Plan of Operations

During the three (3) month period of operations ending March 31, 2006, Westsphere and its subsidiaries generated a net income from operations of \$18,292, while a net loss from operations of \$65,392 was realized for the same period from the previous year. The significant increase in net income of \$83,684 over the same period from the previous year was primarily due to the increase in residual and interchange income by \$239,123 and sales of equipment and supplies by \$135,738. The increase in residual and interchange income was due to increases in placements of ATM machines and an increase in sales of ATM and POS machines.

Westsphere's gross margin during the first quarter of year 2006 decreased to 31% from gross margin during the same period from the previous year of 35%. Most of the decrease was caused by an increase in residual and interchange expense which was primarily due to a reduction in profit for the new placement program. Commissions also increased from the period of year 2005 of \$1,447 to \$15,296 during the first quarter of year 2006, which was due to increases in costs to operate for the new placement program. Westsphere's total administrative expenses for the first quarter of year 2006 increased by \$6,495 to \$379,887 from the previous year's amount of \$373,392. Most of the increase was caused by an increase in salaries and benefits from previous year 2005 of \$144,465 to \$180,971 during the first quarter of year 2006. The increase was primarily due to salary and benefits adjustments, hiring two additional staff

for the IT department, two staff for the Service department, one receptionist and one junior accountant from the previous year.

Westsphere and its subsidiaries currently generate sufficient cash flow to cover all of its consolidated operating expenses.

In order to grow Westsphere's businesses in ATM machines, in Finance/Lease and in POS machines, Westsphere is dependent upon private placements, loans and/or joint venture arrangements. The profits are expected to be generated by the interchange and surcharges collected from ATM and POS machines, the sale of ATM and POS machines, and from Financing and leasing charges.

To this date 940 ATM and 515 POS sites are being processed between two switches.

Changes in Financial Position

During the three (3) month period ending March 31, 2006, total assets decreased to \$1,911,539 primarily due to a decrease in inventory that was caused by an increase in sales and placements of ATMs, a decrease in prepaid expenses and deposits, a collection of mortgage receivables, and amortization of property and equipment.

The decrease is partially offset against an increase in cash. The increase in cash is mainly due to a collection of funds from the sales-type lease agreements in the latter part of year 2005 in the amount of \$209,019.

Westsphere's current liabilities consist of accounts payable of \$951,743 and accounts payable to related parties of \$110,169. Accounts payable includes payables of \$419,746 to suppliers for the purchase of ATM machines and POS machines, \$189,686 is payable for the return of surcharge and interchange, accounting and legal payables in the amount of \$ 59,093, long term lease payable to ATM suppliers in the amount of \$197,391, and \$85,827 due for consulting services, office expenses and various other general fees and charges.

Accounts payable to related parties consists of Officers' and Directors' bonuses payable carried forward from year 2002 in the amount of \$65,243, a loan advanced from Westsphere's President in the amount of \$36,254, and a cash advance from KSD Group Ltd. of \$8,672, which is controlled by Westsphere officers.

Long term liabilities as at March 31, 2006 consisted of a bank loan totaling \$57,959 for funds to pay down accounts payable to a major supplier, convertible debentures totaling \$124,165 for funds advanced for general working capital by various related and unrelated parties, and \$254,764 for outstanding accounts due to shareholders of Westsphere. Westsphere's shareholder loans related to TRAC of \$122,670 and a Vencash related loan of \$34,258 have interest rates of 18% and 12%, respectively. They both are demand loans. The remaining balance of shareholder loans total \$97,836 with no specific terms of repayment.

Shareholders' equity as of March 31, 2006 was \$409,971, inclusive of an accumulated loss from operations of \$1,471,248, as compared to shareholders equity of \$391,188 as of the same date from the previous year. Total issued and outstanding share capital as of the year ending March 31, 2006 was 551,702 common shares and 1,285,958 preferred shares as compared to a total of 621,939 common shares and 1,215,721 preferred shares as of December 31, 2005. The conversion from common to preferred shares during the year is a result of the shareholder's resolution, approved at the Annual Meeting of Shareholders held on December 7, 2002.

Liquidity and Capital Resources

Summary of Working Capital and Stockholders' Equity

As of March 31, 2006, the Company had working capital of \$200,477 and Stockholders' Equity of \$409,971 compared with working capital of \$143,271 and Stockholders' Equity of \$391,188 as of December 31, 2005. The Company's working capital has increased principally as a result of an increase in cash of \$134,108. Stockholders' Equity increased as a result of the decreased in accumulated deficit of \$18,289. There is no change in operations during the first quarter of year 2006.

Financing activities during the three month period resulted in the use of net cash of negative \$15,908, which was caused by the repayment of \$15,908 in debt. The Company's consolidated operations provided \$138,465 in net cash, compared to the use of net cash in the amount of \$7,310 during the same period from the previous year. This increase in cash flow from operations was the result of an increase in inventory of \$78,249, an increase in prepaid expenses and other of \$7,360, and partially offset against a decrease in accounts receivable of \$6,062.

Liquidity

On a short term basis, Westsphere anticipates that its subsidiary Vencash Capital will generate sufficient revenues to meet overhead needs. The Company, as of May 25, 2006, has \$251,042 in cash; \$214,114 in vault cash reserved for ATMs, and will not have to raise additional funds to meet its operational needs for the next twelve months. In order to meet its growth plan, Westsphere will continue to be dependent on equity funds raised, joint venture arrangements and/or loan proceeds. Westsphere believes that it will continue as a going concern with the present revenues from its subsidiary Vencash Capital Corporation, but it will be unable to meet its market growth projections without further funding outside of the ongoing revenue from operations of Vencash.

As mentioned above, Westsphere believes that its subsidiary, Vencash Capital, generates sufficient ongoing revenue to ensure that Westsphere is a going concern. It is anticipated that operations will have substantial increases in net

cash flow at the fiscal year end December 31, 2006. In addition, Westsphere believes that further substantial cost savings will occur with the new program system implemented to improve the effectiveness and efficiency of the operations. Westsphere will remain reliant on the successful development and marketing of the products related to its business for possibility of future income.

Capital Resources

The primary capital resource of Westsphere is the operations of Vencash Capital, its wholly owned subsidiary.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.
