period presentation. These reclassifications had no impact on prior years net income.

At September 30, 2014 and December 31, 2013, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders equity.

Sales of Securities Available for Sale

During the three and nine months ended September 30, 2014 and 2013, there were no sales or calls of securities available for sale or applicable income tax provisions for such transactions.

Investment Securities by Contractual Maturity

The amortized cost and fair value of the investment securities portfolio by contractual maturity at September 30, 2014 follows. Expected maturities may differ from contractual maturities if securities issuers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are detailed separately.

Freddie Mac Preferred Stock

During 2008, the U.S. Treasury, the Federal Reserve Board, and the Federal Housing Finance Agency (FHFA) announced that the FHFA was placing Freddie Mac under conservatorship and giving management control to the FHFA. The Bank contemporaneously determined that its 40,000 shares of Freddie Mac preferred stock were fully impaired and recorded an Other Than Temporary Impairment (OTTI) charge of $2.1 million for the shares. The OTTI charge brought the carrying value of the stock to $0. During the second quarter of 2014, based on active trading volume of Freddie Mac preferred stock, the Company determined it appropriate to record an unrealized gain to other comprehensive income (OCI) related to its Freddie Mac preferred stock holdings. Based on the stock s market closing price as of September 30, 2014, the Company s unrealized gain for its Freddie Mac preferred stock totaled $669,000. In October 2014, the unrealized gain in the Company s Freddie Mac preferred stock fell to approximately $300,000 following a legal decision unfavorable to private investors in such stock.

Corporate Bonds

During 2013, the Bank purchased $20 million in floating rate corporate bonds with an initial weighted average yield of 1.36%. The bonds, which have a weighted average life of seven years, were rated investment grade by accredited rating agencies as of their respective purchase dates. The total fair value of the Bank s corporate bonds represented 4% of the Bank s investment portfolio as of both September 30, 2014 and December 31, 2013.

Mortgage Backed Securities

At September 30, 2014, with the exception of the $5.3 million private label mortgage backed security, all other mortgage backed securities held by the Bank were issued by U.S. government-sponsored entities and agencies, primarily Freddie Mac and the Federal National Mortgage Association (Fannie Mae or FNMA), institutions that the government has affirmed its commitment to support. At September 30, 2014 and December 31, 2013, there were gross unrealized/unrecognized losses of $1.0 million and $1.8 million related to available for sale mortgage backed securities. Because the decline in fair value of

Table of Contents

these mortgage backed securities is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Bank does not have the intent to sell these mortgage backed securities, and it is likely that it will not be required to sell the securities before their anticipated recovery, management does not consider these securities to be other-than-temporarily impaired.

Table of Contents

At September 30, 2014, the Bank s security portfolio consisted of 161 securities, 23 of which were in an unrealized loss position. At December 31, 2013, the Bank s security portfolio consisted of 162 securities, 27 of which were in an unrealized loss position.

Other-than-temporary Impairment

Unrealized losses for all investment securities are reviewed to determine whether the losses are other-than-temporary. Investment securities are evaluated for OTTI on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether a decline in value below amortized cost is other-than-temporary. In conducting this assessment, the Bank evaluates a number of factors including, but not limited to:

- The length of time and the extent to which fair value has been less than the amortized cost basis;
- The Bank s intent to hold until maturity or sell the debt security prior to maturity;
- An analysis of whether it is more likely than not that the Bank will be required to sell the debt security before its anticipated recovery;
- Adverse conditions specifically related to the security, an industry, or a geographic area;
- The historical and implied volatility of the fair value of the security;
- The payment structure of the security and the likelihood of the issuer being able to make payments;
- Failure of the issuer to make scheduled interest or principal payments;
- Any rating change by a rating agency; and
- Recoveries or additional decline in fair value subsequent to the balance sheet date.

The term other-than-temporary is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value are not necessarily favorable, or that there is a general lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other-than-temporary, the value of the security is reduced and a corresponding charge to earnings is recognized for the anticipated credit losses.

The Bank owns one private label mortgage backed security with a total carrying value of $5.3 million at September 30, 2014. This security, with an average remaining life currently estimated at three years, is mostly backed by Alternative A first lien mortgage loans, but also has an insurance wrap or guarantee as an added layer of protection to the security holder. This asset is illiquid, and as such, the Bank determined it to be a Level 3 security in accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures.* Based on this determination, the Bank utilized an income valuation model (present value model) approach, in determining the fair value of the security. This approach is beneficial for positions that are not traded in active markets or are subject to transfer restrictions, and/or where valuations are adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management s best estimate is used. Management s best estimate consists of both internal and external support for this investment.

See additional discussion regarding the Bank s private label mortgage backed security under Footnote 6 Fair Value in this section of the filing.

3. LOANS AND ALLOWANCE FOR LOAN LOSSES

The Bank s financing receivables consist primarily of loans and a minimal amount of lease financing receivables (together referred to as loans). Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal balance outstanding, inclusive of purchase premiums or discounts, deferred loan fees and costs and the allowance for loan losses. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized in interest income using the level-yield method.

Lease financing receivables, all of which are direct financing leases, are reported at their principal balance outstanding net of any unearned income, deferred fees and costs and applicable allowance for losses. Leasing income is recognized on a basis that achieves a constant periodic rate of return on the outstanding lease financing balances over the lease terms.

Loan Purchases

In May 2014, the Bank began acquiring single family, first lien mortgage loans for investment within its loan portfolio through its Correspondent Lending division. Correspondent Lending generally involves the Bank acquiring, primarily from its Mortgage Warehouse clients, closed loans that meet the Bank s specifications. Substantially all loans purchased through the Correspondent Lending channel are purchased at a premium. Premiums on loans held for investment acquired though the Correspondent Lending division are amortized into interest income on a level-yield method over the expected life of the loan. Loans acquired through the Correspondent Lending division generally reflect borrowers outside of the Bank s historical market footprint, with a substantial majority of loans originated through the division as of September 30, 2014, secured by single residences located in the state of California.

In addition to secured mortgage loans acquired through its Correspondent Lending division, the Bank also began acquiring unsecured consumer installment loans for investment from a third-party originator in April 2014. Such consumer loans are purchased at par and are selected by the Bank based on certain underwriting characteristics.

The table below reflects the purchased activity of single family, first lien mortgage loans and unsecured consumer loans, by class, during the three and nine months ended September 30, 2014. No purchases of these type loans were made during 2013.

Purchased Credit Impaired (PCI) Loans

The contractual amount of PCI loans acquired during the Bank s 2012 FDIC-assisted transactions and accounted for under ASC 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality,* decreased from $58 million as of December 31, 2013 to $36 million as of September 30, 2014. The carrying value of these loans was $41 million as of December 31, 2013 compared to $25 million as of September 30, 2014.

The table below reconciles the contractually required and carrying amounts of PCI loans at September 30, 2014 and December 31, 2013:

The Allowance calculation includes the following qualitative factors, which are considered in combination with the Bank s historical loss rates in determining the general loss reserve within the Allowance:

- Changes in nature, volume and seasoning of the portfolio;
- Changes in experience, ability and depth of lending management and other relevant staff;
- Changes in the quality of the Bank s credit review system;
- Changes in policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in the volume and severity of past due, non-accrual and classified loans;
- Changes in the value of underlying collateral for collateral-dependent loans;

- Changes in international, national, regional, and local economic and business conditions and developments that affect the collectibility of portfolios, including the condition of various market segments;

- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and

- The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the institution s existing portfolio.

---

(1) Loans on non-accrual status include impaired loans, which are discussed subsequently in Footnote 3 in this section of the filing.

(2) All loans past due 90-days-or-more and still accruing were PCI loans accounted for under ASC 310-30.

The following table presents the recorded investment in non-accrual loans and loans past due 90-days-or-more and still on accrual by class:

** - For all periods presented, loans past due 90-days-or-more and still on accrual consist entirely of PCI loans.*

Non-accrual loans and loans past due 90-days-or-more and still on accrual include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans. Non-accrual loans are typically returned to accrual status when all the principal and interest amounts contractually due are brought current and held current for six consecutive months and future contractual payments are reasonably assured. Troubled debt restructurings (TDR s) on non-accrual status are reviewed for return to accrual status on an individual basis, with additional consideration given to performance under the modified terms.

Table of Contents

Impaired Loans

The Bank defines impaired loans as follows:

- All loans internally rated as Substandard, Doubtful or Loss;
- All loans internally rated in a PCI category with cash flows that have deteriorated from management s initial estimate;
- All loans on non-accrual status and non-PCI loans past due 90 days-or-more still on accrual;
- All retail and commercial TDRs; and
- Any other situation where the full collection of the total amount due for a loan is improbable or otherwise meets the definition of impaired.

See the section titled Credit Quality Indicators in this section of the filing for additional discussion regarding the Bank s loan classification structure.

Information regarding the Bank s impaired loans follows:

(in thousands)	**September 30, 2014**	**December 31, 2013**
Loans with no allocated Allowance	$ 32,748	$ 36,721
Loans with allocated Allowance	57,565	71,273
Total impaired loans	$ 90,313	$ 107,994
Amount of the Allowance allocated	$ 5,651	$ 6,674

Approximately $14 million and $24 million of impaired loans at September 30, 2014 and December 31, 2013 were PCI loans. Approximately $5 million and $6 million of impaired loans at September 30, 2014 and December 31, 2013 were formerly PCI loans which became classified as impaired through a troubled debt restructuring.
