Passcode: 83588928

Enbridge Inc., a Canadian company, is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the U.S., the world's longest crude oil and liquids pipeline system. The Company also is involved in international energy projects and has a growing involvement in the natural gas transmission and midstream businesses. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, and provides natural gas to customers in Ontario, Quebec, New Brunswick and New York State. The Company employs approximately 5,000 people, primarily in Canada, the U.S. and South America. Additional information about Enbridge Inc. is available on the company's website at www.enbridge.com.

NEWS RELEASE

Enbridge Gas Distribution Adjusts Prices

TORONTO, September 24, 2007 Enbridge Gas Distribution, a regulated utility, announced today that it has received approval from the Ontario Energy Board (OEB) for its Final 2007 rates and its quarterly natural gas commodity adjustment.

For typical residential customers* who buy their gas supply from Enbridge Gas Distribution, the changes will result in a decrease of about \$114 annually, excluding the Gas Cost Adjustment and two Rate Adjustments.

Residential customers who purchase their natural gas from a marketer will see the bill increase by about \$2 annually, excluding the Gas Cost Adjustment and the two Rate Adjustments. The Gas Supply Charge for these customers will depend on their contract with their marketer.

Natural gas prices came down over the summer and are lower now than the same time last year, said Glenn Beaumont, Vice President, Planning & Opportunity Development, Enbridge Gas Distribution. Natural gas remains the best energy source for our customers. Our residential customers save about \$1,400 a year by using natural gas instead of electricity for home and water heating. **

Effective October 1, 2007 customers will see the following changes to their bill:

Monthly Charges

The Gas Supply Charge will decrease to 29.1 ¢/m³ from 32.9 ¢/m³ (about \$116 annually).

An increase in the Customer Charge from \$11.88 to \$11.95 per month (less than \$1 per year). The Customer Charge helps cover costs for emergency services, meter reading and customer services which are incurred regardless of the amount of natural gas a customer uses.

An increase in the Delivery Charge, which includes variable costs such as transporting natural gas to Ontario and additional operating costs not recovered through the Customer Charge, by about \$1 annually due to higher transportation and operating costs.

Additional Items

For customers who buy their natural gas supply from Enbridge Gas Distribution, the Gas Cost Adjustment refund will decrease to 3.1 ¢/m³ from 6.6 ¢/m³ between October 1, 2007 and March 31, 2008. The refund amounts to about \$72 during the next six months. This adjustment reflects the difference between the actual natural gas costs incurred by the utility and the amount collected from customers through the Gas Supply Charge.

A Rate Adjustment surcharge for the period October 1, 2007 through December 31, 2007. This surcharge substitutes for a one-time back adjustment for the period January 1, 2007 to September 30, 2007 and reflects the OEB's Final Decision on delivery rates for that period. The surcharge will amount to about \$5 for the next three months.

A One-Time Rate Adjustment for natural gas used from January 1, 2006 to December 31, 2006, which is the result of a difference between the actual costs incurred and the amount customers paid over this period. The adjustment will amount to about an \$8 surcharge for customers who purchase natural gas from Enbridge Gas Distribution and a \$16 credit for customers who purchase natural gas from a marketer. A One-Time Rate Adjustment is typically applied once the previous year's actual results are available. This ensures that the actual costs Enbridge incurs to provide service is the same amount that customers were charged for that period. Enbridge Gas Distribution delivers natural gas to about 1.8 million customers in Ontario communities including Toronto, Ottawa, Barrie and Niagara Falls. Enbridge Gas Distribution is a leader in delivering energy efficiency programs. For more information visit www.enbridge.com/gas.

- 30 -

Please see the attached backgrounder for more information about Enbridge Gas Distribution prices.

*A typical residential customer uses 3,064 cubic metres of natural gas a year for home and water heating.

**Natural gas and electricity prices based on rates in effect as of October 1, 2007. Electricity rates based on Toronto Hydro rates. Costs have been calculated for the equivalent energy consumed and include all service, delivery and energy charges. GST is not included.

**TSX Group Inc. acquires option to purchase
NetThruPut Inc. in 2009**

SEPTEMBER 6, 2007 (CALGARY, TORONTO) TSX Group Inc. (TSX: TSX-X) announced today it has entered into an agreement with Enbridge Inc. (TSX, NYSE: ENB) and Circuit Technology Limited granting TSX Group the option to acquire NetThruPut Inc. (NTP) at a time after March 15, 2009. Calgary-based NTP, jointly owned by Enbridge and Circuit Technology, is the leading Canadian electronic trading platform and clearing facility for crude oil.

Canada is an emerging energy superpower and TSX Group is an important facilitator of efficient markets. We are very excited about this transaction as it complements both our NGX business and our strength in energy in our existing equity markets, said Richard Nesbitt, CEO of TSX Group. This arrangement will allow us to further expand on our footprint in the energy space in North America.

TSX Group has paid \$9.5 million for the right to acquire NTP from its shareholders Enbridge and Circuit Technology at a price between \$40 million and \$95 million depending on NTP's 2008 net earnings. The purchase price payable to Circuit Technology will be satisfied by the issuance of TSX Group shares, subject to Toronto Stock Exchange regulatory approval. This agreement also provides Enbridge and Circuit Technology with the right to sell NTP under the same terms to TSX Group. Exercise of the option by either TSX Group or the NTP shareholders is subject to certain closing conditions.

Page 1-

TSX Group is a leader in the oil and gas sector – more oil and gas companies are listed on Toronto Stock Exchange and TSX Venture Exchange than any other exchange group in the world. At the end of June 30, 2007, there were 434 oil & gas companies with a total market capitalization of \$544.9 billion listed on Toronto Stock Exchange and TSX Venture Exchange. Oil & gas companies continue to raise equity on our exchanges with \$5.6 billion raised in the first half of 2007, and \$10.5 billion raised in 2006. Over 10 billion oil & gas shares, valued at \$169.2 billion, traded on Toronto Stock Exchange and TSX Venture Exchange in the first half of 2007. In the same period, more than 5.6 million terajoules in natural gas cleared on NGX, which is a leading North American energy exchange for the trading and clearing of energy contracts. In March 2007, TSX Group announced that NGX had entered into a technology and energy clearing alliance with the Intercontinental Exchange (ICE).

NTP provides a secure internet-based crude oil trading and clearing platform for customers to transact business anonymously in real-time with the assurance of guaranteed commodity delivery and payment. These services are augmented by timely access to current and historical market indicators.

NTP has created a liquid marketplace for buying and selling crude oil. This is achieved through instant access to a wide market audience, creating price transparency, and lower processing and administration costs. Since its inception in January 1999, NTP has grown to be a central feature of the market for a large majority of Canada's leading oil traders, including producers, refiners, and marketers.

About NetThruPut Inc.

NTP is the Canadian leader in internet-based crude oil trading systems and is an independently operated company, regulated by the Alberta Securities Commission and the Commodities Futures Trading Commission. NTP is privately held; owned 52% by Enbridge Inc. (whose major business is in crude oil transportation) and 48% by Circuit Technology Limited (a private investment company). NTP employs state-of-the-art technology to provide a secure platform
