CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered	Proposed maximum offering price per share (1)	Proposed maximum offering price
Common stock, \$.10 par value per share	310,000	\$0.626	\$194,137.50
Common stock, \$.10 par value (2)	15,427,544	\$0.626	\$ 9,661,499.43
Total	15,737,544		

(1) Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(c) and 457(g) under the Securities Act of 1933, using the average of the high and low price as reported on the Over-The-Counter Bulletin Board on June 5, 2006, which was \$0.626 per share.

(2) Includes shares of our common stock, par value \$0.10 per share, which may be offered pursuant to this registration statement, which shares are currently outstanding and are issuable upon conversion of convertible notes and the exercise of warrants held by the selling stockholders. In addition to the shares set forth in the table, the amount to be registered includes an indeterminate number of shares issuable upon conversion of the notes as such number may be adjusted as a result of stock splits, stock dividends and similar transactions in accordance with Rule 416. Should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price, result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the commission, acting pursuant to said Section 8(a), may determine.

NEW CENTURY COMPANIES, INC.

We are engaged in acquiring, re-manufacturing and selling pre-owned Computer Numerically Controlled ("CNC") machine tools to manufacturing customers. We provide rebuilt, retrofit and remanufacturing services for numerous brands of machine tools.

We also manufacture original equipment CNC large turning lathes and attachments

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

under the trade name Century Turn. CNC machines use commands from onboard computers to control the movements of cutting tools and rotation speeds of the parts being produced. Computer controls enable operators to program operations such as part rotation, tooling selection and tooling movement for specific parts and then store the programs in memory for future use. The machines are able to produce parts while left unattended. Because of this ability, as well as superior speed of operation, a CNC machine is able to produce the same amount of work as several manually controlled machines, as well as reduce the number of operators required; generating higher profits with less re-work and scrap. Since the introduction of CNC tooling machines, continual advances in computer control technology have allowed for easier programming and additional machine capabilities. A vertical turning machine permits the production of larger, heavier and more oddly shaped parts on a machine, which uses less floor space when compared to the traditional horizontal turning machine because the spindle and cam are aligned on a vertical plane, with the spindle on the bottom.

The primary industry segments in which our machines are utilized to make component parts are in aerospace, power generation turbines, military, component parts for the energy sector for natural gas and oil exploration, medical, aerospace and mining fields. We sell our products to customers in the United States, Canada and Mexico.

Over the last several years, we have designed and developed a large horizontal CNC turning lathe with productivity features new to the metalworking industry. We believe that a potential market for the Century Turn Lathe, in addition to the markets mentioned above, is aircraft landing gear.

We are also engaged in assembling sound-wall modules made from Quilite(R), a lightweight, graffiti resistant concrete alternative used in freeway sound barriers and in other sound absorbing structures and non-weight bearing applications where privacy or screening is necessary.

Our principal offices are located at 9835 Santa Fe Springs Rd. Santa Fe Springs, CA 90670 and our telephone number is (562) 906-8455. We are a Delaware corporation.

FINANCING TRANSACTIONS

We are registering shares of common stock and shares of common stock underlying common stock purchase warrants and convertible notes, including interest, in connection with the following financing transactions, engaged in, pursuant to Section 4(2) under the Securities Act of 1933 or Regulation D promulgated hereunder:

MOTIVATED MINDS BRIDGE LOAN

On February 15, 2006, to obtain funding for our operations, we issued a convertible note (the "Note") in the principal amount of \$300,000 to Motivated Minds, LLC, an Arizona limited liability company (the "Lender"). The Note is convertible into 454,545 shares of our common stock, par value \$0.10, at a price of \$0.66 per share. In connection with the Note, we issued a warrant to Motivated Minds to purchase up to 454,545 shares of our common Stock at a price of \$0.66 per share. Such Warrant is currently exercisable and expires on the fifth anniversary of the date of issuance.

The Note bears interest as follows: (i) equal to twenty-four percent (24%) per annum on the unpaid principal balance from the issue date to the sixtieth (60th) day from the issue date; and (ii) twenty-seven percent (27%) per annum after the sixtieth (60th) day from the Issue Date to the Maturity Date. The Note matured on May 16, 2006. We are currently in negotiations to extend the due date of the Note.

We have the right to prepay the Note, without penalty, in whole or in part, on ten (10) days advance notice to the holder and subject to the right of the holder to convert in advance of such prepayment date and provided that on such prepayment date, we shall pay in respect of the redeemed Note, cash equal to the face amount plus accrued interest on the Note (or portion thereof) redeemed.

Upon the occurrence of an event of default as defined in the Note, default Interest will accrue on the unpaid principal or interest due thereunder at the rate of thirty percent (30%) per annum until the Event of Default is cured. Default Interest is payable on a monthly basis commencing thirty (30) days after

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

default interest has begun accruing.

2

Motivated Minds has contractually agreed to restrict its ability to convert the Note and receive shares of our common stock such that the number of shares of our common stock held by its and its affiliates, after such conversion does not exceed 4.99% of our then issued and outstanding shares of common stock.

In connection with the Note, we paid aggregate fees and expenses of \$30,000 and issued 30,000 restricted shares of our common stock to Motivated Minds and an aggregate of 499,999 warrants to the Placement Agents, Source Capital Group, Inc. and Ascendant Securities, LLC .

The Note and the Warrants were offered and sold to Motivated Minds in a transaction made in reliance upon exemptions from registration pursuant to Section 4(2) under the Securities Act of 1933 and Rule 506 promulgated thereunder.

CAMOFI PRIVATE PLACEMENT

On February 28, 2006, to obtain funding for our operations, we entered into a Securities Purchase Agreement ("CAMOFI Purchase Agreement") with CAMOFI Master LDC ("CAMOFI") for the sale of (i) \$3,500,000 in 12% Senior Secured Convertible Notes (the "Notes") which are convertible into common stock at a fixed conversion price of \$0.63 and (ii) stock purchase warrants (the "Warrant") to purchase 3,476,190 shares of our common stock at a fixed exercise price of \$0.63. We closed the financing pursuant to the CAMOFI Purchase Agreement on February 28, 2006.

The CAMOFI Note bears interest at 12% and matures on February 28, 2009. Interest on the aggregate of unconverted and then outstanding principal amount is payable monthly in arrears, in cash or registered shares of common stock at the Company's election, or a combination thereof, beginning on the first day of the first month after the issuance date of March 1, 2006. Notwithstanding the foregoing, payment in shares of common stock can only occur if during the 20 trading days immediately prior to the payment date all of the Equity Conditions, as defined in the Notes, have been met, the payment in shares of common stock would not exceed 25% of the volume for any of the previous 20 trading days and we shall have given the holder notice.

We have the right to prepay in cash, all, or a portion of the Notes, at 120% of the principal amount plus accrued interest at the date of prepayment. In addition, we are required to repay the Notes at 120% of the principal amount thereof plus accrued interest to the date of repayment in the event we shall (A) sell all or a portion of the our assets, (B) become subject to change in control transaction, or (C) Quilite International, LLC's audited financial statement are materially worse than our audited financial statements.

On the first day of each month, commencing September 1, 2006, we are required to redeem 1/30th of the original principal amount of the Notes plus accrued but unpaid interest, the sum of all liquidated damages and any other amounts then owing to such Holder in respect of the Note which shall be paid in cash equal to 105% of such amount; provided, however, upon 10 trading days' prior written irrevocable notice, in lieu of a cash redemption payment, we may elect to pay 100% of such amount due in shares of our common stock based on a conversion price equal to 85% of the average of the 10 consecutive VWAPs immediately prior to the applicable payment.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Upon the occurrence of an event of default as defined in the Notes, at the Holder's election, the full principal amount of the Note, together with interest and any other amounts owed pursuant to the Notes shall become immediately due and payable in cash. The aggregate amount payable upon an Event of Default shall be equal to 120% of the principal amount of the Notes, plus all accrued and unpaid interest thereon and all other costs, expenses, and liquidated damages due with respect to such Notes. Commencing 5 days after the occurrence of any Event of Default that results in the eventual acceleration of the Notes, the interest rate on the Note shall accrue at the rate of 20% per annum, or such lower maximum amount of interest permitted to be charged under applicable law.

In connection with the CAMOFI Purchase Agreement, we entered into an escrow agreement by and among, CAMOFI, Katten Muchin Rosenman, as Escrow Agent, and us and a letter agreement with CAMOFI, pursuant to which \$1,500,000 was deposited into escrow by CAMOFI. Pursuant to the terms of the letter agreement, the \$1,500,000 will be released to us upon consummation of the acquisition of Quilite International LLC, provided however, (v) the terms of such acquisition are satisfactory to CAMOFI; (w) CAMOFI shall be satisfied, in its sole discretion, with the progress of negotiations for the extension or renewal of our Headquarters lease; (x) no default or Event of Default, as defined in the Notes, shall have occurred or be continuing; (y) there shall have been no material adverse change in our business and the business of our subsidiaries or results of operations; and (z) the Equity Conditions, as defined in the Notes, shall have all been satisfied.

The Warrant is exercisable at a price of \$0.63 per share and will expire on February 28, 2013. In the event that there is no effective registration statement covering the resale of the shares underlying the Warrant, the Warrant may be exercised by means of a cashless exercise. The Warrant provides for certain adjustments upon the occurrence of certain events, including, but not limited to, any payment of a stock dividend or distributions to our shareholders; (2) subdivision of our common stock into a larger number of shares; (3) reclassification of our common stock; and (4) the combination of our common stock into a smaller number of shares.

The Notes are secured by substantially all of our assets.

3

CAMOFI has contractually agreed to restrict its ability to convert the CAMOFI Note and exercise the Warrant and receive shares of our common stock such that the number of shares of our common stock held by them and their affiliates after such conversion or exercise does not exceed 4.99% of our then issued and outstanding shares of common stock.

In connection with the CAMOFI Note, we paid aggregate fees and expenses of \$377,500 and issued 250,000 restricted shares of our common Stock and 722,539 warrants to the Placement Agent, Ascendant Securities, LLC.

The CAMOFI Note and CAMOFI Warrant were offered and sold to CAMOFI in a private placement transaction made in reliance upon exemptions from registration pursuant to Section 4(2) under the Securities Act of 1933 and Rule 506 promulgated thereunder. CAMOFI is an accredited investor as defined in Rule 501 of Regulation D promulgated under the Securities Act of 1933.

RISK FACTORS

This investment has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other information in this prospectus. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment. There are a number of factors that are not identified herein that could have a negative effect. Among the factors that could cause actual results to differ materially are the following:

- o adverse changes in the conditions in the specific markets for our products;
- o visibility to, and the actual size and timing of, capital expenditures by our customers;
- o inventory practices, including the timing of deployment, of our customers;
- o adverse changes in the public and private equity and debt markets and the ability of our customers and suppliers to obtain financing or to fund capital expenditures;
- o adverse changes in the credit ratings of our customers and suppliers;
- o a general downturn in the overall economy;
- o a decline in government defense funding that lowers the demand for defense equipment and retrofitting;
- o competitive pricing and availability of competitive products; and
- o adverse changes in the ability of the company to obtain financing or to fund capital expenditures, mergers and acquisitions or growth.

RISKS RELATING TO OUR COMPANY

WE HAVE INCURRED LOSSES IN THE PAST AND HAVE A LIMITED OPERATING HISTORY ON WHICH TO BASE AN EVALUATION OF OUR PROSPECTS, WHICH CAN HAVE A DETRIMENTAL EFFECT ON THE LONG-TERM CAPITAL APPRECIATION OF OUR STOCK.

We have a limited operating history on which to base an evaluation of our business and prospects. For the years ended December 31, 2005 and 2004, we had net income (loss) of \$668,359 and \$(1,423,359), respectively, and net income (loss) of \$(1,212,380) for the three months ended March 31, 2006. As of March 31, 2006, we have a working capital deficit of \$1,032,131. We cannot give any assurance that we will generate significant revenue or always have profits. In addition, we anticipate that we will require additional capital commitments during 2006 to sustain our operations. This could have a detrimental effect on the long-term capital appreciation of our stock.

THERE CAN BE NO ASSURANCE THAT WE WILL ACHIEVE PROFITABILITY.

There can be no assurance that we will achieve profitability. Our revenues and operating results may fluctuate from quarter to quarter and from year to year due to a combination of factors, including, but not limited to, cost of production and volume of sales. There can be no guarantee that we will be able to achieve profitability on a quarterly or annual basis. If we do not achieve profitability, our business will be adversely affected and investors may lose all or substantially all of their investment.

WE ARE DEPENDENT UPON A FEW KEY PERSONNEL AND THEIR LOSS MAY NEGATIVELY IMPACT OUR RESULTS FROM OPERATIONS

Our ability to operate our businesses and implement our strategies depends, in part, on the efforts of our executive officers and other key employees particularly Messrs. Duquette and Czikmantori. In addition, our future success

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

will depend on, among other factors, our ability to attract and retain qualified personnel, particularly research professionals, technical sales professionals and engineers. The loss of the services of any key employee or the failure to attract or retain other qualified personnel could have a material adverse effect on our business or business prospects.

WE MAY BE EXPOSED TO PRODUCT LIABILITY AND WARRANTY CLAIMS

We may be exposed to product liability and warranty claims in the event that the use of our products results, or is alleged to result, in bodily injury and/or property damage or our products actually or allegedly fail to perform as expected. While we maintain insurance coverage with respect to certain liability claims, we may not be able to obtain such insurance on acceptable terms in the future, if at all, and any such insurance may not provide adequate coverage against product liability claims. In addition, product liability claims can be expensive to defend and can divert the attention of management and other personnel for significant periods of time, regardless of the ultimate outcome. An unsuccessful defense of a product liability claim could have an adverse affect on our business, results of operations and financial condition and cash flows. Even if we are successful in defending against a claim relating to our products, claims of this nature could cause our customers to lose confidence in our products and our company. Warranty claims are not covered by insurance, and we may incur significant warranty costs in the future for which we would not be reimbursed.

5

WE RELY ON EXTERNAL FINANCING TO MEET OUR CASH REQUIREMENTS

In February 2006, we received \$300,000 from Motivated Minds and \$3,500,000 in debt financing from CAMOFI. However we will continue to rely upon external financing sources to meet the cash requirements of our ongoing operations. In the future, we may be required to raise additional funds, particularly if we exhaust the funds advanced under that agreement, are unable to generate positive cash flow as a result of our operations and are required to repay the convertible debentures as a result of Motivated Mind's and CAMOFI's failure to convert the debentures into common stock. To the extent that we are unable to raise sufficient capital, our business plan will require substantial modification and our operations curtailed. These conditions raise substantial doubt about our ability to continue as a going concern. Our continuation as a going concern is dependent upon its ability to ultimately attain profitable operations, generate sufficient cash flow to meet its obligations, and obtain additional financing as may be required.

WE MAY NEED SIGNIFICANT INFUSIONS OF ADDITIONAL CAPITAL, WHICH MAY RESULT IN DILUTION TO YOUR OWNERSHIP AND VOTING RIGHTS IN US.

Based upon our current cash reserves and forecasted operations, we may need to obtain outside funding to implement our plan of operation over the next twelve months. Our need for additional capital to finance our business strategy, operations, and growth will be greater should, among other things, revenue or expense estimates prove to be incorrect. If we fail to arrange for sufficient capital in the future, we may be required to reduce the scope of our business activities until we can obtain adequate financing. We may not be able to obtain additional financing in sufficient amounts or on acceptable terms when needed, which could adversely affect our operating results and prospects and force us to curtail our business operations. Debt financing must be repaid regardless of whether or not we generate profits or cash flows from our business activities. Equity financing may result in dilution to existing stockholders. If we do not

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

receive funding at lower prices, this will have a dilutive effect on the value of our securities issued at higher prices. Further, the sale, or potential sale of large amounts of our securities will, in all likelihood, have a depressive effect on the price of our securities which will affect the value of your investment.

OUR AUDITORS HAVE INCLUDED A GOING CONCERN MATTER IN THEIR OPINION

Our auditors opinion regarding our financial statements includes concerns about our ability to continue as a going concern, which contemplates among other things, the realization of assets and satisfaction of liabilities in the normal course of business. These concerns arise from the fact that as of December 31, 2005 we had a negative working capital of approximately \$2,083,000, an accumulated deficit of approximately \$6,959,000 and we are in default on certain notes payable. These factors raise substantial doubt about our ability to continue as a going concern. We intend to fund our operations through anticipated increased sales and debt and equity financing arrangements which management believes may be insufficient to fund our capital expenditures, working capital and other cash requirements for the year ending December 31, 2006. We will be required to seek addition funds to finance our long-term operations. There can be no assurance that we will be able to obtain additional financing. If we are unable to continue as a going concern, you may lose your entire investment.

RISKS RELATING TO OUR COMMON STOCK

IF WE FAIL TO REMAIN CURRENT ON OUR REPORTING REQUIREMENTS, WE COULD BE REMOVED FROM THE OTC BULLETIN BOARD WHICH WOULD LIMIT THE ABILITY OF BROKER-DEALERS TO SELL OUR SECURITIES AND THE ABILITY OF STOCKHOLDERS TO SELL THEIR SECURITIES IN THE SECONDARY MARKET.

Companies trading on the OTC Bulletin Board, such as us, must be reporting issuers under Section 12 of the Securities Exchange Act of 1934, as amended, and must be current in their reports under Section 13, in order to maintain price quotation privileges on the OTC Bulletin Board. If we fail to remain current on our reporting requirements, we could be removed from the OTC Bulletin Board. As a result, the market liquidity for our securities could be severely adversely affected by limiting the ability of broker-dealers to sell our securities and the ability of stockholders to sell their securities in the secondary market.

OUR COMMON STOCK IS SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC AND THE TRADING MARKET IN OUR SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- o obtain financial information and investment experience objectives of the person; and
- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

6

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

OUR SHARE PRICE IS VOLATILE

Our Common Stock has experienced, and may continue to experience, substantial price volatility, particularly as a result of variations between our actual or anticipated financial results and the published expectations of analysts and as a result of announcements by us and our competitors. In addition, the stock market has experienced extreme price fluctuations that have affected the market price of many companies and that have often been unrelated to the operating performance of these companies. A major decline in the capital markets generally, or in the market price of our securities may negatively impact our ability to make future strategic acquisitions, raise capital, issue debt, or retain employees. These factors, as well as general economic and political conditions, may in turn have a material adverse effect the market price of our Common Stock.

RISKS RELATING TO OUR CURRENT FINANCING ARRANGEMENT

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR SECURED CONVERTIBLE NOTES AND WARRANTS THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

DEPRESS THE MARKET PRICE OF OUR COMMON STOCK.

As of June 7, 2006, we had 11,294,656 shares of common stock issued and outstanding, \$3,800,000 of convertible notes outstanding that may be converted into an estimated 6,010,100 shares of common stock and outstanding warrants to purchase 4,698,729 shares of common stock. All of the shares, including all of the shares issuable upon conversion of the convertible notes and upon exercise of our warrants, may be sold without restriction upon effectiveness of a registration statement which includes those shares. The sale of these shares may adversely affect the market price of our common stock.

THE ISSUANCE OF SHARES UPON CONVERSION OF THE CONVERTIBLE NOTES AND EXERCISE OF OUTSTANDING WARRANTS MAY CAUSE IMMEDIATE AND SUBSTANTIAL DILUTION TO OUR EXISTING STOCKHOLDERS.

The issuance of shares upon conversion of the secured convertible notes and exercise of warrants may result in substantial dilution to the interests of other stockholders since the selling stockholders may ultimately convert and sell the full amount issuable on conversion. Although Motivated Minds or CAMOFI may not convert their secured convertible notes and/or exercise their warrants if such conversion or exercise would cause them to own more than 4.99% of our outstanding common stock, this restriction does not prevent Motivated Minds or CAMOFI from converting and/or exercising and selling some of their holdings, selling shares of common stock obtained and then converting further. In this way, Motivated Minds or CAMOFI could sell more than this limit while never holding more than this limit.

7

IF WE ARE REQUIRED FOR ANY REASON TO REPAY OUR OUTSTANDING SECURED CONVERTIBLE NOTES, WE WOULD BE REQUIRED TO DEplete OUR WORKING CAPITAL, IF AVAILABLE, OR RAISE ADDITIONAL FUNDS. OUR FAILURE TO REPAY THE SECURED CONVERTIBLE NOTES, IF REQUIRED, COULD RESULT IN LEGAL ACTION AGAINST US, WHICH COULD REQUIRE THE SALE OF SUBSTANTIAL ASSETS.

In February 28, 2006, we entered into a Securities Purchase Agreement for the sale of an aggregate of \$3,500,000 principal amount of secured convertible notes. The secured convertible notes are due and payable, with 12% interest, three years from the date of issuance, unless sooner converted into shares of our common stock. In addition, any event of default such as our failure to repay the principal or interest when due, our failure to issue shares of common stock upon conversion by the holder, our failure to timely file a registration statement or have such registration statement declared effective, breach of any covenant, representation or warranty in the Securities Purchase Agreement or related convertible note, the assignment or appointment of a receiver to control a substantial part of our property or business, the filing of a money judgment, writ or similar process against our company in excess of \$50,000, the commencement of a bankruptcy, insolvency, reorganization or liquidation proceeding against our company and the delisting of our common stock could require the early repayment of the secured convertible notes, including a default interest rate of 15% on the outstanding principal balance of the notes if the default is not cured with the specified grace period. If we were required to repay the secured convertible notes, we would be required to use our limited working capital and raise additional funds. If we were unable to repay the notes when required, the note holders could commence legal action against us and foreclose on all of our assets to recover the amounts due. Any such action would require us to curtail or cease operations.

IF AN EVENT OF DEFAULT OCCURS UNDER THE SECURITIES PURCHASE AGREEMENT, SECURED CONVERTIBLE NOTES, WARRANTS, SECURITY AGREEMENT OR INTELLECTUAL PROPERTY

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

SECURITY AGREEMENT, THE INVESTORS COULD TAKE POSSESSION OF ALL OUR GOODS, INVENTORY, CONTRACTUAL RIGHTS AND GENERAL INTANGIBLES, RECEIVABLES, DOCUMENTS, INSTRUMENTS, CHATTEL PAPER, AND INTELLECTUAL PROPERTY.

In connection with the Securities Purchase Agreements we entered into in February 2006, we executed a Security Agreement in favor of CAMOFI granting them a first priority security interest in all of our goods, inventory, contractual rights and general intangibles, receivables, documents, instruments, chattel paper, and intellectual property. The Security Agreement states that upon the occurrence of an event of default as defined in the Notes and pursuant to the Security Agreement, the Investors have the right to take possession of the collateral, to operate our business and the business of our subsidiaries using the collateral, and have the right to assign, sell, lease or otherwise dispose of and deliver all or any part of the collateral, at public or private sale or otherwise to satisfy our obligations under these agreements.

FORWARD-LOOKING STATEMENTS

We and our representatives may from time to time make written or oral statements that are "forward-looking," including statements contained in this prospectus and other filings with the Securities and Exchange Commission, reports to our stockholders and news releases. All statements that express expectations, estimates, forecasts or projections are forward-looking statements within the meaning of the Act. In addition, other written or oral statements which constitute forward-looking statements may be made by us or on our behalf. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "projects," "forecasts," "may," "should," variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in or suggested by such forward-looking statements. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors on which such statements are based are assumptions concerning uncertainties, including but not limited to uncertainties associated with the following:

- (a) volatility or decline of our stock price;
- (b) potential fluctuation in quarterly results;
- (c) our failure to earn revenues or profits;
- (d) inadequate capital and barriers to raising the additional capital or to obtaining the financing needed to implement its business plans;
- (e) inadequate capital to continue business;
- (f) changes in demand for our products and services;
- (g) rapid and significant changes in markets;

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

- (h) litigation with or legal claims and allegations by outside parties;
- (i) insufficient revenues to cover operating costs.

9

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by the selling stockholders. We will not receive any proceeds from the sale of shares of common stock in this offering. However, we could receive funds upon exercise of the common stock purchase warrants held by the selling stockholders. We expect to use the proceeds received from the exercise of the common stock purchase warrants, if any, for general working capital purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Our current strategy is to expand our customer sales base with our present line of machine products. Plans for expansion are expected to be funded through current working capital from ongoing sales. However, significant growth will require additional funds in the form of debt or equity, or a combination thereof. Our growth strategy also includes strategic acquisitions in addition to growing the current business. A significant acquisition will require additional financing. We obtained additional financing in 2006 for a proposed acquisition. However, there can be no assurance the acquisition will take place.

PLAN OF OPERATIONS

The earnings of the Company for the three months ended March 31, 2006 were negative as a result of an increase in operating expenses.

The Company's current strategy is to expand its customer sales base with its present line of machine products. The Company's growth strategy also includes strategic acquisitions in addition to growing the current business. Plans for expansion are funded through current working capital from ongoing sales and additional funds in the form of debt or equity. However, there is no guarantee that the capital raised is sufficient to execute its business plan. To the extent that the capital raised is not sufficient, the Company's business plan will be required to be substantially modified and its operations curtailed.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2006 COMPARED TO MARCH 31, 2005

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Revenues. The Company generated revenues of \$1,699,847 for the three months ended March 31, 2006, which was a \$267,958 or 19% increase from \$1,431,889 for the three months ended March 31, 2005. The increase is the result of a growth in customer orders, based on the overall enlarged market for machine tools and on capability to sell the Company's product at higher contact amounts.

Gross Profit. Gross profit for the three months ended March 31, 2006, was \$403,239 or 24% of revenues, compared to \$386,019, or 27% of revenues for the three months ended March 31, 2005, a 3% increase. The increase of gross profit is the result of increased sales.

Operating Loss. Operating loss for the three months ended March 31, 2006, was \$(51,790) compared to an operating income of \$160,200 for the three months ended March 31, 2005. The decrease of \$211,990 or 132% in operating loss is due to approximately \$158,000 increased cost of consulting expenses such as investor relations, business and financial consultants, and approximately \$64,000 increase in selling, general and administrative expenses due primarily to approximately \$40,000 increase in accounting and auditing fees.

Interest Expense. Interest expense for the three months ended March 31, 2006, was \$395,828 compared with \$49,067 for the three months ended March 31, 2005. The \$346,761 increase in interest expense is due primarily to \$249,123 amortization of beneficial conversion future and discount on warrants and conversion option associated to two convertible notes payable and amortization of deferred financing costs totaling \$57,466 related to warrants and common stock granted to third parties as financing cost on convertible notes. Secondly, the increase in interest expense is due to \$43,500 liquidated damages on \$3.5 million convertible debt.

Derivative liability expense. As of March 31, 2006, an increase in fair value of the derivative liability associated with the warrants to purchase common stock, granted in connection with \$3.5 million convertible debenture, was calculated and a resulting amount of \$764,762 was recorded as derivative liability expense.

10

FINANCIAL CONDITION, LIQUIDITY, CAPITAL RESOURCES

The net cash increase of the Company during the three months ended March 31, 2005 was \$267,805. The increase is due to net cash provided by financing activities of \$1,075,851. Currently, the Company's management attracted additional funding in the form of subordinated debt. However, there is no guarantee that the capital raised is sufficient to execute its business plan. To the extent that the capital raised is not sufficient, the Company's business plan will be required to be substantially modified and its operations curtailed.

The Company is currently addressing its liquidity issue by the following actions:

- o The Company continues to implement plans to increase revenues.
- o The Company continues its program for selling inventory that has been produced or is currently in production.
- o The Company continues to implement plans to further reduce operating costs by improved process control and greater productivity.
- o The Company is continually seeking investment capital through the public markets.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

However, there is no guarantee that any of these strategies will enable the Company to meet its financial obligations for the foreseeable future.

FISCAL YEARS ENDED DECEMBER 31, 2005 COMPARED TO DECEMBER 31, 2004.

Revenues. New Century generated revenues of \$6,038,459 for the fiscal year ended December 31, 2005, which was a 31% increase from \$4,605,813 for the fiscal year ended December 31, 2004. The increase is the result of an increase in sales based on better market conditions for New Century machines.

Gross Profit. There was a substantial increase in gross profit for the fiscal year ended December 31, 2005, of \$2,171,956, due to the increased revenues from higher selling prices and a \$739,310 decrease in cost of sales. The decrease in cost of sales is principally related to more efficient use of material and labor resources. Gross profit was \$1,714,970, compared to a loss of \$(456,986) from the corresponding period in 2004.

Net Income . Net income increased to \$668,359 for the fiscal year ended December 31, 2005 compared to a net loss of \$1,423,359 for the fiscal year ended December 31, 2004. The increase in net income is primarily attributed to a \$2,352,442 increase in operating income, the increase in revenues and the decrease in cost of sales.

Interest Expense. Interest expense for the fiscal year ending December 31, 2005 increased to \$235,592, compared to \$181,468 for the period ended December 31, 2004. The increase of 30% is primarily the result of \$47,500 amortization of shares of common stock issued to a Note Payable holder as a consideration for agreement to extend the repayment of the note.

FINANCIAL CONDITION, LIQUIDITY, CAPITAL RESOURCES

Net cash decrease during the fiscal year ended 2005 was \$129,087. For the year ended December 31, 2005, the Company used cash in financing activities of \$44,730, compared with \$402,988 cash provided by financing activities in the prior year. The \$447,718 cash used in financing activities increase is primarily due to \$521,000 of proceeds from the issuance of preferred stock in 2004, compared to no cash proceeds from debt or equity in 2005. The cash used in investing activities decreased by \$1,396, primarily due to reducing purchases of property and equipment. We rely upon external financing sources to meet the cash requirement of our ongoing operations. Currently, our management attracted additional funding in the form of subordinated debt. However, there is no guarantee that the capital raised is sufficient to execute our business plan. To the extent that the capital raised is not sufficient, our business plan will be required to be substantially modified and its operations curtailed. Our auditors have issued their report which contains an explanatory paragraph as to our ability to continue as a going concern.

The Company is currently addressing its liquidity issue by the following actions:

- o The Company continues to implement plans to increase revenues.
- o The Company continues its program for selling inventory that has

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

- been produced or is currently in production.
- o The Company continues to implement plans to further reduce operating costs by improved process control and greater productivity.
- o The Company is continually seeking investment capital through the public markets.

However, there is no guarantee that any of these strategies will enable us to meet our obligations for the foreseeable future.

INFLATION AND CHANGING PRICES

We do not foresee any adverse effects on our earnings as a result of inflation or changing prices.

OFF-BALANCE SHEET ARRANGEMENTS

We have no off-balance sheet arrangements, as defined in Regulation S-B Section 303.

11

GOING CONCERN

Our independent certified public accountants have stated in their report, that we have a working capital deficit, a significant accumulated deficit and are in default in certain notes payable. These conditions raise substantial doubt about our ability to continue as a going concern.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make judgments, assumptions and estimates that affect the amounts reported in the our consolidated financial statements and the accompanying notes. The amounts of assets and liabilities reported on our balance sheet and the amounts of revenues and expenses reported for each of our fiscal periods are affected by estimates and assumptions, which are used for, but not limited to, the accounting for revenue recognition, accounts receivable, doubtful accounts and inventories. Actual results could differ from these estimates. The following critical accounting policies are significantly affected by judgments, assumptions and estimates used in the preparation of the financial statements:

REVENUE RECOGNITION

Service revenues are billed and recognized in the period the services are rendered.

The Company accounts for shipping and handling fees and costs in accordance with EITF 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with SFAS 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin 101 ("SAB 101"), "Revenue Recognition," which outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the Securities and Exchange Commission. Management believes that the Company's revenue recognition policy for services and product sales conforms to SAB 101. The Company recognizes revenue of long-term contracts pursuant to SOP 81-1.

METHOD OF ACCOUNTING FOR LONG-TERM CONTRACTS

We use the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because long-term contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Revenue earned on contracts in progress in excess of billings (under billings) is classified as a current asset. Amounts billed in excess of revenue earned (overbillings) are classified as a current liability.

CLASSIFICATION OF WARRANT OBLIGATION

In connection with the issuance of the 12% Senior Secured Convertible Notes (See Note 3 of the Company's financial statements for the quarter ended March 31, 2006), the Company has an obligation to file a registration statement covering the resale of 125% of the Registrable Securities, as defined in the Registration Rights Agreement. The obligation to file the registration statement meets the criteria of an embedded derivative to be bifurcated pursuant to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended. Under this transaction, the Company is obligated to register for resale the common shares underlying the warrants, and as a result, the embedded derivative associated with this warrant obligation does not meet the scope exception of paragraph 11(a) of SFAS No. 133. Specifically, at March 31, 2006, the Company did not have any uncommitted registered shares to settle the warrant obligation and accordingly, such obligation has been classified as a liability (outside of stockholders' deficit) in accordance with EITF Issue No. 00-19, "Accounting for

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." The classification of the warrant obligation will be evaluated at each reporting date and as such, it will continue to be reported as a liability until a registration statement which includes the shares underlying the warrants becomes effective.

12

ESTIMATES

Critical estimates made by management are, among others, deferred tax asset valuation allowances, realization of inventories, collectibility of contracts receivable and the estimating of costs for long-term construction contracts. Actual results could materially differ from those estimates.

OTHER SIGNIFICANT ACCOUNTING POLICIES

Other significant accounting policies not involving the same level of measurement uncertainties as those discussed above, are nevertheless important to an understanding of the financial statements. The policies related to consolidation and loss contingencies require difficult judgments on complex matters that are often subject to multiple sources of authoritative guidance. Certain of these matters are among topics currently under reexamination by accounting standards setters and regulators. Although no specific conclusions reached by these standards setters appear likely to cause a material change in our accounting policies, outcomes cannot be predicted with confidence. Also see Note 1 of Notes to Consolidated Financial Statements, Organization and Summary of Significant Accounting Policies, which discusses accounting policies that must be selected by management when there are acceptable alternatives.

BUSINESS

SUMMARY

We are engaged in acquiring, re-manufacturing and selling pre-owned Computer Numerically Controlled ("CNC") machine tools to manufacturing customers. We provide rebuilt, retrofit and remanufacturing services for numerous brands of machine tools.

We also manufacture original equipment CNC large turning lathes and attachments under the tradename Century Turn. CNC machines use commands from onboard computers to control the movements of cutting tools and rotation speeds of the parts being produced. Computer controls enable operators to program operations such as part rotation, tooling selection and tooling movement for specific parts and then store the programs in memory for future use. The machines are able to produce parts while left unattended. Because of this ability, as well as superior speed of operation, a CNC machine is able to produce the same amount of work as several manually controlled machines, as well as reduce the number of operators required; generating higher profits with less re-work and scrap. Since the introduction of CNC tooling machines, continual advances in computer control technology have allowed for easier programming and additional machine capabilities.

A vertical turning machine permits the production of larger, heavier and more oddly shaped parts on a machine, which uses less floor space when compared to the traditional horizontal turning machine because the spindle and cam are aligned on a vertical plane, with the spindle on the bottom.

The primary industry segments in which our machines are utilized to make

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

component parts are in aerospace, power generation turbines, military, component parts for the energy sector for natural gas and oil exploration , medical, aerospace and mining fields.. We sell our products to customers in the United States, Canada and Mexico.

Over the last four years, we have designed and developed a large horizontal CNC turning lathe with productivity features new to the metalworking industry. We believe that a potential market for the Century Turn Lathe, in addition to the markets mentioned above, is aircraft landing gear.

We are also engaged in the assembling sound-wall modules made from Quilite(R). A lightweight, graffiti resistant concrete alternative used in freeway sound barriers and in other sound absorbing structures and non-weight bearing applications where privacy or screening is necessary.

Corporate History

On May 25, 2001, the Company entered into a merger with New Century Remanufacturing, Inc. Pursuant to the merger, all of the outstanding shares of New Century Remanufacturing, Inc., a California corporation, were exchanged for shares of the Company on a 1/833.33 basis. After the reverse merger, the Company changed its name to New Century Companies, Inc.

PRODUCTS

Quilite

We assemble, on a subcontractor basis, and ship proprietary, privacy/sound-wall modules from Quilite(R) throughout the U.S. and Canada. Quilite(R) is a material that is lighter than standard concrete, graffiti-resistant, available in 16x16 inch blocks with superior sound blocking capability. This material has been used in a number of noise-blocking applications, including airports, community pools, road barriers, residential surroundings, electrical transformer shelters, and others. Quilite(R) can also be used in non-weight bearing applications where privacy or screening is necessary. These include guarded-gate residential communities barriers at sports stadiums and privacy screens on highway medians to prevent driver distraction from oncoming traffic and rubbernecking due to accidents.

13

Remanufactured Machines

Our machine tools services are provided to a variety of customers, where the machine remanufacturing typically consists of replacing all components (CASTINGS), realigning the machine, adding updated CNC capability, and electrical and mechanical enhancements. Machines, which create circular products, are all within the scope' of our machines' capabilities. Our machines (Horizontal Turning Lathes, Vertical Turning Lathes, Vertical Boring Mills, and Horizontal Boring Mills etc.) are used to manufacture jet-engine components; airplane landing gear parts; power generation equipment; oil and gas production components; construction materials; casks that store nuclear materials; and bearings for windmills turrets guns, or torpedo tubes in submarines and ship vessels and countless other parts.

The machines take raw steel, which in its natural shape needs to be refined into a specific round part, and by utilizing a computer-directed tool, shapes the steel into very precise measurements. Once completed within two to four months, a remanufactured machine becomes a "like new," state-of-the-art machine, which often contains more iron ore and superior standards of strength than a new

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

machine, at a price substantially less than that of a new machine. We pass these savings on to our customers, which include such manufacturers as General Electric Co., General Dynamics Corp., Siemens AG and Gardner Denver Inc.

New Machines (Century Turn)

We manufacture original equipment under our "Century Turn" brand name. Century Turn products include, but are not limited to lathes and vertical boring mills. These machines are used to machine products such as landing gear and machine valve bodies.

Growth Strategy

Our goal is to become a leading provider of high precision Computer Numerically Controlled turning centers through organic growth as well as through strategic acquisitions. In addition, we intend to engage in the production of Quillite(R).

We market our products and services primarily through direct sales and independent distributors throughout the U S Canada and Mexico. We also intend to advertise our products and services in the industrial trade publications, industry trade shows, and on the Internet. Our focus is also to increase the sales of our proprietary "new" horizontal boring mills and remanufactured vertical boring mills. Our "new" vertical boring mills are designed around our proprietary tooling changer that allows the machinist to utilize a wider range of lighter weight tooling heads increasing the efficiency precision and dependability of the machine and ultimately creating a superior and timely finished product

As a natural extension of our precision machine tool business, we plan to capitalize on numerous opportunities in the fragmented machining industry by implementing a (vertical integration) roll-up strategy, where we could merge with and/or acquire high precision large metal ring manufacturing companies This strategy is intended to attract the attention of the leading manufacturing companies by ramping up revenue and income. In addition to our organic growth strategies, we also plan to make tactical and accretive acquisitions.

MACHINE TOOL INDUSTRY

We manufacture both new and refurbished machines that are used across a variety of industries. These machines are sold to companies who produce various "round" products and parts in different but extremely precise measurements, depending on the industry. These products can be anything from large jet engines, casks that store nuclear materials, bearings for windmills, turrets, guns, or torpedo tubes in submarines and ship vessels, and more. The machines take raw steel, which in its natural shape needs to be refined into a specific round part, and by utilizing a computer-directed tool, shapes the steel into very precise measurements.

Many measurements must be so precise that when removing the metal, it must be round within 1/10,000 of an inch (approximately the equivalent of splitting an average hair 30 times). The machines must be able to repeatedly furnish these precise measurements for its products. For example, a jet engine must be precise to 1/10,000 of an inch due to the speed at which it operates. The engine, when in use, is going over 10,000 revolutions per minute (rpms). If the engine itself were not perfectly round, it would vibrate and could detach from the aircraft.

We service companies such as General Electric, Rolls Royce, Pratt & Whitney (and all of these companies' respective sub-tier support contractors), who are manufacturers of the jet engines. These companies specify the dimensions and we employ our large machines to create the parts. We have larger machines, which span approximately 25 feet in diameter, and are used primarily for the housings

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

that go around nuclear reactors on submarines or aircraft carriers.

Employees

At June 7, 2006, we had approximately 40 full time employees working in the following departments: shop, clerical, engineering and management.

14

None of our employees are represented by a labor union or covered by a collective bargaining agreement. We have not experienced work stoppages and consider our employee relations to be good. Our business is not highly automated and we do not outsource specialized, repetitive functions such as cash delivery and security. As a result, our labor requirements for operation of the network are relatively modest.

DESCRIPTION OF PROPERTY

We lease our headquarters in Santa Fe Springs, California, which expires on 12/31/06, and conduct our operations at such facilities. We believe that our facilities are in good condition and provide adequate capacity to meet our needs for the foreseeable future.

The following table sets forth certain information relating to the Company's principal facilities:

LOCATION	PRINCIPAL USES	APPROX SQ. FT.
9835 Santa Fe Springs Rd. Santa Fe Springs, CA 90670	Manufacturing	44,000

LEGAL PROCEEDINGS

We may be involved from time to time in various claims, lawsuits, disputes with third parties, actions involving allegations of discrimination or breach of contract actions incidental in the normal course of business operations. We are currently not involved in any such litigation or any pending legal proceedings that management believes could have a material adverse effect on our financial position or results of operations.

MANAGEMENT

The following table and text sets forth the names and ages of all directors and executive officers of the Company and the key management personnel as of May 26, 2006. The Board of Directors of the Company is comprised of only one class. All of the directors will serve until the next annual meeting of stockholders and until their successors are elected and qualified, or until their earlier death, retirement, resignation or removal. Executive officers serve at the discretion of the Board of Directors, and are appointed to serve until the first Board of Directors meeting following the annual meeting of stockholders. Also provided is a brief description of the business experience of each director and executive officer and the key management personnel during the past five years and an indication of directorships held by each director in other companies subject to the reporting requirements under the Federal securities laws.

Josef Czikmantori	55	Secretary and Director

DAVID DUQUETTE. Mr. Duquette has served as the Chairman of the Board, President, Chief Financial Officer and Director of the Company since May 25, 2001. Mr. Duquette has been in the CNC machine tool manufacturing and remanufacturing business since 1967. From 1962 to 1965, he studied Electrical Engineering at the University of Wisconsin. Mr. Duquette founded New Century Remanufacturing in 1996. Prior to that year, he managed Orange Coast Rebuilding for approximately 8 years. Mr. Duquette was President of U.S. Machine Tools from 1969 to 1985.

JOSEF CZIKMANTORI. Mr. Czikmantori has served as Secretary and Director of the Company since May 25, 2001. Mr. Czikmantori was born in Romania. He completed 3 years of Technical College in Romania and then worked for United Machine Tool, which manufactured metal cutting machinery. He joined Mr. David Duquette at Orange Coast Machine Tools. He is a co-founder of New Century Remanufacturing. Directors receive no compensation for serving on the Board of Directors.

FAMILY RELATIONSHIPS.

There are no family relationships between or among the directors, executive officers or persons nominated or charged by the Company to become directors or executive officers.

15

INVOLVEMENT IN LEGAL PROCEEDINGS.

To the best of the Company's knowledge, during the past five years, none of the following occurred with respect to a present or former director or executive officer of the Company: (1) any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time; (2) any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses); (3) being subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of any competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; and (4) being found by a court of competent jurisdiction (in a civil action), the SEC or the Commodities Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended or vacated.

CODE OF ETHICS

The Company management communicates values and ethical standards during company wide meetings. Such standards are outlined in the human resource manual of the company, "Code of Business Practices and Ethics" section.

BOARD COMMITTEES

Because of our size, we presently do not have an audit committee, compensation committee or nominating committee. We are currently in the process of identifying independent audit committee members, including a financial expert and we expect to continue this process in 2006.

LONG-TERM INCENTIVE PLANS

As of December 31, 2005 there is no long-term incentive plan.

STOCK OPTIONS AND WARRANTS

Under the terms of the Company's Incentive Stock Option Plan ("ISOP"), options to purchase an aggregate of 1,000,000 shares of common stock may be issued to key employees, as defined. The exercise price of any option may not be less than the fair market value of the shares on the date of grant. No options granted may be exercisable more than 10 years after the date of grant. The options granted generally vest evenly over a one-year period, beginning from the date of grant.

Under the terms of the Company's non-statutory stock option plan ("NSSO"), options to purchase an aggregate of 1,350,000 shares of common stock may be issued to non-employees for services rendered. These options are non-assignable and non-transferable, are exercisable over a five-year period from the date of grant, and vest on the date of grant.

During the year ended December 31, 2005, the Company did not grant any warrants or stock options.

The following is a status of the stock options and warrants outstanding at December 31, 2005 and the changes during the two years then ended:

We have not declared any cash dividends on our common stock since inception. Declaration of dividends with respect to the common stock is at the discretion of our Board of Directors. Any determination to pay dividends will depend upon the financial condition, capital requirements, results of operations and other factors deemed relevant by the Board of Directors.

At June 7, 2006, we had approximately 1,500 shareholders of our common stock. This figure does not include beneficial holders or common stockholder's nominee co-trust name, as we cannot accurately estimate the number of these beneficial holders.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

The transfer agent and registrar for our common stock is U.S. Stock Transfer, Los Angeles, California.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding beneficial ownership of our common stock as of June 7, 2006 o by each person who is known by us to beneficially own more than 5% of our common stock; o by each of our officers and directors; and o by all of our officers and directors as a group.

Unless otherwise indicated, the shareholders listed in the table have sole voting and investment power with respect to the shares indicated.

NAME OF BENEFICIAL OWNER	NO. OF SHARES (1)	PERCENTAGE OF OWNERSHIP (1)
David Duquette (2)	1,433,334	13%
Josef Czikmantori (3)	650,000	6%
Officers and Directors as a Group (2 persons)	2,083,334	19%

The securities "beneficially owned" by a person are determined in accordance with the definition of "beneficial ownership" set forth in the rules and regulations promulgated under the Securities Exchange Act of 1934. Beneficially owned securities may include securities owned by and for, among others, the spouse and/or minor children of an individual and any other relative who has the same home as such individual. Beneficially owned securities may also include other securities as to which the individual has or shares voting or investment power or which such person has the right to acquire within 60 days of June 7, 2006 pursuant to the conversion of convertible equity, exercise of options, or otherwise. Beneficial ownership may be disclaimed as to certain of the securities.

(1)Based on 11,294,656 shares of common stock outstanding as of June 7, 2006.

(2) Includes options to purchase 400,000 shares (ISOP) which are exercisable at a price of \$0.25 and which expire on September 12, 2008.

(3) Includes options to purchase 150,000 shares (ISOP) which are exercisable at a price of \$0.25 and which expire on September 12, 2008.

SELLING STOCKHOLDERS

The table below sets forth information concerning the resale of the shares of common stock by the selling stockholders. We will not receive any proceeds from the resale of the common stock by the selling stockholders. We will receive proceeds from the exercise of the warrants. Assuming all the shares registered below are sold by the selling stockholders, none of the selling stockholders will continue to own any shares of our common stock.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

The following table also sets forth the name of each person who is offering the resale of shares of common stock by this prospectus, the number of shares of common stock beneficially owned by each person, the number of shares of common stock that may be sold in this offering and the number of shares of common stock each person will own after the offering, assuming they sell all of the shares offered.

* Based on 11,294,656 shares of common stock outstanding as of June 7, 2006.

(1) The actual number of shares of common stock offered in this prospectus, and included in the registration statement of which this prospectus is a part, includes such additional number of shares of common stock as may be issued or issuable upon conversion of the convertible notes and exercise of the related warrants by reason of any stock split, stock dividend or similar transaction involving the common stock, in accordance with Rule 416 under the Securities Act of 1933.

(2) The number and percentage of shares beneficially owned is determined in accordance with Rule 13d-3 of the Securities Exchange Act of 1934, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rule, beneficial ownership includes any shares as to which the selling stockholders has sole or shared voting power or investment power and also any shares, which the selling stockholders has the right to acquire within 60 days. The actual number of shares of common stock issuable upon the conversion of the convertible notes is subject to adjustment depending on, among other factors, the future market price of the common stock, and could be materially less or more than the number estimated in the table.

(3) Beneficial ownership after the offering assumes that all securities registered will be sold and that all shares of common stock underlying outstanding warrants will be issued.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

(4) Ira Gaines, the Managing Member, holds final voting and investment power over securities owned by Motivate Minds. Includes 454,545 shares of common stock issuable upon conversion of convertible note, 454,545 shares of common stock issuable upon exercise of common stock purchase warrants, and 60,000 shares of common stock issued in connection with the convertible note. The selling stockholder has contractually agreed to restrict its ability to convert its convertible notes or exercise its warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for this selling stockholder exceeds the number of shares of common stock that the selling stockholders could own beneficially at any given time through their ownership of the convertible notes and the warrants. In that regard, the beneficial ownership of the common stock by the selling stockholder set forth in the table is not determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended.

20

(5) Richard Smithline serves as a director of CAMOFI Master Fund LDC and holds final voting and investment power over securities owned by it. Includes 5,555,555 shares of common stock issuable upon conversion of principal on convertible notes, 1,482,353 shares of common stock issuable upon conversion of interest on convertible notes, 3,476,190 shares of common stock issuable upon exercise of common stock purchase warrants, and 2,628,524 shares of common stock reserved for continuous basis offering. However, the selling stockholder has contractually agreed to restrict its ability to convert its convertible notes or exercise its warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock as determined in accordance with Section 13(d) of the Exchange Act. Accordingly, the number of shares of common stock set forth in the table for this selling stockholder exceeds the number of shares of common stock that the selling stockholders could own beneficially at any given time through their ownership of the convertible notes and the warrants. In that regard, the beneficial ownership of the common stock by the selling stockholder set forth in the table is not determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended.

(6) Includes 22,727 shares of common stock issuable upon exercise of common stock purchase warrants issued to the placement agent, in connection with the Motivated Minds Note.

(7) Includes 654,949 shares of common stock issuable upon exercise of common stock purchase warrants and 250,000 shares of common stock issued issued to the placement agent.

(8) Includes 90,317 shares of common stock issuable upon exercise of common stock purchase warrants issued to the assignee of the placement agent, in connection with the COMOFI Note.

DESCRIPTION OF SECURITIES

COMMON STOCK

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

The authorized capital stock of the Company includes 50,000,000 shares of \$.10 par value Common Stock. All shares have equal voting rights. Voting rights are not cumulative, and, therefore, the holders of more than 50% of the Common Stock of the Company could, if they chose to do so, elect all of the Directors.

Upon liquidation, dissolution or winding up of the Company, the assets of the Company, after the payment of liabilities and any distributions to the holders of outstanding shares of Series C Convertible Preferred Stock, will be distributed pro rata to the holders of the Common Stock. The holders of the Common Stock do not have preemptive rights to subscribe for any securities of the Company and have no right to require the Company to redeem or purchase their shares.

Holders of Common Stock are entitled to share equally in dividends when, as and if declared by the Board of Directors of the Company, out of funds legally available therefor. The Company has not paid any cash dividends on its Common Stock, and it is unlikely that any such dividends will be declared in the foreseeable future.

PREFERRED STOCK

The Company has authority to issue 15,075,000 shares of preferred stock, \$1.00 par value and 75,000 shares of preferred stock, \$25 par value. The preferred stock may be issued in series from time to time with such designation, rights, preferences and limitations as the Board of Directors of the Company may determine by resolution. The rights, preferences and limitations of separate series of preferred stock may differ with respect to such matters as may be determined by the Board of Directors, including, without limitation, the rate of dividends, method and nature of payment of dividends, terms of redemption, amounts payable on liquidation, sinking fund provisions (if any), conversion rights (if any), and voting rights. The potential exists, therefore, that preferred stock might be issued which would grant dividend preferences and liquidation preferences to preferred shareholders. Unless the nature of a particular transaction and applicable statutes require such approval, and subject to the required approval of the Series C Preferred Stockholders for issuances of preferred stock which has liquidation or dividend rights senior to theirs, the Board of Directors has the authority to issue these shares without shareholder approval. The issuance of preferred stock may have the affect of delaying or preventing a change in control of the Company without any further action by shareholders.

SERIES B CONVERTIBLE PREFERRED STOCK

The authorized capital stock of the Company includes 15,150,000 shares of preferred stock of which 15,000,000 shares were designated as Series B 5% Convertible Preferred Stock. Holders of the Preferred Shares will receive, when as and if declared by the Board of Directors, a dividend of \$1.25 share per annum payable semi-annually in cash. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, the holders of the Series B Convertible Preferred Stock are entitled to receive out of the assets of the Company available for distribution to its stockholders, before any payment or distribution shall be made on the Common Stock or on the shares of the Series D Preferred Stock, an amount per share equal to \$25.00. The holders of Series B Convertible Preferred Stock have no voting rights except that any change to the rights, preference and privilege thereof requires the approval of 2/3 in liquidation amount of the holders .

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Each share of the Series B Convertible Preferred Stock may be converted at any time into 16.667 shares of the Company's Common Stock. The Conversion Ratio will be subject to adjustment in the event of a stock split of, stock dividend on, or a subdivision, combination or recapitalization of the Common Stock.

SERIES C 5% CONVERTIBLE PREFERRED STOCK

The authorized capital stock of the Company includes 15,150,000 shares of preferred stock of which 75,000 shares were designated as Series C 5% Convertible Preferred Stock. Holders of the Preferred Shares will receive, when as and if declared by the Board of Directors, a dividend of \$1.25 share per annum payable semi-annually in cash. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, the holders of the Series C Convertible Preferred Stock are entitled to receive out of the assets of the Company available for distribution to its stockholders, before any payment or distribution shall be made on the Common Stock or on the shares of the Series C Preferred Stock, an amount per share equal to \$25.00. The holders of Series C 5% Convertible Preferred Stock have no voting rights except that any change to the rights, preference and privilege thereof requires the approval of 2/3 in liquidation amount of the holders .

Each share of the Series C Convertible Preferred Stock may be converted at any time into 16.667 shares of the Company's Common Stock representing a Common Stock purchase price of \$1.50 per share. The Conversion Ratio will be subject to adjustment in the event of a stock split of, stock dividend on, or a subdivision, combination or recapitalization of the Common Stock. The Preferred Shares will be subject to mandatory conversion on the effective date of the registration statement covering the resale of the Common Shares.

SERIES D 5% CONVERTIBLE PREFERRED STOCK

The authorized capital stock of the Company includes 15,150,000 shares of preferred stock of which 75,000 shares were designated as Series D 5% Convertible Preferred Stock. Subject to Delaware law, holders of the Preferred Shares will receive a dividend of \$1.25 share per annum payable semi-annually in cash provided that no payment may be made unless and until all dividends accrued on the Series C Preferred Stock have been paid. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, the holders of the Series D Convertible Preferred Stock are entitled to receive out of the assets of the Company available for distribution to its stockholders, before any payment or distribution shall be made on the Common Stock (but only after payment on the Series C Preferred Stock), an amount per share equal to \$25.00. The holders of Series D 5% Convertible Preferred Stock have the right to vote with the holders of the Common Stock on all matters on an as converted basis voting rights except that any change to the rights, preference and privilege thereof will require the approval of 2/3 in liquidation amount of the holders.

Each share of the Series D Convertible Preferred Stock may be converted at any time into 50 shares of the Company's Common Stock representing a Common Stock purchase price of \$.50 per share. The Conversion Ratio will be subject to adjustment in the event of a stock split of, stock dividend on, or a subdivision, combination or recapitalization of the Common Stock. Additionally, the Conversion Ratio will be adjusted if the Company in the future issues shares of Common Stock below \$.50 or securities convertible into Common Stock with an exercise conversion price per share below \$.50. Any adjustment will be on a "weighted average" basis. The Preferred Shares will be subject to mandatory conversion on the effective date of the registration statement covering the resale of the Common Shares. The holders of the Series D Convertible Preferred Stock will share ratably with the holders of the Series C Preferred Stock upon

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

liquidation, dissolution or winding up of the affairs of the Company.

COMMON STOCK PURCHASE WARRANTS

We currently have 4,903,728 common stock purchase warrants outstanding. The common stock purchase warrants are each exercisable into one share of common stock at the holder's option at various exercise prices and for various periods of duration.

PLAN OF DISTRIBUTION

Each Selling Stockholder and any of their pledgees, assignees and successors-in-interest selling shares received from the named selling stockholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus (all of whom may be a selling stockholder) may sell the common stock offered by this prospectus from time to time on any stock exchange or automated interdealer quotation system on which the common stock is listed or quoted at the time of sale, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling shares:

- o ordinary brokerage transactions and transactions in which the broker-dealer solicits Purchaser;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately negotiated transactions;
- o settlement of short sales entered into after the date of this prospectus;
- o broker-dealers may agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;
- o a combination of any such methods of sale;
- o through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

- o any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares under Rule 144 under the Securities Act of 1933, as amended, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. Each Selling Stockholder does not expect these commissions and discounts relating to its sales of shares to exceed what is customary in the types of transactions involved.

In connection with the sale of our common stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed us that it does not have any agreement or understanding, directly or indirectly, with any person to distribute the Common Stock.

We are required to pay certain fees and expenses incurred by us incident to the registration of the shares. We have agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

23

Because Selling Stockholders may be deemed to be "underwriters" within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Stockholder has advised us that they have not entered into any agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the resale shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the Selling Stockholders without registration and without regard to any volume limitations by reason of Rule 144(e) under the Securities Act or any other rule of similar effect or (ii) all of the shares

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

LEGAL MATTERS

Sichenzia Ross Friedman Ference LLP, New York, New York will issue an opinion with respect to the validity of the shares of common stock being offered hereby.

EXPERTS

Squar, Milner, Reehl & Williamson, LLP has audited, as set forth in their report thereon appearing elsewhere herein, our financial statements as of December 31, 2005, and for the years ended December 31, 2005 and 2004 that appear in the prospectus. The financial statements referred to above are included in this prospectus with reliance upon the auditors' opinion based on their expertise in accounting and auditing.

AVAILABLE INFORMATION

We have filed a registration statement on Form SB-2 under the Securities Act of 1933, as amended, relating to the shares of common stock being offered by this prospectus, and reference is made to such registration statement. This prospectus constitutes the prospectus of our company filed as part of the registration statement, and it does not contain all information in the registration statement, as certain portions have been omitted in accordance with the rules and regulations of the Securities and Exchange Commission. We are subject to the informational requirements of the Securities Exchange Act of 1934 that require us to file reports, proxy statements and other information with the Securities and Exchange Commission. Such reports, proxy statements and other information may be inspected at public reference facilities of the SEC at 100 F Street N.E., Washington D.C. 20549. Copies of such material can be obtained from the Public Reference Section of the SEC at Judiciary Plaza, 450 Fifth Street N.W., Washington, D.C. 20549 at prescribed rates. The public could obtain information on the operation of the public reference room by calling the Securities and Exchange Commission at 1-800-SEC-0330. Because we file documents electronically with the SEC, you may also obtain this information by visiting the SEC's Internet website at <http://www.sec.gov>.

INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Articles of Incorporation, as amended and restated, provide to the fullest extent permitted by Section 145 of the General Corporation Law of the State of Delaware, that our directors or officers shall not be personally liable to us or

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended and restated, is to eliminate our rights and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in our Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

24

Our By Laws also provide that the Board of Directors may also authorize us to indemnify our employees or agents, and to advance the reasonable expenses of such persons, to the same extent, following the same determinations and upon the same conditions as are required for the indemnification of and advancement of expenses to our directors and officers. As of the date of this Registration Statement, the Board of Directors has not extended indemnification rights to persons other than directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

New Century Companies, Inc. and Subsidiary

We have audited the accompanying consolidated balance sheet of New Century Companies, Inc. and Subsidiary (the "Company") as of December 31, 2005, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for each of the two years in the period ended December 31, 2005. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of New Century Companies, Inc. and Subsidiary as of December 31, 2005, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has negative working capital of approximately \$2,083,000, an accumulated deficit of approximately \$6,959,000 and is in default on certain notes payable. These factors, among others, raise

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding these matters are also described in Note 1. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND NATURE OF OPERATIONS

New Century Companies, Inc. and Subsidiary (collectively, the "Company"), a California corporation, was incorporated March 1996 and is located in Southern California. The Company provides after-market services, including rebuilding, retrofitting and remanufacturing of metal cutting machinery.

The Company currently sells its services by direct sales and through a network of machinery dealers across the United States. Its customers are generally medium to large sized manufacturing companies in various industries where metal cutting is an integral part of their businesses. The Company grants credit to its customers who are predominately located in the western United States.

The Company trades on the Over-the-Counter Bulletin Board under the symbol "NCNC.OB."

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of New Century Companies, Inc. and its wholly owned subsidiary, New Century Remanufacturing (collectively, the "Company"). All significant intercompany accounts and transactions have been eliminated in consolidation.

GOING CONCERN

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. As of December 31, 2005, the Company has negative working capital of approximately \$2,083,000, an accumulated deficit of approximately \$6,959,000 and is in default on certain notes payable. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company intends to fund operations through anticipated increased sales and debt and equity financing arrangements which management believes may be insufficient to fund its capital expenditures, working capital and other cash requirements for the year ending December 31, 2006. Therefore, the Company will be required to seek additional funds to finance its long-term operations. The successful outcome of future activities cannot be determined at this time and there is no assurance that if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

In response to these problems, management has taken the following actions:

- o The Company continues its aggressive program for selling inventory.
- o The Company continues to implement plans to further reduce operating costs.
- o The Company is seeking investment capital through the public and private markets (see Note 10).

The consolidated financial statements do not include any adjustments related to recoverability and classification of assets carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

F-8

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GOING CONCERN (CONTINUED)

During 2004 and 2005, management settled with several vendors and was able to obtain a fifty percent reduction in the amounts due to those specific vendors. Additionally, the Company converted certain notes payable to common stock during December 2005 resulting in approximately \$216,000 of credits to earnings (see Note 5). As a result, the accompanying consolidated statements of operations include a gain on forgiveness of accounts and notes payable totaling approximately \$319,000 and \$544,000 for the years ended December 31, 2005 and 2004, respectively. The effect on basic and diluted earnings (loss) per share was \$0.03 and \$0.08 for the years ended December 31, 2005 and 2004, respectively.

CONCENTRATIONS OF CREDIT RISKS

Cash is maintained at various financial institutions. The Federal Deposit Insurance Corporation ("FDIC") insures accounts at each financial institution for up to \$100,000. At times, cash may be in excess of the FDIC insurance limit of \$100,000. The Company had no uninsured bank balances at December 31, 2005.

The Company sells products to customers throughout the United States. The

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Company's ability to collect receivables is affected by economic fluctuations in the geographic areas served by the Company. Although the Company does not obtain collateral with which to secure its contracts receivable, management periodically reviews contracts receivable and assesses the financial strength of its customers and, as a consequence, believes that the receivable credit risk exposure could, at times, be material to the financial statements.

During the year ended December 31, 2004, sales to two customers approximated 19% of net sales. No single customer net sales were more than 10% for the year ended December 31, 2005. Management reviews the collectibility of contract receivables periodically and believes no allowance for losses was needed at December 31, 2005.

RISKS AND UNCERTAINTIES

The Company operates in an industry that is subject to intense competition. The Company's operations are subject to significant risks and uncertainties including financial, operational, technological and other risks associated with operating a business including the potential risk of business failure.

F-9

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant estimates made by management are, among others, deferred tax asset valuation allowances, realization of inventories, collectibility of contracts receivable and the estimation of costs for long-term construction contracts. Actual results could materially differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid fixed income investments with maturities of three months or less at the time of acquisition, to be cash equivalents. The Company had no cash equivalents at December 31, 2005.

INVENTORIES

Inventories are stated at the lower of cost or net realizable value. Cost is determined under the first-in, first-out method. Inventories represent cost of work in process on units not yet under contract. Cost includes all direct material and labor, machinery, subcontractors and allocations of indirect overhead. Net realizable value is based on management's forecast for sales of the Company's products or services in the ensuing years. The industry in which the Company operates is characterized by technological advancement and change. Should demand for the Company's products prove to be significantly less than anticipated, the ultimate realizable value of the Company's inventories could be

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

substantially less than the amount shown in the accompanying consolidated balance sheet. At December 31, 2005 and 2004, the Company had inventory reserves approximating \$418,000 and \$486,000, respectively.

PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost and are depreciated using the straight-line method over the estimated useful lives of the related assets ranging from three to five years. Equipment under capital lease obligations are depreciated over the shorter of the estimated useful life or the term of the lease. Maintenance and repairs are charged to expense as incurred. Significant renewals and betterments are capitalized. At the time of retirement or other disposition of property and equipment, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the consolidated statement of operations.

F-10

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

LONG-LIVED ASSETS

The Company accounts for long-lived asset impairments under Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"). SFAS No. 144 requires a three-step approach for recognizing and measuring the impairment of assets to be held and used. The Company recognizes impairment losses on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. The impairment loss is measured by comparing the fair value of the asset to its carrying amount. Fair value is estimated based on discounted future cash flows. Assets to be sold must be stated at the lower of the assets' carrying amount or fair value and depreciation is no longer recognized. The Company believes that no impairment of property and equipment exists at December 31, 2005.

REVENUE RECOGNITION

The Company's revenues consist of contracts with vendors. The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition," as amended and superseded by SAB No. 104, which outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the SEC. Management believes that the Company's revenue recognition policy conforms to SAB No. 104. The Company recognizes revenue of contracts pursuant to

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

SOP 81-1.

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Costs incurred and revenue earned on contracts in progress in excess of billings (under billings) is classified as a current asset. Amounts billed in excess of costs and revenue earned (over billings) are classified as a current liability.

F-11

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

REVENUE RECOGNITION (CONTINUED)

The Company accounts for shipping and handling fees and costs in accordance with Emerging Issues Task Force ("EITF") Issue No. 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with SFAS 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

WARRANTY

The Company provides a warranty on certain products sold. Estimated future warranty obligations related to certain products and services are provided by charges to operations in the period in which the related revenue is recognized. At December 31, 2005, the warranty obligation was immaterial to the accompanying consolidated balance sheet.

ADVERTISING

The Company expenses the cost of advertising when incurred as selling expense in the accompanying consolidated statements of operations. Advertising expenses were approximately nil and \$84,000 for the years ended December 31, 2005 and 2004, respectively.

RESEARCH AND DEVELOPMENT COSTS

Research and development costs are expensed as incurred.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

INCOME TAXES

Under SFAS 109, "Accounting for Income Taxes," deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided for significant deferred tax assets when it is more likely than not that such assets will not be recovered.

F-12

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIC AND DILUTED INCOME (LOSS) PER COMMON SHARE

Under SFAS 128, "Earnings Per Share," basic earnings per common share is computed by dividing income (loss) available to common stockholders by the weighted-average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive (under the treasury stock method, there were 650,000 and 179,000 additional potential common shares at December 31, 2005 and 2004, respectively).

COMPREHENSIVE INCOME

SFAS 130, "Reporting Comprehensive Income," establishes standards for reporting and display of comprehensive income and its components in a full set of general-purpose financial statements. For the years ended December 31, 2005 and 2004, the Company had no items of comprehensive income.

SEGMENTS OF BUSINESS

SFAS 131, "Disclosures about Segments of an Enterprise and Related Information," changes the way public companies report information about segments of their business in their quarterly reports issued to stockholders. It also requires entity-wide disclosures about the products and services an entity provides, the material countries in which it holds assets and reports revenues and its major customers. The Company currently operates in one segment.

STOCK BASED COMPENSATION

The Company accounts for stock-based compensation issued to employees using the intrinsic value based method as prescribed by Accounting Principles Board Opinion No. 25 ("APB 25"), "Accounting for Stock issued to Employees." Under the intrinsic value based method, compensation expense is the excess, if any, of the fair value of the stock at the grant date or other measurement date over the amount an employee must pay to acquire the stock. Compensation expense, if any, is recognized over the applicable service period, which is usually the vesting period.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

SFAS 123, "Accounting for Stock-Based Compensation," if fully adopted, changes the method of accounting for employee stock-based compensation plans to the fair value based method. For stock options and warrants, fair value is determined using an option pricing model that takes into account the stock price at the grant date, the exercise price, the expected life of the option or warrant, stock volatility and the annual rate of quarterly dividends. Compensation expense, if any, is recognized over the applicable service period, which is usually the vesting period.

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

STOCK BASED COMPENSATION (CONTINUED)

The adoption of the accounting methodology of SFAS 123 is optional and the Company has elected to continue accounting for stock-based compensation issued to employees using APB 25; however, pro forma disclosures, as the Company adopted the cost recognition requirement under SFAS 123, are required to be presented (see below). For stock-based compensation issued to non-employees, the Company uses the fair value method of accounting under the provisions of SFAS 123.

Financial Accounting Standards Board ("FASB") Interpretation No. 44 ("FIN 44"), "Accounting for Certain Transactions Involving Stock Compensation, an Interpretation of APB 25" clarifies the application of APB 25 for (a) the definition of employee for purpose of applying APB 25, (b) the criteria for determining whether a plan qualifies as a non compensatory plan, (c) the accounting consequence for various modifications to the terms of a previously fixed stock option or award and (d) the accounting for an exchange of stock compensation awards in a business combination. Management believes that the Company accounts for transactions involving stock compensation in accordance with FIN 44.

SFAS 148, "Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of FASB Statement No. 123," provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results.

At December 31, 2005, the Company has one stock-based employee compensation plan and one stock-based non-employee compensation plan, which are described more fully in Note 7. There was no employee stock-based compensation cost recognized in net income (loss) for the years ended December 31, 2005 and 2004. Additionally, there was no unvested portion of previous grants for which the requisite service has not been rendered as of December 31, 2005. Accordingly, the Company had no pro forma expense when applying the fair value recognition provisions of SFAS 123, as amended, to stock-based employee compensation. However, the above pro forma effects of applying SFAS 123 are not necessarily representative of the impact on reported net income (loss) for future years (see below).

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

In December 2004, the FASB issued SFAS No. 123-R, "Share-Based Payments," as subsequently interpreted by SEC Staff Accounting Bulletin No. 107, "Share-Based Payments," which replaces SFAS No. 123, and supersedes APB Opinion No. 25. As originally issued, SFAS 123 established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that pronouncement permitted entities to continue applying the intrinsic-value-based model of APB Opinion No. 25, provided that the financial statements disclosed the pro forma net income or loss based on the fair-value method. The Company will be required to apply SFAS 123-R as of January 1, 2006. Thus, the Company's financial statements will reflect an expense for (a) all share-based compensation arrangements granted beginning January 1, 2006 and for any such arrangements that are modified, cancelled, or repurchased after that date, and (b) the portion of previous share-based awards for which the requisite service has not been rendered as of that date, based on the grant-date estimated fair value of those awards.

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Company follows SFAS No. 123, "Accounting for Stock-Based Compensation" (as interpreted by EITF 96-18, "Accounting for Equity Instruments That Are Issued To Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services") to account for transactions involving services provided by third parties where the Company issues equity instruments as part of the total consideration.

Pursuant to paragraph 8 of SFAS No. 123, the Company accounts for such transactions using the fair value of the consideration received (i.e. the value of the goods or services) or the fair value of the equity instruments issued, whichever is more reliably measurable. The Company applies EITF 96-18, in transactions, when the value of the goods and/or services are not readily determinable and (1) the fair value of the equity instruments is more reliably measurable and (2) the counterparty receives equity instruments in full or partial settlement of the transactions, using the following methodology:

(a) For transactions where goods have already been delivered or services rendered, the equity instruments are issued on or about the date the performance is complete (and valued on the date of issuance). (b) For transactions where the instruments are issued on a fully vested, non-forfeitable basis, the equity instruments are valued on or about the date of the contract.

(c) For any transactions not meeting the criteria in (a) or (b) above, the Company re-measures the consideration at each reporting date based on its then current stock value.

FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS 107, "Disclosures About Fair Value of Financial Instruments," requires disclosure of fair value information about financial instruments when it is practicable to estimate that value. The carrying amount of the Company's cash (bank overdraft), contracts receivable, accounts payable and accrued expenses, and notes payable approximates their estimated fair values because related interest rates offered to the Company approximate current offered rates. The

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

fair value of the notes receivable from stockholders are not determinable as these transactions are with related parties.

SIGNIFICANT RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets, an amendment of APB Opinion 29, Accounting for Nonmonetary Transactions". The amendments made by SFAS No. 153 are based on the principle that exchanges of nonmonetary assets should be measured using the estimated fair value of the assets exchanged. SFAS No. 153 eliminates the narrow exception for nonmonetary exchanges of similar productive assets and replaces it with a broader exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has "commercial substance" if the future cash flows of the entity are expected to change significantly as a result of the transaction. This pronouncement is effective for nonmonetary exchanges in fiscal periods beginning after June 15, 2005. The adoption of this pronouncement is not expected to have a material impact on the Company's consolidated financial statements.

SIGNIFICANT RECENT ACCOUNTING PRONOUNCEMENTS (CONTINUED)

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections," which replaces APB Opinion No. 20, "Accounting Changes" and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." This pronouncement applies to all voluntary changes in accounting principle, and revises the requirements for accounting for and reporting a change in accounting principle. SFAS No. 154 requires retrospective application to prior periods' financial statements of a voluntary change in accounting principle, unless it is impracticable to do so. This pronouncement also requires that a change in the method of depreciation, amortization, or depletion for long-lived, non-financial assets be accounted for as a change in accounting estimate that is affected by a change in accounting principle. SFAS No. 154 retains many provisions of APB Opinion No. 20 without change, including those related to reporting a change in accounting estimate, a change in the reporting entity, and correction of an error. The pronouncement also carries forward the provisions of FASB No. 3 which govern reporting accounting changes in interim financial statements. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Statement does not change the transition provisions of any existing accounting pronouncements, including those that are in a transition phase as of the effective date of SFAS No. 154. The adoption of this pronouncement is not expected to have a material impact on the Company's future consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155 entitled "Accounting for Certain Hybrid Financial Instruments," an amendment of SFAS No. 133 ("Accounting for Derivative Instruments and Hedging Activities") and SFAS No. 140 ("Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities"). In this context, a hybrid financial instrument refers to certain derivatives embedded in other financial instruments. SFAS No. 155 permits fair value re-measurement of any hybrid financial instrument that contains an

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

embedded derivative that otherwise would require bifurcation under SFAS No. 133. SFAS No. 155 also establishes a requirement to evaluate interests in securitized financial assets in order to identify interests that are either freestanding derivatives or "hybrids" which contain an embedded derivative requiring bifurcation. In addition, SFAS No. 155 clarifies which interest/principal strips are subject to SFAS No. 133, and provides that concentrations of credit risk in the form of subordination are not embedded derivatives. SFAS No. 155 amends SFAS No. 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative. When SFAS No. 155 is adopted, any difference between the total carrying amount of the components of a bifurcated hybrid financial instrument and the fair value of the combined "hybrid" must be recognized as a cumulative-effect adjustment of beginning deficit/retained earnings.

SIGNIFICANT RECENT ACCOUNTING PRONOUNCEMENTS (CONTINUED)

SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. Earlier adoption is permitted only as of the beginning of a fiscal year, provided that the entity has not yet issued any annual or interim financial statements for such year. Restatement of prior periods is prohibited.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future consolidated financial statements.

3. PROPERTY AND EQUIPMENT

Property and equipment approximate the following at December 31, 2005:

Machinery and equipment	\$ 1,364,000
Computer equipment	23,000
Capital lease equipment	272,000
Leasehold improvements	123,000

	1,782,000
Less accumulated depreciation and amortization	(1,370,000)

	\$ 412,000
	=====

At December 31, 2004, the Company had \$206,000 accrued as an estimated legal settlement for a dispute with a former customer who had purchased a machine during 2001. Such claim was settled in December 2005. The settlement required the former customer to return the machine to the Company and the Company to pay \$275,000 to the former customer. The Company decided to utilize the machine to manufacture materials used in its production. As a result, the Company recorded the \$275,000 cost of the machine (which management believes equals the fair value) as machinery and equipment and recorded a corresponding credit (reduction) to selling, general and administrative expenses in the accompanying consolidated statements of operations for the year ended December 31, 2005.

4. RELATED PARTY TRANSACTIONS

As of December 31, 2005, the Company had loans to two stockholders approximating \$506,000, including accrued interest. The loans accrue interest at 6% and are due on demand. The Company has included the notes receivable from stockholders in stockholders' equity (deficit) as such amounts have not been repaid during 2005 or 2004. For each of the years ended December 31, 2005 and 2004, total interest income from notes receivable from stockholders approximated \$20,000.

5. NOTES PAYABLE

During the year ended December 31, 2001, the Company entered into an unsecured note payable ("Note A") with a third party for \$250,000. Note A accrues interest at a fixed rate of 18% per annum and matured in December 2003, as amended. Note A is personally guaranteed by a stockholder and was in default at December 31, 2004. At December 31, 2004, the total outstanding principal balance on Note A was \$250,000. In December 2005, the Company entered into an agreement with the note holder to settle the entire principal balance of \$250,000 plus accrued interest of approximately \$125,000 in exchange for 400,000 shares of restricted common stock. As a result of this conversion and final settlement, the Company recorded a gain on forgiveness of notes payable totaling approximately \$127,000.

During the year ended December 31, 2001, the Company entered into a note payable ("Note B") with a third party for \$215,000. Note B accrues interest at a fixed rate of 15% per annum and matured in March 2002. Note B is secured by certain assets of the Company, as defined, and was in default at December 31, 2004. During 2005, the Company and the note holder executed a mutual agreement to fully settle the debt whereby by the Company agreed to make fifteen monthly installments of \$12,000 (totaling \$180,000) beginning January 2006 and to issue 100,000 shares of restricted common stock valued at \$62,000 (estimated based on the market price of the stock on the date of the agreement) to the holder. Accrued interest on the note totaled approximately \$116,000 on the date of the transaction. As a result of the effective reduction in principal balance of \$35,000, the forgiveness of approximately \$116,000 of accrued interest and the issuance of restricted common stock valued at \$62,000, the Company recorded a gain on forgiveness of notes payable totaling approximately \$89,000 for the year ended December 31, 2005.

In January 2003, the Company entered into a note payable agreement ("Note C") with two individuals in the amount of \$500,000 with an interest rate of 11% per annum, which matured in April 2003. Note C is secured by certain assets of the Company. At December 31, 2005, the total outstanding principal balance on Note C was \$500,000 and accrued interest totaled approximately \$172,000.

In December 2002, the Company entered into a note payable agreement ("Note D") with two individuals in the amount of \$250,000 with an interest rate of 11% per annum, which matured in February 2003. Note D is secured by certain assets of the Company. At December 31, 2005, the total outstanding principal balance on Note C was \$250,000 and accrued interest totaled approximately \$104,000.

5. NOTES PAYABLE (continued)

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

In April, 2005, the Company and the note holders of Notes C and D (the "Noteholder") executed a mutual agreement (the "Extension Agreement") whereby the Noteholder agreed not to foreclose on the security interest of the two notes payable, before the earlier of a funding or August 13, 2005. As consideration to effectively extend the due date of the two notes until August 13, 2005, the Company issued 250,000 shares of the Company's restricted common stock to the Noteholder. Additionally, the Extension Agreement required the Company to register the shares by August 13, 2005, or it would need to pay penalties of 1,000 additional shares being issued for each day of delay up to thirty days and 2,500 additional shares for each day thereafter. The estimated fair value of the 250,000 shares (based on the trading price of the Company's stock on the date of issuance) totaling \$47,500 was recorded on the date of issuance as a debt discount against the face value of the notes and was amortized to interest expense over the extension period in accordance with EITF 96-19, "Debtor's Accounting for a Modification or Exchange of Debt Instruments." Subsequently, the Noteholder waived its right to the penalty shares and has not attempted to foreclose on the notes. Such notes are in default at December 31, 2005.

During November 2004, the Company borrowed \$80,816 on two notes payable ("Note E") to one individual. Note E is unsecured, matured in January 2005, has an interest rates of 6% and is currently in default. At December 31, 2005 the total outstanding principal balance on Note E was approximately \$81,000 and accrued interest totaled approximately \$6,000.

Principal amounts due on the notes payable approximate the following for the years ending December 31, 2006 and 2007:

2006	\$ 975,000
2007	36,000

	\$ 1,011,000

6. INCOME TAXES

During 2005 and 2004, the provision for taxes differs from the amounts computed by applying the U.S. Federal income tax rate of 34% to income before provision for taxes as a result of the following:

	2005	2004
	-----	-----
Computed "expected" tax (benefit) expense	\$ 227,000	\$ (484,000)
Addition to (reduction) in income taxes resulting from:		
State income taxes, net of federal benefit	40,800	(57,000)
Change in deferred tax asset valuation allowance	(267,000)	533,000
Non-deductible expenses	--	8,800

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

-----	-----
\$ 800	\$ 800
=====	=====

The effects of temporary differences that give rise to significant portions of deferred tax assets and liabilities at December 31, 2005 and 2004 are presented below:

Deferred tax assets:		
Tax net operating loss carryforwards	\$ 3,955,000	\$ 4,194,000
Accrued inventory reserve	167,000	194,000
Accrued expenses	18,000	19,000
	-----	-----
Total gross deferred tax asset	4,140,000	4,407,000
Less valuation allowance	(4,140,000)	(4,407,000)
	-----	-----
Total net deferred tax asset	\$ --	\$ --
	=====	=====

The valuation allowance decreased by \$267,000 and increased by \$533,000 during the years ended December 31, 2005 and 2004, respectively. The current provision for income taxes for the years ended December 31, 2005 and 2004 is not significant and due primarily to certain state taxes.

At December 31, 2005, the Company had net tax operating loss carryforwards of approximately \$10.4 million and \$7.2 million available to offset future taxable federal and state income, respectively. If not utilized to offset future taxable income, the federal and state carryforwards will expire in various years through 2025 and 2015, respectively. In the event the Company were to experience a greater than 50% change in ownership as defined in Section 382 of the Internal Revenue Code, the utilization of the Company's tax net operating loss carryforwards could be severely restricted.

PREFERRED STOCK

The Company has authorized 15,000,000 shares of cumulative, convertible Series B Preferred Stock ("Series B") with a par value of \$1 per share. The Series B has a mandatory cumulative dividend of \$1.25 per share, which is payable on a semi-annual basis, and convertible into 1.67 shares of the Company's common stock, does not have any voting rights, and has liquidation preference equal to \$25 per share before any payment or distribution shall be made on common stock.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

As of December 31, 2001, in accordance with the conversion terms of the Series B, 95,023 shares of the common stock remained un-issued and committed, which the Company has reclassified to common stock during the year ended December 31, 2002 because the stock had constructively been issued.

In March 2002, the Board of Directors authorized 75,000 shares of 5% cumulative, convertible Series C Preferred Stock ("Series C") with a par value of \$1 per share. The Series C has a mandatory cumulative dividend of \$1.25 per share, which is payable on a semi-annual basis in June and December each year to holders of record on November 30 and May 31, does not have any voting rights and has liquidation preferences, as defined. Each share of Series C is convertible at the option of the holder into 16.667 shares of the Company's common stock.

During the years ended December 31, 2005 and 2004, the Company issued 530,001 and 47,000 shares of restricted common stock, respectively, upon conversion of 31,800 and 2,820 shares of Series C, respectively, at a conversion rate of 16.667-to-1.

At December 31, 2005, the Company had a total of 28,980 shares of Series C issued and outstanding, with accumulated dividends totaling approximately \$463,000, which is included in dividends payable in the accompanying consolidated balance sheet.

During the year ended December 31, 2004, the Company issued a Private Placement Memorandum ("PPM") in which the Company offered to eligible investors, as defined, a maximum of 30,000 shares of Series D Preferred Stock ("Series D"), with a required minimum offering of 1,000 shares of Series D to be sold at \$25 per share. During the year ended December 31, 2004 and pursuant to the PPM, the Company issued 23,640 shares of Series D to eligible investors for proceeds totaling \$521,000, net of \$30,000 paid to the broker/dealer and \$40,000 of accounts payable which were exchanged for shares. Such offering costs were included as an offset to additional paid-in capital in the accompanying consolidated financial statements. Since the related conversion rate is 50:1, the effective conversion rate of \$0.50 resulted in a deemed dividend of \$153,660, which was included in accumulated deficit. The deemed dividend is also reflected as an increase in the net loss attributable to common shareholders for 2004 (see Note 8). Additionally, the broker/dealer was granted Three-Year Placement Warrants, as defined in the PPM, with a cashless exercise feature to purchase 25,000 shares of the Company's common stock at prices ranging from \$0.50 to \$1.00. No expense was recorded related to the granting of such warrants as they were considered an offering cost. The warrants vested immediately and expire in February 2007.

PREFERRED STOCK (CONTINUED)

In July 2005, the Company issued 600,000 shares of restricted common stock upon conversion of 12,000 shares of Series D at a conversion rate of 50-to-1.

At December 31, 2005, the Company had a total of 11,640 shares of Series D issued and outstanding, with accumulated dividends totaling approximately \$103,000, which is included in dividends payable in the accompanying

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

consolidated balance sheet.

COMMON STOCK

During the year ended December 31, 2001, the Company received a subscription receivable of \$87,500 from a member of the Board of Directors in exchange for shares of the Company's restricted common stock. The subscription receivable bears interest at an annual rate of 6%. Principal and any unpaid interest were due on October 6, 2001. As of December 31, 2005, the subscription receivable remains unpaid.

During the year ended December 31, 2002, the Company received two subscriptions receivable totaling \$375,000 in exchange for 250,000 restricted shares of common stock. The receivables bear interest at an annual rate of 5%. Principal and any unpaid interest on both subscriptions receivable were due on August 22, 2003, and are in default as of December 31, 2005. As of December 31, 2005, the subscription receivable remains unpaid. The related accrued interest receivable and interest income are insignificant to the consolidated financial statements.

During the year ended December 31, 2004, the Company issued 350,000 shares of restricted common stock valued at \$165,000 (estimated based on the market price on the dates of grant) to three consultants for services rendered in relation to corporate finance, investor relations and management services that were substantially completed during 2004. Approximately \$157,000 was recorded as consulting expense during the year ended December 31, 2004 and approximately \$8,000 remained unamortized as deferred consulting fees at December 31, 2004, which was recorded as an offset to stockholders equity (deficit). Such unamortized amount was entirely amortized to consulting expense during the year ended December 31, 2005.

In April 2005, the Company issued 250,000 shares of restricted common stock, valued at \$47,500 (estimated based on the market price on the dates of grant) to one of its creditors (see Note 5) as consideration to extend the maturity date of certain notes payable.

On April 25, 2005 the Company issued 300,000 shares of restricted common stock to a holder of the Company's Series D under a verbal agreement as the sole consideration and remedy for failure to register the common shares underlying the Series D. Accordingly, the Company expensed the fair value of the 300,000 common shares (based on the trading price of the Company's stock on such date of issuance) totaling \$90,000. The extent of the registration rights of the Series D was that the Company would use its best efforts to file a registration statement underlying the conversion shares, however, the Company's board of directors decided to issue the penalty shares as a good faith measure to maintain a good relationship with the investor.

In April 2005, the Company issued 100,000 shares of restricted common stock to one of its former customers as an inducement and partial legal settlement for a pending claim related to the sale of one its machines. The former customer then refused to accept the shares and the Company then granted the shares to the attorney which was representing the Company in the lawsuit. Accordingly, the Company immediately expensed the fair value of such common stock totaling \$20,000 (estimated based on the trading price of the Company's stock on the date of grant) and the attorney agreed to accept the shares as payment for outstanding fees of such amount. At December 31, 2004, the Company had \$206,000 accrued as an estimated legal settlement for this dispute. Such claim was settled in December 2005. The settlement required the former customer to return the machine to the Company and the Company to pay \$275,000 to the former customer. The Company decided to utilize the machine to manufacture materials used in its production. As a result, the Company recorded the \$275,000 cost of the machine (which management believes equals the fair value) as machinery and equipment and recorded a corresponding credit (reduction) to selling, general

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

and administrative expenses in the accompanying consolidated statements of operations for the year ended December 31, 2005.

F-23

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2005

In December 2005, the Company issued 400,000 and 100,000 shares of restricted common stock to the holders of Notes A and B (see Note 5), respectively, to settle the outstanding debt and recorded the stock at fair value (estimated based on the trading price of the Company's stock on the date of grant) totaling \$310,000.

In December 2005, The Company issued 75,000 shares of restricted common stock to its securities counsel as payment for past due legal fees totaling \$46,500, which equaled the fair value of the stock on the date of settlement (estimated based on the trading price of the Company's stock on the date of settlement).

During 2005, the Company issued 1,050,000 shares of restricted common stock under several consulting contracts for management consulting and investor relations. The contracts do not contain a "performance commitment" as defined in EITF 96-18 and, therefore, a measurement date does not exist until the services are complete. As a result, the fair value of each stock issuance (estimated based on the trading price of the Company's stock on the dates of the respective agreements) was recorded as deferred consulting fees on the initial measurement dates and subsequently adjusted (based on the then-current fair value at each reporting date) through deferred consulting fees and is being amortized to consulting expense over the periods of service until such time the respective agreements are complete. The terms of the agreements range from three months to one year. Accordingly, the accompanying consolidated financial statements include the marked-to-market fair value of the 1,050,000 shares of common stock totaling \$519,000 with amortization of the related deferred consulting fees totaling approximately \$265,000 for the year ended December 31, 2005. At December 31, 2005, three of these contracts had not been completed and the remaining deferred consulting fees approximated \$255,000.

STOCK OPTIONS AND WARRANTS

Under the terms of the Company's Incentive Stock Option Plan ("ISOP"), options to purchase an aggregate of 1,000,000 shares of common stock may be issued to key employees, as defined. The exercise price of any option may not be less than the fair market value of the shares on the date of grant. No options granted may be exercisable more than 10 years after the date of grant. The options granted generally vest evenly over a one-year period, beginning from the date of grant.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Under the terms of the Company's Non-Statutory Stock Option Plan ("NSSO"), options to purchase an aggregate of 1,350,000 shares of common stock may be issued to non-employees for services rendered. These options are non-assignable and non-transferable, are exercisable over a five-year period from the date of grant, and vest on the date of grant.

During the years ended December 31, 2005 and 2004, the Company did not grant any stock options or warrants and no stock options or warrants were exercised.

The following is a status of the stock options and warrants outstanding at December 31, 2005 and the changes during the two years then ended:

9. COMMITMENTS AND CONTINGENCIES

SERVICE AGREEMENTS

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Periodically, the Company enters into various agreements for services including, but not limited to, public relations, financial consulting and manufacturing consulting. Generally, the agreements are ongoing until such time they are terminated, as defined. Compensation for services is paid either at a fixed monthly rate or based on a percentage, as specified, and may be payable in shares of the Company's common stock. The Company's policy is that expenses related to these types of agreements are valued at the fair market value of the services or the shares granted, whichever is more realistically determinable. Such expenses are amortized over the period of service.

LEASES

The Company leases equipment under various operating agreements which require monthly payments ranging from approximately \$250 to \$600, and mature through July 2006.

9. COMMITMENTS AND CONTINGENCIES (continued)

LEASES (CONTINUED)

The Company leases its office and warehouse facility under a non-cancelable operating lease agreement. The lease requires monthly lease payments of approximately \$33,000, with annual increases of 3% through December 2006. The lease is personally guaranteed by one of the stockholders.

Future minimum lease payments on the operating lease obligations approximate \$400,000 for the year ended December 31, 2006. The Company currently has no future lease commitments beyond such date.

Rental expense for operating leases approximated \$410,000 for each of the years ended December 31, 2005 and 2004. Interest expense incurred pursuant to capital lease obligations, which expired during 2005, approximated \$13,000 and \$18,000 for the years ended December 31, 2005 and 2004, respectively.

LEGAL

From time to time, the Company may be involved in various claims, lawsuits, and disputes with third parties, actions involving allegations or discrimination or breach of contract actions incidental in the normal operations of the business. The Company is currently not involved in any such litigation, which management believes could have a material adverse effect on its financial position or result of operations.

10. SUBSEQUENT EVENTS

On February 15, 2006, the Company entered into a Series A Convertible Note with a third party (the "Holder") for \$300,000, which matures on the earlier of the next debt or equity financing which the Company closes after the Issue Date or on May 16, 2006. The Note accrues interest at a fixed rate of 24% per annum on the unpaid principal balance from the Issue Date to the sixtieth day from the Issue Date and bears interest at the rate 27% per annum after the sixtieth day from the Issue Date to the Maturity Date. Under the term of the Note, the company issued 30,000 restricted shares of its common stock to the Holder; 454,545 Warrants to the Holder, and 45,454 Warrants to the placement agents and its designees. After the Company obtained the Financing described below, the Company issued an additional 30,000 shares of common stock to the Holder, to extend the Maturity Date of the Note to May 16, 2006. In conjunction with the Note, the Company and the Holder entered into the following attendant agreements, all dated February 15, 2006:

- o Registration Rights Agreement whereby, all the securities issued in connection with the Note have five years right to Piggyback (to be included in the next Registration Statement);
- o Common Stock Purchase Warrant granting the Holder warrants to purchase 454,545 shares of common stock of the Company at an exercise price of \$0.66 for a term of five years (the "Warrants");
- o Finder's Fee Agreement between the Company and a third party.

On February 28, 2006, the Company entered into a Securities Purchase Agreement (the "Agreement") with CAMOFI Master LDC (the "Purchaser") whereby the Company agreed to sell, and the Purchaser agreed to purchase, up to \$5,000,000 aggregate principal amount of 12% Senior Secured Convertible Notes due February 28, 2009 (up to \$3,500,000 to be purchased at the Closing and up to an additional \$1,500,000 to be purchased pursuant to an Additional Investment Right), secured by a first priority lien on all assets of the Company and its current and future subsidiaries (including a pledge of the shares of the Company's current and future Subsidiaries). In conjunction with the Agreement, the Company and the Purchaser entered into the following attendant agreements, all dated February 28, 2006:

- o 12% Senior Secured Convertible Note for \$3,500,000 due February 28, 2009 (the "Notes");
- o Security Agreement between the Company and its current and future subsidiaries on the one hand and the Purchaser on the other hand;
- o Subsidiary Guarantee;

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

- o Common Stock Purchase Warrant granting the Purchaser warrants to purchase 3,476,190 shares of common stock of the Company at an exercise price of \$0.63 for a term of seven years (the "Warrants");
- o Twelve month lock-agreements with certain Company shareholders; o
- o Registration Rights Agreement whereby, within 45 days, the Company shall prepare and file with the SEC a Registration Statement covering the resale of 125% of the following securities (collectively, the "Registrable Securities") of the Purchaser for an offering to be made on a continuous basis pursuant to Rule 415: (i) all of the shares of common stock issuable upon conversion of the Note or as interest on the Notes assuming all of the Notes are converted and all permissible interest payments are made in shares of common stock and the Notes are held until maturity, (ii) all shares issuable as amortization payments on the Notes assuming all permissible amortization payments are made in shares of common stock and the Notes are held until maturity, (iii) all shares of common stock underlying the Warrants, (iv) any securities issued or issuable upon any stock split, dividend or other distribution recapitalization or similar event with respect to the foregoing; and (v) any additional shares issuable in connection with any anti-dilution provisions in the Notes or the Warrants, including a liquidated damages clause whereby if certain deadlines for filing, responding and effectiveness of the Registration Statement (each, an "Event Date") are not met, the Company shall pay to the Purchaser an amount in cash equal to 1.5% of the outstanding principal of the Notes for any Registrable Securities then held by the Purchaser for the first 30 days (or part thereof) after the Event Date and an additional 1.5% for any subsequent 30-day period (or part thereof), thereafter; and

NEW CENTURY COMPANIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2005

(Unaudited)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND NATURE OF OPERATIONS

New Century Companies, Inc. and Subsidiary (collectively, the "Company"), a California corporation, was incorporated March 1996 and is located in Southern California. The Company provides after-market services, including rebuilding, retrofitting and remanufacturing of metal cutting machinery. Once completed, a remanufactured machine is "like new" with state-of-the-art computers, and the cost to the Company's customers is substantially less than the price of a new machine.

The Company currently sells its services by direct sales and through a network of machinery dealers across the United States. Its customers are generally medium to large sized manufacturing companies in various industries where metal cutting is an integral part of their businesses. The Company grants credit to its customers who are predominately located in the western United States.

The Company completed a reverse merger in May 2001 and trades on the OTC Bulletin Board under the symbol "NCNC.OB".

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the accounts of New Century Companies, Inc. and its wholly owned subsidiary, New Century Remanufacturing (collectively, the "Company"). All significant intercompany accounts and transactions have been eliminated in consolidation.

BASIS OF PRESENTATION

The accompanying unaudited interim condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted pursuant to such SEC rules and regulations; nevertheless, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes hereto should be read in conjunction with the financial statements, accounting policies and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2005, filed with the SEC. In the opinion of management, all adjustments necessary to present fairly, in accordance with GAAP, the Company's financial position as of March 31, 2006, and the results of operations and cash flows for the interim periods presented, have been made. Such adjustments consist only of normal recurring adjustments. The results of operations for the three months ended March 31, 2006 are not necessarily indicative of the results for the full year.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

GOING CONCERN

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. As of March 31, 2006, the Company has negative working capital \$1,032,131 and an accumulated deficit of \$7,883,952, and recurring losses. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company fund operations through increased sales and debt and equity financing arrangements which management believes may be insufficient to fund its capital expenditures, working capital and other cash requirements for the fiscal year ending December 31, 2006. Therefore, the Company will be required to seek additional funds to finance its long-term operations. The successful outcome of future activities cannot be determined at this time and there is no assurance that if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

In response to these problems, management has taken the following actions:

- o The Company continues its aggressive program for selling inventory.
- o The Company continues to implement plans to further reduce operating costs.
- o The Company is seeking investment capital through the public markets.

The condensed consolidated financial statements do not include any adjustments related to recoverability and classification of assets carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

INVENTORY

Inventories are stated at the lower of cost or net realizable value. Cost is determined under the first-in, first-out method. Inventories represent cost of work in process on units not yet under contract. Cost includes all direct material and labor, machinery, subcontractors and allocations of indirect overhead.

REVENUE RECOGNITION

The Company's revenues consist of contracts with vendors. The Company uses the percentage-of-completion method of accounting to account for long-term contracts and, therefore, takes into account the cost, estimated earnings and revenue to date on fixed-fee contracts not yet completed. The percentage-of-completion method is used because management considers total cost to be the best available measure of progress on the contracts. Because of inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition," as amended and superseded by SAB No. 104, which outlines the basic criteria that must be met to recognize revenue and provides guidance for presentation of revenue and for disclosure related to revenue recognition policies in financial statements filed with the SEC. Management believes that the Company's revenue recognition policy conforms to SAB No. 104. The Company recognizes revenue on contracts pursuant to SOP 81-1.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

The amount of revenue recognized at the statement date is the portion of the total contract price that the cost expended to date bears to the anticipated final cost, based on current estimates of cost to complete. It is not related to the progress billings to customers. Contract costs include all materials, direct labor, machinery, subcontract costs and allocations of indirect overhead.

Because contracts may extend over a period of time, changes in job performance, changes in job conditions and revisions of estimates of cost and earnings during the course of the work are reflected in the accounting period in which the facts that require the revision become known. At the time a loss on a contract becomes known, the entire amount of the estimated ultimate loss is recognized in the consolidated financial statements.

Contracts that are substantially complete are considered closed for consolidated financial statement purposes. Costs incurred and revenue earned on contracts in progress in excess of billings (under billings) are classified as a current asset. Amounts billed in excess of costs and revenue earned (over billings) are classified as a current liability.

The Company accounts for shipping and handling fees and costs in accordance with Emerging Issues Task Force ("EITF") Issue No. 00-10 "Accounting for Shipping and Handling Fees and Costs." Such fees and costs incurred by the Company are immaterial to the operations of the Company.

In accordance with Statements of Financial Accounting Standards ("SFAS") No. 48, "Revenue Recognition when Right of Return Exists," revenue is recorded net of an estimate of markdowns, price concessions and warranty costs. Such reserve is based on management's evaluation of historical experience, current industry trends and estimated costs.

BASIC AND DILUTED LOSS PER COMMON SHARE

Under SFAS No. 128, "Earnings Per Share," basic earnings per common share is computed by dividing income available to common stockholders by the weighted-average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were 2,025,451 potentially dilutive and 13,392,330 potential common shares as of March 31, 2006, which include common stock purchase warrants and shares underlying convertible preferred stock and convertible notes payable. At March 31, 2005, there were no potentially dilutive common shares.

F-36

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the three month periods ended March 31, 2006 and 2005:

	=====	=====

STOCK BASED COMPENSATION

Effective January 1, 2006, the Company adopted the provisions of SFAS No. 123(R), "Share-Based Payment." SFAS No. 123(R) requires employee stock options and rights to purchase shares under stock participation plans to be accounted for under the fair value method and requires the use of an option pricing model for estimating fair value. Accordingly, share-based compensation is measured at grant date, based on the fair value of the award. The Company previously accounted for awards granted under its equity incentive plans under the intrinsic value method prescribed by Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations, and provided the required pro forma disclosures prescribed by SFAS No. 123, "Accounting for Stock-Based Compensation," as amended. There was no employee stock-based compensation cost recognized in net income (loss) for the three months ended March 31, 2006 and 2005. Additionally, there was no unvested portion of previous grants for which the requisite service had not been rendered as of January 1, 2006.

The Company follows SFAS No. 123 (R) (as interpreted by EITF Issue No. 96-18, "Accounting for Equity Instruments That Are Issued To Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services") to account for transactions involving services provided by third parties where the Company issues equity instruments as part of the total consideration.

F-37

Pursuant to paragraph 7 of SFAS No. 123 (R), the Company accounts for such transactions using the fair value of the consideration received (i.e. the value of the goods or services) or the fair value of the equity instruments issued, whichever is more reliably measurable. The Company applies EITF Issue No. 96-18, in transactions, when the value of the goods and/or services are not readily determinable and (1) the fair value of the equity instruments is more reliably measurable and (2) the counterparty receives equity instruments in full or partial settlement of the transactions, using the following methodology:

- a) For transactions where goods have already been delivered or services rendered, the equity instruments are issued on or about the date the performance is complete (and valued on the date of issuance).
- b) For transactions where the instruments are issued on a fully vested, non-forfeitable basis, the equity instruments are valued on or about the date of the contract.
- c) For any transactions not meeting the criteria in (a) or (b) above, the Company re-measures the consideration at each reporting date based on its then

current stock value.

DEFERRED FINANCING COSTS

Direct costs of securing debt financing are capitalized and amortized over the term of the related debt using the straight-line method. When a loan is paid in full, any unamortized financing costs are removed from the related accounts and charged to operations. During the three months ended March 31, 2006, the Company recorded approximately \$1,007,000 of finance charges in relation to the unamortized portion of deferred financing costs for the debt financings (see Note 3).

STOCK PURCHASE WARRANTS ISSUED WITH NOTES PAYABLE

The Company granted warrants in connection with the issuance of certain notes payable. Under Accounting Principles Board Opinion No. 14, "Accounting for Convertible Debt and Debt Issued With Stock Purchase Warrants," the relative estimated fair value of such warrants represents a discount from the face amount of the notes payable. Such discounts are amortized to interest expense over the term of the notes.

BENEFICIAL CONVERSION FEATURE OF CONVERTIBLE NOTES PAYABLE

The convertible feature of certain notes payable provides for a rate of conversion that is below market value. Such feature is normally characterized as a "Beneficial Conversion Feature" ("BCF"). Pursuant to EITF Issue No. 98-5, "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratio" and EITF No. 00-27, "Application of EITF Issue No. 98-5 To Certain Convertible Instruments," the estimated fair value of the BCF is recorded in the consolidated financial statements as a discount from the face amount of the notes. Such discounts are amortized to interest expense over the term of the notes.

CLASSIFICATION OF WARRANT OBLIGATION

In connection with the issuance of the 12% Senior Secured Convertible Notes (See Note 3), the Company has an obligation to file a registration statement covering the resale of 125% of the Registrable Securities, as defined in the Registration Rights Agreement. The obligation to file the registration statement meets the criteria of an embedded derivative to be bifurcated pursuant to SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", as amended.

F-38

Under this transaction, the Company is obligated to register for resale the common shares underlying the warrants, and as a result, the embedded derivative associated with this warrant obligation does not meet the scope exception of paragraph 11(a) of SFAS No. 133. Specifically, at March 31, 2006, the Company did not have any uncommitted registered shares to settle the warrant obligation and accordingly, such obligation has been classified as a liability (outside of stockholders' deficit) in accordance with EITF Issue No. 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." The classification of the warrant obligation will be evaluated at each reporting date and as such, it will continue to be reported as a liability until a registration statement which includes the shares underlying the warrants becomes effective.

NEW ACCOUNTING PRONOUNCEMENTS

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

Recent accounting pronouncements discussed in the notes to the December 31, 2005 financial statements filed previously with the Securities and Exchange Commission in Form 10-KSB that are required to be adopted during the year ending December 31, 2006 did not or will not have a significant impact on the Company's financial statements.

2. CONTRACTS IN PROGRESS

Contracts in progress as of March 31, 2006 which include completed contracts not completely billed, approximate:

3. DEBT FINANCING TRANSACTIONS

On February 15, 2006 the Company entered into a convertible note payable agreement ("Note A") with Motivated Minds, LLC (the "Holder") in the total amount of \$300,000. The principal balance, together with all accrued interest at the rate of 24% per annum for the first 30 days, and 27% for the following 60 days, was to become due on the earlier of a) May 16, 2006, or b) the date which the Company obtains additional financing. Note A is convertible into shares of the Company's common stock at a fixed price of \$0.66 at any time at the Holder's option. In connection with Note A, the Company issued 30,000 shares of its common stock and 454,545 warrants with a fixed exercise price of \$0.66 to the Holder. The warrants vested and became fully exercisable on the issuance date. In accordance with EITF Issue No. 88-9 and Accounting Principles Board Opinion ("APB") No. 14, the Company allocated the \$300,000 debt proceeds between the relative fair values of the warrants, the common shares issued and the fair value of the beneficial conversion feature ("BCF"). Pursuant to EITF Issue Nos. 98-5 and 00-27, the conversion feature of Note A provides for a rate of conversion that is below market value. The resulting BCF and other debt discount on Note A totaled \$300,000 and is being amortized on a straight-line basis to interest expense over the life of the loan. During the quarter ended March 31, 2006, amortization of the discount resulted in expense of \$150,000, which is included in interest expense in the accompanying condensed consolidated statement of operations for the three months ended March 31, 2006. The remaining

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

\$150,000 discount balance is presented net of the \$300,000 principal balance of Note A included in convertible notes payable balance in the accompanying condensed consolidated balance sheet.

Additionally, due to the financing with CAMOFI (see below), Note A became due on February 28, 2006 and the Company issued 30,000 shares of common stock to the Holder to extend the maturity date of Note A to May 16, 2006. Such shares were valued at approximately \$18,900 (estimated to be the fair value based on the trading price on the issuance date). Accordingly, the Company recorded \$18,900 in debt issue discount and additional paid-in capital and is amortizing the debt discount over the remaining life of Note A.

In connection with Note A, the Company issued 45,454 warrants and paid \$30,000 in cash to third parties for financing charges. The warrants were valued, using a Black Scholes option pricing model, at \$29,090. Accordingly, the Company recorded deferred financing costs of \$59,090 and additional paid-in capital of \$29,090. The deferred financing cost is being amortized over the life of the note resulting in expense of \$29,545 for the quarter ended March 31, 2006, which is included in interest expense in the accompanying condensed consolidated statements of operations. The remaining balance of the deferred financing costs associated with Note A totaled \$29,545 at March 31, 2006.

On February 28, 2006, the Company entered into a Securities Purchase Agreement ("Note B") with CAMOFI Master LDC ("CAMOFI") whereby the CAMOFI agreed to purchase, up to \$5,000,000 aggregate principal amount of 12% Senior Secured Convertible Notes, due February 28, 2009 (up to \$3,500,000 to be purchased at the closing and up to an additional \$1,500,000 to be purchased pursuant to an Additional Investment Right), secured by a first priority lien on all assets of the Company and its current and future subsidiaries (including a pledge of the shares of the Company's current and future Subsidiaries). Note B is convertible into shares of the Company's common stock at a fixed price of \$0.63 at any time at CAMOFI's option. As of March 31, 2006, the Company had not received the additional \$1,500,000 under the Additional Investment Right. Additionally, \$1,500,000 of the \$3,500,000 proceeds from the closing were placed into an escrow account to be used for a potential private company business acquisition. Accordingly, such amount has been recorded as restricted cash in the accompanying condensed consolidated balance sheet. In connection with Note B, the Company issued 3,476,190 warrants at an exercise price of \$0.63 to CAMOFI. The warrants vested and became fully exercisable on their issuance date.

F-40

CAMOFI has certain registration rights for the common stock underlying both the warrants and the convertible debt. The related registration rights agreement includes financial penalties because the Company failed to meet the registration statement filing deadline, which was April 24, 2006, and expects to miss the effectiveness deadline, which is May 29, 2006 if the registration statement is not reviewed by the SEC, and June 28, 2006 if it is reviewed by the SEC. Such penalties, which are 1.5% of the outstanding principal balance of Note B for the first 30 days and an additional 1.5% for each 30 day period thereafter, can be paid in common stock at the option of the Company. As of March 31, 2006, the Company has accrued \$43,500 for such liquidated damages, which are included in accounts payable and accrued expenses in the accompanying condensed consolidated balance sheet. As a result of not meeting these deadlines, this condition may be deemed to be an "Event of Default" if not cured to the satisfaction of CAMOFI prior to the expiration of thirty days from the Event Date, as defined in the registration rights agreement, and could possibly allow CAMOFI to call the debt or seek other remedy at such time.

The Company's accounting for certain other elements of the debt financing

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

transaction is discussed below.

THE CONVERSION OPTION

SFAS No. 133 states that a contract issued by an entity that is both (a) indexed to its own stock and (b) would be classified in stockholders' equity if it were a freestanding financial instrument is not a derivative for purposes of that pronouncement. Management has concluded that the CAMOFI debt financing transaction's conversion option is "indexed to the Company's own stock" as that term is defined by EITF Issue No. 01-6, "The Meaning of Indexed to a Company's Own Stock". In addition, since the debt financing transaction has been determined to be a "conventional convertible debt instrument" as defined in EITF Issue No. 05-2, "The Meaning of "Conventional Convertible Debt Instrument" in Issue 00-19", the requirements of EITF Issue No. 00-19 do not apply. Lastly, the debt host contract is not a derivative in its entirety and (based on SFAS No. 133) the conversion option need not be bifurcated from such contract. Therefore, the conversion option is not a derivative instrument as contemplated by EITF Issue No. 00-19 or SFAS No. 133. As explained below, the Company has therefore applied intrinsic value accounting to the BCF embedded in the conversion option.

INTRINSIC VALUE ACCOUNTING FOR THE BCF

As explained in the following paragraph, the Company has accounted for the BCF in the CAMOFI debt financing transaction in accordance EITF Issue No. 98-5, EITF Issue No. 00-27, and APB No. 14.

F-41

The excess of the proceeds over the estimated fair value of the warrants (see "Accounting for the Warrants" below) of approximately \$1,310,000 was used to calculate the effective conversion price of \$0.50 per share. The difference between the effective conversion price and the fair value of the debt at the commitment date of \$0.236 per share resulted in a "theoretical" beneficial conversion feature of approximately \$2,190,000. Since the BCF cannot exceed the proceeds allocated to the debt, the Company recorded a debt issuance discount on Note B of \$1,310,000 which is being amortized to interest expense (using the effective interest method) over the three-year term of the note. The Company recorded interest expense on such BCF of approximately \$36,000 during the quarter ended March 31, 2006 in the accompanying condensed consolidated statements of operations.

ACCOUNTING FOR THE WARRANTS

Under GAAP, accounting for certain warrants can be significantly affected by the terms of a registration rights penalty. In the CAMOFI debt financing transaction, once the registration statement required by the registration rights agreement (the "Agreement") has been declared effective by the SEC, the Company's liability for the registration rights penalty will cease if, among other conditions described in the agreement, the registration statement's effectiveness is maintained for the time period defined in the Agreement and the Company otherwise complies with SEC Rule 415 (which governs continuous offerings) during the time period set forth in the Agreement. However, the Agreement limits the registration rights penalty to a specific time period only when the continuing requirements of the agreement have been met, and it does not explicitly limit the maximum dollar amount of any such penalty.

Based on the preceding paragraph, the registration rights penalty could exceed the difference between the fair value of a registered share of the Company's common stock and the estimated fair value of an unregistered share. According to

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

EITF Issue No. 00-19, the ability to register a company's securities is not within the issuer's control. Furthermore, since payment of a penalty in an indeterminate amount is considered an uneconomic settlement alternative, EITF Issue No. 00-19 requires the Company to assume that the warrant will be net-cash settled even though the warrant agreement does not include any such provision. Therefore, the warrants (which are an embedded derivative) have been separated from the convertible debt instrument, reported as a liability, and measured at estimated fair value.

The fair value of the warrants in the debt financing transaction, based on the Black-Scholes option-pricing model, was estimated at \$2,190,000 on the measurement date of February 28, 2006. Such amount was recorded as the derivative warrant liability with a corresponding entry to debt discount against the face of Note B. Such discount is being amortized to interest expense (using the effective interest method) over the three-year term of the note. The Company recorded interest expense on such discount of approximately \$61,000 during the quarter ended March 31, 2006 in the accompanying condensed consolidated statements of operations. On March 31, 2006, the Company re-evaluated the estimated fair value of the warrant liability at approximately \$2,955,000. Such increase in fair value totaling approximately \$765,000 was recorded as derivative liability expense in the accompanying condensed consolidated statements of operations.

F-42

TOTAL DEBT DISCOUNTS

The remaining BCF and debt discount balances on Note B associated with the conversion option of the debt and the warrants, respectively, totaled approximately \$3,403,000 at March 31, 2006 and is presented net of the \$3,500,000 principal balance of Note B in the accompanying condensed consolidated balance sheet.

ACCOUNTING FOR DEFERRED FINANCING COSTS

In connection with Note B, the Company paid \$392,000 in cash and issued 250,000 shares of common stock and 722,539 warrants to third parties for financing charges. The common stock was valued at approximately \$157,000 (estimated based on the trading price of the Company's stock on the date of grant). The warrants were valued at approximately \$455,000 (estimated based on the Black-Scholes option-pricing model). Accordingly, the Company recorded deferred financing costs and additional paid-in capital of approximately \$1,005,000 and \$588,000, respectively. The deferred financing cost is being amortized over the life of the note resulting in expense of approximately \$28,000 for the quarter ended March 31, 2006, which is included in interest expense in the accompanying condensed consolidated statements of operations. The remaining balance of the deferred financing costs associated with Note B totaled \$977,000 at March 31, 2006.

4. EQUITY TRANSACTIONS

During the quarter ended March 31, 2006, the Company issued 150,000 warrants valued at \$127,500 (estimated using a Black-Scholes option pricing model on the dates of grant) to a third party for consulting services. Approximately \$10,000 was recorded as consulting expense during the quarter ended March 31, 2006 and approximately \$117,500 remained unamortized as deferred consulting fees at March 31, 2006, which was recorded as an offset to stockholders deficit.

During March 2006, the Company paid \$900,000 in cash and issued 250,000 shares

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

of restricted common stock to one of its creditors to settle the outstanding principal balance and accrued interest on two defaulted notes payable, totaling approximately \$1,041,000. The Company recorded the stock at fair value (estimated based on the trading price of the Company's stock on the date of grant) totaling \$157,500. The value of the stock issued and the cash paid exceeded the value of the amount of the outstanding debt and accrued interest by approximately \$17,000. Such amount which was recorded as a loss on debt extinguishment and included in selling, general and administrative expenses in the accompanying condensed consolidated statement of operations for the quarter ended March 31, 2006.

As described in Note 1, the Company enters into equity based compensation arrangements with non-employees where the value of the services are not readily determinable and the fair value of the equity instruments is more reliably measurable. Under most of these arrangements, the performance criteria required for a measurement date is not reached until the service period has been completed. As a result, the Company is required to re-measure the consideration at each reporting date based on its then current stock value. During the quarter ended March 31, 2006, the Company recorded net increases to the fair values of such equity based compensation arrangements of approximately \$115,000.

During the quarter ended March 31, 2006, the Company recorded approximately \$137,000 of consulting expense related to the amortization of deferred consulting fees on equity based compensation arrangements with third parties.

At March 31, 2006, the Company had a total of 28,980 preferred shares Series C and 11,640 preferred shares Series D issued and outstanding. As of December 31, 2005, the Company accumulated dividends totaling \$565,875.

In March 2006, ten of the Company's preferred shareholders elected to waive their rights to receive dividends. Therefore, the Company recorded a decrease in dividends payable of \$287,875.

5. SUBSEQUENT EVENTS

On April 25, 2006, the Company issued 9,091 shares of common stock for conversion of \$6,000 of interest due on Note A.

On May 15, 2006, the Company issued 10,227 shares of common stock for conversion of \$6,750 of interest due on Note A.

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Our Articles of Incorporation, as amended and restated, provide to the fullest extent permitted by the corporate law of the State of Nevada, that our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision on our Articles of Incorporation, as amended and restated, is to eliminate our rights and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

provisions in our Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Our By Laws also provide that the Board of Directors may also authorize the Company to indemnify our employees or agents, and to advance the reasonable expenses of such persons, to the same extent, following the same determinations and upon the same conditions as are required for the indemnification of and advancement of expenses to our directors and officers. As of the date of this Registration Statement, the Board of Directors has not extended indemnification rights to persons other than directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

In August 2005, holders of the Company's Preferred D converted 12,000 shares into 600,000 shares of common stock.

COMMON STOCK

On October 27, 2005, the Company issued 300,000 shares of restricted common stock to a consultant for corporate finance and investor relations services under a one year consulting agreement. The fair value of the common stock (based on the trading price of the Company's stock on the date of issuance) was \$132,000.

On October 26, 2005, the Company issued 100,000 shares of restricted common stock to a consultant for corporate finance and investor relations services under a one year consulting agreement. The fair value of the common stock (based on the trading price of the Company's stock on the date of issuance) was \$42,000.

On October 11, 2005, the Company issued 100,000 shares of restricted common stock to a consultant for corporate finance and investor relations services under a one year consulting agreement. The fair value of the common stock (based on the trading price of the Company's stock on the date of issuance) was \$41,000.

On July 14, 2005, the Company issued 300,000 shares of restricted common stock to a consultant for corporate finance and investor relations services under a one year consulting agreement. The fair value of the common stock (based on the trading price of the Company's stock on the date of issuance) was \$75,000.

On April 25, 2005 the Company issued 300,000 shares of restricted common stock to a holder of the Company's Cumulative, Convertible, Series D preferred stock ("Series D") under a verbal agreement as the sole consideration and remedy for failure to register the common shares underlying the Series D. The fair value of the 300,000 common shares (based on the trading price of the Company's stock on such date of issuance) was \$90,000.

On April 25, 2005, the Company issued 150,000 shares of restricted common stock to a consultant for corporate finance and investor relations services under a six month verbal agreement. The fair value of the common stock (based on the trading price of the Company's stock on the date of issuance) was \$45,000.

On April 21, 2005, the Company entered into a six month corporate finance and investor relations consulting agreement. As a commencement bonus for the services to be provided by the consultant, the Company issued 100,000 shares of restricted common stock in accordance with the contract. The fair value of the 100,000 share commencement bonus (based on the trading price of the Company's stock on the date of issuance) was \$20,000.

On April 21, 2005, the Company issued 100,000 shares of restricted common stock to one of its former customers as a partial legal settlement for a pending claim related to the sale of one its machines. The fair value of such common stock was \$20,000 (based on the trading price of the Company's stock on the date of issuance). On October 31, 2005 the dispute was fully settled. As part of this settlement, it was stipulated that the customer shall not exercise the option to receive the Company's shares of stock, and agreed to assign the shares to our legal counselor, without representation or warranty.

On April 12, 2005, the Company and one of its noteholders (the "Noteholder") executed a mutual agreement (the "Extension Agreement") whereby the Noteholder agreed not to foreclose on the security interest of two notes payable, which were in default, before the earlier of a funding (which has not occurred as of the filing of this Form 10-QSB) or August 13, 2005. As consideration to

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

effectively extend the due date of the two notes until August 13, 2005, the Company issued the Noteholder 250,000 shares of the Company's restricted common stock. The estimated fair value of the 250,000 shares (based on the trading price of the Company's stock on the date of issuance) was \$47,500.

On February 16, 2006, we issued a convertible note to Motivated Minds, LLC in the principal amount of \$300,000. In connection with the Note we issued a warrant to Motivated Minds to purchase up to 454,545 shares of Common Stock at a price of \$0.66 per share. Such Warrant will be exercisable immediately upon issuance and will expire on the fifth anniversary of the date of issuance. In addition, in connection with the Note, we issued 30,000 restricted shares of our common stock to Motivated Minds and an aggregate of 499,999 warrants to the Placement Agents, Source Capital Group, Inc. and Ascendant Securities, LLC.

II-2

On February 28, 2006, to obtain funding for our operations, we entered into a Securities Purchase Agreement with CAMOFI Master LDC ("CAMOFI") for the sale of (i) \$3,500,000 in 12% Senior Secured Convertible Notes; and (ii) stock purchase warrants to purchase 3,476,190 shares of our common stock. In connection with the CAMOFI Note, we have issued 250,000 restricted shares of our common stock and 722,539 warrants to the Placement Agent, Ascendant Securities, LLC..

* Unless indicated otherwise, all of the above offerings and sales were deemed to be exempt under rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933, as amended. No advertising or general solicitation was employed in offering the securities. The offerings and sales were made to a limited number of persons, all of whom were accredited investors, business associates of Global Access or executive officers of Global Access, and transfer was restricted by Global Access in accordance with the requirements of the Securities Act of 1933. In addition to representations by the above-referenced persons, we have made independent determinations that all of the above-referenced persons were accredited or sophisticated investors, and that they were capable of analyzing the merits and risks of their investment, and that they understood the speculative nature of their investment. Furthermore, all of the above-referenced persons were provided with access to our Securities and Exchange Commission filings.

The undersigned registrant hereby undertakes to:

(1) File, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement, and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For purposes of determining any liability under the Securities Act, treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time it was declared effective.

(5) For determining any liability under the Securities Act, treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Edgar Filing: NEW CENTURY COMPANIES INC - Form SB-2

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
