COLUMBIA SPORTSWEAR COMPANY

PROXY STATEMENT

Annual Meeting of Shareholders

SUMMARY OF PROCEDURES

How Proxies Will Be Solicited. The Board of Directors of Columbia Sportswear Company, an Oregon corporation, is soliciting proxies to be used at the annual meeting of shareholders to be held at 3:00 p.m. Pacific Time on Thursday, May 17, 2007, at the Company's headquarters, located at 14375 NW Science Park Drive, Portland, Oregon 97229 for the purposes set forth in the accompanying Notice of Annual Meeting. This proxy statement, the form of proxy and our 2006 Annual Report will be mailed to shareholders on or about April 20, 2007, at our cost. The proxy statement and Annual Report are also available on our website at www.columbia.com and the website of the Securities and Exchange Commission at www.sec.gov. We will ask fiduciaries, custodians, brokerage houses and similar parties to forward copies of proxy materials to beneficial owners of the Company's stock, and we will reimburse these parties for their reasonable and customary charges for distribution expenses. Proxies will be solicited by use of the mail and the Internet, and our directors, officers and employees may also solicit proxies by telephone, fax, and personal contact. No additional compensation will be paid for these services. We have retained W.F. Doring & Co. to assist in the solicitation of proxies from nominees and brokers at an estimated fee of \$3,500 plus related out-of-pocket expenses.

Householding of Proxy Materials. The Securities and Exchange Commission has adopted rules that permit companies and intermediaries to satisfy the delivery requirements for proxy statements with respect to two or more shareholders sharing the same address by delivering a single proxy statement addressed to those shareholders. This process, which is commonly referred to as "householding," may be more convenient for shareholders and less expensive for companies. A number of brokers with accountholders who are Company shareholders will be householding our proxy materials. If you have received notice from your broker that it will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If at any time you no longer wish to participate in householding, please notify your broker or write to us at Columbia Sportswear Company, Attention: Investor Relations, 14375 NW Science Park Drive, Portland, Oregon 97229. If you currently receive multiple copies of the proxy statement and would like to request householding, please contact your broker.

Who Can Vote. Only shareholders of record at the close of business on March 22, 2007 (the record date) are entitled to notice of and to vote at the annual meeting or any adjournments of the annual meeting. At the close of business on March 22, 2007, 36,287,018 shares of the Company's Common Stock, the only authorized voting security of the Company, were issued and outstanding. Because shareholders are entitled to one vote per share, a total of 36,287,018 votes are entitled to be cast at the annual meeting.

How You Can Vote. Mark your proxy, sign and date it, and return it in the enclosed postage-paid envelope. To ensure your vote is counted, we must receive your proxy at or before the annual meeting. All of your shares that have been properly voted and not revoked will be voted at the annual meeting in accordance with your instructions. If you sign your proxy card but do not give voting instructions, the shares represented by your proxy will be voted as recommended by the Board of Directors.

How You Can Revoke Your Proxy or Change Your Vote. You can revoke your proxy at any time before it is voted at the annual meeting by:

Sending written notice of revocation bearing a later date than the date of the proxy to the Secretary;

Table of Contents

Submitting to the Secretary a later-dated proxy relating to the same shares; or

Attending the annual meeting and voting in person. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the meeting.

Any written notice revoking a proxy should be sent to Columbia Sportswear Company, Attention: Peter J. Bragdon, Vice President, General Counsel and Secretary, 14375 NW Science Park Drive, Portland, Oregon 97229, or hand-delivered to the Secretary at or before the vote at the annual meeting.

Board Meetings. The Board of Directors met seven times in 2006. Four executive sessions of the Board of Directors were held in 2006. Each director except Mr. Stanton attended at least 75 percent of the total number of meetings of the Board of Directors and of any committee on which he or she served in 2006. We do not maintain a formal policy regarding director attendance at annual shareholder meetings; however, we encourage directors to attend the annual meeting of shareholders. Seven directors attended our 2006 annual meeting of shareholders.

Board Committees. The Board of Directors has designated three standing committees. The Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee each operate under a written charter that is available for review on our website at www.columbia.com. The current membership of each committee and its principal functions, as well as the number of times it met during fiscal year 2006, is described below.

Audit Committee. The Audit Committee is composed of Messrs. George, Bryant, and Stanton. The Board of Directors has determined that each member of the Audit Committee meets all applicable independence and financial literacy requirements. Governance Committee develops and recommends corporate governance guidelines and standards for business conduct and ethics, identifies individuals qualified to become Board members, and makes recommendations regarding nominations for director. The Nominating and Corporate Governance Committee will consider individuals recommended by shareholders for nomination as director in accordance with the procedures described under Director Nomination Policy below. The Nominating and Corporate Governance Committee also oversees the annual self-evaluations of the Board and its committees and makes recommendations concerning the size, structure, composition and membership of the Board of Directors and its committees. The Nominating and Corporate Governance Committee met four times in 2006.

Director Nomination Policy. Shareholders may recommend individuals for consideration by the Nominating and Corporate Governance Committee to become nominees for election to the Board of Directors by submitting a written recommendation to the Nominating and Corporate Governance Committee c/o Peter J. Bragdon, Vice President, General Counsel and Secretary, Columbia Sportswear Company, 14375 NW Science Park Drive, Portland, Oregon 97229. Communications should be sent by overnight or certified mail, return receipt requested. Submissions must include sufficient biographical information concerning the recommended individual, including age, five-year employment history with employer names and a description of the employer's business, whether the individual can read and understand financial statements, and board memberships, if any, for the Nominating and Corporate Governance Committee to consider. The submission must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders. Recommendations received by December 31, 2007 will be considered for nomination at the 2008 Annual Meeting of Shareholders. Recommendations received after December 31, 2007 will be considered for nomination at the 2009 Annual Meeting of Shareholders.

Following the identification of the director candidates, the Nominating and Corporate Governance Committee meets to discuss and consider each candidate's qualifications and determines by majority vote the candidate(s) who the Nominating and Corporate Governance Committee believes will best serve the Company. In evaluating director candidates, the Nominating and Corporate Governance Committee considers a variety of factors, including the composition of the Board as a whole, the characteristics (including independence, diversity, age, skills and experience) of each candidate, and the performance and continued tenure of incumbent Board members. The Committee believes that director candidates should possess high ethical character, business experience with high accomplishment in his or her respective field, the ability to read and understand financial statements, relevant expertise and experience, and the ability to exercise sound business judgment. Candidates must also be over 21 years of age. In addition, the Committee believes at least one member of the Board should meet the criteria for an audit committee financial expert as defined by the Securities and Exchange Commission rules, and that a majority of the members of the Board should meet the definition of independent director under the applicable NASDAQ listing and Securities and Exchange Commission rules. The Committee also believes key members of our management should participate as members of the Board.

Related Transactions Approval Process. Our Nominating and Corporate Governance Committee generally approves in advance any transactions with related persons pursuant to our related person transaction approval policy. Our policy requires that the Committee review the material facts of any transaction that could potentially qualify as a related person transaction as defined in applicable Securities and Exchange Commission rules and either approve or disapprove of our entry into the transaction. If advance Committee approval is not feasible, the related person transaction is considered, and if the committee determines it to be appropriate, ratified at the Committee's next regularly scheduled meeting. In determining whether to approve or ratify a transaction, the Committee takes into account, among other factors it deems to be appropriate, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated person under the same or similar circumstances and the extent of the related person's direct or interest in the transaction. If a related person transaction is ongoing, the Committee may establish guidelines for management to follow in its ongoing dealings with the related person. Thereafter, the Committee reviews and assesses ongoing relationships with the related person annually to see that they are in compliance with the Committee's guidelines and are appropriate.

Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors, and persons who own more than 10% of the Common Stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Executive officers, directors, and beneficial owners of more than 10% of the Common Stock are required to furnish to us copies of all section 16(a) reports they file. Based solely on a review of reports that we received and on written representations from reporting persons regarding compliance, we believe that all section 16(a) transactions were reported on a timely basis, except that reports on Form 4 for 28 sale transactions completed on seven trading days were filed late by Ms. Bany.

AUDIT COMMITTEE REPORT

The Audit Committee's role is to provide governance, guidance, and oversight regarding financial information provided by the Company to the public or governmental bodies, the Company's systems of internal controls, and the Company's auditing, accounting, and financial reporting processes in general. The Audit Committee regularly meets with management and the Company's independent auditors, Deloitte & Touche LLP, to discuss, among other things, the preparation of financial statements, including key accounting and reporting issues. In accordance with the Audit Committee charter, the Audit Committee also oversees the relationship between the Company and its outside auditors, including recommending their appointment, reviewing the scope and pre-approving their services and related fees, and assessing their independence.

The Audit Committee has:

Reviewed and discussed with management and Deloitte & Touche LLP the audited financial statements;

Discussed with Deloitte & Touche LLP the matters required to be discussed under generally accepted auditing standards and Statement on Auditing Standards No. 61 (Communication with Audit Committees);

Received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees);

Reviewed and approved the amount of fees paid to Deloitte & Touche LLP for audit and non-audit services, and discussed whether Deloitte & Touche LLP's provision of non-audit services was compatible with maintaining its independence; and

Established policies and procedures under which all audit and non-audit services performed by the Company's independent auditors must be approved in advance by the Audit Committee.

In considering the nature of the services provided by Deloitte & Touche LLP, the Audit Committee determined that these services are compatible with the provision of independent audit services. The Audit Committee discussed these services with Deloitte & Touche LLP and Company management to determine whether or not they are permitted under the rules and regulations concerning auditor independence promulgated by the Securities and Exchange Commission to implement the Sarbanes-Oxley Act of 2002, as well as the American Institute of Certified Public Accountants.

Based on the Audit Committee's review and the meetings, discussions and reports described above, and subject to the limitations of the Audit Committee's role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements for the year ended December 31, 2006, be included in the Company's Annual Report on Form 10-K.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Objectives

Leadership and motivation of our executive officers are critical to the Company's long-term success. We believe our executive officer compensation program enables us to attract, retain and motivate key high-quality executive officers who are primarily responsible for the long-term success of the Company. Our executive officer compensation program also seeks to align these officers' compensation with our short- and long-term operating and stock market performance. We have designed this program to achieve these objectives by:

Providing total compensation that is competitive with other companies in our industry;

Linking bonuses to corporate and individual performance; and

Aligning management interests with shareholder interests by tying executive officer compensation in part to long-term shareholder returns.

The market for high quality executive officers in our industry is competitive. As with any company, part of attracting and keeping the executive officers we want involves offering total compensation packages that are competitive with those offered by other companies. In our view, a competitive pay package in our industry includes a salary that guarantees a minimum level of compensation for an executive officer, a meaningful bonus tied to achievement of both corporate and individual objectives, equity incentives that offer significant rewards if the market price of our common stock increases in the future, and benefits consistent with what is offered by similar companies. The total compensation package for our executive officers is substantially weighted toward incentive compensation tied to corporate and individual performance and equity incentives. Therefore, when targeted performance levels are not achieved and/or our stock decreases, executive officer compensation is substantially reduced. When targeted performance levels are exceeded and our stock price increases, executive officer compensation is substantially increased.

We have no severance payment arrangements and no change of control agreement with any of our named executive officers.

Compensation Process

The Board of Directors or the Compensation Committee makes all executive officer compensation decisions. Each year, the Committee reviews and evaluates the compensation paid to our executive officers and determines the base salary, target bonus and the equity related grants for each executive officer.

In determining the total compensation for each executive officer, the Compensation Committee considers the specific recommendations of the Company's President and Chief Executive Officer and the Vice President of Human Resources, input from the Committee's outside compensation consultant, and the Committee's own assessment of the executive officer's performance, the executive officer's expectations and other factors it deems relevant.

Our President and Chief Executive Officer's and our Vice President of Human Resources' recommendations to the Compensation Committee typically include discussion of the role and responsibilities of the executive officer within the Company, the performance of the executive officer, the expected future contributions of the executive officer, the executive officer's own expectations, and competitive and market considerations. Although our President and Chief Executive Officer and our Vice President of Human Resources make recommendations regarding the executive officers, neither participates in the discussions concerning his or her own compensation. Our President and Chief Executive Officer does not make recommendations regarding his own compensation, which is solely the responsibility of the Compensation Committee.

The Compensation Committee retained PricewaterhouseCoopers as its outside compensation consultant for 2006. The Committee chose PricewaterhouseCoopers primarily because of the competence, knowledge,

Table of Contents

background and reputation of the representative who advises the Committee. Among other things, PricewaterhouseCoopers provides the Committee with information about market trends in executive officer compensation, general information on compensation practices at other companies, specific data on the compensation paid to executive officers at peer companies, and analysis of performance measures used in incentive programs.

We use multiple compensation survey sources, including general industry surveys, retail/wholesale surveys, and apparel industry surveys. We participate in the Towers Perrin (retail/wholesale) and ICR Limited (apparel) specialty surveys. PricewaterhouseCoopers compiles the data from these sources and from surveys purchased from Mercer Human Resource Consulting (general industry) and Watson Wyatt Data Services (general industry). These surveys include companies that are both smaller and larger than the Company based on annual revenues and market capitalization; PricewaterhouseCoopers applies revenue-based regression analysis to the data for comparability purposes. We use the resulting information as a benchmark to evaluate each executive officer's base salary, total cash compensation (base salary plus target annual cash bonus) and total direct compensation (base salary plus target annual cash bonus plus expected value of long-term, equity incentives). In general, we target compensation for our executive officers at approximately the 50th percentile of the modified survey group for executive officers with similar job responsibilities.

PricewaterhouseCoopers reports on executive officer compensation matters and makes recommendations directly to the Compensation Committee. From time to time the Vice President of Human Resources provides information and feedback to PricewaterhouseCoopers on various compensation matters and uses PricewaterhouseCoopers as compensation consultants. Moreover, PricewaterhouseCoopers provides our Vice President of Human Resources and our President and Chief Executive Officer with copies of the information provided to the Committee.

Elements of Compensation

For 2006, our compensation program for named executive officers consisted of the following four main components:

Base salary;

Annual, short-term incentive compensation;

Long-term, equity-based incentive compensation consisting of performance-based restricted stock units (RSUs), and stock options; and

Benefits and perquisites.

We choose to build our compensation program for named executive officers around these elements because each individual component is useful in achieving one or more of the objectives of the program and we believe that, together, they have been and will continue to be effective in achieving our overall objectives.

Weighting of Elements

The use and weight of each compensation element is based on a subjective determination by the Compensation Committee of the importance of each in meeting our overall objectives. In general, we seek to put a significant amount of each named executive officer's total potential compensation at risk based on corporate, individual and stock price performance. As a result, compensation paid on an ongoing, current basis in the form of base salary, benefits and perquisites generally represents less than half of each named executive officer's potential total compensation at target performance levels.

Non-cash compensation includes equity grants of stock options and performance-based RSUs. Stock options provide long-term incentives to increase shareholder value as well as a retention mechanism for highly-valued

Table of Contents

named executive officers. Performance-based RSUs provide a similar incentive to stock options, but have some retention value even without stock price appreciation and also encourage the achievement of specific performance objectives. Annual compensation paid to our named executive officers, other than our President and Chief Executive Officer and our Chairman, in the form of cash generally represents approximately 60 percent, and consequently non-cash compensation generally represents approximately 40 percent, of each named executive officer's potential total compensation at target performance levels. Our President and Chief Executive Officer, who currently holds approximately 42 percent of our outstanding common stock, and our Chairman, who currently holds approximately 15 percent of our outstanding common stock, have not received, and in 2006 did not receive, any equity compensation awards. In general, the Committee's intention is to grant competitive equity compensation awards.

Base Salary

The Compensation Committee generally reviews and approves base salaries for named executive officers annually and in connection with promotions or changes in responsibilities. When determining salaries, the Compensation Committee takes into account survey group data, as well as each individual's job responsibility, experience level, individual performance, the amount and nature of the other compensation paid to the named executive officer and the named executive officer's own expectations. Each named executive officer's salary is reviewed annually and adjustments may be made when appropriate to reflect competitive market factors and the individual factors described above. Base salaries for our named executive officers generally have been at or below the 50th percentile of the survey group.

Short-term Incentive Compensation

Executive Incentive Compensation Plan. We have established an Executive Incentive Compensation Plan for executive officers that provides for the payment of bonuses to motivate and reward achievement of corporate objectives. The plan satisfies the requirements of Section 162(m) of the Internal Revenue Code for shareholder-approved, performance-based compensation. The Compensation Committee generally determines the structure of the overall short-term incentive program at the beginning of the year. In setting the structure and the amount of the overall bonus target, the Committee considers the Company's strategic goals and plan, its operational and financial budget, and other factors, all of which are designed to improve shareholder value. The maximum bonus payable to any executive officer under the plan for a calendar year is \$2 million.

Performance and Bonus Targets. The amount of the target bonus for each named executive officer is based on substantially the same factors as those factors used to determine salaries. The amount of the actual bonus paid under the plan to each named executive officer is based on the extent to which the Company meets a performance target set by the Compensation Committee, which consists of a net income goal, subject to specified adjustments, and constitutes 80 percent of the total bonus potentially payable to the executive officer. The remaining 20 percent of the total bonus is based on the named executive officer's performance during the year.

The portion of the bonus paid to a named executive officer under the plan based on the extent to which the Company meets the performance target may exceed his or her target bonus under the plan. For 2006, the total amount available to be paid under the plan to named executive officers other than our President and Chief Executive Officer based on the extent to which the Company meets the performance target was up to 24 percent of the named executive officer's base salary if company performance was 80 percent of target, up to 40 percent of the named executive officer's base salary if company performance was 100 percent of target, and up to 72 percent if company performance was 120 percent of target. For 2006 the total amount available to be paid under the plan to our President and Chief Executive Officer based on the extent to which the Company meets the performance target was up to 46 percent of his base salary if company performance was 80 percent of target, up to 110 percent of his base salary if company performance was 100 percent, and up to 198 percent of his base salary if company performance was 120 percent. Our President and Chief Executive Officer's target bonus amounts constitute a greater percentage of his base salary than the other named executive officers in part

Table of Contents

because, unlike the other named executive officers (excluding our Chairman), our President and Chief Executive Officer to date has not received equity compensation awards.

The target based on the Company's performance is set to align with the Company's strategic plan and expectations regarding the Company's performance. Over the past four years, the Company has achieved performance in excess of the target three times, but has not achieved the maximum performance level. The payout percentage over the past four years has been between approximately 82 percent and 108 percent of the participants' target award opportunity, with an average payout percentage over the past four years of 100.3 percent of the target award opportunity. Generally, the Compensation Committee sets the minimum and maximum performance target levels so that the relative difficulty of achieving the target level is consistent from year to year.

The Compensation Committee determines whether the named executive officer has met or exceeded the individual performance objectives, which are set early in the year by our President and Chief Executive Officer. This determination is based in large part on our President and Chief Executive Officer's assessment of the named executive officer's performance against those objectives. If the Compensation Committee determines that the named executive officer has met or exceeded the individual performance objectives and company performance was at least 65 percent of corporate performance target under the plan, the full bonus amount based on achievement of the individual performance objectives, which constitutes 20 percent of the named executive officer's total potential bonus, is awarded to the named executive officer. If the Compensation Committee determines that the named executive officer has not met the individual performance objectives, the corresponding bonus amount may be reduced or eliminated.

Committee Discretion. The Compensation Committee may reduce the amount payable under the Executive Incentive Compensation Plan to a named executive officer by up to 100 percent, based on factors that it determines warrant such a reduction, but historically has not exercised this discretion to any significant degree. The Committee also has the discretion, at or prior to the time it sets the performance target, to include or exclude any extraordinary items affecting the performance target and to adjust the performance target to take into account changes in accounting.

Equity-Based Incentives

General Approach to Equity Incentives and Grants. Equity-based incentives represent a direct link between executive officer compensation and shareholder returns. In light of this, we believe that offering equity incentives to our executive officers that become more valuable if the market price of our common stock increases provides an appropriate additional incentive to the executive officers to work toward this goal. In order to determine the amount and nature of the equity incentives to be granted to an executive officer, the Compensation Committee considers, in addition to the factors described above, awards previously granted to each individual, each individual's accumulated vested and unvested awards, the current value and potential value over time using stock appreciation assumptions for vested and unvested awards, the vesting schedule of the individual's outstanding awards, comparison of individual awards between executive officers and in relation to other compensation elements, shareholder dilution, and total accounting expense. Because our Chairman and our President and Chief Executive Officer each hold substantial amounts of our outstanding common stock, however, to date we have not granted equity-based incentives to these executive officers. In addition, we have no equity ownership requirements for executive officers.

Our equity awards to named executive officers take the form of performance-based RSUs and stock options. Each form of equity award constitutes approximately 50 percent of the overall long-term incentive we provide to named executive officers.

Restricted Stock Units. In 2006, we shifted toward granting RSUs to our executive officers in addition to stock options. Performance-based RSUs offer incentives based on the key operating measures of operating

Table of Contents

income growth and return on invested capital. We believe that RSUs offer similar incentives to stock options since they reward increases in the market price of the Company's Common Stock, and in that way tie the interests of executive officers to our shareholders' interests. Unlike stock options, however, these awards can provide retention value even if our stock price does not increase and also subject executive officers to the same downside risk experienced by shareholders. Further, because of the perceived value of RSUs, we have been able to offer somewhat reduced total grant values than we previously offered solely in the form of stock options. This has reduced the shareholder dilution associated with our equity incentive programs. Finally, we believe that RSUs and restricted stock will be used increasingly by other companies as the primary equity incentives and we will need to offer these types of incentives to remain competitive in attracting and retaining executive officers.

Stock Options. Prior to 2006, our primary long-term incentive compensation had been through granting of stock options. Stock options offer the possibility of very large gains if our stock appreciates significantly, but no value and little incentive if our stock price drops. Although we have shifted away from granting solely stock options to granting a mix of stock options and performance-based RSUs, we expect to continue to make annual stock option grants to motivate named executive officers. Stock options granted under our stock option plan have exercise prices not less than 100% of the closing market price of our common stock on the date of the option grant.

Vesting. All of our equity incentives are subject to vesting. Performance-based RSUs granted to named executive officers in 2006 vest on the first anniversary of the last day of a three-year performance period. The number of performance-based RSUs that vest are determined by reference to achievement of specified performance goals during the performance period. Twenty percent of the award, the individual performance component, is subject to forfeiture based on achievement of individual performance ratings. Each named executive officer will forfeit one-third of the individual performance component each time the named executive officer receives less than an "exceeds expectations" rating on any of the named executive officer's three annual evaluations in the performance period. Eighty percent of the award, the Company performance component, is subject to increase or forfeiture based on specified cumulative operating income and average return on invested capital levels in the performance period. If minimum levels of cumulative operating income and average return on invested capital are not met, each named executive officer will forfeit the entire company performance component of the award. Above these minimum levels, each named executive officer may be awarded from 25 percent to 200 percent of the target company performance component, depending on the relative achievement of the target levels of cumulative operating income and average return on invested capital. Generally, the Compensation Committee intends to set the minimum and maximum levels of cumulative operating income and average return on invested capital so that the relative difficulty of achieving these levels is consistent over each three-year performance period.

RSU vesting and stock option vesting are suspended during certain leaves of absence. The delayed vesting of our equity incentives provides a significant incentive for named executive officers to remain with the Company through the vesting period, particularly if our stock price has increased since the incentive was granted and/or is perceived to increase in the future.

Equity Granting Practices

Our practice has been to grant equity incentives to executive officers and non-executive employees on an annual basis, usually in the second quarter of each year. In connection with our transition to the use of both stock options and performance-based RSUs as named executive officer equity compensation, for 2006 these equity incentives were granted in the third quarter. Under our current written policy, annual equity incentives are granted at the Compensation Committee's first regularly scheduled meeting of the year, which usually is in January. The grants are made after completion of our annual performance review process. Individual grant amounts and all terms of the award are approved by the Committee at the meeting, and the exercise price per share for each stock option granted is the per share closing market price of our common stock on the grant date.

Table of Contents

Grants of equity incentives to non-executive employees residing in the United States generally are delegated to the Special Option Committee of our Board of Directors at the Compensation Committee's first regularly scheduled meeting of the year. The Compensation Committee approves the aggregate grant amounts and terms other than price at the meeting, after which the Special Option Committee determines which particular non-executive employees will receive grants and the specific amounts of any equity incentive that will be granted to the non-executive employee. The Special Option Committee then grants these equity incentives on the last trading day in February, and the exercise price per share for each stock option granted is the per share closing market price of our common stock on the grant date.

Grants of equity incentives to non-executive employees residing outside the United States generally are delegated to the Special Option Committee at the Compensation Committee's first regularly scheduled meeting of the year. The Compensation Committee approves the aggregate grant amounts and most terms other than price at the meeting. The Special Option Committee may approve terms necessary or advisable to adhere to local laws, and the Special Option Committee determines which particular non-executive employees will receive grants and the specific amounts of any equity incentive that will be granted to the non-executive employee. The Special Option Committee then generally grants these equity incentives on the last trading day in February, and the exercise price per share for each stock option granted is the per share closing market price of our common stock on the grant date. If it is not possible to grant the equity incentives on the last trading day in February because of administrative or other reasons, including the time needed to comply with local laws, the Special Option Committee will grant the equity incentives on the last trading day in March. Regardless, the exercise price per share for each stock option granted is the per share closing market price of our common stock on the particular grant date.

In addition, the Compensation Committee grants equity incentives to newly hired executive officers and for executive officer promotion or retention purposes. The Compensation Committee also delegates authority to the Special Option Committee to grant equity incentives to newly hired non-executive employees and for non-executive employee promotion or retention purposes. Equity incentives for newly hired executive officers and non-executive employees, and for non-executive employee promotion and retention purposes, are granted on the last trading day of the month in which the newly hired executive officer commences employment or in which the promotion or retention grant is made. Equity incentives for executive officer promotion and retention purposes are granted on the date the Compensation Committee authorizes the particular grant. In all of these cases, the exercise price per share for each stock option granted is the per share closing market price of our common stock on the particular grant date.

We have no program or practice to time equity incentive grants in connection with the release of material non-public information.

Benefits and Perquisites

We provide our named executive officers with benefits and perquisites consistent with what other similar companies provide. In 2006, our named executive officers were offered other benefits that were substantially the same as those offered to all U.S. employees. These benefits included a 401(k) plan and medical, dental and vision insurance.

Substantially all of our U.S. employees with more than 90 days service participate in our 401(k) plan. We have historically made discretionary matching and non-matching contributions. The non-matching contributions take the form of profit sharing. Our Board of Directors determines all contributions to the 401(k) plan.

We also provide an enhanced long-term disability benefit to our named executive officers. This benefit is designed to provide additional protection to our named executive officers in the event of catastrophic illness or disability.

Table of Contents

We provide our Chairman and our President and Chief Executive Officer and his dependents with health insurance at no cost to these executive officers, and we reimburse our Chairman and our President and Chief Executive Officer for health care plan deductibles, co-payments, and other out-of-pocket health care expenses up to a maximum aggregate amount of \$100,000 per individual and each dependent per year. We also pay certain club membership fees for our Chairman and our President and Chief Executive Officer.

Tax Considerations

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code when determining the compensation of executive officers. Section 162(m) limits the amount that we may deduct for compensation paid to the Chief Executive Officer and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. We believe that compensation paid under our executive officer incentive plans is generally fully deductible for federal income tax purposes. In various situations, however, the Committee may approve compensation that will not meet these requirements as a means to ensure competitive levels of total compensation for its executive officers. In any event, the Committee intends to maintain an approach to executive officer compensation that strongly links pay to performance.

The amounts set forth in Grant Date Fair Value of Stock and Option Awards are the total dollar amounts that may be recognized for each award for financial statement reporting purposes over the award's vesting schedule in accordance with SFAS 123R. For RSUs, the value is equal to the closing market price of our Common Stock on the grant date multiplied by the target number of RSUs that may be earned. For stock options, the value is calculated using the Black-Scholes value on the grant date. The values associated with RSUs reflect our accounting expense if target performance goals are met (but not exceeded) and may not correspond to either the actual amount expensed by the Company in future periods or the actual value eventually realized by the named executive officers, which depend on the extent to which performance conditions are ultimately met and the market value of our Common Stock in future periods. Assumptions used in the calculation of these amounts are described in Notes 2 and 13 of the Company's consolidated financial statements for the year ended December 31, 2006, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 6, 2007.

- (2) The amounts set forth in Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested represent the threshold number of RSUs that may be earned by each of the named executive officers during the July 20, 2006 through December 31, 2008 performance period, depending on the extent to which individual and company performance goals are met or exceeded. RSUs earned during the performance period will vest on December 31, 2009.
- (3) Calculated using a value of \$55.70 per share, the closing market price of the Company's Common Stock on December 29, 2006, the last business day of the year, multiplied by the threshold number of RSUs granted in 2006 that may be earned during the applicable performance period. This value may not correspond to the actual value that will be realized by the named executive officers, which depends on the extent to which performance conditions are ultimately met and the value of our Common Stock in future periods.

DIRECTOR COMPENSATION

Our director compensation program is intended to enable us to:

Attract and retain qualified non-employee directors by providing total compensation that is competitive with other companies; and

Align directors' interests with shareholders' interests by including equity as a significant portion of each non-employee director's compensation package.

In setting director compensation, we consider compensation offered to directors by other companies, the amount of time that our directors spend providing services to us, and the experience, skill and expertise that our directors have. Directors who are employees of the Company receive no separate compensation for their service as directors.

Beginning May 18, 2006, each director who is not an employee of the Company receives:

a \$60,000 annual board service fee;

a \$10,000 annual committee service fee for each committee on which the director serves as a member;

a \$15,000 annual committee chair fee for each committee (except the Audit Committee) that the director serves on as chair;

Table of Contents

a \$20,000 annual Audit Committee chair fee if the director chairs the Audit Committee;

a \$3,500 Company merchandise allowance;

reasonable out-of-pocket expenses incurred in attending meetings; and

an annual equity award as follows:

a stock option grant valued at \$50,000 (using the Black-Scholes valuation method) to purchase shares of our Common Stock at an exercise price equal to the closing market price of our Common Stock on the date of grant, and

a grant of restricted stock units valued at \$50,000 based on the closing market price of our Common Stock on the date of grant. One-third of the stock options become exercisable and one-third of the shares of restricted stock units vest annually on each anniversary of the grant date. Directors may elect to receive equity compensation in lieu of the \$60,000 cash retainer, allocated between stock options and restricted stock unit awards and vesting fully on the first anniversary of the grant date. In 2006, two of our seven non-employee directors elected to receive an option to acquire 2,065 shares of Common Stock and 601 restricted stock units in lieu of the \$60,000 annual fee for the twelve month period beginning May 18, 2006.

For a description of director compensation prior to May 18, 2006, please review our proxy statement for our 2006 annual meeting of shareholders.

- (1) Annual cash fees are approved by the Compensation Committee and paid quarterly beginning on the date the director is elected by shareholders at our annual meeting of shareholders. As a result, fees earned or paid in cash during the 2006 fiscal year are less than the annual director fees described above because the Compensation Committee approved an increase in director compensation on May 18, 2006. This table does not include reimbursement for reasonable out-of-pocket expenses incurred in connection with meeting attendance. Ms. Bany and Mr. Klenz each received equity in lieu of \$45,000 of the annual fees due to each of them for 2006 service and Mr. Babson received equity in lieu of \$15,000 of the annual fees due to him for 2006 service. Equity grants in lieu of fees are included in the Stock Awards and Option Awards columns as described in footnote 2 below.
- (2) The amounts set forth in Stock Awards and Option Awards in the table above are the dollar amounts recognized for equity awards for financial statement reporting purposes in accordance with SFAS 123R. This includes amounts related to awards granted in and prior to 2006, and amounts related to awards received in lieu of fees. The following table sets forth the aggregate number of stock awards and the aggregate number of option awards outstanding at December 31, 2006, for each of our directors, as well as Grant Date Fair Value of 2006 Stock and Option Awards.

These amounts may not correspond to the actual value eventually realized by the director, which depends in part on the market value of our Common Stock in future periods. Assumptions used in the calculation of these amounts are described in Notes 2 and 13 of the Company's consolidated financial statements for the year ended December 31, 2006, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 6, 2007.
