PRESS RELEASE

ANORMED ANNOUNCES

ANNUAL AND SPECIAL MEETING OF SHAREHOLDERS

For Immediate Release:

August 28, 2006

Vancouver, British Columbia AnorMED Inc. (AMEX:AOM;TSX:AOM) today announced that it has called the Company's 2006 Annual and Special Meeting of Shareholders to be held on Tuesday, September 19, 2006, at 2:30pm (Pacific Time) in Vancouver, British Columbia, in the Plaza Ballroom of the Hyatt Regency Hotel.

In connection with this Meeting, the Company has mailed Meeting materials to its shareholders. At the Meeting, shareholders will be asked to, among other things, approve the adoption of the 2006 AnorMED Incentive Stock Option Plan (the 2006 Plan), which was adopted by the AnorMED Board in order to promote the Company's interests and long-term success by providing directors, officers, employees and consultants with an opportunity to purchase common shares and benefit from their appreciation, as well as to conform the 2006 Plan to recent changes made to the Toronto Stock Exchange's policies on stock based compensation arrangements. There are currently 2,739,572 options outstanding under the Company's existing option plan adopted in 1996 (the 1996 Plan), representing 6.58% of the Company's 41,660,411 outstanding common shares. The total number of AnorMED common shares issuable under 1996 Plan and the 2006 Plan combined, as at today's date, is 6,869,090, representing 16.49% of the Company's outstanding common shares. The Toronto Stock Exchange has accepted the 2006 Plan for filing, subject to the approval of AnorMED shareholders being obtained at the Meeting.

About AnorMED Inc.

AnorMED is a chemistry-based biopharmaceutical company focused on the discovery, development and commercialization of new therapeutic products in the areas of hematology, oncology and HIV, based on the Company's research into chemokine receptors.

The Company's product pipeline includes MOZOBIL, currently in pivotal Phase III studies in cancer patients undergoing stem cell transplants; AMD070, currently in proof of principle Phase I/II studies in HIV patients; and several novel classes of compounds in pre-clinical development that target specific chemokine receptors known to be involved in a variety of diseases.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, and forward looking information within the meaning of applicable securities laws in Canada, (collectively referred to as forward-looking statements). Statements, other than statements of historical fact, are forward-looking statements and include, without limitation, statements regarding the Company's strategy, future operations, timing and completion of clinical trials, prospects and plans and objectives of management. The words anticipates , believes , budgets , could , estimates , expects , forecasts , intends , may , might , plan , should , will , would and similar expressions are often intended to identify forward-looking statements, which include underlying assumptions, although not all forward-looking statements contain these identifying words. By their nature, forward-looking statements involve numerous assumptions, known and unknown risks and uncertainties, both general and specific, that contribute to the possibility that the predictions, forecasts, projections and other things contemplated by the forward-looking statements will not occur. We caution readers not to place undue reliance on these statements as a number of important factors could cause our actual results to differ materially from the beliefs, outlooks, plans, objectives, expectations, anticipations, estimates and intentions expressed in such forward-looking statements.

Although our management believes that the expectations represented by such forward-looking statements are reasonable, there is significant risk that the forward-looking statements may not be achieved, and the underlying assumptions thereto will not prove to be accurate. With respect to the forward-looking statements contained in this

press release, the Company has made numerous assumptions

regarding, among other things: our expectation that shareholders will approve the adoption of the 2006 AnorMED Incentive Stock Option Plan; our ability to develop and obtain regulatory approval for MOZOBIL in stem cell transplant indications and any future product candidates in our targeted indications; our ability to pay for the costs of launching MOZOBIL for stem cell transplant indications and the costs of future products in our targeted indications; our ability to rely on third parties for the continued supply and manufacture of MOZOBIL; our ability to obtain patents and other intellectual property for our drug candidates; our ability to protect our intellectual property rights and to not infringe on the intellectual property rights of others; our ability to raise substantial additional financing required to fund further research and development, conduct planned preclinical and clinical studies, and obtain regulatory approvals; and our expectation that we will be able to obtain future equity financing on commercially acceptable financial terms, or at all. The foregoing list of assumptions is not exhaustive.

Actual results or events could differ materially from the plans, intentions and expectations expressed or implied in any forward-looking statements, including the underlying assumptions thereto, as a result of numerous risks, uncertainties and other factors including: shareholders might not approve the adoption of the 2006 AnorMED Incentive Stock Option Plan; we may not be able to develop and obtain regulatory approval for MOZOBIL in stem cell transplant indications and any future product candidates in our targeted indications; we may not be able to establish marketing and sales capabilities and the costs of launching MOZOBIL stem cell transplant indications and any future products in our targeted indications may be greater than anticipated; we rely on third parties for the continued supply and manufacture of MOZOBIL; we may face unknown risks related to intellectual property matters; we may face competition from other pharmaceutical or biotechnology companies; we will require substantial additional financing to fund further research and development, conduct planned preclinical and clinical studies, and obtain regulatory approvals; and we may not be able to obtain future equity financing on commercially acceptable financial terms, or at all.

Although we have attempted to identify the forward-looking statements, the underlying assumptions, and the risks, uncertainties and other factors that could cause actual results or events to differ materially from those expressed or implied in the forward-looking statements, there may be other factors that cause actual results or events to differ from those expressed or implied in the forward-looking statements. We undertake no obligation to revise or update any forward-looking statements as a result of new information, future events or otherwise, after the date hereof, except as may be required by law.
