Record Date and Quorum

This Proxy Statement, the Proxy Card and the Corporation's Annual Report to Stockholders on Form 10-K are being mailed on or about April 4, 2008 to holders of record of the Common Stock at the close of business on March 12, 2008 (the Record Date). Each outstanding share of Common Stock entitles the holder thereof as of the record date to one vote (or where a part share shall be owned, a proportionate part of the vote of one share) on each matter to come before the Annual Meeting. As of the Record Date, excluding treasury stock, there were 23,643,438 shares of Common Stock outstanding. There are no other outstanding voting securities of the Corporation other than the Common Stock.

The presence at the Annual Meeting in person or by proxy of the holders of a majority of the shares of Common Stock outstanding and entitled to vote will constitute a quorum for the transaction of business. Abstentions and broker non-votes are treated as present and entitled to vote, and therefore are counted in determining the existence of a quorum. At the Annual Meeting, election inspectors will determine whether or not a quorum is present.

A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner with respect to such item.

Table of Contents

Proxies

If the enclosed proxy card (the Proxy Card) is properly signed, dated and returned to the Corporation, the individuals identified as proxies thereon will vote the shares represented by the Proxy Card in accordance with the directions noted thereon. If you do not indicate how your shares should be voted on a matter, the shares represented by your properly completed Proxy Card will be voted as the Board of Directors recommends. The Corporation's management does not know of any matters other than those discussed in this Proxy Statement that will be presented at the Annual Meeting. If other matters are presented, all proxies will be voted in accordance with the recommendations of the Corporation's Board of Directors unless the stockholder otherwise specifies in the Proxy Card.

Returning your completed Proxy Card will not prevent you from voting in person at the Annual Meeting if you are present and wish to vote. In addition, you may revoke your proxy at any time before it is voted by sending written notice of revocation or by submission of a properly executed proxy bearing a later date to the Secretary of the Corporation prior to the Annual Meeting at the Corporation's principal executive offices at the address above.

(Item 1 on the Proxy Card)

Election of Directors

The Bylaws of the Corporation provide that the number of directors shall be not less than three nor more than twelve members, the exact number of which shall be determined from time to time by resolution adopted by the Board of Directors, and that the Board shall be divided into three classes, designated Class I, Class II and Class III. Each class shall consist, as nearly as may be possible, of one-third of the total number of directors constituting the entire Board of Directors. By resolution of the Board of Directors dated November 20, 2007, the Board of Directors increased the number of members on the Board of Directors from seven to nine effective January 1, 2008; five in Class I, two in Class II and two in Class III and the appointments of the directors in such Classes expire at the Annual Meetings of the Corporation in 2011, 2009 and 2010, respectively.

Mr. Peter Fearn and Mr. Joachim Roeser were elected to the Board in accordance with Article III of the Bylaws to fill the vacancy on the Board created as a result of the retirement of Mr. Charles M. Hale and Mr. Samuel A. Haubold on May 6, 2008. Mr. Fearn and Mr. Roeser have been nominated for election as Class I Directors to the Board of Directors to serve until the Corporation's 2011 Annual Meeting. See

Management Nominees for Director for information with respect to Mr. Fearn and Mr. Roeser. The Corporation believes that Mr. Fearn and Mr. Roeser are willing to be elected and to serve. In the event Mr. Fearn and Mr. Roeser are unable to serve or are otherwise unavailable for election the incumbent Board may or may not select a substitute nominee. If a substituted nominee is selected, all proxies will be voted for the person selected.

The election of directors at the Annual Meeting requires a plurality of the votes actually cast by the stockholders present (in person or by proxy) at the meeting and entitled to vote. There is no cumulative voting as to any matter, including the election of directors.

The Board of Directors recommends a vote FOR the election of the nominee directors.

PROPOSAL TWO

(Item 2 on the Proxy Card)

Re-election of a Current Director

The Bylaws of the Corporation provide that the number of directors shall be not less than three nor more than twelve members, the exact number of which shall be determined from time to time by resolution adopted by the Board of Directors, and that the Board shall be divided into three classes, designated Class I, Class II and Class III. By resolution of the Board of Directors dated November 20, 2007, the Board of Directors increased the number of members on the Board of Directors from seven to nine effective January 1, 2008; five in Class I, two in Class II and two in Class III and the appointments of the directors in such Classes expire at the Annual Meetings of the Corporation in 2011, 2009 and 2010,

respectively.

One director in Class I, Mr. Hugh G. C. Aldous, whose term expires at the upcoming Annual Meeting, has been nominated for re-election to serve until the Corporation's 2011 Annual Meeting. See Management Nominees for Director for information with respect to Mr. Aldous. The Corporation believes that Mr. Aldous is willing to be elected and to serve. In the event that the nominee is unable to serve or is otherwise unavailable for election the incumbent Board may or may not select a substitute nominee. If a substituted nominee is selected, all proxies will be voted for the person selected.

Table of Contents

The Board of Directors recommends a vote FOR the re-election of the nominee current director.

PROPOSAL THREE

(Item 3 on the Proxy Card)

Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee has appointed the accounting firm of PricewaterhouseCoopers LLP to serve as independent registered public accounting firm of the Corporation with respect to the 2008 fiscal year to examine the financial statements of the Corporation for the fiscal year ending December 31, 2008 and to perform other appropriate accounting services. PricewaterhouseCoopers LLP served as the Corporation's independent registered public accounting firm for fiscal year 2007.

A representative of PricewaterhouseCoopers LLP is expected to be present at the Annual Meeting to respond to questions and to make a statement if such representative desires to do so. If the stockholders do not ratify this appointment by the affirmative vote of a majority of the shares represented in person or by proxy at the Annual Meeting, the Audit Committee will consider other independent registered public accounting firms.

The Board of Directors recommends a vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as the Corporation's independent registered public accounting firm for the fiscal year ending December 31, 2008.

BACKGROUND TO PROPOSALS FOUR, FIVE, SIX AND SEVEN

Adoption of New Stock Option Plans

The Board of Directors initially adopted in May 1998, and the stockholders initially approved in May 1998 (and amended and re-approved in May 2000 and May 2004), the following stock option plans: The Octel Corp. Performance Related Stock Option Plan (PRSOP), The Octel Corp. Company Share Option Plan (CSOP), The Octel Corp. Non-Employee Directors' Stock Option Plan (NEDs' Stock Option Plan), and The Octel Corp. Savings-Related Share Option Scheme (Savings Related Plan) (collectively, the Plans). These Plans, which were registered in the name of Innospec in July 2006, have provided successfully for the issuance of stock options for shares of Common Stock to directors, officers, and certain employees of the Corporation and are due to terminate at the end of their term in May 2008.

Edgar Filing: INNOSPEC INC. - Form DEF 14A

On February 19, 2008 the Board approved for submission to the Corporation's stockholders new versions of each of these plans (the New Stock Option Plans) which are more fully described in each of the proposals below.

The Board approved the New Stock Option Plans to increase the number of stock options available for equity based incentive grants to enable the Corporation to continue to attract, motivate, and retain qualified directors, officers, employees, and other individuals. More specifically, the goals of the New Stock Option Plans are:

- to more closely align director and employee compensation with the interests of the stockholders;
- to establish compensation levels that are necessary to attract and retain highly qualified executives;

Table of Contents

- to increase focus on achievement of exceptional performance by providing performance share options, with demanding targets, as a reward for delivery of high performance and meeting strategic long-term objectives; and
- to encourage stock ownership by directors, executives and other employees.

Summary of Common Provisions of the New Stock Option Plans

The following is a summary of the common provisions of the New Stock Option Plans. A summary of the unique provisions of each plan is contained in the proposal relating to the approval of each plan. Both summaries are qualified in their entirety by reference to each of the New Stock Option Plans, copies of which are attached hereto as Appendices A through D.

Administration

The New Stock Option Plans are administered by the Compensation Committee (the *Committee*), which is a committee of the Board consisting of three or more non-employee directors. Under the terms of the 2008 CSOP and 2008 Sharesave Plan, the powers of administration are entrusted to the Board or a duly authorized committee thereof, and the Compensation Committee has been entrusted with the powers of administration. The Board or Compensation Committee may administer the New Stock Option Plans as it deems fit so long as it acts within the rules of the relevant stock plan. All Board or Compensation Committee decisions are final and conclusive.

The Corporation is required at all times to keep available either sufficient unissued shares of Common Stock or sufficient treasury shares to satisfy the exercise of all of the options granted under the New Stock Option Plans which have neither lapsed nor been exercised or to ensure that sufficient issued shares of Common Stock will be available to satisfy the exercise of granted options.

The cost of introducing and administering the New Stock Option Plans shall be borne by the Corporation.

Take-Over, Reconstruction and Amalgamation and Liquidation

In the event any company becomes a parent of the Corporation as a result of a tender offer for all of the shares of the Corporation or all of the shares of the same class as the shares underlying the options, options may be exercised within six months of the acquiring company becoming the parent provided conditions attached to the options have been satisfied, or the option holder may enter into an agreement with the new parent of the Corporation whereby options in a different company are exchanged for the current options.

In the event of a voluntary winding-up of the Corporation, options may be exercised during the period of six months starting on commencement of such winding-up, provided that the issuance of shares upon such exercise shall first be authorized by the liquidator or the court, if appropriate, at the sole cost and expense of the option holder.

Adjustments

In the event the Corporation undergoes a capitalization issue, subdivision, consolidation, or reduction of share capital, the Committee shall proportionately adjust the number of shares over which an option is granted and the share price (provided that no adjustment shall have the effect of reducing the share price below nominal value and that where an option is intended to take effect as an ISO (as defined below), the share price shall not be reduced below the fair market value of a share as at the date of grant). Where a New Stock Option Plan is subject to the approval of HMRC (as defined below), such adjustment will require the prior approval of HMRC.

Restrictions on Options

Options granted under the New Stock Option Plans may not be transferred, assigned, or charged.

Table of Contents

Governing Law

The New Stock Option Plans and all options granted under such plans shall be governed by and construed in accordance with the laws of England and Wales, except for Part B of the 2008 Sharesave Plan (as defined below), which is governed by and determined in accordance with the laws of the State of Delaware.

US Securities Law

Options granted under the New Stock Option Plans have not been and will not be registered under the Securities Act of 1933, as amended. Any shares issued pursuant to the exercise of an option will be registered on a registration statement on Form S-8.

New Plan Benefits

The benefits or amounts that may be received by or allocated to each of the following persons or groups under the New Stock Option Plans for the upcoming fiscal year cannot be determined as they are dependent upon a number of factors, including the discretion of the Board, the fair market value of the Common Stock at various future dates, the performance of the individuals, and, in the case of the 2008 PRSOP, the attainment of certain demanding business performance conditions.

Certain US Federal Income Tax Consequences

The following is a brief summary of certain US federal income tax consequences to recipients of option awards under the New Stock Option Plans (the "Recipients") and such summary does not purport to be a complete enumeration or analysis of all potential relevant tax effects. This summary is based upon the current provisions of the Internal Revenue Code of 1986, as amended (the "Code"), the Treasury Department regulations promulgated thereunder, and administrative and judicial interpretations thereof, all of which are subject to change, possibly on a retroactive basis. This discussion is limited to the US federal income tax consequences to individuals who are citizens or residents of the US, other than those individuals who are taxed on a residence basis in a foreign country. The US federal income tax law is technical and complex and the discussion below represents only a general brief summary. Each Recipient of an option award is urged to consult his or her own tax advisor as to the specific tax consequences to such recipient of the grant and the disposition of Common Stock.

Nonqualified Stock Options. A Recipient who is granted a nonqualified stock option ("NQO"), which generally is a stock option that is not an ISO (as defined below), generally does not recognize any taxable income upon the grant of the option, and the company that is deemed to grant such NQO is generally not entitled to a corresponding deduction. Upon exercising such NQO, the Recipient generally recognizes ordinary income (subject to wage and employment tax withholding) equal to the excess of the fair market value of the stock acquired over the option price of such NQO. The amount of such excess is generally determined by reference to the fair market value of the applicable stock on the date of exercise. The Recipient's basis in the stock received is generally equal to such stock's fair market value on the date of exercise. Generally, the company that is deemed to grant such NQO is entitled to a deduction equal to the ordinary compensation taxable to the Recipient.

Edgar Filing: INNOSPEC INC. - Form DEF 14A

Section 409A. Recipients participating in nonqualified deferred compensation plans may be subject to Code Section 409A (409A). 409A provides that all amounts deferred under a nonqualified deferred compensation plan are included in income when deferred (or, if later, when the amounts are no longer subject to a substantial risk of forfeiture), unless certain requirements established by 409A are satisfied. These requirements include rules regarding the timing of the deferral and distribution elections as well as permissible distribution events. If an amount of deferred compensation is required to be included in income under 409A, that amount is subject to ordinary income tax, plus an additional twenty-percent (20%) income tax, and in certain circumstances, interest may be assessed on tax underpayments. Elections to defer compensation to a later date must be made before the close of the tax year preceding the year during which the compensation is earned. There are also several specified exceptions in the regulations that permit elections to be made at a later date under certain circumstances.

Table of Contents

Generally, nonqualified deferred compensation plans include plans and arrangements that provide for the deferral of compensation, but do not include tax-qualified plans and plans that provide vacation leave, sick leave, compensatory time, disability pay or death benefits. A plan provides for deferral of an employee's compensation if, under the plan, and the relevant facts and circumstances, the employee has a legally binding right during a taxable year to compensation that is or may be payable to the employee in a later taxable year. The categories of plans that are aggregated for certain purposes under 409A are : (i) account balance plans where deferrals of compensation are at the election of the employee, (ii) account balance plans where deferrals of compensation are not at the election of the employee, (iii) non-account balance plans, (iv) separation pay arrangements providing benefits under a window program or upon involuntary separation from service, (v) in-kind benefits or reimbursements of expenses that do not constitute a substantial portion of the employee's compensation for services or separation, (vi) split-dollar life insurance arrangements, (vii) certain amounts deferred under foreign plans, (viii) stock rights and (ix) all other plans.

Incentive Stock Options. A Recipient who is granted, or exercises, an incentive stock option within the meaning of Code Section 422 (an ISO) generally does not recognize taxable income. However, when a Recipient exercises an ISO, the excess of the corresponding stock's fair market value on the exercise date over the option price of such ISO will be included in the Recipient's alternative minimum taxable income and thereby may subject the Recipient to an alternative minimum tax. Such alternative minimum tax may be payable even though the Recipient receives no cash upon the exercise of such ISO with which to pay such tax. Upon a Recipient's disposition of stock acquired pursuant to the exercise of an ISO (i) more than one year after the date of exercise of the ISO, and (ii) more than two years after the date of grant of the ISO (collectively, the Required Holding Periods), the Recipient generally recognizes long-term capital gain or loss, as the case may be, measured by the excess of the amount realized by the Recipient from such disposition over the exercise price of such ISO. The company that is deemed to grant such ISO is not entitled to any tax deduction by reason of the grant of exercise of such ISO, or a disposition of stock acquired upon the exercise of such ISO after the Required Holding Periods have been satisfied.

Generally, if a Recipient disposes of stock acquired pursuant to the exercise of an ISO before the expiration of the Required Holding Periods (a Disqualifying Disposition), the difference between the exercise price of such ISO and the lesser of (i) the fair market value of the corresponding stock upon the date of exercise, and (ii) the selling price of the corresponding stock, will constitute compensation taxable to the Recipient as ordinary income. The company that is deemed to grant such ISO generally is allowed a corresponding tax deduction equal to the amount of ordinary compensation taxable to the Recipient. Any such deduction may be subject to the limitations of section 162(m) of the Code. The excess, if any, of such selling price over such fair market value should be taxable to the Recipient as a capital gain (long-term or short-term, depending upon whether the Recipient held the stock for more than one year). The company that is deemed to grant the ISO is not allowed a deduction with respect to any such capital gain recognized by the Recipient.

Section 423. Part B of the 2008 Sharesave Plan (Part B) is intended to qualify as an employee stock purchase plan as defined in Code Section 423. A qualified 423 employee stock purchase plan allows employees under US tax law to purchase stock at a discount from fair market value without any taxes owed on the discount at the time of purchase. A holding period will be required for the purchased stock in order to receive favorable long-term capital gains tax treatment on a portion of a participant's gains when the shares are sold. With qualified Section 423 employee stock purchase plans, participants are not taxed at the time the shares are purchased, only at the time of sale. Depending on whether the shares were held for the required holding period, a portion of the participant's gains may be taxed as capital gains or as ordinary income. A participant will not recognize any taxable income as a result of participating in Part B, exercising options granted pursuant to Part B, or receiving shares purchased pursuant to said options.

General. The foregoing discussion deals only with certain US federal income tax consequences to Recipients and the Corporation. The laws of any other jurisdiction that could be relevant either to the Corporation, a subsidiary of the Corporation, or a Recipient are not discussed herein. In particular, the tax

Table of Contents

consequences under the laws of the United Kingdom (UK), where a substantial number of the Recipients will reside and a substantial portion of the Corporation's operations occur, are not addressed herein. Moreover, the discussion above is relevant to the Corporation only to the extent option awards are made with respect to services performed in the United States, and is relevant to a Recipient only to the extent the Recipient either performs services for the Corporation in the United States or is a citizen or resident of the United States.

Approval by the United Kingdom Revenue and Customs

It is intended that Part A of the 2008 CSOP and Part A of the 2008 Sharesave Plan should have approved status for tax purposes in the UK, which is valuable to both the group and the employee beneficiaries. Approved status could be lost if amendments are made to an approved plan and Her Majesty's Revenue and Customs (HMRC) subsequently asserts that a key feature of the plan has been changed without its approval or conditions for the plan qualifying for approval are no longer met. Therefore, in accordance with best practice, Parts A of these proposed plans will be submitted to HMRC for approval at the earliest opportunity. The Compensation Committee will be permitted under the rules of these plans to make such amendments as may be required by HMRC in order to obtain approved status, subject to stockholder approval to the extent required by applicable rules of the Securities Exchange Act of 1934 or (where relevant) Section 422 of the Code.

PROPOSAL FOUR

(Item 4 on the Proxy Card)

Adoption of The Innospec Inc. Performance Related Stock Option Plan 2008

Under this proposal, the Corporation seeks stockholder approval of the Performance Related Stock Option Plan (the 2008 PRSOP).

Summary of the 2008 PRSOP

The description of the 2008 PRSOP below is a summary of the principal provisions which are not common to the New Stock Option Plans and should be read in conjunction with Summary of Common Provisions of the New Stock Option Plans above, and is qualified in its entirety by reference to the 2008 PRSOP, a copy of which is annexed hereto as Appendix A.

Term

The 2008 PRSOP shall terminate on the tenth anniversary of the date of its approval, or at any earlier time as may be determined by the Compensation Committee. Termination of the 2008 PRSOP will not affect grants made prior to termination. No further grants will be made after termination.

Grant of Options

The Committee, in its absolute discretion, may grant the stock options at such exercise price as it shall determine under the 2008 PRSOP, provided however, if an option is granted as an ISO, such option must be issued at an exercise price not less than the fair market value of the underlying share (based on the reported closing price of shares on NASDAQ) on the date of grant. The maximum number of shares which may be issued under the 2008 PRSOP is 575,000. For these purposes, any shares subject to an option or other rights under the 2008 PRSOP which have lapsed, been renounced or otherwise become incapable of being exercised or vesting shall not be treated as issued. Each Eligible Employee to whom a stock option is granted has the right to disclaim in whole or in part his or her rights under such a stock option. The aggregate fair market value of shares with respect to which all ISOs are exercisable for the first time by any individual during any calendar year under all plans of the Corporation and its subsidiaries shall not exceed \$100,000.

Table of Contents

Conditions Relating to the Grant of Options

Stock options granted under the 2008 PRSOP are exercisable subject to meeting certain performance targets. The performance targets are set at the absolute discretion of the Committee, and may be amended, relaxed, waived, or substituted after the grant of the option by the Committee if existing constraints or conditions have become unfair or impractical. The targets that are set will generally be stretch targets that focus on delivery of high performance and enhance stockholder value.

The Committee may also modify the terms and conditions of any stock option in order to comply with or take into account any securities, exchange control, or taxation laws, regulations, or practice of any jurisdiction as may be applicable. A holder of a stock option may be required by the Compensation Committee to make certain declarations or take such other actions as may be required to comply with or take into account such laws, regulations, or practice. When granting an option intended to take effect as an ISO, the Committee may not impose a condition or limitation if it would result in the option failing to qualify as an ISO. Further, the Committee may not amend such an option if this would result in it failing to qualify as an ISO. Further, notwithstanding any provision of the rules of the 2008 PRSOP to the contrary, in the event that the Committee determines that any option may be subject to Section 409A of the Code, the Committee may adopt such amendments to the 2008 PRSOP and the option or take any other actions that it determines are necessary or appropriate to (i) exempt the option from Section 409A of the Code or (ii) comply with the requirements of Section 409A of the Code.

Rights of Exercise

Stock options that have vested may only be exercised by a holder while he or she remains employed by the Corporation or its subsidiaries, and may not (subject to certain exceptions) be exercised before the later of: (a) the second anniversary of the date of the grant, (b) any date or dates determined by the Committee and set forth on the option certificate, and (c) the date upon which the relevant performance targets have been satisfied. The foregoing does not apply if the holder ceases to be employed as a result of injury, ill-health, disability, redundancy, the transfer of the business by which the holder is employed to a firm that is not affiliated with the Corporation, the transfer of the holder's employing company to a firm outside the control of the Corporation, retirement at normal retirement age including late retirement, early retirement by agreement with his or her employer or any other reason in the absolute discretion of the Committee. In such cases, the Committee has absolute discretion in determining whether such holder's options shall lapse or become exercisable within a one year period following such holder's termination. In the event of a holder's death, his or her options may be exercised by a personal representative within one year following the date of death. Provided that any relevant performance target has been satisfied, vested options may also be exercised within one year of cessation of employment on account of retirement at normal retirement age including late retirement, early retirement by agreement with his or her employer or any other reason in the absolute discretion of the Committee.

Notwithstanding the provisions described in the foregoing paragraph, an option granted as an ISO may only be exercised within three months following the date on which the holder ceases employment with the Corporation or its subsidiaries, except where such cessation is by reason of permanent and total disability in which case it can be exercised within twelve months of such date. Subject to the satisfaction of any relevant performance target, an option may also be exercised if the holder, whilst remaining an employee of the Corporation or any subsidiary, is transferred to work in another country and as a result will become subject to tax on his or her remuneration in that other country and will therefore suffer a tax disadvantage upon exercise of his or her option or become subject to restrictions on his or her ability to exercise his or her option or hold or deal in the shares or proceeds of sale by reason of the securities or exchange control laws of that country. In such a case the option may be exercised in the period commencing three months before and ending three months after the transfer takes place.

Notwithstanding the foregoing, if an option is granted to someone who is or would otherwise be subject to Section 409A of the Code with a share price less than the fair market value of the shares on the date of grant, it must be exercised (if at all) no later than March 15 of the calendar year immediately following the calendar year in which it is first capable of exercise under the 2008 PRSOP.

Table of Contents

Stock options granted under the 2008 PRSOP shall lapse upon the occurrence of: (a) the tenth anniversary of the date the options were granted; (b) the expiration of the period allowed for the satisfaction of performance targets; (c) the compulsory winding-up of the Corporation; (d) when the holder of such options becomes bankrupt; (e) termination of employment of the option holder (subject to the provisions described above); (f) the end of the time periods during which exercise is permitted under the provisions governing takeover, reconstruction, amalgamation or liquidation; or (g) in the case of an option which is subject to Section 409A of the Code, at the end of the period for exercise specified above for such options.

Discretion to Pay Cash on Exercise of an Option

When an option holder exercises his or her option, the Committee may, in lieu of transferring shares to the option holder, pay such option holder a cash sum equal to the value of the shares over which the option would be exercisable. If the Committee exercises its discretion to pay cash instead of transferring shares to the option holder, then the option holder shall have no further rights to the shares for which notice of exercise was given.

Alterations

The Committee may alter the rules in any way it deems fit so long as the subsisting rights of option holders are neither abrogated nor adversely affected, provided that no such alteration shall be made without stockholder approval to the extent such approval is required by applicable rules of the Securities Exchange Act of 1934 or (where relevant) Section 422 of the Code.

The Board of Directors recommends a vote FOR the approval of the 2008 PRSOP.

PROPOSAL FIVE

(Item 5 on the Proxy Card)

Adoption of The Innospec Inc. Company Share Option Plan 2008

Under this proposal, the Corporation seeks stockholder approval of The Innospec Inc. Company Share Option Plan (the 2008 CSOP).

Summary of the 2008 CSOP

The description of the 2008 CSOP below is a summary of the principal provisions which are not common to the New Stock Option Plans and should be read in conjunction with Summary of Common Provisions of the New Stock Option Plans above, and is qualified in its entirety by reference to the 2008 CSOP, a copy of which is annexed hereto as Appendix B.

Term

The 2008 CSOP shall terminate on the tenth anniversary of the date of its approval, or at any earlier time as may be determined by the Board of Directors of the Corporation or a duly authorized committee. Termination of the 2008 CSOP will not affect grants made prior to termination. No further grants will be made after termination.

Grant of Options

The 2008 CSOP is divided into Part A and Part B and provides stock options to certain directors or employees (as used in this Proposal, each an Eligible Employee) of the Corporation or certain designated subsidiaries. In general, an Eligible Employee is either a director of a participating company who is required to work for at least 25 hours per week or an employee of a participating company who is required to work for at least 20 hours per week.

Table of Contents

The Compensation Committee, in its absolute discretion, may grant the stock options under the 2008 CSOP and the Committee may adopt any procedure it thinks fit for granting such options. Each Eligible Employee to whom a stock option is granted has the right to disclaim in whole or in part his or her rights under such a stock option.

Conditions Relating to the Grant of Options

An application will be made for Part A of the 2008 CSOP to be approved by HMRC in the United Kingdom and stock options granted to an Eligible Employee under Part A shall be limited so that the aggregate market value of all the shares into which the options may be exercised, at the date of granting the options, shall not exceed the statutory limit imposed by the relevant UK legislation (currently GBP 30,000). Options will be granted at market value, being a price which represents the reported closing price of a share on NASDAQ on the date of grant (or the previous dealing day if the date of grant is not a dealing day) or where an option is to be granted pursuant to an invitation, the date of the invitation (being not more than twenty nine days prior to the date of grant). Where an option is to subscribe for new shares the price cannot be less than the nominal value. Options granted under Part B of the 2008 CSOP will be granted at the market value as described above on the date of grant and will not be approved by HMRC. If the Committee so determines, options intended to qualify as ISOs may be granted under Part B, in which case the aggregate market value, determined at the date of granting the options, of shares with respect to which ISOs become exercisable for the first time by an individual option holder in any calendar year shall not exceed \$100,000. The maximum number of shares which may be issued under the 2008 CSOP is 190,000. For those purposes, any shares subject to an option or other rights under the 2008 CSOP which have lapsed, been renounced or otherwise become incapable of being exercised or vesting shall not be treated as issued.

The Committee, on the date of granting an option, may in its absolute discretion impose any conditions and limitations upon the exercise of the option, provided that such conditions and limitations are objective and set out in full on, or details are given with, the option certificate. They may be amended, varied or waived only where the Committee considers that a waived, varied or amended condition would be a fairer measure of performance and would be no more difficult to satisfy. When granting an option under Part B intended to take effect as an ISO, the Committee may not impose a condition or limitation if it would result in the option failing to qualify as an ISO. Further, the Committee may not adjust such an option if this would reduce the aggregate price at which such option may be exercised below the market value per share as at the date of grant.

The Committee may make determinations as to performance targets and all other applicable provisions of Part B as necessary in order for Part B and options granted thereunder to qualify for the exception from Section 162(m) of the Code for "qualified performance based compensation", if the Committee determines that such qualification is necessary for an option grant. Further, notwithstanding any provision of Part B to the contrary, in the event that the Committee determines that any option may be subject to Section 409A of the Code, the Committee may adopt such amendments to Part B of the 2008 CSOP and the option or take any other actions that it determines are necessary or appropriate to (i) exempt the option from Section 409A of the Code or (ii) comply with the requirements of Section 409A of the Code.

Rights of Exercise

Stock options may only be exercised by a holder (a) while he or she remains employed by the Corporation or certain designated subsidiaries and (b) after the latest of: (i) the third anniversary of the date the options were granted, or (ii) any date or dates imposed by the Committee upon the grant of the options, or (iii) the date on which the relevant performance targets have been satisfied. The previous sentence does not apply if the holder ceases to be employed as a result of injury, ill-health, disability, redundancy, the transfer of the business by which the holder is employed to a firm that is not affiliated with the Corporation, the transfer of the holder's employing company to a firm outside the control of the Corporation, retirement at normal retirement age including late retirement, early retirement by agreement with his or her employer or any other reason in the absolute discretion of the Committee. In such cases, irrespective of whether additional conditions imposed by the

Table of Contents

Committee have been satisfied, the option holder may exercise his or her options within the period of one year, in each case following the date on which he or she ceases to be a director or employee. In the event of a holder's death, his or her options may be exercised by a personal representative within one year following the date of death.

Notwithstanding the foregoing where options granted under Part B are intended to qualify as ISOs, such options may only be exercised within three months following the date on which the holder ceases employment with the Corporation or its subsidiaries, except where such cessation is by reason of permanent and total disability in which case they can be exercised within twelve months of such date.

Subject to the satisfaction of any relevant performance target, an option may be exercised if the holder, whilst remaining an employee of the Corporation or any subsidiary, is transferred to work in another country and as a result will become subject to tax on his or her remuneration in that other country and will therefore suffer a tax disadvantage upon exercise of his or her option or become subject to restrictions on his or her ability to exercise his or her option or hold or deal in the shares or proceeds of sale by reason of the securities or exchange control laws of that country. In such a case the option may be exercised in the period commencing three months before and ending three months after the transfer takes place.

Stock options granted under the 2008 CSOP shall lapse upon the occurrence of: (a) the tenth anniversary of the date the options were granted; (b) the expiration of the period allowed for additional conditions or limitations; (c) the compulsory winding-up of the Corporation; (d) when the holder of such options becomes bankrupt; (e) termination of employment of the holder (subject to the good leaver provisions described above); or (f) the end of the time periods during which exercise is permitted under the provisions governing takeover, reconstruction, amalgamation or liquidation.

The issuance of all shares pursuant to the exercise of an option shall comply with the applicable securities law of the United States.

Discretion to Pay Cash on Exercise of an Option

When an option holder exercises his or her option granted under Part B of the 2008 CSOP, the Committee may, in lieu of transferring shares to the option holder, pay such option holder a cash sum equal to the value of the shares into which the option would be exercisable. If the Committee exercises its discretion to pay cash instead of transferring shares to the option holder, then the option holder shall have no further rights to the shares for which notice of exercise was given.

Take-Over, Reconstruction and Amalgamation and Liquidation

In addition to the circumstances described in the summary of the New Stock Option Plans, options granted under the 2008 CSOP may be exercised within six months if the court sanctions a scheme of arrangement which HMRC has agreed is equivalent to section 899 of the Companies Act 2006 (UK legislation). Additionally, if a person becomes bound or entitled to acquire shares in the Corporation under legislation which HMRC has agreed is equivalent to section 899 of the Companies Act 2006 (UK legislation) then an option may be exercised during any period such person remains so bound or entitled.

Alterations

Prior to the approval of Part A by HMRC, the Committee may alter the rules as may be necessary in order to obtain such approval. Following approval of Part A by HMRC, the Committee may alter the rules in any way it deems fit so long as the subsisting rights of option holders are neither abrogated nor adversely affected and the share price is not adjusted (except as otherwise permitted in the rules), save that the Committee may alter certain of the provisions permitting exercise in leaver situations to take account of legal developments or advice or

Table of Contents

changes in market practice. In any case, no alterations to a key feature of Part A shall be effective until approved by HMRC. Further, no alteration shall be made without shareholder approval to the extent that such approval is required by applicable rules of the Securities Exchange Act of 1934 or (where relevant) Section 422 of the Code.

The Board of Directors recommends a vote FOR the approval of the 2008 CSOP.

PROPOSAL SIX

(Item 6 on the Proxy Card)

Adoption of The Innospec Inc. Non-Employee Directors Stock Option Plan 2008

Under this proposal, the Corporation seeks stockholder approval of The Innospec Inc. Non-Employee Directors Stock Option Plan (the 2008 NEDs Stock Option Plan).

Summary of the 2008 NEDs Stock Option Plan

The description of the 2008 NEDs Stock Option Plan below is a summary of the principal provisions which are not common to the New Stock Option Plans and should be read in conjunction with Summary of Common Provisions of the New Stock Option Plans above, and is qualified in its entirety by reference to the 2008 NEDs Stock Option Plan, a copy of which is annexed hereto as Appendix C.

Term

The 2008 NEDs Stock Option Plan shall terminate on the tenth anniversary of the date of its approval, or at any earlier time as may be determined by the Compensation Committee. Termination of the 2008 NEDs Stock Option Plan will not affect grants made prior to termination. No further grants will be made after termination.

Grant of Options

The 2008 NEDs Stock Option Plan provides stock options to certain non-employee directors of the Corporation (each a Participant). The Committee, in its absolute discretion, may grant the stock options at such exercise price as it shall determine under the 2008 NEDs Stock Option Plan (provided that where an option is to subscribe for new shares that price cannot be less than the nominal value).

Edgar Filing: INNOSPEC INC. - Form DEF 14A

Each Participant to whom a stock option is granted has the right to disclaim in whole or in part his or her rights under such a stock option.

The aggregate number of shares which may be issued under the 2008 NEDs Stock Option Plan is 85,000. For these purposes, any shares subject to an option or other rights under the 2008 NEDs Stock Option Plan which have lapsed, been renounced or otherwise become incapable of being exercised or vesting shall not be treated as issued.

Further, notwithstanding any provision of the rules of the 2008 NEDs Stock Option Plan to the contrary, in the event that the Committee determines that any option may be subject to Section 409A of the Code, the Committee may adopt such amendments to the 2008 NEDs Stock Option Plan and the option or take any other actions that it determines are necessary or appropriate to (i) exempt the option from Section 409A of the Code or (ii) comply with the requirements of Section 409A of the Code.

Rights of Exercise

Stock options may only be exercised by a holder (a) while he or she remains a non-employee director of the Corporation and (b) after any date or dates determined by the Committee and set forth on the option certificate.

Table of Contents

In the event an option holder ceases to be a director, the Committee has absolute discretion in determining whether such holder's options shall lapse or become exercisable within a one year period following such holder's termination. In the event of a holder's death, his or her options may be exercised by a personal representative within one year following the date of death.

Notwithstanding the foregoing, if an option is granted to someone who is or would otherwise be subject to Section 409A of the Code with a share price less than the fair market value of the shares on the date of grant, it must be exercised (if at all) no later than 15 March of the calendar year immediately following the calendar year in which it is first capable of exercise under the 2008 NEDs' Stock Option Plan.

Stock options granted under the 2008 NEDs' Stock Option Plan shall lapse upon the occurrence of: (a) the tenth anniversary of the date the options were granted; (b) the compulsory winding-up of the Corporation; (c) when the holder of such options becomes bankrupt; (d) the date on which the holder ceases to be a director, (subject to the provisions described above); (e) the end of the time periods during which exercise is permitted under the provisions governing takeover, reconstruction, amalgamation or liquidation; or (f) in the case of an option which is subject to Section 409A of the Code, at the end of the period for exercise specified above for such options.

Discretion to Pay Cash on Exercise of an Option

When an option holder exercises his or her option, the Committee may, in lieu of transferring shares to the option holder, pay such option holder a cash sum equal to the value of the shares into which the option would be exercisable. If the Committee exercises its discretion to pay cash instead of transferring shares to the option holder, then the option holder shall have no further rights to the shares for which notice of exercise was given.

Alterations

The Committee may alter the rules in any way it deems fit so long as the subsisting rights of option holders are neither abrogated nor adversely affected and the share price is not adjusted (except as otherwise provided in the rules), provided that no such alteration shall be made without stockholder approval to the extent such approval is required by applicable rules of the Securities Exchange Act of 1934 or (where relevant) Section 422 of the Code.

The Board of Directors recommends a vote FOR the approval of the 2008 NEDs' Stock Option Plan.

PROPOSAL SEVEN

(Item 7 on the Proxy Card)

Adoption of The Innospec Inc. Sharesave Plan 2008

Edgar Filing: INNOSPEC INC. - Form DEF 14A

Under this proposal, the Corporation seeks stockholder approval of The Innospec Inc. Sharesave Plan (the 2008 Sharesave Plan).

Summary of the 2008 Sharesave Plan

The description of the 2008 Sharesave Plan below is a summary of the principal provisions which are not common to the New Stock Option Plans and should be read in conjunction with Summary of Common Provisions of the New Stock Option Plans above, and is qualified in its entirety by reference to the 2008 Sharesave Plan, a copy of which is annexed hereto as Appendix D.

The purpose of the 2008 Sharesave Plan is to provide a means through which the Corporation and its Group Members (as defined in the 2008 Sharesave Plan) may attract able persons to enter and remain in the employ of

Table of Contents

the Group (as defined in the 2008 Sharesave Plan) and to provide a means whereby employees and directors of the Group can acquire common stock, thereby strengthening their commitment to the welfare of the Corporation and the Group and promoting an identity of interest between stockholders and these employees and directors.

Term

The 2008 Sharesave Plan shall terminate on the tenth anniversary of the date of its approval, or at any earlier time as may be determined by the Board of Directors of the Corporation or a duly authorized committee (as used in this Proposal 7, the Committee). Termination of the 2008 Sharesave Plan will not affect grants made prior to termination. No further grants will be made after termination.

Award Grants, Approvals and Maximum Number of Shares

The 2008 Sharesave Plan is comprised of three parts: Part A which provides for the grant of options to eligible employees under a savings-related share option plan approved by HMRC; Part B which provides for the making of awards to eligible employees under an employee stock purchase plan established in accordance with Code Section 423; and Part C which provides for the grant of options to eligible employees under a savings-related share option plan which is neither approved by HMRC nor qualifies for favored tax status in the US, and references to a specific Part of the 2008 Sharesave Plan shall be construed accordingly. No awards shall be made under the 2008 Sharesave Plan unless it has been approved by the stockholders in a general meeting. No awards shall be made under Part A unless approved by HMRC.

The present maximum aggregate number of shares which may be issued under the 2008 Sharesave Plan (including for the avoidance of doubt Parts A, B and C) is 750,000 subject to any future increases which may be substituted at the discretion of the Board upon approval by the stockholders of the Corporation. Any shares subject to an option or other rights granted under the 2008 Sharesave Plan which have lapsed, been renounced or have otherwise become incapable of being exercised or vesting shall not be treated as issued for this purpose.

PART A

Plan Provisions

Part A is for the purpose of granting sharesave options to UK employees and executive directors which have tax benefits due to their tax-approved status under UK law. Under the terms of Part A of the 2008 Sharesave Plan, Eligible Employees (as defined in the 2008 Sharesave Plan) will be provided the opportunity to receive options for Innospec Common Stock as determined by the Board. The terms of the options will permit Eligible Employees to purchase stock at a discounted price of not less than 80% of the Fair Market Value at the time they are invited to participate. Eligible Employees who are granted options will be required to enter into a savings contract for either three or five years pursuant to which they will make voluntary payroll deductions to cover the cost of the stock purchase at the end of the savings contract period. Each Eligible Employee will be entitled to purchase a certain number of shares at the end of the savings contract period as determined by dividing the total amount of payroll deductions (plus a bonus payable at the end of the savings contract) by the discounted price of the stock.

Edgar Filing: INNOSPEC INC. - Form DEF 14A

The Corporation will be required to transfer or issue the relevant Shares to the participant not later than 30 days after exercise of the option.

Either authorized and unissued shares or issued shares reacquired by the company may be made subject to options under the 2008 Sharesave Plan. Any Shares not purchased prior to the termination of an option may be again subjected to an option under the 2008 Sharesave Plan.

All Shares purchased under an option will be paid for in full at the time the option is exercised by transfer of the purchase price from the employee's payroll deduction account.

Table of Contents

Invitations of Applications and Scaling Down

The Committee may decide in its discretion when to issue invitations under the 2008 Sharesave Plan, in which case invitations must be issued to **all** Eligible Employees. In general terms, an Eligible Employee is either a UK-resident executive director of a participating company who is required to work for at least 25 hours per week or a UK-resident employee of a participating company. The Committee may, in its sole discretion, approve any other employee or executive director of a participating company as an Eligible Employee. Monthly contributions to be made by each applicant cannot exceed the lesser of GBP 250 per month (or such other amount permitted by the relevant legislation from time to time) and such other maximum contribution as may be determined from time to time by the Committee. If valid applications are received for an aggregate number of shares that exceed a maximum number as set by the Committee, then the Committee may scale down applications to the extent necessary using a method stated in the 2008 Sharesave Plan or otherwise agreed with HMRC.

Rights of Exercise

Generally stock options may only be exercised by a holder while he or she remains employed by the Corporation or certain designated subsidiaries and (a) within six months starting on the bonus date under the relevant savings contract (i.e. the end of the savings contract period) or (b) within six months following the date on which he or she reaches the age of 65. The previous sentence does not apply if the holder ceases to be employed by the Corporation as a result of injury, disability, redundancy, retirement after reaching 65 or any other age at which he or she is bound to retire under his or her employment contract, employment with a company or business that ceases to be within the Corporation's group, or, after holding options for at least three years, for any other reason. In such cases, the option holder may exercise his or her options within the six month period following the date on which he or she ceases to be a director or employee of the Corporation or the designated subsidiaries. In the event of a holder's death, his or her options may be exercised by a personal representative within one year following the date of death or the date of the bonus date, whichever is shorter.

Stock options granted under the Part A shall lapse upon the occurrence of: (a) six months after the bonus date; (b) when an option holder ceases to be employed by the Corporation or the designated subsidiaries (subject to the exceptions set out in the previous paragraph); (c) the compulsory winding-up of the Corporation; (d) when the holder of such options becomes bankrupt; or (e) the participant choosing to stop making monthly contributions under the savings contract before the end of that contract.

Alterations

The Committee may alter the rules in any way it deems fit, provided that no such alteration shall be made without stockholder approval to the extent such approval is required by any applicable law, regulatory authority or the rules of any relevant exchange and amendments to certain key features of Part A require the prior approval of HMRC.

PART B

Plan Provisions

Edgar Filing: INNOSPEC INC. - Form DEF 14A

During the term of Part B of the 2008 Sharesave Plan, Innospec may make one or more offers through a series of offering periods as determined by the Committee, to offer to each Eligible Employee (as defined in the 2008 Sharesave Plan) to purchase options for Innospec common stock through voluntary payroll deductions. Each Eligible Employee will be entitled to purchase a certain amount of shares determined by dividing the total amount of deductions made from an Employee's payroll by the Purchase Price of the stock on the Purchase Date (but not exceeding the amount specified in Section 423(b) of the Internal Revenue Code) for any offering. The option price for each offering will be at least 85% of the Fair Market Value on the date the option is received by the participant. The Purchase Date will be as determined by the Committee. The Fair Market Value of Innospec stock shall mean the average of the high and low price per share as reported in the Wall Street Journal (or other reporting service approved by the Board or Committee) on the next trading day.

The options will be exercised on the Exercise Date of each Offering Period and the maximum number of Shares subject to the option will be purchased at the applicable Purchase Price with the accumulated Contributions in his or her account. The Shares purchased upon exercise of an option hereunder shall be deemed to be transferred to the participant on the Exercise Date. The beginning and ending dates of each Offering Period and each Purchase Date will be determined by the Committee. Part B may allow participants to cancel or reduce (or both) their payroll deduction authorizations and participants will be asked to confirm their election to purchase.

In accordance with the overall cap described above, no more than 750,000 shares of Innospec common stock may be sold pursuant to the Part B. In the event that the Committee determines that an adjustment is appropriate by reason of any dividend or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of shares or other securities of the company, issuance of warrants or other rights to purchase shares or other securities of the company, or other similar corporate transaction or event, it shall adjust any or all of (1) the number and type of shares that may be made subject to options, (2) the number and type of shares subject to outstanding options, and (3) the grant, purchase or exercise price with respect to any option.

Either authorized and unissued shares or issued shares reacquired by the company may be made subject to options under Part B. Any shares not purchased prior to the termination of an option may be again subjected to an option under Part B. An employee will not be granted an option under Part B if the employee, immediately after the option is granted, owns stock having 5% or more of the total combined voting power or value of all classes of stock of the company. No employee will be granted an option that permits the employee to accrue rights to purchase stock under all employee stock purchase plans of the company at a rate that exceeds \$25,000 (or such other maximum as may be prescribed from time to time under the Internal Revenue Code) of fair market value of such stock (determined at the date of grant) for each calendar year in which the option is outstanding at any time in accordance with the provisions of Section 423(b)(8) of the Internal Revenue Code.

Upon termination of a participant's status as an Employee prior to the Purchase Date of an Offering Period for any reason, other than as a result of injury, disability, redundancy, retirement or death, the Contributions and any interest credited to his or her account will be refunded to the Employee or his or her beneficiary or estate as the case may be, through normal payroll processing as soon as administratively practicable following such termination.

If a participant ceases to be employed by the Corporation as a result of injury, disability, redundancy, death or retirement after reaching any age he or she is bound to retire under his or her employment contract, the option holder (or a personal representative in the case of death) may exercise his or her options within the three month period following the date on which he or she ceases to be a director or employee of the Corporation or the designated subsidiaries, provided that in no circumstances can an option be exercised after the Purchase Date. If the participant fails to exercise his or her options within such three month period, his or her account balance will be refunded to him or her or his or her beneficiary or estate, as the case may be, through normal payroll processing as soon as administratively practicable following such date of cessation.

All shares purchased under an option will be paid for in full at the time the option is exercised by transfer of the purchase price from the employee's payroll deduction account.

Plan Benefits

Participation in Part B is voluntary and dependent upon each Eligible Employee's election to participate, and the benefit of participating will depend on the terms of the offerings (if any) and fair market value of the stock on the Exercise Date. Accordingly, future benefits that would be received by Eligible Employees under the proposed Part B are not determinable at this time.

Table of Contents

Tax Consequences.

Part B is intended to qualify as an employee stock purchase plan under Section 423 of the Internal Revenue Code.

In accordance with SEC rules, the following description of tax matters relating to Part B is provided. In general, a participant has no taxable event at the time of grant of an option or at the time of exercise of an option, but will realize taxable income at the time the participant sells the shares acquired under Part B.

If the participant observes certain holding period requirements, the participant's gain on sale will generally be taxed at capital gains rates, except that in certain circumstances a portion of the participant's gain will be treated as ordinary income. Those circumstances will generally occur if the exercise price of the shares is established as a percentage less than 100% of the fair market value of the shares at the beginning of the offering period, or if at the beginning of the period it is unknown what the exercise price will be, for example, if the exercise price can be determined only on the Exercise Date. The participant's ordinary income will not be greater than the excess, if any, of the fair market value of the shares at the time of grant over the exercise price (or, if lower, the actual proceeds of sale over the actual purchase price of the shares). If the exercise price is a function of the value of the shares on the Exercise Date, the exercise price will be determined as if the option was exercised at the time of grant for purposes of calculating this limit. If the participant sells the shares only after satisfying the holding period requirements, the company will not be entitled to a deduction.

If the participant sells the shares before satisfying the holding period requirements, then the participant will realize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the stock on the Exercise Date. The company will be entitled to a corresponding deduction. The remainder of the proceeds of sale will be taxed at capital gains rates.

PART C

Part C is for the purpose of granting sharesave options to non-UK/US employees and directors. The terms of Part C are in general terms the same as those of Part A above except that:

- (a) the Committee may choose in its discretion to whom it will grant options;
- (b) the participant may only elect to make thirty six monthly savings contributions;
- (c) there is more flexibility as to the format of invitations and applications for options;
- (d) the number of shares subject to the option will be the total of the savings contributions divided by the exercise price but no bonus will be payable on top of the savings;
- (e) alternative arrangements may be made for the participant to save monthly contributions rather than the participant entering into a savings contract with a savings body as per Part A;

- (f) the Corporation may choose to satisfy any rights the participant has in respect of his or her option by making a cash payment rather than providing shares; and
- (g) any requirement for HMRC approval will not apply.

The Board of Directors recommends a vote FOR the approval of the 2008 Sharesave Plan.

Information about the Board of Directors

Each of the directors attended all of the meetings of the Board and meetings of committees of the Board on which he served in person or by teleconference.

Independent Board of Directors

The Board of Directors, after considering broadly all relevant facts and circumstances of which it is aware, including those matters set forth under *Certain Other Transactions and Relationships* and under *Management Family Relationships*, has determined that a majority of its members are independent within the meaning of the NASDAQ Stock Market listing rules applicable on the date hereof.

The Corporation adopted the following standards for director independence in compliance with NASDAQ's corporate governance listing standards.

1. No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with the Corporation or its wholly-owned subsidiaries (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Corporation). These determinations must be disclosed.

2. The Board has established the following criteria for determining director independence:
 - a. A director who is an employee, or whose immediate family member is an executive officer of the Corporation is not independent until three years after the end of such employment relationship;

 - b. A director who receives, or whose immediate family member receives, more than \$60,000 per year in direct compensation from the Corporation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent until three years after he or she ceases to receive more than \$60,000 per year in such compensation;

c. A director who is affiliated with or employed by, or whose immediate family member is affiliated with or employed in a professional capacity by, a present or former internal or external registered public accounting firm of the Corporation is not independent until three years after the end of the affiliation or the employment or auditing relationship;

d. A director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of the Corporation's present executives serve on that company's compensation committee is not independent until three years after the end of such service or the employment relationship; and

e. A director who is an executive officer or an employee, or whose immediate family member is an executive officer, of a company that makes payments to, or receives payments from, the Corporation for property or services in an amount which, in any single fiscal year, exceeds the greater of \$200,000, or 5% of such other company's consolidated gross revenues, is not independent until three years after falling below such threshold.

Table of Contents

The Board determined that each member of the Board, except for Mr. Jennings, meets the aforementioned independence standards. Mr. Jennings does not meet the aforementioned independence standards, because, as the current President and Chief Executive Officer of the Corporation, he is an employee of the Corporation.

Executive Sessions of Non-Employee Directors

Non-employee directors are all those who are not Corporation officers, and includes such directors who are not independent by virtue of a material relationship, former status or family membership, or for any other reason. COMPENSATION DISCUSSION AND ANALYSIS

Our executive compensation program is designed to help us recruit and retain the executive talent required to successfully manage our businesses. Accordingly, the overall compensation program is designed to motivate employees to achieve business objectives and maximize their long-term commitment to our success by providing compensation elements that align executives' interests with shareholder value and achievement of our long-term strategies.

Compensation Philosophy

The compensation philosophy of the Corporation is to link executive compensation to continuous improvement in corporate performance and increases in stockholder value. The goals of the Corporation's executive compensation programs are to:

- Establish pay levels that are necessary to attract and retain highly qualified executives in light of the overall competitiveness of the market for high quality executive talent and the Corporation's unique business profile.
- Recognize superior individual performance, new responsibilities and new positions within the Corporation.
- Balance short-term and long-term compensation to complement the Corporation's annual and long-term business objectives and strategy and to encourage executive performance in the fulfillment of those objectives.
- Provide variable compensation opportunities based on the Corporation's performance.
- Encourage stock ownership by executives.
- Align executive remuneration with the interests of stockholders.
- Focus on reward for achievement of exceptional performance.

The Corporation regularly carries out a review of the market to ensure that each component of our executive compensation program is competitive at the market median, and aims to provide a balance between fixed elements of pay and performance related elements. No element of compensation is driven by tax, accounting or regulatory considerations. Further information on each of the components of compensation is given below.

Role of the Compensation Committee and its advisors in determining compensation

Edgar Filing: INNOSPEC INC. - Form DEF 14A

The Corporation's Compensation Committee is responsible for assisting the Board in fulfilling its responsibilities for establishing and maintaining executive compensation and incentive programs in accordance with the philosophy outlined above. In addition, they provide advice on the CEO's overall package and attend at least one Compensation Committee meeting a year. In 2007, the advisors attended two meetings of the Compensation Committee and had a number of telephone or e-mail discussions with the Chairman of the Committee. Any additional work undertaken by the advisor for the Corporation must have the approval of the Committee. The Chief Executive Officer (CEO) makes recommendations to the Committee on the performance of the senior executive officers, excluding himself. base salary for the named executive officers. In addition, the Committee recommends a base salary for the CEO to the Board, taking into account the market information provided by Hay Group, the performance of the CEO in the previous year and the overall business performance and results.

Elements of Compensation

The material elements of compensation for the Corporation's named executive officers are discussed and explained in separate sections below.

A. Base Salary

The level of base salary takes into account a number of factors. Each year the external market is assessed by Hay Group, as independent advisors, and base salary is targeted at the median level of the relevant market. In addition, the level and scope of responsibility, experience, and corporate, business unit and individual performance are all key criteria in evaluating role size and hence base salary determination.

The relevant external market and the Hay Group pay database used for executives based in the UK comprises UK-based roles within industrial and service companies. All executive jobs are assessed and graded using the Hay methodology as described above, ensuring that when they are matched into the database by Hay Group, only jobs which are of a similar size are included. We believe that this approach is appropriate as it takes into account the specific nature of the roles as well as the size of the Corporation, the nature of its business and the markets within which it operates.

In addition we look at data for companies based in the UK with a revenue range of \$300 million to \$600 million and a market capitalization range of \$350 million to \$550 million. This provides an additional check to ensure that there is consistency in the data.

For the executive based in the US, namely the position of Executive Vice President, Fuel Specialties, US Chemical Industry data is used. Again the role is assessed before matching it into the database to ensure it is compared with jobs of a similar size in the United States.

In setting base salaries the Compensation Committee target the median (50th percentile) of the survey group. Individual salaries within a range are determined by each officer's experience, expertise, overall performance and contribution to the Corporation and market competitiveness. We believe that this methodology enables us to remain competitive in our markets without incurring unnecessary costs. In 2007, as part of the annual salary review, Mr. Jennings' base salary was increased by 10.34% to \$641,376. The base salary increases for the other named executive officers were on average 6.1%, based on a competitive analysis. In addition, after consulting with their advisor the Committee recommended subsequent increases in the base salary to Mr. Jennings and Mr. Williams to reflect their outstanding contribution to the extraordinary performance of the Company and to take account of market rates. These recommendations were approved by the Board, and effective October 1, 2007, Mr. Jennings base salary was increased to \$841,806 and Mr. Williams' base salary was increased to \$504,250.

B. Incentives

Incentive programs are operated both over the short-term and the long-term. Linking a significant proportion of pay to performance is a key element of executive remuneration. In setting the policy levels, the Compensation Committee reviewed each element of overall compensation and targeted market median practice in terms of the different components, using the benchmark market specified above. The Committee believes that the overall compensation has the appropriate balance between long and short term incentives and cash and non-cash compensation, based on knowledge of market practices and input from its advisors. In 2007, the Committee formally reviewed the allocation of compensation between the different elements of reward and

Table of Contents

confirmed that the balance was appropriate and in line with market practice. The Committee target at least 50% of total compensation for the CEO to be delivered through both long and short term variable compensation. In the case of the CEO, over 50% of his overall target compensation is delivered through variable compensation.

i) Annual Incentives

Management Incentive Compensation Plan (MICP)

The Corporation's short term incentive plan is the MICP which is driven by annual performance. For the executives and senior management team, payments are based on achievement against pre-determined targets set by the Board for corporate performance and business unit performance (where appropriate) and personal performance against objectives. All bonus payments are subject to a corporate performance threshold: if this is not achieved then no bonus payments are made to individuals for that year regardless of personal and business unit performance. Further, for those individuals with a business unit performance measure, if business unit performance is below a threshold level then no bonus will be paid for that year, irrespective of overall corporate and individual performance.

In the case of the CEO the Committee has set a target bonus of 55% of his base salary. In calculating the bonus due, 80% is based on the achievement of corporate targets and business performance and 20% is based on achievement of personal objectives. In the case of the named executives, the target bonus is set at 40% (33% in the case of Mr. Williams, Executive Vice President and President, Fuel Specialties), with 80% based on Corporate and business performance and 20% based on achievement of personal objectives.

	Corporate/Business		Target Bonus as
	Performance	Personal objectives	% of salary
CEO	80% of target bonus	20% of target bonus	55%
Senior Executives	80% of target bonus	20% of target bonus	40% ¹

¹ In the case of Mr. Williams, the target bonus level under this Plan is set at 33%, as he is also eligible for a bonus of up to a maximum of 50% of his base salary under a US bonus plan.

The Compensation Committee reviews the allocation between business and personal performance each year to ensure it is appropriate.

The performance measures are also reviewed to ensure they remain appropriate and stretching. The corporate measures are currently based on achievement of targeted levels of corporate cash and corporate operating income. These are key performance indicators for the Corporation. Personal objectives are specific to the particular business area or function within which the executive operates. In addition to the personal element shown above, if an individual's performance assessment for the year is below satisfactory then no bonus is paid at all.

The levels of target bonus are kept under review and are targeted at the median level against the market. The maximum bonus achievable for out-performance is also reviewed to ensure that the incentive to deliver exceptional performance is in line with market trends. As a result the maximum bonus achievable for out-performance was increased for 2007 and the level of out-performance required for maximum bonus was also increased. In 2007, the maximum bonus achievable for out-performance was equal to 230% of target bonus for the CEO. This gives a maximum

Edgar Filing: INNOSPEC INC. - Form DEF 14A

bonus potential of 126.5% of his base salary. In the case of the other executives, the maximum bonus potential is 92% of their base salary (76.6% in the case of Mr. Williams). Maximum bonuses are awarded when the business exceeds its targets for the business results by 30%. If however the business results are less than 90% of the targets, no bonuses are paid to any executive, regardless of their personal performance.

No awards are made under the bonus scheme until the annual business results have been audited by the independent registered public accounting firm and approved by both the Audit Committee of the Board and the full Board.

Table of Contents

In 2007, in determining the amount of bonus earned by the CEO, the Committee took into account, amongst other things, the improvement in the external value and perception of the Corporation, the significantly improved operating performance of the Corporation and the development of an R&D strategy which resulted in improved focus on development of new products to support the strategic direction of the Corporation. Based on the strong performance and results of the Corporation, the Board approved the Compensation Committee's recommendation for Mr. Jennings to be awarded a bonus of \$1,041,735.

A provision has now been introduced which allows for potential claw-back of bonuses already paid if, at some point in the future, it is identified that the audited results were inaccurate or need to be restated.

Co-Investment Plan

In recognition of the need to align shareholder and executive interests, the Corporation introduced the Co-Investment Plan in 2004. Under the terms of the plan an executive may invest a portion of the annual bonus (paid in accordance with the targets above) to purchase shares in the Corporation and receive an award of matching shares as described below. If the executive receives a bonus for exceeding his targets, then the executive is required to use one-third of that part of his bonus which is in excess of his target bonus to purchase shares, which will be matched as indicated:

<u>Bonus payment</u>	<u>Compulsory amount</u>	<u>Voluntary amount</u>	<u>Match</u>
Up to target bonus level	None	Maximum 50% of payment	1 matching share for every 2 shares purchased
Above target bonus level	One third of any bonus payment above the target level	Up to maximum of 100% of any bonus payment above the target bonus level	1 matching share for every share purchased

All elections for deferral must be made within 21 days of the bonus notification date. Shares will be purchased at market price on the next available trading opportunity in accordance with the Corporation's trading policy. Participants in the plan must generally remain employed for 3 years and continue to hold the shares purchased under this plan in order to receive the matching shares. The Compensation Committee retains the discretion to permit release of matching shares in certain circumstances. In the event that the Corporation undergoes a change of control, restrictions on the matching shares will lapse and shares will be released.

ii) Long term Incentives

Share option plans

To further align shareholder and executive interests and to drive long-term performance the Corporation operates two equity based incentive plans, the Company Share Option Plan (CSOP) and the Performance Related Share Option Plan (PRSOP). The policy for granting options to the named executives under these plans is targeted at the UK market median and is as follows:

	<u>CSOP grants as % of base salary</u>	<u>PRSOP grants as % base salary</u>
CEO	20%	75%
Senior Executives	15%	45%

For example, the CEO will typically receive CSOP options, valued at market price, to the value of 20% of his base salary.

Other employees also participate in these plans but with a lower grant level.

Table of Contents

In line with the focus on performance excellence, the performance rating of an individual is also taken into account in determining the grants made as follows:

Rating 1, defined as outstanding performance 150% of policy is granted

Rating 2, defined as exceeding performance expectations 125% of policy is granted

Rating 3, defined as a good performance 100% of policy is granted

If an individual receives a performance rating of below expectations for the year, they do not receive any stock option grants for that year.

The performance of the senior team is assessed by the CEO and the Compensation Committee. The CEO recommends a rating to the Compensation Committee. The Compensation Committee reviews these and assesses the performance of the CEO and makes a final recommendation on performance ratings to the full Board for approval.

This provides for a rigorous performance-related grant policy, in addition to the performance elements of the grants themselves.

In 2007, Mr. Jennings was rated as outstanding and as such was awarded stock options at 150% of the policy levels. In the case of the other named executive officers, based on the assessment of their individual performance, as approved by the Compensation Committee, Mr. Williams was awarded stock options at 150% of the policy levels, Dr. McRobbie and Mr. Hartley were awarded stock options at 125% of the policy levels and Dr. Hessner and Mr. Cleminson were awarded stock options at 100% of the policy.

The grants are issued on a date set by the Compensation Committee each year. This is usually after the release of the annual financial results. The Committee determines the grant date to be used in advance and the share price used is typically the closing share price at the end of the day prior to the agreed grant date.

The Committee also have the discretion to grant options outside of the stated policy to reflect extraordinary company performance. In addition, the Committee, acting on behalf of the Board, have the discretion to grant options outside of the policy levels and annual grant process for retention or recruitment purposes.

In 2007, the Committee made two stock options awards for retention purposes. Mr. Jennings was granted 100,000 zero cost options, 50,000 of which will vest after 3 years and 50,000 of which will vest after 6 years, subject to Mr. Jennings continuing to be employed by the Corporation and delivering a good performance each year. Mr. Williams was granted 50,000 zero cost options, 20,000 of which will vest after 3 years and 30,000 of which will vest after 4 years, subject to his continued employment with the Corporation and achieving a good performance in each year.

Edgar Filing: INNOSPEC INC. - Form DEF 14A

Following a review of the long term incentive policy and overall compensation against the market median provided by their advisors, the Compensation Committee have recognized that the grant policy stated above is below market median levels in both the UK and US and as a result does not provide the appropriate focus on long term performance or on shareholder value. The Committee have therefore revised the grant policy for 2008 as follows:

	<u>CSOP grants as % of base salary</u>	<u>PRSOP grants as % of base salary</u>
CEO	30%	90%
EVP, Fuel		
Specialties	25%	65%
Senior Executives	20%	55%

The impact of an individual executive's personal performance on the grant policy remains unchanged. This change positions that element of overall compensation delivered through long term incentive plans closer to market practice in the UK & US and ensures the balance between fixed and variable compensation is appropriate and in line with market practice.

Table of Contents**CSOP**

Under the CSOP, options are granted at market value and become exercisable after three years. All options have a ten year term. Options are granted within 20 days after the announcement of results or similar information.

Except in certain circumstances participants must remain in employment with the Corporation in order to be able to exercise their options. The exceptions to this include death, injury, ill-health or disability, redundancy and the transfer of the part of the business within which the option holder works. In these cases, under the rules of the Plan, options vest and the holder has a 12 month period to exercise the options.

In the event of a change of control of the Corporation, under the rules of the Plan, all options become exercisable.

PRSOP

Under the PRSOP, participants are granted the right to acquire shares at no cost provided that specified performance criteria are achieved. The performance criteria that are set are designed to be stretch targets which focus on delivery of high performance and enhancing shareholder value. The performance criteria are regularly reviewed to ensure that they remain relevant and stretching. The criteria for awards made in 2007 are based on total shareholder return measured over a three year period starting with the financial year of the date of grant and the performance of the Corporation versus competitors as measured by share price performance over a three year period versus the Chemical Week 75 Index. The following levels of growth must be achieved before awards vest:

Compound growth in total shareholder return per annum	Proportion of the 50% options allocated to TSR vesting
8%	100%
6%	80%
4%	60%
Below 4%	0% (Nil)

Innospec Share price performance vs Chemical Week 75 Index	Proportion of the 50% of options allocated to relative performance vesting
110%	100%
100%	80%
90%	60%
Less than 90%	0% (Nil)

Awards vest on a straight line basis between each threshold.

Edgar Filing: INNOSPEC INC. - Form DEF 14A

The grants are issued on a date set by the Compensation Committee each year. This is usually after the release of the annual financial results. The Committee determines the grant date to be used in advance and the share price used is typically the closing share price at the end of the day prior to the agreed grant date.

If participants cease employment with the Corporation prior to the end of the vesting period awards will lapse unless the Compensation Committee determines otherwise.

In the event of a change of control of the Corporation, under the rules of the Plan, all options become exercisable.

Exceptional Performance

An additional long term incentive plan designed to reward selected executives for delivering exceptional performance has been recommended by the Compensation Committee, working with its advisors, and approved by the Board. Under this plan a discretionary bonus will be payable to eligible executives if the Innospec share performance out-performs that of competitors, as measured by the Russell 2000 Index, by a minimum of 10% over the three years from January 2008 to December 2010. The amount of bonus which can be earned will be a

Table of Contents

set cash amount for each one percentage point of out-performance. The maximum bonus under this plan will be payable for an out-performance versus the Russell 2000 Index of 30%. No bonus is payable under this plan if the Innospec share price does not out-perform the Russell 2000 Index by more than 10% over the three year period. Participants in this plan must still be in employment with the Corporation at the end of the three year period in order to be eligible to receive any payment under this plan. Eligibility for participation in the plan is at the discretion of the Compensation Committee, acting on behalf of the Board.

Mr. Jennings, CEO, and Mr. Williams, Executive Vice President, Fuel Specialties, are the only executives eligible for participation under this plan. In the case of Mr. Jennings, the amount of bonus earned for each one percentage point of out-performance will be \$400,000 and in the case of Mr. Williams the amount will be \$200,000. In addition, as part of this plan to reward exceptional performance, a discretionary bonus to recognize exceptional performance prior to 2008 can be awarded. Under this plan a bonus of \$1,000,000 was awarded to Mr. Jennings and a bonus of \$500,000 awarded to Mr. Williams in 2007 to recognize the exceptional performance of the Corporation over the previous two years, specifically the establishment of a sustainable specialty chemical business, the reduced dependency on the declining TEL business, the significant improvement in the external perception of the Corporation and the exceptional improvement in shareholder value over the period.

C. Shareholding Guidelines

To further align shareholder and executive interests the Corporation has adopted a shareholding requirement for the executive team. All executives are required to acquire shares and to retain the equivalent of one times base salary. This level of shareholding must be reached within an agreed number of years from appointment. For example, in the case of the CEO, this is 4 years from the date of his appointment into his position. Only shares which are registered in the executive's name are taken into account for these purposes. Unvested equity awards do not count. At the end of 2007, the shareholding of the CEO equated to 135.6% of his year end salary.

D. Other Benefits and Perquisites

These are provided as appropriate and are set by reference to median market practice. They consist of pension arrangements, company car or car allowance, life, disability and medical cover. There are no nonqualified deferred compensation plans. Full details are set out in the footnotes to the Summary Compensation Table.

E. Post-termination Compensation

Post-termination arrangements vary depending on the nature of the termination event and are in accordance with UK market norms. Full details are set out in the footnotes to the Post Employment Payments table.

F. Non Employee Directors

There are also two share plans which are specific to the non employee directors (NEDs). Under the NED Stock Plan non-employee directors are required to take one quarter of their annual fee in the form of shares in the Corporation and are required to hold these as shares as long as they

Edgar Filing: INNOSPEC INC. - Form DEF 14A

remain a NED with the Corporation. The plan is intended to align the interests of the directors with those of the Corporation and its shareholders.

The NEDs are also eligible to participate in the Non Employee Director Stock Option Plan. The policy for granting options under this plan is:

	<u>Grant</u>	<u>Grant price</u>
Annual grant	100% of annual basic fee	Market price on day prior to the day of grant
Initial grant	1000 options	Zero price

The annual basic fee for a NED is currently \$33,000 and this is the figure used for the annual grant for all NEDs, including the Chairman.

Table of Contents

Under this plan, options become exercisable after three years and have a ten year term. Generally, NEDs must remain a NED in order to exercise their options except in the case of death in which case options are able to be exercised for a twelve month period after the date of death. If a NED ceases to be a NED with the Corporation prior to the end of the vesting period, at the discretion of the Compensation Committee, options can be exercised for a period of twelve months from the date of termination of Office.

The NED compensation was reviewed in 2007 and compared to that offered by similar sized chemical companies. As a result, the annual basic fee will increase to \$40,000 for 2008. The grant policy was also revised and from 2008, the annual grant will be \$45,000 worth of options at market price.

- Mr. Jennings and Dr. Hessner are members of a defined benefit (final salary) pension plan (Innospec Limited Pension Plan). Under this scheme, they receive a pension on retirement of 1/57 of their pensionable salary for each year of service. The amount of their annual salary which is defined as pensionable under this scheme is capped and for 2007, this cap was set at \$226,085. Salary in excess of this is not pensionable. Dr. McRobbie is also a member of this pension plan but is not subject to the cap on pensionable salary as he joined the scheme prior to the introduction of the cap. As a result, Dr. McRobbie's pensionable salary is his full base salary. The values stated under the change in pension value and other deferred benefits relate to the increase in the qualified pensions in the Innospec Limited Pension Plan only. There are no non qualified pension benefits for the named executives.

Commentary on Grants Based Awards Table

- Details of the grant policy and performance criteria for the awards made in 2007 are covered earlier in the Compensation Discussion and Analysis.
- The Grants of Plan Based Awards Table details awards made under three separate plans

- i The PRSOP plan. Options are granted at zero price and vesting is subject to achievement of performance criteria as set by the Compensation Committee. In 2007, the performance criteria were set as:
1. 50% weighting on the compound increase per annum in Total Shareholder Return (TSR). The threshold level is set at 4% per annum over three years, in which case 60% of the options will vest. The target level is set at 6% per annum over three years, in which case 80% of the options will vest and the maximum level is set at 8% compound increase per annum in TSR in which case all the granted options will vest.
 2. 50% weighting on the relative performance of Innospec share price versus the Chemical Week 75 index. The threshold level is set at 90% of the Index performance in which case 60% of the

Table of Contents

options will vest. The target level is set at 100% of the Index performance in which case 80% of the options will vest and the maximum level is set at 110% of the Index performance (i.e. 10% out-performance) in which case all the granted options will vest.

- i The CSOP plan. Options are granted at market price and vest after three years.

- i The Co-Investment Plan. The named executives are required to use part of their annual incentive compensation to buy shares in the Corporation and an award of matching stock is made. In order to receive the matching shares, executives must remain employed with the Corporation and continue to hold the shares they purchased with their bonus. The stock awards detailed in the table under All other stock awards relates to the matching shares awarded under this scheme.

Table of Contents

With respect to non vested or unearned performance based share options, the number of shares reported in the table is based on achieving threshold performance goals, as in the previous fiscal year (2007) the performance achieved did not exceed the threshold performance of 4% increase in TSR per annum or the relative threshold performance of 90% of the Chemical Week 75 index performance. In the case of the option grants which expire in 2015, however, the number of shares reported is based on full achievement of the performance criteria as these shares vest in February 2008 and this is the expected outcome. The number of shares reported for Mr. Cleminson in the case of those granted in June 2006, which expire in June 2016 and those reported for Mr. Williams and Mr. Jennings in the case of those which expire on March 2, 2017, are based on full achievement of the performance criteria as this is the expected outcome in each case. In the case of the 200 options granted to all named officers which expire on March 12, 2017 the number of shares reported in each case is based on the full achievement of the performance criteria as this is the expected outcome.

Table of Contents**Pensions Benefit Table**

<u>Name</u>	<u>Plan Name</u>	<u>Number of years of credited service at December 31, 2007</u>	<u>Present Value of Accumulated Benefits (\$)</u>	<u>Payments During Last Fiscal Year</u>
Paul W. Jennings President & Chief Executive Officer	Innospec Limited Pension Plan	6.563	293,397	0
Ian McRobbie Senior Vice President, Research and Technology	Innospec Limited Pension Plan	6.0	478,204	0
Cathy Hessner Senior Vice President, Human Resources	Innospec Limited Pension Plan	5.208	204,811	0

- The Corporation operates a defined benefit pension plan for relevant employees based in the UK called the Innospec Limited Pension Plan. The scheme was available to all employees in the UK, but is now effectively closed to new members. Mr. Jennings, Dr. McRobbie and Dr. Hessner are members of this scheme. The Corporation does not participate in any other defined benefit pension arrangements in respect of any of the named executives. The Defined Benefit Pension Table therefore covers the Innospec Limited Pension Plan only.
- The scheme provides a pension on retirement of 1/57 of pensionable salary for each year of service. The amount of annual salary which is defined as pensionable under this scheme is capped and for 2007 this cap was set at \$226,085. In the case of Mr. Jennings and Dr. Hessner, salary in excess of this is not pensionable. Dr. McRobbie is also a member of this pension plan but is not subject to the cap on pensionable salary as he joined the scheme prior to the introduction of the cap. As a result, Dr. McRobbie's pensionable salary is his full base salary.
- In the case of the named executives, pensionable salary under the scheme is defined as base salary only, up to the pensions cap where relevant. Any bonus payments or supplementary payments are not treated as pensionable.
- Under the rules of the Plan, normal retirement age is 65 although members can retire at 60 without an actuarial reduction. Retirement between the ages of 55 and 60 is permitted, but the pension payable is reduced by an amount determined by the actuarial advisors to the trustees of the Plan. If a member of the scheme is made redundant by the Corporation and is already age 50 or over, then, under the rules of the Plan, they are able to take their pension immediately without any actuarial reduction. If, however, a member was under 50 at the time of severance, they would be entitled to unreduced pension benefits from age 55. Any benefit paid would be in the normal form payable by the Plan, namely a monthly pension with an option to surrender part of this pension for a tax free lump sum, in line with UK tax regulations.
- If an individual chooses to transfer benefits into the Plan from another scheme, they will be provided with a service credit in lieu of the transferred in benefits. The amount of service credit given is calculated by the actuaries on behalf of the Trustees of the Plan and is designed to be cost neutral to the Plan. The right to transfer is subject to the approval of the Trustees of the Plan.
- Mr. Jennings joined the Innospec Limited Pension Plan on July 1, 2004 and received a service credit of 3.063 years in lieu of transferred in benefits from another scheme. His credited service in the Plan at December 31, 2007 was therefore 6.563 years. Dr. Hessner joined the Innospec Limited Pension Plan on July 1, 2004, and on joining the Plan, received a service credit of 1.708 years in lieu of transferred in benefits, giving a credited service in the Plan at December 31, 2007 of 5.208 years.

- The Corporation does not provide any non qualified deferred compensation programs.

Table of Contents

- The present value of accumulated benefits as at December 31, 2007 has been calculated using the following principal assumptions

<u>Discount rate</u>	<u>5.8%</u>
Post retirement pensions Increases	3.2% per annum on pensions in excess of the Guaranteed Minimum Pension (GMP). GMP is assumed to increase in line with statutory requirements
Pre retirement decrements	Individuals are assumed to remain in service and retire at the earliest age at which they can take their full pension benefits unreduced in normal health and circumstances (age 60 for each of the above individuals).
Post retirement mortality	PA92 series tables projected to current calendar year. An allowance is made for future improvements in mortality which is equivalent to reducing the discount rate by 0.25% pa. The discount rate of 5.8% pa is before this reduction.

- In the case of resignation, none of the named executives would be entitled to any post employment payments from the Corporation.
- In terms of any payments relating to stock options, the named executives are treated in line with the majority of salaried employees in their relevant business in the event of retirement or change of control. In the case of retirement under the rules of the Company Share Option Plan (CSOP), any CSOP options granted will vest and become exercisable, whilst under the rules of the Performance Related Share Option Plan (PRSOP) options which have not vested will lapse. In both cases, the named executives are treated as all other employees with options under the plan. The value of any share options which will become exercisable under each scenario, using the 2007 year end share price of \$17.16, is included in the table above.
- In the case of a change of control, under the rules of the stock option plans, all options will become exercisable. Change of control is deemed to have occurred if a person or group becomes the beneficial owner of 30% or more of the combined voting power of the Corporation; there is a consolidation or merger and the Corporation is not the surviving corporation; the shareholders of the Corporation approve plans or proposals for a liquidation or dissolution of the Corporation or, if following a cash offer or merger, the members of the Board cease to constitute a majority of the Board. The value of any share options which will become exercisable in these scenarios, using the year end share price of \$17.16, is included in the table above.

Table of Contents

- Named executives based in the UK are provided with life assurance cover at 4 times their base salary if they die in service. In the case of executives based in the US, the death in service cover is 1.25 times base salary. The amount of these potential payments for each named officer is included in the table above.
- In case of termination without cause, the Corporation would normally be liable for a severance payment to the individual. The severance payment would normally cover loss of salary and other direct compensation for the duration of the notice period specified in the employment agreement with the executive. In the case of all the named executives, this notice period is 12 months. In addition, in line with the rules of the share option plans, any CSOP options would vest and the executive would have 12 months from the date of termination to exercise these and any vested options under any of the share plans. With regards to the options, the named executives are treated the same way as other employees who hold options under the plans. The amounts detailed in the post employment payments table include the severance payments and the value of any share options which will become exercisable, using the year end share price of \$17.16.
- The named executives have a change of control agreement with the Corporation. This specifies that in the event of a change of control of the Corporation, then if the Corporation terminates the executive within 12 months of the change of control, or if the executive terminates his employment within 12 months for good cause, the executive will be entitled to a compensation payment. In the case of the Corporation terminating the executive, this is calculated as 24 months compensation defined as base salary, bonus at target and any car allowance from the date of notice of termination. If the executive terminates his employment, the payment is calculated as 24 months compensation, defined as above, from the date of the change of control. In addition, under the rules of the share option plans, all options would vest on the change of control. The named executives are treated in the same way as other employees who hold options under the plans. The amounts detailed in the post employment payments table include the compensation payments and the value of any share options which will become exercisable, using the year end share price of \$17.16 as an indication.
- As part of their employment agreement with the Corporation, each of the named executives, including the Chief Executive Officer and the Chief Financial Officer is subject to a 12 month non solicitation period, with respect to customers and employees, and a 12 month non compete period, from the date their employment with the Corporation ends.

If an Option Holder shall cease for any reason (including termination, whether lawful or otherwise) to hold on office or to be in the employment of a Member of the Group, he shall not be entitled, by way of compensation for loss of office or otherwise howsoever, to any sum or any benefit to compensate him for the loss of any right or benefit accrued or in prospect under the Plan.

If payment is made pursuant to this Rule to an Option Holder, he shall have no further rights in respect of the Shares for which the notice of exercise was given. The Company may recover the tax from the Option Holder in such manner as the Committee thinks fit including (but without prejudice to the generality of the foregoing):

- (a) withholding shares when the Option is exercised and selling the same; or
- (b) deducting the necessary amount from the Option Holder's fees; or
- (c) requiring the Option Holder to account directly to such company for such tax.

13. UNITED STATES SECURITIES ACT OF 1933

The grant of any Option under the Plan to any person subject to United States securities laws shall be subject to fulfilling the requirements (including obtaining any required approval or consent) of the provision of the Securities Act or of any applicable regulation or enactment. The Options have not been, and will not be, registered under the Securities Act, or under any other securities laws in any other jurisdiction in the United States. Shares issued pursuant to the exercise of an Option may be registered on Form S-8. Until so registered, any transfer of such Shares may be restricted.
