Trina Solar Announces Management Changes

Changzhou, China October 2, 2007 Trina Solar Limited (NYSE: TSL) (Trina Solar or the Company), a leading integrated manufacturer of solar photovoltaic products from the production of ingots, wafers and cells to the assembly of PV modules founded in 1997, announced today the following management changes at the Company:

Mr. Anthony Chia has been appointed as Vice President of Quality. Mr. Chia has more than 21 years of experience in quality management, involving the introduction and implementation of numerous quality control systems, including 6-Sigma, TL9000, TS16949, ISO2000, ISO14000, UL and TUV RoHS. Mr. Chia reports to Sean Tzou, Trina Solar's Chief Operating Officer.

Prior to joining Trina Solar, Mr. Chia served as Director of Service and Quality for SANMINA-SCI and as Senior Manager of Quality Assurance at Motorola Singapore and China. Mr. Chia holds an MBA from National University of Singapore.

Mr. Dave Seburn has been appointed as Vice President, Polysilicon. Mr. Seburn is responsible for evaluating potential upstream investments in polysilicon production, including road map development for upstream investments and implementation oversight of related projects. Mr. Seburn reports directly to Jifan Gao, Trina Solar's Chief Executive Officer.

Mr. Seburn comes to Trina Solar after ten years of experience at REC Silicon, where he last served as Vice President of Operations. During his tenure, Mr. Seburn lead oversight of both silane and polysilicon manufacturing plants and facilitated process and organizational changes that optimized productivity at both plants. Mr. Seburn holds an M.S. degree in Chemical Engineering from the University of Houston.

Mr. Mohan Naranayan, Vice President of Technology, left the Company on September 30, 2007 due to personal reasons.

We are pleased and excited to welcome such talented individuals as Mr. Chia and Mr. Seburn to the Trina Solar team, said Mr. Jifan Gao, Trina Solar's Chairman and CEO. Both gentlemen will greatly strengthen our resources in quality control, long-term cost reduction and raw material procurement as we continue to pursue a leading position in the global solar PV market.

Table of Contents

At the same time, we regret to announce the departure of Mr. Naranayan as Vice President of Technology. We recognize his significant contributions to our growth at Trina Solar and we wish him the best in his future endeavors, said Mr. Gao.

About Trina Solar Limited:

Trina Solar Limited (NYSE: TSL), through its wholly-owned subsidiary Changzhou Trina Solar Energy Co. Ltd, is a well recognized manufacturer of high quality modules and has a long history as a solar PV pioneer since it was founded in 1997 as a system installation company. Trina Solar is currently one of the few PV manufactures that has developed a vertically integrated business model from the production of monocrystalline ingots, wafers and cells to the assembly of high quality modules. This integrated value chain helps to ensure that high quality products can be delivered to its end customers around the globe, including a number of European countries, such as Germany, Spain and Italy. Trina Solar's solar modules provide reliable and environmentally-friendly electric power for residential, commercial, industrial and other applications worldwide. Trina Solar successfully completed its initial public offering on the New York Stock Exchange in December, 2006 and its ADSs are traded under the ticker symbol TSL. Trina Solar Signs Equipment Supply Contract with Meyer Burger AG

Changzhou, China October 3, 2007 Trina Solar Limited (NYSE: TSL) (Trina Solar or the Company), a leading integrated manufacturer of solar photovoltaic products from the production of ingots, wafers and cells to the assembly of PV modules, announced today that it has signed an agreement with Meyer Burger AG for the supply of ID cropping, band and wire saws used for the production of its monocrystalline and multicrystalline wafers and cells. The contract, valued over CHF180 million (US\$154million), covers equipment and delivery schedule to meet the Company's capacity expansion goals through 2010.

We are pleased to enter into this supply agreement with Meyer Burger and to work with one of the most successful manufacturers of high-precision machines for slicing silicon into wafers, stated Mr. Jifan Gao, Trina Solar's Chairman and Chief Executive Officer. Both Meyer Burger and Trina Solar share a commitment to the highest level of quality for our products and we look forward to working together in the future.

We are pleased to be able to support Trina Solar with the latest ID/OD, band and wire saw technology as it expands its wafer capacity and makes progress on its technology roadmap to reduce wafer thickness, stated Peter Pauli, Meyer Burger's CEO. We expect our subsidiary company Meyer Burger Machinery Shanghai to provide Trina Solar with the necessary level of customer support and quality assurance and we look forward to continue our successful cooperation in the future.

initial public offering on the New York Stock Exchange in December, 2006 and its ADSs are traded under the ticker symbol TSL. For further information, please visit Trina Solar's website at <http://www.trinasolar.com>

About Meyer Burger Technology AG:

Meyer Burger is a leading supplier of high-precision machines with wire saws, band saws and ID/OD slicing systems for cutting hard and brittle materials such as silicon, sapphire or other crystals into wafers, prisms and other shapes. The company's offering includes various models of high-precision machines, spare parts, wear and tear parts, consumables, regrooving service, process know-how, after-sales service, training and other services. Meyer Burger's machines, skills and technologies are mainly used in the solar industry (photovoltaic), the semiconductor industry and in the optical industry. These three markets all require the thinnest possible wafers of silicon, sapphire or other crystals for the manufacture of solar modules, integrated circuits or high-performance LED's.
