**Report of the Compensation Committee**

The goal of the Compensation Committee is to ensure that the Company's compensation policies are suitable to attract and retain highly qualified executive officers and directors. Particular emphasis is placed on creating an appropriate blend of base and incentive compensation. Incentive compensation may also include both cash and equity components to align executives' interests with those of the shareholders.

The Committee reviews annually the compensation of the Company's executive officers. From time to time, the Committee may obtain advice from compensation and benefits consultants. In evaluating the level of base compensation, the Compensation Committee considers the relative compensation of executives in similar positions with similar responsibilities at wholesale distribution companies with comparable sales, breadth and complexity, and reviews the Company's performance during the prior fiscal year.

The salary of the Company's CEO was unchanged in fiscal 2003, being last adjusted in fiscal 2001. The Compensation Committee uses the same methodology to determine appropriate compensation for the CEO as it does for the two other executive officers. The Compensation Committee determined that a discretionary cash bonus of \$20,000 was appropriate for the CEO, as well as the two other executive officers, in recognition of the Company's financial performance in fiscal 2003.
