RESULTS FOR THE SECOND QUARTER AND HALF YEAR TO 30 SEPTEMBER 2012

BT Group plc (BT.L) today announced its results for the second quarter and half year to 30 September 2012.

Ian Livingston, Chief Executive, commenting on the results, said:

"We have delivered another solid quarter of growth in profit before tax despite the economic conditions and regulatory impacts. We continue to make significant investments in the future of our business and we are again accelerating our fibre roll-out. We now expect fibre to be available to two-thirds of UK premises during spring 2014, more than 18 months ahead of our original schedule, and we are recruiting more than 1,000 engineers in 2012 to help deliver this.

"Over the summer we helped to deliver the most connected Olympic and Paralympic Games ever and I am proud of the part that our people played in its success.

"Our confidence in the future of our business is demonstrated by the 15% increase in the interim dividend."

Second quarter and half year results:

Second quarter to 30 September 2012	Half year to 30 September 2012

Note: Reported revenue and EBITDA include a specific item charge of £85m and £58m, respectively, in both the second quarter and half year to 30 September 2012 relating to the retrospective regulatory impact of the Court of Appeal decision on ladder pricing. In the prior year reported revenue included a specific item charge of £410m relating to a retrospective regulatory ruling in Germany, which had no impact on profits or cash. See Group results - Specific items for more details.

Notes:

1) Unless otherwise stated, any reference to revenue, operating costs, earnings before interest, tax, depreciation and amortisation (EBITDA), operating profit, profit before tax, earnings per share (EPS) and free cash flow are measured before specific items. The commentary focuses on the trading results on an adjusted basis being before specific items. This is consistent with the way that financial performance is measured by management and is reported to the Board and the Operating Committee and assists in providing a meaningful analysis of the trading results of the group. The directors believe that presentation of the group's results in this way is relevant to the understanding of

the group's financial performance as specific items are those that in management's judgement need to be disclosed by virtue of their size, nature or incidence. In determining whether an event or transaction is specific, management considers quantitative as well as qualitative factors such as the frequency or predictability of occurrence. Specific items may not be comparable to similarly titled measures used by other companies. Reported revenue, reported EBITDA, reported operating profit, reported profit before tax, reported EPS and reported free cash flow are the equivalent unadjusted or statutory measures.

2) Underlying revenue, underlying costs and underlying EBITDA are measures which seek to reflect the underlying performance of the group that will contribute to long-term profitable growth and as such exclude the impact of acquisitions and disposals, foreign exchange movements and any specific items. We are focusing on the trends in underlying revenue excluding transit revenue as transit traffic is low-margin and is significantly affected by reductions in mobile termination rates.

3) Unless otherwise stated, the references 2011, 2012, 2013, 2014 and 2015 are the financial years to 31 March 2011, 2012, 2013, 2014 and 2015, respectively, except in relation to our fibre roll-out plans and recruitment plans which are based on calendar years.
