The9 Limited Reports Second Quarter 2008 Unaudited Financial Results

Shanghai, China August 8, 2008. The9 Limited (NASDAQ: NCTY) (The9), a leading online game operator and developer in China, announced today its unaudited financial results for the second quarter ended June 30, 2008.

Second Quarter 2008 Financial Highlights:

The9 reported record revenues and record net income for the second quarter of 2008.

Net revenues for the second quarter of 2008 increased by 4% quarter-over-quarter and by 69% year-over-year to RMB455.1 million (US\$66.3 million). Net revenues attributable to the operation of subscription-based game, which includes revenues from game playing time, merchandise and installation package sales, increased by 6% quarter-over-quarter and by 69% year-over-year to RMB416.3 million (US\$60.7 million) in the second quarter of 2008.

Net income for the second quarter of 2008 was RMB115.9 million (US\$16.9 million), a 29% increase from RMB89.7 million (US\$13.1 million) in the first quarter of 2008, and a 129% increase from RMB50.6 million (US\$7.4 million) in the second quarter of 2007.

Non-GAAP net income was RMB199.4 million (US\$29.1 million) in the second quarter of 2008, a quarter-over-quarter increase of 3% from RMB193.4 million (US\$28.2 million) in the first quarter of 2008, and a year-over-year increase of 59% from RMB125.4 million (US\$18.3 million) in the second quarter of 2007.

Fully diluted earnings per share (one American Depositary Share (ADS) represents one ordinary share) was RMB4.19 (US\$0.61) for the second quarter of 2008, compared with RMB3.21 (US\$0.47) for the first quarter of 2008, and RMB1.90 (US\$0.28) for the second quarter of 2007. Fully diluted non-GAAP net income per share was RMB7.20 (US\$1.05) for the second quarter of 2008, compared with RMB6.92 (US\$1.01) for the first quarter of 2008 and RMB4.70 (US\$0.69) for the second quarter of 2007.

Explanation of the Company's non-GAAP financial measures and the related reconciliation to GAAP financial measures are included in the accompanying Non-GAAP Disclosure and the Reconciliations of GAAP to non-GAAP results.

Commenting on the second quarter 2008 results, Jun Zhu, Chairman and Chief Executive Officer of The9, said, We are very pleased to report record level of both total revenues and earnings for the second quarter 2008. Our solid financial results were driven by the continuing growth of Blizzard Entertainment®'s World of Warcraft®

and Soul of The Ultimate Nation, despite our closing of all servers for three days on observation and respect for those impacted by the earthquake tragedy. In the second quarter of 2008, we attained aggregate peak concurrent users (PCU) of approximately 1.3 million for games that are currently in commercial operation, with World of Warcraft s PCU alone surpassing the 1-million milestone. As of June 30, 2008, we had over 41.5 million total registered users. The second quarter of 2008 was a busy and fruitful quarter for us. We further grew our overall player base through constant content upgrades and enhanced penetration efforts toward lower tier regional markets. We added an additional high-quality game, Atlantica, to our strong licensed game pipeline as well as continued to enhance our in-house game development team and effectively strengthened our proprietary game development capabilities. We ramped our long-term and on-going preparations for new game launches before year-end. Separately, we made an investment in G10 Entertainment for approximately US\$38 million which further enhanced our existing partnership, especially with respect to full-scale support of the Audition game series. We also formed a joint venture with T3 Entertainment to focus on game development and publishing in July 2008. Through our operational and strategic initiatives, we are gradually and relentlessly executing our business strategy, so as to generate sustainable and scalable long-term growth for the Company.

Discussion of The9 s Unaudited Second Quarter 2008 Results**Revenues**

For the second quarter of 2008, The9 reported total gross revenues of RMB480.3 million (US\$70.0 million), which increased by 4% compared to RMB463.8 million (US\$67.6million) in the first quarter of 2008 and by 69% compared to RMB284.6 million (US\$41.5 million) in the second quarter of 2007. Total net revenues were RMB455.1 million (US\$66.3 million), which increased by 4% compared to RMB439.4 million (US\$64.1 million) in the first quarter of 2008 and by 69% compared to RMB270.0 million (US\$39.4 million) in the second quarter of 2007.

For the second quarter of 2008, online game services gross revenues were RMB479.1 million (US\$69.9 million), representing a 4% increase from RMB462.2 million (US\$67.4 million) in the first quarter of 2008 and a 73% increase from RMB276.5 million (US\$40.3 million) in the second quarter of 2007. The increase was primarily because of continued revenue growth from Blizzard Entertainment s World of Warcraft and Soul of The Ultimate Nation, partly offset by revenue decrease from Granado Espada.

In the second quarter of 2008, net revenues attributable to the operations of subscription-based game, which included revenues from game playing time, merchandise and installation package sales, increased by 6% quarter-over-quarter and increased by 69% year-over-year to RMB416.3 million (US\$60.7 million) in the second quarter of 2008. The increase in such revenues was mainly due to higher concurrent user levels as well as user usage levels of World of Warcraft despite the earthquake impact during the quarter. Net revenues attributable to the operations of item-sales based games, which included revenues from in-game item sales and installation package sales, decreased by 18% quarter-over-quarter but increased by 134% year-over-year to RMB38.0 million (US\$5.5 million) in the second quarter of 2008. The sequential decrease in such revenues was mainly due to the decrease in revenue from Granado Espada.

Gross Profit

Gross profit for the second quarter of 2008 increased by 3% quarter-over-quarter and 87% year-over-year to

Table of Contents

RMB214.0 million (US\$31.2 million). The sequential increase of gross profit was largely in line with the increase in net revenues. Gross profit margin for the second quarter of 2008 was 47% which remained stable compared to 47% for the previous quarter but increased compared to 42% for the same period of last year. The improvement of gross margin was primarily because of economies of scale for certain cost of services components including server depreciation and internet data center rental, whereby the percentage increase of these costs is less than that of our net revenues.

Operating Expenses

For the second quarter of 2008, operating expenses were RMB100.3 million (US\$14.6 million), representing a 7% increase from RMB94.0 million (US\$13.7 million) in the previous quarter and a 35% increase from RMB74.5 million (US\$10.9 million) in the same period of last year. The sequential increase in operating expenses was a combined result of increased sales and marketing expenses relating to World of Warcraft and Soul of The Ultimate Nation during the quarter, and increased product development expenses due to the growth of our proprietary game development team.

For the second quarter of 2008, non-cash share-based compensation was RMB12.1 million (US\$1.8 million), compared to RMB12.0 million (US\$1.8 million) in the first quarter of 2008 and RMB9.2 million (US\$1.3 million) in the second quarter of 2007. Share-based compensation expenses included in cost of services, product development, sales and marketing, and general and administrative expenses were RMB0.06 million (US\$0.01 million), RMB0.1 million (US\$0.02 million), RMB0.4 million (US\$0.05 million), and RMB11.6 million (US\$1.7 million), respectively, for the second quarter of 2008, and RMB0.1 million (US\$0.01 million), RMB0.2 million (US\$0.03 million), RMB0.4 million (US\$0.06 million), and RMB11.3 million (US\$1.7 million), respectively, for the first quarter of 2008.

Profit from Operations

For the second quarter of 2008, profit from operations was RMB113.7 million (US\$16.6 million), which remained relatively stable quarter-over-quarter compared to RMB114.1 million (US\$16.6 million) in the first quarter of 2008 but increased by 183% year-over-year compared to RMB40.1 million (US\$5.8 million) in the second quarter of 2007. Operating margin for the second quarter of 2008 was 25%, remaining relatively stable compared to 26% in the previous quarter, but improved significantly compared to 15% in the same period of last year. Operating profit margin, excluding share-based compensation expenses of RMB12.1 million (US\$1.8 million), was 28% for the second quarter of 2008, compared to 29% in the first quarter of 2008, excluding share-based compensation expenses of RMB12.0 million (US\$1.8 million), and 18% in the second quarter of 2007, excluding share-based compensation expenses of RMB9.2 million (US\$1.3 million).

Other Income (Expenses), net

Other expenses for the second quarter of 2008 was RMB4.7 million (US\$0.7 million), compared to other expenses of RMB24.4 million (US\$3.6 million) in the first quarter of 2008 and other income of RMB4.1 million (US\$0.6 million) in the second quarter of 2007. The sequential decrease of other expenses was a combined result of the RMB3.8 million (US\$0.6 million) of financial subsidy we received during the second quarter and the decrease in foreign exchange loss. Foreign exchange loss for the second quarter of 2008 was RMB5.4 million (US\$0.8 million), significantly decreased from RMB24.4 million (US\$3.6 million) in the previous quarter because our US Dollar cash balance was significantly decreased after we made the equity investment in G10 Entertainment during the second quarter of 2008.

Table of Contents

Income Tax Expense

Income tax expense for the second quarter of 2008 was RMB7.0 million (US\$1.0 million), compared to income tax expense of RMB10.5 million (US\$1.5 million) in the first quarter of 2008 and income tax expense of RMB1.1 million (US\$0.2 million) in the second quarter of 2007. The sequential decrease of income tax expense was primarily because the decrease in deferred tax assets was lower in the second quarter compared with the first quarter.

Net Income

For the second quarter of 2008, net income was RMB115.9 million (US\$16.9 million), which increased by 29% from RMB89.7 million (US\$13.1 million) in the first quarter of 2008 and by 129% compared to RMB50.6 million (US\$7.4 million) in the second quarter of 2007. The sequential increase in net income was a result of the cumulative effect of the foregoing factors.

Fully diluted earnings per share and per ADS for the second quarter of 2008 was RMB4.19 (US\$0.61), compared to RMB3.21 (US\$0.47) in the first quarter of 2008 and RMB1.90 (US\$0.28) in the second quarter of 2007.

Non-GAAP net income is defined as earnings before depreciation of property, equipment and software, amortization of land use right and intangibles, share-based compensation, foreign exchange loss and income tax expenses/benefits, as applicable. For the second quarter of 2008, non-GAAP net income was RMB199.4 million (US\$29.1 million) compared to non-GAAP net income of RMB193.4 million (US\$28.2 million) for the previous quarter and RMB125.4 million (US\$18.3 million) for the same period of last year.

For the second quarter of 2008, fully diluted non-GAAP net income per share was RMB7.20 (US\$1.05), compared to RMB6.92 (US\$1.01) for the first quarter of 2008 and RMB4.70 (US\$0.69) in the second quarter of 2007.

As at June 30, 2008, the Company's total cash and cash equivalents balance was RMB1.43 billion (US\$208.1 million). The decrease in cash and cash equivalents from RMB1.78 billion (US\$260.1 million) as at March 31, 2008 was mainly due to the combined result of equity investment we made in G10 Entertainment and transfers of certain cash balances to six-month fixed deposits, which were reflected under short term investments, offset in part by cash receipts from sales of prepaid game points.

The conversion of Renminbi (RMB) into US dollars (US\$) in this press release is based on the noon buying rate in the City of New York for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the Federal Reserve Bank of New York as of June 30, 2008, which was RMB6.8591 to US\$1.00. The percentages stated in this press release are calculated based on the RMB amounts.

Non-GAAP Measure

To supplement the consolidated financial statements presented in accordance with accounting principles generally accepted in the United States (GAAP), The9 uses the non-GAAP measure of non-GAAP net income, which is adjusted from the most directly comparable financial measures calculated and presented in accordance with GAAP to exclude certain expenses. The non-GAAP financial measure is provided to enhance investors' overall understanding of the Company's operating performance.

Table of Contents

Non-GAAP net income is defined as earnings before depreciation of property, equipment and software, amortization of land use right and intangibles, share-based compensation, foreign exchange loss and income tax expenses/benefits, as applicable. The Company believes its non-GAAP net income provides useful information to both management and investors as it excludes certain expenses that are not expected to result in future cash payments. The use of non-GAAP net income has certain limitations. Depreciation of property, equipment and software, amortization of land use right and intangibles and income tax expenses/benefits have been and will be incurred are not reflected in the presentation of non-GAAP net income. Each of these items should also be considered in the overall evaluation of our results. Non-GAAP net income should not be considered as a measure of our liquidity. We compensate for these limitations by providing the relevant disclosure of our depreciation and amortization, share-based compensation and income tax expenses/benefits in our reconciliations to the GAAP financial measure, which should be considered when evaluating our performance. Non-GAAP net income is not defined under GAAP, and our non-GAAP net income is not a measure of net income, operating income, operating performance or liquidity presented in accordance with GAAP. When assessing our operating performance, you should not consider this data in isolation or as a substitute for our net income, operating income or any other operating performance measure that is calculated in accordance with GAAP. In addition, our non-GAAP net income may not be comparable to similarly titled measures utilized by other companies since such other companies may not calculate non-GAAP net income in the same manner as we do. For more information on this non-GAAP financial measure, please see the tables captioned "Reconciliation of GAAP to non-GAAP results" set forth at the end of this release.
