Certain of the statements included below, including those regarding future financial performance or results that are not historical facts, contain “forward-looking” information as that term is defined in the Securities Exchange Act of 1934, as amended. The words “expect,” “believe,” “anticipate,” “project,” “estimate,” and similar expressions are intended to identify forward-looking statements. The Fund cautions readers that any such statements are not guarantees of future performance or events and that such statements involve risks, uncertainties and assumptions, including but not limited to industry conditions, general economic conditions, interest rates, competition, ability of the Fund to successfully manage its growth, and other factors discussed or included by reference in this Annual Report on Form 10-K. Should one or more of these risks or uncertainties materialize or should the underlying assumptions prove incorrect, those actual results and outcomes may differ materially from those indicated in the forward-looking statements.

Item 1. Business.

GENERAL

Renaissance Capital Growth & Income Fund III, Inc., (the “Fund” or the “Registrant”) is a non-diversified, closed-end fund that has elected to be treated as a business development company (a “BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund, a Texas corporation, was organized and commenced operations in 1994.

Our Internet website address is www.rencapital.com/index2.html. You can review the filings we have made with the U.S. Securities and Exchange Commission (“SEC”), free of charge, by linking to the Electronic Data Gathering, Analysis, and Retrieval System of the SEC (“EDGAR”) at www.sec.gov/index.htm. From EDGAR, you should be able to access our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934.

The investment objective of the Fund is to provide its shareholders with current income and long-term capital appreciation by investing primarily in privately placed convertible securities and equity securities of emerging growth companies.

The Fund seeks to provide returns to shareholders through cash dividends of net investment income and through distributions of realized gains. Pursuant to its annual distribution policy, the Fund currently pays to its shareholders a minimum annual distribution of \$0.40 per share, payable quarterly. Through December 31, 2003, the Fund had declared a total of \$8.91 per share in cash to its shareholders since inception in 1994.

RENN Capital Group, Inc. (“RENN Group” or the “Investment Adviser”), a Texas corporation, serves as the investment adviser to the Fund. In this capacity, RENN Group is primarily responsible for the selection, evaluation, structure, valuation, and administration of the Fund’s investment portfolio. RENN Group is a registered investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”).

Back to Table of Contents

Generally, investments are, and will continue to be, in companies that have their common stock registered for public trading under the Securities Exchange Act of 1934, as amended (the “1934 Act”), or companies that in the opinion of the Investment Adviser have the ability to effect a public offering within three to five years. The Fund generally invests in privately placed preferred stock or debentures of a company the Fund holds in its portfolio (“Portfolio Company”), which securities typically are convertible into or exchangeable for common stock of the Portfolio Company. While such common stock of the Portfolio Company may be publicly traded, the common stock acquired by the Fund is often unregistered. Therefore, such securities are restricted from distribution or sale to the public except in compliance with certain holding periods and exemptions under the Securities Act of 1933, as amended (the “1933 Act”), or after registration pursuant to the 1933 Act. The Fund also purchases shares of small and micro cap issuers in the secondary markets. These shares are freely tradable and have no restrictions on resale.

From inception through December 31, 2003, the Fund had made investments in fifty-five (55) different Portfolio Companies having an aggregate cost of \$77,870,117. The Fund had active investments in thirty (30) Portfolio Companies at December 31, 2003. The Fund does not focus on particular industry segments. Instead, the Fund makes investment decisions using a bottom-up analysis of the potential Portfolio Company, with no predetermined industry bias.

Under the provisions of the 1940 Act, a Business Development Company generally is required to invest at least 70% or more of its assets in “Eligible Portfolio Investments,” defined generally as direct placements to “Eligible Portfolio Companies” and temporary investments in “cash items” pending other investments. The Fund determines whether any prospective investment is in an “Eligible Portfolio Company” at the time the investment is made, and the calculation of the requisite percentage is also made at that time and is based on the most recent valuation of the Fund’s assets. Under and pursuant to the provisions of the 1940 Act, a Business Development Company may invest up to 30% of its funds in investments that do not qualify as “Eligible Portfolio Investments.” In the event the Fund has less than 70% of its assets in Eligible Portfolio Investments, then the Fund will be prohibited from making non-eligible investments until such time as the percentage of eligible investments again are at least equal to the 70% threshold.

Pending investment in securities of eligible Portfolio Companies or other Portfolio Companies, the Registrant’s funds are invested in short-term investments consisting primarily of cash or U.S. Government and agency obligations.

At December 31, 2003, the Fund's investment assets were classified by amount as follows:

Classification	Value	Percentage Of Assets
Eligible Portfolio Investments (including cash and cash equivalents)	\$ 86,987,811	89.0%
Other Portfolio Investments	10,723,820	11.0%
	\$ 97,711,631	100.00%

INVESTMENT OBJECTIVE

The investment objective of the Fund is to provide its shareholders with current income and long-term capital appreciation by investing primarily in privately placed convertible securities and equity securities of emerging growth public companies. The Fund seeks to provide returns to shareholders through cash dividends of net investment income and through distributions of realized gains.

The Fund has elected the special income tax treatment available to a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to shareholders. If a RIC meets certain diversification and distribution requirements under the Internal Revenue Code, the RIC qualifies for pass-through tax treatment. The Fund would be unable to qualify for pass-through tax treatment if it were unable to comply with these requirements. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in both the Fund's net assets and the amount of income available for distribution to shareholders.

GENERAL INVESTMENT POLICIES

The Fund invests in the securities of emerging growth companies that are generally not available to the public and which typically require substantial financial commitment. An emerging growth company is generally considered to have the following attributes: (1) either a publicly held company with a relatively small market capitalization or a privately held company; (2) an established operating history but of a limited period so as to not have fully developed its market potential for the products or services offered; and (3) a provider of a new or unique product or service that allows the company an opportunity for exceptional growth. Emerging growth companies typically require non-conventional sources of financing because the extent and nature of the market for their products or services is not fully known. Consequently, there is uncertainty as to the rate and extent of growth and also uncertainty as to the capital and human resources required to achieve the goals sought.

With respect to investments in emerging growth companies, the Fund emphasizes investing in convertible debentures or convertible preferred stock of publicly held companies that

Back to Table of Contents

the Fund anticipates will be converted into common stock and registered for public sale within three to five years after the private placement. In addition, the Fund will invest in privately placed common stock of publicly traded issuers that are initially restricted from trading. To a lesser extent, the Fund may participate in bridge financings in the form of loans or other preferred securities which are convertible into common stock of the issuer or issued together with equity participation, or both, for companies which the Fund anticipates will complete a stock offering or other financing within one or more years from the date of the investment. The Fund may also make bridge loans, either secured or unsecured, intended to carry the borrower to a private placement or an initial public offering, or to a merger, acquisition, or other strategic transaction.

Generally, the securities of Portfolio Companies have an initial fixed term of five to seven years, with no amortization of the principal amount for the initial two to three years. Further, privately-placed investments in Portfolio Companies will be individually negotiated, non-registered for public trading, and will be subject to legal and contractual investment restrictions. Accordingly, the Fund's securities of Portfolio Companies are generally considered non-liquid.

The Fund has no fixed policy concerning the types of businesses or industry groups in which it may invest or as to the amount of funds that it will invest in any one issuer. However, the Fund will generally seek to limit its investment in securities of any single Portfolio Company to approximately 15% of the Portfolio Company's net assets at the time of the investment.

In the event the Fund elects to participate as a member of the Portfolio Company's Board of Directors, either through advisory or full membership, the Fund's nominee to the board will generally be selected from among the officers of RENN Group. When, at the discretion of RENN Group, a suitable nominee is not available from among its officers, RENN Group will select, as alternate nominees, outside consultants who have prior experience as an independent outside director of a public company. At December 31, 2003, officers of the Fund served as directors of eight of the Fund's portfolio companies. The Fund makes available significant managerial assistance to its portfolio companies through participating in discussions with management and review of various management reports.

Although the Fund has no intent to change its current investment objectives, they may be changed without a vote of the holders of a majority of the Fund's common stock.

It is the policy of the Fund not to structure off-balance sheet arrangements.

REGULATION UNDER THE INVESTMENT COMPANY ACT OF 1940

The 1940 Act was enacted to regulate investment companies. In 1980, the 1940 Act was amended by the adoption of the Small Business Investment Incentive Act. The purpose of the amendment was to remove regulatory burdens on professionally managed investment companies engaged in providing capital to smaller companies. The Small Business Investment Incentive Act established a new type of investment company specifically identified as a Business Development Company as a way to encourage financial institutions and other major investors to provide a new source of capital for small developing businesses.

Back to Table of Contents

BUSINESS DEVELOPMENT COMPANY

A business development company (“BDC”) is a closed-end management investment company that generally makes 70% or more of its investments in “Eligible Portfolio Companies” and “cash items” pending other investment. Under the 1940 Act, only certain companies may qualify as “Eligible Portfolio Companies.” To be an “Eligible Portfolio Company,” the company must satisfy the following:

- it must be organized under the laws of, and has its principal place of business in, any state or states of the United States of America;
- it is neither an investment company as defined in Section 3 of the 1940 Act (other than a small business investment company which is licensed by the Small Business Administration to operate under the Small Business Investment Act of 1958 and which is a wholly-owned subsidiary of the business development company) nor a company which would be an investment company under the 1940 Act except for the exclusion from the definition of investment company in Section 3(c) of the 1940 Act; and

· it satisfies one of the following:

Ø it does not have any class of securities with respect to which a member of a national securities exchange, broker, or dealer may extend or maintain credit to or for a customer pursuant to rules or regulations adopted by the Board of Governors of the Federal Reserve System under Section 7 of the Securities Exchange Act of 1934;

Ø it is controlled by a business development company, either alone or as part of a group acting together, and such business development company in fact exercises a controlling influence over the management or policies of such Eligible Portfolio Company and, as a result of such control, has an affiliated person who is a director of such Eligible Portfolio Company;

Ø it has total assets of not more than \$4,000,000, and capital and surplus (shareholders’ equity less retained earnings) of not less than \$2,000,000, except that the Securities and Exchange Commission (the “SEC”) may adjust such amounts by rule, regulation, or order to reflect changes in one or more generally accepted indices or other indicators for small businesses; or

Ø it meets such other criteria as the SEC may, by rule, establish as consistent with the public interest, the protection of investors, and the purposes fairly intended by the policy and provisions of this title.

Back to Table of Contents

Therefore, the Investment Adviser believes that “Eligible Portfolio Companies” are, generally, those companies that, while being publicly held, may not have or do not have a broad based market for their securities, or the securities that they wish to offer are restricted from public trading until registered. Further, while the 1940 Act allows a BDC to “control” a Portfolio Company, it is not the general policy of the Fund to acquire a controlling position in its portfolio companies. The Fund only provides managerial assistance, and in certain circumstances seeks to limit its “control” position by contracting for the right to have a designee of the Fund be elected to the board of directors of the Portfolio Company, or be selected an advisory director. While these are the Fund’s general policies, the application of these policies, of necessity, varies with each investment situation.

1940 ACT REQUIREMENTS

The BDC election exempts the Fund from some provisions of the 1940 Act. However, except for those specific provisions, the Fund will continue to be subject to all provisions of the 1940 Act not exempted, including the following:

- restrictions on the Fund from changing the nature of business so as to cease to be, or to withdraw its election as, a BDC without the majority vote of the shares outstanding;
- restrictions against certain transactions between the Fund and affiliated persons;
- restrictions on issuance of senior securities, such not being prohibited by the 1940 Act but being restricted as a percentage of capital;
- compliance with accounting rules and conditions as established by the SEC, including annual audits by independent accountants;
- compliance with fiduciary obligations imposed under the 1940 Act; and
- requirement that the shareholders ratify the selection of the Fund’s independent public accountants and the approval of the Fund’s Advisory Agreement with the Investment Adviser or similar contracts and amendments thereto.

CO-INVESTMENTS WITH ADVISOR AFFILIATED FUNDS

In accordance with the conditions of an exemptive order of the SEC permitting co-investments (the “Co-investment Order”), many of the Fund’s acquisitions and dispositions of investments are made in participation with two funds that are advised or managed by RENN Group (“Advisor Affiliated Funds”).

The Co-investment Order provides that the Investment Adviser will review private placement investment opportunities on behalf of the Fund, including investments being considered on behalf of its Advisor Affiliated Funds. If the Investment Adviser determines that any such investment is an eligible co-investment opportunity, the Fund must be offered the opportunity to invest in such investment in an amount recommended by the Adviser. Securities

Back to Table of Contents

purchased by the Fund in a co-investment transaction with Advisor Affiliated Funds will consist of the same class of securities and will have the same rights, price, terms and conditions. Any such co-investment transaction must be approved by the Fund's Board of Directors, including a majority of its independent directors. The Fund will not make any direct investment in the securities of any issuers in which the Advisor Affiliated Funds, but not the Fund, has previously made a private placement, except for follow-on investments that meet the same requirements. To the extent that the amount of a follow-on investment opportunity is not based on the amount of the Fund's and the Advisor Affiliated Funds' initial investments, the relative amount of investment by the Advisor Affiliated Funds and the Fund will be based on the ratio of the Fund's remaining funds available for investment to the aggregate of the Fund's and the Advisor Affiliated Funds' remaining funds available for investment. The Co-investment Order also provides that the Fund will have the opportunity to dispose of any securities in which the Fund and the Advisor Affiliated Funds have invested at the same price, terms and conditions. The Fund will participate in any such disposition to the extent that a majority of its independent directors believe it is in its best interest. The Fund will bear no more than its own transaction costs.

INVESTMENT ADVISERS ACT OF 1940 AND THE ADVISORY AGREEMENT

RENN Group is the investment adviser to the Fund pursuant to the Advisory Agreement, as amended (the "Advisory Agreement"). RENN Group is registered as an investment adviser under the Advisers Act and is subject to its filing and other requirements. The Advisers Act also provides restrictions on the activities of registered advisers in order to protect clients from manipulative or deceptive practices.

The Advisory Agreement is further subject to the 1940 Act, which requires that the Advisory Agreement, in addition to having to be initially ratified by the holders of a majority of the outstanding shares of the Fund, must precisely describe all compensation to be paid to RENN Group, must be approved annually by a majority vote of the Board of Directors of the Fund, may be terminated without penalty on not more than 60 days notice by a vote of the holders of a majority of the outstanding shares of the Fund, and must automatically terminate in the event of assignment. The Board of Directors has determined that the Advisory Agreement shall be construed in compliance with the applicable provisions of the Advisers Act and the 1940 Act.

VALUATION OF INVESTMENTS

On a quarterly basis, RENN Group prepares a valuation of the assets of the Fund, subject to the approval of the Board of Directors of the Fund. The valuation principles are described below.

vThe common stock of companies listed on an exchange, Nasdaq or in the over-the-counter market is valued at the closing price on the date of valuation.

vThe unlisted preferred stock of companies with common stock listed on an exchange, Nasdaq or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation. If the preferred stock is redeemable, the preferred stock is valued at the greater of cost or market.

vDebt securities are valued at the greater of (i) cost or (ii) the market value of the underlying common stock into which the debt instrument is convertible. In cases where the debt instrument is in default or the company is in bankruptcy, the value will be (i) the value of the underlying common stock, (ii) the value of the collateral, if secured, or (iii) zero, if the common stock has no value and there is no collateral.

vThe unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, Nasdaq or in the over-the-counter market are valued at the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option. An out-of-the money warrant or option has no intrinsic value; thus, we assign no value to it.

vIf there is no independent and objective pricing authority (i.e. a public market) for investments in privately held entities, the latest sale of equity securities to independent third parties by the entity governs the value of that enterprise. This valuation method causes the Fund's initial investment in the private entity to be valued at cost. Thereafter, new issuances or offers of equity or equity-linked securities by the portfolio company to new investors will be used to determine enterprise value as they will provide the most objective and independent basis for determining the worth of the issuer. Where a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

COMPETITION FOR INVESTMENTS

The Fund has significant competition for investment proposals. Competitive sources for growth capital for the industry include insurance companies, banks, equipment leasing firms, investment bankers, venture capital and private equity funds, money managers, hedge funds, and private investors. Many of these sources have substantially greater financial resources than are available to the Fund. Therefore, the Fund will have to compete for investment opportunities based on its ability to respond to the needs of the prospective portfolio company and its willingness to provide management assistance. In some instances, the Fund's requirements that the Fund provide management assistance will cause the Fund to be non-competitive.

PERSONNEL

The Fund has no direct employees, but instead has contracted RENN Group pursuant to the Advisory Agreement to provide all management and operating activities. RENN Group currently has nine employees who are engaged in performing the duties and functions required by the Fund. At the present time, a substantial portion of RENN Group's staff time is devoted to activities of the Fund. However, because of the diversity of skills required, the Fund cannot afford to employ all these persons solely for its own needs, and therefore, these employees are not engaged solely in activities of the Fund.

No accurate data or estimate is available as to the percentage of time, individually or as a group, that will be devoted to the affairs of the Fund. The officers and employees have and will devote such time as is required, in their sole discretion, for the conduct of business, including the provision of management services to Portfolio Companies.

RENN Group currently serves as the Investment Manager to Renaissance US Growth Investment Trust PLC ("RUSGIT"). RUSGIT is a public limited company registered in the United Kingdom and listed on the London Stock Exchange. RUSGIT invests in privately placed convertible securities issued by companies similar to the investments of the Fund. RUSGIT invest pari-passu with the Fund on all relevant terms, except that amounts invested may differ.

RENN Group also serves as the Investment Adviser to BFS US Special Opportunities Trust PLC ("BFSUS") and is specifically responsible for managing the Growth Portfolio for BFSUS ("BFS Growth"). BFSUS is a public limited company registered in the United Kingdom and listed on the London Stock Exchange. BFS Growth invests in publicly traded equities, fixed-income and convertible securities of publicly traded issuers, and also invests in privately placed convertible instruments issued by companies similar to the investments of the Fund. For privately placed investments, BFS Growth invests on a pari-passu basis with the Fund as to all relevant terms of the investment, except that amounts invested may differ.

CODE OF ETHICS

The Fund and RENN Group have adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act applicable to all of their respective officers and employees. The Code of Ethics is on public file with, and is available from, the Securities and Exchange Commission's Public

Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the Commission at (202)-942-8090, and this Code of Ethics is available on the EDGAR database as an exhibit to the Fund's Form 10-Q for the quarter ended June 30, 2002, which is found on the Commission internet site at <http://www.sec.gov>. A copy of this Code of Ethics may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the Commission's Public Reference Section, Washington, D.C. 20549-0102.

Item 1A. Risk Factors.

You should carefully consider the risks described below and all other information contained in this annual report on Form 10-K, including our consolidated financial statements and the related notes thereto before making a decision to purchase our common stock. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us, or not presently deemed material by us, may also impair our operations and performance. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected. If that happens, the trading price of our common stock could decline, and you may lose all or part of your investment.

Failure to Meet Listing Standards. It is uncertain whether our common stock will meet the requirements for listing on Nasdaq, or any other stock exchange or quotation service.

In July 2004, due to our inability to complete our audit and file our Form 10-K for the year ended December 31, 2003 in a timely manner, the Fund's common stock was delisted from Nasdaq. As we become current with the delinquent filings, we will attempt to relist with Nasdaq or a national stock exchange, but there is no certainty that we will be able to do so.

Our Growth is Dependent on Investing in Quality Deals. Sustaining growth depends on our ability to identify, evaluate, finance, and invest in companies that meet our investment criteria. Accomplishing such results on a cost-effective basis is a function of our marketing capabilities and skillful management of the investment process. Failure to achieve future growth could have a material adverse effect on our business, financial condition, and results of operations.

Failure to Invest Capital Effectively May Decrease Our Stock Price. If we fail to invest our capital effectively, our return on equity may be decreased, which could reduce the price of the shares of our common stock.

Highly Competitive Market for Investments. We compete with a number of private equity funds, other investment entities and individuals for investment opportunities. Some of these competitors are substantially larger and have greater financial resources, and some are subject to different and frequently less stringent regulation. As a result of this competition, we may not be able to take advantage of attractive investment opportunities from time to time and there can be no assurance that we will be able to identify and make investments that satisfy our objectives.

Lack of Publicly Available Information on Certain Portfolio Companies. Some of the

Back to Table of Contents

securities in our portfolio are issued by privately held companies. There is generally little or no publicly available information about such companies, and we must rely on the diligence of our management to obtain the information necessary for our decision to invest. There can be no assurance that such diligence efforts will uncover all material information necessary to make fully informed investment decisions.

Dependence on Key Management. Selecting, structuring and closing our investments depends upon the diligence and skill of our management, which is responsible for identifying, evaluating, negotiating, monitoring and disposing of our investments. Our management's capabilities will significantly impact our results of operations. If we lose any member of our management team and he/she cannot be promptly replaced with an equally capable team member, our results of operations could be significantly impacted.

Failure to Deploy Capital may Lower Returns. Our failure to successfully deploy sufficient capital may reduce our return on equity.

Results May Fluctuate. Our operating results may fluctuate materially due to a number of factors including, among others, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our portfolio companies' markets, the ability to find and close suitable investments, and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

Uncertain Value of Certain Restricted Securities. Our net asset value is based on the values assigned to the various investments in our portfolio, determined in good faith by our board of directors. Because of the inherent uncertainty of the valuation of portfolio securities which do not have readily ascertainable market values, our fair value determinations may differ materially from the values which would be applicable to unrestricted securities having a public market.

Illiquid Securities May Adversely Affect Our Business. Our portfolio contains securities which are subject to restrictions on sale because they were acquired from issuers in "private placement" transactions or because we are deemed to be an affiliate of the issuer. Unless an exemption from the registration requirements of the Securities Act of 1933 is available, we will not be able to sell these securities publicly without the expense and time required to register the securities under applicable federal and state securities laws. In addition, contractual or practical limitations may restrict our ability to liquidate our securities in portfolio companies, because we may own a relatively large percentage of the issuer's outstanding securities. Sales may also be limited by unfavorable market conditions. The illiquidity of our investments may preclude or delay the disposition of such securities, which may make it difficult for us to obtain cash equal to the value at which we record our investments.

Regulated Industry. Publicly traded investment funds are highly regulated. Changes in securities laws or regulations governing our operations or our failure to comply with those laws or regulations may adversely affect our business.

Failure to Qualify for Favorable Tax Treatment. We may not qualify for conduit tax

Back to Table of Contents

treatment as a Regulated Investment Company ("RIC") if we are unable to comply with the requirements of Subchapter M of the Internal Revenue Code. If we fail to satisfy such requirements and cease to qualify for conduit tax treatment, we will be subject to federal taxes on our net investment income. The loss of this pass-through tax treatment could have a material adverse effect on the total return, if any, obtainable from an investment in our common stock.

Highly Leveraged Portfolio Companies. Some of our portfolio companies could incur substantial indebtedness in relation to their overall capital base. Such indebtedness often has a term that will require the balance of the loan to be refinanced when it matures. If portfolio companies cannot generate adequate cash flow to meet the principal and interest payments on their indebtedness, the value of our investments could be reduced or eliminated through foreclosure on the portfolio company's assets or by the portfolio company's reorganization or bankruptcy.

Our Common Stock Often Trades at a Discount. Our common stock often trades at a discount from net asset value.

Our common stock is traded over-the-counter in the pink sheets. Stockholders desiring liquidity may sell their shares at current market value, which has often been below net asset value. Shares of closed-end investment companies frequently trade at discounts from net asset value, which is a risk separate and distinct from the risk that a fund's performance will cause its net asset value to decrease.

Nature of Investment in Our Common Stock. Our stock is intended for investors seeking long-term capital appreciation. Our investments in portfolio securities generally require some time to reach maturity, and such investments generally are illiquid. An investment in our shares should not be considered a complete investment program. Each prospective purchaser should take into account his or her investment objectives as well as his or her other investments when considering the purchase of our shares.

Our Stock Price May Fluctuate Significantly. The market price of our common stock may fluctuate significantly.

Item 2. Properties

The Fund's business activities are conducted from the offices of RENN Group, which offices are currently leased until July 31, 2004 in a multi-story general office building in Dallas, Texas. The use of such office facilities, including office furniture, phone services, computer equipment, and files are provided by RENN Group at its expense pursuant to the Advisory Agreement.

Item 3. Legal Proceedings

On December 1, 2005, the Investment Adviser consented, without admitting or denying the findings, to the entry of an order by the SEC instituting public administrative and cease and desist proceedings and imposing remedial sanctions (the “Order”). A Form 8-K detailing the settlement was filed on December 6, 2005 by the Fund. This can be viewed by going to the SEC website.

In summary, the dispute concerned the definition of the wording of the incentive fee calculation in the Advisers Act. Under Section 205(b)(3) of the Advisers Act, a performance fee may be earned. The Investment Adviser, for many years, believed the word “capital” referred to the Fund’s shareholders’ equity as a whole. In 2004, the SEC informed the Investment Adviser that capital depreciation in the formula referred only to unrealized capital losses on marketable securities in the portfolio and therefore the calculations in previous years were incorrect. In the Order, the SEC states that in calculating a performance-based fee under Section 205(b)(3), an investment adviser must account for its client’s assets on a security-by-security basis and may not take into consideration unrealized capital appreciation on any individual security or the portfolio as a whole. Section 205(b)(3) does not require that fees earned in one period be subject to repayment based upon performance in a subsequent period. If the performance fee is calculated on a cumulative basis and is based on the period since inception, then unrealized capital depreciation may be calculated for each calculation period by subtracting each security’s valuation at the end of the applicable calculation period from the original cost, as adjusted, to the BDC of purchasing that security. In practice, the Investment Adviser also took into account unrealized capital appreciation, which offset unrealized capital depreciation, to calculate its performance-based fee. Thus, beginning in fiscal year 1996, the first period in which the Fund realized capital gains, the Investment Adviser’s formula for calculating that fee was not consistent with the formula permitted under Section 205(b)(3).

As part of the settlement of the SEC proceedings, the Investment Adviser agreed to pay \$2,851,362 plus prejudgment interest of \$924,509 and a fine of \$100,000 to the Fund. The Investment Adviser satisfied this obligation in full as of December 8, 2005. The financial statements included as part of this Annual Report reflect all financial aspects of the settlement, except for the fine which was paid and recorded in the Fund’s financial statements for 2005.

No action was brought against the Fund.

TRADING

As of December 31, 2003, the Fund's common stock was traded on the Nasdaq National Market System ("NMS") under the trading symbol RENN. As a result of the Fund's inability to complete the audit of its financial statements and file its Form 10-K for the fiscal year ended December 31, 2003 in a timely manner (see "Item 3. Legal Proceedings"), in July 2004 the Fund's common stock was delisted from NMS and is currently trading over-the-counter in the pink sheets.

The following table sets forth, for the periods indicated, the high and low closing sale prices for the common stock as reported on Bloomberg.

NUMBER OF HOLDERS

As of December 31, 2003, there were approximately 847 record holders of the Fund's common stock. This total does not include shareholders with shares held under beneficial ownership in nominee name or within clearinghouse positions of brokerage firms or banks.

DIVIDENDS AND DIVIDEND REINVESTMENT PLAN

DIVIDENDS. The Fund seeks to provide returns to shareholders through cash dividends of net investment income and through distributions of realized gains. On November 5, 2002, the Fund announced a minimum annual distribution policy of \$0.40 per share, with an initial quarterly cash distribution of \$0.10 per share that was paid December 12, 2002. The intent of the policy is for the Fund to make distributions of \$0.10 per share in each of the first three quarters of the year with a final distribution in the fourth quarter equal to \$0.10 per share or a greater amount sufficient to satisfy the distribution requirements of the Subchapter M of the Internal Revenue Code. The policy is subject to quarterly review and approval by the Fund's Board of Directors. According to the policy, the distributions could be paid from interest or dividend income, capital gains, or a return of capital in the event there is insufficient income or capital

-27-

gains to satisfy the policy.

At December 31, 2003, the Fund had declared a total of \$8.91 per share in cash to its shareholders since inception in 1994. There is no assurance that the Fund will continue to make the distributions or cash payments described herein. Because the Fund may not earn the same return of capital in the future, the Fund may not continue to make distributions and cash payments as described herein.

DIVIDEND REINVESTMENT PLAN. Pursuant to the Dividend Reinvestment Plan (the “Reinvestment Plan”) any shareholders whose shares are registered in their own names will be deemed to have elected to have all dividends and distributions automatically reinvested in Fund shares pursuant to the Reinvestment Plan (each, a “Participant”) unless and except for each such shareholder who individually elects to receive such on a current basis in lieu of reinvestment. In the case of shareholders such as banks, brokers or nominees that hold shares for others who are beneficial owners (“Nominee Shareholders”), the Plan Agent, American Stock Transfer & Trust Co. (the “Plan Agent”) will administer the Reinvestment Plan on the basis of the number of shares certified by such Nominee Shareholders as registered for shareholders that have not elected to receive dividends and distributions in cash.

Investors that own shares registered in the name of a Nominee Shareholder should consult with such nominee as to participation or withdrawal from such plan.

When the Fund declares a dividend or distribution payable in cash, the non-participants will receive cash, and the Participants will receive Common Stock to be issued by the Fund or purchased in the open market. If the market value per share on the valuation date equals or exceeds the net asset value per share on that date, or if such open market purchases cause the price to increase to the net asset value, the Fund will issue new shares at the net asset value. If the net asset value exceeds the market price, the Plan Agent will, as agent for the Participants, buy Fund shares in the open market or in private transactions as soon as practicable after such date. If before the Plan Agent has completed the purchases the market price exceeds the net asset value, the Plan Agent may suspend purchasing in the market and the Fund will issue new shares at net asset value to fulfill the purchase requirements. The Fund has no current intention to register more shares in connection with the Reinvestment Plan; instead, the Fund will buy the shares in the open market.

Participants also have the option, commencing on January 1 of each year, of making additional annual cash payments to the Reinvestment Plan in any amount of \$1,000 or more up to \$10,000. Larger amounts may be accepted with the prior approval of the Fund. The Plan Agent, American Stock Transfer & Trust Co., will typically use all funds received from Participants to purchase Fund shares in the open market, so long as Fund shares are trading at a discount. Any voluntary funds must be received no later than 10 days prior to such date and any prior deposit may be withdrawn if written request for withdrawal is received by the Fund no later than 10 days prior to such date.

The Plan Agent will maintain all shareholder accounts in the Reinvestment Plan and furnish written confirmation of all transactions in an account. Shares in the Reinvestment Plan will be held in the name of the participant and each shareholder’s proxy will include any Reinvestment Plan holdings.

-28-

Back to Table of Contents

There is no charge to the participants for reinvesting dividends and distributions or for voluntary cash payments. There are no brokerage charges with respect to shares issued directly by the Fund for participants in the Reinvestment Plan. However, each participant pays a pro rata share of brokerage charges for shares purchased in the market.

The Fund reserves the right to terminate the Reinvestment Plan. Further, the Reinvestment Plan may be amended by the Fund upon 30 days notice to participants. A participant may withdraw from the Reinvestment Plan upon written request to the Plan Agent, in which event, no further Fund share purchases will be made for such withdrawing participant and all shares and funds held for such participant will be forwarded to the participant or to their order upon their request. All communications regarding the Reinvestment Plan should be directed to the Plan Agent.

Item 6. Selected Financial Data.

The following selected financial data for the period January 1, 2003 through December 31, 2003 is derived from the Fund's audited Financial Statements and should be read in conjunction with the Fund's Financial Statements and Notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of this Annual Report on Form 10-K. The selected financial data for the periods ended December 31, 1999 through December 31, 2002 is unaudited.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**GENERAL**

The primary purpose of the Fund is to provide capital to emerging growth public companies whose ability to service the securities is sufficient to provide income to the Fund and whose growth potential is sufficient to provide opportunity for long-term capital appreciation.

SOURCES OF OPERATING INCOME

The operating income for the Fund is investment income, either in the form of interest on debentures, dividends on stock, or interest on securities held pending investment in portfolio companies. The Fund also generates income through capital gains. Further, the Fund in some cases receives due diligence, commitment, and closing fees, as well as other similar types of revenue. Director's compensation received by RENN Group (or its personnel) for services to a Portfolio Company on behalf of the Fund is paid to the Fund.

LIQUIDITY AND CAPITAL RESOURCES

During the year ended December 31, 2003, the Fund invested \$3,993,971 in ten (10) new portfolio investments and invested an additional \$5,068,828 in follow-on investments to ten (10) portfolio companies. Distributions made to investors in 2003 amounted to \$5,439,647 or \$1.25 per share, which was long-term capital gain. During 2003, gains were realized from the sale of securities of Bentley Pharmaceuticals, Inc., Creative Host Services, Inc., Dwyer Group, Inc., Flamel Technologies, Inc., I-Flow Corp., INET Technologies, Inc., JAKKS Pacific, Inc., and Poore Brothers, Inc., and from bankruptcy distributions from Packaging Research Corp., and

-30-

Back to Table of Contents

Voice It Worldwide, Inc. offset by realized losses taken on investments in ActiveLink Communications, Inc., Airnet Systems, Inc., Canterbury Consulting Group, Inc., Daisytek Intl. Corp., Dexterity Surgical, Inc., and Nautilus Group, Inc. Net income for 2003 was \$28,741,964. The net cash used in operating activities was \$26,028,374. The Fund issued no new shares for the dividend reinvestment plan, as dividend reinvestment shares were purchased in the open market. At December 31, 2003, the Fund had approximately \$2.8 million in cash and cash equivalents net of all liabilities. RENN Group believes that current cash levels are sufficient to pay expenses as they come due and to make investments.

The majority of the Fund's investments in Portfolio Companies are individually negotiated, non-registered for public trading, and are subject to legal and contractual investment restrictions. Accordingly, the Portfolio Investments are generally considered non-liquid. This lack of liquidity primarily affects the ability to make new investments and distributions to shareholders.

From time to time, funds or securities are deposited in margin accounts and invested in government securities. Government securities used as cash equivalents typically consist of U. S. Treasury securities or other U. S. Government and Agency obligations having slightly higher yields and maturity dates of three months or less when purchased. These investments qualify for investment as permitted in Section 55(a)(1) through (5) of the 1940 Act. These securities are generally valued at market price as market prices are generally available for these securities.

RESULTS OF OPERATIONS

2003 Compared to 2002

During the year ended December 31, 2003, the Fund made additional portfolio investments aggregating \$9,062,799 compared to \$6,851,707 in 2002. The Fund realized proceeds from the sale of investments in the amount of \$17,794,507 compared to \$4,911,282 in 2002. The Fund's 2003 net income of \$28,741,964 is due to a combination of a net investment loss of (\$1,076,288), net unrealized appreciation on investments of \$20,137,393, and net realized gain on investments of \$9,680,859.

Interest income increased 54.19% for the year in comparison to 2002, primarily due to the payment in kind of interest upon the reorganization of eOriginal, Inc. and interest accrued due to the SEC settlement offer. Dividend income increased 1,634.34% to \$1,225,139 in 2003 from \$70,640 in 2002 due primarily to dividends paid upon the reorganization of investments in eOriginal, Inc. and Integrated Security Systems, Inc. Commitment and other fee income increased to \$33,579 in 2003 from \$28,442 in 2002 primarily as a result of an increase in director fee income.

General and administrative expenses, including interest expense and legal fees, but excluding incentive and management fees, decreased 10.75% to \$584,690 in 2003 from \$655,119 in 2002. No incentive fee was incurred in 2002 compared to an incentive fee expense of \$1,409,318 in 2003 because there were no net realized capital gains achieved on investments during 2002. Management fees increased to \$1,071,708 in 2003 from \$945,657 in 2002, an increase of 13.33% due to higher portfolio values. Net investment loss increased 4.72% to

Back to Table of Contents

(\$1,076,288) in 2003 up from (\$1,027,791) in 2002 due primarily to incentive fee expense in 2003, combined with an increase in management fees, partially offset by the increase in interest and dividend income.

Net income increased to \$28,741,964 in 2003 from a net loss of (\$12,837,439) in 2002. In 2003, the Fund had a net realized gain on investments of \$9,680,859, compared to a net realized loss of (\$3,429,593) in 2002. Likewise, the Fund experienced net unrealized appreciation on investments in the amount of \$20,137,393 in 2003, compared to the net unrealized depreciation on investments in 2002 of (\$8,380,055).

2002 Compared to 2001

During the year ended December 31, 2002, the Fund made additional portfolio investments aggregating \$6,851,707 compared to \$3,509,674 in 2001. The Fund realized proceeds from the sale of investments in the amount of \$4,911,282 compared to \$10,364,052 in 2001. The Fund's realized net loss of (\$12,837,439) is due to a combination of a net investment loss of (\$1,027,791), net unrealized depreciation on investments of (\$8,380,055), and net realized loss on investments of (\$3,429,593).

Interest income decreased 22% for the year in comparison to 2001 primarily due to the conversion of debt positions into equity. In addition, reserves were taken on interest accruals for some of the Fund's investments. Dividend income decreased 64% from \$195,453 in 2001 to \$70,640 in 2002 due primarily to smaller custodial cash balances earning dividends and decreased dividends declared and paid by portfolio investments. Commitment and other fee income increased from \$3,100 in 2001 to \$28,442 in 2002 primarily as a result of increased loan closing fees.

General and administrative expenses, including interest expense and legal fees, but excluding incentive and management fees, decreased 1.17% from \$662,870 in 2001 to \$655,119. No incentive fee was incurred in 2002 compared to an incentive fee expense of \$403,168 in 2001 because there were no net realized capital gains achieved on investments during 2002. Management fees decreased from \$987,506 in 2001 to \$945,657 in 2002, a decrease of 4.24% due to lower portfolio values during 2002. Net investment loss decreased 17.46% to (\$1,027,791) in 2002 down from (\$1,245,218) in 2001 due primarily to the absence of an incentive fee in 2002, combined with the decrease in interest expense, legal fees, and management fees, partially offset by the increase in general and administrative expenses.

Net income decreased from \$12,379,821 in 2001 to a net loss of (\$12,837,439) in 2002. In 2001, the Fund had realized gains of \$2,054,836 compared to a net realized loss on investments of (\$3,429,593) in 2002. Likewise, the Fund experienced net unrealized appreciation on investments in 2001 of \$11,570,203 compared to the 2002 net unrealized depreciation on investments in the amount of (\$8,380,055).

CONTRACTUAL OBLIGATIONS

The Fund has a contract for the purchase of services under which it will have future commitments: the investment advisory agreement, pursuant to which RENN Capital Group, Inc.

[Back to Table of Contents](#)

has agreed to serve as the Fund's investment adviser. Such agreement has contractual obligations with fees which are based on values of the portfolio investments which the Fund owns. For further information regarding the Fund's obligations under the investment advisory agreement see Note 4 of the Financial Statements.

Because the Fund does not enter into other long-term debt obligations, capital lease obligations, operating lease obligations, or purchase obligations that would otherwise be reflected on the Fund's Statement of Assets and Liabilities, a table of contractual obligations has not been presented.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

The Fund is subject to financial market risks, including changes in market interest rates as well as changes in marketable equity security prices. The Fund does not use derivative financial instruments to mitigate any of these risks. The return on the Fund's investments is generally not affected by foreign currency fluctuations.

A majority of the Fund's net assets consists of common stocks and warrants and options to purchase common stock in publicly traded companies. These investments are directly exposed to equity price risk, in that a percentage change in these equity prices would result in a similar percentage change in the fair value of these securities.

A lesser percentage of the Fund's net assets consist of fixed rate convertible debentures and other debt instruments as well as convertible preferred securities. Since these instruments are generally priced at a fixed rate, changes in market interest rates do not directly impact interest income, although they could impact the Fund's yield on future investments in debt instruments. In addition, changes in market interest rates are not typically a significant factor in the Fund's determination of fair value of its debt instruments, as it is generally assumed they will be held to maturity, and their fair values are determined on the basis of the terms of the particular instrument and the financial condition of the issuer.

A small percentage of the Fund's net assets consist of equity investments in private companies. The Fund would anticipate no impact on these investments from modest changes in public market equity prices. However, should significant changes in market prices occur, there could be a longer-term effect on valuations of private companies which could affect the carrying value and the amount and timing of proceeds realized on these investments.

Item 8. Financial Statements and Supplementary Data.

The financial statements filed as part of this report are listed in "Index to Financial Statements" on page F-1 hereof.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

On January 19, 2006, the Audit Committee of the Fund dismissed Ernst & Young LLP ("E&Y") as the Fund's independent registered public accounting firm because E&Y advised the

Back to Table of Contents

Audit Committee that E&Y would not be able to begin the audit engagement until May 2006.

The audit reports of E&Y on the financial statements of the Fund for the fiscal years ended December 31, 2002 and 2001 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. E&Y did not complete the audit of the Fund's financial statements for fiscal years ended after December 31, 2002.

As disclosed in a Current Report on Form 8-K filed by the Fund on June 18, 2004, E&Y declined to issue a report on the Fund's financial statements for the year ended December 31, 2003 unless E&Y received an opinion of legal counsel to the effect that the possibility of a material adverse effect to the Fund as a result of a comment received from the SEC staff that the Advisory Agreement might be invalid would be "remote" as defined in an accounting pronouncement that the Fund and E&Y agreed was not applicable. The Fund and E&Y were unable to agree on proposed legal opinion language.

As further disclosed in a Current Report on Form 8-K filed by the Fund on December 6, 2005, the Investment Adviser entered into a settlement agreement with the SEC with respect to the calculation of advisory fees under the Advisory Agreement. As a result of the settlement agreement, the disagreement noted above has been rendered moot. The Fund has authorized E&Y to respond fully to the inquiries of the successor accountant named below concerning this subject.

Other than as described in the two preceding paragraphs, during the fiscal years ended December 31, 2005 and 2004 and the period from January 1, 2006 through January 19, 2006, there were no disagreements with E&Y on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to the satisfaction of E&Y, would have caused E&Y to make reference to such disagreements in its reports on the financial statements for such periods.

On January 19, 2006, the Audit Committee of Board of Directors of the Fund approved the engagement of KBA Group LLP ("KBA") to serve as the Fund's independent registered public accounting firm. We engaged KBA on January 19, 2006 to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2005. The Audit Committee has also engaged KBA to complete the audits for the fiscal years ended December 31, 2004 and 2003.

Item 9A. Controls and Procedures.

The Fund has in place systems relating to disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the 1934 Act). Our principal executive officer and principal financial officer evaluated the effectiveness of these disclosure controls and procedures as of the end of our fiscal year ended December 31, 2003 in connection with the preparation of this report. They concluded that the controls and procedures were effective and adequate at that time. There were no significant changes in the Fund's internal control over financial reporting during the fourth quarter of fiscal 2003 that have materially affected, or are reasonably likely to materially affect the Fund's control over financial reporting.

Item 9B. Other Information.

None.

Part III

Item 10. Directors and Executive Officers of Registrant.

Certain information included in this Item 10 is as of December 31, 2003.

Directors

Pursuant to the Fund's Articles of Incorporation and Bylaws, the Board of Directors consists of five directors and is divided into three classes. Each class serves for a three-year term. The term of office of the class one director expires at the annual meeting of shareholders to be held this year, the term of office of the class two directors expires at the annual meeting of shareholders to be held in 2005, and the term of office of the class three directors expires at the annual meeting of shareholders to be held in 2006.

Because the Board of Directors is divided into classes, only those directors in a single class may be changed in any one year. Consequently, changing a majority of the Board of Directors would require two years (although under Texas law, procedures exist to remove directors, even if they are not then standing for reelection and, under SEC regulations, procedures exist for including appropriate shareholder proposals in the annual proxy statement). Having a classified Board of Directors, which may be regarded as an "anti-takeover" provision, may make it more difficult for shareholders of the Fund to change the majority of directors, thus having the effect of maintaining the continuity of management.

Class One Director - Term Expires at 2004 Annual Meeting

Peter Collins, age 59, has been a financial and management consultant to closely-held businesses for the past ten years in the USA, the UK, and Europe, in areas of finance, start-ups, joint ventures, and mergers and acquisitions. He has advised companies in every segment of industry (including manufacturing, distribution, service, agriculture, construction, and multimedia) and in all stages of development (from start-up to bankruptcy). Mr. Collins was educated in England, where he received a B.Sc. in Civil Engineering from Liverpool University and an M.Sc. in Business Administration from The City University, London. He has served as a Class One Director since 1994.

Committees and Meetings

The Board of Directors held twenty (20) meetings or executed consent actions in lieu of meetings during 2003, and each director attended or executed at least seventy-five per cent (75%) of these meetings and consent actions.

The Audit Committee

During 2003, the Audit Committee consisted of Ernest C. Hill, Chair, Peter Collins, Charles C. Pierce, Jr. and Edward O. Boshell, Jr., and held four (4) meetings. Edward O. Boshell, Jr. has been designated by the Board of Directors as the Audit Committee financial expert. The Audit Committee is comprised entirely of independent directors. The Audit Committee is appointed by the Board of Directors to assist the Board in fulfilling its oversight responsibilities. The Audit Committee's primary duties and responsibilities are to:

- Appoint and approve the compensation of the Fund's independent auditors, including those to be retained for the purpose of preparing or issuing an audit report or performing other audit review or attest services for the Fund;
 - Review the scope of their audit services and the annual results of their audits;
 - Monitor the independence and performance of the Fund's independent auditors;
- Oversee generally the accounting and financial reporting processes of the Fund and the audits of its financial statements, generally;
 - Review the reports and recommendations of the Fund's independent auditors;
- Provide an avenue of communication among the independent auditors, management and the Board of Directors; and

Back to Table of Contents

- Address any matters between the Fund and its independent auditors regarding financial reporting.

The Fund's independent auditors must report directly to the Audit Committee.

The Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee was created in January 2004 and is responsible for nominating individuals to serve as directors. The Nominating and Corporate Governance Committee is composed entirely of independent Fund directors. Its members are Charles C. Pierce, Jr., Chair, Edward O. Boshell, Jr., Ernest C. Hill and Peter Collins.

The Committee considers and recommends nominees for election as directors of the Fund. Stockholders wishing to recommend qualified candidates for consideration by the Fund may do so by writing to the Secretary of the Fund at the address shown in the Notice providing the candidate's name, biographical data and qualifications. In its assessment of each potential candidate, the Committee reviews the nominee's judgment, experience, independence, financial literacy, knowledge of emerging growth companies, understanding of the Fund and its investment objectives and such other factors as the Committee may determine. The Committee also takes into account the ability of a director to devote the time and effort necessary to fulfill his or her responsibilities. At the direction of the Board of Directors, the Committee also considers various corporate governance policies and procedures.

Officers

Russell Cleveland, age 65, has served as President, Chief Executive Officer, and a Class Three director of the Fund since 1994. He has also served as the President, Chief Executive Officer, sole Director, and the majority shareholder of RENN Group since 1994. He is a Chartered Financial Analyst with more than 35 years experience as a specialist in investments for smaller capitalization companies. A graduate of the Wharton School of Business, Mr. Cleveland has served as President of the Dallas Association of Investment Analysts. Mr. Cleveland also serves on the Boards of Directors of Renaissance US Growth Investment Trust PLC, BFS US Special Opportunities Trust PLC, Integrated Security Systems, Inc., Tutogen Medical, Inc., Digital Recorders, Inc., and Cover-All Technologies, Inc.

He is a director of Gasco Energy, Inc., CaminoSoft Corp. and Obsidian Enterprises, Inc.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Fund's officers and directors and persons who own more than 10% of a registered class of the Fund's equity securities to file reports of ownership and changes in ownership with the SEC. Officers, directors, and greater than 10% beneficial owners are required by SEC regulations to furnish the Fund with copies of all Section 16(a) forms they file. The Fund believes that during the fiscal year ended December 31, 2003, all Section 16(a) filings relating to the Fund's Common Stock applicable to its officers, directors, and greater than 10% beneficial owners were timely filed.

Charles C. Pierce, Jr., Director	1,991	0.0%
Ernest C. Hill, Director	0	0.0%
All directors and officers of the Fund as a group (8 persons)	302,820	7.0%

(1) "Interested person," as defined by the 1940 Act.

(2) Consists of 22,238 shares owned by the Cleveland Family Limited Partnership and 231,748 shares owned by Renn Investment Limited Partnership.

(3) Shares owned indirectly through Columbia General Investments, L.P.

(4) Includes 130 shares owned by Hilary Collins, Mr. Collins' spouse.

Item 13. Certain Relationships and Related Transactions.

RENN Group provides investment advisory services to the Fund pursuant to the Advisory Agreement between the Fund and RENN Group. The Advisory Agreement is reviewed and approved annually by the Fund's Board of Directors, including its independent directors. Pursuant to the Advisory Agreement, RENN Group received a management fee equal to a quarterly rate of 0.4375% of the Fund's net assets, as determined at the end of such quarter with each such payment to be due on the last day of the calendar quarter. In addition, under the Advisory Agreement, RENN Group received an incentive fee in an amount equal to 20% of the Fund's realized capital gains in excess of realized capital losses of the Fund after allowance for any unrealized capital losses in on the portfolio investments of the Fund. The incentive fee is calculated and paid on an annual basis. See Item 3, Legal Proceedings, for a discussion of proceedings with the SEC regarding the calculation of the incentive fee.

-42-

Back to Table of Contents

In 2003, the Fund incurred to RENN Group \$1,071,708 as its management fee of which \$674,456 was paid and \$921,231 as its incentive fee of which \$841,624 was paid. The Fund also received director's fees from portfolio companies with respect to Mr. Cleveland's and Mr. Pearson's services as a director. Russell Cleveland and Barbe Butschek own 80% and 20%, respectively, of the Common Stock of RENN Group. The sole director of RENN Group is Russell Cleveland. The Board of Directors has determined that the Advisers Agreement be construed in compliance with applicable provisions of the Advisers Act and the 1940 Act.

Item 14. Principal Accountant Fees and Services.

As disclosed in Item 9, Ernst & Young LLP was dismissed as the Fund's auditor and did not complete the audit for the fiscal year ended December 31, 2003. KBA Group LLP was subsequently engaged in January 2006 to complete the audit, and therefore received no fees for professional services for the fiscal years ended December 31, 2002 and 2003.

The following table presents fees paid by the Fund for professional services rendered by Ernst & Young LLP for the fiscal years ended December 31, 2002 and 2003.

Fee Category	Fiscal 2003 Fees	Fiscal 2002 Fees
Audit Fee	\$ 67,000	\$ 81,706
Audit-Related Fees	0	0
Tax Fees	0	0
All Other Fees	22,000	4,500
Total Fees	\$ 89,000	\$ 86,206

Audit Fees were for professional services rendered for the audit of the Fund's financial statements and review of the interim financial statements included in quarterly reports and services that are normally provided by Ernst & Young LLP in connection with statutory and regulatory filings or engagements.

No Audit-Related Fees or Tax Fees were paid by the Fund to Ernst & Young LLP for the fiscal years ended December 31, 2002 or 2003.

All Other Fees were for services other than the services reported above. In fiscal 2002 and 2003, these services included accounting consultations relating to a proposed rights offering.

The Audit Committee concluded that the provision of the non-audit services described above did not impair the independence of Ernst & Young LLP. The Audit Committee has adopted a pre-approval policy that provides for the prior consideration by the Audit Committee of any audit or non-audit services that may be provided by its independent auditor to the Fund.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stockholders and Board of Directors
Renaissance Capital Growth & Income Fund III, Inc.

We have audited the accompanying statement of assets and liabilities of Renaissance Capital Growth & Income Fund III, Inc. (the "Fund") including the schedule of investments as of December 31, 2003 and the related statements of operations, changes in net assets, cash flows and financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have nor were we engaged to perform, an audit of their internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Renaissance Capital Growth & Income Fund III, Inc. as of December 31, 2003 and the results of its operations and its cash flows and the financial highlights for the year then ended in conformity with accounting principles generally accepted in the United States of America.
