**For Immediate Release**

**Oncolytics Biotech Inc. Reports Highlights and Financial Results for 2002**

CALGARY, Alberta, March 14, 2003 Oncolytics Biotech Inc. (TSX: ONC, NASDAQ: ONCY) ( Oncolytics ) today reported its financial results for the year ended December 31, 2002.

**Highlights of 2002:**

Positive final results from a Phase I human clinical trial for REOLYSIN®

Commencement of human clinical trials for T2 prostate cancer and brain cancer (malignant gliomas) for REOLYSIN®

Development of a commercial manufacturing process for REOLYSIN®

Two additional U.S. patents and the first European patent covering the reovirus technology were issued

Strengthening of management and the board with the addition of George Gill, M.D., George Masters and William Cochrane, O.C., M.D.

During 2002, we made significant progress in advancing the development of REOLYSIN®, said Dr. Brad Thompson, President and CEO of Oncolytics Biotech Inc. We are steadily assembling and strengthening the building blocks necessary to develop a novel and commercially successful cancer therapeutic.

Total loss for the year ended December 31, 2002 was \$6,091,486 or \$0.30 per share, compared to a loss of \$6,171,461 or \$0.34 per share for the previous year, with a loss of \$1,542,184 or \$0.07 per share for the three months ended December 31, 2002 as compared to a loss of \$1,355,736 or \$0.08 per share for the three months ended December 31, 2001.

Total expenses for the year ended December 31, 2002 were \$6,960,252 as compared to \$7,137,243 for 2001. The decrease is primarily attributable to the absence of a \$1.0 million milestone payment to founding shareholders in 2002 (a \$1.0 million milestone payment was paid to founding shareholders in 2001) offset by increased product development and clinical trial activities in 2002, and increased operating activities supporting corporate activities. In addition, increased recovery of future income taxes, further reduced the total loss for 2002 relative to 2001.

The Company recorded reduced interest income of \$208,867 in 2002 (\$655,212 in 2001) resulting from lower average cash and investment balances during the year and lower interest rates.

---

## **Table of Contents**

The Company follows the liability method of accounting for income taxes, which resulted in a future income tax recovery of \$647,618 in 2002, increased from a recovery of \$340,570 recorded in 2001. The increased recovery in 2002 reflects the effect of changes in tax rates in 2002 and recognition of loss carry forwards.

The Company had cash and cash equivalents of \$8,319,244 at December 31, 2002, which compares to cash and cash equivalents of \$14,970,756 at December 31, 2001. During the year the Company raised net proceeds of \$1,769,877 from a private placement and \$34,000 from the exercise of stock options. These proceeds will be used to further the development and testing of the Company's products as well as for general corporate purposes.

### **About Oncolytics Biotech Inc.**

Oncolytics is a biotechnology company focused on the development of REOLYSIN®, its proprietary formulation of the human reovirus, as a potential cancer therapeutic. Oncolytics' researchers have demonstrated that the reovirus is able to selectively kill cancer cells and, in vitro, kill human cancer cells derived from many types of cancer including breast, prostate, pancreatic and brain tumours. Research has also yielded successful cancer treatment results in a number of animal models. Phase I clinical trial results have indicated that there were no toxicology-related issues with the administration of the reovirus, and that the reovirus demonstrated activity in injected tumours.

This press release contains forward looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward looking statements, including the Company's belief as to the potential of REOLYSIN® as a cancer therapeutic and the Company's expectations as to the success of its research and development programs in 2003 and beyond, involve known and unknown risks and uncertainties, which could cause the Company's actual results to differ materially from those in the forward looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue research and development projects, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, the Company's ability to successfully commercialize REOLYSIN®, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward looking statements. Investors are cautioned against placing undue reliance on forward looking statements. The Company does not undertake to update these forward looking statements.
