99.1 Press release dated July 17, 2003 by Netflix, Inc.

**Item 9. Regulation FD Disclosure**

The information provided in this Report is being furnished under Item 12 of Form 8-K and in accordance with SEC release 33-8216.

On April 17, 2003, Netflix, Inc. announced its financial results for the fiscal quarter ended June 30, 2003. The press release, which has been attached as Exhibit 99.1 discloses certain financial measures, in particular, Non-GAAP net income and free cash flow, that may be considered Non-GAAP financial measures. Generally, a Non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States. Management believes that Non-GAAP net income is a useful measure of operating performance because it excludes the non-cash impact of stock option accounting. In addition, management believes that free cash flow is a useful measure of liquidity because it excludes the non-operational cash flows from purchases and sales of short-term investments and cash flows from financing activities. However, these Non-GAAP measures should be considered in addition to, not as a substitute for, or superior to net income and net cash provided by operating activities, or other financial measures prepared in accordance with GAAP. The Non-GAAP measures included in our press release have been reconciled to the nearest GAAP measure.
