**Item 1.01 Entry Into a Material Definitive Agreement.**

On September 26, 2012, Chemtura Corporation entered into a Business Transfer Agreement (“BTA”) with Solaris ChemTech Industries Limited (“Solaris ChemTech”), an Indian Company, and Avantha Holdings Limited, an Indian Company and the parent company of Solaris ChemTech (collectively, “Solaris”). As provided in the BTA, Chemtura Corporation or its affiliates (collectively, “Chemtura” or the “Company”) have agreed to purchase from Solaris certain assets used in the manufacture and distribution of bromine and bromine chemicals for cash consideration of \$142 million and the assumption of certain liabilities. The purchase price is subject to a post-closing net working capital adjustment. The acquisition is subject to usual and customary closing conditions.

Solaris is the largest manufacturer of bromine and bromine derivatives in India. This acquisition is expected to:

- Further strengthen Chemtura’s position in bromine, providing customers with increased security of supply through further diversification of its bromine supply sources, initially increasing Chemtura’s bromine and bromine derivative capacity by 10-15%

- Add an established bromine and derivative position in India that today serves agrochemical, pharmaceutical, flame retardant and other applications

- Provide significant opportunities to improve productivity and efficiency through the combination of Chemtura’s and Solaris ChemTech’s technology to create significant value

- Give access to substantial brine reserves to fuel Chemtura’s future global growth through increased access to a scarce natural resource

- Affirm Chemtura’s commitment to the Asia Pacific region and objective of growth from faster growing regions

  - Strengthen Chemtura’s foundation for expansion by Chemtura businesses in the region

- Fit well with Chemtura’s overall strategic focus on serving the transportation, energy, electronics and agriculture markets

The acquisition is expected to close by the end of 2012 and 2013 will be a year of integration and laying the foundations for growth. Thereafter, the Indian bromine and bromine operations are expected to contribute to the continued growth and profitability of Chemtura’s Industrial Engineered Products segment.

On September 26, 2012, Chemtura issued a press release announcing the acquisition. A copy of the press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

### **Forward-Looking Statements**

This report includes forward-looking statements within the meaning of Section 27(a) of the Securities Act of 1933, as amended, and Section 21(e) of the Exchange Act of 1934, as amended.
