On July 16, 2008, Cabot Oil & Gas Corporation (the Company) completed a private placement of \$425 million aggregate principal amount of senior unsecured fixed-rate notes pursuant to a Note Purchase Agreement dated July 16, 2008 (the Agreement) between the Company and the institutional purchasers named therein. The notes consist of \$245 million aggregate principal amount of the Company's 6.44% Series D Senior Notes due July 16, 2018, \$100 million aggregate principal amount of the Company's 6.54% Series E Senior Notes due July 16, 2020 and \$80 million aggregate principal amount of the Company's 6.69% Series F Senior Notes due July 16, 2023 (collectively, the Notes).

Interest on the Notes of each series is payable semi-annually. The Company may prepay all or any portion of the Notes of each series on any date at a price equal to the principal amount thereof plus accrued and unpaid interest and a make-whole premium. The Notes contain restrictions on the merger of the Company with a third party other than under certain limited conditions. There are also various other restrictive covenants customarily found in such debt instruments. These covenants include a required asset coverage ratio (present value of proved reserves plus adjusted cash (as defined in the Agreement) to debt and other liabilities) of at least 1.5 to 1.0, and a minimum annual coverage ratio of operating cash flow to interest expense for the trailing four quarters of 2.8 to 1.0. The Notes also are subject to customary events of default. The Company is required to offer to prepay the Notes upon specified change in control events if a credit ratings test is not met.

A copy of the Agreement, including the form of the Notes of each series, has been filed as Exhibit 4.1 to this report and is incorporated by reference herein.
