AMERICA MOVIL'S FOURTH QUARTER OF 2003 FINANCIAL AND OPERATING REPORT

Mexico City, February 2, 2004 - America Movil, S.A. de C.V. ("America Movil") [BMV: AMX] [NYSE: AMX] [NASDAQ: AMOV] [LATIBEX: XAMXL], announced today its financial and operating results for the fourth quarter of 2003.

- America Movil ended 2003 with 43.7 million wireless subscribers, 12.1 million more than it had at the close of 2002. The increase reflected both organic growth (7.9 million) and the incorporation of subscribers through

Edgar Filing: AMERICA MOVIL SA DE CV/ - Form 6-K

acquisitions. The impact of these can be seen in the number of equity subscribers, which rose by 40% in the year, from 30.7 million to 42.9 million. In addition to its wireless subscribers, America Movil had 1.6 million fixed lines.

Its Mexican subsidiary Telcel registered 1.3 million net subscriber additions in the fourth quarter, bringing the year's total to 3.4 million. Brazilian Telecom Americas obtained 765 thousand new subscribers in the quarter.

Consolidated revenues for 2003 were 86 billion pesos, 44% greater than the ones registered the previous year. These included 26 billion pesos in fourth quarter revenues, which were up 56% year-on-year.

At 37.2% of revenues, EBITDA for the year came in at 32 billion pesos. This represented a 48% increase relative to 2002. Fourth quarter EBITDA was 9.2 billion pesos, 53% higher than in the same period a year earlier.

Operating profits, which were up 40% in the year, totaled 18 billion pesos. They represented 21.1% of revenues.

America Movil turned a net profit of 15.3 billion pesos in 2003, more than three times larger than the previous year's. The net profit for the fourth quarter came in at 5.6 billion pesos.

In spite of having spent 18.2 billion pesos in acquisitions during 2003 (including the purchase of minority stakes in certain subsidiaries), 13.7 billion pesos in capex and 1.7 billion pesos in share buy-backs and dividends, America Movil's net debt barely increased in 2003, rising by 2.7 billion pesos mostly as a result of the devaluation of the Mexican peso vs. the U.S. dollar. It finished 2003 at 40.6 billion pesos, equivalent to 1.2 times consolidated EBITDA (last twelve months).

The acquisitions of ownership interests in CTE, in El Salvador, CTI in Argentina and BCP in Brazil have all been completed. In addition, in January America Movil closed the purchase of a 49% stake in Enitel, in Nicaragua.

Relevant Events

In October, America Movil's subsidiary Telcel completed the prepayment of the duties associated with a service agreement with Mexican wireless operator Unefon by which the latter agreed to provide the former with certain "capacity" that Telcel may utilize for the provision of its GSM services and will generally allow Telcel to expand more efficiently its GSM coverage. The amount advanced was approximately 268 million dollars and represented the present value of the amounts due over the entire term of the contract. The agreement, which was entered into the previous month, calls for such operator to supply capacity to Telcel over a period of 16 years.

America Movil and its officers involved in the transaction were in no way aware at the time these payments were made of any uses to which Unefon might put the funds.

In the same month America Movil finalized its purchase of a 51% interest in the Salvadorian company CTE, which is being consolidated in America Movil's financial statements since November. With CTE America Movil obtained 677 thousand fixed lines and 166 thousand wireless subscribers.

Also in October, America Movil acquired a 64% economic interest and 100% voting interest in Argentinean company CTI. A month later, it increased its economic interest in CTI to 92%, after acquiring the participations of certain minority investors. CTI contributed 1.3 million wireless subscribers to America Movil's subscriber base.

America Movil closed its acquisition of a 100% interest in Brazilian wireless company BCP in November. This company, which has 1.7 million wireless subscribers, is being consolidated in America Movil's financial statements from December. The previous month America Movil agreed to compensate Telemar with 35 million dollars in exchange for any and all rights it may have had over the equity of BCP upon the closing of the purchase of BCP by America Movil. The amount is payable in the second quarter of 2004.

In December America Movil agreed to acquire from the Government of Nicaragua its 49% ownership interest in Empresa Nicaraguense de Telecomunicaciones (Enitel) for a purchase price of 49.6 million dollars. This firm is the sole provider of fixed line services in Nicaragua, with nearly 200 thousand fixed lines. It also provides wireless services to approximately 120 thousand subscribers. The transaction closed in January 2004.

Also in that month, America Movil sold its 49% interest in CompUSA to US Commercial Corp, S.A. de C.V. [BMV: USCOM] for approximately 178 million dollars. As part of the transaction, America Movil used a portion of the proceeds from the sale (approximately 160 million dollars) to purchase shares of US Commercial Corp. representing approximately 29.9% of its capital stock. US Commercial Corp. now owns 100% of the equity of CompUSA. America Movil registered a 279 million pesos loss on the sale of the CompUSA shares relative to their book value.

America Movil purchased 66.9 million of its own shares in the fourth quarter for approximately 1 billion pesos.

Subscribers

America Movil finished 2003 with 43.7 million wireless subscribers, 12.1 million more than it had at the end of 2002. Most of the increase (7.9 million) resulted from organic growth, the difference, approximately 4.2 million subscribers, from acquisitions. The impact of acquisitions is more acutely reflected in the number of equity subscribers, which rose by 39.7% in the year, from 30.7 million to 42.9 million.

The Mexican operation registered 3.4 million net additions in 2003-1.3 of those in the fourth quarter-bringing its subscriber base to 23.4 million, a 16.8% increase year-on-year.

* America Movil started to consolidate BSE and BCP beginning in May and November 2003, respectively.

(1) Includes total subscribers of all companies in which America Movil holds an economic interest; does not consider the date in which the companies started being consolidated.

(2) Includes total subscribers weighted by the economic interest held in each company.

(3) Fixed line subscribers of Telgua and CTE stand at 929,681 and 688,941, respectively. If included in total subscribers, it adds up to 45,344 thousand customers.

The Brazilian entities added 765 thousand subscribers in the last quarter, ending the year with a total of 9.5 million subscribers. This number already reflects the incorporation of BCP in the last quarter. Overall, Telecom Americas' subscribers increased by 4.3 million in 2003 out of acquisitions and organic growth.

The Central American operations (encompassing Guatemala, El Salvador and Nicaragua) obtained 185 thousand new subscribers in the fourth quarter, bringing their combined subscriber base to 1.2 million. The number of fixed lines they operate reached 1.6 million at the end of the year.

In Colombia net subscriber additions for the year came in at 853 thousand whereas in Argentina the figure was 218 thousand and in Ecuador 614 thousand. The Ecuadorian operations continued to exhibit the fastest pace of subscriber growth among America Movil's subsidiaries. At the end of 2003 Colombia had 3.7 million subs, Argentina 1.4 million and Ecuador 1.5 million.

Also showing a very rapid rate of growth was Tracfone, in the United States, which registered a 50% increase in its subscriber base in 2003, finishing the year with nearly 3 million subscribers, after net gains of one million subs.

America Movil Consolidated Results

America Movil generated 85.9 billion pesos in revenues during 2003, 43.9% more than the previous year, with service revenues accounting for 73.9 billion pesos. In the last quarter alone, America Movil's revenues totaled 26.4 billion pesos, up 22% relative to the previous quarter's and 56.1% on an annual basis, reflecting besides the organic growth of

the company's revenues, the incorporation as of November of CTE in El Salvador and CTI in Argentina, and of BCP from December.

EBITDA for the year came in at 32.0 billion pesos, or 37.2% of revenues, having risen by 48% relative to the previous year's. Fourth quarter EBITDA was up 11% in the quarter and 52.8% year-on-year, to 9.2 billion pesos. The EBITDA margin for the fourth quarter reflected seasonal effects associated with strong subscriber growth during the holidays-which typically imply greater subscriber acquisition costs-as well as extraordinary expenses in Brazil derived from the launching of the Claro brand, the introduction of GSM services and the starting-up of operations in two new regions, Bahia-Sergipe and Parana-Santa Catarina.

Operating profits, 18.1 billion pesos, were up 39.8% in the year, less than the rate of growth of EBITDA, given that depreciation and amortization expenses in 2003 increased even more rapidly than the latter on account of the fastest pace of investment, among other things. For the last quarter, operating profits totaled 5.3 billion pesos, 9.6% more than in the previous quarter and 40.5% year-on-year.

A comprehensive financing income of 2.1 billion pesos was registered for the year, in contrast to the financing cost of 1.0 billion observed in 2002. This difference is for the most part accounted for by foreign exchange variations: whereas in 2002 these resulted in losses of 1.5 billion pesos, in 2003 a net gain of 1.4 billion pesos was obtained.

With a net profit of 5.6 billion pesos in the fourth quarter, America Movil's profit rose to 15.3 billion pesos for 2003, more than trebling the one observed the previous year. It represented 18% of total revenues in the year.

America Movil's net debt (including accrued interest) finished the year at 40.6 billion pesos, up only 2.7 billion pesos from December 2002. Most of the increase was accounted for by the devaluation of the Mexican peso vs. the U.S. dollar (9%). This goes to show that the acquisition of companies and of minority interests by America Movil, which totaled 18.2 billion pesos in the year, were financed by the company's own cash flow. In addition to these expenditures, the company's cash flow also covered the 13.7 billion pesos of direct investment paid by the company in 2003 and 1.7 billion pesos in share buy-backs and dividends.

The balance sheet of the company registered important changes, particularly in the last quarter, reflecting the consolidation of CTE, CTI and BCP in America Movil's financial statements. Noteworthy are the increases relative to the balance sheet at the end of 2002 of shareholders' equity (19.6 billion pesos), plant and equipment (11.8 billion pesos), non-cash current assets (6.2 billion pesos) and brands and licenses (12.3 billion pesos).

Mexico

Telcel added 1.3 million subscribers in the fourth quarter, 61% more than in the previous one, bringing the total number of net additions for the year to 3.4 million. With these gains, the company's subscriber base reached 23.4 million at the end of 2003, which represented an annual increase of 16.8%.

Revenues totaled 52.5 billion pesos in 2003, having increased by 23.7% year-on-year, with service revenues increasing nearly at the same rate. Fourth quarter revenues, at 14.5 billion pesos, were 6.8% above those of the previous quarter and 25.5% higher than those of the same period of 2002.

The company introduced seasonal promotions in the last two months of the year that included effective-price-per-minute reductions. These had a major impact on traffic and allowed Telcel to maintain practically unchanged its ARPU in the fourth quarter even in the face of a major expansion of its subscriber base. Year-on-year, MOUs rose by 23.6% and ARPUs by 11.0%.

INCOME STATEMENT

%	34.4%	29.1%		33.7%	29.1%	

The year's EBITDA increased by 37.3% relative to that of 2002, to 22.4 billion pesos, or 42.7% of revenues. The fourth quarter's EBITDA, 6.2 billion pesos, represented a 42.8% margin. The latter figure reflects, on the one hand, downward pressure on the EBITDA margin brought about by the acceleration of subscriber growth (6.0% quarter over quarter) on account of seasonal factors and, generally, the improved dynamics of the sector.

On the other hand, it also reflects the positive impact from the reversal of the tax provision in the amount of 355 million pesos that had been set up for the payment of the telecommunications tax enacted at the beginning of 2003. The company takes comfort in the strength of its legal position and has concluded that the above-mentioned reserve is not warranted.

Operating profits of 17.7 billion pesos were generated in the year, 5 billion pesos in the last quarter. Telcel's quarterly operating profits were up almost 50% compared to the same period a year before.

CTI's subscriber base reached 1.4 million by year-end, up 10.2% on the quarter and 18.2% relative to the end of 2002. The company's net additions during the quarter came it at 131 thousand, thus representing over 60% of the year's net subscriber gains (217 thousand).

At 704 million Argentinean pesos, CTI's total revenues rose by 33.5% in 2003. Fourth quarter revenues totaled 210 million pesos, with the growth of service revenues in the quarter (15.2%) mirroring that of subscribers.

Importantly, the company's ARPU rose by 11.6% in the year, driven by a 26.0% increase in MOUs. In the fourth quarter, these indicators were up 3.5% and 10.8% respectively.

CTI's EBITDA reached 230 million Argentinean pesos in 2003, 34.2% more than in the previous year. It represented an EBITDA margin of 32.7%. The fourth quarter's EBITDA, 58 million, was down 10.7% relative to the same period of 2002, as the company resumed its subscriber growth with the corresponding increase in subscriber acquisition costs.

Operating profits increased by 67.6% in the year, to 177 million Argentinean pesos.

Brazil

Telecom Americas, America Movil's Brazilian subsidiary, added 765 thousand new clients in the fourth quarter, bringing the subscriber base in Brazil to 9.5 million by the end of the year. This figure reflects both organic growth (1.6 million net subscriber gains) and the incorporation of 2.7 million subscribers with the acquisitions by Telecom Americas of BSE and BCP.

Telecom Americas' revenues reached almost 3 billion reais in 2003, up 46.3% year on year, with service revenues growing by nearly 35%. In the fourth quarter they totaled 990 million reais, 72.7% more than in the same period a year before. The company's financial statements include BSE starting in May and BCP beginning in December of 2003.

During the last quarter of the year, America Movil proceeded with the launching of its new nationwide brand Claro. This coincided with the introduction of GSM services mostly in November and in December not only in the regions where the company already had a presence but also in three new regions: the metropolitan area of Sao Paulo, Bahia-Sergipe and Parana-Santa Catarina. The last two regions represent Greenfield operations and will therefore turn in EBITDA losses in the first months of operations. As to the metropolitan area of Sao Paulo, the GSM network has been integrated with BCP.

These events entailed certain extraordinary costs and expenses, in addition to those incurred by the deployment of the network and the integration of BCP in America Movil (which required the streamlining of the company). Given the above and the increase in subscriber acquisition costs typically resulting from the strong seasonality of subscriber growth in Brazil-where a significant part of net subscriber additions takes place in the fourth quarter-the EBITDA in the fourth quarter came down to 93 million reais, which represented 9.4% of revenues. The year's figure, 620 million reais, was almost unchanged compared to 2002.

Central America

America Movil's Central American operations, which comprise Guatemala, El Salvador and Nicaragua, ended the year with a combined subscriber base of 1.2 million subscribers, having gained 185 thousand new clients during the last quarter of 2003 and 406 thousand through the entire year. As regards the fixed-lines of the Guatemalan and Salvadorian operations they totaled 1.6 million at the close of 2003.

The Central American operations generated revenues of 886 million dollars during 2003, a 6.5% increase relative to a year before. However, these are not all reflected in the consolidated financial statements of America Movil since the operations of El Salvador were only consolidated in the last two months of the year. Revenues in the last quarter amounted to 234 million and were up 7.5% year-on-year.

EBITDA rose by 18.9% on an annual basis, to 463 million dollars, representing an EBITDA margin of 52.3% which was 12.7 percentage points higher than the previous year's. The last quarter's EBITDA amounted to 122 million dollars, 42.1% more than that of the same period of 2002.

Operating profits of 254 million dollars were obtained in 2003, 30.2% more than in 2002, with 66 million dollars generated in the last quarter. The latter figure represents a year-on-year increase of 78%.

Colombia

America Movil's Colombian subsidiary ended the year with 3.7 million subscribers, over 30% more than those registered in December 2002. Net subscriber additions during the year amounted to 853 thousand. This number was obtained even after extraordinary disconnections of 160 thousand in the fourth quarter as the company proceeded to clean up its subscriber base.

Comcel's revenues added up to 1.4 trillion Colombian pesos during 2003, up 39.7% over the previous year's, with service revenues growing almost at the same pace (38.7%). Fourth quarter revenues entailed a 37.3% increase year-on-year and 8.9% on the quarter, with equipment revenues more than doubling.

With an EBITDA of 488 billion Colombian pesos, Comcel's EBITDA margin came in at 34.7% for the year, almost two percentage points higher than that of 2002. The fourth quarter's EBITDA was nearly one-fourth higher than that

seen a year earlier.

The company's operating profits reached 153 billion Colombian pesos in 2003, surpassing those of 2002 by over two-thirds.

Comcel has completed its GSM overlay, and can now provide GSM services nationwide.

Ecuador

Conecel registered the highest annual subscriber growth rate amongst America Movil's subsidiaries (66.5%). The company's subscriber base exceeds 1.5 million after net subscriber additions of 614 thousand during the year, 215 thousand of which were added in the last quarter.

Revenues for the year amounted to 239 million dollars, nearly doubling the previous year's. The fourth quarter revenues, 71 million dollars, were up 87.8% over the same period a year before.

At 88 million dollars, annual EBITDA doubled that achieved during the same period of the previous year. The EBITDA margin for the year stood at 36.8%, two percentage points higher relative to the year before. In the last quarter EBITDA were up 96.4% on an annual basis.

Conecel generated 57 million dollars in operating profits during 2003, or 23.6% of revenues, 3.6 times those of the previous year.

In 2003 Conecel finished its GSM overlay and is now offering GSM services nationwide.

Tracfone

America Movil's wireless subsidiary in the U.S. posted a 50% subscriber growth year on year to reach almost 3 million subscribers, with its fourth quarter net additions reaching 374 thousand.

The company's 2003 revenues totaled 547 million dollars, increasing by 45.7% over a year before, slightly less than the rate of subscriber growth. In the last three months, revenues were up 83.6% year-on-year and 20.6% on the quarter, with the company's ARPU rising by 8.2%.

For the first year, and reflecting the company's success at growing its operations and containing its costs, Tracfone generated a positive EBITDA of 35 million dollars (6.4% of revenues); this compares with a 5 million EBITDA loss the year before. The last quarter's EBITDA margin was, at 14.6%, the highest it has registered, up 6.1 and 9.2 percentage points in the quarter and compared to the same period of 2002.

Tracfone turned in an operating profit for 2003 of 18 million dollars, thereby overturning the previous year's EBITDA loss.
