Board Operations

Board Leadership Structure

Mr. Handong Cheng holds the positions of chief executive officer and chairman of the Board of the Company. The Board believes that Mr. Cheng’s services as both chief executive officer and chairman of the Board is in the best interest of the Company and its shareholders. Mr. Cheng possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company in the advertising and media industry and its business and is thus best positioned to develop agendas that ensure that the Board’s time and attention are focused on the most critical matters relating to the business of the Company. His combined role enables decisive leadership, ensures clear accountability, and enhances the Company’s ability to communicate its message and strategy clearly and consistently to the Company’s shareholders, employees and customers.

The Board has not designated a lead director. Given the limited number of directors comprising the Board, the independent directors call and plan their executive sessions collaboratively and, between meetings of the Board, communicate with management and one another directly. Under these circumstances, the directors believe designating a lead director to take on responsibility for functions in which they all currently participate might detract from rather than enhance performance of their responsibilities as directors.

Director Qualifications

The Company seeks directors with established strong professional reputations and experience in areas relevant to the strategy and operations of its businesses. The Company also seeks directors who possess the qualities of integrity and candor, who have strong analytical skills and who are willing to engage management and each other in a constructive and collaborative fashion, in addition to the ability and commitment to devote time and energy to service on the Board and its committees. We believe that all of our directors meet the foregoing qualifications.

The Nominating and Corporate Governance Committee and the Board believe that the leadership skills and other experience of the Board members, as described below, provide the Company with a range of perspectives and judgment necessary to guide our strategies and monitor their execution.

In 2003, he participated in the establishment of Beijing ChinaNet Online Advertising limited and Business Opportunity Online (Beijing) Networking Technology Ltd. (www.28.com), an entity engaged in operational, administration and management activities. Mr. Cheng has contributed to the Board's strong leadership and vision for the development of the Company.

George Kai Chu. Mr. Chu has been our Chief Operating Officer and Secretary since May 2010. Mr. Chu has years of experience in capital markets, financial and business management.

Douglas MacLellan. Mr. MacLellan has been working in China since 1983 and has experience with joint venture and wholly-foreign owned enterprise structuring. In addition, Mr. MacLellan has nearly twenty years of active audit committee chair experience.

Zhiqing Chen. Mr. Chen contributes to the Board extensive legal knowledge with respect to foreign investments and mergers and acquisitions. Mr. Chen also has experience working with PRC enterprises and international corporations.

Mototake Watanabe. Mr. Watanabe has nearly twenty years of experience in management, finance, business strategy and audit.

Chang Qiu. Mr. Qiu has extensive experience working with PRC enterprises and international corporations. Mr. Qiu contributes to the Board his knowledge with respect to foreign investments, business strategy and corporate finance.

The Company's directors are expected to attend board meetings as frequently as necessary to properly discharge their responsibilities and to spend the time needed to prepare for each such meeting. The Company's directors are expected to attend annual meetings of shareholders, but we do not have a formal policy requiring them to do so. All of our directors attended the 2015 annual meeting of shareholders.

Code of Ethics

The Company adopted a Code of Ethics applicable to its directors, officers and employees on December 21, 2009. The Audit Committee held four meetings during 2015.

The members of the Audit Committee are Douglas MacLellan, Chair, Zhiqing Chen and Mototake Watanabe. The Board has determined that Douglas MacLellan is an audit committee financial expert, as defined in the Exchange Act.

The Compensation Committee has the authority to delegate any of its responsibilities to subcommittees as it may deem appropriate in its sole discretion. The chief executive officer of the Company may not be present during voting or deliberations of the Compensation Committee with respect to his compensation. The Company's executive officers do not play a role in suggesting their own salaries. Neither the Company nor the Compensation Committee has engaged any compensation consultant who has a role in determining or recommending the amount or form of executive or director compensation. The Compensation Committee held one meeting during 2015.

The members of the Compensation Committee are Douglas MacLellan, Chair, Zhiqing Chen and Mototake Watanabe.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee assists the Board in identifying qualified individuals to the Board as its nominees for election as directors, in determining the composition of the Board, and in assessing the Board's effectiveness. The Nominating and Corporate Governance Committee did not hold any meetings during 2015.

The members of the Nominating and Corporate Governance Committee are Zhiqing Chen, Chair, Douglas MacLellan and Mototake Watanabe.

The Nominating and Corporate Governance Committee will consider director candidates recommended by security holders. Potential nominees to the Board are required to have such experience in business or financial matters as would make such nominee an asset to the Board and may, under certain circumstances, be required to be "independent", as such term is defined under Rule 5605 of the listing standards of NASDAQ and applicable SEC regulations. Security holders wishing to submit the name of a person as a potential nominee to the Board must send the name, address, and a brief (no more than 500 words) biographical description of such potential nominee to the Nominating and Corporate Governance Committee at the following address: Nominating and Corporate Governance Committee of the Board of Directors, c/o ChinaNet Online Holdings, Inc., No. 3 Min Zhuang Road, Building 6, Yu Quan Hui Gu Tuspark, Haidian District, Beijing, PRC. Potential director nominees will be evaluated by personal interview, such interview to be conducted by one or more members of the Nominating and Corporate Governance Committee, and/or any other method the Nominating and Corporate Governance Committee deems appropriate, which may, but need not, include a questionnaire. The Nominating and Corporate Governance Committee may solicit or receive information

concerning potential nominees from any source it deems appropriate. The Nominating and Corporate Governance Committee need not engage in an evaluation process unless (i) there is a vacancy on the Board, (ii) a director is not standing for re-election, or (iii) the Nominating and Corporate Governance Committee does not intend to recommend the nomination of a sitting director for re-election. A potential director nominee recommended by a security holder will not be evaluated differently from any other potential nominee. Although it has not done so in the past, the Nominating and Corporate Governance Committee may retain search firms to assist in identifying suitable director candidates.

The Board does not have a formal policy on Board candidate qualifications. The Board may consider those factors it deems appropriate in evaluating director nominees made either by the Board or shareholders, including judgment, skill, strength of character, experience with businesses and organizations comparable in size or scope to the Company, experience and skill relative to other Board members, and specialized knowledge or experience. Depending upon the current needs of the Board, certain factors may be weighed more or less heavily. In considering candidates for the Board, the directors evaluate the entirety of each candidate's credentials and do not have any specific minimum qualifications that must be met. "Diversity," as such, is not a criterion that the Committee considers. The directors will consider candidates from any reasonable source, including current Board members, shareholders, professional search firms or other persons. The directors will not evaluate candidates differently based on who has made the recommendation.

PROPOSAL 3

APPROVAL TO EFFECT A REVERSE SPLIT OF THE COMPANY'S COMMON STOCK

Purpose of the Reverse Split

The Company's Board of Directors has determined that it is in our best interest to effect a reverse split of our Common Stock of one (1) share for a to-be-determined number of shares within a spectrum of two (2) to eight (8) shares, so that, subject to the discretion of the Board of Directors, every two (2) to eight (8) outstanding shares of Common Stock before the stock split shall represent one (1) share of Common Stock after the stock split with all fractional shares rounded up to the next whole share (the "Reverse Split"). The Company's shareholders are voting to give the Board of Directors discretion in ultimately selecting what the reverse stock split ratio will be. The Board of Directors believes that our Common Stock is undervalued and that the Reverse Split will allow the Company's Common Stock to trade in a more realistic price range.

Additionally, the Board believes that the Reverse Split could help maintain the Company's listing on The NASDAQ Capital Market. On September 8, 2015, the Company received a letter from NASDAQ notifying the Company that, based on the previous thirty (30) consecutive business days, the Company's listed security no longer met the minimum \$1.0 bid price per share requirement. Therefore, in accordance with NASDAQ listing rules, the Company was provided 180 calendar days, or until March 7, 2016, to regain compliance. The Company's stock did not regain compliance with the minimum \$1.0 bid price per share requirement by March 7, 2016. However, NASDAQ determined that the Company was eligible for an additional 180 calendar day period, or until September 6, 2016, to regain compliance. NASDAQ's determination was based on the Company meeting the continued listing requirement for market value of publicly held shares and all other applicable requirements for initial listing on The NASDAQ Capital Market with the exception of the bid price requirement, and the Company's written notice of its intention to cure the deficiency during the second compliance period by effecting a reverse stock split, if necessary.

Given the receipt of such a deficiency letter from NASDAQ, the Board believes it is in the best interests of the Company and its shareholders to effect the Reverse Split to increase the market price of the Company's Common Stock so that the Company is able to regain compliance with NASDAQ listing rules.

Certain Risks Associated With the Reverse Split

While the Board believes that the Company's Common Stock would trade at higher prices after the consummation of the Reverse Split, there can be no assurance that the increase in the trading price will occur, or, if it does occur, that it will equal or exceed two (2) to eight (8) times the market price of the Common Stock prior to the Reverse Split. In some cases, the total market value of a company following a reverse stock split is lower, and may be substantially lower, than the total market value before the reverse stock split. In addition, the fewer number of shares that will be available to trade could possibly cause the trading market of the Common Stock to become less liquid, which could have an adverse effect on the price of the Common Stock. We cannot provide any assurance that the Company's Common Stock will meet The NASDAQ Capital Market continued listing requirements following the Reverse Split. The market price of the Common Stock is based on our performance and other factors, some of which may be unrelated to the number of our shares outstanding.

In addition, there can be no assurance that the Reverse Split will result in a per share price that will attract brokers and investors who do not trade in lower priced stock.

Principal Effects of the Reverse Split

Subject to the discretion of the Board of Directors, on the effective date of the Reverse Split, each two (2) to eight (8) shares of our Common Stock issued and outstanding immediately prior to the Reverse Split effective date (the "Old Shares") will automatically and without any action on the part of the shareholders be converted into one (1) share of our Common Stock (the "New Shares"). In the following discussion, we provide examples of the effects of a one-for-four reverse stock split.

Corporate Matters. The Reverse Split would have the following effects based upon the number of shares of Common Stock outstanding as of June 20, 2016:

• in the case of a one-for-four reverse stock split, every four (4) of our Old Shares owned by a shareholder would be exchanged for one (1) New Share; and

the number of shares of our Common Stock issued and outstanding will be reduced from 30,395,722 shares to approximately 7,598,930 shares.

The Reverse Split will be effected simultaneously for all of our outstanding Common Stock and the exchange ratio will be the same for all of our outstanding Common Stock. The Reverse Split will affect all of our shareholders uniformly and will not affect any shareholder's percentage ownership interests in the Company, except to the extent that the Reverse Split results in any of our shareholders owning a fractional share. As described below, shareholders and holders of options and warrants holding fractional shares will have their shares rounded up to the nearest whole number. Common Stock issued pursuant to the Reverse Split will remain fully paid and non-assessable.

Fractional Shares. No scrip or fractional share certificates will be issued in connection with the Reverse Split. Shareholders who otherwise would be entitled to receive fractional shares because they hold a number of Old Shares not evenly divisible by the one (1) for four (4) reverse stock split ratio, will be entitled, upon surrender of certificate(s) representing these shares, to a number of shares of New Shares rounded up to the nearest whole number. The ownership of a fractional interest will not give the shareholder any voting, dividend or other rights except to have his or her fractional interest rounded up to the nearest whole number when the New Shares are issued.

Options and Warrants. All outstanding options, warrants, notes, debentures and other securities convertible to Common Stock will be adjusted as a result of the Reverse Split, as required by the terms of these securities. In particular, the conversion ratio for each instrument will be reduced, and the exercise price, if applicable, will be increased, in accordance with the terms of each instrument and based on the one-for-four ratio.

Authorized Shares. The Company is presently authorized under its Articles of Incorporation to issue 50,000,000 shares of Common Stock. Upon effectiveness of the Reverse Split, the number of authorized shares of Common Stock would remain the same, although the number of shares of Common Stock issued and outstanding will decrease. Because the number of issued and outstanding shares of Common Stock will decrease, the number of shares of Common Stock remaining available for issuance will increase. The issuance in the future of additional shares of our Common Stock may have the effect of diluting the earnings per share and book value per share, as well as the stock ownership and voting rights of the currently outstanding shares of our Common Stock. The effective increase in the number of authorized but unissued and unreserved shares of the Company's Common Stock may be construed as having an anti-takeover effect as further discussed below. Authorized but unissued shares will be available for issuance, and we may issue such shares in future financings or otherwise. If we issue additional shares, the ownership interest of holders of our Common Stock would be diluted. Also, the issued shares may have rights, preferences or privileges senior to those of our Common Stock. The Company does not currently have any plans, proposal or arrangement to issue any of its authorized but unissued shares of Common Stock.

Accounting Matters. The Reverse Split will not affect the par value of our Common Stock. As a result, on the effective date of the Reverse Split, the stated capital on our balance sheet attributable to our Common Stock will be reduced in proportion to the Reverse Split ratio (that is, in a one-for-four reverse stock split, the stated capital attributable to our Common Stock will be reduced to 1/4 of its existing amount) and the additional paid-in capital account shall be

credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our Common Stock will also be increased because there will be fewer shares of our Common Stock outstanding.

Potential Anti-Takeover Effect. Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our Board or contemplating a tender offer or other transaction for the combination of the Company with another company), the Reverse Split was not proposed in response to any effort of which we are aware to accumulate our shares of Common Stock or obtain control of us, nor is it part of a plan by management to recommend a series of similar actions having an anti-takeover effect to our Board of Directors and shareholders. Other than the Reverse Split, our Board of Directors does not currently contemplate recommending the adoption of any other corporate action that could be construed to affect the ability of third parties to take over or change control of the Company.

The number of shares held by each individual shareholder will be reduced if the Reverse Split is implemented. This will increase the number of shareholders who hold less than a “round lot,” or 100 shares. Typically, the transaction costs to shareholders selling “odd lots” are higher on a per share basis. Consequently, the Reverse Split could increase the transaction costs to existing shareholders in the event they wish to sell all or a portion of their shares.

The Company is subject to the periodic reporting and other requirements of the Exchange Act. If the proposed Reverse Split is implemented, our Common Stock will continue to be reported on The NASDAQ Capital Market under the symbol “CNET” (although NASDAQ will add the letter “D” to the end of the trading symbol for a period of twenty (20) trading days to indicate that the Reverse Split has occurred). We will continue to be subject to the periodic reporting requirements of the Exchange Act.

Procedure for Effecting a Reverse Split

The Reverse Split will be accomplished by amending the Company’s Articles of Incorporation to effect the split. The Reverse Split will become effective at such future date as determined by the Board of Directors, as evidenced by the filing of an amendment to the Company’s Articles of Incorporation with the Secretary of State of the State of Nevada (which we refer to as the “Effective Time”) following the affirmative vote of the Company’s shareholders at the Annual Meeting. Beginning at the Effective Time, each certificate representing Old Shares will be deemed for all corporate purposes to evidence ownership of New Shares.

AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.**

Material U.S. Federal Income Tax Consequences of the Reverse Split

The following discussion is a general summary of the material U.S. federal income tax consequences of the Reverse Split to a current shareholder of the Company that is a “United States person,” as defined in the Internal Revenue Code of 1986, as amended (the “Code”) (sometimes referred to herein as a “U.S. shareholder”), and who holds stock of the Company as a “capital asset,” as defined in Section 1221 of the Code. This discussion does not purport to be a complete analysis of all of the potential tax effects of the Reverse Split. Tax considerations applicable to a particular shareholder will depend on that shareholder’s individual circumstances. The discussion does not address the tax consequences that may be relevant to particular categories of shareholders subject to special treatment under certain U.S. federal income tax laws (such as dealers in securities or currencies, banks, insurance companies, tax-exempt organizations, financial institutions, broker-dealers, regulated investment companies, real estate investment companies, real estate mortgage investment conduits and foreign individuals and entities). The discussion also does not address any tax consequences arising under U.S. federal non-income tax laws, such as gift or estate tax laws, or

the laws of any state, local or foreign jurisdiction. In addition, the discussion does not consider the tax treatment of partnerships or other pass-through entities or persons who hold stock of the Company through such entities.

The following discussion is based upon the Code, U.S. Treasury Department regulations promulgated thereunder, published rulings of the Internal Revenue Service (the "IRS") and judicial decisions now in effect, all of which are subject to change or to varying interpretation at any time. Any such changes or varying interpretations may also be applied retroactively. The following discussion has no binding effect on the IRS or the courts.

No gain or loss should be recognized by a U.S. shareholder upon such shareholder's deemed exchange of Old Shares for New Shares pursuant to the Reverse Split. The aggregate tax basis of the New Shares received in the Reverse Split should be the same as such shareholder's aggregate tax basis in the Old Shares being exchanged, and the holding period of the New Shares should include the holding period of such shareholder in the Old Shares.

Because of the complexity of the tax laws and because the tax consequences to the Company or to any particular shareholder may be affected by matters not discussed herein, shareholders are urged to consult their own tax advisors as to the specific tax consequences to them in connection with the Reverse Split, including tax reporting requirements, the applicability and effect of foreign, U.S. federal, state and local and other applicable tax laws and the effect of any proposed changes in the tax laws.

Dissenters' Rights of Appraisal

We are a Nevada corporation and are governed by the Nevada Revised Statutes. Holders of the Company's Common Stock will not have appraisal or dissenter's rights under Nevada law in connection with the Reverse Split.

Interest of Certain Persons in Matters to be Acted Upon

No director, executive officer, associate of any director or executive officer or any other person has any substantial interest, direct or indirect, by security holdings or otherwise, in the Reverse Split that is not shared by all other shareholders of ours.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE REVERSE SPLIT.
