**EXPLANATORY NOTE**

This Amendment No. 2 to Form 10-KSB for the year ended December 31, 2005 is being filed to amend Item 8A of the Annual Report on Form 10-KSB of American Access Technologies, Inc. which was filed on March 23, 2006 and amended on December 20, 2006. This filing does not reflect any subsequent information or events since December 31, 2005.

**PART II**

**ITEM 8A. CONTROLS AND PROCEDURES**

Under the direction of our Principal Executive Officer and Principal Financial Officer, we evaluated our disclosure controls and procedures as of December 31, 2005 and our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2005.

**Changes in Internal Control over Financial Reporting.**

The Company previously reported in August 2005 that an error in the calculation of the valuation of inventory as of December 31, 2004 was discovered by an employee in our accounting department. This matter was promptly disclosed to our audit committee and independent auditor. We determined that as of December 31, 2004, the Company had a deficiency in internal controls over the valuation of inventory. Specifically, an effective review of the labor and overhead allocation calculation was not performed. As a result of the ineffective review, an error in the year-end 2004 calculation was not detected prior to the issuance of the annual 2004 consolidated financial statements. This control deficiency resulted in the restatement of our annual 2004 consolidated financial statements which restated financial statements were filed on Form 10-KSB/A for the year ended December 31, 2004 which was filed August 15, 2005. Management concluded that this control deficiency constituted a material weakness as of December 31, 2004 and undertook remedial action to address and correct this weakness in our internal controls and disclosure controls relating to valuation of inventory. During the quarter ended December 31, 2005 we made material changes in internal control over financial reporting by designing and evaluating additional controls requiring a more comprehensive review of the labor and overhead allocation calculation, including performing a duplicate calculation. Management concluded such additional controls were designed and operated effectively and, accordingly, the weakness was corrected by the end of the quarter. These changes in our internal control over financial reporting have materially affected our internal control over financial reporting during the quarter ended December 31, 2005.

**ITEM 6. EXHIBITS**

**EXHIBIT INDEX**

31.1 Section 302 Certifications of the Principal Executive Officer and Principal Financial Officer.

32.1 Section 1350 Certification of the Principal Executive Officer.
