The Fund is authorized to borrow funds and utilize leverage in amounts not exceeding thirty-three and one-third percent of its total assets. The Fund's ability to leverage creates an opportunity for increased net income, but at the same time poses special risks. If the income from the securities purchased with borrowed funds is not sufficient to cover the cost of borrowing, the net income of the Fund will be less than if borrowing had not been used, reducing the amount available for distribution to shareholders.
