Forward-looking statements

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'believes', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'Value-at-Risk (VaR)', 'target', 'goal', 'objective', 'will', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions.

In particular, this document includes forward-looking statements relating, but not limited to: the Group's restructuring plans, divestments, capitalisation, portfolios, net interest margin, capital ratios, liquidity, risk weighted assets (RWAs), return on equity (ROE), profitability, cost:income ratios, leverage and loan:deposit ratios, funding and risk profile; discretionary coupon and dividend payments; certain ring-fencing proposals; sustainability targets; the Group's future

financial performance; the level and extent of future impairments and write-downs, including sovereign debt impairments; and the Group's potential exposures to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity and equity price risk. These statements are based on current plans, estimates and projections, and are subject to inherent risks, uncertainties and other factors which could cause actual results to differ materially from the future results expressed or implied by such forward-looking statements. For example, certain market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated.

Other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to: global economic and financial market conditions and other geopolitical risks, and their impact on the financial industry in general and on the Group in particular; the ability to implement strategic plans on a timely basis, or at all, including the disposal of certain Non-Core assets and of certain assets and businesses required as part of the State Aid restructuring plan; organisational restructuring, including any adverse consequences of a failure to transfer, or a further delay in transferring, certain business assets and liabilities from RBS N.V. to RBS; the ability to access sufficient sources of liquidity and funding when required; deteriorations in borrower and counterparty credit quality; litigation, government and regulatory investigations including investigations relating to the setting of LIBOR and other interest rates; costs or exposures borne by the Group arising out of the origination or sale of mortgages or mortgage-backed securities in the United States; the extent of future write-downs and impairment charges caused by depressed asset valuations; the value and effectiveness of any credit protection purchased by the Group; unanticipated turbulence in interest rates, yield curves, foreign currency exchange rates, credit spreads, bond prices, commodity prices, equity prices and basis, volatility and correlation risks; changes in the credit ratings of the Group; ineffective management of capital or changes to capital adequacy or liquidity requirements; changes to the valuation of financial instruments recorded at fair value; competition and consolidation in the banking sector; the ability of the Group to attract or retain senior management or other key employees; regulatory or legal changes (including those requiring any restructuring of the Group's operations) in the United Kingdom, the United States and other countries in which the Group operates or a change in United Kingdom Government policy; changes to regulatory requirements relating to capital and liquidity; changes to the monetary and interest rate policies of central banks and other governmental and regulatory bodies; changes in UK and foreign laws, regulations, accounting standards and taxes, including changes in regulatory capital regulations and liquidity requirements; the implementation of recommendations made by the Independent Commission on Banking (ICB) and their potential implications; impairments of goodwill; pension fund shortfalls; general operational risks; HM Treasury exercising influence over the operations of the Group; insurance claims; reputational risk; the ability to access the contingent capital arrangements with HM Treasury; the conversion of the B Shares in accordance with their terms; limitations on, or additional requirements imposed on, the Group's activities as a result of HM Treasury's investment in the Group; and the success of the Group in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as of the date of this announcement, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation or an offer to sell or solicitation of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or other financial instruments.

Presentation of information

The financial information on pages 6 to 62, prepared using the Group's accounting policies, shows the underlying performance of the Group on a managed basis which excludes certain one-off and other items. Information is provided

in this form to give a better understanding of the results of the Group's operations. Group operating profit on this basis excludes:

- own credit adjustments;
- Asset Protection Scheme (APS);
- Payment Protection Insurance (PPI) costs;
- sovereign debt impairment;
- interest rate hedge adjustments on impaired available-for-sale sovereign debt;
- amortisation of purchased intangible assets;
- integration and restructuring costs;
- (loss)/gain on redemption of own debt;
- strategic disposals;
- bonus tax; and
- RFS Holdings minority interest (RFS MI).

Statutory results

The condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated balance sheet, condensed consolidated statement of changes in equity and related notes presented on pages 63 to 91 inclusive are on a statutory basis. Reconciliations between the managed basis and statutory basis are included in Appendix 1.

Disposal groups

In accordance with IFRS 5 'Non-current Assets Held for Sale and Discontinued Operations', in Q4 2011 the Group transferred the assets and liabilities relating to the planned disposal of its RBS England and Wales and NatWest Scotland branch-based businesses, along with certain SME and corporate activities across the UK ('UK branch-based businesses'), to assets and liabilities of disposal groups.

Restatements

Organisational change

In January 2012, the Group announced changes to its wholesale banking operations in light of a changed market and regulatory environment. The changes have seen the reorganisation of the Group's wholesale businesses into 'Markets' and 'International Banking' and the proposed exit and/or downsizing of selected activities. The changes will ensure the wholesale businesses continue to deliver against the Group's strategy.

Edgar Filing: ROYAL BANK OF SCOTLAND GROUP PLC - Form 6-K

The changes include an exit from cash equities, corporate broking, equity capital markets and mergers and acquisitions advisory businesses. Significant reductions in balance sheet, funding requirements and cost base in the remaining wholesale businesses will be implemented.

Revised allocation of Group Treasury costs

In the first quarter of 2012, the Group revised its allocation of funding and liquidity costs and capital for the new divisional structure as well as for a new methodology. The new methodology is designed to ensure that the allocated funding and liquidity costs more fully reflect each division's funding requirement.

Revised divisional return on equity ratios

For the purposes of divisional return on equity ratios, notional equity has been calculated as a percentage of the monthly average of divisional risk-weighted assets (RWAs), adjusted for capital deductions. Historically, notional equity was allocated at 9% of RWAs for the Retail & Commercial divisions and 10% of RWAs for Global Banking & Markets. This was revised in Q1 2012 and 10% of RWAs is now applied to both the Retail & Commercial and Markets divisions.

Fair value of own debt and derivative liabilities

The Group had previously excluded changes in the fair value of own debt (FVOD) in presenting the underlying performance of the Group on a managed basis given it is a volatile non-cash item. To better align our managed view of performance, movements in the fair value of own derivative liabilities (FVDL), previously incorporated within Markets operating performance, are now combined with movements in FVOD in a single measure, 'Own Credit Adjustments' (OCA). This took effect in Q1 2012 and Group and Markets operating results have been adjusted to reflect this change which does not affect profit/(loss) before and after tax.

Comparatives for all of the items discussed above were restated in Q1 2012. For further information on the restatements refer to the announcement dated 1 May 2012, available on www.rbs.com/ir

Share consolidation

Following approval at the Group's Annual General Meeting on 30 May 2012, the sub-division and consolidation of the Group's ordinary shares on a one-for-ten basis took effect on 6 June 2012. Consequently, disclosures for 2011 relating to or affected by numbers of ordinary shares or share price have been restated.

Notes:

- (1) For further analysis and details of adjustments refer to pages 69 and 70.
- (2) Retail & Commercial (R&C) comprises the UK Retail, UK Corporate, Wealth, International Banking, Ulster Bank and US R&C divisions.

Key points

Q3 2012 compared with Q2 2012

- Group NIM declined marginally to 1.94% from 1.95% with continued margin pressure in Retail & Commercial more than offsetting decreases in liquidity and funding costs across the Group following further run-down of low-yielding assets.
- Retail & Commercial NIM fell by 2 basis points to 2.92% largely reflecting downward pressure on deposit margins in UK Retail and UK Corporate, and lower investment income in US Retail & Commercial.

Q3 2012 compared with Q3 2011

- Group net interest income decreased by £208 million, 7%, largely driven by a decline in interest earning assets of 12%. A 5% decline in Retail & Commercial interest earning assets and continued balance sheet run-off in Non-Core drove the reduction.
- The decline in Retail & Commercial net interest income was primarily due to a targeted decrease in loans and advances in International Banking and the impact of lower long-term interest hedge income and the high cost of deposits in UK Retail.
- Group NIM increased by 10 basis points to 1.94% driven by a decrease in liquidity and funding costs managed at the Group level and the continued run-off of low margin Non-Core balances.

Total non-interest income	3,585	3,465	3,015	11,174	12,375

Key points

Q3 2012 compared with Q2 2012

- Non-interest income increased by £120 million, 3%, primarily due to an increase of £325 million in realised bond gains as the Group repositioned its liquidity portfolio, partially offset by a decrease in Retail & Commercial.
- Retail & Commercial non-interest income fell by 6%, largely reflecting the non-recurrence of a £47 million Q2 2012 gain on the sale of Visa B shares in US Retail & Commercial and a decline in the fair value of a property-related investment in UK Corporate of £25 million.
- Income from trading activities fell by £162 million, primarily due to an increase in trading losses in Non-Core of £72 million as the business continued to de-risk its markets exposures.
- Insurance net premium income remained flat, reflecting stable in-force policies in a competitive market place.

Q3 2012 compared with Q3 2011

- Non-interest income was 19% higher primarily as a result of a £652 million increase in income from trading activities in Markets, reflecting a significant improvement in the credit environment. This was partially offset by a decrease in Retail & Commercial.
- Retail & Commercial non-interest income was £146 million lower, primarily reflecting negative movements on credit hedging activity within the lending portfolio in International Banking and a decline in the fair value of a property-related investment in UK Corporate. Changes in customer behaviour and sluggish transaction volumes also drove a decrease in UK Retail.
- Insurance net premium income fell by £104 million, 10%, largely driven by actions to improve the quality of the motor book resulting in lower written premiums.

Staff costs as a % of total income	30%	32%	32%	31%	29%

Key points

Q3 2012 compared with Q2 2012

- Group operating expenses fell by 6%, largely driven by the continued run-down of Non-Core and lower staff expenses in Markets and International Banking. An additional charge of £50 million was taken in relation to the June technology incident, compared with a charge of £125 million in Q2 2012.
- Core cost:income ratio improved from 62% in Q2 2012 to 59%, largely due to a strict focus on cost-management in all of the Group's businesses. The Retail & Commercial cost:income ratio remained at 57%, with UK Retail improving to 51%.
- Insurance net claims increased by 3% primarily due to a smaller release of reserves compared with Q2 2012.

Q3 2012 compared with Q3 2011

- Group operating expenses were 5% lower, predominantly driven by a 34% decrease in Non-Core expenses as the division continued to shrink. An additional driver was the 15% fall in International Banking costs, due to planned headcount reduction and tight management of technology and discretionary costs following the restructuring of the business announced in January 2012.
- Core cost:income ratio improved by 7 percentage points to 59% from 66% in Q3 2011. This was driven by a Group-wide focus on managing expenses and an improved business performance and market environment for the Markets

businesses.

Key points

Q3 2012 compared with Q2 2012

- Loan impairment losses were down 18%. In the Non-Core portfolio, loan impairments fell by 40%, with the non-repeat of a large provision in Project

Finance in Q2 2012. This was partially offset by a 4% increase in Core loan impairments, largely reflecting a small number of significant individual cases in UK Corporate.

- Credit losses improved in International Banking, with the non-repeat of a single name impairment in Q2 2012. Lower specific impairments were also recorded in Wealth.
- Core and Non-Core Ulster Bank loan impairments improved by £21 million, 4%.

Q3 2012 compared with Q3 2011

- Loan impairment losses fell by 19%, largely driven by a significant reduction in Non-Core impairments, particularly in exposures originating in UK Corporate and Ulster Bank.
- Retail was the main driver of the 8% decrease in Core loan impairment losses, as credit metrics and book quality continued to improve. This was partly offset by the increase in UK Corporate loan impairments in Q3 2012.

Note:

- (1) In the second quarter of 2011, the Group recorded an impairment loss of £733 million in respect of its AFS portfolio of Greek government debt as a result of Greece's continuing fiscal difficulties. In Q1 2012, as part of Private Sector Involvement in the Greek government bail-out, the vast majority of this portfolio was exchanged for Greek sovereign debt and European Financial Stability Facility notes; the Greek sovereign debt received in the exchange was sold.

Key points

Q3 2012 compared with Q2 2012

- The own credit adjustment charge in Q3 2012 was £1,455 million, compared with a smaller charge of £518 million in Q2 2012, as the Group's credit spreads tightened by a further 57 basis points in the quarter.
- An additional £400 million provision relating to Payment Protection Insurance was taken, bringing the cumulative charge to £1.7 billion, of which £1.0 billion in redress had been paid by 30 September 2012.
- Integration and restructuring costs increased by 21% to £257 million, largely driven by preparations for the divestment of UK branch-based businesses.

Q3 2012 compared with Q3 2011

- The movement in one-off and other items in the period was predominantly driven by the significant tightening of the Group's credit spreads compared with a large widening in Q3 2011.

- (1) The benefit of APS in the Core Tier 1 ratio was 71 basis points at 30 September 2012 (30 June 2012 - 77 basis points; 31 December 2011 - 90 basis points).

Key points

30 September 2012 compared with 30 June 2012

- The Group's Core Tier 1 ratio remained strong at 11.1%. Gross risk-weighted assets (RWAs) fell by £7 billion reflecting a reduction in market risk coupled with balance sheet contraction.
- The impact of the Asset Protection Scheme (APS) on the Core Tier 1 ratio continued to decline from 77 basis points at 30 June 2012 to 71 basis points at 30 September 2012.

30 September 2012 compared with 31 December 2011

- The Core Tier 1 ratio increased by 50 basis points compared with 31 December 2011, driven by a 5% reduction in gross RWAs, lower regulatory capital deductions and the issuance of new shares.
- Gross RWAs fell by £27 billion, excluding the effect of the APS. Post APS RWAs decreased by £6 billion.

- (5) Excluding derivative collateral.

Key points

30 September 2012 compared with 30 June 2012

- The Group's funded balance sheet contracted by a further £20 billion to £909 billion, driven by a £7 billion reduction in Non-Core funded assets and lower International Banking and Ulster Bank balances.
- Loans and advances to customers fell by 3%, largely due to Non-Core run-down and targeted reductions in the International Banking portfolio. Customer deposits were flat as growth in US Retail & Commercial was offset by a marginal decline in UK Corporate.
- The Group loan:deposit ratio improved from 104% to 102%, while the Core and Retail & Commercial loan:deposit ratios improved to 91% in the quarter.

30 September 2012 compared with 31 December 2011

- Significant falls in Non-Core (£29 billion), International Banking (£12 billion) and Markets (£10 billion) were the main elements in a £68 billion decrease in the Group's funded balance sheet in the period. Non-Core's focused asset disposal programme, including the sale of RBS Aviation Capital, planned loan portfolio reductions in International Banking and initiatives to reduce balance sheet usage in Markets drove these movements.

- Customer deposits were flat as strong deposit growth in UK Retail was offset by lower deposit balances in International Banking as a result of difficult market conditions and strong competition. Loans and advances to customers fell by 7%, largely as a result of sales and run-off in Non-Core.
- The Group loan:deposit ratio strengthened by 600 basis points from 108%, with Core and Retail & Commercial ratios improving by 300 basis points and 400 basis points, respectively.

Further analysis of the Group's liquidity and funding position is included on pages 97 to 104.
