COMMENT

Terry Burman, Group Chief Executive, commented: "Group like for like sales were up 1.1% over the nine week period with a solid performance by the US business (c.73% of Group sales) offsetting the downturn in the UK division. Profit before tax for 2005/06 is currently expected to be within the range of market estimates and to fall between GBP193 million and GBP199 million.

In the US, the business again significantly outperformed its main competition and gained market share. Like for like sales rose by 5.5% and total dollar sales increased by 10.5% building on the consistent growth record of the business. Kay made further progress enhancing its position as the number one speciality retail jewellery brand in the US. Jared, the off-mall destination superstores, continued to trade particularly well. The divisional operating profit is anticipated to be comfortably ahead for the year as a whole.

In the UK, difficult trading conditions were experienced during the Christmas period and like for like sales decreased by 9.3%. Although divisional operating profit is likely to be significantly lower than last year, the business is still expected to achieve a healthy operating margin and return on capital."
