Wellbore Working Interest Purchase and Sale Agreement

On March 31, 2015, the Company completed a disposition to a subsidiary of SPP of escalating amounts of partial working interests in 59 wellbores located in Gonzales County, Texas (the **Palmetto Disposition**) for an adjusted sales price of approximately \$83.4 million. The effective date of the transaction was January 1, 2015. The aggregate average working interest percentage initially conveyed was 18.25% per wellbore and, upon January 1 of each subsequent year after the closing, the purchaser's working interest will automatically increase in incremental amounts according to the purchase agreement until January 1, 2019, at which point the purchaser will own a 47.5% working interest and the Company will own a 2.5% working interest in each of the wellbores. The Company received consideration consisting of approximately \$83.0 million (approximately \$81.4 million as adjusted) cash and 1,052,632 common units of SPP (the **SPP Common Units**) valued at approximately \$2.0 million as of the date of the closing. These SPP Common Units were later sold back to SPP in October 2015 as part of the Western Catarina Midstream Divestiture described below. The Company did not record any gains or losses related to the Palmetto Disposition.

Midstream Transaction

On October 14, 2015, the Company and SN Catarina, LLC, a wholly-owned subsidiary of the Company (**SN Catarina**), completed the sale of SN Catarina's interests in Catarina Midstream, LLC, a wholly-owned subsidiary of SN Catarina (**Catarina Midstream**), which as of the closing included certain midstream gathering lines and associated assets and interests located in Dimmit County and Webb County, Texas and 105,263 SPP Common Units to SPP for an adjusted purchase price of \$345.8 million in cash (the **Western Catarina Midstream Divestiture**). In connection with the closing of the Western Catarina Midstream Divestiture, SN Catarina and Catarina Midstream entered into a Firm Gathering and Processing Agreement (the **Gathering Agreement**) on October 14, 2015 for an initial term of 15 years under which production from approximately 35,000 acres in Dimmit County and Webb County, Texas will be dedicated for gathering by Catarina Midstream. In addition, for the first five years of the Gathering Agreement, SN Catarina will be required to meet a minimum quarterly volume delivery commitment of 10,200 barrels per day of crude oil and condensate and 142,000 Mcf per day of natural gas, subject to certain adjustments. SN Catarina will be required to pay gathering and processing fees of \$0.96 per barrel for crude oil and condensate and \$0.74 per Mcf for natural gas that are tendered through the gathering system, in each case, subject to an annual escalation for a positive increase in the consumer price index. In addition, SN Catarina has, under certain circumstances, a right of first refusal during the term of the agreement and afterwards with respect to dispositions by Catarina Midstream of its ownership interest in the gathering system. The Company recorded a deferred gain of approximately \$74.1 million as a result of Gathering Agreement being accounted for as an operating lease. This deferred gain will be amortized straight-line over the firm commitment term of five years as an offset to the transportation fees paid to SPP under the Gathering Agreement.
