The following document (bearing the exhibit number listed below) is furnished herewith and is made a part of this Report pursuant to the General Instructions for Form 6-K:

Exhibit	Description
No. 1	RNS Announcement, re: New Bonds Rating dated 23 September 2004

23 September 2004

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

British Energy plc

Announcement of Indicative Ratings for New Bonds

British Energy plc ("the Company") has been in discussions with Fitch Ratings, Moody's Investor Services and Standard & Poor's Rating Services ("the Rating Agencies") with regard to obtaining credit ratings for the GBP550 million of New Bonds that are to be issued to certain of the Company's creditors and to the Nuclear Liabilities Fund Limited upon completion of the Agreed Restructuring pursuant to the terms announced on 1 October 2003.

Preliminary discussions were held with the Rating Agencies last year in advance of agreement on the terms of the Agreed Restructuring and it was stated in the announcement made on 1 October 2003 that one rating agency had provided an indicative rating for the New Bonds of investment grade and two rating agencies had provided indicative ratings at non-investment grade.

The rating agencies have updated their analysis and all three agencies have now provided indicative non-investment grade ratings for British Energy.

These ratings remain prospective and indicative and are subject to the restructuring being completed in its proposed form in accordance with the assumptions that have been provided to the agencies for the purpose of the indicative prospective rating assessment. These ratings will only be finalised when the New Bonds are issued upon completion of the Agreed Restructuring.

A summary of the terms of the New Bonds is included in the Company's announcement of 1 October 2003.

The Agreed Restructuring and, therefore, the issuance of the New Bonds remain subject to a large number of significant uncertainties and important conditions. If the Agreed Restructuring is implemented, the return, if any, to existing shareholders will represent a very significant dilution of their existing interests. If for any reason British Energy is unable to implement the propose restructuring, it may be unable to meet its financial obligations as they fall due and may have to take appropriate insolvency proceedings. In this case, the distributions to the unsecured creditors (including Bondholders, RBS, the Significant Creditors and BNFL) may represent only a small fraction of their unsecured liabilities and there is highly unlikely to be any return to shareholders.

Note:

These ratings do not apply to the additional GBP150 million of bond-equivalent payments that will be issued to certain lenders to Eggborough Power Limited through the Amended Credit Agreement, which will not be rated
