Item 8.01 Other Events

On May 2, 2005, EMC Corporation and Hewlett-Packard Company issued a press release announcing the settlement of all outstanding intellectual property litigation between EMC and HP. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

As part of the settlement between the two companies, HP will pay a net \$325 million balancing payment to EMC which can be satisfied through the purchase of complementary EMC products and services, such as the VMware product line, over the next five years as follows: HP will pre-pay \$65 million to EMC prior to the beginning of each of five consecutive periods (Purchase Periods). The Purchase Periods begin on September 1, 2005, December 1, 2006, December 1, 2007, December 1, 2008 and December 1, 2009. The pre-payments will be made on August 29, 2005, November 29, 2006, November 29, 2007, November 29, 2008 and November 30, 2009. During each Purchase Period, HP may use its pre-payment as credit for product and services purchases from EMC for HP's resale or internal use. Unused credits will expire at the end of each Purchase Period. For purposes of computing the amount of credit applied per dollar of EMC products that HP purchases, hardware products shall be deemed to have been purchased for 50% of the actual purchase price.

If EMC purchases HP products or services during the Purchase Periods, HP will be required to make an equivalent amount of additional product or services purchases from EMC of up to an aggregate amount of \$108 million over five years, with caps for each Purchase Period as follows: \$10,830,000 for the first Purchase Period, \$21,660,000 for each of the second, third and fourth Purchase Periods and \$32,490,000 for the final Purchase Period. If HP does not make the required amount of additional purchases of EMC products and services attributable to such Purchase Period, HP will be required to pay the difference to EMC in cash. For purposes of computing the amount of credit applied per dollar of HP products that EMC purchases, hardware products shall be deemed to have been purchased for 50% of the actual purchase price.
