NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

(Dollars in thousands, except per share)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of the interim periods. Operating results for the three months ended April 2, 2011 are not indicative of the results to be expected for the full year ending December 31, 2011. These financial statements have been prepared on a basis that is substantially consistent with the accounting principles applied in our Annual Report on Form 10-K for the year ended December 31, 2010.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Organization:

Sturm, Ruger & Company, Inc. (the Company) is principally engaged in the design, manufacture, and sale of firearms to domestic customers. Approximately 99% of the Company's total sales for the three months ended April 2, 2011 were firearms sales, and approximately 1% was investment castings sales. Export sales represent approximately 5% of total sales. The Company's design and manufacturing operations are located in the United States and almost all product content is domestic.

The Company's firearms are sold through a select number of independent wholesale distributors principally to the commercial sporting market. Two of these independent wholesale distributors merged in 2009. Further consolidation of independent wholesale distributors would result in a greater concentration of credit risk.

The Company manufactures investment castings made from steel alloys for internal use in its firearms and utilizes available investment casting capacity to manufacture and sell castings to unaffiliated, third-party customers.

Fair Value of Financial Instruments:

The carrying amounts of financial instruments, including cash, short-term investments, accounts receivable, accounts payable and accrued liabilities approximate fair value due to the short-term maturity of these items.

8

Short-term Investments:

Short-term investments consist principally of United States Treasury instruments, all maturing within one year, and are recorded at cost plus accrued interest, which approximates market. The income from short-term investments is included in other income, net. The Company intends to hold these investments until maturity.

The Company evaluates securities for other than temporary impairment at least on a quarterly basis, and more frequently when market conditions warrant such evaluation. The Company has determined that the carrying value of short-term investments has not been impaired.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications:

Certain prior period balances have been reclassified to conform to current year presentation.

NOTE 3 - INVENTORIES

Inventories are valued using the last-in, first-out (LIFO) method. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs existing at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these are subject to many factors beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

During the three month period ended April 2, 2011, inventory quantities were reduced. If this reduction remains through year-end, it will result in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the current cost of purchases. Although the effect of such a liquidation cannot be precisely quantified at the present time, management believes that if a LIFO liquidation continues to occur in 2011, the impact may be material to the Company's results of operations for the period but will not have a material impact on the financial position of the Company.

Inventories consist of the following:

	April 2, 2011	December 31, 2010
Inventory at FIFO		
Finished products	\$ 3,094	\$ 5,833
Materials and work in process	38,609	42,987
Gross inventories	41,703	48,820
Less: LIFO reserve	(36,858)	(37,448)
Less: excess and obsolescence reserve	(1,297)	(1,545)
Net inventories	\$ 3,548	\$ 9,827

NOTE 4 - LINE OF CREDIT

In December 2010, the Company renewed a \$25 million credit facility with a bank. This facility is renewable annually and now terminates on December 12, 2011. Borrowings under this facility bear interest at LIBOR (0.78% at April 2, 2011) plus 200 basis points. The Company is charged three-eighths of a percent (0.375%) per year on the unused portion. At April 2, 2011 and December 31, 2010, the Company was in compliance with the terms and covenants of the credit facility, which remains unused.

NOTE 5 - EMPLOYEE BENEFIT PLANS

The Company has migrated its retirement benefit focus from defined benefit pension plans to defined contribution retirement plans, utilizing its current 401(k) plan.

In 2007, the Company amended its hourly and salaried defined benefit pension plans to freeze the benefits for current participants and to discontinue the plans for all future employees. All active participants became fully vested in the amount of benefit services accrued through December 31, 2007 and no benefits have accrued since that date. Currently, the Company provides supplemental discretionary contributions to substantially all employees' individual 401(k) accounts.

In future years, the Company may be required to make cash contributions to the two defined benefit pension plans. The annual contributions will be based on the amount of the unfunded plan liabilities derived from the frozen benefits and will not include liabilities for any future accrued benefits for any new or existing participants. The total amount of these future cash contributions will depend on the investment returns generated by the plans' assets and the then applicable discount rates used to calculate the plans' liabilities.

Minimum contributions of approximately \$2.5 million are required for the defined benefit plans for 2011. The Company contributed \$2 million to the defined benefit plans in 2010. Contributions in the three months ended April 2, 2011 totaled \$0.5 million.

The estimated cost of the frozen defined benefit plans for 2011 is insignificant.

The supplemental discretionary contributions to the 401(k) plan totaled \$0.6 million and \$0.4 million for the three months ended April 2, 2011 and April 3, 2010, respectively. The Company plans to contribute approximately \$1.5 million to the plan during the remainder of 2011.

NOTE 6 - INCOME TAXES

The Company's 2010 and 2009 effective tax rates differ from the statutory federal tax rate due principally to state income taxes partially offset by tax benefits related to the American Jobs Creation Act of 2004. The effective income tax rates for the three months ended April 2, 2011 and April 3, 2010 are 37.0% and 36.0%, respectively.

Income tax payments in the three months ended April 2, 2011 and April 3, 2010 totaled \$0.1 million and \$0.6 million, respectively.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2007.

The Company does not believe it has included any uncertain tax positions in its federal income tax return or any of the state income tax returns it is currently filing. The Company has made an evaluation of the potential impact of additional state taxes being assessed by jurisdictions in which the Company does not currently consider itself liable. The Company does not anticipate that such additional taxes, if any, would result in a material change to its financial position. However, the Company anticipates that it is more likely than not that additional state tax liabilities in the range of \$0.2 million to \$0.4 million exist. The Company has recorded \$0.4 million relating to these additional state income taxes, including approximately \$0.2 million for the payment of interest and penalties. This amount is included in income taxes payable at April 2, 2011. The Company will include any future interest and penalties related to uncertain tax positions as a component of its provision for taxes.

NOTE 7 - EARNINGS PER SHARE

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the periods indicated:

	Three Months Ended	
	April 2, 2011	April 3, 2010
Numerator:		
Net income	\$7,947	\$8,316
Denominator:		
Weighted average number of common shares outstanding Basic		
	18,752,088	19,086,797
Dilutive effect of options and restricted stock units outstanding under the Company's employee compensation plans		
	220,201	253,431
Weighted average number of common shares outstanding Diluted	18,972,289	19,340,228

The dilutive effect of outstanding options and restricted stock units is calculated using the treasury stock method. The weighted average number of common shares outstanding has decreased from the comparable prior year periods as a result of the Company's stock repurchase plans. See Note 8 for further information.

The following average numbers of stock options are anti-dilutive and therefore are not included in the diluted earnings per share calculation:

	Three Months Ended	
	April 2, 2011	April 3, 2010
Average number of stock options	-	256,250

 NOTE 8 - STOCK REPURCHASES

In the first quarter of 2011 the Company repurchased shares of its common stock. Details of these purchases are as follows:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Program
1/4/11-1/29/11	133,400	\$14.94	133,400
